Risk and Reward Profile

- Historical data may not be reliable indication for the future.
- The risk category of a Fund is an indicator but not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- Why is the Fund in this specific category?

Investments in equity include significant fluctuations in prices, due for instance on negative information about the issuer or market. Moreover, these fluctuations are often amplified in the short term.

- The higher the risk, the longer the recommended investment horizon.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

- **Liquidity Risk:** This risk arises from the difficulty of selling an asset at a fair market price and at a desired time due to lack of buyers.

For more information on risks, please see the "Investment Risks" section of the Fund's prospectus, which is available at www.asr.nl.
