State Street US Index Equity Fund (the "Fund"), a sub-fund of

State Street Global Advisors Luxembourg SICAV. This Fund is managed by State Street Global Advisors Luxembourg Management Sàrl.

Share Class: B Shares (ISIN LU1159237061)

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The objective of the Fund is to track the performance of the MSCI USA Index (the "Index") as closely as possible. The Fund aims for the tracking error to be less than 1%.

MSCI data may not be reproduced or used for any other purpose. MSCI provides no warranties, has not prepared or approved this report, and has no liability hereunder.

Investment Policy

State Street Global Advisors France S.A. (the "Sub-Investment Manager") seeks to track the performance of the Index.

The Index is a benchmark of the performance of all the stocks listed in the US. The Fund generally invests at least 90% of its assets in the securities included in the Index. The Fund may invest up to 10% of its assets in negotiable debt securities, money market instruments or shares of other mutual funds. The Fund may also hold a portion of its assets in cash.

The Fund seeks to hold all the securities of the Index with the approximate weightings as in that Index. Essentially, the Fund will use a

physical replication strategy to create a near mirror-image of the Index. In limited circumstances the Fund may purchase securities that are not included in the Index.

The Fund may lend up to 100% of the securities it owns.

The Fund may use financial derivatives (that is, financial contracts whose prices are dependent on one or more underlying assets) in order to manage the portfolio efficiently.

The Fund's shares are issued in U.S. Dollars.

The Fund may not be appropriate for investors who plan to withdraw their money within five years.

Shareholders may redeem shares on any dealing day both in Luxembourg and France.

Any income earned by the Fund will be retained and reflected in an increase in the value of the shares.

Please refer to the prospectus for more information.

Risk Disclaimer

The risk category above is not a measure of capital loss or gains but of how significant the rises and falls in the Fund's return have been historically.

For example a fund whose return has experienced significant rises and falls will be in a higher risk category, whereas a fund whose return has experienced less significant rises and falls will be in a lower risk category.

The lowest category (i.e., category 1) does not mean that a fund is a risk free investment.

As the Fund's risk category has been calculated using historical simulated proxy data, it may not be a reliable indication of the Fund's future risk profile.

The Fund's risk category shown is not guaranteed and may change in the future.

Why is this Fund in this category?

The Fund is in risk category 5 as its return has experienced medium rises and falls historically.

The following are material risks relevant to the Fund which are not adequately captured by the risk category.

Concentration Risk: A Fund that purchases a limited number of securities, or only securities of a limited number of countries or industries, may experience higher changes in value than a fund that does not limit its investments.

Index Tracking Risk: The Fund's performance may not exactly track the Index. This can result from market fluctuations, changes in the composition of the Index, transaction costs, the costs of making changes to the Fund's portfolio and other Fund expenses.

Liquidity Risk: It may be difficult for the Fund to buy or sell certain investments in difficult market conditions. Consequently the price obtained when selling securities may be lower than under normal market conditions.

Counterparty Risk: Other financial institutions provide services to the Fund, acting as a counterparty to financial derivative transactions. There is a risk that these institutions may not be able to perform their obligations. This could reduce the value of the Fund's investments.

Please refer to the prospectus for full details about the risks associated with this Fund.
