Investment Policy and Description of Series

Investment Objectives and Policies

Invesco Emerging Markets Equity Fund (the "Fund") aims to achieve long-term capital growth through investment in companies in emerging markets. For the purposes of the Fund, the Manager ("Invesco Global Asset Management Limited") has defined the emerging markets as all the countries in the world other than all Western European countries (other than Greece and Turkey), the USA, Canada, Japan, Australia and New Zealand. Investments may be made by the Manager in Hong Kong reflecting its inextricable link with mainland China and its leverage to this country's growth. The Manager will seek to achieve the investment objective by investing predominantly in listed equity or equity-related securities. Exposure may be partially obtained through indirect investments in securities traded in other markets.

The Fund may invest in the securities of investment funds which provide access to certain markets where there are currently restrictions on foreign investment, or where the Manager perceives that such funds provide other investment opportunities.

At least 70% of the total assets of the Fund (without taking into account ancillary liquid assets) will be invested in listed equity or equity related securities of companies with their registered office in an emerging market country or with their registered office in a non-emerging market country but carrying out their business activities predominantly in emerging market countries or holding companies, the interests of which are predominantly invested in companies with their registered office in emerging market countries.

Up to 30% in aggregate of the total assets of the Fund may be invested in cash and cash equivalents, equity and equity related securities of companies which do not meet the requirements set out above but stand to benefit from their operations in emerging market countries or debt securities (including convertible debt) of issuers in emerging market countries.

Diversification of risk across a range of markets and companies will be of primary importance.

Invesco Korean Equity Fund (the "Fund") aims to achieve long-term capital growth by investing directly or indirectly in securities of Korean companies or other entities or subsidiaries of Korean companies and securities listed or traded on the Korean securities markets. The Manager will seek to achieve the investment objective by investing primarily in equity or equity-related securities (including warrants and convertible securities however, no more than 10% of the net asset value of the Fund may be invested in warrants).

The Fund may invest in the securities of investment funds which provide access to certain markets where there are currently restrictions on foreign investment, or where the Manager perceives that such funds provide other investment opportunities.

Invesco PRC Equity Fund (the "Fund") aims to achieve long-term capital growth by investing in transferable securities of companies with substantial exposure to mainland China. The Manager will seek to achieve the investment objective by investing at least 70% of the Fund's total assets (after deducting ancillary liquid assets) in equity or equity-related transferable securities of such companies. The following are considered companies with substantial exposure to mainland China; (i) companies having their registered office in the People's Republic of China, (ii) companies with their registered office outside the People's Republic of China carrying out their business activities predominantly in the People's Republic of China, or (iii) holding companies, the interests of which are predominantly invested in companies with registered office in the People's Republic of China.

Up to 30% of the total assets of the Fund may be invested in aggregate in cash and cash equivalents, equity and equity related securities issued by companies or other entities not meeting the above requirements or in debt securities (including convertible bonds) of PRC Equity Fund issuers.

Description of the Series

The Invesco Funds Series 5 (the "Series") is a multi-portfolio Irish unit trust comprising Invesco Emerging Markets Equity Fund, Invesco Korean Equity Fund and Invesco PRC Equity Fund (the "Funds"). The Series is authorised by the Central Bank of Ireland in Ireland as an Undertakings for Collective Investments in Transferable Securities ("UCITS") under the European Communities Regulations 2011, (as amended) and by the Hong Kong Securities and Futures Commission ("SFC") under the Hong Kong Securities and Futures Ordinance (Cap. 571) and has been recognised by the Financial Services Authority in the United Kingdom under Section 264 of the Financial Services and Markets Act 2000 (the "Act").

The Funds also endeavour to comply with regulatory standards of the other jurisdictions where the Funds are authorised for distribution.

The Funds issue units to unitholders. As per the consolidated prospectus, these units are referred to as "Shares" and the unitholder is referred to as the "Shareholder" throughout these Financial Statements.

Each Fund is a fund in the Invesco range of funds managed by Invesco Global Asset Management Limited, (the "Manager"). Invesco Global Asset Management Limited is an indirect wholly-owned subsidiary of Invesco Ltd.

Each Fund is approved by the Central Bank of Ireland. Each Fund is also approved by the SFC. In giving authorisation for the Fund the SFC does not take responsibility for the financial soundness of a fund nor for the correctness of any statements made or opinions expressed in this regard.

The Funds are not registered under the United States Investment Company Act of 1940 (as amended) and shares in the Funds ("Shares") have not been registered under the United States Securities Act of 1933 (as amended). Accordingly, Shares may not be offered, sold or delivered in the United States or to US Persons as defined in the current Prospectus of the Series, (the "Prospectus").

The contents of this report, for which the Directors of the Manager are responsible, have been approved by Invesco Global Asset Management Limited, which is regulated by the Central Bank of Ireland in Ireland.

Share prices are available through the Invesco internet site www.invesco.com (for Shareholders in Hong Kong please refer to www.invesco.com.hk) and, if required by local law or regulation, published in local leading financial newspapers including, in the case of Hong Kong, the Hong Kong Economic Times, the South China Morning Post and the Hong Kong Economic Journal. Share prices are currently also available from Reuters and Bloomberg.

Any investment in the Funds should be considered long term. There can be no guarantee that the amounts subscribed for Shares will be ultimately realised. Changes in rates of exchange between currencies may cause the value of an investment in the Funds to diminish or increase. Investors should be aware that investment in emerging markets is by its nature both high risk and potentially volatile.

This report to Shareholders does not constitute an offer or invitation to purchase Shares in any of the Funds.

An updated Consolidated Prospectus for Invesco Fund Series 1, 2, 3, 4, 5, 6 and the Invesco Fund Series was issued on 28 July 2014 and 7 October 2014. This contains all current and relevant information (as at the date of issue) regarding the Series and other Funds within the Invesco Funds Series 1, 2, 3, 4, 5, 6 and the Invesco Fund Series. This report to Shareholders has been prepared on the basis of the Prospectus. If you wish to receive a copy of this Prospectus please contact any Invesco office.

Distribution Frequency

The Managers annual fee is based on the daily net asset value of each Fund and is paid monthly. The Manager will also be paid a fee in respect of its duties as Administrator ("Invesco Global Asset Management Limited") and Registrar ("Invesco Global Asset Management Limited") for each Fund. The Administration fee will be calculated daily and will be paid on the last Business Day of each month at the rates set out above, based on the net asset value of each share class of each Fund on each business day. The charges are deductible from the income of each Fund or from capital in the event of an income shortfall.

BNY Mellon Trust Company (Ireland) Limited ("The Trustee") will be paid a fee calculated on a sliding scale to a maximum rate of 0.0075% per annum of the net asset value of each class of each Share of the Fund on the last business day of the month and paid monthly.

The assets of a fund are exclusively available to satisfy the rights of Shareholders in relation to that Fund and the rights of creditors whose claims have arisen in connection with the creation, operation or liquidation of that Fund.

AA = Annual

Investment Adviser's Report on behalf of the Manager

Global emerging markets initially came under pressure as a period of declining liquidity and risk aversion prompted equity weakness across all regions. To combat depreciating currencies, interest rates were raised in a number of countries. By early February, stock prices staged a recovery, aided by currency stabilisation and encouraging economic data. Equity markets continued to advance steadily until September before coming under pressure as lower commodity prices and a stronger US dollar soured sentiment.

There was a wide dispersion of performance at both a regional and country level. Emerging Asia was the regional winner, led by the strong performance of the Indian equity market following the election of the probusiness party Bharatiya Janata Party. By contrast, tumbling oil prices had an adverse impact on energy exporting nations such as Brazil and Russia, which dragged Latin American and emerging European equity markets lower.

The Fund's 'A' Shares increased by 5.83% during the one-year period to the end of November 2014 versus a 1.06% gain in the benchmark MSCI Emerging Markets (US\$) Index. This placed the Fund in the first quartile of its peer group, the GIF OS Global Emerging Markets Equity, which rose by an average of 0.91%.

Our holdings in Taiwan, India and South Africa contributed the most towards absolute performance. The main detractor from performance was Russia, particularly energy companies. The strongest performing sector was technology, led by our holding in Taiwan Semiconductor Manufacturing Company Limited, a supplier of chips to Apple. Financials and healthcare were also notable contributors. Other stock holdings that did relatively well were Jordanian-based Hikma Pharmaceuticals and Naspers, a South African media holding conglomerate.

We believe that the fundamentals remain strong in emerging Asia, bringing with it a wide range of interesting investment opportunities. Although we expect to see a slower pace of growth in China in 2015, the slowdown is likely to bring greater long-term benefits as it will help to improve the country's imbalances and put the economy on a more sustainable path. In Latin America, we believe the investment climate should improve next year with weaker currencies providing a boost to the region's competitiveness. We expect growth performance in emerging Europe to remain divergent. Western sanctions, a falling oil price and a sharp fall in the value of the Rouble are likely to push Russia into a recession in 2015. However, the mood is more upbeat elsewhere in the region with historic low interest rates in Poland and Czech Republic underpinning consumer and business confidence.

The Fund continues to invest across a wide range of countries and sectors. In absolute terms, our largest country holdings are in South Korea and China. However, we have good exposure to companies based in the Middle East and emerging Europe. Although our holdings in Latin America are concentrated in Brazil and Mexico, we also invest in what we believe to be well-run companies with strong balance sheets that are located elsewhere in the region.

The Fund's diversified approach is reflected in sector positioning, which is spread across a broad spectrum of industries. Our most favoured sectors are pharmaceuticals, media, real estate and technology companies that focus on software and related services.

Investment Adviser's Report on behalf of the Manager

Over the twelve months to the end of November 2014 the Fund's 'A' Shares returned 15.71% (USD), ahead of the benchmark KOSPI Index, which returned -7.47%. This placed the fund in the first quartile of its peer group, the GIFS Korea Equity sector, which returned an average of -8.25%. The Fund is also first quartile over 1, 3 and 5 year periods.

South Korea's equity market ended the period lower in local currency terms, with the depreciation of the Korean Won also contributing to the negative return expressed in US Dollar terms. Having enjoyed a gradual uptrend in the period to August, the Korean equity market gave back much of its gains in September and October, largely due to disappointing earnings results from large index constituents such as Samsung Electronics and Hyundai Motor. The sharp depreciation of the Japanese Yen also saw additional pressure on Korean exporters' share prices, as it hurt the relative export competitiveness of Korean goods.

On the macroeconomic front, various indicators suggest a slow recovery in the overall economy. Korea's real GDP rose 3.2% year-on-year in the third quarter compared to 3.5% in the previous quarter, while private consumption growth remained robust growing 1.6% year-on-year, slightly up from 1.5% in the second quarter.

The strong performance of the Fund was largely attributable to strong stock selection across a number of sectors as well as favourable sector allocation. Stock selection was notably strong in the consumer discretionary and industrials sectors, with our holding in furniture maker Hanssem one of the biggest contributors thanks to its strong brand position in the domestic kitchen system market. Our limited exposure in autos related exporters also added value as this area underperformed the broader market due to concerns over the threat of Japanese Yen depreciation. In industrials, our holding in a power plant maintenance company KEPCO Plant Service saw its share price rise on market expectations of a raised dividend, triggered by the government's push for more dividends from the corporate sector.

Sector allocation is generally a by-product of our bottom-up stock selection process, and also made a positive contribution to performance over the review period. Our preference for companies with sustainable earnings growth led to an overweight position in the consumer staples sectors, relative the benchmark index, which added value as this sector outperformed during the review period. Furthermore, our lack of exposure in sectors which are generally more sensitive to global economic conditions, such as materials and energy also contributed positively.

We continue to embrace a disciplined investment approach. Our investment goal is to find and buy companies which can deliver sustainable earnings growth on a mid-to-long term basis. We believe a durable business model is very important for delivering sustainable earnings growth. This investment approach has led us to favour domestic-facing, growth-oriented companies with leading market share and high earnings visibility, while avoiding companies that are more economically sensitive. We currently hold a significant overweight position in the consumer staples and discretionary sectors and have meaningfully underweight positions in the industrials, IT and materials sectors.

Over the last year the South Korean government has accelerated reform policies on various fronts. Regulations surrounding the property market have been eased, which should help lift housing transactions and prices. The potential increase in wealth effect should help further improve consumer sentiment. On the corporate arena, the government's push for a more prodividend policy should be a long-term positive for shareholders. However it is important to note that these reforms will take time to have a visible impact on the housing market and investor sentiment, but we believe more progress will be made.

Investment Adviser's Report on behalf of the Manager

Over the twelve months to the end of November 2014 the Fund's 'A' Shares returned -7.75% compared to the benchmark MSCI China 10/40 Index which returned $\pm 3.30\%$.

As a high conviction strategy that focuses on Growth at Reasonable Price opportunities, the Fund's relative underperformance can be explained by a drastic shift in the market from growth stocks to value stocks during the second half of 2014. Our conviction bets in high-quality growth stocks were not rewarded in this environment.

Stock selection in the IT sector disappointed, accounting for much of the underperformance. The biggest single detractor was our holding in a leading domestic B2B e-Commerce company HC International, which suffered from profit-taking despite strong expected revenue growth. Our underweight position in Tencent also detracted as the internet giant saw its share price outperform the broader market. Stock selection in the consumer discretionary and energy sectors was also unfavourable, with exposure in Macau gaming-related names negatively impacted by the anti-corruption efforts in China and analysts downgrading their earnings growth expectations. Our exposure in oil-related names also detracted given oil price weakness.

On the positive side, sector allocation which was mainly driven by bottomup stock selection helped offset some of the Fund's underperformance. Our meaningful overweight position in the healthcare sector added value as this sector outperformed. Despite unfavourable stock selection, our underweight position in the energy sector also helped with performance.

Despite the recent headwinds we have faced as a growth-style investor, we have stayed true to our philosophy and maintained our high conviction positions. We maintained a preference for companies that demonstrate sustainable growth and continue to find opportunities in the media & internet, healthcare, education, alternate energy, and water treatment industries. During the period under review we reduced our exposure in Macau gaming stocks as share prices rebounded in October given recent headlines about stricter enforcement of transit visas via Macau. In turn, we increased our exposure in banks and insurance companies as monetary conditions have eased somewhat, which could help slow down the increase in non-performing loans. As such, we focused on adding to those banks with higher lending to small and medium sized enterprises which should benefit most from lower financing costs.

In our view, the recent interest rate cut was driven more by the need to tackle high real financing costs in China than to spur economic growth. In our view, the Chinese government has made the right call with the rate cut a timely "painkiller" to relieve corporate financing costs and ease deflationary pressures. We think that the lower cost of borrowing could translate into future earnings growth for corporations. Looking ahead, we believe there is still room for further rate cuts in China. It is important to note that China's interest rate cut does not signal the coming of a massive growth stimulus program of the like we saw in 2008-09. Rather, we believe it signals a need to maintain a stable growth environment that will enable continuous reform efforts to be borne out.

While we believe reforms will remain intact as the economic transition progresses, the outcome will be realized only over the medium term. Of all the reforms, State-Owned Enterprises ("SOE") reform remains a key area of focus to drive long-term economic growth as SOE remain dominant in many sectors of the economy. Year-to-date we have seen SOE reform efforts to align management interest to that of shareholders through a change in incentive structures and private sector participation. In the near term, we expect more reform efforts on this front to make the SOE management more aware of shareholder returns.

Distributions, if any, are paid annually to 'A', 'B', 'C' and 'Z' Shareholders on or after 21 January and are set out in Note 10. Reports on the progress of the Fund are published on or before 31 March and on or before 31 July each year and shall be made available to Shareholders free of charge on request.

The price of Shares and the income from them can go down as well as up. Please note that past performance is not necessarily a guide to future performance.

Share Transactions			
Proceeds from redeemable participating Shares issued Cost of redeemable participating Shares redeemed	13,589,837 (12,764,488)	84,168,717 (169,942,537)	242,339,327 (419,350,966)
Net assets attributable to holders of redeemable participating Shares at the end of year (mid-market prices)	85,853,152	303,168,653	1,476,518,162

Notes to the Financial Statements

For the year ended 30 November 2014

1. Significant Accounting Policies

(a) Basis of Preparation

The Financial Statements have been prepared in accordance with accounting standards generally accepted in Ireland ("Irish GAAP") and Irish Statute comprising the European Communities (Undertakings for Collective Investment in Transferable Securities) 2011 (as amended). Accounting Standards generally accepted in Ireland in preparing Financial Statements giving a true and fair view are those published by the Institute of Chartered Accountants in Ireland and issued by the Accounting Standards Board. The Financial Statements have been prepared in accordance with the historical cost convention, as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

All references to net assets throughout this document refer to net assets attributable to holders of redeemable participating Shares unless otherwise stated.

The format and certain wording of the Financial Statements has been adapted from that contained in Financial Reporting Standard No.3 (Reporting Financial Performance) and Irish Statute, to one which, in the opinion of the Directors of the Manager, more appropriately reflects the Company's business as an investment company.

The preparation of the Financial Statements in conformity with Irish GAAP requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Fund's accounting policies. Actual results could differ from those estimates and those differences could be material. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates, if any, are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision, and future years if the revision affects both current and future years.

The fair value of financial instruments traded in active markets is based on bid prices as at 30 November 2014. The quoted market price used for financial assets held by the Funds are the current bid price on the market on which these assets are traded or admitted for trading (being the market which is the sole, or in the opinion of the Directors of the Manager, the principal market on which the investment in question is listed, quoted or dealt in). This is different to the valuation methodology indicated in the Prospectus where investments or assets listed, quoted or dealt in on a regulated market shall be valued at the valuation point at the mid-market (being the average of the bid and offer prices) or last traded price, depending on market convention, on the market where these assets are traded or admitted for trading (being the market which is the sole, or in the opinion of the Directors of the Manager, the principal market on which the investments in question is listed, quoted or dealt in).

(b) Financial Assets and Liabilities at Fair Value

The Funds have classified all investments into the fair value through profit or loss category. This has two sub-categories: (1) financial assets and liabilities held for trading and (2) those designated by management at fair value through profit or loss on adoption of Financial Reporting Standard No. 26 (Financial instruments: Recognition and Measurement). Financial assets or liabilities held for trading are acquired or incurred principally for the purposes of selling or repurchasing in the short term.

The investments are initially recognised at fair value and transaction costs are expensed as incurred. The investments of the Funds have been valued at the market dealing bid prices at 12.00pm (Irish time) on 28 November 2014. Investment transactions are accounted for on the trade date up to 12.00pm (Irish time). Applications which are received prior to the dealing cut-off point (12.00pm) will, if accepted, be dealt with on the basis of the net asset value per share of the relevant class calculated at the next valuation point. Investments are initially recognised at fair value and are derecognised when the rights to receive cash flow from these investments have expired or the Fund has transferred substantially all rights and rewards of

ownership. Realised gains/losses on investments disposals are calculated on the Average Cost Method and are recognised in the Income Statement.

If a quoted market price is not available on a recognised stock exchange or from a broker/dealer for non-exchange-traded financial instruments, the fair value is estimated with care and in good faith by a competent person and approved by the Fund Manager, on behalf of the Directors of the Manager.

(c) Foreign Currency Translation

(i) Functional and presentation currency

Items included in each Fund's Financial Statements are measured using the currency of the primary economic environment in which it operates ('the functional currency'). This is the US Dollar (\$). The US Dollar is also the presentation currency.

The Financial Statements are presented in the Fund's functional currency and rounded to the nearest whole number. They are prepared on the fair value basis for financial assets and financial liabilities at fair value through profit or loss and derivative financial instruments. Other financial assets and financial liabilities are stated at amortised cost or redemption amount (redeemable Shares).

(ii) Assets and liabilities in foreign currencies are translated into US Dollars at the rates of exchange ruling at the balance sheet date. Income and expenditure transactions are translated at the rates of exchange ruling at the date of the transactions.

The principal exchange rates used: US\$1.00

For the year ended 30 November 2014

1. Significant Accounting Policies (continued)

Restatement of Net Asset Value in accordance with Financial Reporting Standard No. 26 (Financial Instruments: Recognition and Measurement)

To determine the net asset value of each Fund for subscriptions and redemptions, investments have been valued based on the mid market prices at 12.00pm (Irish time) on the relevant trading day. For Financial Statements purposes, investments are valued based on bid prices and an adjustment to mid market prices is shown. This adjustment from bid to mid for the year ended 30 November 2014 is shown in the Balance Sheet on page 19. The movement in the adjustment from the current year end to the previous year end is shown in the Income Statement on page 21. The net asset value per Share is disclosed in Note 7.

(d) Cash and Cash Equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less. Bank overdrafts are included in liabilities on the Balance Sheet.

(e) Balance Due from/to Brokers

Amounts due from/to brokers represent payables for securities purchased and receivables for securities sold that have been contracted for but not yet delivered or settled as at year end.

(f) Dividend and Interest Income

Dividends are credited to the Income Statement on the dates on which the relevant securities are listed as "ex-dividend". Deposit Interest Income is accrued on a daily basis using the effective interest rate method. Income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Income Statement, and net of any tax credits.

(g) Expenses

The Funds' expenses are recognised on an accruals basis and include value added tax where appropriate.

(h) Equalisation

An equalisation account is maintained by each Fund so that the amount distributed on all classes of Shares will be the same for all Shares of the same type, notwithstanding different dates of issue. A sum equal to that part of the issue price of a Share which reflects income (if any) accrued up to the date of issue will be deemed to be an equalisation payment. It will be treated as repaid to Shareholders with the first distribution or accumulation for the relevant Fund to which the Shareholders are entitled in the same accounting period as that in which the Shares are issued. Equalisation will not be operated in respect of the first issue of Shares by a fund.

(i) Financial Reporting Standard No. 1 (Cash Flow Statements)

The Funds have availed of the exemption available to Open-Ended Investment Funds under Financial Reporting Standard No. 1 not to prepare a Cash Flow Statement.

(j) Forward Foreign Exchange Contracts

The unrealised gain or loss on open forward foreign exchange contracts is calculated as the difference between the contracted rate and the rate to close out the contract as at 30 November 2014. Realised gains or losses include net gains on contracts which have been settled or offset on other contracts. Net realised gains or losses on forward foreign exchange contracts are a component of net gains/losses on financial assets and financial liabilities at fair value through profit or loss (see Note 9 for details).

(k) Distributions payable to holders of redeemable participating Shares and proposed distributions to holders of redeemable participating Shares are classified as finance costs in the Income Statement when they are ratified by the Board of Directors of the Manager.

(I) Redeemable Participating Shares

Redeemable Participating Shares are redeemable at the Shareholder's option and are classified as financial liabilities. The distribution on these redeemable participating Shares is recognised in the Income Statement as finance costs. The participating Shares can be put back to the relevant Fund at any time for cash

equal to a proportionate share of the Funds' net asset value. The participating Shares are carried at the redemption amount that is payable at the Balance Sheet date if the Shareholder exercised its right to put the share back to each Fund.

(m) Value of Investments

To determine the net asset value of each Fund for subscriptions and redemptions, investments have been valued based on the mid market prices at 12.00pm (Irish time) on the relevant trading day. For Financial Statements purposes, investments are valued based on bid prices and an adjustment to mid market prices are shown. This adjustment from bid to mid results in an increase in the value of investments of \$116,363 as of 30 November 2014 (2013: \$149,622) for Emerging Markets Equity Fund, an increase of \$482,734 as of 30 November 2014 (2013: \$324,070), for Korean Equity Fund and an increase of \$2,287,655 as of 30 November 2014 (2013: \$4,014,057) for PRC Equity Fund.

The amount of the adjustment recognised in the Income Statement is a decrease of \$33,259 (2013: \$(8,513)) for Emerging Markets Equity Fund, an increase of \$158,664 (2013: \$(391,403)) for Korean Equity Fund, and a decrease of \$1,726,402 (2013: \$1,093,864) for PRC Equity Fund. The net asset value per Shares is disclosed in Note 7. Zero value investments are reflected in the Portfolio Statement on page 7.

(n) Swing Pricing

Securities are valued as outlined in Note 1(b). However, in order to mitigate the effects of dilution, the Funds have implemented a policy of "Swing Pricing". In the best interest of Shareholders, the Directors of the Manager may allow for the net asset value to be adjusted, using bid or ask market quotation rather than mid, depending on the net Share activity arising from subscriptions, redemptions or switching in a fund for a given business day. The Funds operate partial swing only. That is the Funds will not swing to either a bid or ask price basis daily, but only when a predetermined level of Shareholder activity is exceeded. High redemption level triggers a swing to a bid price basis, whereas high subscription level triggers a swing to ask price basis. The Directors of the Manager have the ability to place a fund on constant swing depending on the recent Shareholder activity trends of a fund.

(o) Withholding Tax

The Funds currently incur withholding taxes imposed by certain countries on investment income. Such income is recorded gross of withholding taxes in the statement of comprehensive income. Withholding taxes are shown as a separate item in the statement of comprehensive income.

(p) Amounts Due on Creations/Liquidations

Amounts due on creations and liquidations represent receivables for creation of shares and payables for liquidation of shares that have been contracted for but not yet delivered by the period end. Liquidations and creations paid after the period end, but based upon period end net asset values, are reflected as amounts due on creations and liquidations in the Balance Sheet as at 30 November 2014.

(q) Offsetting

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. During the years ended 30 November 2014 and 30 November 2013, there were no master netting agreements

(r) Capital gains tax on Investment

By investing in China A shares and other permitted securities in China including corporate and government bonds, securities investment funds and warrants listed on the China stock exchanges (together "China Securities"), a fund may be subject to withholding and other taxes imposed under China tax law or regulations. The current tax laws, regulations and practice in China may change in the future with retrospective effect. Specifically, a fund's income from interests, dividends and profit distributions sourced from China, received by QFII on behalf of the relevant Fund, is generally subject to Chinese withholding tax at a rate of 10%, in the absence of an applicable tax treaty. In addition, given the uncertainty surrounding a Fund's potential China tax liabilities, in determining the net asset value of the relevant Fund, a provision shall be made in the amount of 10% of capital gains for potential China capital gains tax.

For the year ended 30 November 2014

2. UK Reporting

The offshore Funds (Tax) Regulations 2009 and Subsequent Regulations Amendments ('the Regulations') introduced new provisions to update offshore funds regime and came into effect for periods of accounting commencing after 1 December 2009. The Reporting funds Regime requires:

- 1. the reporting fund status is applied for once and in advance.
- the relevant Share classes to report details of Income annually, within six months of their accounting year end to both Investors and UK authorities.
- Investors to provide details of reportable income on their annual tax return.

The following Share Classes currently have UK Reporting Status;

Invesco Emerging Market Equity Fund
A-Dist & C-Dist & Z-Dist
Invesco Korean Equity Fund
A-Dist & C-Dist
A-Dist & C-Dist & Z-Dist
A-Dist & C-Dist & Z-Dist

The Statement of Reportable Income for the financial year ended 30 November 2014 will be available through the following Invesco websites by 31 May 2015.

http://investor.invescointernational.co.uk/portal/site/liprivate/reportableincome/http://professional.invescointernational.co.uk/portal/site/liadviser/reportableincome

3. Soft Commissions and Related Party Transactions

The Funds, (consistent with obtaining the best net result, including best execution), may enter into agreements with counterparties whereby those counterparties may make payments for investment services provided to the Funds.

Investment services are used by the Funds to improve or add to the services provided to its clients. Although each and every service may not be used to service each and every account managed by the Funds, the Funds consider that those investment services received are, in the aggregate, of significant assistance in fulfilling its investment responsibilities and are of demonstrable benefit to all clients. Only services that in the opinion of the Manager assist in the provision of investment services to the Funds' clients will be paid for by counterparties.

Allowable investment services include services that provide assistance to the Funds in its investment performance. Those services include, but are not necessarily limited to, furnishing analysis, research and advisory services including economic factors and trends, portfolio valuation and analysis, performance measurement, market prices services and the use of specialised computer software and hardware or other information facilities.

The Funds will ensure adherence to the investment decision making responsibilities to its clients in accordance with the laws of the countries that have jurisdiction over its clients or business. This may vary in application with respect to the appropriateness of those investment services provided.

The Funds select counterparties to execute transactions on the basis that transactions will only be executed provided the placing of orders will not operate against the best interest of the Fund's clients and that the multiple is at a level which is generally accepted market practice. The Funds will endeayour to obtain best execution on all transactions for all clients.

3. Soft Commissions and Related Party Transactions (continued)

In addition, clients may direct the Funds to pay commission to counterparties for products and services that would otherwise have to be paid for. In such cases, the commission is used for the exclusive benefit of the client whose transactions generated that commission.

The Manager, Administrator, and Global Distributor ("Invesco Global Asset Management Limited") are deemed to be Related Parties under Financial Reporting Standard No. 8 (Related Party Disclosures). Fees charged, out of the Fund, by the Manager and Administrator Fees are disclosed in the Income Statement on page 21. Amounts payable at the year end are disclosed in the Balance Sheet on page 19. The Manager may pay a portion of its administration fees to the Sub-Administrator ("BNY Mellon Fund Services (Ireland) Limited"), in consideration for the Sub-Administrator providing certain administration functions to the Funds. Fees to the Global Distributor are paid from the Management fee.

The Manager, Invesco Global Asset Management Limited is a wholly owned subsidiary of Invesco UK Limited, which is a wholly owned subsidiary of Invesco Limited, the group parent company.

Directors Fees are not paid from the Funds. Directors fees are paid by Invesco Global Asset Management Limited.

There were no Director's holdings in the Funds for the year ended 30 November 2014 and 30 November 2013.

For the year ended 30 November 2014

3. Soft Commissions and Related Party Transactions (continued)

Invesco UK Limited, held a beneficial interest in the shares representing approximately the following percentages of the total number of shares in issue of the relevant fund class.

Seed Capital

Invesco UK Limited held the following redeemable participating Shares in the Funds and class as detailed below:

	Number of Shares at the start of the year	Number of Shares acquired in the year	Number of Shares redeemed in the year	Number of Shares at year end	Percentage of Total Shares
For the Year ended 30 November 2014					
Invesco Emerging Market Equity Fund 'Z AD' Shares	700			700	3
Invesco Korean Equity Fund 'A-Acc HKD' Shares	466			466	
Invesco PRC Equity Fund 'A-Acc AUD Hgd' Shares	10,383			10,383	2
Invesco PRC Equity Fund 'A-Acc CAD Hgd' Shares	10,330			10,330	55
Invesco PRC Equity Fund 'A-Acc CHF Hgd' Shares	9,255			9,255	76
Invesco PRC Equity Fund 'A-Acc NZD Hgd' Shares	11,936			11,936	71
Invesco PRC Equity Fund 'A-Acc RMB Hgd' Shares	5,000			5,000	100
Invesco PRC Equity Fund 'C-Acc AUD Hgd' Shares	10,383			10,383	100
Invesco PRC Equity Fund 'C-Acc HKD' Shares	123			123	16
Invesco PRC Equity Fund 'I-Acc EUR' Shares	15			15	100
Invesco PRC Equity Fund 'Z AD' Shares	700			700	

	Number of Shares at the start of the year	Number of Shares acquired in the year	Number of Shares redeemed in the year	Number of Shares at year end	Percentage of Total Shares
For the Year ended 30 November 2013

Invesco PRC Equity Fund 'I-Acc EUR' Shares	15			15	100
Invesco PRC Equity Fund 'Z AD' Shares		700		700	0

4. Financial Investments and Associated Risks

Risk Management

In pursuing its objectives set out within the section describing the Funds' Investment Policies, each Fund holds a number of financial instruments, these comprise:

- Equity Shares. These are held in accordance with each Funds' investment objectives and policies.
- Cash, liquid resources and short-term debtors and creditors that arise directly from operations; and
- Forwards or other derivatives;

The main risks arising from the Funds' financial instruments are market price, foreign currency, liquidity, credit and custody risks. The Manager reviews policies for managing these risks and they are summarised on the following page(s).

For the year ended 30 November 2014

4. Financial Investments and Associated Risks (continued)

Global Exposure

Following the assessment of the investment policy of each Fund, the Manager has decided to use Value at Risk (VaR) for the assessment of the global exposure of each Fund.

Value-at-Risk (VaR) is a statistical measurement. It intends to measure the maximum potential loss at a given confidence level (probability) over a specific time period under normal market conditions. All of the positions within the portfolio are taken into account for the VaR calculation, not just derivatives.

Relative VaR is calculated daily using a VaR risk model based on a two year's historical simulation methodology. This method for calculating VaR contains no standard distribution assumption and assumes that history repeats itself.

The calculation standards used for the VaR model are in compliance with the provisions in box 15 of ESMA Guidelines on Risk Measurement and the calculation of Global Exposure and Counterparty Risk for UCITS (Ref:10-788) ("ESMA Guidelines").

The Relative VaR of a UCITS cannot be more than two times the VaR of the reference portfolio. The Manager monitors that the VaR of the UCITS / 2* VaR of the reference portfolio is not greater than 100%.

The calculation one of the Relative VaR is carried out in accordance with the following parameters:

- (a) one-tailed confidence interval of 99%;
- (b) holding period equivalent to 1 month (i.e. 20 business days);
- (c) effective observation period (history) of risk factors of 500 business days (ESMA Guidelines require at least 250 business days); and
- (d) Daily calculation.

In line with ESMA Guidelines, as the Funds use the VaR approach to monitor the global exposure, the Manager calculates the leverage for each Fund on a daily basis, as the sum of the absolute value of the notionals of the derivatives used. With respect to financial derivative instruments which do not have a notional value attached to them, the calculation of the value is based upon the market value of the equivalent position of the underlying asset that is attached to the financial derivative instrument and applied consistently and appropriately.

The average level of leverage figures provided below does not take into account any netting and hedging arrangements that the Funds may have in place at any time even though these netting and hedging arrangements are used for risk reduction purpose.

The table below details the Relative VaR approach and the reference portfolio for each Fund. The table also details the minimum, maximum and average daily VaR utilisation that occurred during the one year ending 30 November 2014. The table also details the daily average level of leverage for each Fund during the one year ending 30 November 2014.

		Global Exposure							Leve	erage		
Fund Name	Period of Observation	Method Used to Calculate Global	Method Used t	o Calculate VAR	Reference Portfolio for	VaR Limits F	Reached for Year	last Financial	VaR I	Limits	Leverage Level Reached	Leverage Calculation

Market Price Risk

Market risk arises mainly from the uncertainty about future prices of financial instruments held. It represents the potential loss the Funds might suffer through holding market positions in the face of price movements.

The Manager meets regularly to consider the asset allocation of the portfolio in order to minimise the risk associated with particular countries or industry sectors whilst continuing to follow the investment objective. An individual Fund Manager has responsibility for monitoring the existing portfolio selected in accordance with the overall asset allocation described above and seeks to ensure individual stocks also meet the risk reward profile that is acceptable. The Manager does not use derivative instruments, with the exception of forwards, to hedge the investment portfolio against market risk, as in their opinion the cost of such a process would result in an unacceptable reduction in the potential for capital growth. As the majority of the Funds' financial instruments are carried at fair value with fair value changes recognised in the Income Statement, all changes in market conditions will directly affect net investment income.

All securities investments present a risk of loss of capital. The Investment Adviser ("Invesco Hong Kong Limited" for Invesco Korean Equity Fund and Invesco PRC Equity Fund) and ("Invesco Asset Management Limited" for Invesco Emerging Markets Equity Fund) moderates this risk through careful selection of securities and other financial instruments with specified limits. These limits are defined in the Investment Objectives and Policies shown on pages 1 and 2. The Funds' overall market positions are monitored on a daily basis by the Funds' Investment Adviser. The Investment Risk Manager reviews Fund performance daily and reports to the Board of Directors of the Manager quarterly.

The Manager reviews the VaR of the Funds as a way to manage market price risk.

Interest Rate Risk

The majority of the Funds' financial assets and liabilities are non interest bearing. As a result, the Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. Any excess cash & cash equivalents are invested at short term market interest rates.

Foreign Currency Risk

The Funds hold assets denominated in currencies other than the functional currency. They are therefore exposed to currency risk, as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates.

The Funds receive income in currencies other than functional currency and the functional currency values of this income can be affected by movements in exchange rates. The Funds convert all receipts of income into functional currency on or near date of receipt.

The Investment Adviser monitors the Funds' foreign currency exposure on a daily basis. The Board of Directors of the Manager reviews the Funds foreign exchange exposure on a quarterly basis.

The Funds may also engage in forward currency transactions and utilize futures and options for efficient portfolio management or hedging purposes under the conditions and within the limits laid down by the Central Bank and, if more restrictive, the SFC.

For the year ended 30 November 2014

4. Financial Investments and Associated Risks (continued)

Liquidity Risk

Liquidity risk is the risk that the Funds may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so in terms that are materially disadvantageous.

The Funds are exposed to daily cash redemptions of redeemable participating Shares. They therefore invest the majority of their assets in investments that are traded in an active market and can be readily disposed of; they invest only a limited proportion of their assets in investments not actively traded on a recognised market.

All Financial Liabilities including redeemable participating Shares fall within one month maturity. The Fund may be overdrawn up to 10% of the Net Asset Value on a temporary basis to meet redemption requests. The Fund may also limit total redemption requests to 10% of the NAV in any one day. All redemptions are paid on the fourth business day after the redemption order is accepted. The majority of the Financial Assets held on the Funds are settled on a T +3 basis allowing sufficient time for the Investment Adviser to raise cash to meet redemption liabilities.

In accordance with the Funds policy, the Investment Adviser monitors the Funds' liquidity position on a daily basis and the Board of Directors of the Manager reviews it on a quarterly basis.

Fair Value Estimation

The fair value of financial assets and liabilities traded in active markets (such as publicly trading securities) are based on quoted market prices at 12.00pm (Irish Time) on 28 November 2014 for Financial Statement purposes. The quoted market price used for financial assets held by the Funds is the current bid price. The appropriate quoted market price for financial liabilities is the current asking price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The Funds are exposed to daily cash redemptions of redeemable participating Shares. It therefore invests the majority of its assets in investments that are traded in an active market and can be readily disposed of; it invests only a limited proportion of its assets in investments not actively traded on a recognised market.

For instruments for which there is no active market, the Funds may use internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value unlisted equity instruments for which markets were or have been inactive during the financial year. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions. The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Funds' hold. Valuations are therefore adjusted, where appropriate, to allow for additional factors including model risk, liquidity risk and counterparty risk. As at 30 November 2014 and 30 November 2013, there were no instruments that had no active market.

The carrying value of other receivables and payables are assumed to approximate their fair values.

The Funds classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Directors of the Manager. The Funds consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the Financial Statements may materially differ from the value received upon actual sale of those investments.

For the year ended 30 November 2014

4. Financial Investments and Associated Risks (continued)

Fair Value Estimation (continued)

The following tables analyse within the fair value hierarchy the Funds' financial assets and liabilities measured at fair value at 30 November 2014 and 30 November 2013:

Fair Value Estimation (continued)

Invesco PRC Equity Fund

There were no movements in level 3 instruments for the year ended 30 November 2014.

The following table presents the movement in level 3 instruments for the year ended 30 November 2013 by class of financial instruments.

	Debt securities	Total
30 November 2013	\$	\$
Beginning Balance Level 3 instruments (30/11/2012)	6,724,624	6,724,624
Purchase Level 3	-	-
Sales Level 3	(6,724,624)	(6,724,624)
Net Transfers in/out of Level 3	-	-
Realised Gain/Loss	-	-
Movement in unrealised gain/(loss)	-	<u>-</u>
Ending Balance (30/11/2013)	-	

Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. The Funds do not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include, investment-grade corporate bonds listed and over-the-counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Level 3 instruments include corporate debt securities. As observable prices are not available for these securities, the Funds have used valuation techniques to derive the fair value.

The Funds also consider original transaction price, recent transactions in the same or similar instruments and completed third-party transactions in comparable instruments. The Funds also considers other liquidity, credit and market risk factors. The Manager may, with the consent of the Trustee, adjust the model as deemed necessary.

Credit Risk

The Funds minimise concentrations of credit risk by undertaking transactions with a large number of customers and counterparties on recognised and reputable exchanges.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payments. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligations.

The Investment Adviser continuously monitors the Funds' credit position.

Custody Risk

The Funds' Trustee is BNY Mellon Trust Company (Ireland) Limited, ("The Bank"). Substantially all the cash and investments in equities of the Funds are held by BNY Mellon Trust Company (Ireland) Limited at the year end. The Funds are exposed to credit risk through the use of the Bank for their cash and investments. Bankruptcy or insolvency of the Bank may cause the Funds' rights with respect to its cash and investments in equities held by the Bank to be delayed or limited. The maximum exposure to the risk at 30 November 2014 and 30 November 2013 is the amount of cash and margin cash disclosed in Note 6 and the investments in collective investment schemes, securities, liquidity instruments and forwards disclosed in the relevant Funds' Schedule of Investments.

The Emerging Markets Equity Fund is exposed to risk as at 30 November 2014 through its cash holding with JP Morgan. The maximum exposure is the amount disclosed in Note 6.

The PRC Equity Fund is exposed to risk as at 30 November 2014 through its time deposit holding with Credit Agricole. The maximum exposure is the amount disclosed in Note 6.

To mitigate the risks the Funds are exposed to from the use of sub-custodians, the Investment Adviser employ's appropriate procedures to ensure that the counterparties are reputable institutions and that the credit risk is acceptable to the Funds. The Funds only transact with sub-custodians that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies. In addition, the Funds' non cash assets are segregated and protected and this further reduces counterparty risk. Cash held by sub-custodians are not protected from insolvency or bankruptcy and this further increases counterparty risk.

For the year ended 30 November 2014

5. Taxation

6 Cach and Cach Equivalents

Under current law and practice the Fund qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Shareholders, any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year beginning with the acquisition of such shares. A chargeable event did not occur for the years ended 30 November 2014 and 30 November 2013.

No Irish tax will arise on the Fund in respect of chargeable events in respect of:

- A Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided
 appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Fund or Fund has
 been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- Certain exempted Irish tax resident Shareholders who have provided the Fund with the necessary signed statutory declarations.
- Dividends, interest and capital gains (if any) received on investments made by the Fund may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Fund or its Shareholders.

The Finance Act 2010 provides that the Revenue Commissioners may grant approval for investment funds marketed outside of Ireland to make payments to non-resident investors without deduction of Irish tax where no relevant declaration is in place, subject to meeting the "equivalent measures". A Fund wishing to receive approval must apply in writing to the Revenue Commissioners, confirming compliance with the relevant conditions.

11. Efficient Portfolio Management

Forward foreign currency exchange contracts may be used to hedge against anticipated future changes in exchange rates which otherwise might either adversely affect the value of the Funds' portfolio securities or adversely affect the price of securities which the Fund intends to purchase at a later date. Funds may also engage in forward currency transactions and utilise futures and options for efficient portfolio management or hedging purposes under the conditions and within the limits laid down by the Central Bank and, if more restrictive, the SFC.

Details of forward currency contracts held as at 30 November 2014 are reflected within the Portfolio Statement on page 17 for the Invesco PRC Equity Fund. There were no forward currency contracts held by Invesco Emerging Markets Equity Fund and Invesco Korean Equity Fund.

12. Transaction Costs

Transaction fees incurred by the Fund relating to purchase or sale of transferable securities, money market instruments, derivatives or other eligible assets are mainly composed of sub-custodian fees and broker commissions. Transaction fees are included in the transaction price used to calculate the realised and unrealised gain/(loss) on securities.

Custody transaction costs are disclosed in Note 9. For the year ended 30 November 2014, custody transaction costs associated with Invesco Emerging Markets Equity Fund was \$20,841 (2013: \$6,473), Invesco Korean Equity Fund was \$38,332 (2013: \$24,212), and Invesco PRC Equity Fund was \$67,026 (2013: \$33,389).

For the year ended 30 November 2014 and 30 November 2013, other transactions costs amount to:

30 November 2014

Fund	Ссу	Transaction Fees
Invesco Emerging Markets Equity Fund	USD	139,315
Invesco Korean Equity Fund	USD	265,306
Invesco PRC Equity Fund	USD	4,327,298

30 November 2013

Fund	Ссу	Transaction Fees
Invesco Emerging Markets Equity Fund	USD	88,706
Invesco Korean Equity Fund	USD	424,088
Invesco PRC Equity Fund	USD	6,131,211

13. Significant Events During the Year

A new Consolidated Prospectus for Invesco Funds Series 1, 2, 3, 4, 5, 6, and the Invesco Fund Series was issued on 28 July 2014 and 7 October 2014.

14. Subsequent Events

There were no subsequent events since the year ended 30 November 2014, that could have an effect on these Financial Statements.

15. Approval of Financial Statements

The Financial Statements were approved by the Directors of the Manager on 19 March 2015.

Statement of the Manager's and Trustee's Responsibilities

The Manager is required under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations"), to prepare Financial Statements for each financial period reporting the financial position of each Fund in the Invesco Funds Series 5 ("the Series") as at the end of the accounting period and of its income/excess of expenditure over income for the period. In preparing those Financial Statements, the Manager:

- ensures that the Financial Statements comply with the Trust Deed, Accounting Standards generally accepted in Ireland and applicable accounting standards subject to any material departures which are disclosed and explained in the Financial Statements;
- selects suitable accounting policies and then applies them consistently;
- makes judgements and estimates that are reasonable and prudent;
- prepares the Financial Statements on the going concern basis unless it is inappropriate to presume that the Series will continue in operation; and
- is responsible for taking reasonable steps for the prevention and detection of fraud, error, or non-compliance with laws or the UCITS Regulations, and other irregularities.

The Manager is required to keep proper accounting records and to manage the Series in accordance with the UCITS Regulations, the Hong Kong Code on Unit Trusts, Mutual Funds and the Trust Deed.

The Directors of the Manager of the Series are responsible for the maintenance and integrity of the information related to the Series through the Invesco website. Information on the internet is accessible in many countries with different legal requirements. Legislation in Ireland governing the preparation and dissemination of Financial Statements may differ from legislation in other jurisdictions.

The Directors of the Manager are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in paragraph 1 of UCITS Notice 14.5 are applied to all transactions with connected parties. All transactions with connected parties are at arms length.

The Directors of the Manager are satisfied that transactions with connected parties entered into during the year complied with the obligations set out in paragraph 1 of UCITS Notice 14.5. A connected party is defined as the promoter, manager, trustee, investment adviser and/or associated or group companies of these.

The Trustee is required under the UCITS Regulations to:

- ensure that the sale, issue, repurchase, redemption and cancellation of shares effected by or on behalf of the Funds are carried out in accordance with the UCITS Regulations and in accordance with the Trust Deed.
- 2. ensure that the value of shares is calculated in accordance with the Regulations and the Trust Deed.
- carry out the instructions of the Manager unless they conflict with the UCITS Regulations or the Trust Deed.
- ensure that in transactions involving the Funds' assets, any consideration is remitted to it within time limits which are acceptable market practice in the context of a particular transaction.
- ensure that the Funds' income is applied in accordance with the UCITS Regulations and the Trust Deed.
- 6. enquire into the conduct of the Manager in each annual accounting period and report thereon to the Shareholders. The Trustee's report shall be delivered to the Manager in good time to enable the Manager to include a copy of the report in its Annual Report. The Trustee's Report shall state whether in the Trustee's opinion the Funds have been managed in that period:
 - in accordance with the limitations imposed on the investment andborrowing powers of the Manager and Trustee by the Trust Deed and the UCITS Regulations; and
 - (ii) otherwise in accordance with the provisions of the Trust Deed and the UCITS Regulations.

If the Manager does not comply with (i) or (ii) above, the Trustee must state why this is the case and outline the steps which the Trustee has taken to rectify the situation.

The Trustee must notify the Central Bank of Ireland promptly of any material breach of the UCITS Regulations, conditions imposed by the Central Bank of Ireland or provisions of the Prospectus with regard to the Fund.

The duties provided for above may not be delegated by the Trustee to a third party. These duties must be carried out in the State.

The Trustee also takes into its custody or under its control all the assets of the Funds and holds them in safekeeping for the Shareholders.

Report of the Independent Auditors to the Shareholders of Invesco Funds Series 5

We have audited the Financial Statements of the Funds of Invesco Funds Series 5 for the year ended 30 November 2014 which comprise the Balance Sheet, Income Statement, Statement of Changes in net assets attributable to redeemable participating shareholders, the Portfolio Statements and the related notes for each of the Funds of the trust. The financial reporting framework that has been applied in their preparation is Irish law and accounting standards issued by the Financial Reporting Council and promulgated by the Institute of Chartered Accountants in Ireland (Generally Accepted Accounting Practice in Ireland).

Respective responsibilities of the manager and auditors

As explained more fully in the Statement of Manager's and Trustee's Responsibilities set out on page 42, the Manager is responsible for the preparation of the Financial Statements giving a true and fair view. Our responsibility is to audit and express an opinion on the Financial Statements in accordance with Irish law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the shareholders of each of the Funds and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing. Scope of the audit of the Financial Statements

An audit involves obtaining evidence about the amounts and disclosures in the Financial Statements sufficient to give reasonable assurance that the Financial Statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the Funds circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the manager; and the overall presentation of the Financial Statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited Financial Statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on Financial Statements

In our opinion the financial statements:

- give a true and fair view in accordance with Generally Accepted Accounting Practice in Ireland of the state of the Funds affairs as at 30 November 2014 and of their results for the year then ended; and
- have been properly prepared in accordance with the requirements of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

Opinions on other matters

- We have obtained all the information and explanations which we have consider necessary for the purpose of our audit.
- In our opinion proper books of account have been kept by the Manager.
- The Financial Statements of the funds are in agreement with the books of account.

Ireland

Date: 19 March 2015

The Financial Statements are published through www.invesco.com. The Directors of the Manager together with the Investment Adviser are responsible for the maintenance and integrity of the website as far as it relates to Invesco Funds Series 5. The work carried out by the auditors does not involve consideration of the maintenance and integrity of the website and accordingly, the auditors accept no responsibility for any changes that have occurred to the Financial Statements presented on the website. Legislation in the Republic of Ireland governing the presentation and dissemination of the Financial Statements may differ from legislation in other jurisdictions.

Report of the Trustee to the Shareholders

We have enquired into the conduct of the Manager in respect of the Invesco Funds Series 5 ('the Series') for the year ended 30 November 2014 in our capacity as Trustee to the Series.

This report including the opinion has been prepared for and solely for the Shareholders in the Series, in accordance with the Central Bank of Ireland's UCITS Notice 4 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Trustee

Our duties and responsibilities are outlined in the Central Bank of Ireland's UCITS Notice 4. One of those duties is to enquire into the conduct of the Series in each annual accounting period and report thereon to the Shareholders.

Our report shall state whether, in our opinion, the Series has been managed in that period, in accordance with the provisions of the Series' Trust Deed and the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 (the "UCITS Regulations"). It is the overall responsibility of the Manager to comply with these provisions. If the Manager has not so complied, we as Trustee must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Trustee Opinion

The Trustee conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in UCITS Notice 4 and to ensure that, in all material respects, the Series has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and appropriate regulations and (ii) otherwise in accordance with the Series' constitutional documentation and appropriate regulations.

Opinion

In our opinion, the Series has been managed during the year, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the Manager and the Trustee by the Trust Deed and by the Regulations; and

(ii) otherwise in accordance with the provisions of the Trust Deed and the Regulations.
