Features of the Fund

Annual report and audited financial statements as of 31 December 2019

lyske SICAV

Jyske SICAV (hereafter called "the Fund") is a public limited company (société anonyme) incorporated under the laws of the Grand Duchy of Luxembourg as an investment company with variable share capital (société d'investissement à capital variable). The Fund is subject to Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment, as amended or supplemented from time to time.

The Fund is a single legal entity incorporated as an umbrella fund comprised of separate subfunds. Shares in the Fund are shares in a specific subfund. The Fund may issue shares of different share classes in each subfund. Such share classes may each have specific characteristics. Certain share classes may be reserved to certain categories of investors. Investors should refer to the relevant Supplement of the Prospectus for further information on characteristics of share classes.

The Fund has been incorporated in Luxembourg on 5 December 2016. The latest version of the Articles of Association was published in the recueil ectronique des sociétés et associations ("RESA"), the central electronic platform of the Grand-Duchy of Luxembourg on 12 December 2016.

The Fund has appointed UBS Fund Management (Luxembourg) S.A. as its management company in accordance with the provisions of the 2010 Law pursuant to the Management Company Agreement.

UBS Fund Management (Luxembourg) S.A. has been incorporated in Luxembourg on 1 July 2010 in the legal form of a public limited company (société anonyme) for unlimited duration. It is registered with the R.C.S. Luxemburg under number 154 210. Its registered office is in 33A, avenue J.F. Kennedy L-1855 Luxembourg.

The articles of incorporation of the Management Company have been published by reference on 16 August 2010 in the Mémorial C. The consolidated version of the articles of incorporation has been deposited for inspection with the Register of

Trade and Companies (Registre du commerce et des sociétés) in Luxembourg. The corporate object of the Management Company is, inter alia, the management of Luxembourg undertakings for collective investment as well as the issue and redemption of shares of these products. The share capital of the Management Company amounts to EUR 13 000 000 and is fully paid-in.

The financial year of the Fund will begin on 1 January of each year and end on 31 December of the same year.

Currently the Fund offers the following share classes

IC: Capitalisation shares reserved for Institutional Investors

RD: Distribution shares reserved for Retail Investors

RC: Capitalisation shares reserved for Retail Investors

The annual general meeting of shareholders will be held within six (6) months of the end of each financial year in Luxembourg in order to approve the financial statements of the Fund for the previous financial year. The annual general meeting of shareholders will be held at the registered office of the Fund, or at such alternative location in Luxembourg as may be specified in the convening notice of such meeting.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports are available free of charge to shareholders at the registered office of the Fund and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

Investment Manager Report

Annual report and audited financial statements as of 31 December 2019

Jyske SICAV

Jyske SICAV - Danish Bonds

Performance 2019

The institutional share class generated a return of 2.41%, and the retail share class generated a return of 2.24%, in 2019. The return exceeded expectations considering the market conditions and risks, which in our opinion, existed at the beginning of 2019.

2019 was characterised by a falling interest-rate level. At the beginning of the year, the expectation was that a rate hike from the European Central Bank (ECB) was a possibility at the end of the year. The expectations gradually changed to a rate cut, and in September the ECB cut its interest rate by 0.1 percentage point and resumed its programme of asset purchases. In the US, the Federal Reserve (Fed) also cut its rate.

The falling interest-rate level was due to a global slow-down in growth, among other things due to the trade war between the US and China. Another element of uncertainty was the pending Brexit negotiations.

Early in the year, 30-year mortgage borrowing was made in 2% bonds. This changed due to the falling interest-rate level, and in August new series were opened with a coupon of only 0.5%. This meant that 2019 saw historically high refinancing activity. Accordingly, mortgage bonds with a coupon of 2% or higher were hit by high extraordinary redemptions. The new lower yielding bonds were generally met by massive interest from investors. This was not least foreign investors, which again in 2019 increased their holdings of callable mortgage bonds.

Throughout 2019, the fund's assets were primarily invested in Danish government and mortgage bonds. Relative to the benchmark, there was a definite overweight of callable mortgage bonds in particular. Returns on callable bonds were more mixed. High-yielding bonds typically yielded negative returns due to high extraordinary redemptions, while lower yielding bonds yielded high returns due to the falling interest-rate level. By contrast, the share of government bonds was low and investment was extensively in inflation-regulated government bond. These bonds yielded positive returns - despite the low inflation rates.

Performance outlook 2020

For 2020, we still anticipate a low interest-rate level. Offhand, there are no prospects of new monetary policy initiatives from the ECB. The ECB is increasingly focusing on the negative effects of further rate cuts. At the same time, the decision to resume the programme of asset purchases was not unanimous, and several member countries directly opposed the decision.

The ECB has said that the programme of asset purchases will continue until the 2% inflation target is met. We do not expect that the programme of asset purchases or the latest rate cut will significantly change the current European rate of inflation, which is around 1%.

In the US, there are also no further rate cuts priced in. However, another significant element of uncertainty is the ongoing trade war with China, which could have decisive impact on economic growth.

On the Danish mortgage market we expect somewhat more moderate refinancing activity. At the same time, we expect continued massive interest in callable bonds from foreign investors.

Due to the currently low interest-rate level, the returns on developed-market bonds are expected to be moderate in 2020. At the same time, even moderate interest-rate increases may spark a negative return.

As at the end of the Reporting Period, a limited number of cases of an unknown virus had been reported to the World Health Organization. Following the subsequent spread of the virus globally, the World Health Organization declared the COVID-19 outbreak to be a pandemic on 11 March 2020. At present it is not possible to assess the detailed impact, of this emerging risk, on the portfolio but there is growing concern about the impact on the world economy and as a result of this uncertainty the values reflected in these financial statements may materially differ from the value received upon actual sales of those investments. In the light of significant corrections and heightened volatility in the financial markets over the past few weeks, the impact for the Sub-Fund might be important in terms of future valuations of its asset, nevertheless the Board and the Investment Manager continue to observe the efforts of governments to contain the spread of the virus in order to monitor and manage the economic impact on the portfolios and the Fund itself.

Jyske SICAV – Equities Low Volatility

Performance 2019

The institutional share class generated a return of 22.89%, and the retail share class generated a return of 24.31%, in 2019. The return was higher than expected considering the market conditions and risks, which in our opinion, existed at the beginning of 2019.

After a negative equity year in 2018, the positive sentiment returned with full force in 2019 and sent up the global equity market by 26.60% in USD terms. A continued ultra-accommodative global monetary policy and the trade war between the US and China were the most important themes of the year. After having been fought at varying intensity for a long time, there were indications of a softening towards the end of the year, and Donald Trump and Xi Jinping are expected to sign the phase 1 deal in early 2020. In Europe, the fear of a hard Brexit was an important theme, but Boris Johnson's and the Conservative Party's big general election win in the UK in December moderated the market's fears.

The surge in global equity prices was primarily driven by new increases on the US equity market. The broad S&P 500 index closed the year 31% higher at a new record high. Once again the emerging equity markets struggled to follow suit and 'only' gained around 18%. In Europe, the star performers were Switzerland, France, Italy and Denmark with increases of around 30%, while British, German and Spanish equities showed more moderate increases at 21%, 21% and 12% respectively. Japanese equities were up 20%.

Jyske Invest Equities Low Volatility CL was outperformed by the global equity market in 2019. However, it should be mentioned that the fund has a risk which is 15%-20% lower than the global equity market. In view of this defensive profile, we are very satisfied that the performance was able to keep up with the global equity market throughout most of the year, and the fund ended year with an absolute return of 21.82%.

The fund's lower risk was confirmed in May when the positive sentiment from the first four months of the year was replaced by substantial price declines. In May, the relative return was 4.18%, which is the best month in the life of the fund relative to the global equity market. The first four months of the year and the two last months were characterised by a vehement

"risk-on" environment. As a result of this, the cyclical sectors generally outperformed the defensive in 2019, though with the exception that Energy (8.84%) and Materials (16.37%) ended the year as the poorest performing sectors of the year. The top sectors were Information Technology and Consumer Discretionary with returns of 45.07% and 25.91% respectively.

One of the best investments of the year was Taiwan Semiconductor (TSMC), which gained 63.32%. TSMC is a producer of leading edge chips used in, e.g., consumer electronics and thereby benefits from the rising demand for electronic devices and the growing number of chips in devices. As the only independent producer, TSMC also benefits from the trend of outsourcing chip production. The share surged in the second half of the year on expectations that the transition to 5G will create higher demand as of 2020 and on the softening of the rhetoric in the US-China trade war. Among the most falling shares in the fund was Japan Post Holding at a decline of 15.05%. Japan Post Holding operates the Japanese postal service and a bank and owns 68% of the insurance company Japan Post Insurance. In 2019, a probe uncovered improper sales of insurance products at Japan Post Insurance. This prompted the value of the subsidiary to drop 44.05% from April to August, but the share recovered and ended the year down 21.92%. The Financial Supervisory Authority has banned Japan Post Insurance from selling insurance products in the first three months of 2020 and the board of directors has reacted by replacing the CEO.

Performance outlook 2020

Although dark clouds were looming over the equity markets at the beginning of 2019, it was a very positive year for equity investors, and it is of course natural to worry about how long this will last. There are still plenty of clouds out there, but it is once again an open question whether they will come with rain or they will drift away. We do not expect a repetition of 2019. We expect bumps along the way just as in 2019, but we expect the bumps to be more predominant and that the underlying trend will be less positive. Overall, we expect that there is still potential on the equity markets if we are careful.

Among the clouds which keep looming over the equity markets is the US-China trade war. Although phase 1 appears to be settled, phases 2 and 3 contain the most explosive part of the talks. It would be natural that talks covering areas like Chinese state

aid, espionage and intellectual property rights may be sources of turmoil during 2020. But it is most likely going to be a delicate balancing act for especially US president Donald Trump since there is a presidential election in the US in 2020. The trade war, and especially its impact on US consumers, affects the popularity of the president as well as developments on the equity markets.

We believe that businesses are generally in fine shape, but at the same time we are aware that some industrial and export sectors have been impacted by the trade war. The conditions for businesses are generally good with low financing rates and consumers in fine shape. In several places, the supply of labour is a problem which may hinder growth and in the end hold back earnings growth. At the same time, consumers appear to be more conscious and concerned than before the financial crisis, and this may hold back consumption.

We expect that the world's central banks with the European Central Bank (ECB) and the Federal Reserve (Fed) at the helm will still be guarantors of an accommodative monetary policy in 2020. Moreover, we assume that the ECB will continue calling for an expansionary fiscal policy among governments with the economic scope since the ECB is uncertain about the effect of further monetary easing measures.

A small joker for the equity markets in 2020 is the environmental issue. Paradoxically, the issue attracts the most attention in Europe where the environmental problems are smallest in actual fact. We see an accelerating trend among some governments as well as among consumers and businesses. On the one hand, it may hinder growth, but on the other hand it may encourage investments in the area. Not least where the large corporations change their course and demand that the entire value chain does the same. At the same time, it may initiate demand for some company types among investors.

On the one hand, equities may seem expensive not least after sizeable price increases in 2019 while corporate earnings have not increased at the same rate. On the other hand, valuations vary greatly both from region to region and from sector to sector. And the potential for earnings growth in 2020 certainly exists.

The valuations in the equity market must be compared with the other opportunities of investors - and

especially the negative bond yields give investors an incentive to accept higher risk - for the benefit of the valuation in the equity markets. We therefore do not see that the current valuation rules out new price increases - by no means. Especially not if expansive monetary and fiscal policy measures are able to push inflation while the trade war and other political issues do not get out of control.

As at the end of the Reporting Period, a limited number of cases of an unknown virus had been reported to the World Health Organization. Following the subsequent spread of the virus globally, the World Health Organization declared the COVID-19 outbreak to be a pandemic on 11 March 2020. At present it is not possible to assess the detailed impact, of this emerging risk, on the portfolio but there is growing concern about the impact on the world economy and as a result of this uncertainty the values reflected in these financial statements may materially differ from the value received upon actual sales of those investments. In the light of significant corrections and heightened volatility in the financial markets over the past few weeks, the impact for the Sub-Fund might be important in terms of future valuations of its asset, nevertheless the Board and the Investment Manager continue to observe the efforts of governments to contain the spread of the virus in order to monitor and manage the economic impact on the portfolios and the Fund itself.

Jyske SICAV - High Yield Corporate Bonds

Performance 2019

The institutional share class generated a return of 12.93%, and the retail share class generated a return of 12.37%, against a benchmark of 11.33%, in 2019. The return exceeded expectations considering the market conditions and risks, which in our opinion, existed at the beginning of 2019.

The high positive return for the year can partly be ascribed to the current return from the coupon payments and partly to capital gains because credit spreads narrowed throughout 2019. Especially in Q1 spreads narrowed markedly as a response to a very negative Q4 2018.

The positive credit markets were driven by a number of factors. Above all, continued support of the financial markets from the largest central banks contributed to keeping the interest-rate level low and the credit spreads stable. In the autumn, the ECB announced

that it would resume its purchases of government and corporate bonds, which further supported the credit markets.

Other things being equal, the low interest-rate level means that it is cheaper for companies to pay interest on their loans, so the market's assessment is therefore that the default rate will be low, which helps keep the credit spreads at a stable level.

The portfolio's relative return to the benchmark was mainly due to the selection of companies, but also the sector exposure contributed positively, especially the portfolio's overweight in Utilities, Transport and Banks contributed positively.

The largest positive contributions to the relative performance were the positions in Orano (energy infrastructure), Enel (Italian utility company), NextEra Energy (renewable energy), Medical Property Trust (hospitals), Heathrow Airport and Coty (cosmetics).

Performance outlook 2020

With the exception of a short period of time around the 2018-19 changeover, credit spreads have been relatively stable over the past three years. We expect this to continue in 2020, supported by the positive prospects of a trade deal between China and the US and continued support of the financial markets from the world's central banks.

On the whole, it is expected that corporate bonds will generate small positive returns in 2020. If government bond yields rise, it may have a negative spillover effect on corporate bonds and, in that case, possibly generate a negative return, which would, however, be higher than the return on government bonds due to the ongoing higher interest payment.

We expect a wider variation in the underlying credit quality, meaning that some companies will see higher leverage because of an increase in debt and/or falling earnings which may ultimately result in more defaults. However, some companies will still have stable to slightly increasing credit quality, so the company analysis will still be of great importance for creating additional value in the portfolio.

As at the end of the Reporting Period, a limited number of cases of an unknown virus had been reported to the World Health Organization. Following the subsequent spread of the virus globally, the World Health

Organization declared the COVID-19 outbreak to be a pandemic on 11 March 2020. At present it is not possible to assess the detailed impact, of this emerging risk, on the portfolio but there is growing concern about the impact on the world economy and as a result of this uncertainty the values reflected in these financial statements may materially differ from the value received upon actual sales of those investments. In the light of significant corrections and heightened volatility in the financial markets over the past few weeks, the impact for the Sub-Fund might be important in terms of future valuations of its asset, nevertheless the Board and the Investment Manager continue to observe the efforts of governments to contain the spread of the virus in order to monitor and manage the economic impact on the portfolios and the Fund itself.

Jyske SICAV – Investment Grade Corporate Bonds(SRI)

Performance 2019

The institutional share class generated a return of 6.40%, and the retail share class generated a return of 6.11%, against a benchmark of 6.25%, in 2019. The return exceeded expectations considering the market conditions and risks, which in our opinion, existed at the beginning of 2019.

The high positive return for the year can partly be ascribed to the current return from the coupon payments and partly to capital gains because credit spreads narrowed throughout 2019. Especially in Q1 spreads narrowed markedly as a response to a very negative Q4 2018.

The positive credit markets were driven by a number of factors. Above all, continued support of the financial markets from the largest central banks contributed to keeping the interest-rate level low and the credit spreads stable. In the autumn, the ECB announced that it would resume its purchases of government and corporate bonds, which further supported the credit markets.

Other things being equal, the low interest-rate level means that it is cheaper for companies to pay interest on their loans, so the market's assessment is therefore that the default rate will be low, which helps keep the credit spreads at a stable level.

The portfolio's relative return was due to a combination of the sector exposure and the company selection. The portfolio overweight in Utility and Transportation contributed positively to the relative return, while the underweight in Basic Industry and Capital Goods contributed negatively.

The largest positive contributions from the company selection came from the positions in Intesa (Italian bank), AXA (French insurance company), BP Bank of America and Oersted.

Performance outlook 2020

With the exception of a short period of time around the 2018-19 changeover, credit spreads have been relatively stable over the past three years. We expect this to continue in 2020, supported by the positive prospects of a trade deal between China and the US and continued support of the financial markets from the world's central banks.

On the whole, it is expected that corporate bonds will generate small positive returns in 2020. If government bond yields rise, it may have a negative spillover effect on corporate bonds and, in that case, possibly generate a negative return, which would, however, be higher than the return on government bonds due to the ongoing higher interest payment.

We expect a wider variation in the underlying credit quality, meaning that some companies will see higher leverage because of an increase in debt and/or falling earnings which may ultimately result in more defaults. However, some companies will still have stable to slightly increasing credit quality, so the company analysis will still be of great importance for creating additional value in the portfolio.

At present it is not possible to assess the detailed impact, of this emerging risk, on the portfolio but there is growing concern about the impact on the world economy and as a result of this uncertainty the values reflected in these financial statements may materially differ from the value received upon actual sales of those investments. In the light of significant corrections and heightened volatility in the financial markets over the past few weeks, the impact for the Sub-Fund might

be important in terms of future valuations of its asset, nevertheless the Board and the Investment Manager continue to observe the efforts of governments to contain the spread of the virus in order to monitor and manage the economic impact on the portfolios and the Fund itself.

Jyske SICAV - Stable Strategy

Performance 2019

The institutional share class generated a return of 8.41%, and the retail share class generated a return of 7.88%, against a benchmark of 9.28%, in 2019. The return of the share classes was higher than expected considering the market conditions and risks, which in our opinion existed at the beginning of 2019.

Already in the first months of the year it became clear that 2019 could turn out significantly different from 2018 when financial market investors were rudely shaken in the form of rather high negative returns. Although well begun is half done, it turned out that there were hurdles along the way in the form of higher fluctuations in the market due to the trade war and not least the momentum lost in the world economy as a whole.

However, at the end of the year we note that it was actually a good year for investors despite the hardship. Once again US equities led the way with high positive returns, and neither European nor emerging-market equities were able to follow suit. Moreover, a minor strengthening of the dollar made US investments even better for European investors. Generally, we saw a decent narrowing of credit spreads for both corporate and EM bonds, which contributed two-digit returns. Contrary to expectations, developed-market bonds - including especially mortgage bonds - managed to deliver a relatively decent positive return.

Accordingly, the conclusion is that the 2019 investment year will be characterised by the surprisingly high positive returns, which were orchestrated by accommodative central banks in a bid to fight off macroeconomic and political headwinds.

Fed's policy U-turn

The major game changer for 2019 was yet again the Federal Reserve (Fed). Already at the end of 2018, Fed chairman Jerome Powell had to ensure the panicky financial market players that the tight monetary policy course could be abandoned if necessary. As the year progressed, Mr. Powell "delivered" on this

statement. On 3 August, the Fed lowered the interest rate in the US by 0.25% after having verbally supported the financial markets in the first two quarters. Subsequently, the Fed made another two rate cuts of each 0.25%. At the time of writing, the Fed has again adopted a neutral monetary policy course on the basis of the thesis that the past three rate cuts were socalled "insurance" rate cuts to support a temporary slowdown in the economy. Insurance rate cuts or not - the conclusion is crystal clear: together with central banks worldwide the Fed has initially managed to support the economy and the financial markets with an expansionary monetary policy. The financial markets are hence back on the optimistic track, fully confident that the central banks will be ready to provide support in case of grit in the machinery.

Performance outlook 2020

For 2020, we still expect positive returns for our mixed funds containing equities and bonds - yet not as impressive as in 2019. We assess that risky assets will be the primary return driver despite the historically high valuation. This is of course due to the very low interest-rate level on safe bonds. Our main scenario still points to low interest rates in 2020, meaning that the expected return from here will be limited. Consequently, we expect the highest return to go to risky bonds. In 2020, investors will presumably have to be prepared to see wide fluctuations in the market return.

As at the end of the Reporting Period, a limited number of cases of an unknown virus had been reported to the World Health Organization. Following the subsequent spread of the virus globally, the World Health Organization declared the COVID-19 outbreak to be a pandemic on 11 March 2020. At present it is not possible to assess the detailed impact, of this emerging risk, on the portfolio but there is growing concern about the impact on the world economy and as a result of this uncertainty the values reflected in these financial statements may materially differ from

the value received upon actual sales of those investments. In the light of significant corrections and heightened volatility in the financial markets over the past few weeks, the impact for the Sub-Fund might be important in terms of future valuations of its asset, nevertheless the Board and the Investment Manager continue to observe the efforts of governments to contain the spread of the virus in order to monitor and manage the economic impact on the portfolios and the Fund itself.

Subsequent Event

Since the year end we have seen the development of the coronavirus covid-19 outbreak initially in China and now reaching most continents. At present it is not possible to assess the detailed impact of the emerging risk, on the companies in our portfolio but there is growing concern about the impact on the world economy. There has been a significant correction in the financial markets in the last few weeks. The Board and the Manager continue to watch the efforts of governments to contain the spread of the virus and monitor the economic impact, if any, on the companies in our portfolio.

Audit report

To the Shareholders of Jyske SICAV

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Jyske SICAV (the "Fund") and of each of its sub-funds as at 31 December 2019, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 December 2019:
- the statement of investments in securities and other net assets as at 31 December 2019;
- the combined statement of operations for the Fund and the statement of operations for each of the sub-funds for the year then ended;
- the statement of changes in net assets for each of the sub-funds for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and events
 in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements

Annual report and audited financial statements as of 31 December 2019

Jyske SICAV

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the net asset value

The net asset value per share shall be determined by the Administrator as of each Valuation Day (as specified for each subfund in the relevant Supplement of the Prospectus) and at least twice a month. It is calculated by dividing the net asset value of the share class of a subfund by the total number of shares of such share class in issue as of that Valuation Day. The net asset value per share is expressed in the reference currency of the share class and may be rounded up or down to two (2) decimal places.

The net asset value of a share class is equal to the value of the assets allocated to such share class within a subfund less the value of the liabilities allocated to such share class, both being calculated as of each Valuation Day.

The net asset value of a subfund is equal to the value of the assets allocated to such subfund less the value of the liabilities allocated to such subfund, both calculated as of each Valuation Day in the reference currency of the subfund.

b) Valuation principles

- 1) The value of any cash on hand or on deposit, bills or notes payable, accounts receivable, prepaid expenses, cash dividends and interest accrued but not yet received shall be equal to the entire nominal or face amount thereof, unless the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as the Board of Directors may consider appropriate in such case to reflect the true value thereof.
- 2) Transferable Securities and Money Market Instruments which are quoted, listed or traded on an exchange or regulated market will be valued, unless otherwise provided under paragraphs 3) and 6) below, at the last available market price or quotation, prior to the time of valuation, on the exchange or regulated market where the securities or instruments are primarily quoted, listed or traded. Where securities or instruments are quoted, listed or traded on more than one exchange or regulated

- market, the Board of Directors will determine on which exchange or regulated market the securities or instruments are primarily quoted, listed or traded and the market prices or quotations on such exchange or regulated market will be used for the purpose of their valuation. Transferable Securities and Money Market Instruments for which market prices or quotations are not available or representative, or which are not quoted, listed or traded on an exchange or regulated market, will be valued at their probable realisation value estimated with care and in good faith by the Board of Directors using any valuation method approved by the Board of Directors.
- 3) Notwithstanding paragraph 2) above, where permitted under applicable laws and regulations, Money Market Instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. Curve-based valuations are calculated from interest rates and credit spreads. The following principles are applied in this process: the interest rate nearest the residual maturity is interpolated for each Money Market Instrument. Thus calculated, the interest rate is converted into a market price by adding a credit spread that reflects the credit-worthiness of the underlying borrower. This credit spread is adjusted if there is a significant change in the borrower's credit rating.
- 4) Financial derivative instruments which are quoted, listed or traded on an exchange or regulated market will be valued at the last available settlement price or, if such settlement price is not available, at the last available bid price, prior to the time of valuation, on the exchange or regulated market where the instruments are primarily quoted, listed or traded. Where instruments are quoted, listed or traded on more than one exchange or regulated market, the Board of Directors will determine on which exchange or regulated market the instruments are primarily quoted, listed or traded and the closing or settlement prices or quotations on such exchange or regulated market will be used for the purpose of their valuation. Financial derivative instruments for which closing or settlement prices or quotations are not available or representative will be valued at their probable realisation value estimated with care and in good faith by the Board of Directors using any valuation method approved by the Board of Directors.
- 5) Financial derivative instruments which are traded "over-the-counter" (OTC) will be valued daily at their fair market value, on the basis of valuations

provided by the counterparty which will be approved or verified on a regular basis independently from the counterparty. Alternatively, OTC financial derivative instruments may be valued on the basis of independent pricing services or valuation models approved by the Board of Directors which follow international best practice and valuation principles. Any such valuation will be reconciled to the counterparty valuation on a regular basis independently from the counterparty, and significant differences will be promptly investigated and explained.

- 6) Notwithstanding paragraph 2) above, shares or units in target investment funds (including UCITS and UCI) will be valued at their latest available official net asset value, as reported or provided by or on behalf of the investment fund or at their latest available unofficial or estimated net asset value if more recent than the latest available official net asset value, provided that the Board of Directors is satisfied of the reliability of such unofficial net asset value. The Net Asset Value calculated on the basis of unofficial net asset values of the target investment fund may differ from the Net Asset Value which would have been calculated, on the same Valuation Day, on the basis of the official net asset value of the target investment fund. Alternatively, shares or units in target investment funds which are quoted, listed or traded on an exchange or regulated market may be valued in accordance with the provisions of paragraph 2) above.
- 7) The value of any other asset not specifically referenced above will be the probable realisation value estimated with care and in good faith by the Board of Directors using any valuation method approved by the Board of Directors.
- 8) Swing Pricing Methodology

In certain circumstances, subscriptions, redemptions, and conversions in a subfund may have a negative impact on the Net Asset Value per Share. Where subscriptions, redemptions, and conversions in a subfund cause the subfund to buy and/ or sell underlying investments, the value of these investments may be affected by bid/offer spreads, trading costs and related expenses including transaction charges, brokerage fees, and taxes. This investment activity may have a negative impact on the Net Asset Value per Share called "dilution". In order to protect existing or remaining investors from the potential effect of dilution, the Fund may apply a "swing pricing" methodology as further explained below and in the Supplement of the relevant subfund, if applicable. The swing pricing methodology are not expected to apply at the same time to subscription and/or redemption orders in respect of the same Valuation Day except in extraordinary market circumstances as determined by the Board of Directors.

The Fund may apply a so-called "swing pricing" methodology which adjusts the Net Asset Value per Share to account for the aggregate costs of buying and/or selling underlying investments. The Net Asset Value per Share will be adjusted by a certain percentage set by the Board of Directors from time to time for each subfund called the "swing factor" which represents the estimated bid-offer spread of the assets in which the subfund invests and estimated tax, trading costs, and related expenses that may be incurred by the subfund as a result of buying and/or selling underlying investments (called the Swing Factor). As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, the Swing Factor may be different for net subscriptions and net redemptions in a subfund. The Swing Factor will not exceed 2% of the Net Asset Value per Share unless otherwise set out for each subfund in the Supplement. A periodical review will be undertaken in order to verify the appropriateness of the Swing Factor in view of market conditions.

The Board of Directors will determine if a partial swing or full swing is adopted. If a partial swing is adopted, the Net Asset Value per Share will be adjusted upwards or downwards if net subscriptions or redemptions in a subfund exceed a certain threshold set by the Board of Directors from time to time for each subfund (called the Swing Threshold). If a full swing is adopted, no Swing Threshold will apply. The Swing Factor will have the following effect on subscriptions or redemptions:

- on a subfund experiencing levels of net subscriptions on a Valuation Day (i.e. subscriptions are greater in value than redemptions) (in excess of the Swing Threshold, where applicable) the Net Asset Value per Share will be adjusted upwards by the Swing Factor; and
- on a subfund experiencing levels of net redemptions on a Valuation Day (i.e. redemptions are greater in value than subscriptions) (in excess of the Swing Threshold, where applicable) the Net Asset Value per Share will be adjusted downwards by the Swing Factor.

The volatility of the Net Asset Value of the subfund might not reflect the true portfolio performance (and therefore might deviate from the subfund's benchmark, where applicable) as a consequence of the application of swing pricing.

For all subfunds the swing pricing methodology is applied.

If there were swing pricing adjustments to the net asset value at the end of the financial year, this can be seen from the three-year comparison of the net asset value information of the subfunds. The issue and redemption price per share/unit represents the adjusted net asset value.

c) Net realized gain (loss) on sales of securities

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

d) Valuation of forward foreign exchange contracts The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

e) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

f) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate prevailing on the day of acquisition.

g) Receivable on securities sales, Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

h) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

i) Cross subfund investments

As per 31 December 2019 the subfund Jyske SICAV – Stable Strategy had the following investments in other subfunds of Jyske SICAV:

Jyske SICAV – Stable Strategy	Amount in EUR
JYSKE SICAV HIGH YIELD CORPORATE BONDS EUR IC	4 645 622.80
Total	4 645 622.80

As at 31 December 2019, the total of cross subfund investments amounts to EUR 4 645 622.80 and therefore total combined NAV at year-end without cross subfund investments would amount to EUR 320 365 214.97.

j) Combined financial statements

The combined financial statements are expressed in EUR. The various items of the combined statement of net assets and the combined statement of operations at 31 December 2019 of the Company are equal to the sum of the corresponding items in the financial statements of each subfund converted into EUR at the following exchange rates.

The following exchange rates were used for the conversion of the combined financial statements as of 31 December 2019:

Exchange rates					
EUR	1	=	DKK	7.472482	
EUR	1	=	SEK	10.507779	
EUR	1	=	USD	1.122500	

k) Formation expenses

The fees and expenses incurred in connection with the formation of the Fund and the initial subfunds will be borne by Jyske Bank A/S.

Note 2 - Fees and Expenses

Management Company Fee

The Management Company is entitled to receive out of the assets of the Fund an annual Management Company Fee of EUR 20 000 p.a. (on umbrella level). In addition, the Management Company is entitled to receive out of the assets of each subfund an annual Management Company Fee equal to a percentage of the net asset value of each subfund or share class as set-out in the supplement of each subfund in the Prospectus with a minimum annual fee of EUR 17 500 p.a. per subfund. The Management Company Fee is charged to the subfunds on a pro rata basis on each Valuation Day and paid on a monthly basis in arrears to the Management Company. The Management Company is also entitled to reimbursement of reasonable out-of-pocket expenses properly incurred in carrying out its duties.

The Management Company Fee does not cover the fees paid to the Investment Manager and Global Distributor. As at 31 December 2019, the maximum Management Company Fees are as follows:

Jyske SICAV	Maximum Management Company Fee
– Danish Bonds "DKK IC"	0.02% p.a.
– Danish Bonds "EUR RD"	0.02% p.a.
– Equities Low Volatility "EUR RC"	0.02% p.a.
– Equities Low Volatility "USD IC"	0.02% p.a.
– High Yield Corporate Bonds "EUR IC"	0.02% p.a.
– High Yield Corporate Bonds "EUR RD"	0.02% p.a.
– Investment Grade Corporate Bonds(SRI) "EUR IC"	0.02% p.a.
- Investment Grade Corporate Bonds(SRI) "SEK RC	" 0.02% p.a.
– Stable Strategy "EUR IC"	0.02% p.a.
– Stable Strategy "EUR RD"	0.02% p.a.

Management Fee

The Investment Manager and the Global Distributor are entitled to the following fee:

1) The Investment Manager is entitled to receive out of the assets of each subfund an annual fee equal to a percentage of the Net Asset Value of each subfund or Share Class as set-out in the supplement of each subfund in the prospectus. The fee is charged to the subfunds on a pro rata basis on each Valuation Day and paid on a monthly basis in arrears to the Investment Manager.

The fee is paid to the Investment Manager by the Management Company out of the assets of each subfund.

2) The Global Distributor is entitled to receive out of the assets of each subfund an annual fee equal to a percentage of the Net Asset Value of each subfund or Share Class as set-out in the supplement of each subfund in the prospectus. The fee is charged to the subfunds on a pro rata basis on each Valuation Day and paid on a monthly basis in arrears to the Global Distributor.

The fee is paid to the Global Distributor by the Management Company out of the assets of each subfund.

The fee, as set out under 1) and 2) above, paid to the Investment Manager and Global Distributor is set-out as "Management Fee" in the profit and loss accounts and contains the fee for both services. As at 31 December 2019, the maximum Management Fees are as follows:

Jyske SICAV	Maximum Management Fee
– Danish Bonds "DKK IC"	0.275% p.a.
– Danish Bonds "EUR RD"	0.550% p.a.
– Equities Low Volatility "EUR RC"	1.250% p.a.
– Equities Low Volatility "USD IC"	0.625% p.a.
– High Yield Corporate Bonds "EUR IC"	0.475% p.a.
– High Yield Corporate Bonds "EUR RD"	0.950% p.a.
– Investment Grade Corporate Bonds(SRI) "EUR	IC" 0.3125% p.a.
– Investment Grade Corporate Bonds(SRI) "SEK	RC" 0.625% p.a.
– Stable Strategy "EUR IC"	0.450% p.a.
– Stable Strategy "EUR RD"	0.900% p.a.

Fees of the Depositary and the Paying Agent

The Depositary and Paying Agent is entitled to receive out of the assets of each subfund an annual fee equal to a percentage of the net asset value of each subfund or share class subject to a minimum fee per subfund or share class. The Depositary fee is calculated on the net assets value of each subfund, subject to a maximum rate of 0.5% p.a. and subject to a minimum of EUR 20 000 p.a. per subfund. The Depositary fee is charged to the subfunds on a pro rata basis on each Valuation Day and paid on a monthly basis in arrears to the Depositary out of the subfund's assets. Further fees may be payable to the Depositary in consideration of ancillary services rendered to the subfunds and relating to the core services of the Depositary. These fees are paid directly out of the relevant subfund's assets to the Depositary. The Depositary is also entitled to transaction fees charged on the basis of the investments made by each subfund consistent with market practice in Luxembourg. Fees paid to the Depositary may vary depending on the nature of the investments of each subfund and the countries and/or markets in which the investments are made. The Depositary is also entitled to reimbursement of reasonable out-of-pocket expenses properly incurred in carrying out its duties upon approval by the Management Company.

Fees of the Administrator

The Administrator is entitled to receive from the Management Company annual customary fees equal to a percentage of the net asset value of each subfund or share class subject to a minimum fee per subfund or share class. The Administrator fee is calculated by reference to the net asset value of each subfund or share class, subject to a rate of 0.03% p.a. with a minimum of EUR 30 000 p.a. per subfund. The Administrator fee accrues on each Valuation Day and is payable monthly in arrears out of the assets of each subfund to the Management Company. The Management Company transfers such fee to the Administrator. Further fees are payable to the Administrator in consideration of ancillary services rendered to the Fund and relating to the core services of the Administrator. These fees are paid directly out of the Fund's assets to the Administrator. The Administrator is also entitled to reimbursement of reasonable out-of-pocket expenses properly incurred in carrying out its duties upon approval by the Board of Directors of the Fund.

Directors' fees and expenses

The members of the Board of Directors are entitled to receive a fee in consideration for their function. However, members of the Board of Directors who are also directors, officers or employees of manager/promoter or its affiliates are requested to waive their fees. The Fund also reimburses the members of the Board of Directors for appropriate insurance coverage and expenses and other costs incurred by the members of the Board of Directors in the performance of their duties, including reasonable out-of-pocket expenses, traveling costs incurred to attend meetings of the Board of Directors, and any costs of legal proceedings unless such costs are caused by intentional or grossly negligent conduct by the member of the Board of Directors in question. The Fund may also pay fees and expenses to members of any committee established by the Board of Directors.

Other costs

The Fund bears all ordinary operating costs and expenses incurred in the operation of the Fund or any subfund or share class ("Operating and Administra-

tive Expenses") including but not limited to costs and expenses incurred in connection with:

- preparing, producing, printing, depositing, publishing and/or distributing any documents relating to the Fund, a subfund or share class that are required by applicable laws and regulations (such as the Articles of Association, this Prospectus, key investor information documents, financial reports and notices to investors) or any other documents and materials made available to investors (such as explanatory memoranda, statements, reports, factsheets and similar documents);
- other fees in relation to the establishment and launch of the Fund;
- organising and holding general meetings of shareholders and preparing, printing, publishing and/or distributing notices and other communications to shareholders as well as other corporate secretarial services;
- professional advisory services (such legal, tax, accounting, compliance, auditing and other advisory services) taken by the Fund or the Management Company on behalf of the Fund;
- the authorisation of the Fund, the subfunds and share classes, regulatory compliance obligations and reporting requirements of the Fund (such as administrative fees, filing fees, insurance costs and other types of fees and expenses incurred in the course of regulatory compliance), and all types of insurance obtained on behalf of the Fund and/or the members of the Board of Directors:
- initial and ongoing obligations relating to the registration and/or listing of the Fund, a subfund or share class and the distribution of shares in Luxembourg and abroad (such as fees charged by and expenses payable to financial regulators, distributors, correspondent banks, representatives, listing agents, paying agents, fund platforms, and other agents and/or service providers appointed in this context, as well as advisory, legal, and translation costs);
- due diligence fees and fees for the update of procedures charged by the Management Company to the Fund;
- fees for domiciliation and transfer agency services;
- the determination and publication of tax factors for the EU/EEA Member States and/or any other countries where distribution licenses and/or private placements exist, according to the actual expenditure incurred at market rates;
- memberships or services provided by international organisations or industry bodies such as the Association of the Luxembourg Fund Industry (ALFI);
- taxes, charges and duties payable to governments and local authorities (including the Luxembourg annual subscription tax ("Taxe d'Abonnement")

and any other taxes payable on assets, income or expenses) and any value added tax (VAT) or similar tax associated with any fees and expenses paid by the Fund; and

 the reorganisation or liquidation of the Fund, a subfund or share class.

Note 3 – Taxe d'abonnement

According to the law and practice currently in force, the Fund is not liable to any Luxembourg tax on withholding, income, capital gains or wealth taxes. The Fund is, however, liable in Luxembourg to a tax of 0.05% per annum ("Taxe d'Abonnement") of its net asset value, such tax being payable quarterly on the basis of the value of the net assets of the Fund at the end of the relevant calendar quarter or 0.01% per annum for the Classes of shares dedicated to institutional investor as defined from time to time by the Luxembourg laws and regulations.

Note 4 - Commitments on Financial Futures

Commitments on Financial Futures per subfund and respective currency as of 31 December 2019 can be summarised as follows:

Financial Futures

Jyske SICAV	Financial Futures on bonds (bought)	Financial Futures on bonds (sold)	
– Investment Grade Corporate			
Bonds(SRI)	511 470.00 EUR	- EUR	
– Stable Strategy	12 475 029.46 EUR	- EUR	

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts*notional contract size*market price of the futures).

Note 5 – Transaction costs

Transaction costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the fiscal year. Transaction fees are included in the cost of securities purchased and sold.

For the year ended on 31 December 2019, the Fund incurred transaction costs relating to purchase or sale of investments in securities and similar transactions as follows:

Jyske SICAV	Transaction costs
– Danish Bonds	44 803.03 DKK
– Equities Low Volatility	86 049.15 EUR
– High Yield Corporate Bonds	20 917.16 EUR
– Investment Grade Corporate Bonds(SRI)	6 176.20 EUR
– Stable Strategy	60 834.55 EUR

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs will be included in the purchase and sale price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each subfund.

Note 6 - Subsequent Event

As at the end of the Reporting Period, a limited number of cases of an unknown virus had been reported to the World Health Organization. Following the subsequent spread of the virus globally, the World Health Organization declared the COVID-19 outbreak to be a pandemic on 11 March 2020. The identification of the virus after the end of the Reporting Period as a new coronavirus, and its subsequent global outbreak, is considered a non-adjusting subsequent event. At present it is not possible to assess the detailed impact, of this emerging risk, on the portfolios of the Fund but there is growing concern about the impact on the world economy and as a result of this uncertainty the values reflected in these financial statements may materially differ from the value received upon actual sales of those investments. In the light of significant corrections and heightened volatility in the financial markets over the past few weeks, the impact for the Fund might be important in terms of future valuations of its asset, nevertheless the Board and the Investment Manager continue to observe the efforts of governments to contain the spread of the virus in order to monitor and manage the economic impact on the portfolios and the Fund itself.

In addition, there is no indication that the going concern assumption of the Fund is inappropriate.

No other events took place between the end of the Reporting Period and the date of the approval of these financial statements that would require disclosure in or adjustments to the amounts recognized in these financial statements.

Note 7 - Official language

The English version of these financial statements is the authoritative version and only this version was audited by the auditor. However, in the case of Fund shares sold to investors from other countries in which Fund shares can be bought and sold, the Fund and the Depositary may recognize approved translations (i.e. approved by the Fund and the Depositary) into the languages concerned as binding upon themselves.

Note 8 - OTC-Derivatives

If the Fund enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Fund enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Fund is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Fund. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepositary/correspondent bank network may result in the rights or recognition of the Fund in connection with the security to be delayed, restricted or even eliminated, which would force the Fund to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

OTC-Derivatives*

The OTC-derivatives of the below subfunds with no collateral have margin accounts instead.

Subfund	Unrealized gain	Collateral
Counterparty	(loss)	received
Jyske SICAV – Danish Bonds		
UBS AG	137 639.82 DKK	0.00 DKK
UBS Europe SE	0.00 DKK	20 546.50 DKK
Jyske SICAV – High Yield Corporate Bonds		
UBS AG	315 511.29 EUR	0.00 EUR
UBS Europe SE	0.00 EUR	273 121.96 EUR
Jyske SICAV – Investment Grade Corporate Bonds(SRI)		
UBS AG	702.87 EUR	0.00 EUR
UBS Europe SE	0.00 EUR	876.52 EUR
Jyske SICAV – Stable Strategy		
UBS AG	241 749.13 EUR	0.00 EUR
UBS Europe SE	0.00 EUR	223 960.21 EUR

^{*} Derivatives traded on an official exchange are not included in this table as they are guaranteed by a clearing house. In the event of a counterparty default the clearing house assumes the risk of loss.

Unaudited Information

Annual report and audited financial statements as of 31 December 2019

lyske SICAV

1) Global Exposure

Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is applied pursuant to the applicable laws and regulatory provisions.

Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

Subfund	Global risk calculation method
Jyske SICAV – Danish Bonds	Commitment approach
Jyske SICAV – Equities Low Volatility	Commitment approach
Jyske SICAV – High Yield Corporate Bonds	Commitment approach
Jyske SICAV – Investment Grade Corporate Bonds(SRI)	Commitment approach
Jyske SICAV – Stable Strategy	Commitment approach

2) Remuneration Policy and quantitative disclosure

The Board of Directors of UBS Fund Management (Luxembourg) S.A. has adopted a remuneration policy (the "Policy") whose objectives are:

on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the "UCITS Law") transposing the UCITS Directive 2009/65/EC (the "UCITS Directive") as amended by Directive 2014/91/EU (the "UCITS V Directive"),
- (ii) the Alternative Investment Fund Managers Directive ("AIFMD") 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time,

- (iii) the ESMA's guidelines on sound remuneration policies under the UCITS Directive ESMA/2016/575 and ESMA's guidelines on sound remuneration policies under the AIFMD ESMA/2016/579 both published on 14 October 2016 and
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/ EC of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) the CSSF Circular 14/585, transposing the ESMA Guidelines 2013/606 on remuneration policies and practices (MiFID ESMA Guidelines).

and on the other hand, to comply with the UBS AG Remuneration policy framework. The Policy is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management and to be consistent with the UBS Group business strategy, objectives and values.

Further information in relation to UBS AG Remuneration Policy is available in the UBS Group AG Annual Report and in the Compensation report.

More details about the remuneration policy of the Management Company, which describes, but not limited to, how remuneration and benefits are determined, are available at http://www.ubs.com/lu/en/asset_management/investor_information.html

The Policy is subject to an annual review by the control functions of the Management Company after review and update by the Human Resources department; and is approved by the Board of Directors. Last approval by the Board of Directors took place on 20 September 2019. No material changes were made to the Policy.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law, the Management Company is required to disclose at least annually certain information concerning its remuneration policy and the practices for its identified staff.

Unaudited Information

Annual report and audited financial statements as of 31 December 2019

lyske SICAV

The Management Company complies with the aforementioned regulatory provisions in a way and to the extent that is appropriate to its size, internal organization and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, UBS Fund Management (Luxembourg) S.A. judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified staff.

By application of the proportionality principle for the Identified staff, the following requirements on payout processes for Identified staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

Remuneration disclosure

Due to the roles of Management Company staff, the below disclosed remuneration was calculated in proportion of the net assets of the Fund out of the net assets of all the funds under the governance of UBS Fund Management (Luxembourg) S.A. (including both AIF and UCITS funds).

For the fiscal year ending 31 December 2019, the proportional remuneration (fixed and variable) paid by UBS Fund Management (Luxembourg) S.A. to its entire staff amounted to EUR 12 097, of which EUR 661 represented the variable remuneration. The Management Company employed an average of 45.1 staff (full time equivalent) during this period.

The proportional remuneration (fixed and variable) paid by the Management Company to its Identified Staff amounted to EUR 5 331, of which EUR 385 represented the variable remuneration (20 beneficiaries).

Remuneration disclosure of delegates

For the year ending 31 December 2019, the aggregate total remuneration paid by Jyske Bank ("the Investment Manager") to its entire staff amounted to EUR 4 208 053, of which EUR 0 represented the variable remuneration.

The aggregate total remuneration paid by the Investment Manager to its Identified Staff amounted to EUR 79 953, of which EUR 0 represented the variable remuneration.

As at 31 December 2019, the Investment Manager employed 29 staff out of which 0.6 identified staff and managed EUR 22 892 000 000 Asset Under Management ("AUM"), out of which EUR 325 000 000 were represented by the Fund – ie, 1% of the total AUM managed by the Investment Manager.

The proportion allocated to the Fund (calculated on the basis of the weight of the AUM of the Fund out of the total AUM managed by the Investment Manager) of the total remuneration paid by Jyske Bank to its entire staff amounted to EUR 42 081, of which EUR 0 represented the variable remuneration. The pro-rata portion of the total remuneration paid to its identified staff amounted to EUR 800, of which EUR 0 represented the variable remuneration.

3) Transparency of securities financing transactions and their reuse

No securities financing transactions or total return swaps within the meaning of Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 ("SFTR") were used by the Fund. As a result, no disclosures within the meaning of Article 13 of said Regulation need to be made to investors in the annual report.
