September 19, 2017

Dear Shareholders,

This report provides an update of AB FCFI (the “Fund”) for the annual reporting period ended August 31, 2017.

Global stocks gained significant ground during the 12-month period ended August 31, 2017 (in US dollar terms), despite several fleeting pullbacks. Returns in emerging-market equities eclipsed other regions, though US and non-US stocks also delivered strong results.

Global bonds generally rose as well (bond yields move inversely to price). Emerging-market local-currency government bonds and investment-grade credit securities rebounded, outperforming the negative returns of developed-market treasuries, but trailing the rally of global high-yield securities. Developed-market treasury yields rose almost across the board over the 12-month period, with the exception of shorter maturities in the UK and eurozone.

The period was dominated by unforeseen geopolitical events unfolding against the backdrop of a gradually improving global economy. Aftershocks from the UK’s referendum to leave the European Union (“Brexit”), an unexpected US presidential victory by Donald Trump and French president Emmanuel

Macron’s resounding win, each influenced markets. Financial markets greeted Trump’s win with a burst of enthusiasm, though White House upheaval and policy risk rattled investors at times. UK prime minister Theresa May also shook markets with her failed attempt to solidify her mandate going into Brexit negotiations. In contrast, investors cheered a decisive majority in the French parliament for Macron’s centrist party. Towards the end of the period, tensions on the Korean Peninsula flared, though concerns over growing animosity between the US and North Korea were offset by positive global economic data.

Investors also looked to central bankers. European central banks generally maintained an easing bias, though at the end of the period they began to communicate that monetary policy normalization was on the horizon. Meanwhile, weaker-than-expected US inflation data led investors to believe that aggressive Federal Reserve action would be less likely, putting downward pressure on the US dollar.

We appreciate your investment in the Fund.

Sincerely,

AllianceBernstein (Luxembourg) S.à r.l., the Management Company of the Fund

The share class performance of each Portfolio is based on the net asset value incorporating the impact of expenses reimbursed or waived by the Management Company as of August 31, 2017. No adjustment has been made for sales charges that may apply when shares are purchased or redeemed. Performance for distributing share classes includes the reinvestment of distributions paid during the year. Past performance is no guarantee of future results. Investment return and principal value may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

NOTES TO FINANCIAL STATEMENTS
For the year ended August 31, 2017

AB FCP I

NOTE A: General Information

AB FCP I (the “Fund”) is a mutual investment fund (*fonds commun de placement*) organized under the laws of the Grand Duchy of Luxembourg and registered under Part I of the Law of December 17, 2010 on undertakings for collective investment, as amended (the “Law of 2010”). The Fund is managed in the interest of its co-owners (the “Shareholders”) by AllianceBernstein Luxembourg S.àrl. (the “Management Company”), a company organized under the laws of the Grand Duchy of Luxembourg and having its registered office in Luxembourg. The Fund qualifies as an Undertaking for Collective Investments in Transferable Securities (“UCITS”) within the meaning of Article 1(2) of the EC Directive 2009/65 of July 13, 2009, as amended.

It was decided by the Board of Managers to approve the merger of AB FCP I – Global Growth Trends Portfolio into AB SICAV I – Thematic Research Portfolio, effective October 28, 2016.

Effective September 14, 2016, AB FCP I – Eurozone Strategic Value Portfolio was renamed AB FCP I – Eurozone Equity Portfolio and AB FCP I – European Value Portfolio was renamed AB FCP I – European Equity Portfolio.

Effective December 15, 2016, all Portfolios of the Fund ceased accepting subscriptions of Class B shares (except for Class BY in AB FCP I – Asia Ex-Japan Equity Portfolio) from investors,

including new and existing investors, though certain exchanges may be permitted in Class B shares (including all variations thereof and corresponding hedged shares) of another Portfolio or other AB fund available in their jurisdiction.

On September 1, 2016, it was resolved by the Board of Managers to approve re-designation of the current class S1 shares of AB FCP I – European Equity Portfolio to class S1X shares, being specified this share classes will continue to be available for purchase only by the existing shareholders of such share classes.

On November 17, 2016, it was resolved by the Board of Managers to reduce the maximum initial sales charges from 6.25% to 5.00% for all class A shares (including all variations and thereof and corresponding hedged shares), effective December 15, 2016.

The Fund comprises separate pools of assets currently consisting of 19 active portfolios (each, a “Portfolio,” and, collectively, the “Portfolios”). Each Class of Shares represents an interest in each relevant Portfolio’s investment securities and other net assets. All Shares of a Class have equal rights to distributions and redemptions.

The following table lists each Portfolio’s commencement of operations as well as Share Classes seeded as of August 31, 2017:

NOTE B: Significant Accounting Policies

The Financial Statements have been prepared in accordance with Luxembourg legal and regulatory requirements. The following is a summary of significant accounting policies followed by the Portfolios.

1. Valuation

1.1 Investments in Securities

Securities listed on a stock exchange or traded on any other regulated market are valued at the last available price on such exchange or market or, if no such price is available, at the mean of the closing bid and asked price quoted on such day. If a security is listed on several stock exchanges or markets, the last available price on the stock exchange or market which constitutes the main market for such security is used.

Securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at “fair value” as determined in accordance with procedures established by, and under the general supervision of, the Management Company’s Board of Managers. Fair valuation procedures are designed to adjust closing market prices of Portfolio securities to reflect what is believed to be the fair value of those securities at the Portfolio’s Valuation Point.

When fair valuation procedures are employed with respect to a particular Portfolio security, various objective and subjective factors may be considered, including, among other things, developments affecting the security or involving an entire market since the security’s latest reported price, current valuations of relevant stock indices or pronouncements of certain governmental authorities. Fair value prices based on third party vendor modeling tools may be utilized to the extent available. Therefore, when fair valuation procedures are employed, the prices of individual Portfolio securities utilized to calculate the Portfolio’s Net Asset Value (“NAV”) may differ from quoted or published prices for the same securities. Currently, fair value adjustments are only applicable to certain equity securities and futures contracts.

Accordingly, as may also be the case with a previously reported stock exchange price, the price of any Portfolio security determined utilizing fair value pricing procedures may be materially different from the price to be realized upon the sale of such security.

For Portfolio securities primarily traded on U.S. exchanges, it is expected that fair value pricing procedures are employed only under very limited circumstances such as, for example, the early closing of an exchange on which a particular security is traded or the suspension of trading in a particular security. However, it is anticipated that fair value pricing procedures will be utilized frequently for securities traded on non-U.S. exchanges or other markets, particularly European and Asian markets excluding India, because, among other reasons, these markets close well before the Portfolio’s Valuation Point. Between the close of these markets and the relevant Portfolio’s Valuation Point, significant events including broad market moves may occur. In particular events in the U.S. market on a trading day after the close of these mother markets may affect the value of the Portfolio’s securities. Japan Strategic Value Portfolio has adopted a policy to only fair value securities when deemed relevant based on the performance of a benchmark and relative capstock flows. The Eurozone Equity Portfolio and the European Equity Portfolio do not currently fair value securities under any circumstances.

Fixed income securities (i), securities not listed on any stock exchange or traded on any regulated market (ii), and securities, trading of which on a stock exchange or a regulated market is thin (iii), are valued at the most recent bid price provided by the principal market makers. If there is no such market price, or if such market price is not representative of a security’s fair market value, then the security is valued in a manner determined to reflect its fair value in accordance with procedures established by, and under the general supervision of, the Management Company’s Board of Managers.

U.S. Government securities and any other debt instruments having 60 days or less remaining until maturity are generally valued at market by an independent pricing vendor, if a market price is available. If a market price is not available, the securities are valued at amortized cost. This methodology is commonly used for short-term securities that have an original maturity of 60 days or less, as well as short-term securities that had an original term to maturity that exceeded 60 days. In instances when amortized cost is utilized, the Valuation Committee (the “Committee”) must reasonably conclude that the utilization of amortized cost is approximately the same as the fair value of the security. Such factors the Committee will consider include, but are not limited to, an impairment of the creditworthiness of the issuer or material changes in interest rates. The Committee decisions are made in accordance with procedures established by, and under general supervision of, the Management Company’s Board of Managers.

Over-the-counter (“OTC”) swaps and other derivatives are valued daily, primarily using independent pricing services, independent pricing models using market inputs, as well as third party broker-dealers or counterparties.

1.2 Warrant Valuation

A listed warrant is valued at the last traded price provided by approved vendors. If there has been no sale on the relevant business day, the warrant is valued at the last traded price from the previous day. On the following days, the security is valued in good faith at fair value. All unlisted warrants are valued in good faith at fair value. Once a warrant has expired, it will no longer be valued.

1.3 Financial Futures Contracts

Initial margin deposits are made upon entering into futures contracts. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by “marking-to-market” on a daily basis to reflect the market value of the contract at the end of each day’s trading. Variation margin payments are made or received, depending upon whether unrealized losses or gains are incurred. When the contract is closed, a realized gain or loss is recorded. This realized gain or loss is equal to the difference between the proceeds from (or cost of) the closing transaction and the Fund’s basis in the contract.

Open futures contracts are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuations, the last available closing settlement price is used.

1.4 Forward Foreign Currency Contracts

The unrealized gain or loss on open forward foreign currency contracts is calculated as the difference between the contracted rate and the rate to close out the contract. Realized profit or loss includes net gains or losses on forward foreign currency contracts which have been settled or offset by other contracts with the same counterparty.

1.5 Options Purchased and Options Written

When an option is purchased, an amount equal to the premium paid is recorded as an investment and is subsequently adjusted to the current market value of the option purchased. Premiums paid for the purchase of options which expire unexercised are treated on the expiration date as realized losses. If a purchased put option is exercised, the premium is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or loss. If a purchased call option is exercised, the premium increases the cost basis of the security or foreign currency purchased by the relevant Portfolio. When an option is written, an amount equal to the premium received by the relevant Portfolio is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are treated by the relevant Portfolio on the expiration date as realized gains. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or a loss. If a written put option is exercised, the premium reduces the cost basis of the security or foreign currency purchased by the relevant Portfolio. Listed put or call options by a portfolio are valued at the last sale price. If there has been no sale on that day, such securities are valued at the closing bid prices on that day.

1.6 Investments in other UCIs

Investments in other Undertakings for Collective Investments (“UCIs”) are valued at the last available Net Asset Value for the UCI in question.

1.7 Swap Agreements

The Portfolios accrue for interim payments on swap contracts on a daily basis, within income and expenses. Swap contracts are marked to market on a daily basis with fluctuations in value recorded in unrealized appreciation (depreciation) on swaps in the Statement of Assets and Liabilities and change in unrealized gains and losses on swaps in the Statement of Operations and Changes in Net Assets. Once a swap contract has matured or is sold, the net amount is recorded as a realized gain or (loss) on investments on the Statement of Operations and Changes in Net Assets. The upfront premiums paid or received are recognized as cost or proceeds on the Statement of Assets and Liabilities and are amortized on a straight line basis over the life of the contract. Accruals of amortized upfront premiums on credit default swaps are included in swap income until the position is sold, thereafter the amortized upfront premiums are included in net realized gains and (losses) from swaps. On all other swap types the amortized upfront premiums are included within net realized gains and (losses) from swaps. Fluctuations in the value of swap contracts are recorded as a component of changes in unrealized gains and (losses) on swaps on the Statement of Operations and Changes in Net Assets.

“Upfront premiums paid (received) on swap contracts” disclosed in the Statements of Assets and Liabilities include premiums paid (received) on the OTC credit default swaps and a margin that is yet to be settled on the centrally cleared credit default swaps.

2. Organization Expenses

The organization expenses of all existing Portfolios have been fully amortized in prior years.

3. Allocation Method

Income and expenses (except for class-specific management and distribution fees) for the “fixed income” and “balanced” Portfolios are allocated on a daily basis utilizing a hybrid allocation model. This model allocates based upon each class’ proportionate percentage of the combined value of settled shares for those classes which accrue a daily dividend and the value of the shares outstanding for those classes which accrue a monthly dividend or no dividend at all. Income and expenses for the “equity” Portfolios are allocated on a daily basis by each class’ value of their proportionate shares outstanding. For all of the Portfolios, realized and unrealized gains and losses are allocated on a daily basis by each class’ value of their proportionate shares outstanding. Class-specific management, management company, distribution fees and realized and unrealized gains and losses on forward foreign currency contracts related to the Currency Hedged Share Classes are charged /allocated directly to the respective class.

Due to the distinct institutional nature of all types of Class S shares of the Portfolios, certain fund expenses, where applicable, are allocated to the respective Class S shares based upon minimum shareholder activity and account level requirements.

4. Currency Translation

Values expressed in a currency other than the currency in which a Portfolio is denominated as determined by the Management Regulations are translated at the average of the last available buying and selling price. Transactions in foreign currencies are translated into the currency of each Portfolio at the exchange rate ruling at the date of the transactions.

The Combined Statement of Assets and Liabilities is presented in U.S. Dollars at the exchange rates ruling at the date of the combined Statement of Assets and Liabilities, while the Combined Statement of Operations and Changes in Net Assets is presented in U.S. Dollars at the average exchange rates ruling during the year.

Exchange rates applied in the financial statements are: spot rate 1.1919 and average rate 1.1009 for EUR to USD, spot rate 0.0091 and average rate 0.0090 for JPY to USD.

The “Currency translation adjustment” presented in the Combined Statement of Operations and Changes in Net Assets is the result of the difference in exchange rates used to translate the Combined Statement of Assets and Liabilities and the Combined Statement of Operations and Changes in Net Assets.

5. Investment Income and Investment Transactions

Dividend income is recorded on the ex-dividend date. Interest income is accrued daily. Investment gains and losses for the Portfolios are determined on an average cost basis.

The Fund accretes discounts and amortizes premiums as adjustments to interest income. Investment transactions are recorded on trade date plus one day.

6. Estimates

The preparation of Financial Statements in conformity with accounting principles generally accepted in Luxembourg requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of income and expenses during the reporting period. Actual results may differ from those estimates.

7. Swing Pricing Adjustment

The Management Company of the Fund has communicated to all shareholders of the Fund to implement a Net Asset Value (NAV) Adjustment Policy, also known as “swing pricing” policy effective from November 2, 2015. Under this policy, a Portfolio’s NAV may be adjusted to reflect the impact of estimated transaction costs, deal spreads and charges generated by shareholders’ purchase and redemption activity. Swing pricing is automatically applied when daily net subscriptions or redemptions exceeds a threshold specified by the Swing Pricing Committee under the supervision of the Board of Managers. When swing pricing is applied, the NAV of the relevant portfolio’s shares will be adjusted up or down, in an amount generally not to exceed 2% of the relevant NAV, so that the transaction costs incurred due to the purchase and redemption activity are borne by the investors transacting in

the portfolio’s shares, rather than the Portfolio itself. This adjustment is intended to minimize dilution of the value of shareholders’ investment in shares of a portfolio brought on by transactions in the Portfolio’s shares.

The Net Asset Value per Share as disclosed in the statistical information is the published Net Asset Value per share, whereas the total net assets disclosed in the Statement of Net Assets and Liabilities and Statement of Operations and Changes in Net Assets is the total Net Asset Value excluding any period end swing adjustments.

As of August 31, 2017, the Net Asset Value and the Net Asset Values per Share of the following Portfolio were swung:

- American Income Portfolio.

NOTE C: Taxes

As a Luxembourg *fonds commun de placement* (FCP), the Fund is not subject, under present tax laws, to income, withholding or capital gains taxes in Luxembourg. The Fund is subject to the Luxembourg *taxe d’abonnement* at the rate of 0.05% per annum calculated and payable quarterly as the aggregate total net

assets on the last day of each calendar quarter. The rate is 0.01% for share classes reserved to institutional investors within the meaning of Article 174 of the Law of 2010. Interest, dividends and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

NOTE D: Distributions

The Management Company does not currently intend to pay dividends with respect to the shares for the following Portfolios: Global Equity Blend Portfolio, Emerging Markets Growth Portfolio, US Thematic Research Portfolio. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For Developed Markets Multi-Asset Income Portfolio:

- For class AD, BD, CD, ID and ND shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Management Company intends to declare and make annual distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor’s original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class AX, BX, CX and IX shares, the Management Company intends to declare and pay quarterly dividends equal to all or substantially all of the Portfolio’s net income attributable to each class of Shares.
- For class A, B, C, A2X, B2X, C2X, I, N and S1 shares (and corresponding H shares), the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For Dynamic Diversified Portfolio:

- For class AR shares (and corresponding H shares), the Management Company intends to declare and make annual distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and

unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor’s original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

- For class A, B, C, I, S, S1, SP, S1P, AX, BX, CX and IX shares (and corresponding H shares), the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For Global Value Portfolio:

- For class A, B, C, I, S, S1, SA GB, SB GB, S1A GB and S1B GB shares (and corresponding H shares), the Management Company currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.
- For class AD, BD and SD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor’s original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For American Growth Portfolio:

- For class A, AX, B, BX, C, I, N, S, S1 and SK shares (and corresponding H shares), the Management Company currently does not intend to pay distributions with respect

to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

- For class AD, BD and SD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Eurozone Equity Portfolio:

- For class AR shares, the Management Company intends to declare and make annual distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class A, AX, B, BX, C, CX, I, IX, S and S1 shares (and corresponding H shares), the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For European Equity Portfolio:

- For class A, B, C, I, S, S1 and S1X shares (and corresponding H shares), the Management Company currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.
- For class AD, BD and SD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Asia Ex-Japan Equity Portfolio:

- For class A, B, C, I, S and S1 shares (and corresponding H shares), the Management Company currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.
- For class AY and class BY shares, the Management Company has discretion to declare and pay distributions

based on the Portfolio's net income attributable to each class of Shares.

- For class AD, BD, ID and SD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Japan Strategic Value Portfolio:

- For class A, B, C, I, S, S1 and 2 shares (and corresponding H shares), the Management Company currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.
- For class AD, BD and SD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For China Opportunity Portfolio:

- For class A, B, C, I, S and S1 shares, the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to such Shares will be reflected in the respective Net Asset Value of such Shares.
- For class AD and BD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Global Bond Portfolio:

- For class A, AX, B, BX, C, I, S and S1 shares (and corresponding H shares, unless noted otherwise), the Management Company intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For class AJ, AT, BT, CT, IT and NT shares (and corresponding H shares), the Management Company intends to declare and pay monthly dividends equal to all

or substantially all of the Portfolio's net income attributable to each class of Shares.

- For class AA, BA and SA shares (and corresponding H shares), the Management Company intends to declare and make monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Management Company intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of Shares. Since fees and expenses do not reduce the distribution rate, the NAV per Share of the relevant classes will be reduced by such fees and expenses.
- For class A2, B2, C2, I2, N2, S 2 and S1 2 shares (and corresponding H shares) and S EUR H, S1 EUR H, S SGD H shares, the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For Global High Yield Portfolio:

- For class A, B, C, I, JA and J shares (and corresponding H shares), the Management Company intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For class AT, BT, CT, IT, NT, SM and S1D shares (and corresponding H shares), the Management Company intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For class IQD and S1QD shares, the Management Company intends to declare and pay quarterly dividends equal to all or substantially all of the Portfolio's net income attributable to the class of Shares. For class SK shares, the Management Company may declare and pay dividends at its discretion.
- For class AK and CK shares (and corresponding H shares), the Management Company intends to declare and pay bi-annually dividends equal to all or substantially all of the Portfolio's net income attributable to the relevant class of Shares.
- For class AM shares, the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a fixed distribution of 7% (annualized) per share for AM shares. As such, distributions may come from net income, realized and unrealized gains and/or capital attributable to the relevant class. Distributions from capital may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class. The Management Company will periodically review the level of income and expenses at the AM class level, along with the fixed distribution percentage and may decide to decrease or increase the fixed distribution percentage. Such percentage will be reflected in the next update of the prospectus and in the meantime, shareholders may obtain the latest percentage at www.abglobal.com.

- For class AA, BA, IA and SA shares (and corresponding H shares), the Management Company intends to declare and make monthly distributions. For class SHK shares (and corresponding H shares), the Management Company intends to declare daily and make monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Management Company intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of Shares. Since fees and expenses do not reduce the distribution rate, the NAV per Share of the relevant classes will be reduced by such fees and expenses.
- For class A2, B2, C2, I2, N2, S and S1, the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For American Income Portfolio:

- For class A, B, C, I, JA and J shares (and corresponding H shares), the Management Company intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For class AT, BT, CT, IT, NT and S1D shares (and corresponding H and DUR PH shares), the Management Company intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For class AK and CK shares (and corresponding H shares), the Management Company intends to declare and pay bi-annually dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For class AM shares, the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a fixed distribution of 5% (annualized) per share for AM shares. As such, distributions may come from net income, realized and unrealized gains and/or capital attributable to the relevant class. Distributions from capital may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class. The Management Company will periodically review the level of income and expenses at the AM class level, along with the fixed distribution percentage and may decide to decrease or increase the fixed distribution percentage. Such percentage will be reflected in the next update of the prospectus and in the meantime, shareholders may obtain the latest percentage at www.abglobal.com.
- For class AA, BA, IA and SA shares (and corresponding H and DUR PH shares), the Management Company intends to declare and make monthly distributions. For class SHK shares (and corresponding H shares), the Management Company intends to declare daily and make monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Management Company intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of Shares. Since fees and expenses do not reduce the distribution rate, the NAV per Share of the relevant classes will be reduced by such fees and expenses.

annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of Shares. Since fees and expenses do not reduce the distribution rate, the NAV per Share of the relevant classes will be reduced by such fees and expenses.

- For class S1QD shares (and corresponding H shares), the Management Company intends to declare and pay quarterly dividends equal to all or substantially all of the Portfolio's net income attributable to the class of Shares.
- For class A2, B2, C2, I2, N2, S and S1 shares (and corresponding H and DUR PH shares), the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For European Income Portfolio:

- For class A, B, C and I shares, the Management Company intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares. For class AT, BT, CT, IT, NT and S1D shares (and corresponding H shares), the Management Company intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For class AK and CK shares, the Management Company intends to declare and pay bi-annually dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.

realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For Global Bond II Portfolio:

- For class S1 shares, the Management Company intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.

The Management Company also may determine if and to what extent dividends paid include realized capital gains and/or are paid out of capital attributable to the relevant class of Shares. To the extent the net income and net realized profits attributable to these Shares exceed the amount declared payable, the excess return will be reflected in the respective Net Asset Value of such Shares. Dividends may be automatically reinvested at the election of the Shareholder.

NOTE E: Management Fee and Other Transactions with Affiliates

The Fund pays AllianceBernstein (Luxembourg) S.à r.l. (the "Management Company") a management fee. Under the terms of the Investment Management Agreement from the management fee earned, the Management Company pays an investment management fee to AllianceBernstein L.P. (the "Investment Manager").

The Management Company has voluntarily agreed to bear certain expenses to the extent necessary to limit total operating expenses on an annual basis.

These limitations have been set as follows (limitations expressed as a percentage of the average daily net assets):

The Fund compensates the Investment Manager for certain services provided to the Fund in connection with the registration of the Fund for sale in certain jurisdictions outside of Luxembourg, subject to certain conditions. Such compensation amounted to \$1,000,341 for the year ended August 31, 2017 and is included in “Professional fees” in the Statement of Operations and Changes in Net Assets.

The Fund compensates its legal adviser, Elvinger Hoss Prussen, société anonyme (of which Mr. Yves Prussen, a manager of the Management Company, is a partner) for legal services rendered to the Fund. Payments of €34,589 were made for the year ended August 31, 2017 and are included in “Professional fees” in the Statement of Operations and Changes in Net Assets.

The Investment Manager has not entered into transactions in relation to a placing and/or a new issue in which a connected person had a material interest as a member of the underwriting syndicate.

All transactions executed on behalf of the Fund were entered into in the ordinary course of business and/or normal commercial terms. There was no commission paid for the year ended August 31, 2017 on securities transactions utilizing the services of the affiliated firms, Sanford C. Bernstein & Co. LLC and Sanford C. Bernstein Ltd. Several of the Fund’s directors are employees and/or officers of the Investment Manager and/or its affiliates.

Dynamic Diversified Portfolio invests in AB SICAV I - Low Volatility Equity Portfolio which is managed by the Management Company. China Opportunity Portfolio invests in AB SICAV II – China Equity Portfolio which is managed by the Management Company. Global High Yield Portfolio invests in AB SICAV I - Emerging Market Corporate Debt Portfolio, AB SICAV I - Euro High Yield Portfolio, AB SICAV I – Emerging Market Local Currency Debt Portfolio, AB SICAV I – US High Yield Portfolio and AB FCP I - Mortgage Income Portfolio, which are managed by the Management Company. Emerging

Markets Debt Portfolio invests in AB SICAV I - Emerging Market Corporate Debt Portfolio which is managed by the Management Company.

The Fund may purchase securities from, or sell securities to, an affiliated fund provided the affiliation is due solely to having a common investment advisor, common officers, or common directors. For the year ended August 31, 2017, the purchase and sale transactions with an affiliated fund were \$0 and \$594,717, respectively.

NOTE F: Soft Commission Arrangements and Transaction Costs

During the year ended August 31, 2017, the Investment Manager received and entered into soft-dollar commissions/arrangements with brokers relating to Portfolios of the Fund that invest in equity securities, in respect of which certain goods and services used to support the investment decision making process were received.

The soft commission arrangements were entered into on the basis that the execution of transactions on behalf of the Fund will be consistent with best execution standards and brokerage rates will not be in excess of customary institutional full-service brokerage rates. The goods and services received include specialist industry, company and consumer research, portfolio and market analysis and computer software used for the delivery of such services. The nature of the goods and services received is such that the benefits provided under the arrangement must be those which assist in the provision of investment services to the Fund and may contribute to an improvement in the Fund's performance.

For the avoidance of doubt, such goods and services do not include travel, accommodations, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employees' salaries or direct money payments.

Transaction costs are costs incurred in the acquisition, issue or disposal of transferable securities, money market instruments, derivatives or other eligible assets. They can include bid-ask spread, fees and commissions paid to agents, advisers, brokers and dealers, transaction related taxes and other market charges. They do not include debt premiums or discounts, financing costs or internal administrative or holding costs. Transaction costs are included within the cost of investments in the Portfolio of Investments as well as in the net realized gains and (losses)

on investments and change in unrealized appreciation and (depreciation) on investments in the Statement of Operations and Changes in Net Assets. Transaction costs are excluded from the Total Expense Ratio and/or expense reimbursement calculation.

For the year ended August 31, 2017, the amount of transaction costs incurred by each Portfolio is detailed in the following table:

NOTE G: Forward Foreign Currency Contracts

A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contract and the closing of such contract is included in "Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency" in the Statement of Operations and Changes in Net Assets.

Fluctuations in the value of open forward foreign currency contracts are reflected for financial reporting purposes as a component of unrealized gains and (losses) on forward foreign currency contracts.

One or more of a portfolio's share classes offered in a particular currency (each, an "Offered Currency") may be hedged to such Offered Currency. Any such share class will constitute a "Currency Hedged Share Class". Currency Hedged Share Classes aim to provide investors a return more closely correlated to the Portfolio's base currency return by reducing the effect of exchange rate fluctuations between the portfolio's base currency and the relevant Offered Currency, taking into account practical considerations such as transaction costs.

The hedging strategy employed is designed to reduce, but may not eliminate, currency exposure between the portfolio's base currency and the relevant Offered Currency. Risks may arise from the potential inability of a counterparty to meet the terms

of a contract and from unanticipated movements in the value of a foreign currency relative to the hedged currency.

Given that there is no segregation of liabilities between the various share classes within a portfolio, there is a remote risk that, under certain circumstances, currency hedging transactions in relation to a Currency Hedged Share Class could result in liabilities which might affect the Net Asset Value of the other share classes of the same portfolio, in which case assets of the other share classes of the portfolio may be used to cover the liabilities incurred by such Currency Hedged Share Class.

The securities in the Fund are used as collateral for forward foreign currency contracts including contracts used for share class hedging.

NOTE H: Repurchase Agreements

Repurchase agreements are collateralized by obligations of the United States, its agencies or instrumentalities thereof. The securities underlying the repurchase agreement will be held by

NOTE I: Reverse Repurchase Agreements

Reverse repurchase agreements are identical to repurchase agreements except that rather than buying securities for cash subject to their repurchase by the seller, a Fund sells portfolio assets concurrently with an agreement by the Fund to repurchase the same assets at a later date at a fixed price slightly higher than the sale price. During the reverse repurchase agreement period, the Fund continues to receive principal and interest payments on these securities. Generally, the effect of a reverse repurchase agreement is that the Fund can recover all or most of the cash invested in the portfolio securities involved during the term of the reverse repurchase agreement, while it will be able to keep the interest income associated with those portfolio securities.

Such transactions are advantageous only if the “interest cost” to the Fund of the reverse repurchase transaction, i.e.,

NOTE J: Financial Futures Contracts

The Fund may buy or sell financial futures contracts. The Fund bears the market risk that arises from changes in the value of these financial instruments. The Fund's activities in financial futures contracts are conducted through regulated exchanges, which do not result in counterparty credit risk.

At the time the Fund enters into a financial futures contract the Fund deposits and maintains with the broker as collateral an initial margin as required by the exchange on which the transaction is effected.

Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as the variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or (loss) equal to the difference between the value of the contract at the time it was opened and the time it was closed.

Cash held by/owed to the broker as of August 31, 2017 is recorded as part of “Cash at depositary and broker” and “Due to depositary and broker” in the Statement of Assets and Liabilities.

The following table lists cash held by/owed to the broker as of August 31, 2017.

As of August 31, 2017, there was no security collateral pledged/received for forward foreign currency contracts.

The following table lists the cash collateral held for forward foreign currency contracts as of August 31, 2017.

In relation to futures contracts held by the Global High Yield Portfolio as of August 31, 2017 the market value of collateral delivered to Goldman Sachs consisting of U.S. Treasury Bond, 8.00%, 11/15/21 amounted to \$18,650,044 and U.S. Treasury Bond 8.13% 08/15/19 amounted to \$5,087,110.

NOTE K: Swap Transactions

A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset or otherwise determined notional amount. Realized gains and (losses) and changes in unrealized gains and (losses) on swaps are included in the Statement of Operations and Changes in Net Assets respectively under “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” and as a component of “Change in unrealized gains and (losses) on swaps”.

Cash collateral held by/owed to broker in relation to swap contracts is recorded as part of “Cash at depositary and broker” and “Due to depositary and broker” in the Statement of Assets and Liabilities.

Centrally Cleared Credit Default Swaps

The buyer in a centrally cleared credit default swap agreement is obligated to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

Centrally Cleared Interest Rate Swaps

A centrally cleared interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payments based on a notional amount that serves as a computation basis.

The following table lists the cash collateral held by/owed to broker for all its centrally cleared swaps as of August 31, 2017:

Total Return Swaps

A total return swap is a bilateral agreement in which each of the parties agree to exchange the total performance of an underlying asset for a series of interest payments based on a notional amount that serves as a computation basis.

Credit Default Swaps

The buyer in a credit default swap agreement is obligated to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

Interest Rate Swaps

An interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payments based on a notional amount that serves as a computation basis.

Inflation Swaps

An inflation swap is a bilateral agreement in which each of the parties agree to exchange fixed rate payments for floating, inflation index linked payments based on a notional amount that serves as a computation basis.

The following table lists the cash collateral held by/owed to broker for its bilateral swap contracts as of August 31, 2017:

NOTE L: Option Transactions

The Fund may purchase and write (sell) put and call options on securities. The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as Portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the option written.

Premiums received from written options which expire unexercised are recorded by the Fund on the expiration date as realized gains from options written. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium received is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium received is added to the proceeds from the sale of the underlying security

or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option. Exercise of an option written by the Fund could result in the Fund selling or buying a security or currency at a price different from the current market value.

The Fund may also invest in options on swap agreements, also called swaptions. A swaption is an option that gives the buyer the right, but not the obligation, to enter into a swap on a future

date in exchange for paying a market-based premium. A receiver swaption gives the owner the right to receive the total return of a specified asset, reference rate, or index. A payer swaption gives the owner the right to pay the total return of a specified asset, reference rate, or index. Swaptions also include options that allow an existing swap to be terminated or extended by one of the counterparties.

As of August 31, 2017, Emerging Markets Debt Portfolio had cash amounting to \$250,000 owed to Bank of America as collateral for its options.

NOTE M: Loans of Portfolio Securities

A Portfolio may make secured loans of its securities. The risks in lending securities, as with other extensions of credit, consist of possible loss of rights in the collateral should the borrower fail financially. In addition, a Portfolio will be exposed to the risk that the sale of any collateral realized upon the borrower's default will not yield proceeds sufficient to replace the loaned securities.

In determining whether to lend securities to a particular borrower, the Investment Manager will consider all relevant facts and circumstances, including the creditworthiness of the borrower.

While securities are on loan, the borrower may pay the Portfolio concerned any income from the securities. The Portfolio may invest any cash collateral in money market instruments, thereby earning additional income, or receive an agreed upon amount of income from a borrower who has delivered equivalent collateral.

The Portfolio may have the right to regain record ownership of loaned securities or equivalent securities in order to exercise ownership rights such as voting rights, subscription rights and rights to dividends, interest or distributions. The Portfolio may pay reasonable finders', administrative and other fees in connection with a loan.

For making secured loans of its security, a Portfolio receives gross fee income, of which 20% is paid to the securities lending agent for providing securities lending services.

For the year ended August 31, 2017, the Portfolios earned net fee income as follows:

NOTE N: Bank Facility

The Fund has access to an overdraft facility (the “Facility”), established with the Depositary, intended to provide for short-term/temporary financing if necessary, subject to certain restrictions, in connection with abnormal redemption activity.

Each Portfolio of the Fund is limited to borrowing 10% of its respective net assets. Borrowings pursuant to the Facility are subject to interest at a mutually agreed upon rate and security by the underlying assets of each Portfolio.

NOTE O: Co-Management of Assets

For the purpose of effective management, where the investment policies of a Portfolio so permit, the Management Company may choose to co-manage assets of certain Portfolios within or outside the Fund. In such cases, assets of different Portfolios will be managed in common. The assets which are co-managed shall be referred to as a “pool”. These pooling arrangements are an administrative device designed to reduce operational and other expenses and do not change the legal rights and obligations of Shareholders. The pools do not constitute separate entities and are not directly accessible to investors. Each of the co-managed Portfolios shall remain entitled to its specific assets.

Where assets of several Portfolios are pooled for the purposes of collective management, a record is maintained of the proportion

of the Asset Pool which is attributable to each respective participating Portfolio, with a reference to the Portfolio’s original participation in this Pool and will change in the event of additional allocation or withdrawals. The entitlements of each participating Portfolio to the co-managed assets apply to each and every line of investments of such pool.

Additional investments made on behalf of the co-managed Portfolios shall be allotted to such Portfolios in accordance with their respective entitlement, whereas assets sold shall be levied similarly on the assets attributable to each participating Portfolio.

As of August 31, 2017, the Fund co-manages the assets of certain Portfolios within the Fund utilizing the following Pools:

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of AB FCP I

Opinion

We have audited the financial statements of AB FCP I (the “Fund”) and of each of its portfolios (the “Portfolios”), which comprise the statement of assets and liabilities and the portfolio of investments as of August 31, 2017, and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its Portfolios as at August 31, 2017, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (the “Law of July 23, 2016”) and with International Standards on Auditing (“ISAs”) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (“CSSF”). Our responsibilities under those law and standards are further described in the “Responsibilities of the “réviseur d’entreprises agréé” for the audit of the financial statements” section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (“IESBA Code”) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Managers of the Management Company is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the “réviseur d’entreprises agréé” thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Managers of the Management Company and of those charged with governance for the financial statements

The Board of Managers of the Management Company is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal

control as the Board of Managers of the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Managers of the Management Company is responsible for assessing the Fund’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Managers of the Management Company either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of “réviseur d’entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Managers of the Management Company.
- Conclude on the appropriateness of the Board of Managers of the Management Company’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our independent auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of report

of “réviseur d’entreprises agréé”. However, future events or conditions may cause the Fund to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Financial Information on the Fund

The Fund publishes semi-annual and annual financial reports containing a list of each Portfolio's holdings and their market values as of the end of the relevant half-year.

Please be informed that for Portfolios the base currency of which is the Japanese Yen, the payment of the redemption proceeds (the redemption price less any applicable contingent deferred sales charge) will be made by the Depositary or its agents usually within four Business Days after the redemption request for a given trade has been accepted.

As of August 31, 2017, the expense ratio of Developed Markets Multi-Asset Income Portfolio met the expense ratio cap stipulated by the Singapore Central Provident Fund ("CPF") Board of 1.75%. In the financial year when this Portfolio is unable to meet the CPF Board's expense ratio requirements by the relevant date stipulated by the CPF Board, the CPF Board may restrict this Portfolio from accepting new CPF monies from such stipulated date.

In the event that the Dynamic Diversified Portfolio and Global Equity Blend Portfolio are unable to meet the expense ratio caps stipulated by the Singapore Central Provident Fund ("CPF") Board of 1.75%, 1.95% and 1.95%, respectively, by August 31, 2017, these Portfolios will cease to accept new CPF subscription monies from December 24, 2009 onwards. Existing CPF investors would be given options for switching, redeeming or holding their shares.

Notice to Shareholders

If required by law and applicable regulations, notice to shareholders will be published in the *Recueil Electronique des Sociétés et Associations* (formerly the *Mémorial*) and in such other newspaper(s) in such countries as the Management Company may from time to time determine.

Controversial Weapons Policy

The Management Company arranges for the screening of companies globally for their corporate involvement in anti-personnel mines, cluster munitions and/or munitions made with depleted uranium. Where such corporate involvement has been verified, the Management Company's policy is not to permit investment in securities issued by such companies by the Fund.

Value at Risk

For UCITS the Value at Risk (VaR) can be measured on an absolute or a relative basis. VaR is a widely used risk measure of the risk of loss on a specific portfolio of financial assets. The Investment Manager monitored the total global exposure (market risk) of the equity Portfolios for the year ended

August 31, 2017 utilizing the VaR calculated on a relative basis (pursuant to which the VaR of the relevant Portfolio may not exceed twice the VaR of the relevant reference benchmark). During the aforementioned year the low, high and average VaR of the Portfolios measured on a relative basis were as follows:

| Portfolio | Benchmark | Low | High | Average |
|---|---|---------|--------|---------|
| Developed Markets Multi-Asset | | | | |
| Income Portfolio | 50% MSCI World Index / 40% Barclays Global High Yield (Hedged) / 10% Barclays Global Treasuries (Hedged) | 113.83% | 65.99% | 91.11% |
| Global Equity Blend Portfolio | MSCI World | 118.19% | 92.65% | 104.66% |
| Global Value Portfolio | MSCI World | 113.23% | 83.03% | 97.11% |
| Emerging Markets Growth Portfolio | MSCI Emerging Markets | 118.90% | 85.86% | 91.53% |
| American Growth Portfolio | Russell 1000 Growth | 119.09% | 82.84% | 100.04% |
| US Thematic Research Portfolio | S&P 500 | 129.34% | 98.03% | 120.60% |
| Eurozone Equity Portfolio | MSCI EMU | 116.25% | 84.28% | 99.23% |
| European Equity Portfolio | MSCI Europe | 107.24% | 81.14% | 95.01% |
| Asia Ex-Japan Equity Portfolio | MSCI All Countries Asia Free X Japan | 128.16% | 93.03% | 107.95% |
| Japan Strategic Value Portfolio | Topix Index (Tokyo) | 158.86% | 90.87% | 119.39% |
| China Opportunity Portfolio | MSCI China Index | 95.79% | 72.69% | 86.16% |

For the Fixed Income Portfolios the Investment Manager monitored the global exposure (market risk) utilizing the VaR calculated on an absolute basis (pursuant to which the VaR of the relevant Portfolio may not exceed 20% of its Net Asset Value).

During the aforementioned fiscal year the low, high and average VaR of the Portfolios measured on an absolute basis were as follows:

| Portfolio | Low | High | Average |
|---|-------|-------|---------|
| Dynamic Diversified Portfolio | 7.93% | 3.31% | 6.06% |
| Global Bond Portfolio | 1.62% | 0.61% | 0.90% |
| Global High Yield Portfolio | 3.75% | 2.52% | 3.29% |
| American Income Portfolio | 3.32% | 1.67% | 2.64% |
| European Income Portfolio | 4.65% | 1.51% | 2.36% |
| Emerging Markets Debt Portfolio | 8.34% | 2.86% | 6.24% |
| Mortgage Income Portfolio | 0.63% | 0.23% | 0.42% |
| Global Bond II Portfolio | 3.65% | 1.74% | 2.42% |

The VaR of the Portfolios and the VaR of the benchmarks were calculated based on a "historical" model with a 99% confidence

level and an observation period of one month or 20 days.

Leverage

For the Portfolios listed below, the Investment Manager does not expect to utilize bank borrowing in implementing the Portfolio's investment strategy.

The expected level of leverage is calculated as the sum of the notional of the financial derivative instruments held by the Portfolio. Pursuant to the CSSF Circular 11/512 dated May 30, 2011, this calculation methodology neither takes into account the fact that a particular financial derivative instrument

increases or decreases the Portfolio's investment risks nor permits to net financial derivative instruments with reverse positions. Shareholders should be aware that (i) a higher level of expected leverage does not automatically imply a higher level of investment risk and (ii) the expected level of leverage disclosed above is mainly generated by the use of derivatives for hedging purposes or for efficient portfolio management. In addition, the actual leverage of the Portfolio may deviate from the below mentioned expected level of leverage:

- Developed Markets Multi-Asset Income Portfolio
0%-100% range of the Net Asset Value of the Portfolio
- Dynamic Diversified Portfolio
0%-300% range of the Net Asset Value of the Portfolio

Remuneration

From January 1, 2016 until December 31, 2016 (the "Reference Period"), the total amount of remuneration paid-in cash and/or restricted securities-by AllianceBernstein (Luxembourg) S.à r.l. (the "Company") to its entire staff (composed during the Reference Period in average of 43 employees, including its branch) was EUR 3.5 million.

In particular, during the Reference Period, the total amount of remuneration mentioned above was split into fixed and variable remuneration as follows:

- Fixed remuneration: EUR 3,159,214
- Variable remuneration: EUR 337,491

No fees based on the performance of the Fund or carried interest are used to remunerate employees of the Company.

The total amount of remuneration paid to senior management and members of staff of the Company whose actions have a material impact on the risk profile of the Company or falling within the remuneration bracket of senior management and risk takers during the Reference Period was EUR 1,290,682.

Please note that above figures are provided for all services provided by the Company and they do not represent a breakdown at the level of the Fund.

Detailed information relating to – amongst others - the financial and non-financial criteria of the remuneration policies and practices, on decision-making process used to determine the remuneration policy, and on how pay and performance are linked are available in the Remuneration Statement published on AB Global website at the following address:

<http://spd2.alliancebernstein.com/SPDesktopWeb/DisplayFile.aspx?fssID=55348>.

Over the Reference Period, a review of the Remuneration Policy and of its implementation has been carried out and it did not evidence any irregularity. Finally, no material change on the Remuneration Policy as it was initially designed occurred over the Reference Period.

* A significant portion of the total derivative notional exposure of the Portfolio is related to interest rates, of which, the majority is used for duration management. Most of the remaining derivative notional exposure is linked to FX and credit spreads, the majority of them are used for hedging purposes (the foreign currency exposure back to the fund's base currency and mitigate the default and credit risk).

PEA Eligibility (Plan d'Epargne en Actions)

The Plan d'Epargne en Actions ("PEA") is a French tax savings plan that allows French residents to benefit from certain tax exemptions for investing in European equities. A PEA eligible fund must permanently invest at least 75% of its net assets in PEA eligible equity-related securities (excluding convertible bonds) of companies established in a European Union Member State or in Iceland and Norway and subject to corporate income, or an equivalent, tax.

Securities Financing Transaction Regulation

The Securities Financing Transaction Regulation ("the SFTR") introduces reporting requirements for securities financing transactions ("SFTs") and total return swaps.

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

As at August 31, 2017, the Fund held securities lending, total return swaps (TRS) and reverse repurchase agreements as type of instrument in scope of the SFTR.
