No subscriptions should be made on the basis of the financial report alone. Subscriptions should only be made on the basis of the current Prospectus supplemented by the latest Annual Report and the latest Semi-Annual Report, if published thereafter.

Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all Sub-Fund expenses, but does not include the effect of sales charges or correspondent bank charges, and assumes reinvestment of distributions. If such charges were included, returns would have been lower. Performance for other share classes will be more or less depending on differences in fees and sales charges. Unless otherwise indicated, all defined terms used herein shall have the same meaning as set out in the Prospectus of the Company.

#### **Background to the Company**

The following information is derived from and should be read in conjunction with the full texts and definitions section of the Prospectus.

Natixis International Funds (Dublin) I plc (the "Company") is structured as an open-ended umbrella investment company with variable capital and segregated liability between its sub-funds, incorporated under the laws of Ireland on 26 June 1997 as a public limited company pursuant to the Companies Act 2014. The Company has been authorised by the Central Bank of Ireland (the "Central Bank") as an investment company pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations"). The Company commenced operations on 30 June 1997.

Key Investor Information Documents ("KIID") were submitted for noting to the Central Bank on 17 February 2017. These KIID are structured by share class type focusing on the representative share for a given class. There are currently Redeemable Participating Shares of three Sub-Funds (the "Sub-Funds") in issue, Natixis International Funds (Dublin) I - Loomis Sayles Multisector Income Fund (hereafter "Loomis Sayles Multisector Income Fund"), Natixis International Funds (Dublin) I - Loomis Sayles High Income Fund (hereafter "Loomis Sayles Global Opportunistic Bond Fund (hereafter "Loomis Sayles Global Opportunistic Bond Fund"). At 30 June 2017, the Company offered the following share classes for subscription in each of the Sub-Funds:

### **Investment Objectives**

#### **Loomis Sayles Multisector Income Fund**

The investment objective of Loomis Sayles Multisector Income Fund (the "Sub-Fund") is high total investment return through a combination of current income and capital appreciation. The Sub-Fund invests at least 80% of its total assets in bonds and other related fixed income securities issued or guaranteed by the U.S. Government or its authorities or instrumentalities or fixed income securities issued by supranational entities (e.g. the World Bank) as well as commercial paper, zero coupon securities, asset-backed securities, mortgage-backed securities (including collateralised mortgage obligations), when-issued securities, Regulation S Securities, Rule 144A securities, structured notes and convertible securities in accordance with the UCITS Regulations.

The Sub-Fund may invest up to 20% of its total assets in securities other than those described above, such as common stocks, preferred stocks, and closed-ended U.S. real estate investment trusts ("REITS"). The Sub-Fund may invest up to 10% of its net assets in units of undertakings for collective investment. The Sub-Fund may invest any amount of its assets in securities of U.S. and Canadian issuers (such securities being listed or traded on a global basis on the markets set out in the Prospectus) and up to 30% of its total assets in securities of other non-U.S. or non-Canadian issuers including issuers in emerging markets. The Sub-Fund may invest any amount of its assets in securities issued by supranational issuers. The Sub-Fund may invest in securities denominated in any currency including currencies of emerging markets countries. The Sub-Fund may invest in securities of any maturity. The Sub-Fund may also invest up to 35% of its total assets in securities of below investment grade quality. The Sub- Fund does not impose limits on the amount of its assets invested in cash or money market instruments.

### **Loomis Sayles High Income Fund**

The investment objective of Loomis Sayles High Income Fund (the "Sub-Fund") is high total investment return through a combination of current income and capital appreciation. The Sub-Fund invests at least 51% of its total assets in fixed income securities, which are listed or traded on a global basis on the markets set out in the Prospectus. The fixed income securities in which the Sub-Fund may invest include corporate securities, securities issued or guaranteed by the U.S. Government or its authorities or instrumentalities, or supranational entities (e.g. the World Bank), commercial paper, zero coupon securities, mortgage-backed securities, collateralised mortgage obligations, asset-backed securities, US REITS, Regulation S Securities, Rule 144A securities and convertible securities in accordance with the UCITS Regulations.

The Sub-Fund may invest up to 49% of its total assets in cash, money market instruments or securities other than those described above. The Sub-Fund invests no more than 20% of its total assets in preferred stocks and no more than 10% of its total assets in common stocks and up to 10% of its net assets in units of undertakings for collective investment. It may also invest any portion of its assets in securities of U.S., Canadian and supranational issuers and up to 50% of its assets in the securities of other non-U.S., non-Canadian and non-supranational issuers. The Sub-Fund may invest any portion of its assets in securities of below investment grade quality.

#### **Loomis Sayles Global Opportunistic Bond Fund**

The investment objective of Loomis Sayles Global Opportunistic Bond Fund (the "Sub-Fund") is high total investment return through a combination of high current income and capital appreciation. The Sub-Fund invests primarily in fixed income securities of issuers located in any country of the world, selected on an opportunistic basis. The Sub-Fund invests at least two-thirds of its total assets in investment grade fixed income securities issued by issuers on a world-wide basis, such securities being listed or traded on a global basis on the markets set out in the Prospectus and, for hedging and efficient portfolio management purposes, in global currencies including currency exchange transactions. Fixed income securities in which the Sub-Fund may invest include corporate fixed income securities, fixed income securities issued or guaranteed by sovereign governments or public international bodies as well as zero coupon securities, Regulation S Securities, Rule 144A securities, asset-backed securities and mortgage-backed securities. Investment grade fixed income securities are securities rated at least BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Service, Inc.), an equivalent rating by Fitch Ratings, or if unrated, determined by the Delegate Investment Manager to be of equivalent quality.

The Sub-Fund may invest in fixed income securities that may be denominated in any currency and may be issued by issuers located in countries with emerging securities markets. The Sub-Fund may invest in fixed-income securities of any maturity. The Sub-Fund may invest in currencies other than the Base Currency.

### **Background to the Company (Continued)**

### **Investment Objectives (Continued)**

### **Loomis Sayles Global Opportunistic Bond Fund (Continued)**

The Sub-Fund may invest up to one-third of its total assets in cash, money market instruments or securities other than those described above, such as hybrid bonds, commercial paper, collateralised mortgage obligations, convertible securities, equities and other equity-type securities in accordance with the UCITS Regulations and up to 20% of its total assets in securities of below investment grade quality as well as, up to 10% of its net assets in units of undertakings for collective investment. The Sub-Fund may not invest more than 25% of its total assets in convertible bonds and no more than 10% of its total assets in equities and other equity-type securities such as common stocks, warrants, depositary receipts for any of those equity securities.

Each Sub-Fund may engage in financial derivative instruments for the purposes of efficient portfolio management. Loomis Sayles Multisector Income Fund may also engage in repurchase agreements for the above purpose.

### **Delegate Investment Manager's Reports**

### **Loomis Sayles Multisector Income Fund**

6 Months Performance	
Loomis Sayles Multisector Income Fund (Class I/D (USD))*	6.12%
Bloomberg Barclays U.S. Government/Credit Bond Index	2.66%

The Fund outperformed its Reference Index (Bloomberg Barclays U.S. Government/Credit Bond Index) in the six-month period ended 30 June 2017.

An allocation to non-U.S.-dollar-denominated issues was the largest contributor to relative return, largely due to security selection among issues denominated in the Mexican peso and New Zealand dollar. The Fund's exposure to high yield credit also contributed to return. Positive security selection drove performance in the space as selected communications names outperformed. Financial company holdings and a modest allocation to utilities also bolstered results. Investment grade credit was another top performer during the period, benefiting from strong security selection, particularly among basic industry and insurance names. Positive security selection among convertible holdings also aided relative performance, led by a selected technology name. In addition, a meaningful underweight to U.S. Treasuries benefited performance.

Among detractors, an allocation to common stock weighed on performance as a selected automotive name underperformed.

<sup>\*</sup>Performance includes the reinvestment of dividends during the period.

### **Delegate Investment Manager's Reports (Continued)**

### **Loomis Sayles High Income Fund**

6 Months Performance	
Loomis Sayles High Income Fund (Class I/D (USD))*	6.00%
Bloomberg Barclays U.S. Corporate High-Yield Bond Index	4.93%

The Fund outperformed its Reference Index (Bloomberg Barclays U.S. Corporate High-Yield Bond Index) in the six-month period ended 30 June 2017.

High yield credit was the largest contributor to relative performance, benefiting from positive security selection. Basic industry and transportation holdings helped drive return. An out-of-index allocation to non-U.S.-dollar-denominated securities also generated positive results. In particular, exposure to securities denominated in the Mexican peso and New Zealand dollar boosted return as both currencies appreciated versus the U.S. dollar during the period. An out-of-index position in convertible securities was another contributor to relative performance, mainly due to security selection. Specific holdings within the cable/media, energy and technology sectors benefited results.

Among detractors, a modest allocation to common stock weighed on performance as selected energy and industrial names underperformed.

<sup>\*</sup>Performance includes the reinvestment of dividends during the period.

#### **Delegate Investment Manager's Reports (Continued)**

### **Loomis Sayles Global Opportunistic Bond Fund**

6 Months Performance	
Loomis Sayles Global Opportunistic Bond Fund (Class I/D (USD))*	5.31%
Bloomberg Barclays Global Aggregate Index	4.41%

The Fund outperformed its Reference Index (Bloomberg Barclays Global Aggregate Index) in the six-month period ended 30 June 2017.

The Fund's outperformance was largely due to allocation among spread sectors (which trade at a yield differential versus comparable maturity Treasuries). Positioning with respect to the yield curve (which reflects the relationship among bond yields across the maturity spectrum) and duration (which measures price sensitivity to interest rates) also added value.

Spread sector allocation was the primary driver of outperformance during the six-month period. The Fund benefited from an overweight to corporate credit, particularly in the banking, insurance, finance, consumer non-cyclical, communications and capital goods sectors. Allocations to asset-backed securities (ABS) and commercial mortgage-backed securities (CMBS) both added value as well. An overweight to energy and underweight to the technology and government-related sectors were modest detractors. The Fund's underweight to euro zone treasuries constrained returns as well, as certain peripheral euro zone bonds rebounded strongly during the period.

Positioning with respect to both duration and the yield curve contributed positively to overall results. Allocations to duration in select local currency emerging markets, such as Mexico, Brazil and Indonesia, helped drive excess return. Yield curve positioning in the euro-denominated markets was helpful given underweight exposure to weak-performing long duration bonds.

Security selections were additive to performance as a result of issuer decisions within banking, electric power, global treasuries and the government-related sector. Bond choices in U.S. agency-backed mortgage-backed securities (MBS) aided results as well. Selection within inflation-linked bonds had a moderately negative impact on performance.

Currency allocation negatively impacted results mainly due to the underweight to the euro, which advanced against most global currencies. Overweights to the Mexican peso, Danish krone, Norwegian krone, Polish zloty and Canadian dollar helped offset some of the impact from the euro underweight.

#### Notes to the Condensed Financial Statements as at 30 June 2017

#### 1. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these condensed financial statements are set out below. These policies have been consistently applied to all periods presented, unless otherwise stated in the following text.

#### a) Basis of Presentation

The condensed financial statements have been prepared in accordance with IFRS, as adopted by the European Union (EU) and Irish statute comprising the Companies Act 2014 and the UCITS Regulations. The financial statements have been prepared in accordance with the pronouncements on IAS 34 "Interim Financial Reporting" issued by the International Accounting Standards Board. The unaudited condensed financial statements should be read in conjunction with the audited financial statements for the year ended 31 December 2016. The condensed financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgement in the process of applying the Company's accounting policies.

### b) Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts.

All cash at bank balances are held with Brown Brothers Harriman & Co., or with third party institutions approved by the Company on overnight deposit or directly with a sub-custodian. All deposits held on call with banks are returned to the Depositary the following day.

Effective from 1st July, 2016, subscription and redemption monies are channelled through an umbrella cash collection account in the name of the Company, in line with the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) Investor Money Regulations 2015 for Fund Service Providers (the "Investor Money Regulations" or "IMR").

# c) Foreign Currency Exchange Rates

The condensed financial statements are presented in USD. The following exchange rates at 30 June 2017 and 31 December 2016 have been used to translate assets and liabilities held in currencies other than USD:

### d) Distributions Payable to Holders of Redeemable Participating Shares

The distributions to holders of Redeemable Participating Shares are recognised as finance costs in the Condensed Statement of Comprehensive Income.

### Notes to the Condensed Financial Statements as at 30 June 2017 (Continued)

# 2. SHARE CAPITAL

### Authorised

The authorised share capital of the Company is USD 70,000 divided into 70,000 Subscriber Shares of a par value of USD 1 each and 5,000,000,000 shares of no par value designated as unclassified shares. The unclassified shares are available for issue as Redeemable Participating Shares.

### 2. SHARE CAPITAL (Continued)

### **Number of Shares Issued and Fully Paid (Continued)**

In the opinion of the Directors, this disclosure reflects the nature of the Company's investment business as an investment fund.

### **Share Rights**

The holders of the Subscriber Shares are entitled to one vote per holder on a vote taken on a show of hands and on a poll, to one vote per Subscriber Share. The holders of Subscriber Shares are not entitled to any dividends and, in the event of a winding up or dissolution of the Company, shall be entitled to the return of capital, provided sufficient funds exist. The holders of Redeemable Participating Shares are entitled to one vote per holder on a vote taken on a show of hands and, on a poll, to one vote per Redeemable Participating Share. The holders of Redeemable Participating Shares are entitled to such dividends as the Directors may from time to time declare and in the event of a winding up or dissolution of the Company, shall have the entitlements referred to in the Company's Prospectus.

Neither the Subscriber Shares nor the Redeemable Participating Shares carry pre-emption rights.

#### 5. CONNECTED PERSONS

The UCITS Regulations states that, inter alia, any transaction carried out with a UCITS by the management company or depositary; and the delegates or sub-delegates of such a management company or depositary (excluding any non-group company sub-custodians appointed by a depositary); and any associated or group company of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the shareholders of the Company. Additionally, there are also transactions carried out by connected parties on behalf of the Company to which the Directors have no direct access and in respect of which the Directors must rely upon assurances from the Company's delegates that the connected parties carrying out those transactions do carry them out on a similar basis.

Shareholders should have regard to the governance structure of the Company as more particularly described in the Corporate Governance Statement section of the Directors Report included in the Annual Report and Audited Financial Statements for the year ended 31 December 2016 and the roles and responsibilities of the Company's respective delegates subject to the overall supervision of the Board.

Further, Shareholders should refer to the Prospectus which identifies many of the connected party transactions and the general nature of the contractual arrangements with the principal connected parties but it is not exhaustive of all connected party transactions.

Shareholders should also refer to the provisions of the Prospectus dealing with conflicts of interest.

Therefore, having regard to confirmations from the Company's management and its relevant delegates, the Directors of the Company are satisfied that:

- (i) there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in the UCITS Regulation are applied to all transactions with connected persons; and
- (ii) transactions with connected persons entered into during the period complied with the obligations set out in the UCITS Regulation.

### 6. FINANCIAL RISK MANAGEMENT

### **Fair Value Estimation**

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- (i) Level 1: Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities; U.S. government treasury bills and certain non-U.S. sovereign obligations. Quoted prices for these instruments are not adjusted.
- (ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include investment-grade corporate bonds and certain non-U.S. sovereign obligations, listed equities and over the counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or nontransferability, which are generally based on available market information.
- (iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Level 3 instruments include certain corporate debt securities. As observable prices are not available for these securities, the Sub-Funds have used valuation techniques to derive the fair value.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the financial asset or liability.

### 6. FINANCIAL RISK MANAGEMENT (Continued)

### **Fair Value Estimation (Continued)**

The determination of what constitutes 'observable' requires significant judgment by the Directors. The Directors have delegated this task to the Delegate Investment Manager. The Delegate Investment Manager, in consultation with the Administrator, considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.
