Investec Global Strategy Fund (the 'Fund') was initially established in Guernsey on 5 January 1984 and was re-domiciled to Luxembourg on 1 July 2008. The Fund is authorised under Part I of the Luxembourg law of 17 December 2010 relating to collective investment undertakings (loi concernant les organismes de placement collectif) (the 'Law of 2010'). The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities ('UCITS') under Article 1 paragraph 2, points a) and b) of the Directive 2009/65/EC of 13 July 2009 of the European Parliament and the Council (the 'Directive 2009/65/EC'), and may therefore be offered for sale in European Union ('EU') Member States (subject to registration in EU Member States other than Luxembourg). In addition, applications to register the Fund may be made in other countries.

The Fund has appointed Investec Asset Management Luxembourg S.A. (the 'Management Company') on 30 November 2014, to serve as its designated management company in accordance with the Law of 2010. The Management Company is a public limited company (societe anonyme) incorporated on 8 July 2011 under registration number B 162485. The Management Company has been authorised by the CSSF to manage the business and affairs of the Fund pursuant to Chapter 15 of the Law of 2010. The Management Company has also been authorised by the CSSF as an alternative investment fund manager (an 'AIFM') pursuant to the Law of 2013 on alternative investment fund managers and currently acts as an AIFM to one alternative investment fund.

Notes forming part of the financial statements

1. Principal accounting policies

The following accounting principles have been applied consistently in dealing with items which are considered material in relation to the financial statements of the Fund:

a) Basis of preparation

The financial statements are presented in US Dollars and rounded to the nearest thousand. Where the reference currency of the Sub-Fund is not US Dollars, the presentation is in the reference currency of the Sub-Fund. The financial statements have been prepared in accordance with the Luxembourg law on Undertakings for Collective Investment. The preparation of financial statements requires management to make estimates and assumptions that may affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

b) Presentation of combined totals

The combined totals presented in the financial statements represent the aggregation of all the Sub-Funds net assets and operations in US Dollars. Cross-holdings between Sub-Funds within the Fund have not been eliminated from these totals. On 30 June 2018, the cross Sub-Fund investments represent 0.97% of the combined net assets.

c) Foreign currency translation

Items are recorded in the Fund's records in the relevant reference currency of each Sub-Fund, which includes British Pound Sterling, Euro and US Dollars. These currencies are identified in the Prospectus.

The Fund is presented in US Dollars and the results of the Sub-Funds have been aggregated into US Dollars using the exchange rate ruling at the period-end date for the Statement of Assets and Liabilities and the average rate for the Statement of Operations and the Statement of Changes in Share-holders' Equity. The adjustment in US dollar terms arising from this aggregation is classified as a currency adjustment in the Statement of Changes in Shareholders' Equity. This adjustment has no effect on the value of the net assets allocated to individual Sub-Funds.

Transactions in foreign currencies are translated into the reference currency of the relevant Sub-Fund at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated to the reference currency of the relevant Sub-Fund at the closing exchange rate ruling at the Statement of Assets and Liabilities date. Foreign currency

exchange differences arising on translation and realised gains and losses on disposals or settlements of monetary assets and liabilities are recognised in the Statement of Operations. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to the reference currency of the relevant Sub-Fund at the foreign exchange rate ruling at the dates the values were determined.

Foreign currency exchange differences relating to investments are included in gains and losses on investments. All other foreign currency exchange differences relating to monetary items, including cash and cash equivalents, are presented separately in the note 5 - Net gains/(losses) on investments under caption 'Net realised gain/(loss) on foreign currencies and forward currency contracts'.

d) Valuation of financial Instruments

The value of any cash on hand or on deposit, bills and demand notes, accounts receivable, prepaid expenses, cash dividends and interest declared and accrued as aforesaid, and not yet received, shall be deemed to be the full amount thereof. If the above is unlikely to be paid or received in full, the value thereof shall be determined after making such discount as the Board of Directors may consider appropriate, to reflect the true value thereof.

The value of Transferable Securities and Money Market Instruments and any other assets which are quoted or dealt in on any stock exchange is based on the latest available price. Each Transferable Security and Money Market Instrument and any other assets traded on any Other Regulated Market shall be valued in a manner as similar as possible to that provided for quoted securities.

The fair value of investments is based on their quoted market prices at the Statement of Assets and Liabilities date. Financial assets are priced at current market prices. If a quoted market price is not available on a recognized stock exchange or from a broker/dealer for a non exchange-traded financial instrument, the fair value of the instrument is estimated using valuation techniques. If none of the above methods of valuation are appropriate for any investment or if in any case a particular value is not ascertainable, or if the Directors shall, having first sought appropriate advice, consider that some other method of valuation better reflects the fair value of the relevant investment then in any such case the method of valuation of the relevant investment shall be such as the Directors shall decide having regard to the circumstances and/or the nature of the investment.

Swaps, comprising Interest Rate Swaps and Total Return Swaps, are contracts by which two parties commit themselves during a given period to exchange two flows, one in exchange of the other, determined on the basis of a nominal value. The flows may be linked to interest rate(s), exchange rate(s), share(s), index(es) or credit event(s). Swap contracts are valued using the difference between the values of forecasted flows the counterparty is to pay to the Sub-Fund and those owed by the Sub-Fund to its counterparties.

The value of a credit default swap shall be determined by comparing it to the prevailing market price.

Contracts for Difference are valued based on the closing market price of the underlying security, less any financing charges attributable to each contract. Upon entering into Contracts for Difference, the Fund may be required to pledge to the broker an amount of cash and/or other assets equal to a certain percentage of the contract amount ('initial margin'). Subsequently, payments known as 'variation margin' are made or received by the Fund periodically, depending on fluctuations in the value of the underlying security. During the period the contracts are open, changes in the value of the contracts are recognised as unrealised gains and losses by marking to market at each valuation date in order to reflect the value of the underlying security. Realised gains or losses upon closure of the contract are equal to the difference between the value of the contract at the time it was opened including financial charges and the value at the time it was closed.

The fair value of the forward contracts and futures contracts is estimated as the amount the Sub-Fund would receive or pay to terminate the contract at the Statement of Assets and Liabilities date.

Shares or units of underlying open-ended Undertakings for Collective Investment (UCIs) are valued at their last determined and available Net Asset Value.

Money market instruments with a remaining maturity of less than sixty days are valued at cost plus accrued interest. Money market instruments with a remaining maturity of more than sixty days are valued at their market price.

The liquidation value of futures, forward and options contracts not traded on exchanges or on Other Regulated Markets shall mean their net liquidating value determined, pursuant to the policies established by the Board of Directors. The liquidating value of futures, forward and options contracts traded on exchanges or on Other Regulated Markets shall be based upon the last available settlement prices of these contracts on exchanges and/or Regulated Markets on which the particular futures, forward or options contracts are traded by the Sub-Fund.

The Fund generates income from investments it may hold in the most junior class of securities of CLOs (typically preferred shares or subordinated securities) managed by other asset management companies. These junior class securities are subordinated to senior bond holders who typically receive a fixed rate of return on their investment.

The CLOs are leveraged funds and any excess cash flow or "excess spread" interest earned by the underlying securities in the fund less payments made to senior bond holders and less fund expenses and management fees) is paid to the holders of the CLOs' subordinated securities or preferred shares. The Fund recognizes a portion of these cash payments as interest income based on an expected rate of return through expected maturity, and any excess is then recognized as a return of capital.

For any senior class CLO securities the Fund may hold, interest is earned at a fixed rate or a fixed spread relative to the LIBOR index, and is recognized as interest income on the accrual basis.

e) Fair value adjustments

Events may occur between the determination of an investment's last available price and the determination of a Sub-Fund's Net Asset per Share at the valuation point that may, in the opinion of the Directors, mean that the last available price does not truly reflect the true market value of the investment. In such circumstances, a fair value adjustment factor is applied to the price of such investments in accordance with applicable trigger rules.

f) Swing Pricing

Frequent subscriptions and redemptions can potentially have a dilutive effect on the Fund's NAV per Share and be detrimental to the long term investors as a result of the transaction costs that are incurred by the Fund and/or as a result the acquisition and disposal of shares (price/offer margins, market-appropriate brokerages, commissions, charges etc.) which are included in the calculation of the Net Asset Value. The net amount resulting from the difference between subscriptions and redemptions determines the adjustment of the portfolio and thus the resulting expenses. The transaction costs incurred on the day of trading for subscriptions and redemptions will be paid by the investors who commission these transactions.

As detailed in the Prospectus, in order to mitigate the effect of dilution the Directors may at their discretion adjust the Net Asset Value per Share in the Sub-Funds to take into account the possible effects of dilution. Such adjustment will be made in accordance with criteria set by the Directors from time to time including whether the costs of investing or divesting the net inflows into or outflows from a Sub-Fund on a Business Day will create in their opinion a material dilutive impact. Such adjustments may only be exercised for the purpose of reducing dilution in the Sub-Funds. A periodical review is undertaken in order to verify the appropriateness of the dilution factor being applied.

Swing pricing as at the period-end, if any, is recorded under the Swing adjustment caption of the Statement of Assets and Liabilities and of the Statement of Changes in Shareholders' Equity.

g) Cash and cash equivalents

Cash comprises current accounts as well as term deposits with banks. Cash equivalents are short-term highly liquid

Notes forming part of the financial statements continued

investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of change in value.

h) Interest income

Interest income is recognised in the Statement of Operations as it accrues, using the interest rate of the instrument calculated at the period-end on an effective interest rate basis. Interest income also includes the amortisation of any discount or premium with regards to zero coupon bonds and money market instruments valued at amortised cost, transaction costs or other differences between the initial carrying amount of an interest bearing instrument and its amount at maturity.

i) Dividend income

Dividend income is recognised in the Statement of Operations on the ex-dividend date.

In some cases, the Sub-Fund may receive dividends in the form of additional shares rather than cash. In such cases the Sub-Fund recognises the value of the cash dividend alternative as dividend income.

j) Expenses

All expenses are recognised in the Statement of Operations on an accruals basis. Where formation costs have been incurred, these are capitalised and amortised over a period not exceeding five years.

k) Income and expense allocation

The allocation of income and expenses to each Share Class is based upon the proportion of the Sub-Fund's net assets of each Share Class on the day the income is earned or the expense is incurred.

l) Taxation

The Fund is not subject to any Luxembourg income tax, nor are dividends paid by the Fund subject to any withholding tax.

However, the Fund is liable in Luxembourg to a subscription tax (taxe d'abonnement) of 0.05% per annum, such tax being payable quarterly and calculated on the total Net Asset Value of the respective Class of Share at the end of the relevant quarter.

A reduced tax rate of 0.01% per annum of the net assets will be applicable to the I, J and S Share Classes which are only

sold to and held by Institutional Investors and to all Classes of the U.S. Dollar Money Fund and the Sterling Money Fund. Such tax is payable quarterly and calculated on the net assets of such Class at the end of the relevant quarter.

m) Performance Fees

An annual performance fee in respect of the A, C, F, I, IX, J, JX and Z Share Classes of the Active Commodities Fund may be payable, depending on performance of that Share Class.

The amount of Performance Fee Payable (if any) is calculated and accrued in the Net Asset Value per Share on each Valuation Day, one day in arrears. The accrual can rise as well as fall during a Crystallisation Period, depending on the daily performance of the Share Class in relation to its Hurdle and High Water Mark/Extended Hurdle. The Performance Fee (if any) will become payable by the Share Class annually at the end of the Crystallisation Period. A Crystallisation Period corresponds to the financial year ending 31 December. If a Crystallisation Period commences after 1 January, the Crystallisation Period will be less than 12 months.

The Investment Manager will not refund performance fees to the Sub-Fund(s) after they have been paid at any Crystallisation Point. Performance fees payable as at the period-end, if any, are recorded under the creditor balance of the Statement of Assets and Liabilities and under the Performance Fees caption of the Statement of Operations as disclosed in note 6.

No performance fees were charged during the period for Active Commodities Fund.

2. Equalisation

The Net Asset Value per Share of each Income Share includes a payment for equalisation representing undistributed income accrued since the last ex-dividend date.

Equalisation is a payment by a person who subscribes for Shares, and is calculated by dividing the relevant proportion of the net undistributed income of the Share Classes, by the number of such Shares in issue at the date on which the subscription is made. Equalisation is repaid to the Shareholders on the occurrence of the redemption of the Shares or on the payment of a dividend.

9. Material contracts

The following material contracts have been entered into by the Fund:

- a. A management company services agreement (as amended) between the Fund and the Management Company pursuant to which the Management Company has been appointed as the management company for the Fund. This agreement was entered into for an unlimited period and is terminable by either party upon 90 days' written notice.
- b. An investment management agreement between the Fund, the Management Company and Investec Asset Management Limited pursuant to which the latter acts as investment manager of the Fund. This agreement was entered into for an unlimited period and is terminable by either party upon 90 days' written notice. According to an agreement entered into between the Investment Manager (in its capacity as an RQFII) and Hong Kong and Shanghai Banking Corporation Limited ('HSBC') on or about 22 April 2015 (the 'RQFII Schedule'), the latter has been appointed by the Investment Manager as its directly contracted agent. The RQFII Schedule shall apply in full to all actions taken by HSBC under the RQFII Schedule which are performed by HSBC as the investment manager's directly contracted agent.
- c. An agreement between the Fund and State Street Bank Luxembourg S.C.A. dated 10 May 2016 pursuant to which the latter was appointed Depositary of the assets of the Fund. The agreement was entered into for an unlimited period and may be terminated by either party upon 90 days' written notice provided that no such notice shall take effect until the appointment of a successor to the Depositary. According to the RQFII Schedule entered into between the Investment Manager (in its capacity as an RQFII) and HSBC on or about 22 April 2015, the latter has been appointed by the Investment Manager as the sub-custodian of the assets of the All China Equity Fund, the Asia Local Currency Bond Fund, and the All China Bond Fund Sub-Funds in China. However, the depositary agreement between the Fund and State Street Bank Luxembourg S.C.A. shall apply in full to all actions taken by HSBC under the RQFII Schedule acting in its capacity as sub-custodian of the assets of the above-mentioned Sub-Funds, notwithstanding the direct appointment of HSBC by the Investment Manager of the Fund.
- d. An agreement between the Fund, the Management Company and State Street Bank Luxembourg S.C.A. pursuant to which the latter was appointed Administrator and Domiciliary Agent of the Fund. The agreement was entered into for an unlimited period and may be terminated by either party upon 90 days' written notice.
- e. An agreement between the Fund, the Management Company and Investec Asset Management Guernsey Limited pursuant to which the latter was appointed Global Distributor and Service Provider of the Fund. The agreement was entered into for an unlimited period and may be terminated by either party upon 90 days' written notice.
- f. An agreement between the Fund, the Management Company and RBC Investor Services Bank S.A. dated 8 December 2014 and complemented by an addendum dated 24 May 2018 pursuant to which the latter was appointed Registrar and Transfer Agent of the Fund. The agreement was entered into for an unlimited period and may be terminated by either party upon 90 days' written notice.

Transactions with the Investment Manager, Global Distributor and Service Provider are detailed in note 9.
- Claude Niedner, a Director of the Fund, is a Partner at Arendt & Medernach, who are contracted as Legal Advisers to the Fund. During the period under review, Arendt & Medernach has provided legal services totalling 104,575 EUR to the Fund (inclusive of VAT). As at 30 June 2018, 104,575 EUR was outstanding and due to be paid.
- Gregory David Cremen, a Director of the Fund, provides consultancy services to the Fund, for which he receives 40,000 EUR per annum (exclusive of VAT).
- With the exception of the above (note 10a, 10b and 10c), there were no additional service contracts proposed or in existence between any of the Directors and the Fund.
- With the exception of the above (note 10a, 10b and 10c), there were no contracts of significance during or at the end of the period in which a Director of the Fund is or was initially interested.
- Transactions detailed in point 10a, 10b and 10c have been entered into in the ordinary course of business and on normal commercial terms.

11. Dealing commissions arrangements

From 3 January 2018 the Investment Manager is no longer using dealing commissions for the purchase of research services. Dealing commissions paid will only be for execution services. Research services are now being paid for by the Investment Manager. All commission sharing arrangements were terminated.

12. Ongoing charges

The method for calculation is Total Operating Expenses (not including negative investment income) divided by the average Net Asset Value for the period. This is calculated on a Share Class basis.

Ongoing charges were calculated in accordance with the ESMA's guidelines on the methodology for calculation of the ongoing charges figure in the Key Investor Information Document CESR/10-674, as well as with the ALFI (Association of the Luxembourg Fund Industry) guidelines.

Distribution policy

In determining the distribution policy for any Class of Income Share (whether Inc, Inc-2 or Inc-3), the Board of Directors may determine, as permitted under Luxembourg Law, the extent to which expenses of that Class may be deducted from its income and/or capital account. In particular, the Board of Directors may determine that the distribution policy of any Class of Income Share is to distribute the whole of the income attributable to that Class to Shareholders after the deduction of the Management Fee (as defined in the Prospectus Section 9.1), the Administration Servicing Fee, the Distribution Fee where relevant, the Depositary Fee and all other expenses attributable to that Class of Income Share, or is to distribute the whole of the income attributable to that Class and potentially a portion of capital to Shareholders before deduction of the Management Fee, the Administration Servicing Fee, the Distribution Fee where relevant, the Depositary Fee and all other expenses attributable to that Class of Income Share.

The Board of Directors may also determine if and to what extent distributions may include distributions from both net realised and net unrealised capital gains. Where Classes pay distributions that include net realised capital gains or net unrealised capital gains, or, in the case of Share Classes' which distribute income gross of expenses, dividends may include initially subscribed capital. Shareholders should note that dividends distributed in this manner may be taxable as income, depending on the local tax legislation, and should seek their own professional tax advice in this regard.

As at the June 2018 Prospectus, the Board of Directors has determined that for any Inc Share Class, the distribution policy is to distribute net income. Accordingly, the expenses related to such a Share Class will be deducted from its income account. Where the income generated is insufficient to cover the expenses, the residual expenses shall be deducted from the relevant Share Class' capital account.

As at the June 2018 Prospectus, the Board of Directors has determined that for any Inc-2 Share Class, the distribution policy is to distribute gross income. Accordingly, the expenses related to such a Share Class will be deducted from its capital account. This will have the effect of increasing that Share Class' distributions (which may be taxable) whilst reducing its capital to an equivalent extent. This could constrain future capital and income growth.

As at the June 2018 Prospectus, the Board of Directors has determined that for an Inc-3 Share Class, the distribution policy is to distribute the long term expected level of gross income. The distribution will be calculated at the discretion of the Board of

Directors on the basis of the expected gross income over a given period (such period to be at the Board of Director's discretion) with a view to providing a consistent monthly distribution to Shareholders during such period. The distribution rate for each Inc-3 Share Class will typically be reviewed on a quarterly basis, but at least semi-annually, but may be adjusted more frequently to reflect changes in the portfolio's expected yield. The expenses related to such a Share Class will be deducted from its capital account and may include net realised and net unrealised capital gains. This will have the effect of increasing that Share Class' distributions (which may be taxable) whilst reducing its capital to an equivalent extent. This could constrain future capital and income growth.

For the All China Bond Fund, the Board of Directors has determined that its distributable income may also include any implied yield accrued by certain investments the purchase of which is driven by an income-generating objective (e.g. foreign exchange forward contracts).

The frequency of distributions varies across the different Sub-Funds and Share Classes, the detail of which can be found in the Fund's Prospectus.

Securities Financing Transactions Regulation (SFTR) Disclosures

Over the counter derivative instruments ('OTC derivatives'), transactions are entered into by the Fund/s under an International Swaps and Derivatives Associations, Inc. Master Agreement ('ISDA Master Agreement') or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Fund/s and a counterparty that governs OTC derivative transactions (including total return swaps) entered into by the parties. The parties' exposures under the ISDA Master agreement are netted and collateralised together, therefore any collateral disclosures provided relate to all OTC derivative transactions entered into by the Fund/s under the ISDA Master agreement, not just total return swaps.

All collateral received/posted by the Fund/s under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement. Collateral received is held in an account in the name of the Depository on behalf of the Fund. Collateral received is segregated from the assets belonging to the Fund Depository.

The collateral posted by the Fund under the ISDA Master Agreement that constitutes the Independent Amount is posted by the Fund under a security interest arrangement.

All returns and costs from OTC derivative transactions will accrue to the Fund and are not subject to any returns sharing arrangements with the Fund's manager or any other third parties.

For Total Return Swaps transaction costs are not separately identifiable. For these investments, transactions costs are included in the purchase and sales price and part of the gross investment performance of each Portfolio. Returns are identified as the realized gains and change in unrealized gains on the swap contract during the reporting period.

Other information

Class action

Class action against Volkswagen AG ('the Litigation').

The Litigation relates to the installation by Volkswagen AG of 'defeat software' in vehicles sold worldwide between 2009 and September 2015 ('the Emissions Scandal'). Proceedings (which include statutory and civil law claims) have been brought in the German Courts on behalf of shareholders who acquired Ordinary or Preference Volkswagen shares on any German stock exchange between 1 January 2009 and 18 September 2015 inclusive, and who had not sold all of those shares prior to 21 September 2015, relating to losses as a result of the Emissions Scandal ('the Class Action').

As a shareholder in Volkswagen AG during the relevant period, the Investec Global Strategy Fund, on behalf of the Global Equity Fund, Global Strategic Equity Fund and Global Strategic Managed Fund, is participating as a Claimant in the Class Action.
