The Fund seeks to have a strong exposure on the Nordic countries either by investing in bonds traded or dealt on Nordic Markets or by investing in bonds mainly issued by Nordic entities or by entities active or exposed to the Nordic markets. In particular, the Fund looks to invest in bonds issued by Nordic entities active in sectors such as, but not limited to, the logistic and transportation, real estate and construction as well as the energy sector. There is no guarantee or capital protection that the Fund will achieve its investment objective and/or policy. The Fund which mainly invests in bonds of all type including but not limited to corporate bonds, convertible bonds and convertible asset backed bonds. In addition to investing in bonds, the Fund may also invest in

equities. The Fund may use derivative financial instruments ("derivatives") for hedging purpose as well as for investment purpose. The Fund may not borrow in excess of 10% of its net assets. Only up to 10% of Fund assets may be invested in UCITS or UCI. The Fund Currency is the NOK and the Fund may partly hedge the assets of the Fund denominated in a currency other than the NOK at the discretion of the Board. The Fund is designed for investment only by those Investors, who understand the degree of risks involved and believe that the investment is suitable, based upon their investment objectives and financial needs. The time horizon for a typical Investor is between 4 to 8 years.

Risk and Reward Profile

Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. Even the lowest category does not mean 'risk free'. The fund has been categorized SRRI 4 because its net asset value shows moderate volatility leading to adequate probabilities for losses as well as gains. Risks that could significantly affect fund performance and are not necessarily fully reflected in the risk and reward rating include: Liquidity Risk - Investing in securities that cannot easily be sold at full value increases the risk that the Fund may have to suspend the redemption of its shares. Issuer Risk - Bonds owned by the Fund may lose some or all of their value if the financial health of the bonds issuers declines or fails.
