## AEGON European ABS Fund (the “Fund”) B EUR Acc (ISIN IE00BZ005D22)

This is a sub-Fund of Aegon Asset Management Europe ICAV (the “ICAV”).

### Objectives and investment policy

**Objective:** The investment objective is to provide long term capital growth.

**Investment policy:** The Fund will seek to achieve its investment objective by investing at least 70% of its net assets in asset-backed securities. Asset-backed securities are a type of debt securities such as bonds or notes whose value and income payments are derived from an underlying pool of assets held by the issuer. The underlying pool of assets is referred to as ‘collateral’. The Fund may hold bonds and notes with various types of collateral, but some examples include residential mortgages, commercial mortgages, consumer loans, car loans, credit card loans, student loans and corporate loans, such bonds will not embed any leverage. The Fund will invest at least 70% of its net assets in bonds with a credit rating which is deemed to be ‘investment grade’, defined as meeting one or more of the following rating criteria: Baa3 or higher by Moody's Investor Services (Moody's); BBB- or higher by Standard & Poor's Rating Services (S&P) or Fitch Ratings Inc (Fitch). The Fund will invest predominantly in bonds or notes issued by issuers located within Europe, but may also invest in bonds or notes issued by issuers located outside Europe. The Fund will invest in assets denominated both in Euros and in other currencies. Where non-Euro denominated assets are held, the Investment Manager will seek to hedge the associated currency risk back to Euros.

**Other information:** You can buy, sell or exchange the Fund's shares on any business day (see 'Key Information for Buying and Selling' in the Fund Supplement to the Prospectus for more information). Income the Fund receives will be reinvested and automatically reflected in the value of your shares.

### Risk and reward profile

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which its value has changed in the past. The Fund has been categorised as 2 because bond funds in general are less volatile than equity funds. Within bond funds this asset class shows a relative low volatility. The Fund's risk and reward category is not guaranteed to remain unchanged and may shift over time. It is calculated using historical data, which may not be a reliable indication of the future risk profile of the Fund. Category 1 does not mean 'risk free'. The following risks, which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund.

**Asset Backed Securities:** the value of an asset-backed security can be affected by various factors, including: (i) changes in the market's perception of the pool of underlying assets (or collateral) backing the security; (ii) economic and political factors such as interest rates and levels of unemployment and taxation, which can have an impact on repayments and default rates on the collateral; (iii) changes in the market's view of the creditworthiness of the issuer; and (iv) the speed at which loans which form the collateral are repaid.

**Credit risk:** The Fund is subject to credit risk in respect to its investments and with regard to its contractual counterparties (such as hedge providers).

**Liquidity risk:** The secondary market for sub-investment grade bonds is typically much less liquid than the market for investment grade bonds, frequently with significantly more volatile prices and larger spreads between bid and asked price in trading.

Full details of risks are disclosed in the 'Risk Factors' section of the Fund Supplement to the Prospectus and the Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest		
Entry charge	0,20%	This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out. The entry and exit charges shown are the maximum figures, and in some cases you may pay less.
Exit charge	0,20%	You can find out the actual entry and exit charges from your financial adviser or distributor.

Charges taken from the fund over a year		
Ongoing charges	0,33%	The ongoing charges figure shown here is an estimate of the charges. This is based on the anticipated expenses for one year. The ICAV annual report for each financial year will include detail on the exact charges made. The ongoing charge excludes any portfolio transaction costs (except in the case of an entry/exit charge paid by the Fund when buying and selling shares in another fund).

Charges taken from the fund under certain specific conditions		
Performance fee	None	

More detailed information on charges can be found in the 'Fees and Expenses' section of the Fund Supplement to the Prospectus and the Prospectus.
