Investment Manager's Report

Overview of investment activities over H1 2017

BNP Paribas Investment Partners Netherlands N.V. is the Delegated Investment Manager of the Sub-Funds. Below an overview of the investment activities during H1 2017 is provided.

1ST QUARTER 2017

EQUITIES

Overall we remain underweight equities. Global equities are richly valued, in our view. Looking at the rally since November, we think a lot of positive news and prospects have now been discounted. We see some improvement in earnings, but not enough for us to turn outright positive on equities. We actually think that consensus earnings estimates are too high. We see monetary policy as positive for the asset class: the Federal Reserve will likely raise US interest rates cautiously and the ECB will continue its asset purchase programme. Our underweight reflects high valuations and high expectations for earnings, as well as downside risks from a hard landing in China, increased protectionism or a rise in inflation and bond yields

BONDS

Towards the end of February we opened a small underweight position in duration. We believe that under our central scenario, expected returns of government bonds are largely flat. In our view, the lows in bond yields are now behind us and whilst central banks will still have large balance sheets, the peak of Quantitative Easing globally and accommodative monetary policies more generally has now been reached. With our negative equity beta, the short duration position is also designed to protect portfolios from an environment of stronger growth and gradual normalisation of monetary policy.

In January we also opened an underweight position in Corporate Bonds vs EUR government bonds. We believe high yield credit is now starting to look quite expensive, implying flat to negative expected returns in our core scenario of modest global growth. We also believe the asset class does not provide sufficient hedge for our alternative scenarios, as it lacks the upside to reflation (should the global macro picture strongly improve) yet has significant exposure to a downward turn in the economic cycle. Finally, we believe corporate credit fundamentals have been deteriorating.

OTHER ASSET CLASSES

No changes.

2ND QUARTER 2017

EQUITIES

In April we initiated an overweight position in European ex-UK equities vs UK equities. We think that the consensus expectation for earnings growth in the UK is too high. UK earnings have done well essentially due to the decline in the British pound and the improvement in oil prices, but these effects are fading. Earnings momentum has already slowed, but analysts' revisions are still highly positive.

In May we closed our underweight in equities, opened in March 2016. Some fundamental factors are keeping us cautious. We think valuations are rich and earnings expectations are high. However, markets have ignored this and with positive earnings momentum in the Eurozone and an increasing number of analysts upgrading earnings expectations for the Eurozone and the US, we do not see an imminent catalyst for a downtrend in developed equities. Overall we are now neutral equities but with a preference for European ex-UK equities.

BONDS

Given the generally low level of yields versus real growth and inflation, we are still structurally short duration.

We kept our underweight position in Corporate Bonds vs EUR government bonds (opened in January). Spreads have narrowed. Meanwhile, company fundamentals such as debt levels and interest payments relative to profits or cash flow have worsened. We think current spreads do not offer adequate compensation for risks such as higher inflation and yields or pressure on global growth from protectionism or a downturn in China.

OTHER ASSET CLASSES

No changes.

b) Sub-funds opened

All the sub-funds for which securities portfolios are detailed in the present document are opened to subscriptions as at June 30, 2017.

Note 2 - Principal accounting methods

a) Net asset value

The annual report is prepared on the basis of the latest net asset value available on June 30, 2017.

b) Presentation of the financial statements

The financial statements of the Company are presented in accordance with the regulations in force in Luxembourg governing Undertakings for Collective Investment. The combined financial statements are expressed in Euro.

The statement of operations and changes in net assets covers the period ended June 30, 2017.

c) Valuation of the securities portfolio

The value of shares in Undertakings for Collective Investment is determined following the last Net Asset Value available on the valuation day.

The valuation of all securities listed on a stock exchange on any other regulated market, operating regularly, which is recognised and open to the public, is based on the closing price on the order acceptance date, or the price on the market day following that day for Asian markets, and, if the security in question is traded on several markets, the most recent price on the major market for that security; if this price is not representative, the valuation will be based on the probable sale price which the Board of Directors of the Company shall estimate prudently and in good faith.

Unlisted securities or securities not traded on a stock market or on any other regulated market, operating regularly, that is recognized and open to the public, will be valued on the basis of the probable sale price estimated in a prudent and bona fide manner by a qualified professional appointed for this purpose by the Board of Directors.

If permitted by market practice, liquid assets, money market instruments and all other instruments may be valued at their nominal value plus accrued interest or according to the linear amortisation method. Any decision to value the assets in the portfolio using the linear amortisation method must be approved by the Board of Directors of the Company, which will record the reasons for such a decision. h) Swing pricing

In certain market conditions, taking account of the volume of purchase and sale transactions in a given sub-fund, category or class and the size of these transactions, the Board of Directors of the Company may consider that it is in the interests of shareholders to calculate the NAV per share based on the purchase and sale prices of the assets and/or by applying an estimate of the difference between the buy and sell price applicable on the markets on which the assets are traded. The Board of Directors of the Company may further adjust the NAV for transaction fees and sales commissions, provided these fees and commissions do not exceed 1% of the NAV of the sub-fund, category or class at that time. During the period ended June 30, 2017, there was no swing pricing.

Note 3 - Management fees

For all the sub-funds, fees are paid to the AIFM by the Company.

Note 4 - Custodian fees

The custodian fees are calculated and payable in arrears at an annual fixed rate of 0.01% (excluding taxes) of the sub-fund's average net asset value.

Note 5 - Taxes

The Company was not liable for any Luxembourg income tax or capital gains tax on the prospectus date.

However, the Company is subject in Luxembourg to an annual subscription tax "taxe d'abonnement" representing 0.05% of the value of the net assets. This rate is reduced to 0.01% for the following:

- sub-funds having the exclusive objective of collective investment in deposits with credit institutions;
- sub-funds, categories and/or sub-classes reserved for Institutional investors, Managers and UCIs.

The following are exempt from this "taxe d'abonnement":

- b) sub-funds, categories and/or classes reserved to Institutional investors, Managers, or UCIs:
 - (i) whose securities are reserved for Institutional investors and
 - (ii) whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions, and
 - (iii) whose weighted residual portfolio maturity does not exceed 90 days, and
 - (iv) that have obtained the highest possible rating from a recognised rating agency;
- c) sub-funds, categories and/or classes reserved to:
 - (i) institutions for occupational retirement pension or similar investment vehicles, set up at the initiative of one or more employers for the benefit of their employees, and
 - (ii) companies having one or more employers investing funds to provide pension benefits to their employees;
- d) sub-funds whose main objective is investment in microfinance institutions;
- e) sub-funds, categories and/or classes:
 - (i) whose securities are listed or traded on at least one stock exchange or another regulated market operating regularly that is recognized and open to the public, and
 - (ii) whose exclusive object is to replicate the performance of one or several indices.

When due, the "taxe d'abonnement" is calculated and payable quarterly on the basis of the Company's net assets on the last day of the respective quarter.

In addition, the Company may be subject to foreign UCI's tax, and/or other regulators levy in the country where the sub-fund is registered for distribution.
