DIGITAL FUNDS (the "Fund") is an investment company incorporated on 21 September 1998 and registered in Luxembourg for an unlimited duration as a "société anonyme" with the status of an "Investment Company with Variable Capital" under the Luxembourg law of 17 December 2010 on Collective Investment Undertakings (the "Law" or the "UCI Law") as amended and under the Luxembourg law of 10 August 1915 on Commercial Companies, as amended. The Fund is submitted to Part I of the Law.

The Fund is organized as an "Umbrella Fund". An "Umbrella Fund" is one single entity comprising several subfunds within each of which various classes (the "Class" or the "Classes") of Shares might be launched, for example accumulation shares/distribution shares, different reference currency. Each subfund constitutes a separate portfolio of assets (invested in accordance with the particular investment features applicable to this subfund) and liabilities (referred to hereafter as "subfund" or "subfunds").

The Board of Directors reserves the right to launch new subfunds at any time. The particulars and investment policy of such subfunds are to be communicated through a revised prospectus. Furthermore, the investors may be informed through a newspaper announcement, if deemed appropriate by the Board of Directors. In compliance with the regulations laid down in Chapter 17 "Liquidation and merger of the Fund and its subfunds", the Board of Directors reserves the right to liquidate certain subfunds.

Following an extraordinary general meeting of the shareholders held on 20 December 2011, the Articles of Incorporation of the Fund (the "Articles of Incorporation") were amended in order to have the Fund regulated by the Part I of the amended Luxembourg law of 17 December 2010 on undertakings for collective investment (the "Amendments to the Articles of Incorporation").

The Articles of Incorporation have been published for the first time in the Mémorial C, Recueil des Sociétés et Associations (the "Mémorial") on 4 November 1998. The Articles of Incorporation have been deposited with the Registrar of the Luxembourg District Court. The Amendments to the Articles of Incorporation were published in the Memorial on 19 January 2012. These documents are available for review and copies can be obtained on payment of applicable charges. The Fund is registered at the Luxembourg Register of Commerce under the number B 66.323. The registered office of the Fund is established at 33A avenue J.F. Kennedy, L-1855 Luxembourg. At the time of

incorporation, the corporate capital amounted to FRF 275.000. The capital of the Fund is at all times equal to the total of net assets of the different subfunds and is represented by the issued Shares, without designation of the nominal value and fully paid up. Variations in the capital of the Fund can take place without the need for publication or registration in the Register of Commerce.

As at 30 September 2017, the following subfunds are active:

DIGITAL FUNDS Stars Europe

The objective of DIGITAL FUNDS Stars Europe (referred to herein as the "subfund" or "DIGITAL FUNDS Stars Europe") is to achieve long-term appreciation of its capital and to outperform the broad European markets, through the use of a sophisticated quantitative model to identify the "stars" performers. The subfund's benchmark is the MSCI Europe Small Cap Index despite the fact that the subfund's objective is to outperform Large Caps indices when this segment is favorable to investors.

DIGITAL FUNDS Stars Europe Ex-UK

The objective of DIGITAL FUNDS Stars Europe Ex-UK (referred to herein as the "subfund" or "DIGITAL FUNDS Stars Europe Ex-UK") is to achieve long-term appreciation of its capital and to outperform the broad European markets (excluding United Kingdom), through the use of a sophisticated quantitative model to identify the "stars" performers. The subfund's benchmark is the MSCI Europe Ex-UK Small Cap Index (in USD converted into EUR) despite the fact that the subfund's objective is to outperform Large Caps indices when this segment is favorable to investors.

DIGITAL FUNDS Stars Europe Smaller Companies The objective of DIGITAL FUNDS Stars Europe Smaller

Companies (referred to herein as the "subfund" or "DIGITAL FUNDS Stars Europe Smaller Companies") is to achieve long-term appreciation of its capital and to outperform the European Small Cap markets, through the use of a sophisticated quantitative model to identify the "stars" performers. The subfund's benchmark is the MSCI Europe Small Cap Index.

The financial year of the Fund starts on the first of October and ends on the thirty of September of the next year.

All Classes of Shares are receivable to be listed on the Luxembourg Stock Exchange. The Board of Directors decided on 13 September 2012 to remove all listed share classes from the listing as per 1 January 2013.

The Annual General Meeting of shareholders (the "AGM") is held each year at the registered office of the Fund or at any other address in Luxembourg specified in the notice of meeting. The AGM will be held on the second Wednesday of March at 11:00 a.m. If this date is not a business day in Luxembourg, the AGM will be held on the following business day in Luxembourg.

Each share is entitled to one vote at each general meeting of shareholders and at each meeting of the relevant class. Fractions of shares do not give any voting rights. Any amendment to the Articles of Incorporation involving a variation of the rights of a category of shares will have to be approved by a resolution of a meeting of the shareholders of the Fund and shareholders of the relevant category.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports are available free of charge to shareholders at the registered office of the Fund and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

Directors' Report

Financial markets continued to lack direction in October 2016. The positive effect of the rise in oil prices, following the surprise decision from OPEC to reduce production, was quickly dispelled by other factors: mixed U.S. Statistics (job creation in line with expectations, along with a slight increase to 5% of the unemployment rate) and by a confirmation of the slowdown in China with a net decline in exports and a decline in imports. In addition, Theresa May's speech at the beginning of month, advocating a hard "Brexit", pushed the British Pound to its lowest point since 1985, and this without even considering the level reached during the flash crash of the night of Thursday 6th - Friday 7th October.

In this gloomy environment, financials were well positioned, driven by the prospect of monetary tightening by the Fed in December and bolstered by improved inflation. Investors were also reassured by the probable election of Hillary Clinton, despite the reopening at the end of the month of the investigation into her emails. The publication of the results of US companies was also a good surprise.

Financial markets continued to lack direction in November, but not without excitement along the way! Catalysts were abundant: US election uncertainty, the prospect of rising U.S. interest rates and a sharp decline in the price of oil. It was the announcement of a record increase in U.S crude inventories which triggered a 10% price collapse between 27 October and 3 November. Equities overall reacted positively to the election of Donald Trump, yet in the hours following the result, the decline was significant, during which time havens like precious metals were given a short-lived boost. The positive surprise which reversed the initial trend was the president elect's civilized speeches, in contrast to his outrageous campaign and a pro-business policy (tax cuts, a new public spending plan, more freedom for companies). We have seen a rebound of the cyclicals and financials at the expense of defensive stocks, and a rise of the Dollar and interest rates.

Markets continue to rose in December. The voluntarist and pro-business policy of Donald Trump has changed expectations, raising fears of a return of inflation and leading to a strong rise in U.S. interest rates and of the Dollar. This has led to an arbitrage of bonds in favor of stocks and a boost for financial equities, delivering excellent performances. This year-end rally did not blink when Italians were polled and 60% rejected constitutional reform, triggering the resignation of Matteo Renzi. Far from creating panic, the materialization of

what was seen beforehand as a risk, was once more followed by a positive market response (especially on Italian Banks, despite a massive recapitalization of Unicredit!), investors being confident in the unconditional support by the ECB of the financial sector. The announcement by Draghi of a slight reduction in quantitative easing, whilst extending it until December 2017 (at the earliest) was also welcomed.

DIGITAL FUNDS

At the end, the STOXX Europe 600 had generated a Q4 performance of +5.4% (in euros) and the S&P 500 +3.3% (in USD).

2017 kicked off in a bullish mood, influenced by strong US data: increase of the ISM Manufacturing index and better than expected wages and salaries growth. Then the inauguration of Donald Trump monopolised attention. Despite the protectionism and brutality of his first decisions, the prospect of tax cuts, reductions in regulatory constraints weighing on businesses (including financials), and investment in infrastructure has continued to support financial markets and powered the Dow Jones above 20 000 points. US company results announced for the 4th quarter 2016 were also positive. The intransigence of Theresa May to conduct a hard Brexit has had little impact.

US macroeconomic statistics remained well oriented with unemployment registrations below expectations and significant job creation. Around the world, we observed an increase of growth and inflation forecasts, forgetting totally about the fears of deflation of the previous years. Metal prices increased sharply, returning to levels last seen at the end of 2014. The price of a barrel of Brent has stabilized between 50 and 60 dollars, boosted in February by the announcement that the members of OPEC had, in January, completed 90% of production cuts planned by the agreement signed between producer countries at the end of 2016. To add to this idyllic picture, the protectionist rhetoric of Donald Trump softened towards China and Japan.

Supported early March by Donald Trump's 'normal' speech to Congress (confirming his project of deregulation and tax relief), and by good macroeconomic statistics (American, European and Chinese PMIs above expectations), the financial markets then paused, waiting for monetary policy meetings of the FED and the ECB. If European rates have remained unchanged, banks in the euro area had on March 23rd their last occasion to participate in a T-LTRO. Unsurprisingly, the FED raised its rates mid-March by a quarter-point and is anticipating two new increases in 2017, being

optimistic on growth despite political uncertainties. All of which the markets have appreciated.

End of the month, Trump's inability to unite its majority in Congress to reform Obamacare, sowed confusion, quickly dispelled by the willingness to move on and concentrate on the tax reform. Meanwhile, In Europe, neither the official launch of the Brexit procedure, nor the prospect of a referendum on the independence of Scotland, nor the uncertainties arising from the election campaign in France had real influence. The trend remained bullish with low volatility (the volatility index, VIX, operating within a low range, between 11 and 13).

The STOXX Europe 600 had generated a Q1 2017 performance of +5.5% (in euros) and the S&P 500 +5.5% (in USD).

The markets were hesitant at the beginning of April, affected by geopolitical uncertainties: intervention of Trump in Syria who confirmed his unpredictability, tensions between the United States and North Korea or Russia, delay of Trump's tax reforms and, above all, fear of extreme right or extreme left winning the French presidential election.

What allowed the European markets to regain momentum is the first place in the first round of the French presidential election of Emmanuel Macron, the pro-European and pro-establishment candidate. The CAC 40 jumped 4% the next Monday, the 10-year French rate fell from 0.94% to 0.83% and the Euro broke through the \$1.09 level.

The geopolitical situation became more chaotic during mid-May. By dismissing the Director of the FBI, James Comey, the US president Donald Trump, suspected of wanting to hinder the federal police investigation on possible links between his team and Russia, has triggered a political and media storm. The belief that this may divert Trump from the expectations of investors, particularly tax reform, caused markets to correct strongly. The dollar sank and the Euro broke through the threshold of USD 1.10. Meanwhile, the Brazilian stock exchange lost 10 percent in one day, and the real fell 7% as a result of the corruption scandal affecting the Brazilian president Michel Temer.

We had to wait until June to get the first negative month of the year. The failure of Theresa May to get an absolute majority had only little influence on financial markets, impact was limited to a further decline in the British pound. It was, in fact, concerns about the valuation of US technology stocks which generated the first tremor. NASDAQ, flying from record to record, suffered a sudden downturn on Friday 12th, losing -1.8% on the day (and -2.7% for the S&P 500 Technology focused on the "FAANG"). This triggered a decline of the other markets and particularly their technology sectors (-3.8% for the STOXX Europe 600 Technology by the following Monday). The drop of the oil price also weighed on the trend.

The end of June witnessed pressure on long rates on both sides of the Atlantic. This unnerved the markets somewhat and equities corrected again. Janet Yellen has said that valuations are high, while Mario Draghi has warned that investors should be prepared for monetary policy normalization if the economy continues to recover. And indeed, the Euro zone economies recovery is confirmed. The GDP 2017 is now expected to grow by 1.8% according to strategists.

The STOXX Europe 600 had generated a Q2 2017 performance of -0.5% (in euros) and the S&P 500 +2.6% (in USD).

Pressure on long rates, on both sides of the Atlantic, have worried investors beginning of July. The minutes of the latest ECB rates meeting suggested a less accommodating tone, confirming the normalisation of monetary policy (if the economy continues its recovery) as mentioned in late June by Mario Draghi. The 10-year German Bund, has reached its highest level since 2015, close to 0.6%. These fears on rates, however, were offset by very good indicators of activity. Oil prices recovered due to a decline in U.S. production and stocks. Brent is back above USD 50 a barrel. The mid-July announcement of Janet Yellen, that monetary tightening would be gradual and measured, has reassured investors and markets resumed their upwards momentum. The VIX fell to 9.2%, below the previous record (9.5%) from December 1993. The Euro continued its rise, exceeding USD 1.17, despite the cautious rhetoric of Draghi.

The markets were early August supported by the results announcement of U.S. Companies (74% of them have surprised positively, including Apple) and good macro-economic statistics: the U.S. economy created 209 000 jobs in July whilst analysts were expecting 180 000, U.S. trade deficit lowered and economic growth in the Euro area remained strong during the second quarter at 0.6%. Then the verbal escalation between Donald Trump, who promises

"fire and fury", and North Korea, which has said it is ready to fire missiles at U.S. military facilities on the island of Guam, caused turmoil. The VIX jumped more than 45% exceeding 16%.

In addition, there are doubts in the ability of the president to implement economic reforms. This followed rumors of the resignation of his economic adviser, Gary Cohn, after new controversy born with the drama of Charlottesville, and further to the departure of significant leaders from the advisory committees set up to advise the White House on economic and industrial policy.

The month ended with the Jackson Hole meeting. It did not produce any major announcements, but Fed caution over monetary policy and Mario Draghi's positive speech on Eurozone recovery widened the gap between the dollar and the euro (EUR/USD at 1.20). The Fed's hesitation on additional rate hikes and an unexpected drop in the inflation rate have triggered a fall in long rates and the yield curve flattening, leaving the 30-year Treasury at 2.75%. Monetary policy normalisation is on the agenda worldwide.

Despite rising tensions between North Korea and the United States, financial markets resumed their progress in September. The stocks to the energy sector contributed positively. Oil continued its rebound with the resumption of activity in the Gulf of Mexico refineries affected by Hurricane Harvey and with the rumors that OPEC and its allies would be willing to extend production reductions beyond March 2018. In addition, the International Energy Agency (IEA) revised upward its growth forecast of oil world demand for 2017. The announcement by the US federal reserve of the gradual reduction of the size of its balance sheet (10 billions per month from October for a quarter, then 10 billions more per month each new quarter, to reach the monthly limit of 50 billions per month in a year) and its willingness to proceed with a rates increase in December had little impact on markets ready for monetary policy normalization. The unconvincing victory of Angela Merkel, who needed to build a difficult coalition, and the Catalan referendum have slightly affected the Euro but not the equity market!

The STOXX Europe 600 had generated a Q3 2017 performance of +2% (in euros) and the S&P 500 +4% (in USD).

In this bullish environment, DIGITAL FUNDS Stars Europe, DIGITAL FUNDS Stars Europe Ex-UK and

DIGITAL FUNDS Stars Europe Smaller Companies achieved very positive returns for the fiscal year [30 September 2016-30 September 2017], with an outperformance against small-cap and large-cap indices.

DIGITAL FUNDS Stars Europe is having assets totaling EUR 430.3 Million at 30 September 2017. Over the past fiscal year, this "all cap" subfund returned +22.6% in Euro terms (for the Acc share class) versus +17.5% for MSCI Europe Small Cap and +13.2% for STOXX Europe 600. An excellent stock picking and our overweight Technology and Industrials explains the good performance of the fund.

The last rebalancing selected stocks in the sectors of Industrials, Construction, Healthcare and Air Transport. We sold mainly Insurances. The funds remain positioned on growth stocks; overweight in Technology, Industrials and Healthcare, and underweight in Real Estate, Telecom and Basic Materials. The weight of UK companies in DIGITAL FUNDS Stars Europe slightly increases to 20 percent of the Fund. The exante tracking error remains low at 4.62%, due to reasonable volatility, and beta increased at 1.03.

DIGITAL FUNDS Stars Europe Ex-UK is the first subfund in terms of size (EUR 436.5 Million as of 30 September 2017). During the fiscal year, it returned +25.4% (for the Acc Share class) versus +20.7% for its benchmark MSCI Europe ex UK Small Cap and +19.6% for the Euro STOXX.

The DIGITAL FUNDS Stars Europe Ex-UK fund profile is similar to that of DIGITAL FUNDS Stars Europe. The fund remain positioned on growth stocks; overweight in technology, financials (especially Banks) and underweight in real estate, telecom and basic materials. The ex-ante tracking error of DIGITAL FUNDS Stars Europe Ex-UK remains low at 4.32% due to reasonable volatility, beta is at 1.12.

DIGITAL FUNDS Stars Europe Smaller Companies was launched on December 16th, its AUM is currently EUR 21Mio. Focused on the small and mid caps, the fund displays since launch a performance of +32.2% as of 30 September 2017. The fund remains overweight in IT stocks and Industrials, and underweight in Real Estate, Financials and Materials. The fund is exposed to equities at 99.9%.

The board of directors, 6 October 2017.

Audit report

To the Shareholders of

DIGITAL FUNDS

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of DIGITAL FUNDS and of each of its subfunds (the "Fund") as at 30 September 2017, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the statement of net assets as at 30 September 2017;
- the statement of investments in securities and other net assets as at 30 September 2017;
- the statement of operations for the year then ended:
- the statement of changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under those Law and standards are further described in the "Responsibilities of

the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg T: +352 494848 1, F: +352 494848 2900, www.pwc.lu

Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256) R.C.S. Luxembourg B 65 477 - TVA LU25482518

Responsibilities of the Board of Directors of the Fund and those charged with governance for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control:
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements

Annual Report as of 30 September 2017
DIGITAL FUNDS

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the net asset value

Unless otherwise described under Chapter 1 of the prospectus, the net asset value per share of the individual subfunds (the "Net Asset Value") is calculated on each business day of the Administration Agent (hereinafter called "Valuation Day"). In this context, "business day" refers to the normal bank business day (i.e. each day on which banks are open during normal hours) in Luxembourg, with the exception of individual, non-statutory rest days as well as days on which exchanges in the main countries in which the subfund invests are closed or 50% or more subfund investments cannot be adequately valued. Non-statutory rest days are days on which individual banks and financial institutions are closed. The Net Asset Value of each subfund is equal to the total assets of that subfund less its liabilities. The Net Asset Value of each subfund will be expressed in the currency of the relevant subfund as further described under Chapter 1 of the prospectus (except when there exists any state of affairs which, in the opinion of the Board of Directors, makes the determination in the currency of the relevant subfund either not reasonably practical or prejudicial to the shareholders, the Net Asset Value may temporarily be determined in such other currency as the Board of Directors may determine) and shall be determined in respect of any Valuation Day by dividing the total net assets of the subfund by the number of its shares then outstanding. The Net Asset Value per share of the individual subfunds is calculated on the basis of the last known prices (i.e. closing prices or if such do not reflect reasonable market value in the opinion of the Board of Directors, the last available prices at the time of valuation) on each business day in Luxembourg, unless otherwise described under Chapter 1 of the prospectus.

The total net assets of the Fund are expressed in EUR and correspond to the difference between the total assets of the Fund and its total liabilities. For the purpose of this calculation, the net assets of each subfund, if they are not denominated in EUR, are converted into EUR and added together.

Without prejudice to the regulations of each subfund, the Valuation of each subfund and of each of the different share classes follows the criteria below:

b) Valuation principles

- The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.
- Securities, derivatives and other investments listed on an official stock exchange are valued at the last known market prices. If the same security, derivative or other investment is quoted on several stock exchanges, the last available quotation on the stock exchange that represents the major market for this investment will apply.
 - In the case of securities, derivatives and other investments where trading of these assets on the stock exchange is thin but which are traded between securities dealers on a secondary market using standard market price formation methods, the Fund can use the prices on this secondary market as the basis for the valuation of these securities, derivatives and other investments. Securities, derivatives and other investments that are not listed on a stock exchange, but that are traded on another regulated market which is recognised, open to the public and operates regularly, in a due and orderly fashion, are valued at the last available price on this market.
- Securities and other investments that are not listed on a stock exchange or traded on any other regulated market, and for which no reliable and appropriate price can be obtained, will be valued by the Fund according to other principles chosen by it in good faith on the basis of the likely sales prices.
- The valuation of derivatives that are not listed on a stock exchange (OTC derivatives) is made by reference to independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valuation price obtained will be verified by employing methods of calculation recognised by the Board of Directors and the auditors, based on the market value of the underlying instrument from which the derivative has been derived.

- Units or shares of other undertakings for collective investment in transferable securities ("UCITS") and/ or undertakings for collective investment ("UCI") will be valued at their last Net Asset Value. Certain units or shares of other UCITS and/or UCI may be valued based on an estimate of the value provided by a reliable price provider independent from the target fund's investment manager or investment adviser (Estimated Pricing).
- For money market instruments, the valuation price will be gradually adjusted to the redemption price, based on the net acquisition price and retaining the ensuing yield. In the event of a significant change in market conditions, the basis for the valuation of different investments will be brought into line with the new market yields.
- For subfunds that predominantly invest in money market instruments,
 - (i) securities with a residual maturity of less than 12 months are valued in accordance with the ESMA guidelines for money market instruments;
 - (ii) interest income earned by subfunds up to and including the second valuation date following the valuation date concerned is included in the valuation of the assets of the subfunds concerned. The asset value per share on a given valuation date therefore includes projected interest earnings as at two valuation dates hence.
- Securities, money market instruments, derivatives and other investments that are denominated in a currency other than the currency of account of the relevant subfund and which are not hedged by means of currency transactions are valued at the middle currency rate (midway between the bid and offer rate) obtained from external price providers.
- Time deposits and fiduciary investments are valued at their nominal value plus accumulated interest.
- The value of swap transactions is calculated by the counterpart to the swap transaction and a second independent valuation is made available by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations based on models and market data available from Bloomberg and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the Administrative Agent's Valuation Policy based on market value. This valuation method is recognised by the Board of Directors.

The Fund is entitled to apply other appropriate valuation principles which have been determined by it in good faith and are generally accepted and verifiable by auditors to the Fund's assets as a whole or of an individual subfund if the above criteria are deemed impossible or inappropriate for accurately determining the value of the subfunds concerned due to extraordinary circumstances or events.

In the event of extraordinary circumstances or events, additional valuations, which will affect the prices of the shares to be subsequently issued or redeemed, may be carried out within one day.

c) Net realized gain (loss) on sales of securities The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

d) Valuation of forward foreign exchange contracts
The unrealized gain (loss) of outstanding forward
foreign exchange contracts is valued on the basis of
the forward exchange rates prevailing at valuation
date

e) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

f) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate prevailing on the day of acquisition.

g) Consolidated financial statements

The consolidated financial statements of the Fund are expressed in EUR. The various items of the consolidated statement of net assets and the consolidated statement of operations as of 30 September 2017 of the Fund are equal to the sum of the corresponding items in the financial statements of each subfund.

h) Receivable on securities sales, Payable on securities purchases

The account "Receivable on securities sales" can also include receivables from foreign currency transactions. The account "Payable on securities purchases" can also include payables from foreign currency transactions.

i) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

Note 2 - Charges and Expenses

a) Management Fee DIGITAL FUNDS Stars Europe

The Management Company is entitled to a management fee payable on a monthly basis at the following annual rates of the average net asset values of the subfund during the relevant month:

- Classes "Acc", "GBP", "USD" and "D": 1.50% (excluding taxes).
- Class "R": 2.00% (excluding taxes).
- Class "I": Maximum 1.00% (excluding taxes).

DIGITAL FUNDS Stars Europe Ex-UK

The Management Company is entitled to a management fee payable on a monthly basis at an annual rate of 1.50% (excluding taxes) for Classes "Acc" and "GBP" of the average net asset values of the subfund during the relevant month.

The Management Company is entitled to a management fee payable on a monthly basis at an annual rate of maximum 1.00% (excluding taxes) for Class "I" of the average net asset values of the subfund during the relevant month.

The Management Company is entitled to a management fee payable on a monthly basis at an annual rate of maximum 1.30% (excluding taxes) for

Class "ZAR" of the average net asset values of the subfund during the relevant month.

DIGITAL FUNDS Stars Europe Smaller Companies

The Management Company is entitled to a management fee payable on a monthly basis at the annual rate of 1.50% (excluding taxes) of the average net asset values of the subfund during the relevant month

b) Performance Fee DIGITAL FUNDS Stars Europe

As long as the subfund is in existence, the Management Company will receive within five business days of the last business day of each twelve-month period starting on the last Business Day of September (the "Period") an annual performance fee of 15% for Classes "Acc", "GBP", "USD", "D", "I" and 20% for Classe "R" (excluding taxes) of the net assets (converted in shares classes currency) out performance of the MSCI Europe Small Cap Index (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the subfund during the Period) (the "Performance Index").

For the unhedged Shares classes, the benchmark is converted into Shares class currency.

For the hedged shares classes, the benchmark is hedged against the Shares class currency.

The performance fee is crystallized for redemptions.

The performance fee will be accrued daily and paid out to the Management Company within five business days of the last business day of each Period.

DIGITAL FUNDS Stars Europe Ex-UK

As long as the subfund is in existence, the Management Company will receive within five business days of the last business day of each twelve-month period starting on the last Business Day of September (the "Period") an annual performance fee of 15% (excluding taxes) of the net assets out performance of the MSCI Europe Ex-UK Small Cap Index (converted in Shares classes currency) (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the subfund during

the Period) (the "Performance Index"). As an exception to the above, the Management Company will not receive an annual performance fee on assets invested in the Class "ZAR".

For the unhedged Shares classes, the benchmark is converted into Shares class currency.

For the hedged Shares classes, the benchmark is hedged against the Shares class currency.

The performance fee is crystallized for redemptions.

The performance fee will be accrued daily and paid out to the Management Company within five business days of the last business day of each Period.

DIGITAL FUNDS Stars Europe Smaller Companies
As long as the subfund is in existence, the Management
Company will receive within five business days of the
last business day of each twelve-month period starting
on the last Business Day of September (the "Period")
an annual performance fee of 15% (excluding taxes)
of the net assets out performance of the MSCI Europe
Small Cap Index (or any other suitable index should
this benchmark be replaced or changed upon decision
of the Board of Directors, in such case the CSSF and
investors will be informed prior to the change) during
the Period (adjusted on a pro rata temporis basis for
subscriptions and redemptions made in the subfund
during the Period) (the "Performance Index").

The performance fee is crystallized for redemptions.

The performance fee will be accrued daily and paid out to the Management Company within five business days of the last business day of each Period.

For purposes of applying the performance fee rate, the Management Company begins each twelvemonths period with zero gains. If there is an under performance at the end of the twelve-months period, it will not be carried forward in the following twelvemonths period; under performance means that the net asset value increase or decrease is less than the increase or more than the decrease respectively of the Performance Index.

Performance in net assets means the difference (positive or negative) between the net assets at the end of the Period (after deduction of management fees and other liabilities, but before deduction of current

performance fees and adjusted on a temporary basis for subscriptions and redemptions made during the Period) and the net assets as of the beginning of the Period.

The management fee is paid to the Management Company whether or not the subfund generates a profit.

c) Other Charges and Expenses

The preliminary expenses incurred in the formation of the Fund including:

- the preparation and the publication of the prospectus,
- various fees and taxes to be paid to a Public Notary, tax authorities, (Luxembourg) Stock Exchange,
- printing costs and all other expenses related to the incorporation of the Fund were payable by the Fund from the proceeds of the offering, subject to otherwise provided by the Board of Directors.

Such preliminary expenses will be written off over a period not exceeding five accounting years. The preliminary expenses will only be borne by the subfunds which will be initially launched. Further subfunds will only bear the preliminary expenses relating to their own launching.

The fees and costs of the Depositary and of the Central Administration and Domiciliation Agent are borne by the Fund and shall be those generally charged in Luxembourg with a maximum of 0.25% per annum. They represent an annual percentage of the net assets and are paid on a monthly basis.

The Fund will bear the following operating and administrative expenses: fees and expenses relating to the Fund's permanent representatives in countries where registration fees are due, as well as legal, audit, promotion, printing and publication of sales documents and periodical financial reports fees and expenses as well as expenses relating to agents of the Fund. Costs relating to general meetings of shareholders or of the Board of Directors, travel expenses for administrators and directors, in a reasonable amount; directors' fees, registration fees and all taxes paid to governmental or stock-exchange authorities, as well as publication costs in relation with the issue and redemption of Shares and other expenses, such as financial, bank or broker expenses charged for the selling or buying of assets; and all other administrative expenses are to be considered and taken into account as costs and expenses relating modification of the Articles of Incorporation and the prospectus.

Fees and expenses that can not be attributed to one single subfund will either be ascribed to all subfunds on an equal basis or will be prorated on basis of the Net Asset Value of each subfund, if the amount and cause justify doing so.

Note 3 - Taxe d'abonnement

In accordance with the law and the regulations currently in force, the company is subject in Luxembourg to the subscription tax at the annual rate of 0.05%, or a reduced taxe d'abonnement amounting to 0.01% p.a. for institutional share classes, payable quarterly and calculated on the basis of its net assets at the end of each quarter.

Note 4 - Distribution

DIGITAL FUNDS Stars Europe

This subfund will pursue both an accumulation policy and a distribution policy, as listed below:

- Shares of Class "Acc", "I" and "R" in EUR, Shares of Class "USD" in USD (= accumulation shares), which bring them no rights to distributions. The income attached to these Shares is automatically reinvested.
- Shares of Classes "GBP" and "D" (= distribution shares), which entitle the shareholder to an annual distribution.

For the fiscal year ending 30 September 2016 the following dividend has been paid out to the shareholders:

DIGITAL FUNDS Stars Europe D

Ex-Date	Pay Date	EUR
31.10.2016	3.11.2016	2.81

DIGITAL FUNDS Stars Europe Ex-UK

This subfund will pursue both an accumulation policy and a distribution policy, as listed below:

 Shares of Class "Acc" and "I" in EUR and shares of Class "ZAR" in ZAR (= accumulation shares), which bring them no rights to distributions. The share class ZAR was in circulation until 12 May 2017. The income attached to these shares is automatically reinvested. Shares of Class "GBP" in GBP (= distribution shares), which entitle the shareholder to an annual distribution.

For the fiscal year ending 30 September 2016, no dividend has been paid out to the shareholders.

DIGITAL FUNDS Stars Europe Smaller Companies This subfund will pursue an accumulation policy (no rights to distributions). The income attached to these Shares is automatically reinvested.

Note 5 – Commitments on Financial Futures

Commitments on Financial Futures per subfund and respective currency as of 30 September 2017 can be summarised as follows:

DIGITAL FUNDS	Financial Futures on Indices (bought)	Financial Futures on Indices (sold)
Stars Europe	14 911 920.00 EUR	- EUR
Stars Europe Ex-UK	11 014 080.00 EUR	- EUR

Note 6 - Soft commission arrangements

During the period from 1 October 2016 until 30 September 2017, no "soft commission arrangements" were entered into on behalf of DIGITAL FUNDS and "soft commissions" amount to nil.

Note 7 - Total Expense Ratio (TER)

This ratio was calculated in accordance with the Swiss Funds and Asset Management Association (SFAMA) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

TER for the last 12 months:

	Total Expense	thereof
DIGITAL FUNDS	Ratio (TER)	Performance fee
Stars Europe Acc	2.51%	0.85%
Stars Europe D	2.47%	0.81%
Stars Europe GBP	2.58%	0.93%
Stars Europe I	2.36%	1.26%
Stars Europe R	3.10%	0.94%
Stars Europe USD	2.67%	1.01%

DIGITAL FUNDS	Total Expense Ratio (TER)	thereof Performance fee
Stars Europe Ex-UK Acc	2.50%	0.84%
Stars Europe Ex-UK GBP	2.60%	0.94%
Stars Europe Ex-UK I	1.97%	1.00%
Stars Europe Smaller Companies Acc	2.85%	1.71%

TER for classes of shares which were active less than a 12 month period are annualised.

Transaction costs and any other costs incurred in connection with currency hedging are not included in the TER.

Note 8 - Transaction costs

Transaction costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the period. Transaction fees are included in the cost of securities purchased and sold.

For the financial year ended on 30 September 2017, the Company incurred transaction costs relating to purchase or sale of investments in securities and similar transactions as follows:

DIGITAL FUNDS	Transaction costs
Stars Europe	1 049 124.73 EUR
Stars Europe Ex-UK	726 633.30 EUR
Stars Europe Smaller Companies	63 828.87 EUR

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs will be included in the purchase and sale price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each subfund.

Note 9 – Official language

The English version of these financial statements is the authoritative version and only this version was audited by the auditors. However, in the case of Fund shares sold to investors from other countries in which Fund shares can be bought and sold, the Fund and the Depositary may recognize approved translations (i.e. approved by the Fund and the Depositary) into the languages concerned as binding upon themselves.

Note 10 – OTC Derivatives and Securities Lending

If the Fund enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Fund enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Fund is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Fund. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepositary/correspondent bank network may result in the rights or recognition of the Fund in connection with the security to be delayed, restricted or even eliminated, which would force the Fund to fulfil its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Securities lending income and costs are shown separately in the Statement of Operations. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

OTC-Derivatives*

The OTC-derivatives of the below subfunds with no collateral have margin accounts instead.

Subfund Counterparty	Unrealized gain (loss)	Collateral received
DIGITAL FUNDS Stars Europe		
UBS AG	-41 960.03 EUR	15 083.73 EUR

^{*} Derivatives traded on an official exchange are not included in this table as they are guaranteed by a clearing house. In the event of a counterparty default the clearing house assumes the risk of loss.

Unaudited Information

Annual Report as of 30 September 2017

1) Global Exposure

Risk management

Commitment approach is applied in accordance with the applicable laws and regulatory provisions.

Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

Subfunds	Global risk calculation method
DIGITAL FUNDS Stars Europe	Commitment approach
DIGITAL FUNDS Stars Europe Ex-UK	Commitment approach
DIGITAL FUNDS Stars Europe Smaller Companies	Commitment approach

2) Remuneration Policy and quantitative disclosure

The remuneration policy of the Management Company is consistent with and promotes sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile, rules or instruments of incorporation of the Fund managed.

The remuneration policy reflects the Management Company's objectives for good corporate governance as well as sustained and long-term value creation for the shareholders. The remuneration policy has been designed and implemented to:

- support actively the achievement of the Management Company's strategy and objectives;
- support the competitiveness of the Management Company in the markets it operates;

- be able to attract, develop and retain highperforming and motivated employees; and
- address any situations of conflicts of interest. For that purpose, the Management Company has implemented and maintains an adequate management of conflicts of interest policy.

Employees of the Management Company are offered a competitive and market-aligned remuneration package making fixed salaries a significant component of their total package. Moreover, the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the investors of the Fund in order to ensure that the assessment process is based on the longer-term performance of the Fund and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period.

The Management Company complies with the remuneration principles described above in a way and to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities. Moreover, the principles of the remuneration policy are reviewed on a regular basis and adapted to the evolving regulatory framework. The remuneration policy has been approved by the Board of directors of the Management Company.

For the Management Company fiscal year ending 31 December 2016, the aggregate total remuneration paid by J.Chahine Capital to all management company staff amounted to EUR 866 739 of which EUR 264 625 represented the variable remuneration.

The Management Company employed an average of 87 staff (full time equivalent) during this period. The aggregate total remuneration paid by J.Chahine Capital to the "Identified staff" amounted to EUR 472 062.

4) Securities Financing Transaction Regulation (SFTR)

The Fund engages in Securities Financing Transactions (hereafter "SFT") (as defined in Article 3 of Regulation (EU) 2015/2365). Securities Financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions through its exposure on reverse repurchase agreements during the year. In accordance with Article 13 of the Regulation, information on securities lendings are detailed below:

Global Data

The following table details the value of securities lending as a proportion of the subfund's Net Assets Value as well as a proportion of the total lendable securities, as at 30 September 2017.

DIGITAL FUNDS	Securities lent in % of Net Assets	Securities lent in % of Total Lendable Securities
Stars Europe	33.31%	34.50%
Stars Europe Ex-UK	27.18%	27.85%
Stars Europe Smaller Companies	22.29%	22.32%

The total amount (absolute value) of the securities lent is disclosed in Note 10 - OTC Derivatives and Securities Lending.
