

Institutional US Dollar Liquidity Fund

A sub-fund of Institutional Cash Series plc

Class Select Accumulating USD

ISIN: IE00B40G7Q05

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Fund aims to maximise income on your investment consistent with maintaining capital and ensuring its underlying assets can easily be bought or sold in the market (in normal market conditions). It will do this by maintaining a portfolio of high quality short term money market instruments (MMIs).
- ▶ The Fund invests in a broad range of fixed income securities (such as bonds) and MMIs (i.e. debt securities with short term maturities). It may also invest in deposits with credit institutions (e.g. banks).
- ▶ The Fund's assets may be issued or guaranteed by United States (US) or non-US issuers including governments, government agencies, companies and supranationals (e.g. the International Bank for Reconstruction and Development) and shall always be denominated in US Dollars. They will be rated high quality (i.e. meet a specified level of credit worthiness) at the time of purchase.
- ▶ The Fund will limit its investment to assets which have 397 days or less remaining until the full principal must be repaid. The average time to the date that the full principal must be repaid, or if earlier in the case of floating rate securities, the date of the next interest rate reset of all the Fund's assets will be up to 60 days. The average time until the full principal must be repaid on all the Fund's assets will be up to 120 days. To calculate these averages, figures are adjusted to reflect the relative holdings of each of the Fund's assets.
- ▶ The Fund may also enter into reverse repurchase agreements on a short term basis to generate additional income. Through these, the Fund agrees to purchase securities from certain eligible third parties for cash and that the seller can buy these back at an agreed time and price.
- ▶ The investment manager has discretion to select the Fund's investments.
- ▶ The Fund is a "Short Term Money Market Fund" as defined by the European Securities and Markets Authority. Details of the current credit ratings (if any) attributed to the Fund are available from www.blackrock.com/cash.
- ▶ Recommendation: This Fund may not be suitable for investors who seek long-term capital growth.
- ▶ Your shares will be accumulating shares (i.e. dividend income will be included in their value).
- ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
- ▶ You can buy and sell your shares daily. The minimum initial investment for this share class is US\$250,000,000.
