# DCI UMBRELLA FUND PLC BACKGROUND TO THE COMPANY

DCI Umbrella Fund Plc ("the Company") is an open-ended variable capital investment company with segregated liability between funds, incorporated in Ireland on 28 April 2005 under the Companies Act 2014 with registration number 401418. The Company has been authorised by the Central Bank of Ireland pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 (the "Central Bank UCITS Regulations"). Copies of the Prospectus, Simplified Prospectus and Key Investor Information Documents ("KIIDs"), the Memorandum and Articles of Association of the Company and once published, the latest annual and half yearly reports of the Company, may be obtained free of charge from the Administrator.

The Company is structured as an umbrella fund consisting of different funds each comprising one or more classes. The shares of each class of a fund will rank pari passu with each other in all respects provided that they may differ as to certain matters including currency of denomination, interest rate risk profile, hedging strategies if any applied to the currency or interest rate risk profile of a particular class, dividend policy, the level of fees and expenses to be charged, subscription or redemption procedures or the Minimum Subscription and Minimum Holding applicable. The assets of each fund will be invested separately on behalf of each fund in accordance with the investment objective and policies of each fund. A separate portfolio of assets is not maintained for each class.

The first fund of the Company is DCI Investment Grade Corporate Bond Fund (UCITS). The fund commenced operations on 28 August 2005. The fund currently has share classes with an "Index Duration" Profile denominated in various currencies.

The second fund of the Company is DCI Global Investment Grade Corporate Bond Fund (UCITS). The fund commenced operations on 13 December 2011. The fund currently has share classes with an "Index Duration" Profile and a "Zero Duration" Profile denominated in various currencies.

The third fund of the Company is DCI Enhanced Investment Grade Corporate Credit Fund (UCITS). The fund commenced operations on 15 July 2008. The fund currently has share classes with an "Index Duration" Profile and a "Zero Duration" Profile denominated in various currencies.

The fourth fund of the Company is DCI Market Neutral Credit Fund (UCITS). The fund commenced operations on 2 July 2012. The fund currently has share classes denominated in various currencies.

The fifth fund of the Company is DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS). The fund commenced operations on 15 February 2013. The fund currently has share classes with an "Index Duration" Profile and a "Zero Duration" Profile denominated in various currencies.

The sixth fund of the Company is DCI High Yield Corporate Bond Fund (Feeder). The fund commenced operations on 2 December 2016. DCI High Yield Corporate Bond Fund (Feeder) invests substantially all its assets in its master fund, DCI High Yield Corporate Bond Fund (ICAV), a sub-fund of DCI UCITS ICAV. The fund currently has share classes with an "Index Duration" Profile and a "Zero Duration" Profile denominated in various currencies.

As at 31 December 2016, the following share classes were in issue:

# **Investment Objective and Policies**

# **DCI Investment Grade Corporate Bond Fund (UCITS)**

The investment objective of DCI Investment Grade Corporate Bond Fund (UCITS) (the "IG Corporate Bond Fund") is to produce returns, net of fees and expenses, above the Barclays U.S. Intermediate Corporate Bond Index (the "Index"), adjusted for the differential in return between the return (if any) on the Interest Rate Profile of the Index and the return on Interest Rate Profile and currency denomination of the particular share class. The IG Corporate Bond Fund currently has share classes with an Index Duration Profile only. There can be no assurance that the IG Corporate Bond Fund will achieve its investment objective.

#### **Investment Objective and Policies (continued)**

# DCI Investment Grade Corporate Bond Fund (UCITS) (continued)

The IG Corporate Bond Fund seeks to achieve its investment objective by investing in a portfolio of exposures to the credit risk of companies with equity listed on recognised exchanges, applying a quantitatively driven approach to asset selection and portfolio constitution. The IG Corporate Bond Fund employs portfolio diversification controlled by active risk assessment and portfolio management. An additional element of return is expected to be achieved by investing in attractively priced corporate credit assets and derivatives and avoiding unattractively priced exposures as perceived by the Investment Manager.

The Investment Manager manages the IG Corporate Bond Fund's investments by investing primarily, at all times, at least two thirds of its total assets in a diversified portfolio of corporate bonds, notes and commercial paper (primarily fixed rate) issued by companies and credit default swaps ("CDS") on the credit risk of such companies. The IG Corporate Bond Fund will not invest in credit default swaps referencing sovereign debt. The IG Corporate Bond Fund may invest on a temporary basis more than one-third of its total assets in monetary papers and bank deposits. The IG Corporate Bond Fund will not invest in convertible bonds. The bonds, notes and paper in which the IG Corporate Bond Fund invests are issued by firms with equity which is listed or traded on one or more recognised exchanges world-wide and at least 75% of such instruments are rated as investment grade by any of either Moody's, Standard & Poor's or Fitch.

The IG Corporate Bond Fund also invests in government securities and futures.

The IG Corporate Bond Fund invests in financial derivative instruments ("FDIs") for investment and/or hedging purposes including foreign exchange forwards, credit default swaps, interest rate swaps and Treasury Futures or other government bond futures. Currently the majority of FDIs are traded Over-The- Counter (OTC) while futures are traded on recognised exchanges.

#### DCI Global Investment Grade Corporate Bond Fund (UCITS)

The investment objective of DCI Global Investment Grade Corporate Bond Fund (UCITS) (the "Global IG Corporate Fund") is to produce returns, net of fees and expenses above the performance of the Barclays Global Aggregate Corporate Bond Index hedged to US Dollars (the "Index"), but in the case of the zero duration share classes adjusted for the differential in return between the return on the interest rate profile of the Index and the return on interest rate profile of the zero duration share classes.

The Global IG Corporate Fund seeks to achieve its investment objective by investing in a portfolio of exposures to the credit risk of companies with equity listed on recognised exchanges, applying a quantitatively driven approach to asset selection and portfolio constitution. The Global IG Corporate Fund employs portfolio diversification controlled by active risk assessment and portfolio management. An additional element of return is expected to be achieved through exploitation of attractively priced corporate credit assets and derivatives as perceived by the Investment Manager. There can be no assurance that the Global IG Corporate Fund will achieve its investment objectives.

The Investment Manager manages the Global IG Corporate Fund investments by investing primarily, at all times, at least two thirds of its total assets in a diversified portfolio of corporate bonds, notes and commercial paper (primarily fixed rate) issued by companies and credit default swaps on the credit risk of such companies. The Global IG Corporate Fund may invest on a temporary basis more than one-third of its total assets in monetary papers and bank deposits. The Global IG Corporate Fund will not invest in convertible bonds. The bonds, notes and paper in which the Global IG Corporate Fund invests are issued by firms with equity which is listed or traded on one or more recognised exchanges world-wide and at least 75% of such instruments are rated as investment grade by any of either Moody's, Standard & Poor's or Fitch.

The Global IG Corporate Fund also invests in US Treasuries or Notes and US Agency issued securities.

The Global IG Corporate Fund also invests in financial derivative instruments ("FDIs") for investment and/or hedging purposes including foreign exchange forwards, credit default swaps, interest rate swaps and Treasury Futures or Notes Futures. The majority of FDIs are traded Over-The-Counter (OTC) while U.S. Treasury Futures are traded on the Chicago Board of Trade or other recognised exchanges.

#### **Investment Objective and Policies (continued)**

# DCI Enhanced Investment Grade Corporate Credit Fund (UCITS)

The investment objective of DCI Enhanced Investment Grade Corporate Credit Fund (UCITS) (the "Enhanced IG Fund") is to produce returns, net of fees (excluding performance fees) and expenses above the Barclays U.S. Intermediate Corporate Bond Index (the "Index"), but in the case of the zero duration share classes adjusted for the differential in return between the return on the interest rate profile of the Index and the return on interest rate profile of the zero duration share classes. There can be no assurance that the Enhanced IG Fund will achieve its investment objective.

The Enhanced IG Fund seeks to achieve its investment objective by investing in certain assets and related financial derivative instruments ("FDI") to employ a "net long, long-short" credit strategy. The Investment Manager pursues the Enhanced IG Fund's investment objective by investing in a portfolio of exposures to the credit risk of companies with equity listed on recognised exchanges, applying a quantitatively driven approach to asset selection and portfolio constitution.

The Investment Manager pursues the credit strategy by creating "Long" and "Short" credit exposure through the use of corporate bonds and single name credit default swaps. The Enhanced IG Fund will seek to generate low volatility returns by dynamically managing the "Long" and the "Short" portfolios. The investment strategy is expected to be net long. The Enhanced IG Fund seeks to profit by holding Long Positions which have been perceived as undervalued by the Investment Manager. The long portfolio is invested in corporate bonds (without using any borrowing for leverage) and also uses credit default swaps ("CDS") by selling protection.

The Enhanced IG Fund also seeks to profit from short credit exposure positions by buying single name CDS. Such Short Positions are comprised of exposures to the credit risk of companies which the Investment Manager perceived as having a lower market spread than is warranted and are therefore deemed overpriced.

The instruments in which the Enhanced IG Fund invests are amongst others, corporate bonds (fixed or floating rate), notes and paper issued by corporations worldwide, and CDS on the credit risk of such companies. The corporate bonds, notes and paper in which the Enhanced IG Fund invests are issued by firms with equity listed or traded on recognised exchanges worldwide. The underlying reference entities for credit default swaps will be domiciled predominately in North America and Western Europe and there may be long and short exposure to any industry or sector.

The Enhanced IG Fund invests in US Treasuries or notes, and US agency issued securities.

The Enhanced IG Fund invests in financial derivative instruments for hedging or performance enhancement purposes including foreign exchange forwards, credit default swaps, interest rate swaps and U.S. Treasury Futures. The majority of FDIs are traded Over-The-Counter (OTC) while U.S. Treasury Futures are traded on the Chicago Board of Trade or other recognised exchanges.

#### **DCI Market Neutral Credit Fund (UCITS)**

The investment objective of DCI Market Neutral Credit Fund (UCITS) (the "Market Neutral UCITS Fund") is to produce returns, net of fees (excluding performance fees) and expenses above the performance of a LIBOR benchmark. LIBOR for these purposes is the rate fixed by ICE Benchmark Administration Limited for one month deposits in the designated currency of the relevant class of the Market Neutral UCITS Fund (as appropriate). For example, the benchmark for share classes designated in U.S. dollars will be the one month U.S. dollar LIBOR rate, and for share classes designated in Euros the benchmark will be the one month Euro LIBOR rate. The difference between the performances of the share classes (in terms of the designated share class designated currency) is expected to be the result of the relevant share class hedge. There can be no assurance that the Market Neutral UCITS Fund will achieve its investment objective.

The Market Neutral UCITS Fund seeks to achieve its investment objective by buying and selling protection in credit default swaps ("CDS") to employ a "long-short" credit strategy. The Market Neutral UCITS Fund seeks to achieve its investment objective by investing in a portfolio of exposures to the credit risk of companies with equity listed on recognised exchanges, applying a quantitatively driven approach to asset selection and portfolio construction. This is achieved by holding Long Positions which the Investment Manager perceives as undervalued and holding Short Positions which the Investment Manager perceives as overvalued. The Long portfolio uses CDS by selling protection. The Short portfolio uses CDS by buying protection.

The Long and Short portfolios are constructed with the aim of having offsetting exposures to market wide credit spread movements.

#### **Investment Objective and Policies (continued)**

#### DCI Market Neutral Credit Fund (UCITS) (continued)

The Market Neutral UCITS Fund also invests in US Treasuries or Notes, and US agency issued securities for cash management purposes.

#### DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS)

The investment objective of the DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS) (the "Enhanced Global IG Fund") is to produce returns, net of fees (excluding performance fees) and expenses above the return of the Barclays Global Aggregate Corporate Bond Index hedged to US Dollars (the "Index"). The returns of each particular share class will be impacted by its currency denomination and interest rate profile. There can be no assurance that the Enhanced Global IG Fund will achieve its investment objective.

The Enhanced Global IG Fund seeks to achieve its investment objective by investing in certain assets and related financial derivative instruments ("FDI") to employ a "net long, long-short" credit strategy as described further below. The investment strategy is expected to be net long. The Investment Manager pursues the Enhanced Global IG Fund's investment objective by investing in a portfolio of exposures to the credit risk of companies with equity listed on recognised exchanges, applying a quantitatively driven approach to asset selection and portfolio construction.

The Investment Manager pursues the credit strategy by creating "Long" and "Short" credit exposure through the use of corporate bonds and FDI. The Enhanced Global IG Fund will seek to generate low volatility returns from dynamically managing the "Long" and the "Short" portfolios. The Enhanced Global IG Fund seeks to profit by holding Long Positions which have been perceived as undervalued by the Investment Manager and also uses credit default swaps ("CDS") by selling protection. The Enhanced Global IG Fund also seeks to profit from short credit exposure positions by buying CDS. Such Short Positions are comprised of exposures to the credit risk of companies which the Investment Manager perceives to have a lower market spread than is warranted and are therefore deemed overpriced. In certain circumstances, the Investment Manager may choose to hedge a Short Position by selling CDS protection, which has the effect of offsetting part or all of the risk inherent in a Short Position.

The instruments in which the Enhanced Global IG Fund invests are corporate bonds (fixed or floating rate), notes and paper issued by corporations worldwide, and CDS on the credit risk of such companies. The corporate bonds, notes and paper in which the Enhanced Global IG Fund invests are issued by firms with equity which is listed or traded on one or more Recognised Exchanges world-wide. The underlying reference entities (i.e. companies) for CDS will be domiciled predominately in North America and Western Europe and there may be long or short exposure to any industry or sector.

The Enhanced Global IG Fund also invests in US Treasuries or Notes, and US agency issued securities for cash management purposes.

The Enhanced Global IG Fund invests in financial derivative instruments for hedging or performance enhancement purposes including credit default swaps, foreign exchange forwards, interest rate swaps and U.S. Treasury Futures. The majority of FDIs are traded Over-The-Counter (OTC) while U.S. Treasury Futures are traded on the Chicago Board of Trade or other recognised exchanges.

# **DCI High Yield Corporate Bond Fund (Feeder)**

The investment objective of DCI High Yield Corporate Bond Fund (Feeder) (the "Fund") is to invest at least 85% of its assets in DCI High Yield Corporate Bond Fund (ICAV) (the "Master Fund") and to produce returns, net of fees and expenses approximating the net performance of the Master Fund.

The investment objective of the Master Fund is to produce returns, net of fees and expenses above the performance of the BofA Merrill Lynch US High Yield Constrained Index (the "Index") (Bloomberg HUC0 Index). The Index contains all securities in the BofA Merrill Lynch US High Yield Index but caps issuer exposure at 2%. Qualifying securities of the Index must have a below investment grade rating (based on the average of Moody's, S&P or Fitch), and have at least 18 months to final maturity at the time of issuance, at least one year remaining term to final maturity as of the rebalancing date of the Index, a fixed coupon schedule and a minimum amount outstanding of \$100 million.

# **Investment Objective and Policies (continued)**

# DCI High Yield Corporate Bond Fund (Feeder) (continued)

The Master Fund seeks to achieve its investment objective by investing in a portfolio of corporate bonds (primarily High Yield), and credit default swaps referencing the credit risk of companies that are issuers of corporate bonds, by applying a quantitatively driven approach to asset selection and portfolio constitution. The investment strategy is expected to be net long credit risk of firms that have instruments traded on recognized exchanges worldwide. The Master Fund employs portfolio diversification controlled by active risk assessment and portfolio management. Under normal market conditions at least 75% of the bond portfolio will be rated High Yield, or if unrated, determined by the Investment Manager to be of comparable quality.

# DCI UMBRELLA FUND PLC DIRECTORS' REPORT FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

The Directors present to the shareholders their report together with the audited financial statements for the financial year ended 31 December 2016.

#### REVIEW OF THE DEVELOPMENT OF THE BUSINESS

DCI Umbrella Fund Plc ("the Company") is an open-ended variable capital investment company with segregated liability between funds and was incorporated in Ireland on 28 April 2005 under the Companies Act, 2014 with registration number 401418. The Company has been authorised by the Central Bank of Ireland pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 (the "Central Bank UCITS Regulations"). Please refer to the Investment Manager's Report on pages 14 to 17 for a more detailed review of the business.

# RESULTS, ACTIVITIES AND FUTURE DEVELOPMENTS

The results of operations are set out in the Profit and Loss Account. A review of activities and future developments is contained in the Investment Manager's Report. The Net Asset Value per Share is set out in note 6. Please refer to note 8 for financial instrument disclosures.

#### DIRECTORS

The Directors who held office throughout the financial year and at the financial year end were:

Mr. Ian Drew (Chairman) (British)

Mr. Norbert Bannon (Irish)

Mr. John Broughan (Irish)

Mr. Richard Donick (US)

Mr. Edmond Warner OBE (British)

#### DIRECTORS' AND SECRETARY'S INTERESTS IN SHARES AND CONTRACTS

None of the Directors of the Company or the Company Secretary nor persons connected to them had any beneficial interests in the share capital of the Company during 2016 or at the financial year end.

None of the Directors have a service contract with the Company.

Richard Donick, Director of the Company, is an employee of the Investment Manager and Distributor. Each Director is entitled to such remuneration for services as the Directors may determine. Richard Donick has waived the fee for his services as Director of the Company. Fees paid to the Investment Manager are disclosed in note 7.

The following are the active distributing Classes and distributions made in respect of these Classes will normally be paid annually by 30 January each year (continued):

#### DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS)

Class A USD Inst Dist (I)

# **DCI High Yield Corporate Bond Fund (Feeder)**

Class A USD Dist (I)

DCI Enhanced Investment Grade Corporate Credit Fund (UCITS) and DCI Market Neutral Credit Fund (UCITS) have no distributing classes in issue.

The other Classes of Shares of DCI Investment Grade Corporate Bond Fund (UCITS), DCI Global Investment Grade Corporate Bond Fund (UCITS), DCI Enhanced Investment Grade Corporate Credit Fund (UCITS), DCI Market Neutral Credit Fund (UCITS), DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS) and DCI High Yield Corporate Bond Fund (Feeder) (the "Funds") are accumulating classes and, therefore, do not currently distribute dividends to Shareholders. The income, earnings and gains of these Classes of Shares are accumulated and reinvested on behalf of Shareholders. Details of dividends declared during the financial year ended 31 December 2016 are set out in Note 15.

#### BOOKS OF ACCOUNTS

The measures which the Directors have taken to ensure that adequate accounting records are kept in accordance with section 281-285 of the Companies Act 2014 are the adoption of suitable policies for recording transactions, assets and liabilities, the employment of the services of an Administrator and the use of computer and documentary systems. The Company's accounting records are kept at George's Court, 54 – 62 Townsend Street, Dublin 2, Ireland.

#### INDEPENDENT AUDITORS

The independent auditors, Deloitte, Chartered Accountants and Statutory Audit Firm, have expressed their willingness to continue in office in accordance with section 383(2) of the Companies Act 2014.

#### REMUNERATION POLICY OF THE COMPANY

Under the UCITS Directive, the Company is required to establish and apply remuneration policies and practices for its Identified Staff that are consistent with and promote sound and effective risk management and that neither encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Company nor impair compliance with the Company's duty to act in the best interests of its shareholders. In accordance with Article 14(b)(1) of the UCITS Directive (as inserted by the UCITS V Directive), the Company must comply with the principles regarding remuneration applicable to its Identified Staff in a way and to the extent that is appropriate to the Company's size, internal organisation and the nature, scope and complexity of its activities. Details of the remuneration policy of the Company including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits including the composition of the remuneration committee, where such a committee exists, is available at www.DCI.com and a paper copy will be made available to investors free of charge upon request. Please refer to the Remuneration Code on page 11.

#### SIGNIFICANT EVENTS DURING THE YEAR

For a detailed description of the significant events during the year please refer to note 17 of these financial statements.

#### EVENTS AFTER BALANCE SHEET DATE

For a detailed description of the events after the balance sheet date please refer to note 16 of these financial statements.

# **CROSS LIABILITY OF FUNDS**

The Company has been established as an umbrella fund with segregated liability between funds. As a result, neither the Company nor any Director, receiver, examiner, liquidator, or other person shall apply nor be obliged to apply, the assets of any one fund in satisfaction of any liability incurred on behalf or attributable to any other fund.

# DCI UMBRELLA FUND PLC DIRECTORS' REPORT (CONTINUED) FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

#### RISK MANAGEMENT OBJECTIVES AND POLICIES

The Investment Manager may use derivative instruments for investment purposes, efficient portfolio management and to attempt to manage the risk of the Company's investments. The main risks arising from the Company's financial instruments are market price, interest rate, foreign currency, liquidity and credit risks. For further information on risk management objectives and policies, please see note 8.

DCI High Yield Corporate Bond Fund (Feeder) invests substantially all of its assets in the DCI High Yield Corporate Bond Fund (ICAV), a sub-fund of DCI UCITS ICAV. For a detailed review of the financial instruments and associated risks of the investments held by DCI High Yield Corporate Bond Fund (ICAV), please refer to note 8 of DCI UCITS ICAV Financial Statements.

#### CORPORATE GOVERNANCE CODE

A voluntary corporate governance code applicable to Irish domiciled collective investment schemes was issued by the Irish Funds (the "IF") in December 2011 ("the IF Code"). It operates on a "comply or explain" basis so that, where the board of any company decides not to comply with any provision of the code, the reasons for non-compliance should be set out in its directors' report or on its website. The Board resolved to adopt the IF Code as of December 31, 2012 and all elements have been complied with.

# TRANSACTIONS WITH CONNECTED PERSONS

Any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or sub-delegates of the management company or depositary, and any associated or group of such a management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the shareholders.

The Directors are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 41(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the year complied with the obligations set out in Regulation 41(1) of the Central Bank UCITS Regulations.

# DIRECTORS COMPLIANCE STATEMENT

The Directors acknowledge that they are responsible for securing compliance by DCI Umbrella Fund plc (hereinafter called the "Company") with its Relevant Obligations as defined in section 225 of the Companies Act 2014 (hereinafter called the "Relevant Obligations").

The Directors confirm that they have drawn up and adopted a compliance policy statement setting out the Company's policies that, in the Directors' opinion, are appropriate to the Company in respect of its compliance with its Relevant Obligations.

The Directors further confirm the Company has put in place appropriate arrangements or structures that are, in the Directors' opinion, designed to secure material compliance with its Relevant Obligations including reliance on the advice of persons employed by the Company and external legal and tax advisers as considered appropriate from time to time and that they have reviewed the effectiveness of these arrangements or structures during the financial year to which this Report relates.

#### STATEMENT OF RELEVANT AUDIT INFORMATION

The following applies in the case of each person who was a director of the Company, as disclosed on page 1, at the time this report is approved:

- (a) so far as the director is aware, there is no relevant audit information of which the Company's statutory auditors are unaware; and
- (b) the director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the company's statutory auditors are aware of that information.

# DCI UMBRELLA FUND PLC DIRECTORS' REPORT (CONTINUED) FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

#### AUDIT COMMITTEE

Section 167 of the Companies Act 2014 requires the Company to either set up an audit committee or, if they do not, disclose why. Given the nature, scale and complexity of the Company's business, the Company has not established a specific internal audit function. However, each of the Investment Manager, the Administrator and the Depositary are either subject to a periodic internal audit or other forms of control reviews and the Company will rely on these functions of its third party service providers.

# REMUNERATION CODE

The UCITS V provisions, which became effective on 18 March 2016, require the Company to establish and apply remuneration policies and practices that promote sound and effective risk management, and do not encourage risk taking which is inconsistent with the risk profile of the Company.

To that effect, the Investment Manager has implemented a Remuneration Policy.

The purpose of the Investment Manager's remuneration policy is to seek to ensure that the remuneration arrangements of "identified staff":

- (i) are consistent and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profile, rules or instruments of incorporation of the Investment Manager or any fund which the Investment Manager is the manager of; and
- (ii) are consistent with the Investment Manager's business strategy, objectives, values and interests and include measures to avoid conflicts of interest.

The Investment Manager has a business model, policies and procedures which by their nature do not promote excessive risk taking and take account of the nature, scale and complexity of the Investment Manager and the Company.

Quantitative remuneration information will be included once the Investment Manager has completed its first annual performance period (31 December 2017) to ensure the disclosure provides a reliable basis for comparison.

Director: Norbert Bannon

Signed on behalf of the Board of Directors

Director: Ian Drew

Date: 24 April 2017 Date: 24 April 2017

# DCI UMBRELLA FUND PLC DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

The directors' are responsible for preparing the directors' report and the financial statements in accordance with the Companies Act 2014 and the applicable regulations.

Irish company law requires the directors to prepare financial statements for each financial year. Under the law, the directors have elected to prepare the financial statements in accordance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland ("relevant financial reporting framework").

Under company law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the company as at the financial year end date and of the profit or loss of the company for the financial year and otherwise comply with the Companies Act 2014.

In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with the applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for ensuring that the company keeps or causes to be kept adequate accounting records which correctly explain and record the transactions of the company, enable at any time the assets, liabilities, financial position and profit or loss of the company to be determined with reasonable accuracy, enable to ensure that the financial statements and directors' report comply with the Companies Act 2014 and with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2015 and enable the financial statements to be audited. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

# DCI UMBRELLA FUND PLC CUSTODIAN'S REPORT TO SHAREHOLDERS For THE FINANCIAL PERIOD 1 JANUARY 2016 TO 17 MARCH 2016

We, Northern Trust Fiduciary Services (Ireland) Limited, appointed Custodian to DCI Umbrella Fund Plc (the "Company") provide this report solely in favour of the shareholders of the Company for the financial period 1 January 2016 to 17 March 2016 ("the Accounting Period"). This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011) which implemented Directive 2009/65/EU into Irish Law ("the Regulations"). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Custodian obligation as provided for under the Regulations, we have enquired into the conduct of the of the Company for the Accounting Period and we hereby report thereon to the shareholders of the Company as follows;

We are of the opinion that the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Manager by the constitutional documents and by the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional document and the Regulations.

# DCI UMBRELLA FUND PLC INVESTMENT MANAGER'S REPORT FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

As of 31 December 2016, the Company had six active sub-funds, DCI Investment Grade Corporate Bond Fund (UCITS) (the "IG Corporate Bond Fund"), DCI Global Investment Grade Corporate Bond Fund (UCITS) (the "Global IG Corporate Fund"), DCI Enhanced Investment Grade Corporate Credit Fund (UCITS) (the "Enhanced IG Fund"), DCI Market Neutral Credit Fund (UCITS) (the "Market Neutral UCITS Fund"), DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS) (the "Enhanced Global IG Fund"), and DCI High Yield Corporate Bond Fund (Feeder) (the "HY Corporate Bond Fund"), each of which invests in a diversified portfolio of U.S. dollar and Euro denominated corporate credit exposures of firms with listed equities on recognized exchanges.

# **DCI Investment Grade Corporate Bond Fund (UCITS)**

The objective of the IG Corporate Bond Fund is to produce returns, net of fees and expenses, above the performance of the Barclays U.S. Intermediate Corporate Bond Index, adjusted to match the designated interest rate and currency profile of the particular share class. The IG Corporate Bond Fund seeks to achieve its objective by investing in a portfolio of predominantly investment grade corporate bonds to employ a 'long-only' credit strategy.

Effective 1 April 2016, the official performance benchmark for the IG Corporate Bond Fund was changed to the Barclays U.S. Intermediate Corporate Bond Index from the Barclays U.S. Corporate Bond Index. The IG Corporate Bond Fund is now entirely invested in issuers with maturities of 12 years or less and remains well-diversified across sectors, with a modest increase in exposure to financials.

As of 31 December 2016, the IG Corporate Bond Fund was invested in a total of 191 corporate issuers. Approximately 96% of the IG Corporate Bond Fund's corporate exposures were rated 'Investment Grade' by at least one of S&P, Fitch, or Moody's rating agencies.

As of 31 December 2016, the top ten credit exposures accounted for approximately 11% of the IG Corporate Bond Fund's credit portfolio as compared to approximately 17% for the Barclays U.S. Intermediate Corporate Bond Index. The geographical breakdown of the portfolio was approximately 83% in North American issuers and 17% in European issuers (all of which were in U.S. dollar denominated corporate bonds).

For 2016, DCI Investment Grade Corporate Bond Fund (UCITS) – Class A USD (ISIN: IE00B0GZN096) generated a total net return of approximately 4.62% while the Custom Index 1 produced a total return of 4.67% for the year.

# **DCI Global Investment Grade Corporate Bond Fund (UCITS)**

The objective of the Global IG Corporate Fund is to produce returns, net of fees and expenses, above the performance of the Barclays Global Aggregate Corporate Bond Index, adjusted to match the designated interest rate and currency profile of the particular share class. The Global IG Corporate Fund seeks to achieve its objective by investing in a portfolio of predominantly investment grade corporate bonds to employ a 'long-only' credit strategy.

As of 31 December 2016, the Global IG Corporate Fund was invested in a total of 244 corporate issuers. Approximately 97% of the Global IG Corporate Fund's corporate exposures were rated 'Investment Grade' by at least one of S&P, Fitch, or Moody's rating agencies.

As of 31 December 2016, the top ten credit exposures accounted for approximately 9% of the Global IG Corporate Fund's credit portfolio as compared to approximately 13% for the Barclays Global Aggregate Corporate Bond Index. The geographical breakdown of the portfolio was approximately 68% in North American issuers and the remaining 32% in European issuers.

\_

<sup>&</sup>lt;sup>1</sup> The Custom Index, which is designed and calculated by DCI, is not the ongoing performance benchmark of the fund. Rather, the Custom Index was constructed to account for the benchmark change that was implemented during the month of March 2016. The new benchmark, Barclays U.S. Intermediate Corporate Bond Index, was effective 1 April 2016. For the period from inception to 29 February 2016 the benchmark used by the Custom Index is the Barclays U.S. Corporate Investment Grade Index (the official performance benchmark of the fund during this period). For the period from 1 March 2016 to 31 March 2016 the benchmark used by the Custom Index is a blended index comprised of three parts: (i) 50% Barclays U.S. Corporate Investment Grade Index (credit return only), plus (ii) 50% Barclays U.S. Intermediate Corporate Bond Index (credit return only) plus (iii) the default free return of the Barclays U.S. Corporate Investment Grade Index. For the period from 1 April 2016 to current the Custom Index uses the Barclays U.S. Intermediate Corporate Bond Index (the official performance benchmark of the fund during this period).

# DCI UMBRELLA FUND PLC INVESTMENT MANAGER'S REPORT (CONTINUED) FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

#### DCI Global Investment Grade Corporate Bond Fund (UCITS) (continued)

For 2016, DCI Global Investment Grade Corporate Bond Fund (UCITS) – Class A USD (ISIN: IE00B4T2QW85) generated a total net return of approximately 6.09% while the Barclays Global Aggregate Corporate Bond Index produced a total return of 6.22% for the year.

#### DCI Enhanced Investment Grade Corporate Credit Fund (UCITS)

The objective of the Enhanced IG Fund is to produce returns, net of fees and expenses, above the performance of the Barclays U.S. Intermediate Corporate Bond Index, adjusted to match the designated interest rate and currency profile of the particular share class. The Enhanced IG Fund seeks to achieve its objective by investing in a portfolio of corporate bonds and single-name credit default swaps ("CDS") to employ a 'net-long' credit strategy.

Effective 1 April 2016, the official performance benchmark for the Enhanced IG Fund was changed to the Barclays U.S. Intermediate Corporate Bond Index from the Barclays Global Aggregate Corporate Bond (U.S. Dollar Part) Index. The Enhanced IG Fund is now entirely invested in issuers with maturities of 12 years or less and remains well-diversified across sectors.

As of 31 December 2016, the Enhanced IG Fund's long portfolio was invested in a total of 203 corporate issuers and the short portfolio was invested in a total of 71 corporate issuers. Approximately 79% of the Enhanced IG Fund's long corporate credit portfolio was rated 'Investment Grade' by at least one of S&P, Fitch, or Moody's rating agencies. The single-name CDS enhancement portfolio was well matched by rating.

As of 31 December 2016, the top ten credit holdings in the long bond portfolio of the Enhanced IG Fund accounted for approximately 4% of the credit portfolio as compared to 17% for the Barclays U.S. Intermediate Corporate Bond Index. The geographic breakdown of the long credit portfolio was approximately 65% in North American issuers and the remaining 35% in European issuers.

For 2016, DCI Enhanced Investment Grade Corporate Credit Fund (UCITS) – Class A USD (ISIN: IE00B39RTZ01) generated a total net return of approximately 7.44% while the Custom Index<sup>2</sup> produced a total return of 4.54% for the year.

# DCI Market Neutral Credit Fund (UCITS)

The aim of the Market Neutral UCITS Fund is to produce absolute returns, net of fees and expenses, above the performance of the one-month LIBOR benchmark, adjusted to match the designated currency profile of the particular share class. The Market Neutral UCITS Fund seeks to achieve its investment objective by investing in a portfolio of single-name credit default swaps to employ a 'market neutral' credit strategy.

As of 31 December 2016, the Market Neutral UCITS Fund's long portfolio was invested in single-name CDS exposures to a total of 73 corporate issuers and the short portfolio was invested in single-name CDS exposures to a total of 71 corporate issuers. Approximately 68% of the Market Neutral UCITS Fund's long corporate credit exposures and 73% of the short corporate credit exposures were rated 'Investment Grade' by at least one of S&P, Fitch, or Moody's rating agencies.

As of 31 December 2016, the top ten credit exposures in the long and short portfolios of the Market Neutral UCITS Fund accounted for approximately 16% of each of their respective credit portfolios. The geographic breakdown of the long portfolio was approximately 52% in North American issuers and 48% in European issuers, which was closely matched in the short portfolio.

\_

<sup>&</sup>lt;sup>2</sup> The Custom Index, which is designed and calculated by DCI, is not the ongoing performance benchmark of the fund. Rather, the Custom Index was constructed to account for the benchmark change that was implemented during the month of March 2016. The new benchmark, Barclays U.S. Intermediate Corporate Bond Index, was effective 1 April 2016. For the period from inception to 29 February 2016 the benchmark used by the Custom Index is the Barclays Global Aggregate Corporate Bond (U.S. Dollar Part) Index (the official performance benchmark of the fund during this period). For the period from 1 March 2016 to 31 March 2016 the benchmark used by the Custom Index is a blended index comprised of three parts: (i) 50% Barclays Global Aggregate Corporate Bond (U.S. Dollar Part) Index (credit return only), plus (ii) 50% Barclays U.S. Intermediate Corporate Bond Index (credit return only) plus (iii) the default free return of the Barclays Global Aggregate Corporate Bond (U.S. Dollar Part) Index. For the period from 1 April 2016 to current the Custom Index uses the Barclays U.S. Intermediate Corporate Bond Index (the official performance benchmark of the fund during this period).

# DCI UMBRELLA FUND PLC INVESTMENT MANAGER'S REPORT (CONTINUED) FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

#### DCI Market Neutral Credit Fund (UCITS) (continued)

For 2016, DCI Market Neutral Credit Fund (UCITS) – Class A USD (ISIN: IE00B7N5Z167) generated a total net return of approximately 6.68% while the one-month LIBOR benchmark produced a total return of 0.49% for the year.

# DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS)

The objective of the Enhanced Global IG Fund is to produce returns, net of fees and expenses, above the performance of the Barclays Global Aggregate Corporate Bond Index, adjusted to match the designated interest rate and currency profile of the particular share class. The Enhanced Global IG Fund seeks to achieve its objective by investing in a portfolio of corporate bonds and single-name credit default swaps to employ a 'net-long' credit strategy.

As of 31 December 2016, the Enhanced Global IG Fund's long portfolio was invested in a total of 219 corporate issuers and the short portfolio was invested in a total of 71 corporate issuers. Approximately 80% of the Enhanced Global IG Fund's long corporate credit portfolio was rated 'Investment Grade' by at least one of S&P, Fitch, or Moody's rating agencies. The single-name CDS enhancement portfolio was well matched by rating.

As of 31 December 2016, the top ten credit holdings in the long bond portfolio of the Enhanced Global IG Fund accounted for approximately 5% of the credit portfolio as compared to 13% for the Barclays Global Aggregate Corporate Bond Index. The geographic breakdown of the long credit portfolio was approximately 58% in North American issuers and the remaining 42% in European issuers.

For 2016, DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS) – Class A USD (ISIN: IE00B92RL865) generated a total net return of approximately 7.75% while the Barclays Global Aggregate Corporate Bond Index produced a total return of 6.22% for the year.

#### DCI High Yield Corporate Bond Fund (Feeder)

The objective of the HY Corporate Bond Fund is to invest at least 85% of its assets in the DCI High Yield Corporate Bond Fund (ICAV), a sub-fund of DCI UCITS ICAV (the "Master Fund") and to produce returns, net of fees and expenses approximating the net performance of the Master Fund. The investment objective of the Master Fund is to produce returns, net of fees and expenses, above the performance of the BofA Merrill Lynch U.S. High Yield Constrained Index (Bloomberg: HUC0), adjusted to match the designated interest rate and currency profile of the particular share class. The HY Corporate Bond Fund seeks to achieve its objective by investing in a portfolio of high yield corporate bonds to employ a 'long-only' credit strategy.

DCI launched the HY Corporate Bond Fund in December 2016. The portfolio and performance reporting for the fund began on January 1, 2017, which was the first full month the fund was fully invested, in accordance with DCI's performance reporting policies.

# **Market Commentary and Outlook**

The strong rally in corporate credit that began in mid-February 2016 continued through the rest of the year, and demand for credit products was resilient with record new issuance expected to continue into 2017. There are many macro factors that could potentially derail risk markets in 2017 – including the resurfacing risks associated with Euro-zone sovereign debt in advance of pending elections in France and Germany – but overall the economic and market environment appears positive for corporate credit in 2017. Moreover, the increased dispersion in returns across firms and sectors is expected to be positive for DCI's relative value strategies, which benefit from differentiated returns across issuers.

DCI's portfolios remain well-diversified across sectors. At year-end, the portfolios generally avoided most long exposures in retailers, and the long-only portfolios were modestly less exposed than the Index to banks and other financials. In part due to the extraordinary intervention of the ECB in the corporate bond markets, DCI continues to maintain approximately the same amount of exposure to Euro denominated bonds as the Index for DCI's global funds. On average, however, the Eurozone exposure is concentrated in lower default risk firms which would be expected to outperform in the event of a Eurozone crisis.

# DCI UMBRELLA FUND PLC INVESTMENT MANAGER'S REPORT (CONTINUED) FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

#### **Market Commentary and Outlook (continued)**

The DCI bond portfolios remain underweight short maturity bonds (1-2 year) relative to the Index. On average these short maturity bonds in the Index offer little spread premium to compensate for their illiquidity and default risk. For bonds maturing in greater than two years, the DCI credit portfolios remain well-distributed and well-matched to the maturity profile of the Index.

DCI continues to position its long bond portfolios such that the credit spreads (whether 'high' or 'low' in the absolute sense) provide attractive compensation for the default risks. Although market spreads can move arbitrarily over short periods of time, DCI anticipates that its actively diversified funds will be well positioned to capture the attractive risk premium in corporate credit in 2017 and beyond.

We thank you for investing with DCI.

DCI, LLC February 2017

\*Performance data reflected herein represents past performance. Past performance is no guarantee of future results. The value of the investment is subject to change and the return on the investment will therefore necessarily be variable. Where applicable, changes in exchange rates may have an adverse effect on the value price or income of the fund. Inherent in any investment is the potential for loss. There can be no assurance that the fund will achieve its objectives.

Deloitte Chartered Accountants & Statutory Audit Firm

# INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF DCI UMBRELLA FUND PLC

We have audited the financial statements of DCI Umbrella Fund Plc for the financial year ended 31 December 2016 which comprise the Profit and Loss Account, the Balance Sheet, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and the related notes 1 to 20. The relevant financial reporting framework that has been applied in their preparation is the Companies Act 2014 and FRS 102, the Financial Reporting Standard applicable in the UK and Republic of Ireland ("relevant financial reporting framework").

This report is made solely to the company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

#### **Respective Responsibilities of Directors and Auditors**

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view and otherwise comply with the Companies Act 2014. Our responsibility is to audit and express an opinion on the financial statements in accordance with the Companies Act 2014 and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

#### Scope of the Audit of the Financial Statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Annual Report and Audited Financial Statement to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

#### **Opinion on Financial Statements**

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the company as at 31 December 2016 and of the profit for the financial year then ended; and
- have been properly prepared in accordance with the relevant financial reporting framework and, in particular, with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2015 (as amended).

#### Matters on which we are required to Report by the Companies Act 2014

- We have obtained all the information and explanations we considered necessary for the purpose of our audit.
- In our opinion the accounting records of the company were sufficient to permit the financial statements to be readily and properly audited.
- The company's Statement of Assets and Liabilities and its Statement of Operations are in agreement with the accounting records.
- In our opinion the information given in the Directors' Report is consistent with the financial statements.

Matters on which we are required to Report by Exception

We have nothing to report in respect of the provisions in the Companies Act 2014 which requires us to report to you if, in our opinion the disclosures of directors' remuneration and transactions specified by law are not made.

Brian Forrester

For and on behalf of Deloitte

Chartered Accountants and Statutory Audit Firm

The accompanying notes form an integral part of these financial statements.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Basis of presentation**

Irish law requires the Directors of the Company to prepare financial statements for each financial year. These financial statements have been prepared in accordance with FRS 102, the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2015.

In preparing the financial statements for the financial year-end 31 December 2016, the Directors of the Company have elected to apply Financial Reporting Standard 102 ("FRS 102") 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and these financial statements comply with that standard.

All references to net assets throughout the financial statements refer to net assets attributable to holders of redeemable participating shares in the funds unless otherwise stated.

#### **Historical cost convention**

The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

The principal accounting policies applied to the preparation of these financial statements are set out below.

#### Financial assets and liabilities at fair value through profit or loss

#### Valuation of investment securities

Financial instruments (excluding derivative instruments) are measured initially at fair value as determined by the transaction price. Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Profit and Loss Account. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Financial assets and liabilities traded in active markets are priced based on last traded prices on the balance sheet date. Where such an investment is quoted, listed or dealt in on more than one Regulated Market, the Director shall, in their absolute discretion, select the Regulated Market which in their opinion constitutes the main Regulated Market for such investment for the foregoing purposes.

#### **Classification of investments**

The Company classifies its investments in debt securities and related derivatives as financial assets or financial liabilities at fair value through profit or loss.

#### Recognition/Derecognition

Normal—way purchases and sales are recognised on the trade date – the date on which the Company commits to purchase or sell the asset. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership. The Company derecognises a financial liability (or a part of a financial liability) from its statement of financial position when, and only when, it is extinguished—ie when the obligation specified in the contract is discharged or cancelled or expires.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Realised gains and losses on sales of investments

The computation of realised gains and losses on sales of investments is made on a first in first out basis.

#### Allocation of derivative gains and losses

Certain derivatives are entered into on behalf of share classes depending on their currency and duration profile. Gains and losses and liabilities attributable to such derivatives are allocated solely to the share classes in respect of which those derivatives were entered into.

#### **Interest income**

Interest income and expense is recognised in the Profit and Loss Account as it accrues, using the original effective interest rate of the instrument calculated at the acquisition or origination date. Interest income includes the amortisation of any discount or premium, transaction costs or other differences between the initial carrying amount of an interest-bearing instrument and its amount at maturity calculated on an effective interest rate basis.

#### Fees and expenses

Fees and expenses are accounted for on an accruals basis.

# **Distribution policy**

Dividend distributions to redeemable participating shareholders are classified as finance costs in the Profit and Loss Account in the year in which they are declared. Where both income shares and accumulation shares in a fund are in issue, all income of a fund after deduction of expenses will be allocated between holders of accumulation shares and holders of income shares in accordance with their respective interests.

#### **Taxes**

Liabilities relating to uncertain tax positions are accrued only when such liabilities are probable and can be estimated with reasonable accuracy.

#### Net income equalisation

An equalisation account is maintained by each Fund so that the amount distributed is the same for all shares of the same type notwithstanding different dates of issue. A sum equal to that part of the price of a share which reflects the net income at the date of issue or redemption is booked to the equalisation account and is presented within finance costs in the Profit and Loss Account

#### Cash

Cash comprises cash on hand, demand deposits and bank overdrafts. Cash includes short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to insignificant changes in value. Cash held with brokers includes cash pledged as collateral, margin cash and other broker cash balances. Cash due to brokers includes cash received as collateral, margin cash and other broker cash balances.

#### **Futures contracts**

Initial margin deposits are made upon entering into futures contracts and generally are made in the form of cash or cash equivalents. The fair value of futures contracts is based upon daily quoted settlement prices. Changes in the value of the contract are recognised as unrealised gains or losses by "marking-to-market" the value of the contract at the balance sheet date. When the contract is closed, the difference between the proceeds from (or cost of) the closing transactions and the original transaction is recorded as a realised gain or loss.

# Forward foreign exchange contracts

The change in unrealised gain/loss on forward foreign exchange contracts ("FFECs") is included as a net change in unrealised gain or loss on financial assets and liabilities at fair value through profit or loss. Unrealised gains are reported as an asset and unrealised losses are reported as a liability on the Balance Sheet. Realised gain/loss on FFECs is included as net realised gain/loss on financial assets and liabilities at fair value through profit or loss in the Profit and Loss Account.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Swaps**

Interest rate and credit default swaps are stated at fair value. The net income or expense on the swap agreements entered into by the Funds is reflected in the income section of the Profit and Loss Account as 'Swap Income' and such amounts that are unsettled are included within amounts receivable or payable for swaps on the Balance Sheet. The change in unrealised gain/loss on swaps is included as a net change in unrealised gain or loss on financial assets and liabilities at fair value through profit or loss. Unrealised gains are reported as an asset and unrealised losses are reported as a liability on the Balance Sheet. Realised gain/loss on swaps is included as net realised gain/loss on financial assets and liabilities at fair value through profit or loss.

# Repurchase and reverse repurchase agreements

Securities purchased under agreements to resell ("reverse repurchase agreements") and securities sold under agreements to repurchase ("repurchase agreements") are treated as collateralised financing transactions and are carried at the amounts for which the securities were acquired or sold plus accrued interest, which approximates fair value.

#### Foreign exchange transactions

Transactions denominated in foreign currencies are translated at the exchange rate ruling on the date of the transaction. The fair value of the investments and other assets and liabilities in currencies other than the functional currency of the Funds have been translated at the rates of exchange ruling at the Balance Sheet date. Resulting foreign exchange differences are included in the Profit and Loss Account. The functional currency of the Funds is United States Dollars ("USD"). The presentation currency of the Funds is also USD.

#### **Cash Flow Statement**

The Company has availed of the exemption available to open-ended investment funds under section 7 of FRS 102 not to prepare a Cash Flow Statement.

#### Redeemable participating shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities. The liability to participating shareholders is presented in the Balance Sheet as "Net Assets Attributable to Holders of Redeemable Participating Shares" and has been determined based on the total assets less total liabilities (excluding net assets attributable to holders of redeemable participating shares).

#### **Use of Estimates**

The preparation of the financial statements requires management to make judgments, estimates and assumptions that may affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

#### **Transaction costs**

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisors, brokers and dealers, and local taxes and levies. Transaction costs, when incurred, are included as part of the cost of such purchases.

#### Collateral

The Company receives and pledges collateral in the form of cash or non-cash assets in respect of certain derivative contracts in order to reduce the credit risk of these transactions. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty.

Collateral received in the form of cash, which is not legally segregated from the Company, is recognised as an asset on the balance sheet with a corresponding liability for the repayment in financial liabilities (note 11). Non-cash collateral received is not recognised on the balance sheet unless the Company either (a) sells or repledges these assets in the absence of default, at which point the obligation to return this collateral is recognised as a liability; or (b) the counterparty to the arrangement defaults, at which point the collateral is seized and recognised as an asset.

Collateral pledged in the form of cash, which is legally segregated from the Company, is apparent in the balance sheet as there is a corresponding receivable for its return. Non-cash collateral pledged is not derecognised from the balance sheet unless the Company defaults on its obligations under the relevant agreement, and therefore continues to be recognised on the balance sheet within the appropriate asset classification.

#### 2. FINANCIAL DERIVATIVE INSTRUMENTS

Subject to the UCITS Regulations and to any additional investment restrictions, the Funds may engage in transactions in financial derivative instruments, whether transactions are for investment purposes or for the purposes of hedging. The Funds may use derivative instruments including but not limited to forward foreign exchange contracts, currency futures and options thereon, indices and interest rate futures and options thereon, swaps and any other techniques and instruments as the Investment Manager may consider appropriate. Derivative contracts serve as components of the Funds' investment strategy and are utilised to structure and economically hedge investments to enhance performance and reduce risk to the Funds.

The derivative contracts outstanding at 31 December 2016 are disclosed in the Portfolio of Investments.

The Funds record their derivative activities on a mark-to-market basis. Fair values are determined using quoted market prices. For over the counter ("OTC") contracts, the Funds enter into master netting agreements with its counterparties.

Swap agreements ("swaps") represent agreements that obligate two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset or otherwise determined notional amount. The payment flows are usually netted against each other, with the difference being paid by one party to the other. Therefore, amounts required for the future satisfaction of the swap may be greater or less than the amount recorded.

Credit default swaps are contracts in which the Fund pays or receives a periodic stream of payments in return for the counterparty accepting or selling all or part of the risk of default or failure to pay of a reference entity on which the swap is written. Where the Fund has bought protection the maximum potential loss is the value of the premium payments the Fund is contracted to pay until maturity of the contract. Where the Fund has sold protection the maximum potential loss is the nominal value of the protection sold. Interest rate swaps relate to contracts taken out by the Fund with major brokers in which the Fund either receives or pays a floating rate of interest in return for paying or receiving, respectively, a fixed rate of interest.

Futures are contracts for delayed delivery of commodities, securities or money market instruments in which the seller agrees to make delivery at a specified future date of a specified commodity or instrument, at a specified price or yield. Futures on interest rate swaps are used for the purpose of managing the relevant interest rate profile of each share class. Gains and losses on futures are recorded by the Fund based upon market fluctuations and are recorded as realised or unrealised gains or losses in the Profit and Loss Account.

The realised gain or loss depends upon the prices at which the underlying financial instruments of the swap are valued at the swap's settlement date and is included in the Profit and Loss Account. Unrealised gains or losses are fair valued in accordance with the accounting policy stated in Note 1 and the resulting movement in the unrealised gain or loss is recorded in the Profit and Loss Account.

The Funds also enter into forward foreign exchange contracts as a way of managing foreign exchange risk for shareholders of foreign currency classes and for hedging non-USD CDS. Forward foreign currency exchange contract commitments are marked to market at the applicable translation rates and any resulting unrealised gains or losses are recorded in the Profit and Loss Account. Gains and losses on these forward currency transactions are allocated to the share class in respect of which the contract was entered into.

Details of the forward foreign exchange contracts in place by the Funds as at 31 December 2016 are outlined in the Portfolios of Investments.

# Efficient Portfolio Management

The Funds primarily use efficient portfolio management techniques for four purposes:

- 1. as a way to create long credit positions by selling default protection on corporate bond issuers;
- 2. for the Enhanced IG Fund, the Enhanced Global IG and the Market Neutral UCITS Fund, to create short credit positions by purchasing default protection on corporate bond issuers;
- 3. as a means of offsetting or closing out written or purchased protection or, to offset the default risk of a corporate bond that is held by the Fund;
- 4. to manage interest rate and foreign exchange risk

#### 2. FINANCIAL DERIVATIVE INSTRUMENTS (continued)

#### **Efficient Portfolio Management (continued)**

The IG Corporate Bond Fund and Global IG Corporate Fund have long credit exposures only. The Enhanced IG Fund and the Enhanced Global IG Fund are managed to have long and short portfolios, but maintain at all times a net long credit exposure. The Market Neutral UCITS Fund is managed to have long and short portfolios but aims to be essentially 'market neutral'. For the Market Neutral UCITS Fund, the portfolios are constructed such that exposures to marketwide movements in credit spreads in the long and short portfolios are expected to offset, and the returns are expected to be driven over time by convergence of market spreads to model spreads in the long and short portfolios.

Exposures obtained through efficient portfolio management techniques are as follows:

Single name credit default swaps - The Funds use CDS as a seller of default protection referencing companies with publicly traded equity. This is intended to provide investment in the credit risk of firms where DCI believes the risk is low relative to the market price of such risk. An advantage of a credit default swap relative to a corporate bond, or other debt instrument, is that it enables the Funds to take very specific, liquid, cost effective exposure to a specific company's credit. The pricing of the credit spread risk is liquid and transparent and market makers publish and update pricing information intra-day and daily.

The Enhanced IG Fund, the Enhanced Global IG Fund and the Market Neutral UCITS Fund also use CDS to 'short' the credit risk of firms where DCI believes the risk is higher than the market price of such risk by purchasing default protection on such firms. All of the Funds may purchase protection in a CDS contract for the purpose of closing out or offsetting\_an existing written protection position, or, in the case of the IG Corporate Bond Fund, the Global IG Corporate Fund, the Enhanced IG Fund, the Enhanced Global IG Fund, to offset the risk of a corporate bond held by the Fund. In addition, all Funds may purchase protection in a CDS contract for the purpose of offsetting counterparty credit exposure.

The following are CDS notional exposures contained in the Funds' credit portfolios:

Fund - 31 December 2016	CDS Notional Sold Protection (long) US\$	CDS Notional Bought Protection (short) US\$
DCI Investment Grade Corporate Bond Fund (UCITS)	-	-
DCI Global Investment Grade Corporate Bond Fund (UCITS)	(3,000,000)	-
DCI Enhanced Investment Grade Corporate Credit Fund (UCITS)	(161,500,000)	161,250,000
DCI Market Neutral Credit Fund (UCITS)	(19,900,000)	19,500,000
DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS)	(60,100,000)	60,250,000
	CDS Notional Sold	CDS Notional Bought
Fund - 31 December 2015	CDS Notional Sold Protection (long)	CDS Notional Bought Protection (short)
Fund - 31 December 2015		· ·
Fund - 31 December 2015  DCI Investment Grade Corporate Bond Fund (UCITS)	<b>Protection (long)</b>	Protection (short)
	Protection (long) US\$	Protection (short)
DCI Investment Grade Corporate Bond Fund (UCITS)	Protection (long) US\$ (24,000,000)	Protection (short)
DCI Investment Grade Corporate Bond Fund (UCITS) DCI Global Investment Grade Corporate Bond Fund (UCITS)	Protection (long) US\$ (24,000,000) (15,000,000)	Protection (short) US\$

As at 31 December 2016, there was no CDS Notional exposure contained in DCI High Yield Corporate Bond Fund (Feeder) as its Master Fund, DCI High Yield Corporate Bond Fund (ICAV) did not hold any CDS positions.

2. Interest rate swaps and exchange traded futures - the Funds will aim to earn excess returns from credit risk. However, in addition to the return achieved from credit risk, overall returns may be significantly affected by movements in interest rates. Because the Funds' investment portfolio will have varying interest rate risk depending on their portfolio composition at any given time, the Funds may seek to hedge interest rate risk to a target interest rate risk profile using interest rate swaps and treasury futures. The Funds will hedge their interest rate risk exposure to an exposure profile as provided in the Supplements to the Prospectus.

# 2. FINANCIAL DERIVATIVE INSTRUMENTS (continued)

# **Efficient Portfolio Management (continued)**

The Funds' exposures to interest rate swaps and exchange traded futures can be expressed in terms of the impact of these risk reducing positions on the overall duration of the portfolio. See note 8.c) which presents the interest rate durations for each Fund and target interest rate profile.

3. Forward foreign exchange contracts - the Funds may invest in non-US Dollar denominated assets and may issue shares in multiple currencies. The non-US Dollar denominated shares will be designated by separate share classes (as defined in the Funds Documents). In order to mitigate exchange rate risk of the non-dollar share classes or hedge currency risk in its portfolios, DCI utilises spot and Forward Foreign Exchange Contracts to execute a currency overlay program (the spot transaction, along with the Forward Foreign Exchange Contracts being called a "Foreign Exchange Swap"). Forward Foreign Exchange Contracts are used to purchase or sell a specific currency at a future date at a price set at the time of the contract. See note 8.b) that presents the Funds' foreign exchange exposures.

Fees and expenses paid to the statutory auditors, Deloitte, in respect of the financial year, relate to the audit of the financial statements and the tax advice provided by Deloitte Germany, Austria and Switzerland. Independent auditor's fees charged for the financial year ended 31 December 2016 were US\$122,260 (31 December 2015: US\$139,581). Deloitte & Touche Germany, Austria and Switzerland charged fees in respect of tax advice amounting to US\$110,461 (31 December 2015: US\$67,584).

There were no fees or expenses paid in respect of other assurance or non-audit services provided by the auditors for the financial year ended 31 December 2016 or 31 December 2015.

## 5. REDEEMABLE PARTICIPATING SHARES AND SHARE CAPITAL (continued)

The authorised share capital of the Company is €300,000, divided into 300,000 redeemable non-participating shares of €1.00 each and 500,000,000,000,000 Shares of no par value. The minimum issued share capital of the Company is 300,000 redeemable non-participating shares of €1.00 each. The maximum issued share capital of the Company is 300,000 redeemable non-participating shares of €1.00 each and 500,000,000,000 Shares of no par value. Non-participating shares do not entitle the holders thereof to any dividend and on a winding up entitle the holders thereof to receive the amount paid up thereon but do not otherwise entitle them to participate in the assets of the Company. The Directors have the power to allot shares in the capital of the Company on such terms and in such manner as they may think fit. Of the 300,000 redeemable non-participating shares currently in issue there are two which were taken by the subscribers to the Company and are held by nominees of the Investment Manager.

The Classes of Shares designated in the Funds are distinguished by (i) currency; (ii) interest rate profile (duration); (iii) the use of financial instruments to hedge against currency risk; (iv) different Minimum Subscription levels; (v) different investment management fee arrangements; and (vi) dividend policy.

#### 7. FEES

#### **Management Fees**

#### DCI Investment Grade Corporate Bond Fund (UCITS)

The Investment Manager is entitled to charge a fee of up to 150 basis points (1.50%) per annum of the net asset value of the IG Corporate Bond Fund. The fee payable to the Investment Manager is calculated and accrued daily based on the daily net asset value of the Shares and is paid monthly in arrears. The Investment Manager is also entitled to be reimbursed for reasonable out-of-pocket expenses incurred on behalf of the IG Corporate Bond Fund. The actual fee rate charged was 0.25% (2015: 0.25%). Management fees charged for the financial year ended 31 December 2016 were USD 6,619,807 (31 December 2015: USD 9,289,825).

## DCI Global Investment Grade Corporate Bond Fund (UCITS)

The Investment Manager is entitled to charge a fee of up to 75 basis points (0.75%) per annum of the net asset value of the Global IG Corporate Fund. The fee payable to the Investment Manager is calculated and accrued daily based on the daily net asset value of the Shares and is paid monthly in arrears. The Investment Manager is also entitled to be reimbursed for reasonable out-of-pocket expenses incurred on behalf of the Global IG Corporate Fund. The actual fee rates charged for the period ended 31 December 2016 were 0.25% for the institutional share classes and 0.50% for the remaining ordinary share classes (2015: 0.25% and 0.50% respectively). Management fees charged for the financial year ended 31 December 2016 were USD 1,412,358 (31 December 2015: USD 1,223,771).

#### DCI Enhanced Investment Grade Corporate Credit Fund (UCITS)

The Investment Manager is entitled to charge a fee of up to 75 basis points (0.75%) per annum of the net asset value of the Enhanced IG Fund. The fee payable to the Investment Manager is calculated and accrued daily based on the daily net asset value of the Shares and is paid monthly in arrears. The Investment Manager is also entitled to be reimbursed for reasonable out-of-pocket expenses incurred on behalf of the Enhanced IG Fund. The actual fee rate charged was 0.25% for all share classes (2015: 0.25%). In addition, the Investment Manager is entitled to a performance fee which is accrued in respect of the Shares of each Class in issue during a Performance Fee Period. Such performance fee is accrued daily but only becomes payable (i.e. crystallizes) at the end of the relevant Performance Fee Period or *pro rata* upon redemptions (such accrued or crystallized performance fee, the "Performance Fee"). The Performance Fee Period is the period commencing on the effective date of the issuance of shares and ending on the subsequent 30 June or 31 December.

A Performance Fee accrual will be calculated on a daily basis as ten per cent (10%) of the daily return of the Enhanced IG Fund above the Hurdle Rate. If the daily return of the Enhanced IG Fund is below the Hurdle Rate, such underperformance will offset the Performance Fee accrual, if any, for that Performance Fee Period.

The Hurdle Rate in respect of the Index Duration share classes for a Performance Fee Period is equal to the return of the Barclays U.S. Intermediate Corporate Bond Index as of the Valuation Point as reported on Barclays' website. The Hurdle Rate in respect of Zero Duration share classes for a Calculation Period is equal to the return of the Barclays U.S. Intermediate Corporate Bond Index minus the return of the Barclays U.S. Intermediate Corporate Bond Index Mirror Swap plus the return of the Barclays Capital Three Month Bellwether Swap Index.

Management fees and Performance fees charged for the financial year ended 31 December 2016 were USD 317,504 (31 December 2015: USD 439,701) and USD 139,426 (31 December 2015: USD Nil) respectively.

# DCI Market Neutral Credit Fund (UCITS)

The Investment Manager is entitled to charge a fee of up to 1.50% per annum of the net asset value of the Market Neutral UCITS Fund. The fee payable to the Investment Manager is calculated and accrued daily based on the daily net asset value of the Shares, and is paid monthly in arrears. The Investment Manager is also entitled to be repaid its reasonable out-of-pocket expenses out of the assets of the Market Neutral UCITS Fund. The actual fee rate charged was 0.25% (2015: 0.25%). In addition, the Investment Manager is entitled to a performance fee which is accrued in respect of the Shares of each Class in issue during a Performance Fee Period. Such performance fee is accrued daily but only becomes payable (i.e. crystallizes) at the end of the relevant Performance Fee Period or *pro rata* upon redemptions (such accrued or crystallized performance fee, the "Performance Fee"). The Performance Fee Period is the period commencing on the effective date of the issuance of shares and ending on the subsequent 30 June or 31 December.

A Performance Fee accrual is calculated on a daily basis as twenty per cent (20%) of the daily return of the Market Neutral UCITS Fund above the Hurdle Rate. If the daily return of the Market Neutral UCITS Fund is below the Hurdle Rate, such underperformance will offset the Performance Fee accrual, if any, for that Performance Fee Period.

#### 7. FEES (continued)

#### **Management Fees (continued)**

#### DCI Market Neutral Credit Fund (UCITS) (continued)

The "Hurdle Rate" is the prorated 1 month LIBOR rate of return, set monthly in advance. LIBOR for these purposes is the rate fixed by ICE Benchmark Administration Limited for one month deposits in the designated currency of the relevant class of the Market Neutral UCITS Fund (as appropriate) expressed as an annual percentage, based on a 360 day year and subject to a maximum in each case of 10 per cent per annum.

Management fees and Performance fees charged for the financial year ended 31 December 2016 were USD 12,984 (31 December 2015: USD 61,723) and USD 66,409 (31 December 2015: Nil) respectively.

## DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS)

The Investment Manager is entitled to charge a fee of up to 0.75% per annum of the Net Asset Value of the Enhanced Global IG Fund. The fee payable to the Investment Manager is calculated and accrued daily based on the net asset value of the Shares and is paid monthly in arrears. The Investment Manager is also entitled to be repaid its reasonable out-of-pocket expenses out of the assets of the Enhanced Global IG Fund. The actual fee rates charged for the period ended 31 December 2016 were 0.40% for the institutional share classes and 0.75% for the remaining ordinary share classes (2015: 0.40% and 0.75% respectively). The Investment Manager is also entitled to a performance fee which shall be accrued in respect of the Shares of each Class in issue during a Performance Fee Period. Such performance fee will be accrued daily but will only become payable (i.e. crystallize) at the end of the relevant Performance Fee Period or *pro rata* upon redemption (such accrued or crystallized performance fee, the "Performance Fee").

A Performance Fee accrual is calculated on a daily basis as ten per cent (10%) of the daily return of the Enhanced Global IG Fund above the Hurdle Rate. The Hurdle Rate in respect of the Index Duration share classes for a Calculation Period is equal to the return of the Barclays Global Aggregate Corporate Bond Index. The Hurdle Rate in respect of Zero Duration share classes for a calculation period is the return of the index minus the return of the Barclays Global Aggregate Corporate Bond Index Mirror Swap ("Mirror Swap") plus the return of the Barclays Three Month Bellwether Swap Index. If the daily return of the Enhanced Global IG Fund is below the Hurdle Rate, such underperformance will offset the Performance Fee accrual, if any, for that performance fee period.

Management fees and Performance fees charged for the year ending 31 December 2016 were USD 303,715 (31 December 2015: USD 497,038) and USD 572 (31 December 2015: USD Nil) respectively.

#### DCI High Yield Corporate Bond Fund (Feeder)

There were no Management fees or Performance fees charged for the period ended 31 December 2016 in respect of DCI High Yield Corporate Bond Fund (Feeder). Investment Manager fees are paid from the Master Fund.

#### **Administration and Depositary Fees**

The Administrator and Depositary shall each be entitled to receive out of the assets of the Funds an annual fee attributable to each share class. The fee payable by the Funds to the Administrator and the Depositary shall be approximately 0.05% each per annum of the Net Asset Value attributable to each share class. The fee percentage may decrease as the Net Asset Value of the Company increases. Any changes to administration or depositary fees will be detailed in revised fee agreements.

The administration and depositary fee will accrue daily and be payable monthly in arrears. The Administrator shall also be entitled to be paid its reasonable and properly vouched out-of-pocket expenses out of the assets of the Funds. The Depositary shall also be entitled to be repaid all of its disbursements out of the assets of the Funds including the fees and expenses of any sub-custodian which shall be at normal commercial rates. The Depositary's fees are for both custody and trustee services.

## **Transaction costs**

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

#### 7. FEES (continued)

#### **Transaction costs (continued)**

In the case of debt securities and financial derivative instruments, any transaction costs are generally included in the purchase price paid for the security or instrument. As such, there are no transaction costs disclosed separately in these financial statements. The impact of any such transaction costs which are not separately identifiable is included in the Profit and Loss Account as part of the various realised and unrealised gains or losses on investments, futures, swaps and foreign currencies lines.

#### **Commitment Fees**

The Commitment fee facility expired in May 2016 and was replaced by a \$300,000,000 uncommitted borrowing facility with Northern Trust under an agreement established on 20 May 2016. The uncommitted borrowing facility is available to DCI Investment Grade Corporate Bond Fund (UCITS), DCI Global Investment Grade Corporate Bond Fund (UCITS), DCI Enhanced Investment Grade Corporate Credit Fund (UCITS) and DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS).

#### **Sales Charge**

There will be no sales charge for any share class of the Funds.

## 8. RISK MANAGEMENT POLICIES AND OBJECTIVES

#### Financial risk management objectives

#### **DCI Investment Grade Corporate Bond Fund (UCITS)**

The capital of the IG Corporate Bond Fund is provided entirely by shareholders and there is no debt in the capital structure. The management of the IG Corporate Bond Fund's investment objectives is delegated to DCI, LLC, the Investment Manager, with the objective of producing absolute returns, net of fees and expenses above the performance of a profile of cash flows approximating the interest rate profiles of the share classes. The interest rate profile for share classes with the Index Duration Interest Rate Profile will be targeted to approximate the profile of the Barclays U.S. Intermediate Corporate Bond Index. The IG Corporate Bond Fund's Directors monitor performance monthly.

The IG Corporate Bond Fund is "long only" and all assets are marked to market daily; therefore the main driver of capital value is the value of US Dollar and Euro Dollar denominated corporate credit assets, namely bonds held and single name credit default swaps written by the IG Corporate Bond Fund. The credit risk in the IG Corporate Bond Fund's assets is dynamically managed and high levels of diversification are maintained in an effort to minimise volatility of credit return. Interest rate and currency risk are hedged to specific profiles as noted above and included in the IG Corporate Bond Fund's Supplement. The IG Corporate Bond Fund trades with counterparties strictly on a collateralised basis to minimise the exposure of its capital to counterparty failure.

## DCI Global Investment Grade Corporate Bond Fund (UCITS)

The capital of the Global IG Corporate Fund is provided entirely by shareholders.

The management of the Global IG Corporate Fund's investment objectives is delegated to DCI, LLC, the Investment Manager, with the objective of maximising return relative to risk for the investors while exceeding the benchmark return, the Barclays Global Aggregate Corporate Bond Index (hedged to share class currency). The Global IG Corporate Fund's Directors monitor performance monthly.

The Global IG Corporate Fund is "long only" and all assets are marked to market daily; therefore the main driver of capital value is the value of US Dollar and Euro Dollar denominated corporate credit assets, namely bonds held and single name credit default swaps written by the Global IG Corporate Fund. The credit risk in the Global IG Corporate Fund's assets is dynamically managed and high levels of diversification are maintained in an effort to minimise volatility of credit return. Interest rate and currency risk are hedged to specific profiles as noted above and included in the Global IG Corporate Fund's Supplement. The Global IG Corporate Fund trades with counterparties strictly on a collateralised basis to minimise the exposure of its capital to counterparty failure.

#### 8. RISK MANAGEMENT POLICIES AND OBJECTIVES (continued)

Financial risk management objectives (continued)

#### DCI Enhanced Investment Grade Corporate Credit Fund (UCITS)

The capital of the Enhanced IG Fund is provided entirely by shareholders. All leverage is achieved through the leverage inherent in the use of credit default swaps and other financial derivative instruments within the limit of the Enhanced IG Fund's investment objective and policies, as such there is no debt in the capital structure.

The management of the Enhanced IG Fund's investment objectives is delegated to DCI, LLC, the Investment Manager, with the objective of maximising return on risk for the investors while exceeding the benchmark return applicable to the interest rate profile of the relevant share class. The interest rate profile for share classes with the Index Duration Interest Rate Profile will be targeted to approximate the profile of the Barclays U.S. Intermediate Corporate Bond Index. The interest rate profile for share classes with the Zero Duration Interest Rate Profile will be targeted to approximate the profile of three month LIBOR rate for the relevant share class currency. LIBOR for these purposes is the Barclays Capital Three Month Bellwether Swap Index. The Enhanced IG Fund's Directors monitor performance monthly.

The investment strategy of the Enhanced IG Fund is "net long, long-short" and all assets are marked to market daily. The credit risk in the Enhanced IG Fund's assets is dynamically managed and high levels of diversification are maintained in an effort to limit volatility of credit return. Interest rate and currency risk are hedged to specific profiles. The Enhanced IG Fund trades with counterparties strictly on a collateralised basis to minimise the exposure of its capital to counterparty failure. Independent amounts of collateral may be required by some counterparties for the Enhanced IG Fund. The Enhanced IG Fund's strategy has remained unchanged since its launch in 2008.

#### DCI Market Neutral Credit Fund (UCITS)

The capital of the Market Neutral UCITS Fund is provided entirely by shareholders. All leverage is achieved through the leverage inherent in the use of credit default swaps and other financial derivative instruments within the limit of the Market Neutral UCITS Fund's investment objective and policies, as such there is no debt in the capital structure.

The management of the Market Neutral UCITS Fund's investment objectives is delegated to DCI, LLC, the Investment Manager, with the objective of maximising return on risk for the investors while exceeding a LIBOR benchmark return. LIBOR for these purposes is the rate fixed by ICE Benchmark Administration Limited for one month deposits in the designated currency of the relevant class of the Market Neutral UCITS Fund (as appropriate).

The Investment Manager manages the Market Neutral UCITS Fund's investments by creating long and short credit exposure. The strategy aims to exploit market opportunities with respect to the relative value of corporate credit risk as identified by the Investment Manager, applying a quantitatively driven approach to asset selection and portfolio construction. Interest rate and currency risk are hedged to specific profiles as noted above and included in the Market Neutral UCITS Fund's Supplement. The Market Neutral UCITS Fund trades with counterparties strictly on a collateralised basis to minimise the exposure of its capital to counterparty failure. Independent amounts of collateral are required by counterparties for the Market Neutral UCITS Fund. In order to manage this risk these amounts are posted to legally segregated accounts at JP Morgan.

## DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS)

The capital of the Global Enhanced IG Fund is provided entirely by shareholders. All leverage is achieved through the leverage inherent in the use of credit default swaps and other financial derivative instruments within the limit of the Global Enhanced IG Fund's investment objective and policies, as such there is no debt in the capital structure.

The management of the Global Enhanced IG Fund's investment objectives is delegated to DCI, LLC, the Investment Manager, with the objective of maximising return on risk for the investors while exceeding the return of the Barclays Global Aggregate Corporate Bond Index hedged to US Dollars (the "Index"). The Index provides a broad-based measure of the global investment grade corporate fixed-rate debt market.

The investment strategy of the Global Enhanced IG Fund is "net long, long-short" and all assets are marked to market daily. The credit risk in the Global Enhanced IG Fund's assets is dynamically managed and high levels of diversification are maintained in an effort to limit volatility of credit return. Interest rate and currency risk are hedged to specific profiles. The Global Enhanced IG Fund trades with counterparties strictly on a collateralised basis to minimise the exposure of its capital to counterparty failure. Independent amounts of collateral may be required by some counterparties for the Global Enhanced IG Fund.

#### 8. RISK MANAGEMENT POLICIES AND OBJECTIVES (continued)

Financial risk management objectives (continued)

#### **DCI High Yield Corporate Bond Fund (Feeder)**

For a detailed description of the financial instruments and associated risks of an investment in the Master Fund, please refer to note 8 of the audited financial statements of DCI UCITS ICAV.

DCI Investment Grade Corporate Bond Fund (UCITS), DCI Global Investment Grade Corporate Bond Fund (UCITS), DCI Enhanced Investment Grade Corporate Credit Fund (UCITS), DCI Market Neutral Credit Fund (UCITS), DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS) and DCI High Yield Corporate Bond Fund (Feeder) (collectively, "the Funds") are risk-managed with the objective of creating growth in net asset value above that of each Fund's targeted benchmark, with low volatility of returns. The primary financial exposure is to credit spreads and this risk is adjusted dynamically in response to real time information on default risk and market pricing. Exposure to interest rates and currency are managed to specific targets, within tolerances agreed in advance with the investors, using swaps, futures and other derivatives.

Both the Investment Manager and the Company have established Risk Committees, and each meets at least quarterly to review performance, monitor risk parameters and amend the risk limit framework if required. The Company's Board meeting agenda includes regular reports from the Company's Risk Committee.

Real time risk reporting is available from the Investment Manager's proprietary portfolio management system. Key risk limits are set in advance of trading and exposure against these limits is measured continuously. Limit breaches are reported automatically by the system and monitored by the Investment Manager's Chief Compliance Officer and Head of Operations.

The Investment Manager may use derivative instruments for investment purposes, efficient portfolio management and to attempt to manage the risk of the Funds' investments.

The main risks arising from the Funds' financial instruments are market price, interest rate, foreign currency, liquidity and credit risks.

a) Market risk (See Portfolio of Investments for details of investment positions)

The Funds are exposed to changes in the market value of credit assets, (US Dollar and Euro Dollar denominated corporate bonds and single name default swaps). This risk is managed by changing the weights of individual assets in response to changing default risk (as measured by the fund manager's proprietary risk measurement system) and to changing credit spreads. Maintaining a high level of diversification in the Funds is a priority.

b) Foreign currency risk management. (See Portfolio of Investments for details of positions).

The Funds invest in US Dollar and Euro Dollar denominated assets. The share classes are denominated in a variety of currencies as set out on note 5.

These exposures are hedged with a rolling 90 day FX forward program. The Funds are responsible for executing the hedge accurately and thereafter the investor takes responsibility for the economic consequences of the hedged foreign currency cash flows. Therefore the Funds themselves are not directly exposed to currency movements.

# 8. RISK MANAGEMENT POLICIES AND OBJECTIVES (continued)

Sensitivity Analysis

At 31 December 2016, had the base currency strengthened by 5% in relation to the currency exposure of the classes, with all other variables held constant, net assets attributable to holders of redeemable shares and the change in net assets attributable to holders of redeemable shares per the profit and loss account would have changed by the values in the sensitivity analysis column indicated in the table above. A 5% weakening of the base currency would have resulted in an equal but opposite effect on the above financial statement amounts, on the basis that all other variables remain constant. The analysis is performed on the same basis for 2015.

c) Interest rate risk management (See Portfolio of Investments for details of positions).

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The funds' supplements stipulate that each fund hedges its interest rate risk to the target interest rate risk profile using interest rate swaps, government securities, notes and futures. Each fund uses combinations of these hedging instruments to minimise the expected variance of the portfolio with the interest rate profile set for each share class.

The allocation of gains or costs arising from the financial instruments used for the various interest rate hedging strategies (including relevant unwinding costs) is allocated to the relevant share class only. The share classes are not leveraged as a result of such hedging strategies.

A 1% increase in interest rates would decrease the value of the index duration classes by 6.24%.

## 8. RISK MANAGEMENT POLICIES AND OBJECTIVES (continued)

#### Financial risk management objectives (continued)

#### d) Credit risk management

The Funds are exposed to two types of credit risk:

Firstly, they purchase and hold US Dollar and Euro Dollar denominated, corporate credit risk assets, either as corporate bonds or as single name CDS positions. The credit (i.e. default) risk arising from this portfolio is dynamically managed by the maintenance of a highly diversified portfolio of assets, adjusting individual position weightings to changing default risk and to changing credit spreads, both of which are monitored by the portfolio management system.

The following table shows the Funds' corporate credit exposures rated Investment Grade by S&P or Moody's as follows:

	2016	2015
	% of NAV	% of NAV
DCI Investment Grade Corporate Bond Fund (UCITS)	89%	91%
DCI Global Investment Grade Corporate Bond Fund (UCITS)	90%	93%
DCI Enhanced Investment Grade Corporate Credit Fund (UCITS)	236%	189%
DCI Market Neutral Credit Fund (UCITS)*	51%	504%
DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS)	203%	220%

<sup>\*</sup> This Fund received a significant inflow on 23 December 2016 and did not immediately invest the capital in single name CDS. The new capital was invested in cash equivalents resulting in a lower than normal corporate credit exposure as at 31 December 2016.

As at 31 December 2016, there was no CDS Notional exposure contained in DCI High Yield Corporate Bond Fund (Feeder) as its Master Fund, DCI High Yield Corporate Bond Fund (ICAV) did not hold any CDS positions.

Secondly, they are exposed to counterparty credit risk arising from trades which the Funds undertake with external counterparties. These exposures arise from the following trade types:

- 1) The Funds sell default protection on a corporate entity. In this case, exposure to the counterparty is small because the Funds only rely on the counterparty to deliver a stream of premium payments for the protection.
- 2) The Funds purchase default protection on a corporate entity. Here the exposure to the counterparty is greater because the Funds will be owed a substantial payment by the counterparty in the event that the reference credit defaults at a future date.
- 3) The Funds transact interest rate swaps and foreign exchange forward contracts with counterparties and are exposed to a future stream of payments due to and from the counterparty as the market value of the underlying trades changes.

The counterparty risks described above are mitigated by the Funds' policy of trading only on a bilateral collateralised basis under ISDA agreements, whereby positions are re-valued daily and eligible collateral is passed to the 'in the money' party. In the event of a counterparty failure, the Fund's credit exposure is limited to changes in collateral value during the period that the underlying trade is entered into with a new counterparty and the collateral is liquidated. Independent amounts are required by counterparties for DCI Enhanced Investment Grade Corporate Credit Fund (UCITS), DCI Market Neutral Credit Fund (UCITS) and DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS). In the case of the two latter, the majority of the independent amounts are posted to JP Morgan, which provides credit intermediation to the Funds. In this case, this risk is managed by posting the collateral to a legally segregated account at JP Morgan. Please see note 11 for more details on collateral. In the DCI Enhanced Investment Grade Corporate Credit Fund (UCITS), any independent amounts required above a threshold established by the Investment Manager are managed through buying protection on the counterparty.

Total	100.33%	101.49%	206.22%	610.88%	238.27%

The above percentages include corporate and government bonds and the notional amount of protection sold on credit default swaps.

At 31 December 2016, the Company had derivatives contracts outstanding with the following counterparties:

Bank of America	Credit Swiss	Morgan Stanley
BNP	Goldman Sachs	Northern Trust
Barclays	HSBC	Societe General
Citibank	JP Morgan	UBS

Substantially all of the cash assets are held with The Northern Trust Company (TNTC). Cash deposited with TNTC is deposited as banker and is held on its Balance Sheet. Accordingly, in accordance with usual banking practice, the Bank's liability to the Company in respect of such cash deposits shall be that of debtor and the Company will rank as a general creditor of TNTC. The financial instruments held in custody are held with the Depositary, Northern Trust Fiduciary Services (Ireland) Limited. These assets are held distinct and separately from the proprietary assets of the Depositary. Securities are clearly recorded to ensure they are held on behalf of the Company. Bankruptcy or insolvency of the Depositary and or one of its agents or affiliates may cause the Company rights with respect to the securities held by the Depositary to be delayed.

Both Northern Trust Fiduciary Services (Ireland) Limited and The Northern Trust Company, London Branch are wholly owned subsidiaries of Northern Trust Corporation.

#### 8. RISK MANAGEMENT POLICIES AND OBJECTIVES (continued)

## Financial risk management objectives (continued)

#### d) Credit risk management (continued)

As at 31 December 2016 Northern Trust Corporation had a long term rating from Standard & Poor's of A+ (31 December 2015: A+).

Risk is managed by monitoring the credit quality and financial positions of the Depositary the Fund uses.

Northern Trust acts as its own sub-custodian in the U.S., the U.K., Ireland and Canada. In all other markets Northern Trust appoints a local sub - custodian. Northern Trust continually reviews its sub-custodian network to ensure clients have access to the most efficient, creditworthy and cost-effective provider in each market.

#### e) Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

The Funds invest in the high grade US Dollar corporate credit market. The Funds' liquidity management process is based on their ability to sell these assets rapidly to meet redemption requests, the main cause of cash calls on the Funds, or other cash demands.

The liquidity profile of the Funds' liabilities as at 31 December 2016 was as follows:

DCI Investment Grade Corporate Bond Fund			Greater than 5

#### 8. RISK MANAGEMENT POLICIES AND OBJECTIVES (continued)

## Financial risk management objectives (continued)

#### e) Liquidity Risk (continued)

Liquidity in all the financial instrument markets varies and so temporary reductions in liquidity are probable, even in the high grade corporate credit market. The Funds are allowed to protect against this risk by limiting daily redemptions if aggregate redemption requests exceed 10% of the total number of shares in issue (on a per-Fund basis).

Since inception, the Funds have been able to satisfy all redemption requests even when liquidity in the corporate credit markets was reduced due to the 2008 and 2009 market events.

## f) Other price risks – VaR analysis

The Company uses VaR which is an advanced risk measurement methodology in order to assess each Fund's market risk volatility and to ensure that the leverage effect of using derivatives is not significant enough to cause disproportionate loss to the overall value of each Fund. More particularly, the VaR approach measures the maximum potential loss at a given confidence level (probability) over a specific time period under normal market conditions. When the VaR is calculated as a percentage of the Net Asset Value of each Fund (absolute VaR), it may not be greater than 20% of the Net Asset Value of the Fund. The VaR will be calculated daily using a 99% confidence level, twenty (20) day holding period, and the historical observation period will not be less than one year unless a shorter period is justified. VaR analysis is based on historical data which may not reflect future patterns. The VaR model used by the Investment Manager is a hybrid model, combining the historical simulation approach with the Monte Carlo simulation approach.

The table below shows the VaR calculations for the year:

Fund	VaR 31-Dec-2016	Highest VaR during 2016	Lowest VaR during 2016	Average VaR during 2016
DCI Investment Grade Corporate Bond Fund (UCITS)	3.39%	5.54%	2.62%	3.88%
DCI Global Investment Grade Corporate Bond Fund (UCITS)	4.71%	5.07%	4.31%	4.90%
DCI Enhanced Investment Grade Corporate Credit Fund (UCITS)	3.46%	5.48%	1.84%	3.77%
DCI Market Neutral Credit Fund (UCITS)	0.50%	3.91%	0.50%	2.82%
DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS)	4.44%	5.18%	4.38%	4.84%
The VaR calculations for 2015:  Fund	VaR 31-Dec-2015	Highest VaR during 2015	Lowest VaR during 2015	Average VaR during 2015
DCI Investment Grade Corporate Bond Fund (UCITS)	5.44%	5.90%	4.41%	5.32%

DCI Enhanced Global Investment Grade Corporate Credit Fund (UCITS)	2.40%	2.73%	0.97%	2.00%

#### 8. RISK MANAGEMENT POLICIES AND OBJECTIVES (continued)

## Financial risk management objectives (continued)

#### g) Fair value measurement

FRS 102 requires the Company to classify financial instruments measured at fair value.

In March 2016 amendments were made to this FRS, revising the disclosure requirements for financial institutions. The Company has availed of the option to early adopt this amendment. The amendment will be mandatory for accounting periods beginning on or after 1 January 2017.

Level 1 - The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable (ie developed using market data) for the asset or liability, either directly or indirectly.

Level 3 - Inputs are unobservable (ie for which market data is unavailable) for the asset or liability.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value.

For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is classified as a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The following table analyses within the fair value hierarchy the Funds' financial assets and liabilities measured at fair value at 31 December 2016:

	DCI Investment Grade Corporate Bond Fund (UCITS)

#### 8. RISK MANAGEMENT POLICIES AND OBJECTIVES (continued)

## Financial risk management objectives (continued)

#### g) Fair value measurement (continued)

Investments whose values are based on quoted market prices and traded in active markets are classified within Level 1, and include Asset Backed Securities, Government Bonds, U.S Government and Agency Obligations, Repurchase Agreements and Futures Contracts.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include Corporate Bonds, Credit Default Swaps, Interest Rate Swaps and Forward Foreign Exchange Contracts.

Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently or not at all. Level 3 instruments typically include private equity and some corporate debt securities. Valuation techniques are used to derive the fair value of Level 3 investments. There are no Level 3 investments.

Corporate Bonds have been reclassified from Level 1 to Level 2 and Government Bonds have been reclassified from Level 2 to Level 1 in line with the 2016 fair value tables above.

The following tables show the 2015 comparatives:

	DCI Investment Grade Corporate Bond Fund (UCITS)

#### 9. TRANSACTIONS WITH RELATED PARTIES

FRS 102 requires the disclosure of information relating to material transactions with parties who are deemed to be related to the reporting entity.

Related parties include the Investment Manager who is listed on page 1. Fees charged by and payable to the Investment Manager are disclosed in notes 3 and 4. Fee arrangements are disclosed in note 7.

Richard Donick, Director of the Company, is an employee of the Investment Manager and Distributor. Each Director is entitled to such remuneration for services as the Directors may determine. Richard Donick has waived the fee for his services as Directors of the Company.

Stephen Kealhofer, Managing Principal of the Investment Manager, holds 66,170 (31 December 2015: 45,847) shares respectively in Class A USD Inst. of DCI Market Neutral Credit Fund (UCITS).

The aggregate remuneration paid to the Directors in respect of qualifying services (including expenses and liability insurance premiums) for the year are disclosed in notes 3 and 4.

Apart from disclosures above, and in notes 3 and 4, any further disclosures required by section 305 and 306 of the Companies Act 204 are nil for both financial years.

#### 10. TAXATION

Under current law and practice, the Funds qualify as investment undertakings as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. They are not charged Irish tax on income or capital gains. However, a tax can arise on the happening of a "chargeable event" to the Funds. A chargeable event includes any distribution payments to shareholders or any encashment, redemption or transfer of shares. Any tax arising on a chargeable event is a liability of the shareholders, albeit it is paid by the Funds (although if the Funds fail to deduct the tax or the correct amount of tax it becomes ultimately a liability of the Funds). No tax will arise in respect of chargeable events in respect of a shareholder who is an Exempt Irish Investor (as defined in Section 739D of the Taxes Consolidation Act, 1997, as amended) or who is neither Irish resident nor Irish ordinarily resident at the time of the chargeable event provided that the necessary signed declaration is in place.

Where the Company has a concession from the Revenue Commissioners it may be possible to obtain an exemption from the requirement to have a valid non-resident declaration in place. Dividend income, interest received and capital gains may be subject to non-recoverable withholding tax in the country of origin.

## 11. COLLATERAL POSITIONS

As at 31 December 2016, the following Funds have pledged the following amounts of cash and bonds as collateral against swap agreements:

		31 December 2016 US\$	31 December 2015 US\$

There have been no other significant events affecting the Company since 31 December 2016 that require recognition or disclosure in these financial statements.

#### 17. SIGNIFICANT EVENTS DURING THE YEAR

DCI Global Investment Grade Corporate Bond Fund (UCITS) Class A USD Dist (I) was fully redeemed on 16 December 2016 and Class A USD Inst Dist (Z) was fully redeemed on 31 August 2016.

DCI High Yield Corporate Bond Fund (Feeder) commenced operations on 2 December 2016.

The Commitment fee facility expired in May 2016 and was replaced by a \$300,000,000 uncommitted borrowing facility with Northern Trust under an agreement established on 20 May 2016.

Effective 1 April 2016, the official performance benchmark for the DCI Investment Grade Corporate Bond Fund (UCITS) was changed to the Barclays U.S. Intermediate Corporate Bond Index from the Barclays U.S. Corporate Bond Index.

Effective 1 April 2016, the official performance benchmark for the DCI Enhanced Investment Grade Corporate Credit Fund (UCITS) was changed to the Barclays U.S. Intermediate Corporate Bond Index from the Barclays Global Aggregate Corporate Bond (U.S. Dollar Part) Index.

UCITS V Regulations became effective on 18 March 2016 and includes the following changes:

- A new depositary regime which includes a clarification of Depositary eligibility, duties, responsibilities and liabilities;
- Rules governing remuneration policies of UCITS managers consistent with those under AIFMD and the Capital Requirements Directive
- The harmonisation of minimum administrative sanctions regime across member states rules.

There have been no other significant events affecting the Company during the year that require recognition or disclosure in these financial statements.

## 18. SECURITIES FINANCING TRANSACTIONS REGULATIONS

The Securities Financing Transaction Regulation, as published by the European Securities and Markets Authority, aims to improve the transparency of the securities financing markets. Disclosures regarding exposure to Securities Financing Transactions (SFTs) will be required on all reports and accounts published after 13 January 2017.

During the financial year ended 31 December 2016, the Company did not enter into any Securities Financing Transactions.

## 19. EXCHANGE RATES

The following table shows the exchange rates (against USD) used to convert assets and liabilities denominated in foreign currencies into USD at the year end:

Currency	31-Dec-16	31-Dec-15	31-Dec-14
Euro	1.05325	1.08590	1.21015
GBP	1.23195	1.47320	1.55880
CHF	0.98208	0.99795	1.00619
NOK	0.11578	0.11270	0.13378
SEK	0.10984	0.11824	0.12831
SGD	0.69063	0.70532	0.75534

#### 20. APPROVAL OF FINANCIAL STATEMENTS

These financial statements were authorised for issue by the Board of Directors on 24 April 2017.

Mr Paul Wymes

Dublin 2 Ireland

Attention:

#### **NOTES:**

- 1. This instrument of proxy, to be valid, must be sent so as to arrive, or be lodged, at the address printed below not later than 48 hours before the time fixed for the meeting.
- 2. In the case of a corporate shareholder, this instrument may be either under its Common Seal or under the hand of an officer or attorney authorised in that behalf.
- 3. If you wish to appoint a proxy other than the Chairman of the meeting, please insert his/her name and address and delete "the Chairman of the meeting".
- 4. If this instrument is signed and returned without any indication of how the person appointed by the Form of Proxy shall vote, he/she will exercise discretion as to how he/she votes and whether or not he/she abstains from voting.
- 5. In the case of joint holders, the vote of the senior who tenders a vote whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders and for this purpose seniority should be determined by the order in which the names stand in the register of members in respect of the joint holding.
- 6. The address to which the proxy forms should be returned is:

Northern Trust International Fund Administration Services (Ireland) Limited Georges Court 54-62 Townsend Street Dublin 2 Ireland.

Attention: Mr Paul Wymes

7. Proxy forms may be returned in the first instance by fax to +353 (0) 1 434 5273 or email **Dublin\_Corp\_Sec\_Minute\_Taking\_Team@ntrs.com** but the original should be forwarded by mail to the address shown at 6 above.

Should you have any queries in relation to the foregoing, please telephone Paul Wymes of Northern Trust International Fund Administration Services (Ireland) Limited on 00 353 1 553 9077.
