\*The Fund launched on 26 July 2023.

All of the Fund's derivative financial instruments in a loss position are all due within 7 days to 1 month.

Please refer to the Schedule of Investments of the Invesco Bloomberg Commodity UCITS ETF on page 357 to 358 for information on Notional amounts of forward currency transactions.

The swaps are reset at a minimum on a 30 day basis and may also be reset to pay operating expenses. In addition, the swaps are reset every time there is a change in the notional amount of a swap as a result of subscriptions or redemptions, except for the Commodity Funds where resets occur on a weekly basis.

### E) Specific instruments

#### Forward foreign exchange contracts

The Funds may enter into forward foreign exchange contracts.

The fair value of the forward foreign exchange contracts is determined using quoted forward exchange rates at the reporting date and present value calculations. Details of the unrealised gains/(losses) on each open forward foreign exchange contracts can be found in the Schedules of Investments of each Fund.

#### Swap agreements

The Funds of the Company enter into swap agreements. Swap agreements are privately negotiated agreements between the Fund and a counterparty to exchange or swap investment cash flows, assets, foreign currencies or market-linked returns at specified, future intervals.

The Funds except for the Commodity Funds enter into outperformance swaps where the Fund exchanges the performance of the equity securities it owns for the target performance as described in the relevant supplement. The outperformance swaps are a cost efficient method of achieving the target performance.

The Commodity Funds enter into total return swaps which exchange an interest payment for the target performance.

The Investment Manager monitors the liquidity of the underlying equities and counterparty credit quality.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### E) Specific instruments (continued)

##### Swap agreements (continued)

Details of the unrealised gains/(losses) on each open swap position can be found in the Funds' Schedules of Investments.

#### F) Capital risk management

The capital of the Funds is represented by the net assets attributable to holders of Redeemable Shares. The amount of net assets attributable to holders of Redeemable Shares can change significantly on a daily basis as the Funds are subject to subscriptions and redemptions at the discretion of the Shareholders.

Please refer to Note 7 for dividends strategy.

The Funds' individual objectives when managing capital is to safeguard each Fund's ability to continue as a going concern in order to provide returns for Shareholders and to maintain a strong capital base to support the development of the investment activities of the Funds.

#### G) Fair value information

IFRS 13 'Fair Value Measurement' requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities in the Statements of Financial Position. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Investments whose values are based on quoted market prices in active markets and therefore classified within Level 1, include active listed equities. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2.

The Level 2 amounts above represent outperformance/Total Return swap. These are priced using a valuation comprising of observable data which tracks the performance of the Reference Index against the performance of the Fund's underlying equity basket.

The Schedule of Investments shows the equities split by level, country of origin and industry group. The derivatives are outperformance/total return swaps and forwards. All equities and treasury bills are classified as Level 1 and all outperformance/total swaps and forwards as Level 2.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

The Funds do not have any investments, and have not entered into any transactions, requiring this type of valuation during the financial year. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

\*The Fund launched on 26 July 2023.

#### Level 3 reconciliation

There were no level 3 assets held during the financial years ended 30 November 2024 and 30 November 2023.

The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The fair value of financial assets and liabilities traded in an active market (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The fair value of the outperformance swaps and total return swaps held by the Funds is arrived at using a valuation technique comprising of observable data. Forward foreign exchange contracts are valued at market settlement price.

A financial instrument is regarded as quoted in an active market if the quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### G) Fair value information (continued)

##### Level 3 reconciliation (continued)

Outperformance and total return swaps are marked to market daily in line with the valuation technique which uses values from third party vendors and the change in value, if any, is recorded as an unrealised gain or loss on the Statements of Financial Position. The values used in the swap mark to market calculation are the prices of the basket of equities (outperformance swaps) or Treasury Bills (total return swaps) held by the Fund and the price of the underlying Reference Index/strategy of the Fund, which represent the opposing sides of the swap.

In the event that market quotes are not readily available for either of these inputs the value of the relevant input will be determined in good faith by the Administrator or another independent service provider, generally based upon recommendations provided by the Investment Manager.

The carrying values of other receivables and payables are assumed to approximate their fair value.

##### Financial assets and liabilities not measured at fair value

The financial assets and liabilities not measured at fair value through profit or loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value. They are categorised as Level 2 in the fair value hierarchy.

#### H) Offsetting Financial Instruments

The Company has not offset any financial assets and financial liabilities in the Statement of Financial Position. Financial liabilities includes collateral pledged, please refer to Note 18 for further detail of the collateral pledged by the Company as at 30 November 2024. Financial assets and financial liabilities which are subject to enforceable master netting arrangements or similar agreements such as derivative clearing agreements are detailed for 30 November 2024 and 30 November 2023 in the tables below and overleaf:

<sup>^</sup>All other expenses are paid by the Manager. These expenses included Directors fees of EUR 40,000 (inclusive of PAYE) (30 November 2023: EUR 33,333).

\*The Fund launched on 26 July 2023.

### 6. Management fees

The Management fees, a percentage of the Net Asset Value of the relevant Class of Shares, is payable by the Company out of the assets of the Fund to the Manager. The Management fee accrues on each day and is calculated on each Dealing Day and paid monthly (or more often) in arrears. The Manager pays out of its fees (and not out of the assets of the Fund) the fees and expenses (where appropriate) of the Investment Managers, the Sub-Investment Manager, the Administrator, the Depositary, the Directors, the Auditors and the ordinary fees, expenses and costs incurred by the Fund that include setting up costs and other administrative expenses as described in the Prospectus. Operating expenses are disclosed in the Statement of Comprehensive Income and in Note 5.

The fees in the following table are expressed as a percentage per annum of the Fund's net asset value.

| Fund                                                                     | % Rate per Annum |

#### Invesco EURO STOXX 50 UCITS ETF

There are no distribution entitlements for the Class A Shares. With respect to Class B Shares only and at the discretion of the Board of Directors, the Fund aims to pay a distribution calculated by reference to the embedded reinvested dividends within the Reference Index during the relevant dividend financial year and the Swap Index seeks to track the price performance of the companies contained within the Reference Index and distributions made by those companies. There is no guarantee that any distribution will be paid.

\*The Fund terminated on 3 May 2023.

\*\*The Fund launched on 26 July 2023.

### 11. Segment reporting

IFRS 8 requires disclosures in respect of the Chief Operating Decision Maker ("CODM") and certain disclosures in respect of the country of origin of income. Management have determined the CODM is the Board of Directors.

All revenues are derived from financial assets and are attributable to a country based on the domicile of the issuer of the instrument. The tables below show a breakdown of the interest income. The Schedule of Investments discloses the investments of the Fund at their fair value by their respective country of origin.

## Notes to the Financial Statements (continued)

### 12. Use of financial derivative instruments and efficient portfolio management

Subject to the UCITS Regulations and to the conditions within the limits laid down by the Central Bank of Ireland, the Company, on behalf of a Fund, may invest in Financial Derivative Instruments ("FDIs") dealt on a regulated market and/or OTCs which can be used for investment purposes, hedging and/or efficient portfolio management purposes. During the financial year ended 30 November 2024 and the financial year ended 30 November 2023, the Company did not use FDIs for the purpose of efficient portfolio management.

The FDIs in which a Fund may invest are repurchase agreements, spot and forward currency contracts, options on securities, indices and currencies, swaps, credit default swaps, futures and options on futures and when issued, forward commitment securities, further details of which will be set out in the relevant Supplement.

As at 30 November 2024 and 30 November 2023, the only FDIs held by the Funds except for the Commodity Funds were outperformance swaps; where the performance of the equity baskets are netted against the performance of the Reference Index or Reference Asset, if the Reference Index/strategy outperforms the equity basket, the swap Counterparty pays the difference to the Fund; and vice versa.

As at 30 November 2024 and 30 November 2023, the only FDIs held by the Commodity Funds were total return swaps and forward currency contracts, which exchange an interest payment for the target performance.

The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments in respect of the relevant Fund.

For further information on the exposure obtained through the use of FDIs and the identity of the counterparties, please refer to the Fund's Schedule of Investments. For details on the collateral pledged, please refer to the Funds' Schedule of Investments and Note 18.

### 13. Related and connected parties transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

#### Related Parties

##### Directors

The amount paid to Directors in the financial year to 30 November 2024 and the financial year to 30 November 2023 by the Manager and the amounts outstanding on 30 November 2024 and 30 November 2023 are disclosed in Note 5 (Operating Expenses) and Note 10 (Payables) respectively. The Directors who are also employees of the Invesco Group are not entitled to receive Directors' fees.

Gary Buxton is a Director of the Company, the Manager and the Chief Operating Officer of the Invesco UK Services Limited. Sarah (Katy Walton) Jones is a Director of the Company and Head of Legal for Invesco's EMEA ETP business. Feargal Dempsey was a Director of the Company and also a Director of the Manager. Lisa Martensson is a Director of the Company and also a Director of the Manager. Deirdre Gormley is a Director of the Company and also a Director of the Manager.

#### Connected Parties

##### Investment Managers

Invesco Capital Management LLC is a connected party and the Investment Manager to the Commodity Funds. Assenagon Asset Management S.A. is a connected party and the Sub-Investment Manager to the Commodity Funds. Assenagon Asset Management S.A. is also the Investment Manager to all other Funds of the Company. The Funds paid no fees directly to the Investment Managers/Sub-Investment Manager and fees paid by Manager on behalf of the Funds. As outlined in Note 5 of these Financial Statements, all other expenses are paid by the Manager on behalf of the Funds.

##### Manager

The Company has appointed Invesco Investment Management Limited to act as Manager to the Company and each Fund. The Manager forms part of the Invesco group of companies, the parent of which is Invesco Limited, a US publicly traded company listed on the New York Stock Exchange with ticker IVZ. The management fee charged for the financial year was EUR 42,568,542 (30 November 2023: EUR 32,668,518), of which EUR 1,950,955 was outstanding at 30 November 2024 (30 November 2023: EUR 1,134,185).

#### Significant agreements

##### Authorised Participants

The Authorised Participants are significant agreements by virtue of their direct shareholding in the Fund or through a shareholding of one of their respective group companies. The complete list of Authorised Participants is shown in the Organisation section on pages 8 to 9.

There were no brokerage fees paid to the Authorised Participants during the financial year ended 30 November 2024 (30 November 2023: Nil).

Authorised Participants may purchase and hold Redeemable Shares in the Funds for trading purposes. In addition, the Authorised Participants may hold Redeemable Shares on behalf of clients, on their own account or for the purpose of providing seed capital to the Funds. These holdings may on occasion constitute a large portion of a Fund. From time to time, such holdings may even constitute the majority of assets under management of the Fund but are not significant at financial year end. There is no requirement (expressed or implied) on Authorised Participants to maintain positions in a Fund at any time.

## Notes to the Financial Statements (continued)

### 14. Auditors' remuneration

As required under Section 322 of the Companies Act 2014 (as amended), the remuneration for all work carried out by the statutory audit firm in respect of the financial year is as follows:

|                                     | Financial year ended<br>30 November<br>2024<br>EUR | Financial year ended<br>30 November<br>2023<br>EUR |
|-------------------------------------|----------------------------------------------------|----------------------------------------------------|
| Statutory audit of company accounts | 363,596                                            | 374,895                                            |
| Other assurance services            | 30,025                                             | 29,150                                             |
|                                     | <b>393,621</b>                                     | <b>404,045</b>                                     |

EUR 393,621 was outstanding at the financial year end (30 November 2023: EUR 404,045). The above fees are presented exclusive of VAT and are paid by the Manager.

### 15. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event" for certain investors not satisfying one of the criteria outlined below.

A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of Shares and the holding of Shares at the end of each 8 year beginning with the acquisition of such Shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company, or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations;
- certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations; and
- any transaction (which might otherwise be a chargeable event) in relation to Shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners will not constitute a chargeable event. It is the current intention of the Directors that all the Shares in the Company will be held in recognised clearing systems.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

Funds which purchase derivatives after 1 January 2017, on the net total return versions\* of indices deemed to be non-qualifying under Section 871(m) of the U.S. Internal Revenue Code, receive a cash dividend amount from each derivative counterparty. The derivative counterparty will withhold and pay such amount to the IRS in satisfaction of the Funds' tax liability under this code. The cash dividend amount is based on the number of Reference Index units the Fund holds and the weight of the Reference Index component on each ex-date multiplied by the applicable withholding tax rate. Derivative positions detailed in the relevant Funds' Schedule of Investments may comprise of two positions with both Goldman Sachs International and Morgan Stanley Capital Services LLC: one traded prior to the 1 January 2017 which is grandfathered and not liable for withholding tax and a position traded after 1 January 2017 which is liable. On 9 December 2021, (one day before maturity date) all Morgan Stanley swaps were extended by 5 years (new maturity date (10 December 2026)). Due to that extensions the previously grandfathered swaps lost their 871m grandfather status. One week later swaps that were previously split between different MS accounts in ETF Manager ("ETFM") were merged.

There are currently 7 Funds in scope, namely: Invesco Consumer Discretionary S&P US Select Sector UCITS ETF, Invesco Consumer Staples S&P US Select Sector UCITS ETF, Invesco Energy S&P US Select Sector UCITS ETF, Invesco Financials S&P US Select Sector UCITS ETF, Invesco Health Care S&P US Select Sector UCITS ETF, Invesco Industrials S&P US Select Sector UCITS ETF and Invesco Technology S&P US Select Sector UCITS ETF.

The tax element applicable to each of the Funds listed above is rolled up into the realised and unrealised gains/(losses) on outperformance swaps.

During the financial year ended 30 November 2024 and 30 November 2023, the derivative counterparties withheld and paid respective amounts to IRS in satisfaction of the Funds' tax liability under this code. The amounts paid, which is rolled up into the realised and unrealised gains/(losses) on outperformance swaps and does not affect Funds NAV, amount paid in respect of all Funds is immaterial.

*\*The Invesco Morningstar US Energy Infrastructure MLP UCITS ETF, trades the Gross Return Reference Index. US master limited partnerships ("MLPs") are structured so that distributions are generally treated as capital rather than income. However some MLPs own securities that distribute income to the MLP, which means the MLP's own distribution would include income and could be subject to withholding tax. Invesco has agreed with its derivative counterparties that any tax which may arise will not be charged to the Fund and thus will not affect the Funds' performance.*

## Notes to the Financial Statements (continued)

### 16. Share capital

The authorised share capital of the Company is 2 subscriber shares of €1 each and 1,000,000,000,000 shares of no par value initially designated as unclassified shares and available for issue as shares.

In accordance with the objectives listed in the risk management policies in Note 2, the Company strives to invest the subscriptions of Redeemable Shares in appropriate investments.

Details of the number of shares issued and redeemed during the financial year per Fund are contained below and overleaf:

For the financial year ended 30 November 2024:

| Share class                                                                        | Currency | Balance at beginning of the financial year | Issued during the financial year | Redeemed during the financial year | Total number of Redeemable shares in issue at the end of the financial year |
|------------------------------------------------------------------------------------|----------|--------------------------------------------|----------------------------------|------------------------------------|-----------------------------------------------------------------------------|

\*The Fund launched on 26 July 2023.

### 18. Collateral

The collateral for the Commodity Funds is bilateral. The Funds have entered into an International Swaps and Derivative Agreement ("ISDA") with each Counterparty being Barclays Bank plc, Bank of America Securities Europe SA, Citigroup Global Markets Ltd, Deutsche Bank AG, Goldman Sachs International, JPMorgan Chase Bank NA, JP Morgan Securities plc, Morgan Stanley & Co. International plc, Morgan Stanley Capital Services LLC, Morgan Stanley Europe SE and UBS AG were in place throughout the financial year ending 30 November 2024. Based on the value of the daily mark to market values of the total return swap, Assenagon Asset Management S.A. (the "Sub-Investment Manager") on behalf of the Commodity Funds agrees a daily collateral call with the counterparties. If the Funds are required to pledge collateral they will deliver securities which comprise US Treasury Bills as collateral. If the Funds are to receive collateral from the counterparty they will receive USD cash or UK Gilts, US Treasury Bills or Bonds or German Bonds. If the Funds receive collateral, the collateral will not impact the Fund's net assets. If the Funds are required to pledge collateral, then the Funds will deliver securities being the US Treasury Bills to the counterparty. Based on the value, the Investment Manager agrees a daily collateral call with the counterparties. Collateral calls are made in line with the timings, minimum transfer amounts and other parameters defined in the Credit Support Annex to the ISDA with the respective counterparty.

US Treasury Bills pledged by the Commodity Funds as at 30 November 2024 are detailed below and overleaf:

The collateral for all other Funds is unilateral. The Funds have entered into a Charge Account Control Agreement (the "Agreement") with each Swap Counterparty being J.P. Morgan Securities plc, Goldman Sachs International and Barclays Capital Securities Limited. The Agreement is in place from 25 August 2017, 11 August 2017 and 6 November 2024 respectively. The collateral model involves the pledge of collateral to the Swap Counterparties in the form of equities. Equities pledged as collateral are marked with an asterisk in the Schedule of Investments.

### 19. Soft commission arrangements

It is not currently intended that any soft commission arrangements will be made in respect of the Company.

There were no soft commission arrangements in the current or prior financial year.

### 20. Segregation of liability

Under the provisions of the Companies Act 2014 (as amended) the Directors shall maintain for each Fund a separate portfolio of assets. As between Shareholders, each portfolio of assets shall be invested for the exclusive benefit of the relevant Fund. The Shareholders shall only be entitled to the assets and profits of that Fund in which they participate. The Company shall be considered one single legal entity. With regard to third parties, in particular towards the Company's creditors, the Company shall be responsible for all liabilities incurred by a Fund exclusively based on the assets of this relevant Fund. Among the Shareholders, the liabilities of each Fund shall only be incurred to the respective Fund. While the provisions of the Companies Act 2014 (as amended) provide for segregated liability between Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly, it is not free from doubt that the assets of any Fund of the Company may not be exposed to the liabilities of other Funds of the Company.

As at the date of the Financial Statements, the Directors are not aware of any existing or contingent liability of any Fund of the Company.

### 21. Operating Segment

IFRS 8 requires disclosure in respect of the Chief Operating Decision Maker ("CODM") and certain disclosures in respect of the country of origin of income, which may consist of interest and dividends. Management have determined that the CODM is the Board of Directors.

## Notes to the Financial Statements (continued)

### 21. Operating Segment (continued)

The Funds except for the Commodity Funds trade a portfolio of equities and outperformance swaps with the objective of providing Shareholders with a Target Performance linked to the performance of a Reference Index or Reference Asset.

The Commodity Funds trade a portfolio of US Treasury Bills and total return swaps with the objective of providing Shareholders with a Target Performance linked to the performance of a Reference Index.

The segment information provided to the Investment Manager and Sub Investment Manager is the same as that disclosed as at 30 November 2024, in the Statements of Comprehensive Income, in the Statement of Financial Position, in Statement of Changes in Net Assets Attributable to Holders of Participating Redeemable Preference Shares, in the Statement of Cash Flows and Schedule of Investments for each Fund.

The internal reporting provided to the Board of Directors for the Company assets and liabilities and performance is prepared on a consistent basis with the measurement and recognition of IFRS.

Each Fund is operating as a single operating segment.

There were no changes in the reportable segments during the financial year. The Funds have no assets classified as non-current assets.

In respect of the Funds which operate hedged share classes, these hedged share classes do not represent separate operating segments from their respective Funds.

### 22. Significant events during the financial year

A new Prospectus was issued on 18 December 2023 replacing the Prospectus from 30 November 2022.

On 21 March 2024, Invesco MSCI USA UCITS ETF launched a Euro Hedged share class.

A new Prospectus was issued on 28 May 2024 replacing the Prospectus from 18 December 2023. New Supplements were also issued on 28 May 2024.

Effective 22 August 2024, Invesco Asset Management Ireland Holdings Limited resigned as Secretary and Invesco UK Holdings Limited was appointed.

On 30 September 2024, Deirdre Gormley was appointed as an independent non-executive Director.

On 30 September 2024, Feargal Dempsey resigned as Chairperson.

On 30 September 2024, Lisa Martensson was appointed as Chairperson.

On 25 October 2024, the Invesco STOXX Europe Mid 200 UCITS ETF, Invesco STOXX Europe Small 200 UCITS ETF, Invesco RDX UCITS ETF, Invesco MSCI Europe Value UCITS ETF, Invesco Goldman Sachs Equity Factor Index World UCITS ETF, Invesco Goldman Sachs Equity Factor Index Europe UCITS ETF and Invesco Goldman Sachs Equity Factor Index Emerging Markets UCITS ETF were revoked from the Central Bank of Ireland.

On 20 November 2024, Invesco Commodity Composite UCITS ETF was terminated.

There were no other significant events during the financial year end.

### 23. Significant events since the financial year end

#### Post year end NAV Movements

The Net Asset Value ("NAV") at the balance sheet date and the latest practicable date prior to the publication of the report has been shown in the table below and overleaf. Movement in the NAV of the funds relate to capital movement, none of the funds underlying index has dropped significantly since the balance sheet date.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)**  
**For the financial year ended 30 November 2024**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)**  
**For the financial year ended 30 November 2024**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)**  
**For the financial year ended 30 November 2024**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)**  
**For the financial year ended 30 November 2024**

**Invesco STOXX Europe 600 Optimised Food & Beverage UCITS ETF**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)**  
**For the financial year ended 30 November 2024**

**Invesco STOXX Europe 600 Optimised Utilities UCITS ETF**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)**  
**For the financial year ended 30 November 2024**

**Invesco Utilities S&P US Select Sector UCITS ETF**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)**  
**For the financial year ended 30 November 2024**

**Invesco Energy S&P US Select Sector UCITS ETF**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)**  
**For the financial year ended 30 November 2024**

**Invesco MSCI Emerging Markets UCITS ETF**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)**  
**For the financial year ended 30 November 2024**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)**  
**For the financial year ended 30 November 2024**

**Invesco MSCI Saudi Arabia UCITS ETF**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

## Supplemental Information (Unaudited) Remuneration Disclosure

### Remuneration policy

Invesco Investment Management Limited (the "Management Company") has adopted a remuneration policy which is consistent with the principles outlined in the European Securities and Markets Authority (ESMA) Guidelines on sound remuneration policies under the UCITS Directive.

The policy was revised in 2024, to include specificities for some Invesco EU regulated Management Companies. The Management Company was not impacted by the changes.

The purpose of the remuneration policy is to ensure the remuneration of the staff of the Management Company is consistent with and promotes sound and effective risk management, does not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Manager and of the UCITS it manages and does not impair the Management Company's compliance with its duty to act in the best interests of the UCITS it manages. The Management Company's summary remuneration policy is available on our website ([www.invescomanagementcompany.ie](http://www.invescomanagementcompany.ie)). The Management Company's full remuneration policy is available for free from the registered office (see address page 7) upon request.

The remuneration policy is reviewed annually by the Compliance, Human Resources and Risk Management functions who recommend any adjustments to ensure continued alignment of the policy with sound risk management. The board of directors of the Management Company is responsible for the oversight of remuneration and for ensuring adherence to this policy through the Human Resources function.

The Internal Audit function conducts regular testing of administration of the remuneration policy to assess its ongoing compliance with the Invesco Group's remuneration policies and procedures.

The aggregate total remuneration for the staff of the Management Company during performance year 2024 (1 January 2024 to 31 December 2024) is EUR 10.93m of which EUR 9.02m is fixed remuneration and EUR 1.91m is variable remuneration. The number of beneficiaries is 66.

The Management Company has identified individuals considered to have a material impact on the risk profile of the Management Company or the UCITS it manages (Identified Staff), who include board members of the Management Company, senior management, heads of control functions, other risk takers and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers.

The aggregate total remuneration paid to the Identified Staff of the Management Company for UCITS related activities for the performance year 2024 (1 January 2024 to 31 December 2024) is EUR 5.17m of which EUR3.29m is paid to Senior Management and EUR 1.88m is paid to other Identified Staff. Please note the total remuneration for Identified Staff of the Management Company for UCITS related activities includes remuneration for staff employed by delegates.

## Supplemental Information (Unaudited)

### Securities Financing Transactions Regulations

The following information is presented with regard to Securities Financing Transactions Regulation (EU) 2015/2365 ("SFTR") on transparency of securities financing and of reuse. The Board of Directors considers the outperformance swaps held by the Funds to meet the definition of total return swaps ("TRSs") within those regulations. The Authorised Participants listed on pages 8 to 9 of the financial statements may also be counterparties to the Swaps.

#### Global Data

Securities and commodities on loan as a proportion of total lendable assets. There were no lendable assets during the financial year.

#### Re-use of Collateral

Collateral is not re-used.

## **Supplemental Information (Unaudited)**

### **Securities Financing Transactions Regulations (continued)**

#### **Safekeeping – Collateral Received**

All collateral received/payable is held on behalf of the Funds by Northern Trust Company. There was no cash payable as collateral as at 30 November 2024. Cash of EUR 5,205,754 was payable as collateral to Deutsche Bank AG, New York, Goldman Sachs International and J.P. Morgan Securities plc as at 30 November 2023.

#### **Return & Cost**

Returns and costs for total return swaps are received/borne 100% by each Fund and netted with realised gain/(losses) on outperformance swaps. The monetary amounts are disclosed in Note 4 Net gains/(losses) on financial assets and liabilities at fair value through profit or loss to each Fund as Realised gains/(losses) and Net change in unrealised appreciation/(depreciation) on outperformance swaps and total return swaps.

## **Supplemental Information (Unaudited)**

### **Sustainable Finance Disclosure Regulation**

The following Funds are classified as financial products which promote environmental and/or social characteristics as described in Article 8 (the "Article 8 Funds" and each, an "Article 8 Fund") of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"):

- Invesco S&P 500 ESG UCITS ETF
- Invesco Bloomberg Commodity Carbon Tilted UCITS ETF

Article 11(1) of SFDR requires certain information to be disclosed in the audited financial statements where a Fund is classified as an Article 8 Fund within the meaning of SFDR. This information is required to be presented in the form of the template set out in the SFDR Annexes to the financial statements for Article 8 Funds of Commission Delegated Regulation (EU) 2023/363 of 31 October 2022 amending and correcting the regulatory technical standards laid down in Delegated Regulation (EU) 2022/1288 supplementing SFDR. Further information on the environmental and/or social characteristics promoted by the Article 8 Funds during the year can be found in the annexes to these financial statements.

The data used to complete the disclosures set out in the SFDR Annexes to these financial statements for the Article 8 Funds is provided by the relevant index provider and other third-party sources. The data used is the data available as at the date at which the disclosures were produced and is based on backward-looking analysis. The analysis is dependent on companies disclosing relevant data and the availability of this data can be limited. Data may also be incomplete, inaccurate and/or contain errors that may not be detected by the Manager and the relevant index provider. It has been observed that the availability and accuracy of data, from the relevant index provider, third party data providers and underlying investee companies, continues to be challenging in some respects. Additionally, there may be further regulatory guidance of relevance to the content of the disclosures that is still to be issued. The disclosures included in the Annexes to these financial statements should consequently be read and understood in light of these continuing challenges. With the assistance of the Manager and the Investment Manager, the Board continues to monitor the ongoing development and evolution of sustainability-related regulation and associated guidance and the availability of relevant third party and investee companies' data in this regard.

Portman Square House, 43-45 Portman Square, London W1H 6LY

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Invesco Bloomberg Commodity Carbon Tilted UCITS  
ETF

Legal entity identifier:  
5493000ETHIL8GWACY91

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made sustainable investments with an environmental objective: \_\_\_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made sustainable investments with a social objective: \_\_\_\_\_%

It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental characteristics promoted by the Fund were to provide indirect exposure to an index of commodity futures with the same constituent commodities as the Bloomberg Commodity Index (the “**Parent Index**”), whose weights were tilted to take into account the Greenhouse Gas emissions (“**GHG Emissions**”) associated with the production of the underlying commodity referenced by the futures contracts. The tilting was applied in such a way that within each of the following groups of commodities in the Reference Index (industrial metals, agriculture derived, agriculture ex-derived, livestock, precious metals, primary energy and distillates), lower GHG emitting commodities relative to their commodity group were overweighted, and higher GHG emitting commodities were underweighted, when compared to the Parent Index. The Fund achieved this by tracking the Reference Index, which has a methodology consistent with attaining the environmental and/or social characteristics promoted by the Fund. The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the annual report.

As a result of applying the tilting to the underlying futures contracts, the net environmental benefit was that greater relative funding support was provided to producers of less GHG emitting commodities, and reduced relative funding support was provided to producers of more GHG emitting commodities, when compared to the Parent Index.

The differential in funding support between the Reference Index and the Parent Index was assessed via the Aggregated Emissions Difference per Unit of Production, which is effectively the total reduction in weighted GHG Emissions per unit of production across all the underlying commodities referenced by the futures contracts of the Reference Index when compared to the Parent Index. The Reference Index tilt factors targeted an Aggregated Emission Difference Per Unit of Production of 20%.

Further information on the attainment of the environmental and/or social characteristics promoted by the Fund are set out below. Reported data was sourced from external data vendors including Bloomberg.

How did the sustainability indicators perform?

The Fund used a single indicator to measure the attainment of the environmental and social characteristics. Against this indicator, the fund offered the following:

| Sustainability Indicator                                                                        | Indicator performance |
|-------------------------------------------------------------------------------------------------|-----------------------|
| Level of GHG Emissions reduction on a per unit of production basis relative to the Parent Index | 21.5% reduction       |

● **...and compared to previous periods?**

The Level of GHG Emissions reduction on a per unit of production basis relative to the Parent Index has increased slightly since last reporting period (20.4%).

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not Applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not Applicable.

**How were the indicators for adverse impacts on sustainability factors taken into account?**

Not Applicable.

**Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not Applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did this financial product consider principal adverse impacts on sustainability factors?**

Not Applicable.

**What were the top investments of this financial product?**

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: from 1st of

December 2023 to 30th of November 2024. The data is representative of the reference period.

| Largest Investments                                                                     | Sector | % Assets | Country        |
|-----------------------------------------------------------------------------------------|--------|----------|----------------|
| Commodities Exchange Centre (CEC) Gold Composite Commodity Future                       | N/A    | 11.81%   | United States  |
| Intercontinental Exchange Europe Brent Crude Electronic Energy Future                   | N/A    | 10.29%   | United Kingdom |

| CME Chicago Mercantile Exchange Lean Hogs Electronic Commodity Future                   | N/A    | 3.05%    | United States  |
| Intercontinental Exchange Europe Low Sulphur Gasoil Energy Future                       | N/A    | 2.86%    | United Kingdom |
| CME Chicago Mercantile Exchange Live Cattle Electronic Commodity Future                 | N/A    | 2.85%    | United States  |

**Asset allocation** describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Please see below.

- What was the asset allocation?

The net economic exposure of the Fund was to the constituent securities in the Reference Index which was achieved indirectly through Swaps, accordingly, 100% of the Fund's portfolio was aligned with the environmental characteristics.

The Fund invested all or substantially all of the net proceeds of any issue of Shares in a portfolio of US Treasury Bills. The Fund entered into Swap contracts with Approved Counterparties through which it exchanged an agreed rate of return reflective of market rates of US Treasury Bills and received in return the performance of the Reference Index.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● **In which economic sectors were the investments made?**

Not Applicable.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflecting the share of revenue

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not Applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes

☐ In fossil gas

☐ In nuclear energy

☒ No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

from green activities of investee companies.

- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

● **What was the share of investments made in transitional and enabling activities?**

Not Applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not Applicable.

**What was the share of socially sustainable investments?**

Not Applicable.

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

Residual cash holdings, which was less than 0.5% of the Fund's portfolio. No minimum environmental or social safeguards are applied in relation to these holdings.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

**How did this financial product perform compared to the reference benchmark?**

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

See tables completed in below sections:

● **How does the reference benchmark differ from a broad market index?**

The Reference Index differs from a broad market index (the Parent Index) because it applies tilting such that within each commodity group, lower GHG emitting commodities relative to the group are overweighted, and higher GHG emitting commodities are underweighted.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

As the Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund was aligned with that of the Reference Index.

● **How did this financial product perform compared with the reference benchmark?**

As the Fund synthetically replicates the performance of the Reference Index (by receiving the return of the Reference Index through unfunded Swaps), the sustainability indicator performed equivalently for the Fund and Reference Index, both offered:

| Sustainability Indicator                                                                        | Fund Indicator Performance | Reference Index Indicator Performance |
|-------------------------------------------------------------------------------------------------|----------------------------|---------------------------------------|
| Level of GHG Emissions reduction on a per unit of production basis relative to the Parent Index | 21.5% reduction            | 21.5% reduction                       |

● **How did this financial product perform compared with the broad market index?**

The Parent Index also acts as a relevant broad market index. As the sustainability indicator for the Fund is defined relative to the Parent Index, the Fund offers the same reduction relative to the broad market index:

| Sustainability Indicator                                                                        | Fund Indicator Performance | Broad Market benchmark (Parent Index) Indicator Performance |
|-------------------------------------------------------------------------------------------------|----------------------------|-------------------------------------------------------------|
| Level of GHG Emissions reduction on a per unit of production basis relative to the Parent Index | 21.5% reduction            | 0.0% reduction                                              |

Product name: Invesco S&P 500 ESG UCITS ETF

Legal entity identifier: 549300ZZIPWTMHECV620

## Environmental and/or social characteristics

| Did this financial product have a sustainable investment objective?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to provide indirect exposure to the S&P 500 ESG Index ("**Reference Index**"), thereby gaining exposure to similar overall industry group weights as the S&P 500 Index ("**Parent Index**") whilst improving the Fund's ESG characteristics. The Fund achieved this by tracking the Reference Index, which has a methodology consistent with attaining the environmental and/or social characteristics promoted by the Fund. The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the annual report.

The environmental and/or social characteristics were achieved by excluding from the Parent Index issuers involved in certain business activities deemed by the Index Provider to be inconsistent with ESG outcomes, issuers that are involved in severe ESG controversies, and issuers that fall within 25% of the worst scoring in each Global Industry Classification Standard (GICS®) industry group according to S&P Global ESG scores.

The Investment Manager also applied substantially similar business involvement and controversy exclusion criteria of the Index Provider to the underlying Basket.

*Further information on the attainment of the environmental and/or social characteristics promoted by the Fund are set out below. Reported data was sourced from external ESG data vendors including S&P, ISS ESG, Sustainabilitys, Clarity AI and MSCI.*

☒

**How did the sustainability indicators perform?**

The Fund used a variety of indicators to measure the attainment of the environmental and social

characteristics. Against these indicators, the fund offered the following:

| Sustainability Indicator                                                                                                                                                               | Indicator performance                                                                     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|
| S&P Global ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the Parent Index                                                                   | 9.0% improvement                                                                          |
| CO2 emissions intensity of the Fund relative to the Parent Index                                                                                                                       | 27.1% reduction                                                                           |
| Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index) | As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies |

● **...and compared to previous periods?**

S&P changed the ESG score dataset used in the construction of the index since the last periodic report and therefore the dataset used here to assess attainment of the environmental and social characteristics has also changed. The old scoring system (S&P DJI ESG Scores) featured more high-scoring outliers, leading to greater perceived improvements as compared to the new scoring system (S&P Global ESG Scores). As such, though the headline improvement figure this year is lower than last year (12.2%) the ESG credentials of the fund have not been diminished.

The reduction in CO2 emissions intensity has improved slightly since last reporting period (26.7%) and the Fund continues to offer 0% exposure to companies excluded by the methodology of the Reference Index.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not Applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not Applicable.

**How were the indicators for adverse impacts on sustainability factors taken into account?**

Not Applicable.

**Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not Applicable.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

#### **How did this financial product consider principal adverse impacts on sustainability factors?**

The net economic exposure of the Fund was to the constituent securities in the Reference Index. This exposure was achieved indirectly, through Swaps. Through the application of the various exclusionary criteria in the methodology of the Reference Index, the companies in the Reference Index considered principal adverse impacts on sustainability factors.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in Thermal Coal and Oil Sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in Controversial Weapons, and those that were deemed non-compliant with the principles of the United Nations Global Compact. Through selection of constituents based on S&P Global ESG Scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

S&P Global ESG Scores consider a number of key issues in their construction, including, but not limited to; Greenhouse Gas Emissions, Energy Consumption, Hazardous Waste, Board Gender Diversity, and Gender Pay Gap. The scores also took into account if there had been recent controversies in the area of Water Operations.

The exclusion criteria that the Investment Manager applied to the Basket did not consider principal adverse impacts on sustainability factors (as disclosed in the pre-contractual annex of the Fund). However, the Basket operated with similar exclusions, removing companies involved in Thermal Coal, Oil Sands, Controversial Weapons, and those that were deemed non-compliant with the principles of the United Nations Global Compact. The Basket also excluded any companies where data wasn't available to make such assessments.

The below table shows the PAI scores for the fund:

| Adverse sustainability indicator | PAI                                                               | Data         | Coverage | Metric                                                                                                                                                                                                                                                                                   |

*Invesco Investment Management Limited does not estimate any data, however certain data sourced from external providers may contain estimated data.*

#### What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: from 1st of December 2023 to 30th of November 2024. The data is representative of the reference period.

| Largest Investments | Sector                 | % Assets | Country       |
|---------------------|------------------------|----------|---------------|
| MICROSOFT CORP      | Information Technology | 9.25%    | United States |
| APPLE INC           | Information Technology | 9.15%    | United States |
| NVIDIA CORP         | Information Technology | 8.14%    | United States |
| ALPHABET INC-A      | Communication Services | 2.82%    | United States |
| ALPHABET INC-C      | Communication Services | 2.37%    | United States |
| ELI LILLY & CO      | Health Care            | 1.97%    | United States |
| TESLA INC           | Consumer Discretionary | 1.92%    | United States |
| JPMORGAN CHASE      | Financials             | 1.84%    | United States |
| UNITEDHEALTH GRP    | Health Care            | 1.50%    | United States |
| VISA INC-CLASS A    | Financials             | 1.37%    | United States |
| AMAZON.COM INC      | Consumer Discretionary | 1.26%    | United States |
| MASTERCARD INC-A    | Financials             | 1.19%    | United States |
| PROCTER & GAMBLE    | Consumer Staples       | 1.18%    | United States |
| EXXON MOBIL CORP    | Energy                 | 1.16%    | United States |
| HOME DEPOT INC      | Consumer Discretionary | 1.12%    | United States |

#### What was the proportion of sustainability-related investments?

Please see below.

**Asset allocation**  
describes the share of

- What was the asset allocation?

investments in specific assets.

The net economic exposure of the Fund was to the constituent securities in the Reference Index which was achieved indirectly through Swaps, accordingly, 99.94% of the Fund's portfolio was aligned with the environmental and social characteristics.

The Fund invested all or substantially all of the net proceeds of any issue of Shares in a Basket of global equity and equity-related securities. The Fund entered into unfunded swap contracts with Approved Counterparties through which it paid away the performance/return of the Basket of securities and received in return the performance of either the Reference Index, or of a currency-hedged variant thereof, as required to produce the necessary returns for any currency-hedged share classes of the Fund.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● **In which economic sectors were the investments made?**

GICS Sector Breakdown - the data is representative of the reference period.

| Sector (GICS)          | Weight %      |
|------------------------|---------------|
| Financials             | 13.94         |
| Communication Services | 7.61          |
| Consumer Discretionary | 8.61          |
| Information Technology | 33.65         |
| Industrials            | 7.56          |
| Consumer Staples       | 6.39          |
| Energy                 | 3.98          |
| Real Estate            | 2.39          |
| Health Care            | 12.21         |
| Materials              | 2.33          |
| Utilities              | 1.27          |
| Cash                   | 0.06          |
| <b>Total</b>           | <b>100.00</b> |

| Sub-Industry Code | Sub-Industry Name                  | Weight %    |
|-------------------|------------------------------------|-------------|
| 10101010          | Oil & Gas Drilling                 | 0.00        |

| 10102040          | Oil & Gas Storage & Transportation | 0.52        |
| 10102050          | Coal & Consumable Fuels            | 0.00        |
| <b>Total</b>      |                                    | <b>3.98</b> |

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not intend to make any Sustainable Investments and gains exposure to the Reference Index via derivatives, hence it doesn't report any exposure to environmentally sustainable economic activities. The data is representative of the reference period.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes

☐ In fossil gas

☐ In nuclear energy

☒ No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

● **What was the share of investments made in transitional and enabling activities?**

Not Applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

0%

**What was the share of socially sustainable investments?**

0%

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

Residual cash holdings, which was 0.06% of the Fund's portfolio. No minimum environmental or social safeguards are applied in relation to these holdings.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

**How did this financial product perform compared to the reference benchmark?**

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

See tables completed in below sections.

● **How does the reference benchmark differ from a broad market index?**

The Reference Index differs from a broad market index because it excluded issuers that were involved in certain business activities deemed by the Index Provider to be inconsistent with ESG outcomes, issuers that are involved in severe ESG controversies, and issuers that fall within the worst 25% from each GICS® industry group, according to S&P Global ESG scores.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

As the Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund was aligned with that of the Reference Index.

● **How did this financial product perform compared with the reference benchmark?**

As the Fund synthetically replicates the performance of the Reference Index (by receiving the return of the Reference Index through unfunded Swaps), the sustainability indicators performed equivalently for the Fund and Reference Index, both offered:

| Sustainability Indicator                                                                                                                                                          | Fund Indicator Performance                                                            | Reference Index Indicator Performance                                                            |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------|
| S&P Global ESG Score (as defined in the methodology of the Reference Index)                                                                                                       | 50.4                                                                                  | 50.4                                                                                             |
| CO2 emissions intensity                                                                                                                                                           | 68.9                                                                                  | 68.9                                                                                             |
| Percentage of the portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index) | The Fund had 0% exposure to excluded companies at each Reference Index rebalance date | The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date |

● **How did this financial product perform compared with the broad market index?**

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and

Parent Index differed as below, with the fund offering:

| Sustainability Indicator                                                                                                                                                          | Fund Indicator Performance                                                            | Broad Market benchmark (Parent Index) Indicator Performance                                                      |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| S&P Global ESG Score (as defined in the methodology of the Reference Index)                                                                                                       | 50.4                                                                                  | 46.2                                                                                                             |
| CO2 emissions intensity                                                                                                                                                           | 68.9                                                                                  | 94.5                                                                                                             |
| Percentage of the portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index) | The Fund had 0% exposure to excluded companies at each Reference Index rebalance date | The Broad Market benchmark had 16.5% exposure to excluded companies at the latest Reference Index rebalance date |
