No subscriptions can be received on the basis of financial reports. Subscriptions are only valid if made on the basis of the Key Investor Information Document (“KIID”) and the current prospectus accompanied by the annual report or the most recent semi-annual report, if published thereafter.

As of February 28, 2017 the following portfolio of the Fund is not authorized in Hong Kong and not available to Hong Kong residents: Global Bond II Portfolio. Effective October 28, 2016, AB FCP I - Global Growth Trends Portfolio was merged into AB SICAV I - Thematic Research Portfolio and thus not available to Hong Kong residents.

**No notification pursuant to Sec. 310 of the German Capital Investment Code (Kapitalanlagegesetzbuch) has been filed for the following portfolios and the shares in these portfolios may not be marketed to investors in the Federal Republic of Germany:**

**- Global Bond II Portfolio**

BHF Bank Aktiengesellschaft, Bockenheimer Landstrasse 10, 60323 Frankfurt am Main, Germany, acts as Paying and Information Agent (the “German Paying and Information Agent”) of the Fund in the Federal Republic of Germany.

The latest prospectus as well as the Key Investor Information Documents of the Fund, the Articles and the most recent annual and semi-annual reports - each in paper form - may be obtained free of charge at the office of the Germany Paying and Information Agent. The net asset value per share, the issue and redemption prices and any conversion prices as well as any notices to the Shareholders are available free of charge at the office of the Germany Paying and Information Agent.

March 21, 2017

Dear Shareholders,

This report provides an update of AB FCFI (the “Fund”) for the semi-annual reporting period ended February 28, 2017.

Global equities rose during the six-month period ended February 28, 2017 (in US dollar terms). US stocks outperformed, while emerging-market and international equities both delivered solid results. US dollar strength greatly enhanced returns in other currencies.

In the fixed-income markets, global bonds decreased in absolute terms (bond yields move inversely to price). Although emerging-market local-currency government bonds posted negative returns in the period, they outperformed developed-market treasuries that, in turn, finished just ahead of investment-grade credit securities. Global high yield rallied in the period. Developed-market yields rose across the board, while elsewhere they generally fell along the short end of the curve.

US President Donald Trump’s unexpected election victory and first forays into governing strongly impacted markets. Initial

speculation over economic and trade policy changes—as well as inflation—was somewhat overshadowed by a new US travel ban. By the end of the period, questions remained regarding how the president and Congress would approach fiscal stimulus, tax reform and deregulation, yet optimism continued to shine through.

Markets were also influenced by central bank measures. The European Central Bank surprised markets in early December with its decision to reduce the monthly pace of its asset purchase program, though investors were mollified by its pledge for a “sustained presence” in euro-area markets. In contrast, the US Federal Reserve raised official rates in December and signaled a drastic increase in the likelihood of a rate hike in March.

We appreciate your investment in the Fund.

Sincerely,

AllianceBernstein (Luxembourg) S.à r.l., the Management Company of the Fund

The share class performance of each Portfolio is based on the net asset value incorporating the impact of expenses reimbursed or waived by the Management Company as of February 28, 2017. No adjustment has been made for sales charges that may apply when shares are purchased or redeemed. Performance for distributing share classes includes the reinvestment of distributions paid during the period. Past performance is no guarantee of future results. Investment return and principal value may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

\* 6 month period ending February 28, 2017.

\*\* Share class re-designated. See Note A.

Return calculated from inception date on:

- (1) July 27, 2016
- (2) October 13, 2016
- (3) July 8, 2016
- (4) October 20, 2016
- (5) June 24, 2016

- (a) Defaulted.
- (b) Pay-In-Kind Payments (PIK).
- (c) Fair valued as determined in accordance with procedures established by and under the general supervision of the Management Company's Board of Managers.
- (d) Variable rate coupon, rate shown as of February 28, 2017.
- (e) Securities are perpetual and, thus, do not have a predetermined maturity date. The date shown, if applicable, reflects the next call date.
- (f) Floating Rate Security. Stated interest rate was in effect at February 28, 2017.
- (g) Position, or a position thereof, has been segregated to collateralize derivatives.
- (h) Inverse interest only security.
- (i) IO - Interest Only.
- (j) One contract relates to 1 share.
- (k) Effective prepayment date of April 2017.
- (l) The security is subject to a 12 month lock-up period, after which semi-annual redemptions are permitted.
- (m) Effective prepayment date of December 2016.
- (n) Overnight deposit.

Total for Swaps						<u>\$ (64,196,293)</u>

- # Variable interest rate based on the rate of inflation as determined by the Consumer Price Index (CPI).
- (a) Position, or a position thereof, has been segregated to collateralize derivatives.
  - (b) Securities are perpetual and, thus, do not have a predetermined maturity date. The date shown, if applicable, reflects the next call date.
  - (c) Defaulted.
  - (d) Pay-In-Kind Payments (PIK).
  - (e) Floating Rate Security. Stated interest rate was in effect at February 28, 2017.
  - (f) IO - Interest Only.
  - (g) Inverse interest only security.
  - (h) Variable rate coupon, rate shown as of February 28, 2017.
  - (i) Fair valued as determined in accordance with procedures established by and under the general supervision of the Management Company's Board of Managers.
  - (j) The security is subject to a 12 month lock-up period, after which semi-annual redemptions are permitted.
  - (k) Effective prepayment date of April 2017.
  - (l) Overnight deposit.

\*\*\* Less than 0.5.

- (a) Floating Rate Security. Stated interest rate was in effect at February 28, 2017.
- (b) Variable Rate Demand Notes are instruments whose interest rates change on a specific date (such as coupon date or interest payment date) or whose interest rates vary with changes in a designated base rate (such as the prime interest rate). This instrument is payable on demand and is secured by letters of credit or other credit support agreements from major banks.
- (c) Overnight deposit.

# NOTES TO FINANCIAL STATEMENTS

For the period ended February 28, 2017

AB FCP I

## NOTE A: General Information

AB FCP I (named ACMBernstein until February 4, 2016), (the “Fund”) is a mutual investment fund (*fonds commun de placement*) organized under the laws of the Grand Duchy of Luxembourg and registered under Part I of the Law of December 17, 2010 on undertakings for collective investment, as amended (the “Law of 2010”). The Fund is managed in the interest of its co-owners (the “Shareholders”) by AllianceBernstein Luxembourg S.à r.l. (the “Management Company”), a company organized under the laws of the Grand Duchy of Luxembourg and having its registered office in Luxembourg. The Fund qualifies as an Undertaking for Collective Investments in Transferable Securities (“UCITS”) within the meaning of Article 1(2) of the EC Directive 2009/65 of July 13, 2009, as amended.

It was decided by the Board of Managers to approve the merger of AB FCP I – Global Growth Trends Portfolio into AB SICAV I – Thematic Research Portfolio, effective October 28, 2016.

Effective September 14, 2016, AB FCP I – Eurozone Strategic Value Portfolio was renamed AB FCP I – Eurozone Equity Portfolio and AB FCP I – European Value Portfolio was renamed AB FCP I – European Equity Portfolio.

Effective December 15, 2016, all Portfolios of the Fund ceased accepting subscriptions of Class B shares (except for Class BY in AB FCP I – Asia Ex-Japan Equity Portfolio) from investors,

including new and existing investors, though certain exchanges may be permitted in Class B shares (including all variations thereof and corresponding hedged shares) of another Portfolio or other AB fund available in their jurisdiction.

On September 1, 2016 it was resolved by the Board of Managers to approve re-designation of the current class S1 shares of AB FCP I – European Equity Portfolio to class S1X shares, being specified this share classes will continue to be available for purchase only by the existing shareholders of such share classes.

On November 17, 2016 it was resolved by the Board of Managers to reduce the maximum initial sales charges from 6.25% to 5.00% for all class A shares (including all variations and thereof and corresponding hedged shares), effective December 15, 2016.

The Fund comprises separate pools of assets currently consisting of 19 active portfolios (each, a “Portfolio,” and, collectively, the “Portfolios”). Each Class of Shares represents an interest in each relevant Portfolio’s investment securities and other net assets. All Shares of a Class have equal rights to distributions and redemptions.

The following table lists each Portfolio’s commencement of operations as well as Share Classes seeded as of February 28, 2017:

**NOTE B: Significant Accounting Policies**

The Financial Statements have been prepared in accordance with Luxembourg legal and regulatory requirements. The following is a summary of significant accounting policies followed by the Portfolios.

**1. Valuation****1.1 Investments in Securities**

Securities listed on a stock exchange or traded on any other regulated market are valued at the last available price on such exchange or market or, if no such price is available, at the mean of the closing bid and asked price quoted on such day. If a security is listed on several stock exchanges or markets, the last available price on the stock exchange or market which constitutes the main market for such security is used.

Securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at "fair value" as determined in accordance with procedures established by, and under the general supervision of, the Management Company's Board of Managers. Fair valuation procedures are designed to adjust closing market prices of Portfolio securities to reflect what is believed to be the fair value of those securities at the Portfolio's Valuation Point.

When fair valuation procedures are employed with respect to a particular Portfolio security, various objective and subjective factors may be considered, including, among other things, developments affecting the security or involving an entire market since the security's latest reported price, current valuations of relevant stock indices or pronouncements of certain governmental authorities. Fair value prices based on third party vendor modeling tools may be utilized to the extent available. Therefore, when fair valuation procedures are employed, the prices of individual Portfolio securities utilized to calculate the Portfolio's Net Asset Value ("NAV") may differ from quoted or published prices for the same securities. Currently, fair value adjustments are only applicable to certain equity securities and futures contracts.

Accordingly, as may also be the case with a previously reported stock exchange price, the price of any Portfolio security determined utilizing fair value pricing procedures may be materially different from the price to be realized upon the sale of such security.

For Portfolio securities primarily traded on U.S. exchanges, it is expected that fair value pricing procedures are employed only under very limited circumstances such as, for example, the early closing of an exchange on which a particular security is traded or the suspension of trading in a particular security. However, it is anticipated that fair value pricing procedures will be utilized frequently for securities traded on non-U.S. exchanges or other markets, particularly European and Asian markets excluding India, because, among other reasons, these markets close well before the Portfolio's Valuation Point. Between the close of these markets and the relevant Portfolio's Valuation Point, significant events including broad market moves may occur. In particular events in the U.S. market on a trading day after the close of these mother markets may affect the value of the Portfolio's securities. Japan Strategic Value

Portfolio has adopted a policy to only fair value securities when deemed relevant based on the performance of a benchmark and relative capstock flows. The Eurozone Equity Portfolio and the European Equity Portfolio do not currently fair value securities under any circumstances.

Fixed income securities (i), securities not listed on any stock exchange or traded on any regulated market (ii), and securities, trading of which on a stock exchange or a regulated market is thin (iii), are valued at the most recent bid price provided by the principal market makers. If there is no such market price, or if such market price is not representative of a security's fair market value, then the security is valued in a manner determined to reflect its fair value in accordance with procedures established by, and under the general supervision of, the Management Company's Board of Managers.

U.S. Government securities and any other debt instruments having 60 days or less remaining until maturity are generally valued at market by an independent pricing vendor, if a market price is available. If a market price is not available, the securities are valued at amortized cost. This methodology is commonly used for short-term securities that have an original maturity of 60 days or less, as well as short-term securities that had an original term to maturity that exceeded 60 days. In instances when amortized cost is utilized, the Valuation Committee (the "Committee") must reasonably conclude that the utilization of amortized cost is approximately the same as the fair value of the security. Such factors the Committee will consider include, but are not limited to, an impairment of the creditworthiness of the issuer or material changes in interest rates. The Committee decisions are made in accordance with procedures established by, and under general supervision of, the Management Company's Board of Managers.

Over-the-counter ("OTC") swaps and other derivatives are valued daily, primarily using independent pricing services, independent pricing models using market inputs, as well as third party broker-dealers or counterparties.

**1.2 Warrant Valuation**

A listed warrant is valued at the last traded price provided by approved vendors. If there has been no sale on the relevant business day, the warrant is valued at the last traded price from the previous day. On the following days, the security is valued in good faith at fair value. All unlisted warrants are valued in good faith at fair value. Once a warrant has expired, it will no longer be valued.

**1.3 Financial Futures Contracts**

Initial margin deposits are made upon entering into futures contracts. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are made or received, depending upon whether unrealized losses or gains are incurred. When the contract is closed, a realized gain or loss is recorded. This realized gain or loss is equal to the difference between the proceeds from (or cost of) the closing transaction and the Fund's basis in the contract.

Open futures contracts are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuations, the last available closing settlement price is used.

#### **1.4 Forward Foreign Currency Contracts**

The unrealized gain or loss on open forward foreign currency contracts is calculated as the difference between the contracted rate and the rate to close out the contract. Realized profit or loss includes net gains or losses on forward foreign currency contracts which have been settled or offset by other contracts with the same counterparty.

#### **1.5 Options Purchased and Options Written**

When an option is purchased, an amount equal to the premium paid is recorded as an investment and is subsequently adjusted to the current market value of the option purchased. Premiums paid for the purchase of options which expire unexercised are treated on the expiration date as realized losses. If a purchased put option is exercised, the premium is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or loss. If a purchased call option is exercised, the premium increases the cost basis of the security or foreign currency purchased by the relevant Portfolio. When an option is written, an amount equal to the premium received by the relevant Portfolio is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are treated by the relevant Portfolio on the expiration date as realized gains. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or a loss. If a written put option is exercised, the premium reduces the cost basis of the security or foreign currency purchased by the relevant Portfolio. Listed put or call options by a portfolio are valued at the last sale price. If there has been no sale on that day, such securities are valued at the closing bid prices on that day.

#### **1.6 Investments in other UCIs**

Investments in other Undertakings for Collective Investments (“UCIs”) are valued at the last available Net Asset Value for the UCI in question.

#### **1.7 Swap Agreements**

The Portfolios accrue for interim payments on swap contracts on a daily basis, within income and expenses. Swap contracts are marked to market on a daily basis with fluctuations in value recorded in unrealized appreciation (depreciation) on swaps in the Statement of Assets and Liabilities and change in unrealized gains and losses on swaps in the Statement of Operations and Changes in Net Assets. Once a swap contract has matured or is sold, the net amount is recorded as a realized gain or (loss) on investments on the Statement of Operations and Changes in Net Assets. The upfront premiums paid or received are recognized as cost or proceeds on the Statement of Assets and Liabilities and are amortized on a straight line basis over the life of the contract. Accruals of amortized upfront premiums on credit default swaps are included in swap income until the position is sold, thereafter the amortized upfront premiums are included in net realized gains and (losses) from swaps. On all other swap types the amortized upfront premiums are included within net realized gains and (losses) from swaps. Fluctuations in the

value of swap contracts are recorded as a component of changes in unrealized gains and (losses) on swaps on the Statement of Operations and Changes in Net Assets.

“Upfront premiums paid (received) on swap contracts” disclosed in the Statements of Assets and Liabilities include premiums paid (received) on the OTC credit default swaps and a margin that is yet to be settled on the centrally cleared credit default swaps.

#### **2. Organization Expenses**

The organization expenses of all existing Portfolios have been fully amortized in prior years.

#### **3. Allocation Method**

Income and expenses (except for class-specific management and distribution fees) for the “fixed income” and “balanced” Portfolios are allocated on a daily basis utilizing a hybrid allocation model. This model allocates based upon each class’ proportionate percentage of the combined value of settled shares for those classes which accrue a daily dividend and the value of the shares outstanding for those classes which accrue a monthly dividend or no dividend at all. Income and expenses for the “equity” Portfolios are allocated on a daily basis by each class’ value of their proportionate shares outstanding. For all of the Portfolios, realized and unrealized gains and losses are allocated on a daily basis by each class’ value of their proportionate shares outstanding. Class-specific management, management company, distribution fees and realized and unrealized gains and losses on forward foreign currency contracts related to the Currency Hedged Share Classes are charged /allocated directly to the respective class.

Due to the distinct institutional nature of all types of Class S shares of the Portfolios, certain fund expenses, where applicable, are allocated to the respective Class S shares based upon minimum shareholder activity and account level requirements.

#### **4. Currency Translation**

Values expressed in a currency other than the currency in which a Portfolio is denominated as determined by the Management Regulations are translated at the average of the last available buying and selling price. Transactions in foreign currencies are translated into the currency of each Portfolio at the exchange rate ruling at the date of the transactions.

The Combined Statement of Assets and Liabilities is presented in U.S. Dollars at the exchange rates ruling at the date of the combined Statement of Assets and Liabilities, while the Combined Statement of Operations and Changes in Net Assets is presented in U.S. Dollars at the average exchange rates ruling during the period.

Exchange rates applied in the financial statements are: spot rate 1.0573 and average rate 1.0806 for EUR to USD, spot rate 0.0089 and average rate 0.0091 for JPY to USD.

#### **5. Investment Income and Investment Transactions**

Dividend income is recorded on the ex-dividend date. Interest income is accrued daily. Investment gains and losses for the Portfolios are determined on an average cost basis.

The Fund accretes discounts and amortizes premiums as adjustments to interest income. Investment transactions are recorded on trade date plus one day.

## 6. Estimates

The preparation of Financial Statements in conformity with accounting principles generally accepted in Luxembourg requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of income and expenses during the reporting period. Actual results may differ from those estimates.

## 7. Swing Pricing Adjustment

The Management Company of the Fund has communicated to all shareholders of the Fund to implement a Net Asset Value (NAV) Adjustment Policy, also known as “swing pricing” policy effective from November 2, 2015. Under this policy, a Portfolio’s NAV may be adjusted to reflect the impact of estimated transaction costs, deal spreads and charges generated by shareholders’ purchase and redemption activity. Swing pricing is automatically applied when daily net subscriptions or redemptions exceeds a threshold specified by the Board

of Managers. When swing pricing is applied, the NAV of the relevant portfolio’s shares will be adjusted up or down, in an amount generally not to exceed 2% of the relevant NAV, so that the transaction costs incurred due to the purchase and redemption activity are borne by the investors transacting in the portfolio’s shares, rather than the Portfolio itself. This adjustment is intended to minimize dilution of the value of shareholders’ investment in shares of a portfolio brought on by transactions in the Portfolio’s shares.

The net asset value per share as disclosed in the statistical information is the published net asset value per share, whereas the total net assets disclosed in the Statement of Net Assets and Liabilities and Statement of Operations and Changes in Net Assets is the total net asset value excluding any period end swing adjustments.

As of February 28, 2017, none of the Portfolios’ net asset values per share were swung.

## NOTE C: Taxes

As a Luxembourg *fonds commun de placement* (FCP), the Fund is not subject, under present tax laws, to income, withholding or capital gains taxes in Luxembourg. The Fund is subject to the Luxembourg *taxe d’abonnement* at the rate of 0.05% per annum calculated and payable quarterly as the aggregate total net

assets on the last day of each calendar quarter. The rate is 0.01% for share classes reserved to institutional investors within the meaning of Article 174 of the Law of 2010. Interest, dividends and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

## NOTE D: Distributions

Where applicable, distributions paid to shareholders are recorded on the ex-distribution date.

## NOTE E: Management Fee and Other Transactions with Affiliates

The Fund pays AllianceBernstein (Luxembourg) S.à r.l. (the “Management Company”) a management fee. Under the terms of the Investment Management Agreement from the management fee earned, the Management Company pays an investment management fee to AllianceBernstein L.P. (the “Investment Manager”).

The Management Company has voluntarily agreed to bear certain expenses to the extent necessary to limit total operating expenses on an annual basis.

These limitations have been set as follows (limitations expressed as a percentage of the average daily net assets):

The Fund compensates the Investment Manager for certain services provided to the Fund in connection with the registration of the Fund for sale in certain jurisdictions outside of Luxembourg, subject to certain conditions. Such compensation amounted to \$399,432 for the period ended February 28, 2017 and is included in "Professional fees" in the Statement of Operations and Changes in Net Assets.

The Fund compensates its legal adviser, Elvinger Hoss Prussen (of which Mr. Yves Prussen, a manager of the Management Company, is a partner) for legal services rendered to the Fund. Payments of €7,065 were made for the period ended February 28, 2017 and are included in "Professional fees" in the Statement of Operations and Changes in Net Assets.

The Investment Manager has not entered into transactions in relation to a placing and/or a new issue in which a connected person had a material interest as a member of the underwriting syndicate.

All transactions executed on behalf of the Fund were entered into in the ordinary course of business and/or normal commercial terms.

#### **NOTE F: Soft Commission Arrangements and Transaction Costs**

During the period ended February 28, 2017 the Investment Manager received and entered into soft-dollar commissions/arrangements with brokers relating to Portfolios of the Fund that invest in equity securities, in respect of which certain goods and services used to support the investment decision making process were received.

The soft commission arrangements were entered into on the basis that the execution of transactions on behalf of the Fund will be consistent with best execution standards and brokerage rates will not be in excess of customary institutional full-service brokerage rates. The goods and services received include specialist industry, company and consumer research, portfolio and market analysis and computer software used for the delivery of such services. The nature of the goods and services received is such that the benefits provided under the arrangement must be those which assist in the provision of investment services to the Fund and may contribute to an improvement in the Fund's performance.

For the avoidance of doubt, such goods and services do not include travel, accommodations, entertainment, general

There was no commission paid for the period ended February 28, 2017 on securities transactions utilizing the services of the affiliated firms, Sanford C. Bernstein & Co. LLC and Sanford C. Bernstein Ltd. Several of the Fund's directors are employees and/or officers of the Investment Manager and/or its affiliates.

Dynamic Diversified Portfolio invests in AB SICAV I - Low Volatility Equity Portfolio which is managed by the Management Company. China Opportunity Portfolio invests in AB SICAV II – China Equity Portfolio which is managed by the Management Company. Global High Yield Portfolio invests in AB SICAV I - Emerging Market Corporate Debt Portfolio, AB SICAV I - Euro High Yield Portfolio, AB SICAV I – Emerging Market Local Currency Debt Portfolio and AB FCP I - Mortgage Income Portfolio, which are managed by the Management Company. Emerging Markets Debt Portfolio invests in AB SICAV I - Emerging Market Corporate Debt Portfolio which is managed by the Management Company.

administrative goods or services, general office equipment or premises, membership fees, employees' salaries or direct money payments.

Transaction costs are costs incurred in the acquisition, issue or disposal of transferable securities, money market instruments, derivatives or other eligible assets. They can include bid-ask spread, fees and commissions paid to agents, advisers, brokers and dealers, transaction related taxes and other market charges. They do not include debt premiums or discounts, financing costs or internal administrative or holding costs. Transaction costs are included within the cost of investments in the Portfolio of Investments as well as in the net realized gains and (losses) on investments and change in unrealized appreciation and (depreciation) on investments in the Statement of Operations and Changes in Net Assets. Transaction costs are excluded from the Total Expense Ratio and/or expense reimbursement calculation.

For the period ended February 28, 2017, the amount of transaction costs incurred by each Portfolio is detailed in the following table:

<b>AB FCFPI-</b>	<b>Transaction costs</b>
Developed Markets Multi-Asset Income Portfolio .....	\$ 31,417

Global Bond II Portfolio .....	\$ 1,127

**NOTE G: Forward Foreign Currency Contracts**

A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contract and the closing of such contract is included in “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” in the Statement of Operations and Changes in Net Assets.

Fluctuations in the value of open forward foreign currency contracts are reflected for financial reporting purposes as a component of unrealized gains and (losses) on forward foreign currency contracts.

One or more of a portfolio’s share classes offered in a particular currency (each, an “Offered Currency”) may be hedged to such Offered Currency. Any such share class will constitute a “Currency Hedged Share Class”. Currency Hedged Share Classes aim to provide investors a return more closely correlated to the Portfolio’s base currency return by reducing the effect of exchange rate fluctuations between the portfolio’s base currency and the relevant Offered Currency, taking into account practical considerations such as transaction costs.

**NOTE H: Repurchase Agreements**

Repurchase agreements are collateralized by obligations of the United States, its agencies or instrumentalities thereof. The securities underlying the repurchase agreement will be held by

**NOTE I: Reverse Repurchase Agreements**

Reverse repurchase agreements are identical to repurchase agreements except that rather than buying securities for cash subject to their repurchase by the seller, a Fund sells portfolio assets concurrently with an agreement by the Fund to repurchase the same assets at a later date at a fixed price slightly higher than the sale price. During the reverse repurchase agreement period, the Fund continues to receive principal and interest payments on these securities. Generally, the effect of a reverse repurchase agreement is that the Fund can recover all or most of the cash invested in the portfolio securities involved during the term of the reverse repurchase agreement, while it will be able to keep the interest income associated with those portfolio securities.

**NOTE J: Financial Futures Contracts**

The Fund may buy or sell financial futures contracts. The Fund bears the market risk that arises from changes in the value of these financial instruments. The Fund’s activities in financial futures contracts are conducted through regulated exchanges, which do not result in counterparty credit risk.

At the time the Fund enters into a financial futures contract the Fund deposits and maintains with the broker as collateral an initial margin as required by the exchange on which the transaction is effected.

Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as the variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or (loss) equal to the difference between the value of the contract at the time it was opened and the time it was closed.

The hedging strategy employed is designed to reduce, but may not eliminate, currency exposure between the portfolio’s base currency and the relevant Offered Currency. Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the hedged currency.

Given that there is no segregation of liabilities between the various share classes within a portfolio, there is a remote risk that, under certain circumstances, currency hedging transactions in relation to a Currency Hedged Share Class could result in liabilities which might affect the Net Asset Value of the other share classes of the same portfolio, in which case assets of the other share classes of the portfolio may be used to cover the liabilities incurred by such Currency Hedged Share Class.

The securities in the Fund are used as collateral for forward foreign currency contracts including contracts used for share class hedging.

At February 28, 2017, there was no cash collateral held for forward foreign currency contracts.

the Depository at all times in an amount at least equal to the repurchase price, including accrued interest.

At February 28, 2017, there were no repurchase agreements.

Such transactions are advantageous only if the “interest cost” to the Fund of the reverse repurchase transaction, i.e., the difference between the sale and repurchase price for the securities, is less than the cost of otherwise obtaining the cash invested in portfolio securities.

At February 28, 2017, there were no reverse repurchase agreements.

The total interest income arising from reverse repurchase agreements during the period ended February 28, 2017 was \$8,890.

Cash held by/owed to the broker as of February 28, 2017 is recorded as part of “Cash at depositary and broker” and “Due to depositary and broker” in the Statement of Assets and Liabilities.

The following table lists cash held by/owed to the broker as of February 28, 2017.

<b>AB FCFI –</b>	<b>Cash Held by Broker</b>	<b>Cash Owed to Broker</b>

In relation to futures contracts held by the Global High Yield Portfolio as of February 28, 2017 the market value of collateral delivered to Goldman Sachs consisting of U.S. Treasury Bond,

8.00%, 11/15/2021 amounted to \$10,615,804 and U.S. Treasury Bond 8.125% 08/15/2019 amounted to \$5,235,998.

#### **NOTE K: Swap Transactions**

A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset or otherwise determined notional amount. Realized gains and (losses) and changes in unrealized gains and (losses) on swaps are included in the Statement of Operations and Changes in Net Assets respectively under "Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency" and as a component of "Change in unrealized gains and (losses) on swaps".

Cash collateral held by/owed to broker in relation to swap contracts is recorded as part of "Cash at depositary and broker" and "Due to depositary and broker" in the Statement of Assets and Liabilities.

#### **Interest Rate Swaps**

An interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payment based on a notional amount that serves as a computation basis.

#### **Centrally Cleared Interest Rate Swaps**

A centrally cleared interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payment based on a notional amount that serves as a computation basis.

#### **Credit Default Swaps**

The buyer in a credit default swap agreement is obligated to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

#### **Centrally Cleared Credit Default Swaps**

The buyer in a centrally cleared credit default swap agreement is obligated to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

#### **Total Return Swaps**

A total return swap is a bilateral agreement in which each of the parties agree to exchange the total performance of an underlying asset for a series of interest payments based on a notional amount that serves as a computation basis.

#### **Inflation Swaps**

An inflation swap is a bilateral agreement in which each of the parties agree to exchange fixed rate payments for floating, inflation index linked payments based on a notional amount that serves as a computation basis.

The following table lists the cash collaterals held by/owed to broker for its swaps as of February 28, 2017:

### NOTE L: Option Transactions

The Fund may purchase and write (sell) put and call options on securities. The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as Portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the option written.

Premiums received from written options which expire unexercised are recorded by the Fund on the expiration date as realized gains from options written. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium received is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium received

is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option. Exercise of an option written by the Fund could result in the Fund selling or buying a security or currency at a price different from the current market value.

The Fund may also invest in options on swap agreements, also called swaptions. A swaption is an option that gives the buyer the right, but not the obligation, to enter into a swap on a future date in exchange for paying a market-based premium. A receiver swaption gives the owner the right to receive the total return of a specified asset, reference rate, or index. A payer swaption gives the owner the right to pay the total return of a specified asset, reference rate, or index. Swaptions also include options that allow an existing swap to be terminated or extended by one of the counterparties.

As of February 28, 2017, Developed Markets Multi-Asset Income Portfolio had cash amounting to \$1,960,000 held by Morgan Stanley as collateral for its options.

### NOTE M: Loans of Portfolio Securities

A Portfolio may make secured loans of its securities. The risks in lending securities, as with other extensions of credit, consist of possible loss of rights in the collateral should the borrower fail financially. In addition, a Portfolio will be exposed to the risk that the sale of any collateral realized upon the borrower's

default will not yield proceeds sufficient to replace the loaned securities.

In determining whether to lend securities to a particular borrower, the Investment Manager will consider all relevant facts and circumstances, including the creditworthiness of the borrower.

While securities are on loan, the borrower may pay the Portfolio concerned any income from the securities. The Portfolio may invest any cash collateral in money market instruments, thereby earning additional income, or receive an agreed upon amount of income from a borrower who has delivered equivalent collateral.

The Portfolio may have the right to regain record ownership of loaned securities or equivalent securities in order to exercise ownership rights such as voting rights, subscription rights and rights to dividends, interest or distributions. The Portfolio may pay reasonable finders', administrative and other fees in connection with a loan.

For making secured loans of its security, a Portfolio receives gross fee income, of which 20% is paid to the securities lending agent for providing securities lending services.

For the period ended February 28, 2017, the Portfolios earned net fee income as follows:

#### **AB FCP I-**

Global Equity Blend Portfolio .....	\$ 41,350
Global Growth Trends Portfolio .....	\$ 27,224
Global Value Portfolio .....	\$ 42,562

#### **NOTE N: Bank Facility**

The Fund has access to an overdraft facility (the "Facility"), established with the Depositary, intended to provide for short-term/temporary financing if necessary, subject to certain restrictions, in connection with abnormal redemption activity.

Each Portfolio of the Fund is limited to borrowing 10% of its respective net assets. Borrowings pursuant to the Facility are subject to interest at a mutually agreed upon rate and security by the underlying assets of each Portfolio.

#### **NOTE O: Co-Management of Assets**

For the purpose of effective management, where the investment policies of a Portfolio so permit, the Management Company may choose to co-manage assets of certain Portfolios within or outside the Fund. In such cases, assets of different Portfolios will be managed in common. The assets which are co-managed shall be referred to as a "pool". These pooling arrangements are an administrative device designed to reduce operational and other expenses and do not change the legal rights and obligations of Shareholders. The pools do not constitute separate entities and are not directly accessible to investors. Each of the co-managed Portfolios shall remain entitled to its specific assets.

Where assets of several Portfolios are pooled for the purposes of collective management, a record is maintained of the proportion of the Asset Pool which is attributable to each respective participating Portfolio, with a reference to the Portfolio's original participation in this Pool and will change in the event of additional allocation or withdrawals. The entitlements of each participating Portfolio to the co-managed assets apply to each and every line of investments of such pool.

Additional investments made on behalf of the comanaged Portfolios shall be allotted to such Portfolios in accordance with their respective entitlement, whereas assets sold shall be levied similarly on the assets attributable to each participating Portfolio.

As of February 28, 2017 the Fund co-manages the assets of certain Portfolios within the Fund utilizing the following Pools:

<b>Asset Pool</b>	<b>Participating Portfolios</b>
ACM Global Investments-Global Bond Pool .....	Global Bond Portfolio Global Bond II Portfolio
ACM Global Investments-Global Growth Pool .....	Global Equity Blend Portfolio

\* Unaudited. The TER calculation follows the guidelines as outlined by SFAMA 16 May 2008.

\*\* Share class re-designated. See Note A.

\*\*\* For the Total Expense Ratio calculation of the Global High Yield Portfolio the total net assets of the underlying funds managed by the Investment Manager are removed from the computation of the net management fee, management company fee and taxe d'abonnement of the Portfolio to avoid duplicated fees.

(a) Merged into AB SICAV I – Thematic Research Portfolio, effective October 28, 2016. See Note A.

(b) Share class liquidated on February 28, 2017

(c) Share class liquidated on October 19, 2016

(d) Share class liquidated on September 26, 2016

#### Management Fees

(1) 1.70% up to \$1,250,000,000 and 1.50% on the excess of \$1,250,000,000.

(2) 1.20% up to \$1,250,000,000 and 1.00% on the excess of \$1,250,000,000.

(3) 2.15% up to \$1,250,000,000 and 1.95% on the excess of \$1,250,000,000.

(4) 0.90% up to \$1,250,000,000 and 0.70% on the excess of \$1,250,000,000.

(5) 2.00% up to \$300,000,000 and 1.70% on the excess of \$300,000,000.

(6) 2.45% up to \$300,000,000 and 2.15% on the excess of \$300,000,000.

(7) 1.20% up to \$300,000,000 and 0.90% on the excess of \$300,000,000.

(8) 1.70% up to \$5,000,000,000 and 1.50% on the excess of \$5,000,000,000.

(9) 2.15% up to \$5,000,000,000 and 1.95% on the excess of \$5,000,000,000.

(10) 1.15% up to \$5,000,000,000 and 0.95% on the excess of \$5,000,000,000.

(11) 2.25% up to \$5,000,000,000 and 2.05% on the excess of \$5,000,000,000.

**Financial Information on the Fund**

The Fund publishes semi-annual and annual financial reports containing a list of each Portfolio's holdings and their market values as of the end of the relevant half-year.

Please be informed that for Portfolios the base currency of which is the Japanese Yen, the payment of the redemption proceeds (the redemption price less any applicable contingent deferred sales charge) will be made by the Depositary or its agents usually within four Business Days after the redemption request for a given trade has been accepted.

Class SA GB and S1A GB Shares are available only to those UK institutional investors who demonstrate to the satisfaction of the Management Company that they are exempt from withholding tax on U.S.-source dividend income under the relevant tax treaty between the investor's country of tax residence and the United States and agree to provide the Management Company certain other certifications and information to the extent required to establish their eligibility for these shares.

Class SB GB and S1B GB Shares are available only to those UK Institutional Investors who demonstrate to the satisfaction of the Management Company that they entitled to reduced withholding tax of 15% on US-source dividend income under the relevant tax treaty between the investor's country of tax residence and the United States and agree to provide the Management Company certain other certifications and information to the extent required to establish their eligibility for these shares.

Information concerning issue and repurchase prices, purchases and sales of securities, the financial situation of the Fund and copies of annual and semi-annual reports can be requested free of charge from:

BNP Paribas Securities Services, Paris, succursale de Zürich, was authorized by the Swiss Financial Market Supervisory Authority as Swiss representative of the Fund, and also acts as paying agent. The Prospectus, the Management Regulations, the annual and semi-annual reports, as well as the list of the purchases and sales which the Fund has undertaken during the financial year, may be obtained, on simple request and free of charge, at the head office of the Swiss representative, BNP Paribas Securities Services, Paris, succursale de Zürich, Selnaustrasse 16, CH-8002 Zürich, Switzerland.

The Key Investor Information Documents (KIIDs) of the Fund are made available at [www.abglobal.com/go/kiid](http://www.abglobal.com/go/kiid).

**Notice to Shareholders**

If required by law and applicable regulations, notice to shareholders will be published in the *Recueil Electronique des Sociétés et Associations* (formerly the *Mémorial*) and in such other newspaper(s) in such countries as the Management Company may from time to time determine.

**Important Notice****Controversial Weapons Policy**

The Management Company arranges for the screening of companies globally for their corporate involvement in anti-personnel mines, cluster munitions and/or munitions made with

depleted uranium. Where such corporate involvement has been verified, the Management Company's policy is not to permit investment in securities issued by such companies by the Fund.

**Security Financing Transaction Regulation**

The Securities Financing Transaction Regulation (the "SFTR") introduces reporting requirements for securities financing transactions ("SFTs") and total return swaps.

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

As at February 28, 2017, the Fund held securities lending and total return swaps (TRS) as type of instrument in scope of the SFTR. One portfolio – Emerging Markets Debt Portfolio – has entered reverse repurchase agreements during the period.

**Global Data**

The amount of assets across all SFTs and total return swaps as at February 28, 2017 is as follows:

**Global Equity Blend Portfolio**

Type of asset	Amount	% of NAV	% of lendable assets
Securities lending	\$7,825,979	2.35%	5.68%
