No subscriptions can be received on the basis of financial reports. Subscriptions are only valid if made on the basis of the Key Investor Information Document (“KIID”) and the current prospectus accompanied by the annual report or the most recent semi-annual report, if published thereafter.

As of August 31, 2016 the following portfolio of the Fund is not authorized in Hong Kong and not available to Hong Kong residents: Global Bond II Portfolio.

For the period from September 1, 2015 to August 23, 2016, Asia Pacific Ex-Japan Equity Portfolio was not authorized in Hong Kong and not available to Hong Kong residents.

No notification pursuant to Sec. 310 of the German Capital Investment Code (Kapitalanlagegesetzbuch) has been filed for the following portfolios and the shares in these portfolios may not be marketed to investors in the Federal Republic of Germany:

- Global Bond II Portfolio

BHF Bank Aktiengesellschaft, Bockenheimer Landstrasse 10, 60323 Frankfurt am Main, Germany, acts as Paying and Information Agent (the “German Paying and Information Agent”) of the Fund in the Federal Republic of Germany.

The latest prospectus as well as the Key Investor Information Documents of the Fund, the Articles and the most recent annual and semi-annual reports - each in paper form - may be obtained free of charge at the office of the Germany Paying and Information Agent. The net asset value per share, the issue and redemption prices and any conversion prices as well as any notices to the Shareholders are available free of charge at the office of the Germany Paying and Information Agent.

October 27, 2016

Dear Shareholders,

This report provides an update of AB FCFI (the “Fund”) for the annual reporting period ended August 31, 2016.

Global stocks surged and global bonds generally increased in absolute terms during the tumultuous 12-month period. Central bank activity and fluctuations in the price of oil were among the factors impacting performance.

In fixed-income markets, developed-market treasuries generally outperformed emerging-market local-currency government bonds and investment-grade credit securities, but trailed the double-digit rally in global high-yield issues. Developed-market treasury yields generally fell, with UK yields reaching historic lows in the final months of the period.

US and emerging-market equities each delivered double-digit returns, while international stocks underperformed, hurt by fears of ongoing terrorist activity and economic uncertainty (all in US dollar terms). Equity markets reeled at the outset when China unexpectedly devalued its currency, triggering doubts over global growth. By the end of 2015, equities had sufficiently recovered, enabling the US Federal Reserve to lift-off from zero interest rates for the first time in nearly a decade—a move which investors digested smoothly.

Equity markets plummeted again in the first six weeks of 2016. This time, in addition to malaise over China, a global oil glut also factored in. Bond markets were likewise affected by the vagaries of oil. After declining through the beginning of 2016, oil prices eventually rebounded on the back of decreased global supply, contributing to a rally in emerging-market debt sectors.

As the period came to a close, global equity markets had recovered yet again—while most fixed-income sectors outperformed duration-matched treasuries, but posted mixed absolute returns—as support from global central banks eased investors’ anxiety over the UK’s unexpected vote to depart from the European Union. In contrast, after some slower-than-expected US economic data through the first two quarters of 2016, the Fed’s tone turned more hawkish in August on the back of strength in the US labor market and a positive outlook for economic activity and inflation.

We appreciate your investment in the Fund.

Sincerely,

AllianceBernstein (Luxembourg) S.à r.l., the Management Company of the Fund

The share class performance of each Portfolio is based on the net asset value incorporating the impact of expenses reimbursed or waived by the Management Company as of August 31, 2016. No adjustment has been made for sales charges that may apply when shares are purchased or redeemed. Performance for distributing share classes includes the reinvestment of distributions paid during the year. Past performance is no guarantee of future results. Investment return and principal value may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

* 6 month period ending August 31, 2016.

Return calculated from inception date on:

- (1) September 4, 2015
- (2) January 26, 2016
- (3) July 27, 2016
- (4) September 30, 2015

NOTE A: General Information

AB FCP I (named ACMBernstein until February 4, 2016), (the “Fund”) is a mutual investment fund (*fonds commun de placement*) organized under the laws of the Grand Duchy of Luxembourg and registered under Part I of the Law of December 17, 2010 on undertakings for collective investment, as amended (the “Law of 2010”). The Fund is managed in the interest of its co-owners (the “Shareholders”) by AllianceBernstein Luxembourg S.à r.l. (the “Management Company”), a company organized under the laws of the Grand Duchy of Luxembourg and having its registered office in Luxembourg. The Fund qualifies as an Undertaking for Collective Investments in Transferable Securities (“UCITS”) within the meaning of Article 1(2) of the EC Directive 2009/65 of July 13, 2009, as amended.

On August 28, 2015, it was resolved by the board of managers (the “Board of Managers”) of the Management Company to approve a net asset value adjustment mechanism (the “Swing Pricing Policy”) to prevent or reduce the performance

dilution that may occur to the value of a portfolio’s shares due to significant levels of net inflows or outflows on a given Business Day. The Swing Pricing Policy is effective from November 2, 2015.

Effective February 5, 2016, the Fund was renamed AB FCP I.

On August 11, 2016, the sole shareholder of Asia Pacific Ex-Japan Equity Portfolio introduced a redemption request representing the total assets of the portfolio. Such portfolio was closed as of August 23, 2016.

The Fund comprises separate pools of assets currently consisting of 20 active portfolios (each, a “Portfolio,” and, collectively, the “Portfolios”). Each Class of Shares represents an interest in each relevant Portfolio’s investment securities and other net assets. All Shares of a Class have equal rights to distributions and redemptions.

The following table lists each Portfolio’s commencement of operations as well as Share Classes seeded as of August 31, 2016:

NOTE B: Significant Accounting Policies

The Financial Statements have been prepared in accordance with Luxembourg legal and regulatory requirements. The following is a summary of significant accounting policies followed by the Portfolios.

1. Valuation**1.1 Investments in Securities**

Securities listed on a stock exchange or traded on any other regulated market are valued at the last available price on such exchange or market or, if no such price is available, at the mean of the closing bid and asked price quoted on such day. If a security is listed on several stock exchanges or markets, the last available price on the stock exchange or market which constitutes the main market for such security is used.

Securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at "fair value" as determined in accordance with procedures established by, and under the general supervision of, the Management Company's Board of Managers. Fair valuation procedures are designed to adjust closing market prices of Portfolio securities to reflect what is believed to be the fair value of those securities at the Portfolio's Valuation Point.

When fair valuation procedures are employed with respect to a particular Portfolio security, various objective and subjective factors may be considered, including, among other things, developments affecting the security or involving an entire market since the security's latest reported price, current valuations of relevant stock indices or pronouncements of certain governmental authorities. Fair value prices based on third party vendor modeling tools may be utilized to the extent available. Therefore, when fair valuation procedures are employed, the prices of individual Portfolio securities utilized to calculate the Portfolio's Net Asset Value ("NAV") may differ from quoted or published prices for the same securities. Currently, fair value adjustments are only applicable to certain equity securities and futures contracts.

Accordingly, as may also be the case with a previously reported stock exchange price, the price of any Portfolio security determined utilizing fair value pricing procedures may be materially different from the price to be realized upon the sale of such security.

For Portfolio securities primarily traded on U.S. exchanges, it is expected that fair value pricing procedures are employed only under very limited circumstances such as, for example, the early closing of an exchange on which a particular security is traded or the suspension of trading in a particular security. However, it is anticipated that fair value pricing procedures will be utilized frequently for securities traded on non-U.S. exchanges or other markets, particularly European and Asian markets excluding India, because, among other reasons, these markets close well before the Portfolio's Valuation Point. Between the close of these markets and the relevant Portfolio's Valuation Point, significant events including broad market moves may occur. In particular events in the U.S. market on a trading day after the close of these other markets may affect the value of the Portfolio's securities. Japan Strategic Value

Portfolio has adopted a policy to only fair value securities when deemed relevant based on the performance of a benchmark and relative capstock flows. The Eurozone Strategic Value Portfolio and the European Value Portfolio do not currently fair value securities under any circumstances.

Fixed income securities (i), securities not listed on any stock exchange or traded on any regulated market (ii), and securities, trading of which on a stock exchange or a regulated market is thin (iii), are valued at the most recent bid price provided by the principal market makers. If there is no such market price, or if such market price is not representative of a security's fair market value, then the security is valued in a manner determined to reflect its fair value in accordance with procedures established by, and under the general supervision of, the Management Company's Board of Managers.

U.S. Government securities and any other debt instruments having 60 days or less remaining until maturity are generally valued at market by an independent pricing vendor, if a market price is available. If a market price is not available, the securities are valued at amortized cost. This methodology is commonly used for short-term securities that have an original maturity of 60 days or less, as well as short-term securities that had an original term to maturity that exceeded 60 days. In instances when amortized cost is utilized, the Valuation Committee (the "Committee") must reasonably conclude that the utilization of amortized cost is approximately the same as the fair value of the security. Such factors the Committee will consider include, but are not limited to, an impairment of the creditworthiness of the issuer or material changes in interest rates. The Committee decisions are made in accordance with procedures established by, and under general supervision of, the Management Company's Board of Managers.

Over-the-counter ("OTC") swaps and other derivatives are valued daily, primarily using independent pricing services, independent pricing models using market inputs, as well as third party broker-dealers or counterparties.

1.2 Warrant Valuation

A listed warrant is valued at the last traded price provided by approved vendors. If there has been no sale on the relevant business day, the warrant is valued at the last traded price from the previous day. On the following days, the security is valued in good faith at fair value. All unlisted warrants are valued in good faith at fair value. Once a warrant has expired, it will no longer be valued.

1.3 Financial Futures Contracts

Initial margin deposits are made upon entering into futures contracts. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are made or received, depending upon whether unrealized losses or gains are incurred. When the contract is closed, a realized gain or loss is recorded. This realized gain or loss is equal to the difference between the proceeds from (or cost of) the closing transaction and the Fund's basis in the contract.

Open futures contracts are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuations, the last available closing settlement price is used.

1.4 Forward Foreign Currency Contracts

The unrealized gain or loss on open forward foreign currency contracts is calculated as the difference between the contracted rate and the rate to close out the contract. Realized profit or loss includes net gains or losses on forward foreign currency contracts which have been settled or offset by other contracts with the same counterparty.

1.5 Options Purchased and Options Written

When an option is purchased, an amount equal to the premium paid is recorded as an investment and is subsequently adjusted to the current market value of the option purchased. Premiums paid for the purchase of options which expire unexercised are treated on the expiration date as realized losses. If a purchased put option is exercised, the premium is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or loss. If a purchased call option is exercised, the premium increases the cost basis of the security or foreign currency purchased by the relevant Portfolio. When an option is written, an amount equal to the premium received by the relevant Portfolio is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are treated by the relevant Portfolio on the expiration date as realized gains. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or a loss. If a written put option is exercised, the premium reduces the cost basis of the security or foreign currency purchased by the relevant Portfolio. Listed put or call options by a portfolio are valued at the last sale price. If there has been no sale on that day, such securities are valued at the closing bid prices on that day.

1.6 Investments in other UCIs

Investments in other Undertakings for Collective Investments ("UCIs") are valued at the last available Net Asset Value for the UCI in question.

1.7 Swap Agreements

The Portfolios accrue for interim payments on swap contracts on a daily basis, within income and expenses. Swap contracts are marked to market on a daily basis with fluctuations in value recorded in unrealized appreciation (depreciation) on swaps in the Statement of Assets and Liabilities and change in unrealized gains and losses on swaps in the Statement of Operations and Changes in Net Assets. Once a swap contract has matured or is sold, the net amount is recorded as a realized gain or (loss) on investments in the Statement of Operations and Changes in Net Assets. The upfront premiums paid or received are recognized as cost or proceeds in the Statement of Assets and Liabilities and are amortized on a straight line basis over the life of the contract. Accruals of amortized upfront premiums on credit default swaps are included in swap income until the position is sold, thereafter the amortized upfront premiums are included in net realized gains and (losses) from swaps. On all other swap types the amortized upfront premiums are included within net realized gains and (losses) from swaps. Fluctuations in the

value of swap contracts are recorded as a component of changes in unrealized gains and (losses) on swaps in the Statement of Operations and Changes in Net Assets.

"Upfront premiums paid (received) on swap contracts" disclosed in the Statements of Assets and Liabilities include premiums paid (received) on the OTC credit default swaps and a margin that is yet to be settled on the centrally cleared credit default swaps.

2. Organization Expenses

The organization expenses of all existing Portfolios have been fully amortized in prior years.

3. Allocation Method

Income and expenses (except for class-specific management and distribution fees) for the "fixed income" and "balanced" Portfolios are allocated on a daily basis utilizing a hybrid allocation model. This model allocates based upon each class' proportionate percentage of the combined value of settled shares for those classes which accrue a daily dividend and the value of the shares outstanding for those classes which accrue a monthly dividend or no dividend at all. Income and expenses for the "equity" Portfolios are allocated on a daily basis by each class' value of their proportionate shares outstanding. For all of the Portfolios, realized and unrealized gains and losses are allocated on a daily basis by each class' value of their proportionate shares outstanding. Class-specific management, management company, distribution fees and realized and unrealized gains and losses on forward foreign currency contracts related to the Currency Hedged Share Classes are charged /allocated directly to the respective class.

Due to the distinct institutional nature of all types of Class S shares of the Portfolios, certain fund expenses, where applicable, are allocated to the respective Class S shares based upon minimum shareholder activity and account level requirements.

4. Currency Translation

Values expressed in a currency other than the currency in which a Portfolio is denominated as determined by the Management Regulations are translated at the average of the last available buying and selling price. Transactions in foreign currencies are translated into the currency of each Portfolio at the exchange rate ruling at the date of the transactions.

The Combined Statement of Assets and Liabilities is presented in U.S. Dollars at the exchange rates ruling at the date of the Combined Statement of Assets and Liabilities, while the Combined Statement of Operations and Changes in Net Assets is presented in U.S. Dollars at the average exchange rates ruling during the year.

Exchange rates applied in the financial statements are: spot rate 1.1157 and average rate 1.1114 for EUR to USD, spot rate 0.0097 and average rate 0.0089 for JPY to USD.

5. Investment Income and Investment Transactions

Dividend income is recorded on the ex-dividend date. Interest income is accrued daily. Investment gains and losses for the Portfolios are determined on an average cost basis.

The Fund accretes discounts and amortizes premiums as adjustments to interest income. Investment transactions are recorded on trade date plus one day.

6. Estimates

The preparation of Financial Statements in conformity with accounting principles generally accepted in Luxembourg requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of income and expenses during the reporting period. Actual results may differ from those estimates.

7. Swing Pricing Adjustment

The Management Company of the Fund has communicated to all shareholders of the Fund to implement a Net Asset Value (NAV) Adjustment Policy, also known as “swing pricing” policy effective from November 2, 2015. Under this policy, a Portfolio’s NAV may be adjusted to reflect the impact of estimated transaction costs, deal spreads and charges generated by shareholders’ purchase and redemption activity. Swing pricing is automatically applied when daily net subscriptions or redemptions exceeds a threshold specified by the Board

of Managers. When swing pricing is applied, the NAV of the relevant portfolio’s shares will be adjusted up or down, in an amount generally not to exceed 2% of the relevant NAV, so that the transaction costs incurred due to the purchase and redemption activity are borne by the investors transacting in the portfolio’s shares, rather than the Portfolio itself. This adjustment is intended to minimize dilution of the value of shareholders’ investment in shares of a portfolio brought on by transactions in the Portfolio’s shares. In the Statement of Assets and Liabilities swing pricing adjustment up is recorded as part of “Other receivables” and swing pricing adjustment down is recorded as part of “Accrued expenses and other liabilities”. In the Statement of Operations and Changes in Net Assets swing pricing adjustment is recorded as part of “Increase/(decrease)” line in Capital Stock Transactions. As of August 31, 2016, the net asset values and the net asset values per share of the following Portfolio were swung:

- Asia Ex-Japan Equity Portfolio.

NOTE C: Taxes

As a Luxembourg *fonds commun de placement* (FCP), the Fund is not subject, under present tax laws, to income, withholding or capital gains taxes in Luxembourg. The Fund is subject to the Luxembourg *taxe d’abonnement* at the rate of 0.05% per annum calculated and payable quarterly as the aggregate total net assets

on the last day of each calendar quarter. The rate is 0.01% for share classes reserved to institutional investors within the meaning of Article 174 of the Law of 2010. Interest, dividends and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

NOTE D: Distributions

Where applicable, distributions paid to shareholders are recorded on the ex-distribution date.

NOTE E: Management Fee and Other Transactions with Affiliates

The Fund pays AllianceBernstein (Luxembourg) S.à r.l. (the “Management Company”) a management fee. Under the terms of the Investment Management Agreement from the management fee earned, the Management Company pays an investment management fee to AllianceBernstein L.P. (the “Investment Manager”).

The Management Company has voluntarily agreed to bear certain expenses to the extent necessary to limit total operating expenses on an annual basis.

These limitations have been set as follows (limitations expressed as a percentage of the average daily net assets):

Expenses borne by the Management Company are included in the Statement of Operations and Changes in Net Assets under "Expense reimbursed or waived". Reimbursement receivable is included in the Statement of Assets and Liabilities under "Other receivables" or in "Accrued expenses and other liabilities".

The Fund also pays the Management Company a management company fee.

Specific share classes of each Portfolio paid the Distributor, a distribution fee, which is compensation for providing distribution-related services to the Fund with respect to such shares.

All of the aforementioned fees are accrued at an annual rate on the average daily net assets of each Portfolio and paid monthly.

A list of each Portfolio's annual rate for their applicable fees can be found in Table 1 (Page 214 to 226).

Also all types of Class B shares are subject to a contingent deferred sales charge at rates of between 0.00% and 4.50%, all types of Class C shares are subject to a contingent deferred sales charge at rates between 0.00% and 1.00% and Class J shares are subject to a contingent deferred sales charge at rates between 0.00% and 3.00%. The actual rate will depend on the Portfolio and the period of time the shares are held.

The Fund compensates its registrar and transfer agent, AllianceBernstein Investor Services, a unit of the Management Company, for providing personnel and facilities to perform registrar and transfer agency services for the Fund. Such compensation amounted to \$22,362,407 for the year ended August 31, 2016.

The Fund compensates the Investment Manager for certain services provided to the Fund in connection with the registration of the Fund for sale in certain jurisdictions outside of Luxembourg, subject to certain conditions. Such compensation amounted to \$936,578 for the year ended August 31, 2016 and is included in "Professional fees" in the Statement of Operations

and Changes in Net Assets.

The Fund compensates its legal adviser, Elvinger Hoss Prussen (of which Mr. Yves Prussen, a manager of the Management Company, is a partner) for legal services rendered to the Fund. Payments of €82,357 were made for the year ended August 31, 2016 and are included in "Professional fees" in the Statement of Operations and Changes in Net Assets.

The Investment Manager has not entered into transactions in relation to a placing and/or a new issue in which a connected person had a material interest as a member of the underwriting syndicate.

All transactions executed on behalf of the Fund were entered into in the ordinary course of business and/or normal commercial terms.

The total aggregate value of the transactions of the Fund effected through the affiliated firms, Sanford C. Bernstein & Co., LLC and Sanford C. Bernstein Ltd. were \$20,011,892. Such transactions represent 0.05% of total transactions. There was \$3,733 in commissions paid for the year ended August 31, 2016 utilizing the services of Sanford C. Bernstein & Co., LLC and Sanford C. Bernstein Ltd. Several of the Fund's directors are employees and/or officers of the Investment Manager and/or its affiliates.

Dynamic Diversified Portfolio invests in AB SICAV I - Low Volatility Equity Portfolio which is managed by the Management Company. China Opportunity Portfolio invests in AB SICAV II - China Equity Portfolio which is managed by the Management Company. Global High Yield Portfolio invests in AB SICAV I - Emerging Market Corporate Debt Portfolio, AB SICAV I - Euro High Yield Portfolio and AB FCP I - Mortgage Income Portfolio, which are managed by the Management Company. Emerging Markets Debt Portfolio invests in AB SICAV I - Emerging Market Corporate Debt Portfolio which is managed by the Management Company.

NOTE F: Soft Commission Arrangements and Transaction Costs

During the year ended August 31, 2016 the Investment Manager received and entered into soft-dollar commissions/arrangements with brokers relating to Portfolios of the Fund that invest in equity securities, in respect of which certain goods and services used to support the investment decision making process were received.

The soft commission arrangements were entered into on the basis that the execution of transactions on behalf of the Fund will be consistent with best execution standards and brokerage rates will not be in excess of customary institutional full-service brokerage rates. The goods and services received include specialist industry, company and consumer research, portfolio and market analysis and computer software used for the delivery of such services. The nature of the goods and services received is such that the benefits provided under the arrangement must be those which assist in the provision of investment services to the Fund and may contribute to an improvement in the Fund's performance.

For the avoidance of doubt, such goods and services do not include travel, accommodations, entertainment, general

administrative goods or services, general office equipment or premises, membership fees, employees' salaries or direct money payments.

Transaction costs are costs incurred in the acquisition, issue or disposal of transferable securities, money market instruments, derivatives or other eligible assets. They can include bid-ask spread, fees and commissions paid to agents, advisers, brokers and dealers, transaction related taxes and other market charges. They do not include debt premiums or discounts, financing costs or internal administrative or holding costs. Transaction costs are included within the cost of investments in the Portfolio of Investments as well as in the net realized gains and (losses) on investments and change in unrealized appreciation and (depreciation) on investments in the Statement of Operations and Changes in Net Assets. Transaction costs are excluded from the Total Expense Ratio and/or expense reimbursement calculation.

For the year ended August 31, 2016, the amount of transaction costs incurred by each Portfolio is detailed in the following table:

AB FCP I-	Transaction costs	AB FCP I-	Transaction costs

NOTE G: Forward Foreign Currency Contracts

A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contract and the closing of such contract is included in “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” in the Statement of Operations and Changes in Net Assets.

Fluctuations in the value of open forward foreign currency contracts are reflected for financial reporting purposes as a component of unrealized gains and (losses) on forward foreign currency contracts.

One or more of a portfolio’s share classes offered in a particular currency (each, an “Offered Currency”) may be hedged to such Offered Currency. Any such share class will constitute a “Currency Hedged Share Class”. Currency Hedged Share Classes aim to provide investors a return more closely correlated to the Portfolio’s base currency return by reducing the effect of exchange rate fluctuations between the portfolio’s base currency and the relevant Offered Currency, taking into account practical considerations such as transaction costs.

NOTE H: Repurchase Agreements

Repurchase agreements are collateralized by obligations of the United States, its agencies or instrumentalities thereof. The securities underlying the repurchase agreement will be held by

NOTE I: Reverse Repurchase Agreements

Reverse repurchase agreements are identical to repurchase agreements except that rather than buying securities for cash subject to their repurchase by the seller, a Fund sells portfolio assets concurrently with an agreement by the Fund to repurchase the same assets at a later date at a fixed price slightly higher than the sale price. During the reverse repurchase agreement period, the Fund continues to receive principal and interest payments on these securities. Generally, the effect of a reverse repurchase agreement is that the Fund can recover all or most of the cash invested in the portfolio securities involved during the term of the reverse repurchase agreement, while it will be able to keep the interest income associated with those portfolio securities.

The hedging strategy employed is designed to reduce, but may not eliminate, currency exposure between the portfolio’s base currency and the relevant Offered Currency. Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the hedged currency.

Given that there is no segregation of liabilities between the various share classes within a portfolio, there is a remote risk that, under certain circumstances, currency hedging transactions in relation to a Currency Hedged Share Class could result in liabilities which might affect the Net Asset Value of the other share classes of the same portfolio, in which case assets of the other share classes of the portfolio may be used to cover the liabilities incurred by such Currency Hedged Share Class.

The securities in the Fund are used as collateral for forward foreign currency contracts including contracts used for share class hedging.

At August 31, 2016 there was no cash collateral held for forward foreign currency contracts.

the Depository at all times in an amount at least equal to the repurchase price, including accrued interest.

At August 31, 2016 there were no repurchase agreements.

Such transactions are advantageous only if the “interest cost” to the Fund of the reverse repurchase transaction, i.e., the difference between the sale and repurchase price for the securities, is less than the cost of otherwise obtaining the cash invested in portfolio securities.

The value of reverse repurchase agreements and related collateral outstanding as at August 31, 2016, are as follows:

AB FCP I-	Value	Collateral Market Value
Emerging Markets Debt		
Portfolio	\$ 18,574,360	\$ 18,332,539

The total interest income arising from reverse repurchase agreements during the year ended August 31, 2016 was \$46,000.

NOTE J: Financial Futures Contracts

The Fund may buy or sell financial futures contracts. The Fund bears the market risk that arises from changes in the value of these financial instruments. The Fund's activities in financial futures contracts are conducted through regulated exchanges, which do not result in counterparty credit risk.

At the time the Fund enters into a financial futures contract the Fund deposits and maintains with the broker as collateral an initial margin as required by the exchange on which the transaction is effected.

Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as the variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or (loss) equal to the difference between the value of the contract at the time it was opened and the time it was closed.

Cash held by/owed to the broker as of August 31, 2016 is recorded as part of "Cash at depositary and broker" and "Due to depositary and broker" in the Statement of Assets and Liabilities.

NOTE K: Swap Transactions

A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset or otherwise determined notional amount. Realized gains and (losses) and changes in unrealized gains and (losses) on swaps are included in the Statement of Operations and Changes in Net Assets respectively under "Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency" and as a component of "Change in unrealized gains and (losses) on swaps".

Cash collateral held by/owed to broker in relation to swap contracts is recorded as part of "Cash at depositary and broker" and "Due to depositary and broker" in the Statement of Assets and Liabilities.

Interest Rate Swaps

An interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payment based on a notional amount that serves as a computation basis.

At August 31, 2016 European Income Portfolio had cash amounting to \$607,720 owed to Citibank as collateral for its interest rate swaps.

Centrally Cleared Interest Rate Swaps

A centrally cleared interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payment based on a notional amount that serves as a computation basis.

The following table lists the cash collaterals held by/owed to broker for its centrally cleared interest rate swaps as of August 31, 2016:

The following table lists cash held by/owed to the broker as of August 31, 2016.

U.S. Treasury Bond, 8.75%, 08/15/2020			\$ 2,888,759	–	

NOTE L: Option Transactions

The Fund may purchase and write (sell) put and call options on securities. The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as Portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from

securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the option written.

Premiums received from written options which expire unexercised are recorded by the Fund on the expiration date as realized gains from options written. The difference between the

premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium received is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium received is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option. Exercise of an option written by the Fund could result in the Fund selling or buying a security or currency at a price different from the current market value.

The Fund may also invest in options on swap agreements, also called swaptions. A swaption is an option that gives the buyer the right, but not the obligation, to enter into a swap on a future date in exchange for paying a market-based premium. A receiver

NOTE M: Loans of Portfolio Securities

A Portfolio may make secured loans of its securities. The risks in lending securities, as with other extensions of credit, consist of possible loss of rights in the collateral should the borrower fail financially. In addition, a Portfolio will be exposed to the risk that the sale of any collateral realized upon the borrower's default will not yield proceeds sufficient to replace the loaned securities.

In determining whether to lend securities to a particular borrower, the Investment Manager will consider all relevant facts and circumstances, including the creditworthiness of the borrower.

While securities are on loan, the borrower may pay the Portfolio concerned any income from the securities. The Portfolio may invest any cash collateral in money market instruments, thereby earning additional income, or receive an agreed upon amount of income from a borrower who has delivered equivalent collateral.

The Portfolio may have the right to regain record ownership of loaned securities or equivalent securities in order to exercise ownership rights such as voting rights, subscription rights and rights to dividends, interest or distributions. The Portfolio may pay reasonable finders', administrative and other fees in connection with a loan.

For making secured loans of its security, a Portfolio receives gross fee income, of which 20% is paid to the securities lending agent for providing securities lending services.

For the year ended August 31, 2016, the Portfolios earned net fee income as follows:

AB FCFI—

Global Equity Blend Portfolio	\$ 124,647
Global Growth Trends Portfolio	\$ 260,595
Global Value Portfolio	\$ 194,220
Emerging Markets Growth Portfolio	\$ 400,200

Eurozone Strategic Value Portfolio.....	€ 69,762
European Value Portfolio.....	€ 113,053
Asia Ex-Japan Equity Portfolio	\$ 71,180

swaption gives the owner the right to receive the total return of a specified asset, reference rate, or index. A payer swaption gives the owner the right to pay the total return of a specified asset, reference rate, or index. Swaptions also include options that allow an existing swap to be terminated or extended by one of the counterparties.

The following table lists the cash collaterals held by/owed to broker for its option transactions as of August 31, 2016:

AB FCFI—	Cash Held by Broker	Cash Owed to Broker

NOTE N: Bank Facility

The Fund has access to an overdraft facility (the "Facility"), established with the Depositary, intended to provide for short-term/temporary financing if necessary, subject to certain restrictions, in connection with abnormal redemption activity.

NOTE O: Co-Management of Assets

For the purpose of effective management, where the investment policies of a Portfolio so permit, the Management Company may choose to co-manage assets of certain Portfolios within or outside the Fund. In such cases, assets of different Portfolios will be managed in common. The assets which are co-managed shall be referred to as a "pool". These pooling arrangements are an administrative device designed to reduce operational and other expenses and do not change the legal rights and obligations of Shareholders. The pools do not constitute separate entities and are not directly accessible to investors. Each of the co-managed Portfolios shall remain entitled to its specific assets.

Where assets of several Portfolios are pooled for the purposes of collective management, a record is maintained of the proportion

Asset Pool

AB Global Investments-Global Bond Pool

AB Global Investments-Global Growth Pool

AB Global Investments-Global Value Pool

NOTE P: Subsequent Events

It was decided by the Board of Managers to approve the merger of AB FCFPI – Global Growth Trends Portfolio into AB SICAVI – Thematic Research Portfolio, effective October 28, 2016.

As of September 14, 2016 Eurozone Strategic Value Portfolio will be renamed Eurozone Equity Portfolio and European Value Portfolio will be renamed European Equity Portfolio.

Each Portfolio of the Fund is limited to borrowing 10% of its respective net assets. Borrowings pursuant to the Facility are subject to interest at a mutually agreed upon rate and security by the underlying assets of each Portfolio.

of the Asset Pool which is attributable to each respective participating Portfolio, with a reference to the Portfolio's original participation in this Pool and will change in the event of additional allocation or withdrawals. The entitlements of each participating Portfolio to the co-managed assets apply to each and every line of investments of such pool.

Additional investments made on behalf of the comanaged Portfolios shall be allotted to such Portfolios in accordance with their respective entitlement, whereas assets sold shall be levied similarly on the assets attributable to each participating Portfolio.

As of August 31, 2016 the Fund co-manages the assets of certain Portfolios within the Fund utilizing the following Pools:

Participating Portfolios

Global Bond Portfolio

Global Bond II Portfolio

Global Equity Blend Portfolio

Global Growth Trends Portfolio

Global Equity Blend Portfolio

Global Value Portfolio

Effective December 15, 2016, all Portfolios of the Fund will cease accepting subscriptions into Class B shares (including all variations and H shares) (except for Class BY in Asia Ex-Japan Equity Portfolio) from investors, including new and existing investors, though certain exchanges may be permitted in Class B shares of another Portfolio or other AB fund available in their jurisdiction.

* Unaudited. The TER calculation follows the guidelines as outlined by SFAMA May 16 2008.

** For the Total Expense Ratio calculation of the Global High Yield Portfolio the total net assets of the underlying funds managed by the Investment Manager are removed from the computation of the net management fee, management company fee and taxe d'abonnement of the Portfolio to avoid duplicated fees.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of AB FCP I

We have audited the accompanying financial statements of AB FCP I and of each of its Portfolios (the "Fund"), which comprise the statement of assets and liabilities and the portfolio of investments as of August 31, 2016 and the statement of operations and changes in net assets for the year then ended and other explanatory information to the financial statements.

Responsibility of the Board of Managers of the Management Company for the financial statements

The Board of Managers of the Management Company is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements and for such internal control as the Board of Managers of the Management Company determines is necessary to enable the preparation and presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the "réviseur d'entreprises agréé"

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier". Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgement of the "réviseur d'entreprises agréé", including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the "réviseur d'entreprises agréé" considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Managers of the Management Company, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of AB FCPI and of each of its Portfolios as of August 31, 2016, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Other matter

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

Financial Information on the Fund

The Fund publishes semi-annual and annual financial reports containing a list of each Portfolio's holdings and their market values as of the end of the relevant half-year.

Please be informed that for Portfolios the base currency of which is the Japanese Yen, the payment of the redemption proceeds (the redemption price less any applicable contingent deferred sales charge) will be made by the Depositary or its agents usually within four Business Days after the redemption request for a given trade has been accepted.

As of August 31, 2016 the expense ratio of Developed Markets Multi-Asset Income Portfolio met the expense ratio cap stipulated by the Singapore Central Provident Fund ("CPF") Board of 1.75%. In the financial year when these Portfolios are unable to meet the CPF Board's expense ratio requirements by the relevant date stipulated by the CPF Board, the CPF Board may restrict these Portfolios from accepting new CPF monies from such stipulated date.

In the event that the Dynamic Diversified Portfolio, Global Growth Trends Portfolio and Global Equity Blend Portfolio are unable to meet the expense ratio caps stipulated by the Singapore Central Provident Fund ("CPF") Board of 1.75%, 1.95% and 1.95%, respectively, by August 31, 2016, these Portfolios will cease to accept new CPF subscription monies from December 24, 2009 onwards. Existing CPF investors would be given options for switching, redeeming or holding their shares.

Class SA GB and S1A GB Shares are available only to those UK institutional investors who demonstrate to the satisfaction of the Management Company that they are exempt from withholding tax on U.S.-source dividend income under the relevant tax treaty between the investor's country of tax residence and the United States and agree to provide the Management Company certain other certifications and information to the extent required to establish their eligibility for these shares.

Class SB GB and S1B GB Shares are available only to those UK Institutional Investors who demonstrate to the satisfaction of the Management Company that they entitled to reduced withholding tax of 15% on US-source dividend income under the relevant tax treaty between the investor's country of tax residence and the United States and agree to provide the Management Company certain other certifications and information to the extent required to establish their eligibility for these shares.

Information concerning issue and repurchase prices, purchases and sales of securities, the financial situation of the Fund and copies of annual and semi-annual reports can be requested free of charge from:

BNP Paribas Securities Services, Paris, succursale de Zürich, was authorized by the Swiss Financial Market Supervisory Authority as Swiss representative of the Fund, and also acts as paying agent. The Prospectus, the Management Regulations, the annual and semi-annual reports, as well as the list of the purchases and sales which the Fund has undertaken during the financial year, may be obtained, on simple request and free of charge, at the head office of the Swiss representative, BNP Paribas Securities Services, Paris, succursale de Zürich, Selnaustrasse 16, CH-8002 Zürich, Switzerland.

The Key Investor Information Documents (KIIDs) of the Fund are made available at www.abglobal.com/go/kiid.

Notice to Shareholders

If required by law and applicable regulations, notice to shareholders will be published in the *Recueil Electronique des Sociétés et Associations* (formerly the *Mémorial*) and in such other newspaper(s) in such countries as the Management Company may from time to time determine.

Value at Risk

For UCITS the Value at Risk (VaR) can be measured on an absolute or a relative basis. VaR is a widely used risk measure of the risk of loss on a specific portfolio of financial assets. The Investment Manager monitored the total global exposure (market risk) of the equity Portfolios for the year ended

Important Notice

Controversial Weapons Policy

The Management Company arranges for the screening of companies globally for their corporate involvement in anti-personnel mines, cluster munitions and/or munitions made with depleted uranium. Where such corporate involvement has been verified, the Management Company's policy is not to permit investment in securities issued by such companies by the Fund.

August 31, 2016 utilizing the VaR calculated on a relative basis (pursuant to which the VaR of the relevant Portfolio may not exceed twice the VaR of the relevant reference benchmark). During the aforementioned year the low, high and average VaR of the Portfolios measured on a relative basis were as follows:

Portfolio	Benchmark	Low	High	Average
Developed Markets Multi-Asset				
Income Portfolio	50% MSCI World Index / 40% Barclays Global High Yield (Hedged) / 10% Barclays Global Treasuries (Hedged)	65.51%	115.56%	89.12%
Global Equity Blend Portfolio	MSCI World	95.34%	115.67%	102.32%
Global Growth Trends Portfolio	MSCI World	94.44%	128.11%	103.21%
Global Value Portfolio	MSCI World	93.19%	116.62%	100.18%
Emerging Markets Growth Portfolio	MSCI Emerging Markets	87.76%	104.27%	91.68%
American Growth Portfolio	Russell 1000 Growth	91.75%	122.04%	103.99%
US Thematic Research Portfolio.....	S&P 500	99.62%	125.59%	108.40%
Eurozone Strategic Value Portfolio.....	MSCI EMU	90.76%	117.55%	101.82%
European Value Portfolio.....	MSCI Europe	92.43%	120.09%	100.60%
Asia Ex-Japan Equity Portfolio	MSCI All Countries Asia Free X Japan	97.95%	140.98%	114.66%
Japan Strategic Value Portfolio	Topix Index (Tokyo)	84.16%	139.81%	110.27%
China Opportunity Portfolio	MSCI China Index	79.40%	117.31%	106.12%

For the Fixed Income Portfolios the Investment Manager monitored the global exposure (market risk) utilizing the VaR calculated on an absolute basis (pursuant to which the VaR of the relevant Portfolio may not exceed 20% of its Net Asset Value).

During the aforementioned fiscal year the low, high and average VaR of the Portfolios measured on an absolute basis were as follows:

Portfolio	Low	High	Average
Dynamic Diversified Portfolio.....	1.11%	2.42%	1.78%
Global Bond Portfolio.....	0.08%	0.41%	0.15%
Global High Yield Portfolio.....	0.59%	1.19%	0.86%
American Income Portfolio.....	0.37%	0.65%	0.48%
European Income Portfolio.....	0.70%	1.29%	0.93%
Emerging Markets Debt Portfolio.....	0.86%	1.57%	1.15%
Mortgage Income Portfolio.....	0.07%	0.82%	0.10%
Global Bond II Portfolio.....	0.40%	0.95%	0.57%

The VaR of the Portfolios and the VaR of the benchmarks were calculated based on a "historical" model with a 99% confidence level and an observation period of one month or 20 days.

Leverage

For the Portfolios listed below, the Investment Manager does not expect to utilize bank borrowing in implementing the Portfolio's investment strategy.

The expected level of leverage is calculated as the sum of the notional of the financial derivative instruments held by the Portfolio. Pursuant to the CSSF Circular 11/512 dated May 30, 2011, this calculation methodology neither takes into account the fact that a particular financial derivative instrument increases or decreases the Portfolio's investment risks nor permits to net financial derivative instruments with reverse positions. Shareholders should be aware that (i) a higher level of expected leverage does not automatically imply a higher level of investment risk and (ii) the expected level of leverage disclosed above is mainly generated by the use of derivatives for hedging purposes or for efficient portfolio management. In addition, the actual leverage of the Portfolio may deviate from the below mentioned expected level of leverage:

- Developed Markets Multi-Asset Income Portfolio
0%-100% range of the Net Asset Value of the Portfolio
- Dynamic Diversified Portfolio
0%-300% range of the Net Asset Value of the Portfolio
- Global Equity Blend Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- Global Growth Trends Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- Global Value Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- Emerging Markets Growth Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- American Growth Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- US Thematic Research Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- Eurozone Strategic Value Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- European Value Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- Asia Ex-Japan Equity Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- Asia Pacific Ex-Japan Equity Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- Japan Strategic Value Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- China Opportunity Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- Global Bond Portfolio
0%-100% range of the Net Asset Value of the Portfolio
- Global High Yield Portfolio
0%-100% range of the Net Asset Value of the Portfolio

- American Income Portfolio
0%-100% range of the Net Asset Value of the Portfolio
- European Income Portfolio
0%-100% range of the Net Asset Value of the Portfolio
- Emerging Markets Debt Portfolio
0%-100% range of the Net Asset Value of the Portfolio
- Mortgage Income Portfolio
0%-100% range of the Net Asset Value of the Portfolio
- Global Bond II Portfolio
50%-150% range of the Net Asset Value of the Portfolio

As a result of using the sum of notional approach the average leverage of the Portfolios for the year ended August 31, 2016 was:

Portfolio	Leverage
Developed Markets Multi-Asset Income Portfolio	78.53%
Dynamic Diversified Portfolio.....	100.96%
Global Equity Blend Portfolio	0.46%
Global Growth Trends Portfolio	0.07%
Global Value Portfolio	0.99%
Emerging Markets Growth Portfolio	0.10%
American Growth Portfolio	0.03%
US Thematic Research Portfolio.....	0.03%
Eurozone Strategic Value Portfolio.....	10.52%
European Value Portfolio	4.70%
Asia Ex-Japan Equity Portfolio	0.27%
Japan Strategic Value Portfolio	0.83%
China Opportunity Portfolio	0.23%
Global Bond Portfolio.....	63.65%
Global High Yield Portfolio	35.67%
American Income Portfolio.....	30.65%
European Income Portfolio	38.51%
Emerging Markets Debt Portfolio.....	19.95%
Mortgage Income Portfolio	11.84%
Global Bond II Portfolio	158.65%*

Remuneration

In relation to the Fund, no staff is directly employed by it. In relation to the Management Company, AllianceBernstein (Luxembourg) S.à r.l. has adopted a remuneration policy in order to meet the requirements of the UCITS V Directive in a way and to the extent that it is appropriate to its size, internal organization and the nature, scope and complexity of

its activities. Specific disclosure information, related – among others – to the total amount of remuneration for the financial year of the Fund, is not available as the Management Company has not yet completed the first annual performance period in which it has to comply with articles 14a and 14b of the UCITS V Directive.

* A significant proportion of the total derivative notional exposure of the Global Bond II Portfolio is FX related, of which the majority is for hedging the foreign currency exposure back to the fund's base currency. Most of the rest of the derivative notional exposure is interest rate related, the majority of which is used for duration management.
