General Information

The net asset value per share of each sub-fund, the issue, redemption and conversion prices are published on each valuation date at the registered office of the Company in Luxembourg and of the Representative in Switzerland. They are also the subject in Switzerland of an insertion in www.fundinfo.com.

The financial year starts on 1st January each year and ends on 31st December of the same year.

The Company publishes a detailed annual report on its activities and the management of its assets, which includes its financial statements expressed in USD, the detailed breakdown of assets for each sub-fund, and the audit report.

In addition, the Company publishes an unaudited semi-annual report after the end of each half-year.

The Shareholders' Annual General Meeting is held every year at the Company's registered office, or in any other location in Luxembourg as specified on the convening notice.

The Shareholders' Annual General Meeting is held on the third Thursday in April at 3 p.m., or if this day is a public holiday, on the following bank business day.

Notice of all General Meetings is sent by post to all registered shareholders at the address mentioned on the shareholders' register, at least eight days prior to the General Meeting.

This notice will indicate the time and place of the General Meeting and the admission conditions, the agenda and requirements under Luxembourg law regarding the necessary quorum and majority. Notices may also be published in the case of the Grand Duchy of Luxembourg and Switzerland in the "RESA" and in a Luxembourg newspaper (the Luxemburger Wort), and on the website www.fundinfo.com respectively as well as in the press or in any other media selected by the Board of Directors, respectively the Management Company, in the countries in which the Fund is marketed, and on www.fundsquare.net. Requirements regarding participation, quorum and majority at all General Meetings are those set out in articles 67 and 67-1 (as amended) of the law dated 10th August 1915 relating to commercial companies, and in the Company's Articles of Association.

The statement of changes in transferable securities and other net assets made to the portfolio during the year may be obtained upon request and free of charge from the Depositary bank or from the Paying and Information agent in Germany.

As regards the commercialisation of the Company in Germany, the parties elect domicile at the registered office of the Paying and Information agent and the relevant courts of the registered office will be the only authorised entities in the event of a dispute.

The paying and information agent in the Federal Republic of Germany is ODDO-BHF Aktiengesellschaft, Bockenheimer Landstraße 10, D-60323 Frankfurt am Main (hereafter "the German paying and information agent").

A list of the changes to the investment portfolio is available free of charge from the German paying and information agent, the SICAV's registered office and the Swiss representative.

Requests for redemption or conversion of shares of one sub-fund into shares of another sub-fund can be submitted to the German paying and information agent.

Redemption proceeds, possible distributions and any other payments to the shareholders carried out by the German paying and information agent may be paid out in cash in euros upon demand by the shareholders.

The prospectus, the Key Investor Information Document, the investment company's articles of association, annual and semi-annual reports, subscription and redemption prices, as well as any notices to shareholders are available to shareholders free of charge from the German paying and information agent.

The subscription and redemption prices are published on the website: http://fondscontainer.wwd.de/

Any notices to shareholders are published on the websites: www.fundinfo.com and www.fundsquare.net.

Oyster, the SICAV is an open-ended investment company with variable capital (société d'investissement à capital variable, hereinafter referred to as the "SICAV") governed by Luxembourg law, established for an unlimited time period on 2nd August 1996, in accordance with the provisions of the Law of 17th December 2010 Part I (hereinafter referred to as "the Law") and of the Law of 10th August 1915 relating to commercial companies, as amended.

The SICAV is subject in particular to the provisions outlined in Part I of the Law, relating to undertakings for collective investment in transferable securities (UCITS) as defined in the Directive of the European Parliament and Council dated 13th July 2009 (2009/65/EEC, hereafter referred to as the "Directive"), as amended

Its Articles of Association were initially published in the Companies and Associations section of the "Mémorial" (official state gazette) on 30th August 1996. They were amended on 22nd August 2012 and published in the "Recueil électronique des sociétés et associations" ("RESA") on 18th September 2012.

The SICAV is registered with the Luxembourg Trade and Companies Registry under number B-55740.

The SICAV was established in the form of an umbrella-type fund and is made up of several sub-funds, each representing a set of specific commitments and assets and corresponding to a distinct investment policy.

Note 2 - Main accounting policies

a) Presentation of the financial statements

The SICAV's financial statements are prepared in accordance with the requirements in force in Luxembourg relating to undertakings for collective investments. The financial statements have been presented on the basis of the Net Asset Value of 30th June 2020 calculated on 1st July 2020.

All figures disclosed in the report are reported without decimals. As a result, small rounding differences may occur.

As at 30th June 2020, the following sub-funds were invested in other sub-funds of the SICAV as set out hereunder:

The combined statement of net assets and the combined statement of changes in net assets for the financial period ended 30th June 2020 have not been adjusted to exclude the impact of the foregoing cross-investments.

The combined Net Asset Value excluding the amount of investments in the sub-funds referred to above amounts to USD 1,649,382,746.

Transferable securities admitted to an official Exchange listing or traded on another regulated market are valued on the basis of the last available price in Luxembourg on the valuation day. If these securities are traded on several markets, the main market's last available price will be applied.

Transferable securities not admitted to an official Exchange listing or not traded on another regulated market, and transferable securities admitted to official Exchange listing or traded on another regulated market, for which the last known price is not representative, are valued based on a prudent, good faith estimate of the probable sale value by the Board of Directors.

b) Valuation of each sub-fund's portfolio

c)Pooling

For purposes of good portfolio management, the SICAV may manage all or part of the assets of one or more sub-funds on a collective basis (pooling). Such pooling may involve several sub-funds of the SICAV, or the assets of one or more sub-funds of the SICAV and the assets belonging to other undertakings for collective investment, in accordance with their investment policies.

This management technique is used to achieve economies of scale. The sub-funds may thus hold an interest in the pools in proportion to their share of assets in the pool. These pools are not considered legal entities and are not directly accessible to investors.

The unrealised gains or losses of the pools are allocated to the sub-funds at each calculation of the Net Asset Value based on allocation factors determined at that time. There is no guarantee that the amount of these unrealised gains or losses will correspond to the change in the net unrealised gain or loss on investments at the sub-fund level.

d) Net gains (losses) realised on the sale of investments in each sub-fund

Realised gains or losses on the sale of investments for each sub-fund are calculated on the basis of the average cost of the investments sold.

e) Conversion of foreign currencies for each sub-fund

Bank assets, other net assets and the valuation of investments expressed in currencies other than that of the sub-fund are converted into that currency at the exchange rate in force at 30^{th} June 2020.

Income and costs expressed in currencies other than the sub-fund currency are converted into that currency at the exchange rate in force on the transaction date.

Exchange gains and losses resulting from such conversions are recorded in the statement of changes in net assets.

The exchange rates used for the valuation of the net asset value as at 30th June 2020 were as follows:

1 USD =	1.452433	AUD	1 USD =	0.890353	EUR	1 USD =	1.553398	NZD
1 USD =	5.490795	BRL	1 USD =	0.809323	GBP	1 USD =	3.955649	PLN
1 USD =	1.362001	CAD	1 USD =	7.750436	HKD	1 USD =	71.255522	RUB
1 USD =	0.947550	CHF	1 USD =	315.576875	HUF	1 USD =	9.316626	SEK
1 USD =	7.067737	CNH	1 USD =	75.505889	INR	1 USD =	1.395050	SGD
1 USD =	7.074087	CNY	1 USD =	107.884990	JPY	1 USD =	6.854761	TRY
1 USD =	3745.318352	COP	1 USD =	23.106962	MXN	1 USD =	29.504617	TWD
1 USD =	6.635964	DKK	1 USD =	9.647016	NOK	1 USD =	17.374987	ZAR

f) Combined financial statements of the SICAV

The various entries in the combined statement of net assets and the combined statement of changes in net assets are equal to the sum of the corresponding entries in the financial statements of each sub-fund and are converted into USD at the following exchange rates as at 30th June 2020:

1 USD =	0.890353	EUR
1 USD =	0.809323	GBP
1 USD =	107.884990	JPY

The opening net assets are kept at the exchange rate in force at the closing date of the previous year. The resulting currency differences are included in the combined statement of changes in net assets under 'Currency variation'.

g) Acquisition cost of investments in each sub-fund

The acquisition cost of investments by each sub-fund denominated in currencies other than that of the sub-fund is converted into this currency at the rate in force on the day of purchase.

h) Currency forward foreign exchange contracts

Currency profits or losses resulting from non-matured currency forward foreign exchange contracts are determined on the basis of the currency forward foreign exchange rates applicable on the valuation date and recorded in the combined statement of changes in net assets.

i) Futures contracts

Gains or losses resulting from non-matured futures contracts are determined on the basis of the latest price known for contracts on the valuation date and recorded in the combined statement of changes in net assets.

j) Distribution of costs

Expenses and costs attributable to a particular share class and/or a particular sub-fund will be allocated directly. Other expenses and costs not directly attributable to a particular share class and/or a particular sub-fund will be allocated equally to the various classes within the various sub-funds and/or to the various sub-funds. If the amount of expenses and costs so requires, they will be allocated to the share classes and/or sub-funds on a pro-rata basis in terms of their respective net assets.

k) Income

Dividends are recognised as income on the date when the shares are listed 'ex-dividend' for the first time. Interest is calculated daily.

I) Options

Options are valued at the last known price on the valuation date.

m) Valuation of swaps and CFD

Credit Default Swaps, Interest Rate Swaps and CFD are valued at fair value based respectively on the last known spread curve, rates curve and last known closing price of the underlying asset.

Notes to the financial statements as at 30^{th} June 2020

Note 3 - Management and performance fees

a) Management fees

On 17th November 2006, the SICAV entered into an agreement for an unlimited period with iM Global Partner Asset Management S.A. (the "Manager") to manage the sub-funds' assets, while remaining under the permanent control of the SICAV's Board of Directors.

At the end of every quarter, the SICAV pays iM Global Partner Asset Management S.A. a management fee as remuneration for its services, at the annual rates described hereafter and applied to the average Net Asset Value of each share class. A percentage of this management fee is paid to the various Sub-Managers as remuneration for their respective services.

The rates indicated are those in force for the shares that were active during the period.

b) Performance fee

Some sub-funds and classes will pay a performance-related fee to the Management Company.

Two different types of performance fee may be applied as follows:

- PF refers to Classes with absolute performance fee, i.e. combined or not with a High Water Mark.
- PR refers to Classes with relative performance fee, i.e. compared to a benchmark.

Share Class PF not combined with a High Water Mark:

Shares Classes PF of the Sub-fund(s) listed in the below table, if any, will charge, each separately and at the end of the Financial year, a performance fee at the maximum rate as indicated in the below table of the annual performance calculated on each Valuation date on the basis of the Net asset value per Share, before deduction of the performance fee. The first period for calculating the performance fee will begin on the launch date of each Class, unless provided for otherwise below and in the appendix to the Prospectus. For Shares redeemed during the Financial year, the cumulative provision of the performance fees during the same period shall be crystallized and charged at the end of the period to the Management Company. The calculated percentage of performance is applied to the total net assets of each of the Classes. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of redemptions, to crystallize the performance fee.

Further Share Classes PF as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Sub-fund	Max. Rate performance fee
Any newly launched Share Class PF	Maximum rate to be disclosed on the Website and at the Registered Office

Share Class PF combined with a High Water Mark:

Share Classes PF of the Sub-fund(s) listed in the below table, if any, will charge, each separately and at the end of the Financial year, a performance fee at the maximum rate as indicated in the below table, applied to the difference between the Net asset value per Share concerned at the closing date of the current Financial Year and the High Water Mark, if this difference is positive. This fee will be calculated and provisioned or deprovisioned each time the Net Asset Value is calculated and will be based on the amounts of the net assets of each Class concerned before deduction of the performance fee. For Shares redeemed during the Financial year, the cumulative provision of the performance fees during the same period shall be crystallized and charged at the end of the period to the Management Company. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of redemptions, to crystallize the performance fee.

Further Share Classes PF as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Share Class PR based on a benchmark index or a hurdle rate:

Share Classes PR of the Sub-funds listed in the below table will charge, if any, each separately at the end of each Financial year, a performance fee of a maximum rate as indicated in the below table, of the annual performance calculated on each Valuation date and applied to the difference between the performance of the Net asset value per Share, before deduction of the performance fee, and the performance of their benchmark index or their reference hurdle rate for the same period. A performance fee may therefore be charged even when the Net asset value per Share of the relevant Share Class PR has decreased by reference to the Net Asset Value per Share at the end of the previous performance period (negative performance), provided that the benchmark index or the reference hurdle rate also has a negative performance over the same period. The first period for calculating the performance fee will begin on the launch date of each Class, unless provided for otherwise below and in the annex to the Prospectus. For Shares redeemed during the Financial year, the cumulative provision of the performance fees during the same period shall be crystallized and charged at the end of the period to the Management Company. The calculated percentage of performance is applied to the total net assets of each of the Classes. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of redemptions, to crystallize the performance fee.

Further Share Classes PR as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Any newly launched Share Class PR	Maximum rate to be disclosed on the Website and at the Registered Office	Hurdle rate or benchmark index to be disclosed on the Website and at the Registered Office	

Share Class PR subject to outperforming its hurdle rate or benchmark index:

Share Classes PR of the Sub-fund(s) listed below, if any, will charge, each separately and at the end of the Financial year, a performance fee at the maximum rate as indicated in the below table, on the basis of the difference between the Net asset value per Share at the last Valuation date of the current Financial year and the Net asset value per Share at the last Valuation date of the previous Financial year provided that the level of the hurdle rate as indicated below is exceeded. A performance fee may therefore be charged even when the Net asset value per Share of the relevant Share Class PR has decreased by reference to the Net Asset Value per Share at the end of the previous performance period (negative performance), provided that the benchmark index or the reference hurdle rate also has a negative performance over the same period. The Net Asset Value taken into consideration for the calculation at the Valuation date will be considered before the provision made for the current year at the Valuation date. The rate of the performance fee will be applied to the average annual assets calculated on each Valuation date. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of subscriptions and/or redemptions, to crystallize the performance fee. For the first calculation of the performance fee, the basis is the difference between the Net asset value per Share of the Sub-fund concerned deduction of the performance fee, calculated at the last Valuation date of the current Financial year and that calculated on the first Valuation date of the Sub-fund. This fee will be calculated each time the Net asset value is calculated, without consideration to the historically highest Net asset value.

Further Share Classes PR as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Sub-fund	Maximum rate of the performance fee	Hurdle rate or benchmark index
Any newly launched Share Class PR	Maximum rate to be disclosed on the Website and at the Registered Office	Hurdle rate or benchmark index to be disclosed on the Website and at the Registered Office

Share Class PR subject to outperforming its hurdle rate or benchmark index combined with an Outperformance High Water Mark:

Share Classes PR of the Sub-funds described in the table below will charge, each separately and at the end of the Financial year, a performance fee at a maximum rate as indicated in the below table, against the Outperformance High Water Mark that is during the first Performance Period of the relevant Class, the Net Asset Value at which the Class was issued, and thereafter, the latest Net Asset Value of the Class outperforming, if any, its associated hurdle rate or benchmark index as appropriate and in respect of which a performance fee was charged. Outperformance is calculated for each Share Class on each Valuation date by comparing the performance of the relevant Net asset value per share, before performance fee, and of the performance of a referenced asset since the previous calculation of Net Asset Value. This referenced asset is estimated as the Outperformance High Water Mark multiplied by the number of shares in the Share Class as at the Outperformance High Water Mark Date adjusted to (1) the amount of subscriptions, redemptions and paid dividends on the relevant Share Class since the Outperformance High Water Mark Date and (2) the performance of the benchmark index or hurdle rate. Adjustments to Outperformance High Water Mark referred to under (1) are calculated as follows: in case of a paid dividend on the relevant Share Class, the Outperformance High Water Mark for the following NAV Valuation date is the average of the current Outperformance High Water Mark and of the price of the Net Asset Value per Share for the relevant Share Class weighted respectively by the proportion of Shares before subscriptions and/or redemptions and of subscribed Shares.

For example, if, for a relevant Share Class, the current Outperformance High Water Mark is 100.00, the number of shares before subscriptions/redemptions is 100.000 and a subscription of 20.000 shares at a Net Asset Value per share of 106.00 is registered, the Outperformance High Water Mark for the following Net Asset Value Valuation date will be adjusted to 101.00 applying the following formula:

[(100 000 *100.00 + 20 000 * 106) / (100 000 +20 000)]

Therefore, this adjustment also allows for an equal treatment between investors.

The provision set aside in respect of this performance fee is adjusted on each valuation day according to the change in the relative performance of the Class. If the relative performance of the Class decreases during the calculation period, the provision set aside will be reduced accordingly. If this provision is reduced to zero, no performance fee will be payable. Should also the Net asset value per Share of the relevant Share Class PR underperform its associated hurdle rate or benchmark index, no performance fee would be accrued until the underperformance of the relevant Share Class PR would have been fully recovered, and any previously accrued but unpaid performance fees would be, partially or fully, reversed accordingly. At the end of the Performance Period, the provision of the performance fees is charged to the Management Company if it is positive, otherwise the performance period is extended to the end of the following year. For the avoidance of doubt, the Management Company may therefore receive a Performance Fee, even in case of negative performance of a particular Share Class, as long as the relative performance of such Share Class is positive at the end of the performance period.

For shares redeemed during the Financial year, the cumulative provision of the performances during the same period will be crystallized and charged at the end of the year to the Management Company. The calculated percentage of performance is applied to the total net assets of the Class. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of redemptions, to crystallize the performance fee.

Further Share Classes PR as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

c) Miscellaneous provisions

The Board of Directors reserves the right to change the characteristics of the performance fee, particularly if the benchmark or reference index were to cease to exist.

The Board of Directors eventually reserves the right to stop charging a performance fee in respect of any Share Class, in which case the performance fee will be calculated according to the above sections as appropriate, up to the date the performance fee is no longer charged and paid at the end of the relevant Financial year.

In all the cases above, the performance fee Variable Characteristic of the relevant Share Class will be immediately updated, the investors will be given appropriate information and prior notice (where necessary), and the next Prospectus will be duly amended.

d) Specific fee for management of the foreign exchange risk of the Class HA and HP shares

By way of remuneration for the services described for these Classes, the Class HA and HP Shares may pay, each separately, at the end of each quarter, a foreign exchange risk management fee at the maximum annual rate of 0.10% and applied to the average Net asset value per Share of each Class HA or HP Share.

This fee shall be payable to the entity in charge of the management of the foreign exchange.

Note 4 - Subscription tax

The SICAV is governed by Luxembourg tax laws.

Pursuant to the legislation and regulations currently in force, the SICAV is subject in Luxembourg to an annual tax of 0.05%, the subscription tax, payable quarterly and calculated on each of the SICAV sub-funds' net assets at the end of each quarter.

This tax is limited to 0.01% of the asset value for share classes reserved to institutional investors.

No additional tax is due on the assets held in units of other Ucits which are already subject to this tax in Luxembourg

Note 5 - Depositary bank fee

The SICAV pays the Depositary Bank an annual fee which varies between 0.012% and 0.20% of the Net Asset Value of each sub-fund. These fees are payable monthly and do not include transaction fees or fees of sub-custodians or similar agents. The Depositary Bank is also entitled to be reimbursed for reasonable expenses and disbursements that are not included in the expenses referred to hereunder.

Note 6 - Administration fee

An annual administration fee representing a maximum of 0.30% of the net assets of each sub-fund will be paid quarterly to the Management Company in consideration for the services it provides to the SICAV. This fee will also allow the Management Company to remunerate RBC Investor Services Bank S.A. for its services as central administrator and transfer and register agent.

Note 7 - Bank charges

This entry includes bank costs and transaction fees (excluding brokerage fees) paid by the SICAV to RBC Investor Services Bank S.A. for each securities transaction.

Note 8 - Forward foreign exchange contracts

A forward exchange contract is a special type of foreign currency transaction. Forward exchange contracts are agreements between two parties to exchange two designated currencies at a specific time in the future. These contracts always take place on a date after the date that the spot contract settles and are used to protect the buyer from fluctuations in currency prices.

Note 9 - Futures contracts

A futures contract is a legal agreement to buy or sell a particular commodity or asset at a predetermined price at a specified time in the future. Futures contracts are standardized for quality and quantity to facilitate trading on a futures exchange. The buyer of a futures contract is taking on the obligation to buy the underlying asset when the futures contract expires. The seller of the futures contract is taking on the obligation to provide the underlying asset at the expiration date.

As at 30th June 2020, the sub-funds listed below had the following futures contracts outstanding:

Note 10 - Swaps

Swaps are derivative instruments that represent an agreement between two parties to exchange a series of cash flows over a specific period of time. A total return swap gives an investor the benefits of owning a security without actual ownership. A credit default swap offers insurance in case of default by a third-party borrower.

As at 30th June 2020, the are no Swaps outstanding.

Note 11 - CFD

A "contract for difference" (CFD) is a contract executed between two parties to exchange, upon closure of the contract, the difference between the opening and closing price of the underlying share multiplied by the number of shares specified in the contract.

In evaluating CFDs, a "reset" is carried out (recognition of CFDs at opening price) when calculating NAV at the end of each month. Unrealised gains and losses are recognised in the accounts as net gains or losses on CFDs.

As at 30th June 2020, there is no CFD contract outstanding.

Notes to the financial statements as at 30^{th} June 2020
