No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the Key Information Documents, the latest annual report and the latest semi-annual report.

The issue and redemption prices will be published in Luxembourg at the registered office of the Company. The net asset value will also be published daily on the Internet at www.ubs.com/funds and may be published in different newspapers.

Shareholders may obtain the prospectus, the Key Information Documents, the latest annual and semi-annual reports, the changes in the composition of the securities portfolio during the reporting period and copies of the Articles of Association free of charge from the registered office of the Company or the local representatives in the countries where the Company is registered.

Structure of the Company

Credit Suisse Index Fund (Lux) (the “Company”) is an undertaking for collective investment in transferable securities in the legal form of an investment company with variable capital (société d’investissement à capital variable, SICAV) subject to Part I of the Law of 17 December 2010 on undertakings for collective investment (“Law of 17 December 2010”) transposing Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities. The Company was established on 14 March 2012.

The board of Directors of the Company (the “Board”) has appointed Credit Suisse Fund Management S.A. as the management company of the Fund (the “Management Company”) within the meaning of Chapter 15 of the aforementioned law of 17 December 2010. The Management Company is supervised by the financial regulator of Luxembourg, Commission de Surveillance du Secteur Financier (CSSF). On 01 October 2024, Credit Suisse Fund Management S.A. was merged by absorption into UBS Fund Management (Luxembourg) S.A., and the latter was renamed UBS Asset Management (Europe) S.A. As a result, UBS Asset Management (Europe) S.A. became the Management Company of the Company on 01 October 2024.

A management agreement between the Company and the Management Company sets out the matters over which the Management Company has authority.

The Company is registered with the Luxembourg Trade and Companies Register (registre de commerce et des sociétés) under number B 167524. Its articles of incorporation (“Articles of Incorporation”) were first published in the Mémorial, Recueil des Sociétés et Associations on 23 March 2012. The legally binding version is deposited with the Luxembourg Trade and Companies Register. All amendments of the Articles of Incorporation will be and become legally binding for all shareholders (“Shareholders”) subsequent to their approval by the General Meeting of Shareholders.

The Company is organised as an “umbrella” with a number of sub-funds, each of which having its own investment objective, policies and restrictions.

As at 31 December 2024, the following subfunds are active:

Subfund	Currency of the subfund
CSIF (Lux) Bond Aggregate EUR	EUR
CSIF (Lux) Bond Corporate EUR	EUR
CSIF (Lux) Bond Corporate Global	USD

CSIF (Lux) Equity UK ESG Blue	GBP

Various share classes can be offered for the subfunds.

Information on which share classes are available for which subfund can be obtained from the UCI Administrator or at www.ubs.com/funds.

The sum of the subfunds’ net assets forms the total net assets of the Company, which at any time correspond to the share capital of the Company and consist of fully paid in and non-par-value shares (the “shares”).

The Company is a single legal entity. However, each subfund corresponds to a distinct part of the assets and liabilities of the Company.

For the purpose of the relations as between the shareholders, each subfund is deemed to be a separate entity, separate from the others. The assets of a subfund are exclusively available to satisfy the requests of that subfund and the right of creditors whose claims have arisen in connection with that subfund.

The Company is unlimited with regard to duration and total assets.

Financial Year End

The financial year of the Company ends on 31 December.

The annual and semi-annual reports are prepared based on the information from the sales prospectus in force at the closing date of the report. Only the information contained in the sales prospectus and in any of the documents referred to therein shall be deemed to be valid.

The figures stated in this report are historical and not necessarily indicative of future performance.

Annual General Meeting

The Annual General Meeting ("AGM") of Shareholders is held in Luxembourg on 21.05.2025 at 10.00 a.m. (Central European Time). If this date is not a Banking Day in Luxembourg, the AGM will take place on the next Banking Day.

At this meeting, shareholders will be requested to consider the usual matters at such meetings, including (i) the adoption of the annual accounts and approval of the allocation of the results, (ii) the discharge and renewal of Directors mandates and (iii) the renewal of the auditor's mandate.

Role and responsibility of the Board of Directors

The responsibility of the Board is governed exclusively by Luxembourg law. With respect to the annual accounts of the Company, the duties of the Directors are governed by the Luxembourg law of 10 December 2010 relating to the introduction of international accounting standards for undertakings, as amended, and the 2010 Law.

The Board usually meets quarterly and where necessary additional meetings are arranged.

The Directors take decisions in the interests of the Company and its shareholders as a whole and refrain from taking part in any deliberation or decision which creates a conflict of interest between their personal interests and those of the Company and its shareholders.

The Board may take independent professional advice if necessary and at the Company's expense.

The Board composition is defined in the section "Management and Administration" of this report. The Board does not limit the number of years of Directors' service and it does take into account the nature and requirements of the fund industry and of the Company's business when making recommendation to shareholders that Directors be elected. The terms of each Director's appointment are set out in a contract for services and these are available at the Fund's registered office for inspection.

Credit Suisse Index (Lux)
The Board

Audit report

To the Shareholders of
Credit Suisse Index Fund (Lux)

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Credit Suisse Index Fund (Lux) (the “Fund”) and of each of its sub-funds as at 31 December 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 December 2024;
- the combined statement of operations / changes in net assets for the Fund and the statement of operations / changes in net assets for each of the sub-funds for the year then ended;
- the statement of investments in securities for each of the sub-funds as at 31 December 2024; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for CSIF (Lux) Equity Emerging Markets Minimum Volatility ESG Blue which is in liquidation since 18 April 2023 and CSIF (Lux) Bond Corporate USD which has been liquidated on 3 April 2025) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

General

Credit Suisse Index Fund (Lux) ("the Company") is a Luxembourg investment company with variable capital (SICAV) and has been established on 14.03.2012. The Company has an umbrella structure and has been launched in Luxembourg as an undertaking for collective investment under Part I of the law of 17.12.2010, as amended.

As of 31.12.2024, the Company had 26 active Subfunds.

Changes:

Subfund CSIF (Lux) Equity Emerging Markets Minimum Volatility ESG Blue has been put in liquidation as of 18 April 2023.

CSIF (Lux) Equity China Total Market ESG Blue renamed into CSIF (Lux) Equity China Total Market Blue on 14 October 2024.

Summary of significant accounting policies

The financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statement undertakings for collective investments.

The financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds under the going concern basis of accounting except for the Subfund CSIF (Lux) Bond Corporate USD which was liquidated on 03.04.2025 and the Subfund CSIF (Lux) Equity Emerging Markets Minimum Volatility ESG Blue which has been put in liquidation as of 18 April 2023. As such, the financial statements for these Subfunds have been prepared on a non-going concern basis.

a) Computation of the net asset value of each Subfund.

The net asset value of each Subfund is determined each day on the basis of income/expenses accrued up to the same day, transactions in the investment portfolio accruing up to and including the preceding day and the valuation of net assets on the basis of the last known stock exchange prices and foreign exchange rates.

The Net Asset Value of the Class "CA", "CAH", "CB", "CBH", "WA", "WAH", "WB", "WBH", "WAX", "WAXH", "WBX" and "WBXH" Shares will be increased by up to a maximum of 2% per Share in the event of a net surplus of subscription applications, or reduced by up to a maximum of 2% per Share in the event of a net surplus of redemption applications, based on all applications received in respect of all relevant Swing Share Classes combined on the relevant Valuation Day.

The adjustment of the Net Asset Value aims to cover in particular but not exclusively transaction costs, tax charges and bid/offer spreads incurred by the respective Subfund due to subscriptions, redemptions and/or conversions in and out of the Subfund. Existing Shareholders would no longer have to indirectly bear these costs, since they are directly integrated into the calculation of the Net Asset Value and hence, are borne by incoming and outgoing investors.

The Net Asset Value may be adjusted on every Valuation Day on a net deal basis. The Board of Directors can set a threshold (net capital flows that needs to be exceeded) to apply the adjustment to the Net Asset Value. Shareholders should note that the performance calculated on the basis of the adjusted Net Asset Value might not reflect the true portfolio performance as a consequence of the adjustment of the Net Asset Value.

Under exceptional circumstances the Company may, in the interest of Shareholders, decide to increase the maximum swing factor indicated above.

During the period under review, ending 31.12.2024, the following Subfunds: CSIF (Lux) Bond Corporate USD, CSIF (Lux) Bond Government Emerging Markets USD ESG Blue, CSIF (Lux) Equity Canada, CSIF (Lux) Equity Emerging Markets, CSIF (Lux) Equity Emerging Markets ESG Blue, CSIF (Lux) Equity Europe, CSIF (Lux) Equity Japan and CSIF (Lux) Equity Pacific ex Japan applied swing pricing. All these Subfunds applied full swing pricing.

Issuing charges, respectively the redemption charges are applied to the Net Asset Value of the Class "A", "B", "DA", "DB", "DBH", "IA", "IAH", "IB", "IBH", "QA", "QB", "QAH", "QBH", "QAX", "QAXH", "QBX", "QBXH", "FA", "FB", "FAH" and "FBH" and are allocated to the relevant Subfund on the issue, respectively the redemption of Shares in the Subfund. This contribution to costs covers the standard brokerage, exchange fees and taxes incurred by the Subfund in connection with the purchase, respectively the corresponding sale of investments.

The financial statements reflect the net asset values as calculated on 31.12.2024 based on the market prices of the investments as of 31.12.2024.

b) Valuation of investment securities of each Subfund

Securities which are listed on a stock exchange or which are regularly traded on such shall be valued at the last available purchase price. If such a price is not available for a particular trading day, but a closing mid-price (the mean of the closing bid and ask prices) or a closing bid price is available, the closing mid-price, or alternatively the closing bid price, may be taken as a basis for the valuation.

If a security is traded on several stock exchanges, the valuation shall be made by reference to the exchange on which it is chiefly traded.

In the case of securities for which trading on a stock exchange is not significant but which are traded on a secondary market with regulated trading among securities dealers (with the effect that the price reflects market conditions), the valuation may be based on this secondary market.

Securities traded on a regulated market shall be valued in the same way as those listed on a stock exchange.

Securities that are not listed on a stock exchange and are not traded on a regulated market shall be valued at their last available market price. If no such price is available, the Company shall value these securities in accordance with other criteria to be established by the Board of Directors and on the basis of the probable sales price, the value of which shall be estimated with due care and in good faith.

Derivatives shall be treated in accordance with the above. OTC swap transactions will be valued on a consistent basis based on bid, offer or mid prices as determined in good faith pursuant to procedures established by the Board of Directors. When deciding whether to use the bid, offer or mid prices the Board of Directors will take into consideration the anticipated subscription or redemption flows, among other parameters. If, in the opinion of the Board of Directors, such values do not reflect the fair market value of the relevant OTC swap transactions, the value of such OTC swap transactions will be determined in good faith by the Board of Directors or by such other method as it deems in its discretion appropriate.

The valuation price of a money market instrument which has a maturity or remaining term to maturity of less than 12 months and does not have any specific sensitivity to market parameters, including credit risk, shall, based on the net acquisition price or on the price at the time when the investment's remaining term to maturity falls below 12 months, be progressively adjusted to the repayment price while keeping the resulting investment return constant. In the event of a significant change in market conditions, the basis for the valuation of different investments shall be brought into line with the new market yields.

Units or shares of UCITS or other UCIs shall be valued on the basis of their most recently calculated net asset value, where necessary by taking due account of the redemption fee. Where no net asset value and only buy and sell prices are available for units or shares of UCITS or other UCIs, the units or shares of such UCITS or other UCIs may be valued at the mean of such buy and sell prices. Fiduciary and fixed-term deposits shall be valued at their respective nominal value plus accrued interest.

c) Net realised gain/loss on sales of investments of each Subfund

The realised gains or losses on the sales of securities are determined on basis of the average acquisition cost.

d) Foreign exchange conversion

The financial statements are kept in reference currency of each Subfund and the combined financial statements are kept in EUR.

Cash at banks, other net assets and the value of portfolio securities in currencies other than the reference currency of each Subfund are converted into the reference currency at the foreign exchange rate prevailing on the date of valuation.

Income and expenses in currencies other than the reference currency of each Subfund are converted into the reference currency at the foreign exchange rate applicable at the date they accrue to the Subfund. Realised gains or losses on foreign currencies are accounted for in the statement of operations.

The acquisition cost of securities in currencies other than the reference currency of each Subfund is converted into the reference currency at the foreign exchange rate valid at the date of acquisition.

e) Transactions on investments in securities of each Subfund

The transactions on investments in securities are booked on a trade date basis.

f) Accrual expenses

Expenses which can be allocated directly to a Subfund are charged to this Subfund. Expenses which cannot be allocated directly are divided among the Subfunds in proportion to the net assets of each Subfund.

g) Income recognition

Dividends are recorded on ex-dividend date, net of withholding tax. Interests are accrued on a daily basis.

h) Valuation of financial futures contracts of each Subfund

Unmatured financial future contracts are valued at valuation date at market prices prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and are shown under "Net unrealised gain/loss on financial future contracts" in the statement of net assets. Realised gains or losses are also posted to the statement of operations under "Net realised gain (loss) on financial futures contracts".

i) Valuation of forward foreign exchange contracts of each Subfund

Unmatured forward foreign exchange contracts are valued at valuation date at forward exchange rates prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and are shown under "Net realised gain (loss) on forward foreign exchange contracts" in the statement of net assets. Realised gains or losses are also posted to the statement of operations under "Net realised gain (loss) on forward foreign exchange contracts".

j) Securities Lending

The Company can practise lending of securities included in its portfolios of its Subfunds. The Company may only lend securities within a standardised system of securities lending organised by a recognised institution of securities compensation or by first class financial institutions specialised in this type of operations. The income from securities lending is showing the gross income from securities lending less the direct and indirect costs and fees retained by the counterparty acting as securities lending principal.

Management fee - All-in management service fee
(see detail at Subfund level)

As remuneration for its services and reimbursement of its expenses, the Management Company is entitled to a monthly management fee payable at the end of each month and calculated on basis of the average of the daily Net Asset Value of each Subfund during the relevant month.

No management fee is currently paid with respect to "DA", "DB", "DAH" and "DBH" share classes. However, these share classes are subject, as all other share classes, to an all-in management service fee covering all fees and expenses.

Class "CA", "CAH", "CB" and "CBH" Shares are, in addition to a management fee and management service fee, subject to an additional distribution fee.

Distribution fee

Class "CA", "CAH", "CB" and "CBH" Shares may be offered through any distributors and/or financial intermediaries that prefer a p.a distribution fee instead of a one-off sales charge. These types of Share Classes are subject to a management fee and additional distribution fee.

In this context, the financial intermediaries are entitled to a maximum distribution fee, of which the effective fee is set out in the schedule hereafter, calculated on the average daily net assets per share class of the relevant subfund determined at the end of each month and is payable at the beginning of each next following month:

Subfunds	Rate
All CSIF (Lux) Subfunds	0.55% p.a.

"Taxe d'abonnement"

Under the prevailing laws and regulations, the Company is subject in Luxembourg to a "Taxe d'abonnement" at the annual rate of 0.05%, payable quarterly and calculated on the basis of the net assets of each Subfund at the end of each quarter. A reduced tax rate of 0.01% p.a. of the net assets will

apply to share classes of the respective Subfund which are only sold to and held by institutional investors. The reduced tax rate of 0.01% will apply to share classes QB and QBH of the respective Subfund where:

- securities are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public;
- whose exclusive object is to replicate the performance of one or more indices as required by Article 175 e) of the amended Law of 17.12.2010.

The "Taxe d'abonnement" is included in the Statement of Operations / Changes in Net Assets under "Management & all-in management service fee".

Transaction costs

Transactions costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the period. Transaction fees are included in the cost of securities purchased and sold.

For the year ended on 31.12.2024, the Company incurred transaction costs relating to purchase or sale of investments in securities and similar transactions, (including derivatives instruments or other eligible assets) as follows:

Subfund	CCY	Amount
CSIF (Lux) Bond Aggregate EUR	EUR	0.00
CSIF (Lux) Bond Corporate EUR	EUR	0.00

CSIF (Lux) Equity UK ESG Blue	GBP	46,351.15

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and for some other derivative contracts, transaction costs will be included in the purchase and sales price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each Subfund.

Securities lending

As per 31.12.2024, the Subfunds participated in the securities lending system with JP Morgan Bank Luxembourg S.A. as follows:

Subfund	Ccy	Stock lending market value	Collateral market value
CSIF (Lux) Bond Aggregate EUR	EUR	58,514,293	61,034,464
CSIF (Lux) Bond Government Emerging Markets Local	USD	1,777,220	1,879,424
CSIF (Lux) Equity Canada	CAD	9,919,204	10,596,785
CSIF (Lux) Equity Emerging Markets	USD	450,190	479,958
CSIF (Lux) Equity EMU	EUR	4,829,246	5,265,601
CSIF (Lux) Equity Europe	EUR	640,237	688,209
CSIF (Lux) Equity Japan	JPY	107,781,479	115,118,839

The collateral delivered by the securities lending counterparty to the Company is composed of a well-diversified portfolio of securities consisting of - highly rated bonds issued or guaranteed by governments, government agencies, bodies regulated by public law or corporations (excluding Credit Suisse affiliates) from selected OECD countries.

- highly rated bonds from supranational organisations.

- equities listed on selected stock exchanges within the OECD on the condition that the shares are included in a main and liquid index.

The determination of the market value of the collateral is subject to the application of appropriate haircuts adapted to the volatility of the collateral type.

The revenues mentioned in the Statement of Operations / Changes in Net Assets under "Security Lending Income" are the net amounts received from the lending principal. Any direct and indirect operational costs and fees are borne by the principal out of its fee and include the liability risk assumed by the principal.

For the year ended 31.12.2024, the fee paid to the principal amounted to as follows:

JP Morgan Bank Luxembourg S.A.:

Subfund	Ccy	Gross amount securities lending income	Expenses and commission from the securities lending counterparty	Net amount
CSIF (Lux) Bond Aggregate EUR	EUR	57,725.15	11,545.03	46,180.12

CSIF (Lux) Equity Pacific ex Japan	USD	86.64	17.33	69.31

Total Expense Ratio (TER)

(see detail at Subfund level)

The TER expresses the sum of all costs and commissions charged on an ongoing basis to the respective Subfund, taken retrospectively as a percentage of these assets. The TER is calculated following the AMAS guideline. For shares launched less than 6 months ago no TER is disclosed.

Exchange Rates

The combined financial statements are kept in EUR. For this purpose, the financial statements of the Subfunds are converted into EUR at the following foreign exchange rates:

-	1 CAD =	0.671476 EUR
-	1 JPY =	0.006145 EUR
-	1 USD =	0.965717 EUR
-	1 GBP =	1.209464 EUR

Fund Performance

(see detail at Subfund level)

The performance of the year Y is based on the Net Asset Values as calculated on the last business day of the calendar year Y respectively Y-1. Those Net Asset Values reflect the market prices of the investments as of the last business day of the period Y-1 respectively Y. The YTD (Year-To-Date) performance includes the period from 01.01.2024 until 31.12.2024.

Historical performance is no indicator of current or future performance.

The performance data given does not take into account commissions and costs incurred in the purchase or redemption of the Company's shares.

For shares launched more than 3 years ago no performance since inception is disclosed.

Performance of distributing shares includes reinvestments of dividends.

Financial Derivative Instruments

The Subfunds may engage in derivative transactions for the purpose of efficient portfolio management. Details of the derivatives are displayed in the Notes pages. Depending on the type of derivatives held, collateral might be received from the different counterparties to reduce the counterparty exposure. For other type of derivatives, margin accounts might be used.

No collateral was received by the Company to reduce the counterparty risk as of 31.12.2024.

Changes in the composition of the security portfolio

Changes in the composition of the security portfolio during the reporting period are available to shareholders free of charge at the registered office of the Company or the local representatives in the countries where the SICAV is registered.

Tracking error versus index

Risk management

The global exposure of the Subfunds will be calculated on the basis of the commitment approach.

Significant events during the year

The Management Company of the Company changed. On 01.10.2024, Credit Suisse Fund Management S.A. was merged by absorption into UBS Fund Management (Luxembourg) S.A., and the latter was renamed UBS Asset Management (Europe) S.A. As a result, UBS Asset Management (Europe) S.A. became the Management Company of the Company on 01.10.2024.

Subsequent events

CSIF (Lux) Bond Corporate USD was liquidated on 03.04.2025.

The Extraordinary General Meeting of the Company decided to change the legal name from "Credit Suisse Index Fund (Lux)" to "UBS (Lux) Fund Solutions II", with effect as from 16.05.2025.

CSIF (Lux) Bond Aggregate EUR

Over the period, the Fund with reinvested net coupons (EUR) returned 2.56%. The Bloomberg Barclays Euro-Aggregate Index returned 2.63% between the beginning and the end of the reporting period. The relative performance of the Fund against its benchmark was -0.07%. As at 31.12.2024, there were 3,426 constituents in the Fund vs. 7,362 in the index and the Fund showed an expected tracking error of 0.03% p.a. and ex-post annual tracking error of 0.07%. At the end of the business year, the Fund's net assets totaled approximately EUR 1,058.46 million.

The assets in the CSIF (Lux) Bond Aggregate EUR are managed on an indexed basis in accordance with the optimized sampling method, which means that not all index constituents are bought but only a representative subset. The primary drivers of tracking difference are the difference between fund holdings and index constituents, the Fund's total expense ratio (TER), transaction and rebalancing costs, securities lending income and coupon taxation.

CSIF (Lux) Bond Corporate EUR

Over the period, the Fund with reinvested net coupons (EUR) returned +4.74%. Remuneration

The Board of Directors of UBS Asset Management (Europe) S.A. (the "Management Company" or the "AIFM") has adopted a remuneration framework (the "Framework") whose objectives are:

on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the "UCITS Law") transposing the UCITS Directive 2009/65/EC (the "UCITS Directive") as amended by Directive 2014/91/EU (the "UCITS V Directive");
- (ii) the Alternative Investment Fund Managers Directive ("AIFMD") 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA's guidelines on sound remuneration policies under the UCITS Directive - ESMA/2016/575 and ESMA's guidelines on sound remuneration policies under the AIFMD - ESMA/2016/579 both published on 14 October 2016;
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EU of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2)
- (vii) Regulation (EU) 2019/2088 of the European parliament and of the council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR");
- (viii) the CSSF Circular 23/841, transposing the ESMA Guidelines on certain aspects of the MiFID II remuneration requirements (ESMA 35-43-3565) (MiFID ESMA Guidelines).

and on the other hand, to comply with the Total Reward Principles of UBS Group.

The Framework is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Framework of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at <https://www.ubs.com/ame-regulatorydisclosures>. The Framework is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/the AIFM. Last approval by the Board of Directors took place on 25 September 2024. No material change was made to the Framework.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration framework and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

The deferral requirements remain however applicable when the annual variable remuneration of Identified Staff exceeds the de minimis threshold adopted by the Management Company or where an employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

Remuneration of Management Company/AIFM staff

The table below provides an overview of the aggregate total remuneration granted to employed staff as of 31 December 2024 and remunerated board members of the Management Company:

EUR 1000	Fixed remuneration	Variable remuneration	Total remuneration ¹	No of beneficiaries
All staff	15,697	4,595	20,292	134
- whereof Identified Staff	9,107	3,578	12,685	61
- thereof Senior Management ²	2,820	1,447	4,267	16
- thereof Other Identified Staff	6,287	2,131	8,418	45

¹ As per the proportionality principle applied to the Management Company, the overview reflects key aspects of total remuneration and excludes benefit, pension and severance remuneration data.

² Senior Management includes the CEO, the Conducting Officers, the Head of Compliance, the Branch Managers and Board of Director members. Of which, 2 BoD members are employed by other UBS entities and are not eligible to any compensation for this mandate.

Remuneration of the delegates' identified staff

As market or regulatory practice develops, the Portfolio Manager(s) may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made and in case of changes to the identified staff and/or in case of change in the number of sub-funds over the year, this may result in disclosures in relation to the Fund not being comparable to the disclosures made in the prior year.

For the year ending 31 December 2024, the aggregate total remuneration paid by the delegated Investment Manager to its Identified Staff in relation to the Fund amounted to EUR 1,237,641, of which EUR 847,155 represented the variable remuneration (3 beneficiaries).

Unaudited information (continued)

Page 253

General information in relation to Securities Financing Transactions ("SFT")

- Types of SFTs

As at 31.12.2024, the Company is engaged in Securities Lending activities.

- Re-use of collateral

The Company does not re-use collateral in relation to securities financing transactions. There is no cash collateral reinvestment.

- Safekeeping of collateral

The safekeeping of collateral is done by Brown Brothers Harriman (Luxembourg) S.C.A. (the "Depository Bank").

- Settlement and clearing

The settlement and clearing of securities financing transactions occur bilaterally.

- Maturity tenor and collateral

The maturity tenor of the SFTs is always open maturity. The maturity tenor of the related collateral is disclosed in the section below.

Complementary information on securities lending activities

As per 31.12.2024 the Subfunds exclusively participated in the security lending system with JP Morgan Bank Luxembourg S.A (the "Principal").

The amount of securities on loan as a proportion of total lendable assets defined as excluding cash and cash equivalents and as a proportion of the Total Net Assets are disclosed in the table below. The amount of assets engaged in securities lending activities, the information on collateral and the data on return and cost can be found in the Notes pages of this annual report.

Subfund	CCY	Amount of securities on loan as a proportion of total lendable assets (in %)*	Amount of securities lending as a proportion of Total Net Assets (in %)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CSIF (Lux) Bond Government
Emerging Markets USD ESG
Blue

Legal entity identifier: 5493003VIPB3DQ0S0Y61

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ **Yes**

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☒ ☐ ☒ **No**

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 1.67% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Subfund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088).

As index tracking fund, the ESG characteristics of the fund and its ESG integration approach are derived from the ESG index that the fund is tracking. Therefore, the ESG rules and criteria applied by the fund are defined by the index provider and they may deviate from the standards set in the Credit Suisse Asset Management (CSAM) Sustainable Investing Policy.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

This Subfund promoted the following environmental and social characteristics:

- not to invest in certain issuers based on ESG Exclusions applied by the index provider when constructing the index
- as long as the Subfund stayed within the anticipated tracking error as determined in the Prospectus, the following additional exclusions of CSAM's Sustainable Investing Policy have been applied in order to limit the portfolio to a subset of securities from the benchmark index
 - to invest only into issuers that comply with international treaties on controversial weapons (norms-based exclusions on direct investments)
 - not to invest into issuers that derive more than 20% of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (values-based exclusions on direct investments)
 - adherence to, and conducting business activities in accordance with conduct-based exclusions of SVVK ASIR (business-conduct exclusions on direct investments)
- to invest according to the ESG methodology of the index provider (ESG Integration)
- contribution to sustainable practices through the inclusion of the Subfund's investments into centralized engagement approach, in line with UBS AM's fiduciary duty (Active Ownership).

The extent to which the environmental and/or social characteristics were met is measured by the sustainability indicators shown below.

Derivatives were not used to attain the environmental or social characteristics.

Please find further information on ESG Integration and ESG Exclusions below in the question "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and online at www.credit-suisse.com/esg.

● *How did the sustainability indicators perform?*

The table below shows the output of the Sustainability Indicators applicable to this Subfund as of 31.12.2024. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
JESG ESG Rating	Band 1 (80-100): 0.69% Band 2 (60-79): 18.67% Band 3 (40-59): 67.60% Band 4 (20-39): 11.94% Band 5 (0-19): 0.00% Not rated: 1.09%	Investment exposure by JESG score range: Band 1 [score 80-100] (highest): 0-100% Band 2 [score 60-79]: 0-100% Band 3 [score 40-59]: 0-100% Band 4 [score 20-39]: 0-100% Band 5 [score 0-19] (lowest): 0-100%
JESG ESG controversy flag**	JESG Band 5: 0.00% Oil sands: 0.00% Thermal coal: 0.00% Less than 12M out of the index: 0.00% Insufficient data: 0.00% Insufficient maturity: 0.00% Total controversies: 0.00%	Exposure (0-100%) to controversial issuers and/or economic activities as identified by JESG
CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

* None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.

** Note that the sum of the individual categories (JESG Band, Oil sands etc.) may be higher than "Total controversies". This is because securities may be mapped against more than one controversial issuer and/or economic activity (e.g., an issuer with economic activities linked to coal and oil sands).

*** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.

...and compared to previous periods?

The table below presents data from the previous reference period (as of 31.12.2023). The data may differ compared to the previously published report as the most recently available data was taken into account, as the data provider(s) may have retroactively updated some figures. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
JESG ESG Rating	Band 1 (80-100): 0.38% Band 2 (60-79): 18.20% Band 3 (40-59): 70.55% Band 4 (20-39): 10.92% Band 5 (0-19): 0.00% Not rated: 0.43%	Investment exposure by JESG score range: Band 1 [score 80-100] (highest): 0-100% Band 2 [score 60-79]: 0-100% Band 3 [score 40-59]: 0-100% Band 4 [score 20-39]: 0-100% Band 5 [score 0-19] (lowest): 0-100%

CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

* None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.

** Note that the sum of the individual categories (JESG Band, Oil sands etc.) may be higher than "Total controversies". This is because securities may be mapped against more than one controversial issuer and/or economic activity (e.g., an issuer with economic activities linked to coal and oil sands).

*** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Although this Subfund did not target any minimum proportion of sustainable investment, at the end of the reference period, the sustainable investments contributed to the following Environmental objectives:

- Investments in securities whose proceeds pursue a predefined environmental or social objective (e.g. green bonds)

The above criteria were assessed using a quantitative methodology. If there had not been an output from the quantitative assessment (e.g. in the case of missing quantitative ESG data), investments were submitted for confirmation in a case-by-case approach based on a proprietary assessment of the criteria. A central Credit Suisse committee approved such submissions.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This Subfund did not target any minimum proportion of sustainable investments. CSAM considered various indicators linked to principal adverse impacts on sustainability factors (PAI Indicators) and further indicators from its exclusion framework to assess whether sustainable investments caused significant harm to any environmental or social investment objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

During the reference period, the PAI Indicators applied by CSAM to identify investments which qualify as SFDR Sustainable Investments in line with CS SFDR Sustainable Investment Methodology included a set of criteria and thresholds to determine if an investment passed the DNSH condition as follows:

Investments must not:

1. have a significant negative contribution to climate change. This criterion makes use of an indicator that flags the biggest emitters of greenhouse gas globally and relates to PAI 1, 2, 3 and 15.
2. be subject to norms, values and business conduct exclusions and other investment restrictions which address PAI 4, 10, 14 and 16.
3. be subject to severe ESG controversies which address PAI 7 and 10 where applicable.
4. be strongly lagging its industry peers in overall ESG performance. This criterion has been applied to cover the remainder of the PAI to the extent possible.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments were aligned with the 'OECD Guidelines for Multinational Enterprises' and the 'UN Guiding Principles on Business and Human Rights'. The alignment was assessed as part of the CS ESG Exclusion framework. Companies that exhibit severe weaknesses in business conduct, particularly with regard to breaches of the 'United Nations Global Compact Principles' (UNGC) and companies placed on the watchlist, but with no immediate exclusion, were flagged not to be considered SFDR Sustainable Investments due to DNSH.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Index provider (JESG) methodology for index construction incorporates ESG scores from two data vendors: Sustainalytics and RepRisk. As part of the methodologies of these two data vendors, many of the in-scope PAIs are factored into the resultant ESG score of a corporate or sovereign issuer. In this way, PAIs are integrated into the ESG scoring process. However, index provider's suite does not target any reduction in PAIs over the baseline benchmark. Further, data regarding the index-level value of certain PAIs is not maintained due to gaps in data quality and coverage. Nevertheless, at the time when the present SFDR annex to the annual report is published, CSAM cannot report on the PAI methodology applied by the index provider, as it does not obtain the necessary data.

* Look-through enabled where possible, excl. cash and derivatives. Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which were neither aligned with the environmental or social characteristics, nor qualified as sustainable investments.

Please refer to the section “What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?” for further information.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that did not qualify as sustainable investments.

The proportion of investments used to meet the environmental or social characteristics promoted by this Subfund (category #1 above) was 97.37% of its total net assets.

Within this category the Subfund held a proportion of 1.67% of its total net assets in sustainable investments (category #1A above) and a proportion of 95.70% of its total net assets in other E/S characteristics (category #1B above).

The proportion of investments held by the Subfund in “Other” (category #2 above) was 2.63% of its total net assets.

The data is valid as of 31.12.2024. It does not represent an average for the reference period.

In which economic sectors were the investments made?

Subfund Sectoral Exposure

NACE Sector Code *	Portfolio Exposure **
B. Mining and quarrying	2.26%
C. Manufacturing	0.14%
D. Electricity, gas, steam and air conditioning supply	0.57%
G. Wholesale and retail trade; repair of motor vehicles and motorcycles	0.88%
H. Transportation and storage	0.48%
K. Financial and insurance activities	8.92%
N. Administrative and support service activities	0.45%
O. Public administration and defense; compulsory social security	86.57%
Others	-0.27%

* Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.

** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period. The "Others" category can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.

Subfund Exposure to Fossil Fuels Sub-Sectors

NACE Sector Code *	NACE name	Portfolio Exposure **
B5.1.0	Mining of hard coal	0.00%
B5.2.0	Mining of lignite	0.00%
B6.1.0	Extraction of crude petroleum	0.80%
B6.2.0	Extraction of natural gas	0.00%
B9.1.0	Support activities for petroleum and natural gas extraction	0.00%
C19.2.0	Manufacture of refined petroleum products	0.14%
D35.2.1	Manufacture of gas	0.00%
D35.2.2	Distribution of gaseous fuels through mains	0.00%
D35.2.3	Trade of gas through mains	0.18%
G46.7.1	Wholesale of solid, liquid and gaseous fuels and related products	0.88%

* Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.

** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of 31.12.2024, the Subfund reports 0.00% exposure to sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environ-mental
objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have green-house gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g., for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Subfund's reported EU Taxonomy alignment was not subject to assurance or review by a third party.

● *What was the share of investments made in transitional and enabling activities?*

Of the 0.00% of sustainable investments with an environmental objective aligned with the EU Taxonomy as of 31.12.2024, 0.00% were made in transitional activities and 0.00% in enabling activities.

● *How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?*

During the previous reference period the percentage of investments that were aligned with the EU Taxonomy were 0.00% as of 31.12.2023.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As of 31.12.2024, 1.67% of the Subfund's investments were made into sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

As of 31.12.2024, 0.00% of the Subfund's investments were made into socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.2024, 2.63% of the Subfund's investments were made into "other".

Investments such as cash, derivatives and structured products may have fallen under "other" since such instruments did not contribute to the E/S characteristics of this Subfund. More information about the portfolio exposure to such investments can be found in the financial section of this annual report. Such investments did not have minimum environmental or social safeguards. They may have been used as efficient portfolio management tools, for cash management, for hedging purposes, or as an additional source of return.

Additionally, investments may have fallen under "other" if insufficient ESG-related information was available. This applied in particular to asset classes for which ESG Factors were insufficiently defined or insufficient ESG related information was available. Where possible, minimum environmental or social safeguards have been applied to these underlying securities by ensuring that CSAM ESG exclusions were adhered to.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental or social characteristics promoted by this Subfund, this Subfund applied ESG Exclusions and ESG Integration.

This Subfund applied the exclusions used by the provider of the benchmark index in the index methodology. In addition, provided the Subfund stayed within the anticipated tracking error as determined in the Prospectus, CSAM applied the following exclusions:

- Norms-based Exclusions

This Subfund excluded companies that failed to comply with international treaties on controversial weapons such as the Convention on Cluster Munitions, the Chemical Weapons Convention, the Biological Weapons Convention, the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). In addition, it excluded companies that are recommended for exclusions by the Swiss Association for Responsible Investments (SVVK-ASIR) in respect to APM (anti-personnel mines), cluster munitions and nuclear weapons (outside of NPT).

- Values-based Exclusions

This Subfund excluded companies that derived a significant portion of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (with a revenues threshold of 20%).

- Business-conduct Exclusions

This Subfund applied conduct-based exclusions of SVVK-ASIR.

ESG Factors were integrated into the investment process by tracking an ESG index.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The fund is using JPM ESG EMBI Global Diversified as reference benchmark for attaining the environmental and/or social characteristics.

The reference benchmark tracks liquid, US Dollar emerging market fixed and floating-rate debt instruments issued by sovereign and quasi-sovereign entities. The index applies an ESG scoring and screening methodology to tilt toward issuers ranked higher on ESG criteria and green bond issues, and to underweight and remove issuers that rank lower.

How does the reference benchmark differ from a broad market index?

The reference benchmark is based on the JPM EMBI Global Diversified. It differs from this broad market index by tilting to issuers with higher ESG scores and avoiding exposure to issuers with lower scores.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Sustainability Indicator*	Portfolio	Indicator Output

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CSIF (Lux) Bond Green Bond
Global Blue

Legal entity identifier: 549300EMGRCG8JMF5K49

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☒ ☐ ☒ No

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 76.67% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Subfund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088).

As index tracking fund, the ESG characteristics of the fund and its ESG integration approach are derived from the ESG index that the fund is tracking. Therefore, the ESG rules and criteria applied by the fund are defined by the index provider and they may deviate from the standards set in the Credit Suisse Asset Management (CSAM) Sustainable Investing Policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

This Subfund promoted the following environmental and social characteristics:

- exposure to Green Bonds which are fixed income securities in which the proceeds are applied to projects or activities that promote climate or other environmental sustainability purposes
- not to invest in certain issuers based on ESG Exclusions applied by the index provider when constructing the index
- as long as the Subfund stayed within the anticipated tracking error as determined in the Prospectus, the following additional exclusions of CSAM's Sustainable Investing Policy have been applied in order to limit the portfolio to a subset of securities from the benchmark index
 - to invest only into issuers that comply with international treaties on controversial weapons (norms-based exclusions on direct investments)
 - not to invest into issuers that derive more than 20% of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (values-based exclusions on direct investments)
 - adherence to, and conducting business activities in accordance with conduct-based exclusions of SVVK ASIR (business-conduct exclusions on direct investments)
- to invest according to the ESG methodology of the index provider (ESG Integration)
- contribution to sustainable practices through the inclusion of the Subfund's investments into centralized engagement approach, in line with UBS AM's fiduciary duty (Active Ownership).

The extent to which the environmental and/or social characteristics were met is measured by the sustainability indicators shown below.

Derivatives were not used to attain the environmental or social characteristics.

Please find further information on ESG Integration, ESG Exclusions and Active Ownership below in the question "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and online at www.credit-suisse.com/esg.

● *How did the sustainability indicators perform?*

The table below shows the output of the Sustainability Indicators applicable to this Subfund as of 31.12.2024. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
Green bond	99.08%	Investment exposure to Green Bonds: 0%–100%
CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

* None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.

*** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.

● *...and compared to previous periods?*

The table below presents data from the previous reference period (as of 31.12.2023). The data may differ compared to the previously published report as the most recently available data was taken into account, as the data provider(s) may have retroactively updated some figures. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output

Green bond	97.49%	Investment exposure to Green Bonds: 0%–100%
CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

At the end of the reference period, the sustainable investments contributed to the Environmental and Social objectives below:

- Investments that generated at least 50% of their revenues from products and services that contributed to an environmental objective (e.g. alternative energy, carbon & energy efficiency, green building, sustainable water, pollution prevention, sustainable agriculture etc.)
- Investments that generated at least 50% of their revenues from products and services that contribute to a social objective (e.g. nutrition, disease treatments, sanitation, affordable real estate, SME finance, education, connectivity etc.)
- Investments in securities whose proceeds pursue a predefined environmental or social objective (e.g. green bonds)
- Investments that cumulatively generated at least 50% of their revenues from products and services that contributed to an environmental or social objective (the investments were allocated to the respective objective that contributed the higher share of revenue)

The above criteria were assessed using a quantitative methodology. If there had not been an output from the quantitative assessment (e.g. in the case of missing quantitative ESG data), investments were submitted for confirmation in a case-by-case approach based on a proprietary assessment of the criteria. A central Credit Suisse committee approved such submissions.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

CSAM considered various indicators linked to principal adverse impacts on sustainability factors (PAI Indicators) and further indicators from its exclusion framework to assess whether sustainable investments caused significant harm to any environmental or social investment objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

During the reference period, the PAI Indicators applied by CSAM to identify investments which qualify as SFDR Sustainable Investments in line with CS SFDR Sustainable Investment Methodology included a set of criteria and thresholds to determine if an investment passed the DNSH condition as follows:

Investments must not:

1. have a significant negative contribution to climate change. This criterion makes use of an indicator that flags the biggest emitters of greenhouse gas globally and relates to PAI 1, 2, 3 and 15.
2. be subject to norms, values and business conduct exclusions and other investment restrictions which address PAI 4, 10, 14 and 16.
3. be subject to severe ESG controversies which address PAI 7 and 10 where applicable.
4. be strongly lagging its industry peers in overall ESG performance. This criterion has been applied to cover the remainder of the PAI to the extent possible.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments were aligned with the 'OECD Guidelines for Multinational Enterprises' and the 'UN Guiding Principles on Business and Human Rights'. The alignment was assessed as part of the CS ESG Exclusion framework. Companies that exhibit severe weaknesses in business conduct, particularly with regard to breaches of the 'United Nations Global Compact Principles' (UNGC) and companies placed on the watchlist, but with no immediate exclusion, were flagged not to be considered SFDR Sustainable Investments due to DNSH.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

At the time when the present SFDR annex to the annual report is published, CSAM cannot report on the PAI data applied by the index provider for index construction, because it does not obtain the relevant data. Nevertheless, CSAM can report on the CSAM PAI data which was however not relevant for the investment decision-making process.

The following table provides the exposure to all mandatory PAI from the Commission Delegated Regulation (EU) 2022/1288. The Adverse Sustainability Indicator/Metric values are calculated as an asset weighted average based on quarterly data representing the reference period from 01.01.2024–31.12.2024.

Please note that CSAM may choose or may not be able to consider and/or mitigate all of the herein reported PAI given the Subfund's investment strategy, asset class or the availability of reliable data. Consideration of PAI may be subject to change given evolving data availability and quality. Please refer to the EET for the most recent overview of which PAI are considered at Subfund level.

Please find further information on CSAM PAI Framework online at www.credit-suisse.com/esg.

* Look-through enabled where possible, excl. cash and derivatives. Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The proportion of investments used to meet the environmental or social characteristics promoted by this Subfund (category #1 above) was 95.44% of its total net assets.

Within this category the Subfund held a proportion of 76.67% of its total net assets in sustainable investments (category #1A above) and a proportion of 18.77% of its total net assets in other E/S characteristics (category #1B above).

The proportion of investments held by the Subfund in “Other” (category #2 above) was 4.56% of its total net assets.

The data is valid as of 31.12.2024. It does not represent an average for the reference period.

In which economic sectors were the investments made?

Subfund Sectoral Exposure

NACE Sector Code *	Portfolio Exposure **
C. Manufacturing	1.99%
D. Electricity, gas, steam and air conditioning supply	10.67%
E. Water supply; sewerage, waste management and remediation activities	0.43%
F. Construction	0.62%
G. Wholesale and retail trade; repair of motor vehicles and motorcycles	0.23%

D35.2.3	Trade of gas through mains	0.10%
G46.7.1	Wholesale of solid, liquid and gaseous fuels and related products	0.00%

** Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.*

*** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.*

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of 31.12.2024, the Subfund reports 0.00% exposure to sustainable investments with an environmental objective aligned with the EU Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes

☐

In fossil gas

☐

In nuclear energy

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

No

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have green-house gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g., for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Subfund's reported EU Taxonomy alignment was not subject to assurance or review by a third party.

● What was the share of investments made in transitional and enabling activities?

Of the 0.00% of sustainable investments with an environmental objective aligned with the EU Taxonomy as of 31.12.2024, 0.00% were made in transitional activities and 0.00% in enabling activities.

● ***How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?***

During the previous reference period the percentage of investments that were aligned with the EU Taxonomy were 0.00% as of 31.12.2023.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As of 31.12.2024, 76.50% of the Subfund's investments were made into sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

As of 31.12.2024, 0.17% of the Subfund's investments were made into socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.2024, 4.56% of the Subfund's investments were made into "other".

Investments such as cash, derivatives and structured products may have fallen under "other" since such instruments did not contribute to the E/S characteristics of this Subfund. More information about the portfolio exposure to such investments can be found in the financial section of this annual report. Such investments did not have minimum environmental or social safeguards. They may have been used as efficient portfolio management tools, for cash management, for hedging purposes, or as an additional source of return.

Additionally, investments may have fallen under "other" if insufficient ESG-related information was available. This applied in particular to asset classes for which ESG Factors were insufficiently defined or insufficient ESG related information was available. Where possible, minimum environmental or social safeguards have been applied to these underlying securities by ensuring that CSAM ESG exclusions were adhered to.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental or social characteristics promoted by this Subfund, this Subfund applied ESG Exclusions, ESG Integration and Active Ownership.

This Subfund applied the exclusions used by the provider of the benchmark index in the index methodology. In addition, provided the Subfund stayed within the anticipated tracking error as determined in the Prospectus, CSAM applied the following exclusions:

- Norms-based Exclusions

This Subfund excluded companies that failed to comply with international treaties on controversial weapons such as the Convention on Cluster Munitions, the Chemical Weapons Convention, the Biological Weapons Convention, the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). In addition, it excluded companies that are recommended for exclusions by the Swiss Association for Responsible Investments (SVVK-ASIR) in respect to APM (anti-personnel mines), cluster munitions and nuclear weapons (outside of NPT).

- Values-based Exclusions

This Subfund excluded companies that derived a significant portion of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (with a revenues threshold of 20%).

- Business-conduct Exclusions

This Subfund applied conduct-based exclusions of SVVK-ASIR.

- Restrictions related to the Guidelines for Responsible Investing of the Bundesverband Investment and Asset Management's (BVI)

To comply with the BVI guidelines, this Subfund excluded additionally the following companies, countries, and sectors from the investment universe:

- Military hardware: companies that derive more than 10% of their revenue from manufacturing conventional weapons, components, and support systems and services
- Sovereign issuers: serious violations of democratic and human rights based on the assessment as "not free" according to the Freedom House's index (freedomhouse.org/countries/freedom-world/scores)

ESG Factors were integrated into the investment process by tracking an ESG index.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The fund is using Bloomberg MSCI Global Green Bond (TR) as reference benchmark for attaining the environmental and/or social characteristics.

The sustainable investment objective of the reference benchmark is to fund projects with direct environmental benefits by investing in Green Bonds. The benchmark provider applies a proprietary methodology to classify Green Bonds. According to the benchmark provider's methodology, Green Bonds are fixed-income securities in which the proceeds will be exclusively and formally applied to projects or activities that promote climate or other environmental sustainability purposes. In principle, use of proceeds and project bonds are considered eligible if the use of proceeds falls within at least one of six eligible environmental categories defined by MSCI ESG Research (alternative energy, energy efficiency, pollution prevention and control, sustainable water, green building, and climate adaptation). Further information on the selection criteria for Green Bonds applied by the benchmark provider are available on: www.msci.com/our-solutions/indexes/esg-indexes.

Since the benchmark provider applies a proprietary methodology to identify and classify Green Bonds, this methodology does not necessarily consider the criteria of the EU Green Bond standard.

● *How does the reference benchmark differ from a broad market index?*

The reference benchmark differs from a broad market index by limiting the investment universe to Green Bonds. For comparison reasons, the Bloomberg Global Aggr. (TR) is used as a broad market index.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Sustainability Indicator*	Portfolio	Indicator Output
Green bond	99.08%	Investment exposure to Green Bonds: 0%–100%

* None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.

● *How did this financial product perform compared with the reference benchmark?*

Sustainability Indicator*	Bloomberg MSCI Global Green Bond (TR)	Indicator Output
Green bond	98.47%	Investment exposure to Green Bonds: 0%–100%

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

● ***How did this financial product perform compared with the broad market index?***

Sustainability Indicator*	Bloomberg Global Aggr. (TR)	Indicator Output
Green bond	2.40%	Investment exposure to Green Bonds: 0%–100%

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852
Product name: CSIF (Lux) Equity Canada ESG Blue

Legal entity identifier: 549300G6HYBNSMZQRF69

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes	☐ ☒ No
☐ It made sustainable investments with an environmental objective: ____% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 9.31% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective
☐ It made sustainable investments with a social objective: ____%	☐ It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Subfund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088).

As index tracking fund, the ESG characteristics of the fund and its ESG integration approach are derived from the ESG index that the fund is tracking. Therefore, the ESG rules and criteria applied by the fund are defined by the index provider and they may deviate from the standards set in the Credit Suisse Asset Management (CSAM) Sustainable Investing Policy.

This Subfund promoted the following environmental and social characteristics:

- not to invest in certain issuers based on ESG Exclusions applied by the index provider when constructing the index

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- as long as the Subfund stayed within the anticipated tracking error as determined in the Prospectus, the following additional exclusions of CSAM's Sustainable Investing Policy have been applied in order to limit the portfolio to a subset of securities from the benchmark index
 - to invest only into issuers that comply with international treaties on controversial weapons (norms-based exclusions on direct investments)
 - not to invest into issuers that derive more than 20% of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (values-based exclusions on direct investments)
 - adherence to, and conducting business activities in accordance with conduct-based exclusions of SVVK ASIR (business-conduct exclusions on direct investments)
- to invest according to the ESG methodology of the index provider (ESG Integration)
- contribution to sustainable practices through the inclusion of the Subfund's investments into centralized engagement approach, in line with UBS AM's fiduciary duty (Active Ownership).

The extent to which the environmental and/or social characteristics were met is measured by the sustainability indicators shown below.

Derivatives were not used to attain the environmental or social characteristics.

Please find further information on ESG Integration, ESG Exclusions and Active Ownership below in the question "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and online at www.credit-suisse.com/esg.

● **How did the sustainability indicators perform?**

The table below shows the output of the Sustainability Indicators applicable to this Subfund as of 31.12.2024. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 15.24%, AA: 78.23%, A: 5.89%, BBB: 0.00%, BB: 0.00%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.65%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	5.85	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)
Social pillar score	5.24	Portfolio aggregate social pillar score: 1 (lowest) – 10 (highest)
Governance pillar score	7.10	Portfolio aggregate governance pillar score: 1 (lowest) – 10 (highest)

CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

* None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.

** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.

*** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.

...and compared to previous periods?

The table below presents data from the previous reference period (as of 31.12.2023). The data may differ compared to the previously published report as the most recently available data was taken into account, as the data provider(s) may have retroactively updated some figures. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 14.66%, AA: 73.99%, A: 10.85%, BBB: 0.29%, BB: 0.00%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.21%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%

CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

* None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.

** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.

*** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Although this Subfund did not target any minimum proportion of sustainable investment, at the end of the reference period, the sustainable investments contributed to the following Environmental objectives:

- Investments that generated at least 50% of their revenues from products and services that contributed to an environmental objective (e.g. alternative energy, carbon & energy efficiency, green building, sustainable water, pollution prevention, sustainable agriculture etc.)
- Investments that have an approved commitment to science-based emission targets and an average reduction in carbon emissions intensity of 7% over the last three years

The above criteria were assessed using a quantitative methodology. If there had not been an output from the quantitative assessment (e.g. in the case of missing quantitative ESG data), investments were submitted for confirmation in a case-by-case approach based on a proprietary assessment of the criteria. A central Credit Suisse committee approved such submissions.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

This Subfund did not target any minimum proportion of sustainable investments. CSAM considered various indicators linked to principal adverse impacts on sustainability factors (PAI Indicators) and further indicators from its exclusion framework to assess whether sustainable investments caused significant harm to any environmental or social investment objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

During the reference period, the PAI Indicators applied by CSAM to identify investments which qualify as SFDR Sustainable Investments in line with CS SFDR Sustainable Investment Methodology included a set of criteria and thresholds to determine if an investment passed the DNSH condition as follows:

Investments must not:

1. have a significant negative contribution to climate change. This criterion makes use of an indicator that flags the biggest emitters of greenhouse gas globally and relates to PAI 1, 2, 3 and 15.
2. be subject to norms, values and business conduct exclusions and other investment restrictions which address PAI 4, 10, 14 and 16.
3. be subject to severe ESG controversies which address PAI 7 and 10 where applicable.
4. be strongly lagging its industry peers in overall ESG performance. This criterion has been applied to cover the remainder of the PAI to the extent possible.

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Sustainable Investments were aligned with the 'OECD Guidelines for Multinational Enterprises' and the 'UN Guiding Principles on Business and Human Rights'. The alignment was assessed as part of the CS ESG Exclusion framework. Companies that exhibit severe weaknesses in business conduct, particularly with regard to breaches of the 'United Nations Global Compact Principles' (UNGC) and companies placed on the watchlist, but with no immediate exclusion, were flagged not to be considered SFDR Sustainable Investments due to DNSH.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides the exposure to all mandatory PAI from the Commission Delegated Regulation (EU) 2022/1288. The Adverse Sustainability Indicator/Metric values are calculated as an asset weighted average based on quarterly data representing the reference period from 01.01.2024–31.12.2024.

Please note that CSAM may choose or may not be able to consider and/or mitigate all of the herein reported PAI given the Subfund's investment strategy, asset class or the availability of reliable data. Consideration of PAI may be subject to change given evolving data availability and quality. Please refer to the EET for the most recent overview of which PAI are considered at Subfund level.

Please find further information on CSAM PAI Framework online at www.credit-suisse.com/esg.

* *Impact: The value represents non-normalized portfolio level exposure to a given PAI indicator. This means that the PAI values use the actual weights of portfolio exposures.*

** *Eligible Assets: Percentage of AUM of the entire portfolio (including cash) for which the PAI is applicable. As an example, government bonds held by the Subfund cannot be measured against PAI indicators applicable to an investee company.*

*** *Data coverage: Percentage of AUM of the entire portfolio for which PAI indicator data is available.*

**** *Flags the companies with exposure to fossil fuels related activities, including extraction, processing, storage and transportation of fossil fuels.*

***** *The coverage of the PAI 6 are limited to the 9 high impact climate sectors defined by SFDR.*

What were the top investments of this financial product?

Largest investments *	NACE Sector code	% Assets	Country
SHOIFY SUBORDINATE VOTING INC CLA	J. Information and communication	11.22	Canada
TORONTO DOMINION	K. Financial and insurance activities	8.09	Canada
ENBRIDGE INC	H. Transportation and storage	8.03	Canada
BROOKFIELD CORP CLASS A	L. Real estate activities	6.83	Canada
BANK OF MONTREAL	K. Financial and insurance activities	6.16	Canada
BANK OF NOVA SCOTIA	K. Financial and insurance activities	5.77	Canada
CANADIAN NATIONAL RAILWAY	H. Transportation and storage	4.72	Canada

* *Look-through enabled where possible, excl. cash and derivatives. Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.*

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

31.12.2024

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which were neither aligned with the environmental or social characteristics, nor qualified as sustainable investments.

Please refer to the section "What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?" for further information.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that did not qualify as sustainable investments.

The proportion of investments used to meet the environmental or social characteristics promoted by this Subfund (category #1 above) was 98.38% of its total net assets.

Within this category the Subfund held a proportion of 9.31% of its total net assets in sustainable investments (category #1A above) and a proportion of 89.07% of its total net assets in other E/S characteristics (category #1B above).

The proportion of investments held by the Subfund in "Other" (category #2 above) was 1.62% of its total net assets.

The data is valid as of 31.12.2024. It does not represent an average for the reference period.

In which economic sectors were the investments made?

Subfund Sectoral Exposure

NACE Sector Code *	Portfolio Exposure **
B. Mining and quarrying	10.78%
C. Manufacturing	0.98%
D. Electricity, gas, steam and air conditioning supply	2.66%
G. Wholesale and retail trade; repair of motor vehicles and motorcycles	10.45%
H. Transportation and storage	14.61%
J. Information and communication	17.52%
K. Financial and insurance activities	30.00%
L. Real estate activities	7.46%
M. Professional, scientific and technical activities	4.21%
P. Education	0.70%
Others	0.62%

* Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.

** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period. The "Others" category can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.

Subfund Exposure to Fossil Fuels Sub-Sectors

NACE Sector Code *	NACE name	Portfolio Exposure **
B5.1.0	Mining of hard coal	0.00%
B5.2.0	Mining of lignite	0.01%
B6.1.0	Extraction of crude petroleum	1.01%
B6.2.0	Extraction of natural gas	0.00%
B9.1.0	Support activities for petroleum and natural gas extraction	0.00%
C19.2.0	Manufacture of refined petroleum products	0.01%
D35.2.1	Manufacture of gas	0.00%
D35.2.2	Distribution of gaseous fuels through mains	0.00%
D35.2.3	Trade of gas through mains	0.00%
G46.7.1	Wholesale of solid, liquid and gaseous fuels and related products	0.87%

* Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.

** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of 31.12.2024, the Subfund reports 0.00% exposure to sustainable investments with an environmental objective aligned with the EU Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have green-house gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g., for a transition to a green economy.

- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Subfund's reported EU Taxonomy alignment was not subject to assurance or review by a third party.

What was the share of investments made in transitional and enabling activities?

Of the 0.00% of sustainable investments with an environmental objective aligned with the EU Taxonomy as of 31.12.2024, 0.00% were made in transitional activities and 0.00% in enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

During the previous reference period the percentage of investments that were aligned with the EU Taxonomy were 0.00% as of 31.12.2023.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As of 31.12.2024, 7.12% of the Subfund's investments were made into sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

As of 31.12.2024, 2.20% of the Subfund's investments were made into socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.2024, 1.62% of the Subfund's investments were made into "other".

Investments such as cash, derivatives and structured products may have fallen under "other" since such instruments did not contribute to the E/S characteristics of this Subfund. More information about the portfolio exposure to such investments can be found in the financial section of this annual report. Such investments did not have minimum environmental or social safeguards. They may have been used as efficient portfolio management tools, for cash management, for hedging purposes, or as an additional source of return.

Additionally, investments may have fallen under "other" if insufficient ESG-related information was available. This applied in particular to asset classes for which ESG Factors were insufficiently defined or insufficient ESG related information was available. Where possible, minimum environmental or social safeguards have been applied to these underlying securities by ensuring that CSAM ESG exclusions were adhered to.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental or social characteristics promoted by this Subfund, this Subfund applied ESG Exclusions, ESG Integration and Active Ownership.

This Subfund applied the exclusions used by the provider of the benchmark index in the index methodology. In addition, provided the Subfund stayed within the anticipated tracking error as determined in the Prospectus, CSAM applied the following exclusions:

- Norms-based Exclusions

This Subfund excluded companies that failed to comply with international treaties on controversial weapons such as the Convention on Cluster Munitions, the Chemical Weapons Convention, the Biological Weapons Convention, the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). In addition, it excluded companies that are recommended for exclusions by the Swiss Association for Responsible Investments (SVVK-ASIR) in respect to APM (anti-personnel mines), cluster munitions and nuclear weapons (outside of NPT).

- Values-based Exclusions

This Subfund excluded companies that derived a significant portion of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (with a revenues threshold of 20%).

- Business-conduct Exclusions

This Subfund applied conduct-based exclusions of SVVK-ASIR.

ESG Factors were integrated into the investment process by tracking an ESG index.

- Proxy Voting

Voting rights have been exercised for investee companies which have met the criteria for Proxy Voting as explained at www.credit-suisse.com/esg

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The fund is using MSCI Canada ESG Leaders (NR) as reference benchmark for attaining the environmental and/or social characteristics.

The reference benchmark applies ESG Integration by following a best-in-class approach based on its parent index. The index selects companies with the highest ESG ratings in each sector of the parent index. Additionally, companies in the parent index which are involved in severe controversies are excluded. The reference benchmark is periodically rebalanced as described in the index methodology. The methodology of the reference benchmark is explained online at www.msci.com/indexes.

How does the reference benchmark differ from a broad market index?

The reference benchmark is based on the MSCI Canada (NR) as its parent index. It differs from this broad market index by a higher exposure to companies with highest ESG ratings and by avoiding exposure to companies involved in severe controversies.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 15.24%, AA: 78.23%, A: 5.89%, BBB: 0.00%, BB: 0.00%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.65%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%

ANNEX IV

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

This Subfund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088).

As index tracking fund, the ESG characteristics of the fund and its ESG integration approach are derived from the ESG index that the fund is tracking. Therefore, the ESG rules and criteria applied by the fund are defined by the index provider and they may deviate from the standards set in the Credit Suisse Asset Management (CSAM) Sustainable Investing Policy.

This Subfund promoted the following environmental and social characteristics:

- not to invest in certain issuers based on ESG Exclusions applied by the index provider when constructing the index
- as long as the Subfund stayed within the anticipated tracking error as determined in the Prospectus, the following additional exclusions of CSAM's Sustainable Investing Policy have been applied in order to limit the portfolio to a subset of securities from the benchmark index
 - to invest only into issuers that comply with international treaties on controversial weapons (norms-based exclusions on direct investments)
 - not to invest into issuers that derive more than 20% of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (values-based exclusions on direct investments)
 - adherence to, and conducting business activities in accordance with conduct-based exclusions of SVVK ASIR (business-conduct exclusions on direct investments)
- to invest according to the ESG methodology of the index provider (ESG Integration)
- contribution to sustainable practices through the inclusion of the Subfund's investments into centralized engagement approach, in line with UBS AM's fiduciary duty (Active Ownership).

The extent to which the environmental and/or social characteristics were met is measured by the sustainability indicators shown below.

Derivatives were not used to attain the environmental or social characteristics.

Please find further information on ESG Integration, ESG Exclusions and Active Ownership below in the question "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and online at www.credit-suisse.com/esg.

How did the sustainability indicators perform?

The table below shows the output of the Sustainability Indicators applicable to this Subfund as of 31.12.2024. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 11.66%, AA: 24.48%, A: 15.29%, BBB: 26.72%, BB: 10.70%, B: 5.01%, CCC: 4.26%, Not ratable**: 1.89%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	5.65	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)
Social pillar score	5.09	Portfolio aggregate social pillar score: 1 (lowest) – 10 (highest)
Governance pillar score	4.81	Portfolio aggregate governance pillar score: 1 (lowest) – 10 (highest)
ESG controversy flag	Green: 50.01%, Yellow: 35.39%, Orange: 12.71%, Red: 0.00%, Not ratable**: 1.89%, No data coverage**: 0.00%	Investment exposure by ESG controversy flag: Green: 0–100% Yellow: 0–100% Orange: 0–100% Red: 0–100%

CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

*** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● ...and compared to previous periods?

The table below presents data from the previous reference period (as of 31.12.2023). The data may differ compared to the previously published report as the most recently available data was taken into account, as the data provider(s) may have retroactively updated some figures. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 4.13%, AA: 15.20%, A: 21.52%, BBB: 19.82%, BB: 21.36%, B: 12.44%, CCC: 4.88%, Not ratable**: 0.65%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	5.35	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)
Social pillar score	4.61	Portfolio aggregate social pillar score: 1 (lowest) – 10 (highest)
Governance pillar score	4.38	Portfolio aggregate governance pillar score: 1 (lowest) – 10 (highest)
ESG controversy flag	Green: 56.83%, Yellow: 35.94%, Orange: 6.58%, Red: 0.00%, Not ratable**: 0.65%, No data coverage**: 0.00%	Investment exposure by ESG controversy flag: Green: 0–100% Yellow: 0–100% Orange: 0–100% Red: 0–100%
CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

*** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

At the end of the reference period, the sustainable investments contributed to the Environmental and Social objectives below:

- Investments that generated at least 50% of their revenues from products and services that contributed to an environmental objective (e.g. alternative energy, carbon & energy efficiency, green building, sustainable water, pollution prevention, sustainable agriculture etc.)
- Investments that generated at least 50% of their revenues from products and services that contribute to a social objective (e.g. nutrition, disease treatments, sanitation, affordable real estate, SME finance, education, connectivity etc.)
- Investments that have an approved commitment to science-based emission targets and an average reduction in carbon emissions intensity of 7% over the last three years

The above criteria were assessed using a quantitative methodology. If there had not been an output from the quantitative assessment (e.g. in the case of missing quantitative ESG data), investments were submitted for confirmation in a case-by-case approach based on a proprietary assessment of the criteria. A central Credit Suisse committee approved such submissions.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

CSAM considered various indicators linked to principal adverse impacts on sustainability factors (PAI Indicators) and further indicators from its exclusion framework to assess whether sustainable investments caused significant harm to any environmental or social investment objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

During the reference period, the PAI Indicators applied by CSAM to identify investments which qualify as SFDR Sustainable Investments in line with CS SFDR Sustainable Investment Methodology included a set of criteria and thresholds to determine if an investment passed the DNSH condition as follows:

Investments must not:

1. have a significant negative contribution to climate change. This criterion makes use of an indicator that flags the biggest emitters of greenhouse gas globally and relates to PAI 1, 2, 3 and 15.
2. be subject to norms, values and business conduct exclusions and other investment restrictions which address PAI 4, 10, 14 and 16.
3. be subject to severe ESG controversies which address PAI 7 and 10 where applicable.
4. be strongly lagging its industry peers in overall ESG performance. This criterion has been applied to cover the remainder of the PAI to the extent possible.

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Sustainable Investments were aligned with the 'OECD Guidelines for Multinational Enterprises' and the 'UN Guiding Principles on Business and Human Rights'. The alignment was assessed as part of the CS ESG Exclusion framework. Companies that exhibit severe weaknesses in business conduct, particularly with regard to breaches of the 'United Nations Global Compact Principles' (UNGC) and companies placed on the watchlist, but with no immediate exclusion, were flagged not to be considered SFDR Sustainable Investments due to DNSH.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides the exposure to all mandatory PAI from the Commission Delegated Regulation (EU) 2022/1288. The Adverse Sustainability Indicator/Metric values are calculated as an asset weighted average based on quarterly data representing the reference period from 01.01.2024–31.12.2024.

Please note that CSAM may choose or may not be able to consider and/or mitigate all of the herein reported PAI given the Subfund's investment strategy, asset class or the availability of reliable data. Consideration of PAI may be subject to change given evolving data availability and quality. Please refer to the EET for the most recent overview of which PAI are considered at Subfund level.

Please find further information on CSAM PAI Framework online at www.credit-suisse.com/esg.

* Look-through enabled where possible, excl. cash and derivatives. Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which were neither aligned with the environmental or social characteristics, nor qualified as sustainable investments.

Please refer to the section "What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?" for further information.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that did not qualify as sustainable investments.

The proportion of investments used to meet the environmental or social characteristics promoted by this Subfund (category #1 above) was 98.08% of its total net assets.

Within this category the Subfund held a proportion of 9.73% of its total net assets in sustainable investments (category #1A above) and a proportion of 88.34% of its total net assets in other E/S characteristics (category #1B above).

The proportion of investments held by the Subfund in "Other" (category #2 above) was 1.92% of its total net assets.

The data is valid as of 31.12.2024. It does not represent an average for the reference period.

In which economic sectors were the investments made?

Subfund Sectoral Exposure

NACE Sector Code *	Portfolio Exposure **
A. Agriculture, forestry and fishing	0.21%
B. Mining and quarrying	0.41%
C. Manufacturing	33.94%
D. Electricity, gas, steam and air conditioning supply	2.67%
E. Water supply; sewerage, waste management and remediation activities	0.21%
F. Construction	1.78%
G. Wholesale and retail trade; repair of motor vehicles and motorcycles	13.38%
H. Transportation and storage	1.93%
I. Accommodation and food service activities	1.27%
J. Information and communication	9.91%
K. Financial and insurance activities	27.68%
L. Real estate activities	0.50%

M. Professional, scientific and technical activities	1.50%
N. Administrative and support service activities	1.83%
P. Education	0.46%
Q. Human health and social work activities	0.61%
Others	1.71%

* Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.

** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period. The "Others" category can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.

Subfund Exposure to Fossil Fuels Sub-Sectors

NACE Sector Code *	NACE name	Portfolio Exposure **
B5.1.0	Mining of hard coal	0.06%
B5.2.0	Mining of lignite	0.02%
B6.1.0	Extraction of crude petroleum	0.00%
B6.2.0	Extraction of natural gas	0.00%
B9.1.0	Support activities for petroleum and natural gas extraction	0.05%
C19.2.0	Manufacture of refined petroleum products	0.22%
D35.2.1	Manufacture of gas	0.00%
D35.2.2	Distribution of gaseous fuels through mains	0.81%
D35.2.3	Trade of gas through mains	0.07%
G46.7.1	Wholesale of solid, liquid and gaseous fuels and related products	0.00%

* Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.

** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of 31.12.2024, the Subfund reports 0.00% exposure to sustainable investments with an environmental objective aligned with the EU Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have green-house gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g., for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Subfund's reported EU Taxonomy alignment was not subject to assurance or review by a third party.

What was the share of investments made in transitional and enabling activities?

Of the 0.00% of sustainable investments with an environmental objective aligned with the EU Taxonomy as of 31.12.2024, 0.00% were made in transitional activities and 0.00% in enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

During the previous reference period the percentage of investments that were aligned with the EU Taxonomy were 0.00% as of 31.12.2023.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As of 31.12.2024, 7.19% of the Subfund's investments were made into sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

As of 31.12.2024, 2.54% of the Subfund's investments were made into socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.2024, 1.92% of the Subfund's investments were made into "other".

Investments such as cash, derivatives and structured products may have fallen under "other" since such instruments did not contribute to the E/S characteristics of this Subfund. More information about the portfolio exposure to such investments can be found in the financial section of this annual report. Such investments did not have minimum environmental or social safeguards. They may have been used as efficient portfolio management tools, for cash management, for hedging purposes, or as an additional source of return.

Additionally, investments may have fallen under "other" if insufficient ESG-related information was available. This applied in particular to asset classes for which ESG Factors were insufficiently defined or insufficient ESG related information was available. Where possible, minimum environmental or social safeguards have been applied to these underlying securities by ensuring that CSAM ESG exclusions were adhered to.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental or social characteristics promoted by this Subfund, this Subfund applied ESG Exclusions, ESG Integration and Active Ownership.

This Subfund applied the exclusions used by the provider of the benchmark index in the index methodology. In addition, provided the Subfund stayed within the anticipated tracking error as determined in the Prospectus, CSAM applied the following exclusions:

- Norms-based Exclusions

This Subfund excluded companies that failed to comply with international treaties on controversial weapons such as the Convention on Cluster Munitions, the Chemical Weapons Convention, the Biological Weapons Convention, the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). In addition, it excluded companies that are recommended for exclusions by the Swiss Association for Responsible Investments (SVVK-ASIR) in respect to APM (anti-personnel mines), cluster munitions and nuclear weapons (outside of NPT).

- Values-based Exclusions

This Subfund excluded companies that derived a significant portion of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (with a revenues threshold of 20%).

- Business-conduct Exclusions

This Subfund applied conduct-based exclusions of SVVK-ASIR.

- Restrictions related to the Guidelines for Responsible Investing of the Bundesverband Investment and Asset Management's (BVI)

To comply with the BVI guidelines, this Subfund excluded additionally the following companies, countries, and sectors from the investment universe:

- Military hardware: companies that derive more than 10% of their revenue from manufacturing conventional weapons, components, and support systems and services
- Sovereign issuers: serious violations of democratic and human rights based on the assessment as “not free” according to the Freedom House’s index (freedomhouse.org/countries/freedom-world/scores)

ESG Factors were integrated into the investment process by tracking an ESG index.

- Proxy Voting

Voting rights have been exercised for investee companies which have met the criteria for Proxy Voting as explained at www.credit-suisse.com/esg

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The fund is using MSCI China All Shares ESG Universal (NR) in USD as reference benchmark for attaining the environmental and/or social characteristics.

The reference benchmark applies ESG considerations by enhancing the exposure to companies that demonstrate both a higher MSCI ESG Rating and a positive ESG trend, while maintaining a broad and diversified investment universe. The reference benchmark excludes from its parent index companies found to be in violation of international norms and companies involved in controversial weapons. The reference benchmark is periodically rebalanced as described in the index methodology.

How does the reference benchmark differ from a broad market index?

The reference benchmark is based on the MSCI China All Shares (NR) in USD as its parent index. It differs from this broad market index by a higher exposure to companies with highest ESG ratings and by avoiding exposure to companies involved in severe controversies.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 11.66%, AA: 24.48%, A: 15.29%, BBB: 26.72%, BB: 10.70%, B: 5.01%, CCC: 4.26%, Not ratable**: 1.89%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CSIF (Lux) Equity Emerging Markets ESG Blue

Legal entity identifier: 549300NKN5SN6MQ2YL63

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☒ ☐ No

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 11.77% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Subfund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088).

As index tracking fund, the ESG characteristics of the fund and its ESG integration approach are derived from the ESG index that the fund is tracking. Therefore, the ESG rules and criteria applied by the fund are defined by the index provider and they may deviate from the standards set in the Credit Suisse Asset Management (CSAM) Sustainable Investing Policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

This Subfund promoted the following environmental and social characteristics:

- not to invest in certain issuers based on ESG Exclusions applied by the index provider when constructing the index
- as long as the Subfund stayed within the anticipated tracking error as determined in the Prospectus, the following additional exclusions of CSAM's Sustainable Investing Policy have been applied in order to limit the portfolio to a subset of securities from the benchmark index
 - to invest only into issuers that comply with international treaties on controversial weapons (norms-based exclusions on direct investments)
 - not to invest into issuers that derive more than 20% of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (values-based exclusions on direct investments)
 - adherence to, and conducting business activities in accordance with conduct-based exclusions of SVVK ASIR (business-conduct exclusions on direct investments)
- to invest according to the ESG methodology of the index provider (ESG Integration)
- contribution to sustainable practices through the inclusion of the Subfund's investments into centralized engagement approach, in line with UBS AM's fiduciary duty (Active Ownership).

The extent to which the environmental and/or social characteristics were met is measured by the sustainability indicators shown below.

Derivatives were not used to attain the environmental or social characteristics.

Please find further information on ESG Integration, ESG Exclusions and Active Ownership below in the question "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and online at www.credit-suisse.com/esg.

● *How did the sustainability indicators perform?*

The table below shows the output of the Sustainability Indicators applicable to this Subfund as of 31.12.2024. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 25.48%, AA: 24.72%, A: 22.54%, BBB: 21.05%, BB: 5.91%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.30%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	6.05	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)
Social pillar score	5.77	Portfolio aggregate social pillar score: 1 (lowest) – 10 (highest)

CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

*** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

At the end of the reference period, the sustainable investments contributed to the Environmental and Social objectives below:

- Investments that generated at least 50% of their revenues from products and services that contributed to an environmental objective (e.g. alternative energy, carbon & energy efficiency, green building, sustainable water, pollution prevention, sustainable agriculture etc.)
- Investments that generated at least 50% of their revenues from products and services that contribute to a social objective (e.g. nutrition, disease treatments, sanitation, affordable real estate, SME finance, education, connectivity etc.)
- Investments that have an approved commitment to science-based emission targets and an average reduction in carbon emissions intensity of 7% over the last three years
- Investments that cumulatively generated at least 50% of their revenues from products and services that contributed to an environmental or social objective (the investments were allocated to the respective objective that contributed the higher share of revenue)

The above criteria were assessed using a quantitative methodology. If there had not been an output from the quantitative assessment (e.g. in the case of missing quantitative ESG data), investments were submitted for confirmation in a case-by-case approach based on a proprietary assessment of the criteria. A central Credit Suisse committee approved such submissions.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

CSAM considered various indicators linked to principal adverse impacts on sustainability factors (PAI Indicators) and further indicators from its exclusion framework to assess whether sustainable investments caused significant harm to any environmental or social investment objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

During the reference period, the PAI Indicators applied by CSAM to identify investments which qualify as SFDR Sustainable Investments in line with CS SFDR Sustainable Investment Methodology included a set of criteria and thresholds to determine if an investment passed the DNSH condition as follows:

Investments must not:

1. have a significant negative contribution to climate change. This criterion makes use of an indicator that flags the biggest emitters of greenhouse gas globally and relates to PAI 1, 2, 3 and 15.
2. be subject to norms, values and business conduct exclusions and other investment restrictions which address PAI 4, 10, 14 and 16.
3. be subject to severe ESG controversies which address PAI 7 and 10 where applicable.
4. be strongly lagging its industry peers in overall ESG performance. This criterion has been applied to cover the remainder of the PAI to the extent possible.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Sustainable Investments were aligned with the 'OECD Guidelines for Multinational Enterprises' and the 'UN Guiding Principles on Business and Human Rights'. The alignment was assessed as part of the CS ESG Exclusion framework. Companies that exhibit severe weaknesses in business conduct, particularly with regard to breaches of the 'United Nations Global Compact Principles' (UNGC) and companies placed on the watchlist, but with no immediate exclusion, were flagged not to be considered SFDR Sustainable Investments due to DNSH.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides the exposure to all mandatory PAI from the Commission Delegated Regulation (EU) 2022/1288. The Adverse Sustainability Indicator/Metric values are calculated as an asset weighted average based on quarterly data representing the reference period from 01.01.2024–31.12.2024.

Please note that CSAM may choose or may not be able to consider and/or mitigate all of the herein reported PAI given the Subfund's investment strategy, asset class or the availability of reliable data. Consideration of PAI may be subject to change given evolving data availability and quality. Please refer to the EET for the most recent overview of which PAI are considered at Subfund level.

Please find further information on CSAM PAI Framework online at www.credit-suisse.com/esg.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The proportion of investments used to meet the environmental or social characteristics promoted by this Subfund (category #1 above) was 99.70% of its total net assets.

Within this category the Subfund held a proportion of 11.77% of its total net assets in sustainable investments (category #1A above) and a proportion of 87.93% of its total net assets in other E/S characteristics (category #1B above).

The proportion of investments held by the Subfund in “Other” (category #2 above) was 0.30% of its total net assets.

The data is valid as of 31.12.2024. It does not represent an average for the reference period.

In which economic sectors were the investments made?

Subfund Sectoral Exposure

NACE Sector Code *	Portfolio Exposure **

K. Financial and insurance activities	22.01%
L. Real estate activities	1.10%
M. Professional, scientific and technical activities	0.60%
N. Administrative and support service activities	0.48%
Q. Human health and social work activities	0.95%
Others	0.29%

** Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.*

*** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period. The "Others" category can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

Subfund Exposure to Fossil Fuels Sub-Sectors

NACE Sector Code *	NACE name	Portfolio Exposure **
B5.1.0	Mining of hard coal	0.00%
B5.2.0	Mining of lignite	0.00%
B6.1.0	Extraction of crude petroleum	1.25%
B6.2.0	Extraction of natural gas	0.07%
B9.1.0	Support activities for petroleum and natural gas extraction	0.00%
C19.2.0	Manufacture of refined petroleum products	3.19%
D35.2.1	Manufacture of gas	0.00%
D35.2.2	Distribution of gaseous fuels through mains	0.35%
D35.2.3	Trade of gas through mains	0.01%
G46.7.1	Wholesale of solid, liquid and gaseous fuels and related products	0.19%

** Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.*

*** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.*

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of 31.12.2024, the Subfund reports 0.00% exposure to sustainable investments with an environmental objective aligned with the EU Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have green-house gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g., for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Subfund's reported EU Taxonomy alignment was not subject to assurance or review by a third party.

● **What was the share of investments made in transitional and enabling activities?**

Of the 0.00% of sustainable investments with an environmental objective aligned with the EU Taxonomy as of 31.12.2024, 0.00% were made in transitional activities and 0.00% in enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reference period the percentage of investments that were aligned with the EU Taxonomy were 0.00% as of 31.12.2023.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As of 31.12.2024, 9.95% of the Subfund's investments were made into sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

As of 31.12.2024, 1.82% of the Subfund's investments were made into socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.2024, 0.30% of the Subfund's investments were made into "other".

Investments such as cash, derivatives and structured products may have fallen under "other" since such instruments did not contribute to the E/S characteristics of this Subfund. More information about the portfolio exposure to such investments can be found in the financial section of this annual report. Such investments did not have minimum environmental or social safeguards. They may have been used as efficient portfolio management tools, for cash management, for hedging purposes, or as an additional source of return.

Additionally, investments may have fallen under "other" if insufficient ESG-related information was available. This applied in particular to asset classes for which ESG Factors were insufficiently defined or insufficient ESG related information was available. Where possible, minimum environmental or social safeguards have been applied to these underlying securities by ensuring that CSAM ESG exclusions were adhered to.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental or social characteristics promoted by this Subfund, this Subfund applied ESG Exclusions, ESG Integration and Active Ownership.

This Subfund applied the exclusions used by the provider of the benchmark index in the index methodology. In addition, provided the Subfund stayed within the anticipated tracking error as determined in the Prospectus, CSAM applied the following exclusions:

- Norms-based Exclusions

This Subfund excluded companies that failed to comply with international treaties on controversial weapons such as the Convention on Cluster Munitions, the Chemical Weapons Convention, the Biological Weapons Convention, the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). In addition, it excluded companies that are recommended for exclusions by the Swiss Association for Responsible Investments (SVVK-ASIR) in respect to APM (anti-personnel mines), cluster munitions and nuclear weapons (outside of NPT).

- Values-based Exclusions

This Subfund excluded companies that derived a significant portion of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (with a revenues threshold of 20%).

- Business-conduct Exclusions

This Subfund applied conduct-based exclusions of SVVK-ASIR.

- Restrictions related to the Guidelines for Responsible Investing of the Bundesverband Investment and Asset Management's (BVI)

To comply with the BVI guidelines, this Subfund excluded additionally the following companies, countries, and sectors from the investment universe:

- Military hardware: companies that derive more than 10% of their revenue from manufacturing conventional weapons, components, and support systems and services
- Sovereign issuers: serious violations of democratic and human rights based on the assessment as "not free" according to the Freedom House's index (freedomhouse.org/countries/freedom-world/scores)

ESG Factors were integrated into the investment process by tracking an ESG index.

- Proxy Voting

Voting rights have been exercised for investee companies which have met the criteria for Proxy Voting as explained at www.credit-suisse.com/esg

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The fund is using MSCI EM ESG Leaders (NR) as reference benchmark for attaining the environmental and/or social characteristics.

The reference benchmark applies ESG Integration by following a best-in-class approach based on its parent index. The index selects companies with the highest ESG ratings in each sector of the parent index. Additionally, companies in the parent index which are involved in severe controversies are excluded. The reference benchmark is periodically rebalanced as described in the index methodology. The methodology of the reference benchmark is explained online at www.msci.com/indexes.

How does the reference benchmark differ from a broad market index?

The reference benchmark is based on the MSCI EM (NR) as its parent index. It differs from this broad market index by a higher exposure to companies with highest ESG ratings and by avoiding exposure to companies involved in severe controversies.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Sustainability Indicator*	Portfolio	Indicator Output

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CSIF (Lux) Equity Emerging Markets Minimum Volatility ESG Blue

Legal entity identifier: 549300U653PSTC31AR97

In liquidation since 18.04.2023.
The timing and terms of the closure of the fund's liquidation is unpredictable at this point in time. Following the fund entering into liquidation no meaningful data are shown in quantitative data sections below.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ **Yes**

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☒ ☒ **No**

☐ It **promoted Environmental/Social (E/S) characteristics**

and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Subfund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088).

As index tracking fund, the ESG characteristics of the fund and its ESG integration approach are derived from the ESG index that the fund is tracking. Therefore, the ESG rules and criteria applied by the fund are defined by the index provider and they may deviate from the standards set in the Credit Suisse Asset Management (CSAM) Sustainable Investing Policy.

This Subfund promoted the following environmental and social characteristics:

- not to invest in certain issuers based on ESG Exclusions applied by the index provider when constructing the index
- as long as the Subfund stayed within the anticipated tracking error as determined in the Prospectus, the following additional exclusions of CSAM's Sustainable Investing Policy have been applied in order to limit the portfolio to a subset of securities from the benchmark index
 - to invest only into issuers that comply with international treaties on controversial weapons (norms-based exclusions on direct investments)
 - not to invest into issuers that derive more than 20% of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (values-based exclusions on direct investments)
 - adherence to, and conducting business activities in accordance with conduct-based exclusions of SVVK ASIR (business-conduct exclusions on direct investments)
- to invest according to the ESG methodology of the index provider (ESG Integration)
- contribution to sustainable practices through the inclusion of the Subfund's investments into centralized engagement approach, in line with UBS AM's fiduciary duty (Active Ownership).

The extent to which the environmental and/or social characteristics were met is measured by the sustainability indicators shown below.

Derivatives were not used to attain the environmental or social characteristics.

Please find further information on ESG Integration, ESG Exclusions and Active Ownership below in the question "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and online at www.credit-suisse.com/esg.

● *How did the sustainability indicators perform?*

The fund is in liquidation since 18.04.2023.

● *...and compared to previous periods?*

The fund is in liquidation since 18.04.2023.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

The fund is in liquidation since 18.04.2023.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund is in liquidation since 18.04.2023.

What were the top investments of this financial product?

The fund is in liquidation since 18.04.2023.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31.12.2024

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● *What was the asset allocation?*

The fund is in liquidation since 18.04.2023.

● *In which economic sectors were the investments made?*

The fund is in liquidation since 18.04.2023.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund is in liquidation since 18.04.2023.

● *Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?*

☐

Yes

☐

In fossil gas

☐

In nuclear energy

☒

No

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g., for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

- *What was the share of investments made in transitional and enabling activities?*

The fund is in liquidation since 18.04.2023.

- *How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?*

The fund is in liquidation since 18.04.2023.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The fund is in liquidation since 18.04.2023.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund is in liquidation since 18.04.2023.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund is in liquidation since 18.04.2023.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The fund is in liquidation since 18.04.2023.

How did this financial product perform compared to the reference benchmark?

The fund is using MSCI EM ESG Leaders Minimum Volatility (USD) (NR) as reference benchmark for attaining the environmental and/or social characteristics.

The reference benchmark applies ESG Integration by following a best-in-class approach based on its parent index. The index selects companies with the highest ESG ratings in each sector of the parent index. Additionally, companies in the parent index which are involved in severe controversies are excluded. The reference benchmark is periodically rebalanced as described in the index methodology. The methodology of the reference benchmark is explained online at www.msci.com/indexes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● *How does the reference benchmark differ from a broad market index?*

The reference benchmark is based on the MSCI EM Minimum Volatility (NR) as its parent index. It differs from this broad market index by a higher exposure to companies with highest ESG ratings and by avoiding exposure to companies involved in severe controversies.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

The fund is in liquidation since 18.04.2023.

● *How did this financial product perform compared with the reference benchmark?*

The fund is in liquidation since 18.04.2023.

● *How did this financial product perform compared with the broad market index?*

The fund is in liquidation since 18.04.2023.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CSIF (Lux) Equity EMU ESG
Blue

Legal entity identifier: 549300J1BE9Q0SLT7F93

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☒ ☐ ☒ No

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 56.77% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Subfund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088).

As index tracking fund, the ESG characteristics of the fund and its ESG integration approach are derived from the ESG index that the fund is tracking. Therefore, the ESG rules and criteria applied by the fund are defined by the index provider and they may deviate from the standards set in the Credit Suisse Asset Management (CSAM) Sustainable Investing Policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

This Subfund promoted the following environmental and social characteristics:

- not to invest in certain issuers based on ESG Exclusions applied by the index provider when constructing the index
- as long as the Subfund stayed within the anticipated tracking error as determined in the Prospectus, the following additional exclusions of CSAM's Sustainable Investing Policy have been applied in order to limit the portfolio to a subset of securities from the benchmark index
 - to invest only into issuers that comply with international treaties on controversial weapons (norms-based exclusions on direct investments)
 - not to invest into issuers that derive more than 20% of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (values-based exclusions on direct investments)
 - adherence to, and conducting business activities in accordance with conduct-based exclusions of SVVK ASIR (business-conduct exclusions on direct investments)
- to invest according to the ESG methodology of the index provider (ESG Integration)
- contribution to sustainable practices through the inclusion of the Subfund's investments into centralized engagement approach, in line with UBS AM's fiduciary duty (Active Ownership).

The extent to which the environmental and/or social characteristics were met is measured by the sustainability indicators shown below.

Derivatives were not used to attain the environmental or social characteristics.

Please find further information on ESG Integration, ESG Exclusions and Active Ownership below in the question "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and online at www.credit-suisse.com/esg.

● *How did the sustainability indicators perform?*

The table below shows the output of the Sustainability Indicators applicable to this Subfund as of 31.12.2024. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 49.95%, AA: 39.00%, A: 10.40%, BBB: 0.19%, BB: 0.00%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.47%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	7.20	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)
Social pillar score	5.77	Portfolio aggregate social pillar score: 1 (lowest) – 10 (highest)
Governance pillar score	6.93	Portfolio aggregate governance pillar score: 1 (lowest) – 10 (highest)

CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

*** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

At the end of the reference period, the sustainable investments contributed to the Environmental and Social objectives below:

- Investments that generated at least 50% of their revenues from products and services that contributed to an environmental objective (e.g. alternative energy, carbon & energy efficiency, green building, sustainable water, pollution prevention, sustainable agriculture etc.)
- Investments that generated at least 50% of their revenues from products and services that contribute to a social objective (e.g. nutrition, disease treatments, sanitation, affordable real estate, SME finance, education, connectivity etc.)
- Investments that have an approved commitment to science-based emission targets and an average reduction in carbon emissions intensity of 7% over the last three years

The above criteria were assessed using a quantitative methodology. If there had not been an output from the quantitative assessment (e.g. in the case of missing quantitative ESG data), investments were submitted for confirmation in a case-by-case approach based on a proprietary assessment of the criteria. A central Credit Suisse committee approved such submissions.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

CSAM considered various indicators linked to principal adverse impacts on sustainability factors (PAI Indicators) and further indicators from its exclusion framework to assess whether sustainable investments caused significant harm to any environmental or social investment objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

During the reference period, the PAI Indicators applied by CSAM to identify investments which qualify as SFDR Sustainable Investments in line with CS SFDR Sustainable Investment Methodology included a set of criteria and thresholds to determine if an investment passed the DNSH condition as follows:

Investments must not:

1. have a significant negative contribution to climate change. This criterion makes use of an indicator that flags the biggest emitters of greenhouse gas globally and relates to PAI 1, 2, 3 and 15.
2. be subject to norms, values and business conduct exclusions and other investment restrictions which address PAI 4, 10, 14 and 16.
3. be subject to severe ESG controversies which address PAI 7 and 10 where applicable.
4. be strongly lagging its industry peers in overall ESG performance. This criterion has been applied to cover the remainder of the PAI to the extent possible.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Sustainable Investments were aligned with the 'OECD Guidelines for Multinational Enterprises' and the 'UN Guiding Principles on Business and Human Rights'. The alignment was assessed as part of the CS ESG Exclusion framework. Companies that exhibit severe weaknesses in business conduct, particularly with regard to breaches of the 'United Nations Global Compact Principles' (UNGC) and companies placed on the watchlist, but with no immediate exclusion, were flagged not to be considered SFDR Sustainable Investments due to DNSH.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides the exposure to all mandatory PAI from the Commission Delegated Regulation (EU) 2022/1288. The Adverse Sustainability Indicator/Metric values are calculated as an asset weighted average based on quarterly data representing the reference period from 01.01.2024–31.12.2024.

Please note that CSAM may choose or may not be able to consider and/or mitigate all of the herein reported PAI given the Subfund's investment strategy, asset class or the availability of reliable data. Consideration of PAI may be subject to change given evolving data availability and quality. Please refer to the EET for the most recent overview of which PAI are considered at Subfund level.

Please find further information on CSAM PAI Framework online at www.credit-suisse.com/esg.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The proportion of investments used to meet the environmental or social characteristics promoted by this Subfund (category #1 above) was 99.53% of its total net assets.

Within this category the Subfund held a proportion of 56.77% of its total net assets in sustainable investments (category #1A above) and a proportion of 42.76% of its total net assets in other E/S characteristics (category #1B above).

The proportion of investments held by the Subfund in “Other” (category #2 above) was 0.47% of its total net assets.

The data is valid as of 31.12.2024. It does not represent an average for the reference period.

In which economic sectors were the investments made?

Subfund Sectoral Exposure

NACE Sector Code *	Portfolio Exposure **
B. Mining and quarrying	0.31%
C. Manufacturing	55.94%
D. Electricity, gas, steam and air conditioning supply	6.19%
F. Construction	1.07%

G46.7.1	Wholesale of solid, liquid and gaseous fuels and related products	0.00%

** Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.*

*** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.*

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of 31.12.2024, the Subfund reports 0.00% exposure to sustainable investments with an environmental objective aligned with the EU Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environ-mental
objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have green-house gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g., for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Subfund's reported EU Taxonomy alignment was not subject to assurance or review by a third party.

● **What was the share of investments made in transitional and enabling activities?**

Of the 0.00% of sustainable investments with an environmental objective aligned with the EU Taxonomy as of 31.12.2024, 0.00% were made in transitional activities and 0.00% in enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reference period the percentage of investments that were aligned with the EU Taxonomy were 0.00% as of 31.12.2023.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As of 31.12.2024, 51.94% of the Subfund's investments were made into sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

As of 31.12.2024, 4.83% of the Subfund's investments were made into socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.2024, 0.47% of the Subfund's investments were made into "other".

Investments such as cash, derivatives and structured products may have fallen under "other" since such instruments did not contribute to the E/S characteristics of this Subfund. More information about the portfolio exposure to such investments can be found in the financial section of this annual report. Such investments did not have minimum environmental or social safeguards. They may have been used as efficient portfolio management tools, for cash management, for hedging purposes, or as an additional source of return.

Additionally, investments may have fallen under "other" if insufficient ESG-related information was available. This applied in particular to asset classes for which ESG Factors were insufficiently defined or insufficient ESG related information was available. Where possible, minimum environmental or social safeguards have been applied to these underlying securities by ensuring that CSAM ESG exclusions were adhered to.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental or social characteristics promoted by this Subfund, this Subfund applied ESG Exclusions, ESG Integration and Active Ownership.

This Subfund applied the exclusions used by the provider of the benchmark index in the index methodology. In addition, provided the Subfund stayed within the anticipated tracking error as determined in the Prospectus, CSAM applied the following exclusions:

- Norms-based Exclusions

This Subfund excluded companies that failed to comply with international treaties on controversial weapons such as the Convention on Cluster Munitions, the Chemical Weapons Convention, the Biological Weapons Convention, the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). In addition, it excluded companies that are recommended for exclusions by the Swiss Association for Responsible Investments (SVVK-ASIR) in respect to APM (anti-personnel mines), cluster munitions and nuclear weapons (outside of NPT).

- Values-based Exclusions

This Subfund excluded companies that derived a significant portion of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (with a revenues threshold of 20%).

- Business-conduct Exclusions

This Subfund applied conduct-based exclusions of SVVK-ASIR.

- Restrictions related to the Guidelines for Responsible Investing of the Bundesverband Investment and Asset Management's (BVI)

To comply with the BVI guidelines, this Subfund excluded additionally the following companies, countries, and sectors from the investment universe:

- Military hardware: companies that derive more than 10% of their revenue from manufacturing conventional weapons, components, and support systems and services
- Sovereign issuers: serious violations of democratic and human rights based on the assessment as "not free" according to the Freedom House's index (freedomhouse.org/countries/freedom-world/scores)

ESG Factors were integrated into the investment process by tracking an ESG index.

- Proxy Voting

Voting rights have been exercised for investee companies which have met the criteria for Proxy Voting as explained at www.credit-suisse.com/esg

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The fund is using MSCI EMU ESG Leaders (NR) as reference benchmark for attaining the environmental and/or social characteristics.

The reference benchmark applies ESG Integration by following a best-in-class approach based on its parent index. The index selects companies with the highest ESG ratings in each sector of the parent index. Additionally, companies in the parent index which are involved in severe controversies are excluded. The reference benchmark is periodically rebalanced as described in the index methodology. The methodology of the reference benchmark is explained online at www.msci.com/indexes.

How does the reference benchmark differ from a broad market index?

The reference benchmark is based on the MSCI EMU (NR) as its parent index. It differs from this broad market index by a higher exposure to companies with highest ESG ratings and by avoiding exposure to companies involved in severe controversies.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CSIF (Lux) Equity Europe ESG
Blue

Legal entity identifier: 549300T3C3XERBPEF071

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☒ ☐ No

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 56.97% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Subfund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088).

As index tracking fund, the ESG characteristics of the fund and its ESG integration approach are derived from the ESG index that the fund is tracking. Therefore, the ESG rules and criteria applied by the fund are defined by the index provider and they may deviate from the standards set in the Credit Suisse Asset Management (CSAM) Sustainable Investing Policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

This Subfund promoted the following environmental and social characteristics:

- not to invest in certain issuers based on ESG Exclusions applied by the index provider when constructing the index
- as long as the Subfund stayed within the anticipated tracking error as determined in the Prospectus, the following additional exclusions of CSAM's Sustainable Investing Policy have been applied in order to limit the portfolio to a subset of securities from the benchmark index
 - to invest only into issuers that comply with international treaties on controversial weapons (norms-based exclusions on direct investments)
 - not to invest into issuers that derive more than 20% of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (values-based exclusions on direct investments)
 - adherence to, and conducting business activities in accordance with conduct-based exclusions of SVVK ASIR (business-conduct exclusions on direct investments)
- to invest according to the ESG methodology of the index provider (ESG Integration)
- contribution to sustainable practices through the inclusion of the Subfund's investments into centralized engagement approach, in line with UBS AM's fiduciary duty (Active Ownership).

The extent to which the environmental and/or social characteristics were met is measured by the sustainability indicators shown below.

Derivatives were not used to attain the environmental or social characteristics.

Please find further information on ESG Integration, ESG Exclusions and Active Ownership below in the question "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and online at www.credit-suisse.com/esg.

● *How did the sustainability indicators perform?*

The table below shows the output of the Sustainability Indicators applicable to this Subfund as of 31.12.2024. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 50.08%, AA: 41.55%, A: 7.25%, BBB: 0.14%, BB: 0.00%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.98%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	6.81	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)
Social pillar score	5.64	Portfolio aggregate social pillar score: 1 (lowest) – 10 (highest)
Governance pillar score	6.98	Portfolio aggregate governance pillar score: 1 (lowest) – 10 (highest)
ESG controversy flag	Green: 45.25%, Yellow: 36.41%, Orange: 17.35%, Red: 0.00%, Not ratable**: 0.98%, No data coverage**: 0.00%	Investment exposure by ESG controversy flag: Green: 0–100% Yellow: 0–100% Orange: 0–100% Red: 0–100%
CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

*** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● **...and compared to previous periods?**

The table below presents data from the previous reference period (as of 31.12.2023). The data may differ compared to the previously published report as the most recently available data was taken into account, as the data provider(s) may have retroactively updated some figures. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 49.85%, AA: 44.12%, A: 4.52%, BBB: 0.13%, BB: 0.16%, B: 0.00%, CCC: 0.00%, Not ratable**: 1.23%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	6.81	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)

CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

*** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

At the end of the reference period, the sustainable investments contributed to the Environmental and Social objectives below:

- Investments that generated at least 50% of their revenues from products and services that contributed to an environmental objective (e.g. alternative energy, carbon & energy efficiency, green building, sustainable water, pollution prevention, sustainable agriculture etc.)
- Investments that generated at least 50% of their revenues from products and services that contribute to a social objective (e.g. nutrition, disease treatments, sanitation, affordable real estate, SME finance, education, connectivity etc.)
- Investments that have an approved commitment to science-based emission targets and an average reduction in carbon emissions intensity of 7% over the last three years

The above criteria were assessed using a quantitative methodology. If there had not been an output from the quantitative assessment (e.g. in the case of missing quantitative ESG data), investments were submitted for confirmation in a case-by-case approach based on a proprietary assessment of the criteria. A central Credit Suisse committee approved such submissions.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

CSAM considered various indicators linked to principal adverse impacts on sustainability factors (PAI Indicators) and further indicators from its exclusion framework to assess whether sustainable investments caused significant harm to any environmental or social investment objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

During the reference period, the PAI Indicators applied by CSAM to identify investments which qualify as SFDR Sustainable Investments in line with CS SFDR Sustainable Investment Methodology included a set of criteria and thresholds to determine if an investment passed the DNSH condition as follows:

Investments must not:

1. have a significant negative contribution to climate change. This criterion makes use of an indicator that flags the biggest emitters of greenhouse gas globally and relates to PAI 1, 2, 3 and 15.
2. be subject to norms, values and business conduct exclusions and other investment restrictions which address PAI 4, 10, 14 and 16.
3. be subject to severe ESG controversies which address PAI 7 and 10 where applicable.
4. be strongly lagging its industry peers in overall ESG performance. This criterion has been applied to cover the remainder of the PAI to the extent possible.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Sustainable Investments were aligned with the 'OECD Guidelines for Multinational Enterprises' and the 'UN Guiding Principles on Business and Human Rights'. The alignment was assessed as part of the CS ESG Exclusion framework. Companies that exhibit severe weaknesses in business conduct, particularly with regard to breaches of the 'United Nations Global Compact Principles' (UNGC) and companies placed on the watchlist, but with no immediate exclusion, were flagged not to be considered SFDR Sustainable Investments due to DNSH.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides the exposure to all mandatory PAI from the Commission Delegated Regulation (EU) 2022/1288. The Adverse Sustainability Indicator/Metric values are calculated as an asset weighted average based on quarterly data representing the reference period from 01.01.2024–31.12.2024.

Please note that CSAM may choose or may not be able to consider and/or mitigate all of the herein reported PAI given the Subfund's investment strategy, asset class or the availability of reliable data. Consideration of PAI may be subject to change given evolving data availability and quality. Please refer to the EET for the most recent overview of which PAI are considered at Subfund level.

Please find further information on CSAM PAI Framework online at www.credit-suisse.com/esg.

* Impact: The value represents non-normalized portfolio level exposure to a given PAI indicator. This means that the PAI values use the actual weights of portfolio exposures.

** Eligible Assets: Percentage of AUM of the entire portfolio (including cash) for which the PAI is applicable. As an example, government bonds held by the Subfund cannot be measured against PAI indicators applicable to an investee company.

*** Data coverage: Percentage of AUM of the entire portfolio for which PAI indicator data is available.

**** Flags the companies with exposure to fossil fuels related activities, including extraction, processing, storage and transportation of fossil fuels.

***** The coverage of the PAI 6 are limited to the 9 high impact climate sectors defined by SFDR.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31.12.2024

What were the top investments of this financial product?

Largest investments *	NACE Sector code	% Assets	Country

HERMES INTERNATIONAL	C. Manufacturing	1.44	France

** Look-through enabled where possible, excl. cash and derivatives. Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.*

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The proportion of investments used to meet the environmental or social characteristics promoted by this Subfund (category #1 above) was 98.77% of its total net assets.

Within this category the Subfund held a proportion of 56.97% of its total net assets in sustainable investments (category #1A above) and a proportion of 41.80% of its total net assets in other E/S characteristics (category #1B above).

The proportion of investments held by the Subfund in “Other” (category #2 above) was 1.23% of its total net assets.

The data is valid as of 31.12.2024. It does not represent an average for the reference period.

In which economic sectors were the investments made?

Subfund Sectoral Exposure

NACE Sector Code *	Portfolio Exposure **
B. Mining and quarrying	1.18%
C. Manufacturing	55.21%
D. Electricity, gas, steam and air conditioning supply	4.15%
F. Construction	0.84%
G. Wholesale and retail trade; repair of motor vehicles and motorcycles	3.40%
H. Transportation and storage	1.50%
I. Accommodation and food service activities	0.12%
J. Information and communication	8.04%
K. Financial and insurance activities	20.54%

L. Real estate activities	0.79%
M. Professional, scientific and technical activities	1.53%
N. Administrative and support service activities	1.67%
R. Arts, entertainment and recreation	0.10%
Others	0.93%

** Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.*

*** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period. The "Others" category can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

Subfund Exposure to Fossil Fuels Sub-Sectors

NACE Sector Code *	NACE name	Portfolio Exposure **
B5.1.0	Mining of hard coal	0.00%
B5.2.0	Mining of lignite	0.00%
B6.1.0	Extraction of crude petroleum	0.28%
B6.2.0	Extraction of natural gas	0.00%
B9.1.0	Support activities for petroleum and natural gas extraction	0.00%
C19.2.0	Manufacture of refined petroleum products	2.76%
D35.2.1	Manufacture of gas	0.00%
D35.2.2	Distribution of gaseous fuels through mains	0.00%
D35.2.3	Trade of gas through mains	0.00%
G46.7.1	Wholesale of solid, liquid and gaseous fuels and related products	0.49%

** Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.*

*** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.*

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of 31.12.2024, the Subfund reports 0.00% exposure to sustainable investments with an environmental objective aligned with the EU Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g., for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Subfund's reported EU Taxonomy alignment was not subject to assurance or review by a third party.

● **What was the share of investments made in transitional and enabling activities?**

Of the 0.00% of sustainable investments with an environmental objective aligned with the EU Taxonomy as of 31.12.2024, 0.00% were made in transitional activities and 0.00% in enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reference period the percentage of investments that were aligned with the EU Taxonomy were 0.00% as of 31.12.2023.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As of 31.12.2024, 52.22% of the Subfund's investments were made into sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

As of 31.12.2024, 4.75% of the Subfund's investments were made into socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.2024, 1.23% of the Subfund's investments were made into "other".

Investments such as cash, derivatives and structured products may have fallen under "other" since such instruments did not contribute to the E/S characteristics of this Subfund. More information about the portfolio exposure to such investments can be found in the financial section of this annual report. Such investments did not have minimum environmental or social safeguards. They may have been used as efficient portfolio management tools, for cash management, for hedging purposes, or as an additional source of return.

Additionally, investments may have fallen under "other" if insufficient ESG-related information was available. This applied in particular to asset classes for which ESG Factors were insufficiently defined or insufficient ESG related information was available. Where possible, minimum environmental or social safeguards have been applied to these underlying securities by ensuring that CSAM ESG exclusions were adhered to.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental or social characteristics promoted by this Subfund, this Subfund applied ESG Exclusions, ESG Integration and Active Ownership.

This Subfund applied the exclusions used by the provider of the benchmark index in the index methodology. In addition, provided the Subfund stayed within the anticipated tracking error as determined in the Prospectus, CSAM applied the following exclusions:

- Norms-based Exclusions

This Subfund excluded companies that failed to comply with international treaties on controversial weapons such as the Convention on Cluster Munitions, the Chemical Weapons Convention, the Biological Weapons Convention, the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). In addition, it excluded companies that are recommended for exclusions by the Swiss Association for Responsible Investments (SVVK-ASIR) in respect to APM (anti-personnel mines), cluster munitions and nuclear weapons (outside of NPT).

- Values-based Exclusions

This Subfund excluded companies that derived a significant portion of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (with a revenues threshold of 20%).

- Business-conduct Exclusions

This Subfund applied conduct-based exclusions of SVVK-ASIR.

- Restrictions related to the Guidelines for Responsible Investing of the Bundesverband Investment and Asset Management's (BVI)

To comply with the BVI guidelines, this Subfund excluded additionally the following companies, countries, and sectors from the investment universe:

- Military hardware: companies that derive more than 10% of their revenue from manufacturing conventional weapons, components, and support systems and services
- Sovereign issuers: serious violations of democratic and human rights based on the assessment as "not free" according to the Freedom House's index (freedomhouse.org/countries/freedom-world/scores)

ESG Factors were integrated into the investment process by tracking an ESG index.

- Proxy Voting

Voting rights have been exercised for investee companies which have met the criteria for Proxy Voting as explained at www.credit-suisse.com/esg

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The fund is using MSCI Europe ESG Leaders (NR) as reference benchmark for attaining the environmental and/or social characteristics.

The reference benchmark applies ESG Integration by following a best-in-class approach based on its parent index. The index selects companies with the highest ESG ratings in each sector of the parent index. Additionally, companies in the parent index which are involved in severe controversies are excluded. The reference benchmark is periodically rebalanced as described in the index methodology. The methodology of the reference benchmark is explained online at www.msci.com/indexes.

How does the reference benchmark differ from a broad market index?

The reference benchmark is based on the MSCI Europe (NR) as its parent index. It differs from this broad market index by a higher exposure to companies with highest ESG ratings and by avoiding exposure to companies involved in severe controversies.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Sustainability Indicator*	Portfolio	Indicator Output

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CSIF (Lux) Equity Japan ESG Blue

Legal entity identifier: 549300BB42KM28MCFP33

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ **Yes**

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☒ ☐ ☒ **No**

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 25.89% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Subfund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088).

As index tracking fund, the ESG characteristics of the fund and its ESG integration approach are derived from the ESG index that the fund is tracking. Therefore, the ESG rules and criteria applied by the fund are defined by the index provider and they may deviate from the standards set in the Credit Suisse Asset Management (CSAM) Sustainable Investing Policy.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

This Subfund promoted the following environmental and social characteristics:

- not to invest in certain issuers based on ESG Exclusions applied by the index provider when constructing the index
- as long as the Subfund stayed within the anticipated tracking error as determined in the Prospectus, the following additional exclusions of CSAM's Sustainable Investing Policy have been applied in order to limit the portfolio to a subset of securities from the benchmark index
 - to invest only into issuers that comply with international treaties on controversial weapons (norms-based exclusions on direct investments)
 - not to invest into issuers that derive more than 20% of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (values-based exclusions on direct investments)
 - adherence to, and conducting business activities in accordance with conduct-based exclusions of SVVK ASIR (business-conduct exclusions on direct investments)
- to invest according to the ESG methodology of the index provider (ESG Integration)
- contribution to sustainable practices through the inclusion of the Subfund's investments into centralized engagement approach, in line with UBS AM's fiduciary duty (Active Ownership).

The extent to which the environmental and/or social characteristics were met is measured by the sustainability indicators shown below.

Derivatives were not used to attain the environmental or social characteristics.

Please find further information on ESG Integration, ESG Exclusions and Active Ownership below in the question "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and online at www.credit-suisse.com/esg.

● *How did the sustainability indicators perform?*

The table below shows the output of the Sustainability Indicators applicable to this Subfund as of 31.12.2024. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 37.61%, AA: 51.49%, A: 7.68%, BBB: 1.31%, BB: 1.25%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.67%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	6.12	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)
Social pillar score	6	Portfolio aggregate social pillar score: 1 (lowest) – 10 (highest)
Governance pillar score	6.56	Portfolio aggregate governance pillar score: 1 (lowest) – 10 (highest)

CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

*** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● ...and compared to previous periods?

The table below presents data from the previous reference period (as of 31.12.2023). The data may differ compared to the previously published report as the most recently available data was taken into account, as the data provider(s) may have retroactively updated some figures. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 28.64%, AA: 60.83%, A: 9.66%, BBB: 0.46%, BB: 0.00%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.43%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%

CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

*** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

At the end of the reference period, the sustainable investments contributed to the Environmental and Social objectives below:

- Investments that generated at least 50% of their revenues from products and services that contributed to an environmental objective (e.g. alternative energy, carbon & energy efficiency, green building, sustainable water, pollution prevention, sustainable agriculture etc.)
- Investments that generated at least 50% of their revenues from products and services that contribute to a social objective (e.g. nutrition, disease treatments, sanitation, affordable real estate, SME finance, education, connectivity etc.)
- Investments that have an approved commitment to science-based emission targets and an average reduction in carbon emissions intensity of 7% over the last three years

The above criteria were assessed using a quantitative methodology. If there had not been an output from the quantitative assessment (e.g. in the case of missing quantitative ESG data), investments were submitted for confirmation in a case-by-case approach based on a proprietary assessment of the criteria. A central Credit Suisse committee approved such submissions.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

CSAM considered various indicators linked to principal adverse impacts on sustainability factors (PAI Indicators) and further indicators from its exclusion framework to assess whether sustainable investments caused significant harm to any environmental or social investment objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

During the reference period, the PAI Indicators applied by CSAM to identify investments which qualify as SFDR Sustainable Investments in line with CS SFDR Sustainable Investment Methodology included a set of criteria and thresholds to determine if an investment passed the DNSH condition as follows:

Investments must not:

1. have a significant negative contribution to climate change. This criterion makes use of an indicator that flags the biggest emitters of greenhouse gas globally and relates to PAI 1, 2, 3 and 15.
2. be subject to norms, values and business conduct exclusions and other investment restrictions which address PAI 4, 10, 14 and 16.
3. be subject to severe ESG controversies which address PAI 7 and 10 where applicable.
4. be strongly lagging its industry peers in overall ESG performance. This criterion has been applied to cover the remainder of the PAI to the extent possible.

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Sustainable Investments were aligned with the 'OECD Guidelines for Multinational Enterprises' and the 'UN Guiding Principles on Business and Human Rights'. The alignment was assessed as part of the CS ESG Exclusion framework. Companies that exhibit severe weaknesses in business conduct, particularly with regard to breaches of the 'United Nations Global Compact Principles' (UNGC) and companies placed on the watchlist, but with no immediate exclusion, were flagged not to be considered SFDR Sustainable Investments due to DNSH.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides the exposure to all mandatory PAI from the Commission Delegated Regulation (EU) 2022/1288. The Adverse Sustainability Indicator/Metric values are calculated as an asset weighted average based on quarterly data representing the reference period from 01.01.2024–31.12.2024.

Please note that CSAM may choose or may not be able to consider and/or mitigate all of the herein reported PAI given the Subfund's investment strategy, asset class or the availability of reliable data. Consideration of PAI may be subject to change given evolving data availability and quality. Please refer to the EET for the most recent overview of which PAI are considered at Subfund level.

Please find further information on CSAM PAI Framework online at www.credit-suisse.com/esg.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The proportion of investments used to meet the environmental or social characteristics promoted by this Subfund (category #1 above) was 98.88% of its total net assets.

Within this category the Subfund held a proportion of 25.89% of its total net assets in sustainable investments (category #1A above) and a proportion of 72.99% of its total net assets in other E/S characteristics (category #1B above).

The proportion of investments held by the Subfund in “Other” (category #2 above) was 1.12% of its total net assets.

The data is valid as of 31.12.2024. It does not represent an average for the reference period.

In which economic sectors were the investments made?

Subfund Sectoral Exposure

NACE Sector Code *	Portfolio Exposure **
C. Manufacturing	42.37%
D. Electricity, gas, steam and air conditioning supply	0.82%
F. Construction	2.24%
G. Wholesale and retail trade; repair of motor vehicles and motorcycles	10.96%
H. Transportation and storage	1.18%

For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.*

*** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.*

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of 31.12.2024, the Subfund reports 0.00% exposure to sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environ-mental
objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have green-house gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g., for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Subfund's reported EU Taxonomy alignment was not subject to assurance or review by a third party.

● **What was the share of investments made in transitional and enabling activities?**

Of the 0.00% of sustainable investments with an environmental objective aligned with the EU Taxonomy as of 31.12.2024, 0.00% were made in transitional activities and 0.00% in enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reference period the percentage of investments that were aligned with the EU Taxonomy were 0.00% as of 31.12.2023.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As of 31.12.2024, 19.23% of the Subfund's investments were made into sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

As of 31.12.2024, 6.66% of the Subfund's investments were made into socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.2024, 1.12% of the Subfund's investments were made into "other".

Investments such as cash, derivatives and structured products may have fallen under "other" since such instruments did not contribute to the E/S characteristics of this Subfund. More information about the portfolio exposure to such investments can be found in the financial section of this annual report. Such investments did not have minimum environmental or social safeguards. They may have been used as efficient portfolio management tools, for cash management, for hedging purposes, or as an additional source of return.

Additionally, investments may have fallen under "other" if insufficient ESG-related information was available. This applied in particular to asset classes for which ESG Factors were insufficiently defined or insufficient ESG related information was available. Where possible, minimum environmental or social safeguards have been applied to these underlying securities by ensuring that CSAM ESG exclusions were adhered to.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental or social characteristics promoted by this Subfund, this Subfund applied ESG Exclusions, ESG Integration and Active Ownership.

This Subfund applied the exclusions used by the provider of the benchmark index in the index methodology. In addition, provided the Subfund stayed within the anticipated tracking error as determined in the Prospectus, CSAM applied the following exclusions:

- Norms-based Exclusions

This Subfund excluded companies that failed to comply with international treaties on controversial weapons such as the Convention on Cluster Munitions, the Chemical Weapons Convention, the Biological Weapons Convention, the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). In addition, it excluded companies that are recommended for exclusions by the Swiss Association for Responsible Investments (SVVK-ASIR) in respect to APM (anti-personnel mines), cluster munitions and nuclear weapons (outside of NPT).

- Values-based Exclusions

This Subfund excluded companies that derived a significant portion of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (with a revenues threshold of 20%).

- Business-conduct Exclusions

This Subfund applied conduct-based exclusions of SVVK-ASIR.

- Restrictions related to the Guidelines for Responsible Investing of the Bundesverband Investment and Asset Management's (BVI)

To comply with the BVI guidelines, this Subfund excluded additionally the following companies, countries, and sectors from the investment universe:

- Military hardware: companies that derive more than 10% of their revenue from manufacturing conventional weapons, components, and support systems and services
- Sovereign issuers: serious violations of democratic and human rights based on the assessment as "not free" according to the Freedom House's index (freedomhouse.org/countries/freedom-world/scores)

ESG Factors were integrated into the investment process by tracking an ESG index.

- Proxy Voting

Voting rights have been exercised for investee companies which have met the criteria for Proxy Voting as explained at www.credit-suisse.com/esg

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The fund is using MSCI Japan ESG Leaders (NR) as reference benchmark for attaining the environmental and/or social characteristics.

The reference benchmark applies ESG Integration by following a best-in-class approach based on its parent index. The index selects companies with the highest ESG ratings in each sector of the parent index. Additionally, companies in the parent index which are involved in severe controversies are excluded. The reference benchmark is periodically rebalanced as described in the index methodology. The methodology of the reference benchmark is explained online at www.msci.com/indexes.

How does the reference benchmark differ from a broad market index?

The reference benchmark is based on the MSCI Japan (NR) as its parent index. It differs from this broad market index by a higher exposure to companies with highest ESG ratings and by avoiding exposure to companies involved in severe controversies.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Sustainability Indicator*	Portfolio	Indicator Output

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CSIF (Lux) Equity Pacific ex Japan ESG Blue

Legal entity identifier: 5493006CEWZUHB3DNK26

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☒ ☐ ☒ No

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 19.60% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Subfund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088).

As index tracking fund, the ESG characteristics of the fund and its ESG integration approach are derived from the ESG index that the fund is tracking. Therefore, the ESG rules and criteria applied by the fund are defined by the index provider and they may deviate from the standards set in the Credit Suisse Asset Management (CSAM) Sustainable Investing Policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

This Subfund promoted the following environmental and social characteristics:

- not to invest in certain issuers based on ESG Exclusions applied by the index provider when constructing the index
- as long as the Subfund stayed within the anticipated tracking error as determined in the Prospectus, the following additional exclusions of CSAM's Sustainable Investing Policy have been applied in order to limit the portfolio to a subset of securities from the benchmark index
 - to invest only into issuers that comply with international treaties on controversial weapons (norms-based exclusions on direct investments)
 - not to invest into issuers that derive more than 20% of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (values-based exclusions on direct investments)
 - adherence to, and conducting business activities in accordance with conduct-based exclusions of SVVK ASIR (business-conduct exclusions on direct investments)
- to invest according to the ESG methodology of the index provider (ESG Integration)
- contribution to sustainable practices through the inclusion of the Subfund's investments into centralized engagement approach, in line with UBS AM's fiduciary duty (Active Ownership).

The extent to which the environmental and/or social characteristics were met is measured by the sustainability indicators shown below.

Derivatives were not used to attain the environmental or social characteristics.

Please find further information on ESG Integration, ESG Exclusions and Active Ownership below in the question "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and online at www.credit-suisse.com/esg.

● *How did the sustainability indicators perform?*

The table below shows the output of the Sustainability Indicators applicable to this Subfund as of 31.12.2024. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 31.96%, AA: 63.30%, A: 3.60%, BBB: 0.59%, BB: 0.00%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.55%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	6.54	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)
Social pillar score	5.47	Portfolio aggregate social pillar score: 1 (lowest) – 10 (highest)

CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

*** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● ...and compared to previous periods?

The table below presents data from the previous reference period (as of 31.12.2023). The data may differ compared to the previously published report as the most recently available data was taken into account, as the data provider(s) may have retroactively updated some figures. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output

CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

*** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Although this Subfund did not target any minimum proportion of sustainable investment, at the end of the reference period, the sustainable investments contributed to the following Environmental and Social objectives:

- Investments that generated at least 50% of their revenues from products and services that contributed to an environmental objective (e.g. alternative energy, carbon & energy efficiency, green building, sustainable water, pollution prevention, sustainable agriculture etc.)
- Investments that generated at least 50% of their revenues from products and services that contribute to a social objective (e.g. nutrition, disease treatments, sanitation, affordable real estate, SME finance, education, connectivity etc.)
- Investments that have an approved commitment to science-based emission targets and an average reduction in carbon emissions intensity of 7% over the last three years

The above criteria were assessed using a quantitative methodology. If there had not been an output from the quantitative assessment (e.g. in the case of missing quantitative ESG data), investments were submitted for confirmation in a case-by-case approach based on a proprietary assessment of the criteria. A central Credit Suisse committee approved such submissions.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

This Subfund did not target any minimum proportion of sustainable investments. CSAM considered various indicators linked to principal adverse impacts on sustainability factors (PAI Indicators) and further indicators from its exclusion framework to assess whether sustainable investments caused significant harm to any environmental or social investment objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

During the reference period, the PAI Indicators applied by CSAM to identify investments which qualify as SFDR Sustainable Investments in line with CS SFDR Sustainable Investment Methodology included a set of criteria and thresholds to determine if an investment passed the DNSH condition as follows:

Investments must not:

1. have a significant negative contribution to climate change. This criterion makes use of an indicator that flags the biggest emitters of greenhouse gas globally and relates to PAI 1, 2, 3 and 15.
2. be subject to norms, values and business conduct exclusions and other investment restrictions which address PAI 4, 10, 14 and 16.
3. be subject to severe ESG controversies which address PAI 7 and 10 where applicable.
4. be strongly lagging its industry peers in overall ESG performance. This criterion has been applied to cover the remainder of the PAI to the extent possible.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Sustainable Investments were aligned with the 'OECD Guidelines for Multinational Enterprises' and the 'UN Guiding Principles on Business and Human Rights'. The alignment was assessed as part of the CS ESG Exclusion framework. Companies that exhibit severe weaknesses in business conduct, particularly with regard to breaches of the 'United Nations Global Compact Principles' (UNGC) and companies placed on the watchlist, but with no immediate exclusion, were flagged not to be considered SFDR Sustainable Investments due to DNSH.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides the exposure to all mandatory PAI from the Commission Delegated Regulation (EU) 2022/1288. The Adverse Sustainability Indicator/Metric values are calculated as an asset weighted average based on quarterly data representing the reference period from 01.01.2024–31.12.2024.

Please note that CSAM may choose or may not be able to consider and/or mitigate all of the herein reported PAI given the Subfund's investment strategy, asset class or the availability of reliable data. Consideration of PAI may be subject to change given evolving data availability and quality. Please refer to the EET for the most recent overview of which PAI are considered at Subfund level.

Please find further information on CSAM PAI Framework online at www.credit-suisse.com/esg.

** Look-through enabled where possible, excl. cash and derivatives. Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.*

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The proportion of investments used to meet the environmental or social characteristics promoted by this Subfund (category #1 above) was 96.37% of its total net assets.

Within this category the Subfund held a proportion of 19.60% of its total net assets in sustainable investments (category #1A above) and a proportion of 76.76% of its total net assets in other E/S characteristics (category #1B above).

The proportion of investments held by the Subfund in “Other” (category #2 above) was 3.63% of its total net assets.

The data is valid as of 31.12.2024. It does not represent an average for the reference period.

In which economic sectors were the investments made?

Subfund Sectoral Exposure

NACE Sector Code *	Portfolio Exposure **
B. Mining and quarrying	9.21%
C. Manufacturing	21.04%
D. Electricity, gas, steam and air conditioning supply	2.82%
G. Wholesale and retail trade; repair of motor vehicles and motorcycles	2.52%
H. Transportation and storage	4.71%
J. Information and communication	7.67%
K. Financial and insurance activities	42.47%
L. Real estate activities	8.55%
Q. Human health and social work activities	0.50%

Others	0.51%

** Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.*

*** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period. The "Others" category can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

Subfund Exposure to Fossil Fuels Sub-Sectors

NACE Sector Code *	NACE name	Portfolio Exposure **
B5.1.0	Mining of hard coal	0.00%
B5.2.0	Mining of lignite	0.00%
B6.1.0	Extraction of crude petroleum	3.73%
B6.2.0	Extraction of natural gas	1.14%
B9.1.0	Support activities for petroleum and natural gas extraction	0.00%
C19.2.0	Manufacture of refined petroleum products	0.00%
D35.2.1	Manufacture of gas	0.00%
D35.2.2	Distribution of gaseous fuels through mains	0.00%
D35.2.3	Trade of gas through mains	0.00%
G46.7.1	Wholesale of solid, liquid and gaseous fuels and related products	0.00%

** Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.*

*** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.*

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of 31.12.2024, the Subfund reports 0.00% exposure to sustainable investments with an environmental objective aligned with the EU Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environ-mental
objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have green-house gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g., for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Subfund's reported EU Taxonomy alignment was not subject to assurance or review by a third party.

● **What was the share of investments made in transitional and enabling activities?**

Of the 0.00% of sustainable investments with an environmental objective aligned with the EU Taxonomy as of 31.12.2024, 0.00% were made in transitional activities and 0.00% in enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reference period the percentage of investments that were aligned with the EU Taxonomy were 0.00% as of 31.12.2023.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As of 31.12.2024, 8.74% of the Subfund's investments were made into sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

As of 31.12.2024, 10.86% of the Subfund's investments were made into socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.2024, 3.63% of the Subfund's investments were made into "other".

Investments such as cash, derivatives and structured products may have fallen under "other" since such instruments did not contribute to the E/S characteristics of this Subfund. More information about the portfolio exposure to such investments can be found in the financial section of this annual report. Such investments did not have minimum environmental or social safeguards. They may have been used as efficient portfolio management tools, for cash management, for hedging purposes, or as an additional source of return.

Additionally, investments may have fallen under "other" if insufficient ESG-related information was available. This applied in particular to asset classes for which ESG Factors were insufficiently defined or insufficient ESG related information was available. Where possible, minimum environmental or social safeguards have been applied to these underlying securities by ensuring that CSAM ESG exclusions were adhered to.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental or social characteristics promoted by this Subfund, this Subfund applied ESG Exclusions, ESG Integration and Active Ownership.

This Subfund applied the exclusions used by the provider of the benchmark index in the index methodology. In addition, provided the Subfund stayed within the anticipated tracking error as determined in the Prospectus, CSAM applied the following exclusions:

- Norms-based Exclusions

This Subfund excluded companies that failed to comply with international treaties on controversial weapons such as the Convention on Cluster Munitions, the Chemical Weapons Convention, the Biological Weapons Convention, the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). In addition, it excluded companies that are recommended for exclusions by the Swiss Association for Responsible Investments (SVVK-ASIR) in respect to APM (anti-personnel mines), cluster munitions and nuclear weapons (outside of NPT).

- Values-based Exclusions

This Subfund excluded companies that derived a significant portion of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (with a revenues threshold of 20%).

- Business-conduct Exclusions

This Subfund applied conduct-based exclusions of SVVK-ASIR.

- Restrictions related to the Guidelines for Responsible Investing of the Bundesverband Investment and Asset Management's (BVI)

To comply with the BVI guidelines, this Subfund excluded additionally the following companies, countries, and sectors from the investment universe:

- Military hardware: companies that derive more than 10% of their revenue from manufacturing conventional weapons, components, and support systems and services
- Sovereign issuers: serious violations of democratic and human rights based on the assessment as "not free" according to the Freedom House's index (freedomhouse.org/countries/freedom-world/scores)

ESG Factors were integrated into the investment process by tracking an ESG index.

- Proxy Voting

Voting rights have been exercised for investee companies which have met the criteria for Proxy Voting as explained at www.credit-suisse.com/esg

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The fund is using MSCI Pacific ex Japan ESG Leaders (NR) as reference benchmark for attaining the environmental and/or social characteristics.

The reference benchmark applies ESG Integration by following a best-in-class approach based on its parent index. The index selects companies with the highest ESG ratings in each sector of the parent index. Additionally, companies in the parent index which are involved in severe controversies are excluded. The reference benchmark is periodically rebalanced as described in the index methodology. The methodology of the reference benchmark is explained online at www.msci.com/indexes.

How does the reference benchmark differ from a broad market index?

The reference benchmark is based on the MSCI Pacific ex Japan (NR) as its parent index. It differs from this broad market index by a higher exposure to companies with highest ESG ratings and by avoiding exposure to companies involved in severe controversies.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 31.96%, AA: 63.30%, A: 3.60%, BBB: 0.59%, BB: 0.00%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.55%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CSIF (Lux) Equity UK ESG Blue

Legal entity identifier: 549300QO1C2JP7OGG168

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☒ ☐ No

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 52.69% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Subfund promotes environmental, social and governance (ESG) characteristics (within the meaning of Art. 8 of Regulation (EU) 2019/2088).

As index tracking fund, the ESG characteristics of the fund and its ESG integration approach are derived from the ESG index that the fund is tracking. Therefore, the ESG rules and criteria applied by the fund are defined by the index provider and they may deviate from the standards set in the Credit Suisse Asset Management (CSAM) Sustainable Investing Policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

This Subfund promoted the following environmental and social characteristics:

- not to invest in certain issuers based on ESG Exclusions applied by the index provider when constructing the index
- as long as the Subfund stayed within the anticipated tracking error as determined in the Prospectus, the following additional exclusions of CSAM's Sustainable Investing Policy have been applied in order to limit the portfolio to a subset of securities from the benchmark index
 - to invest only into issuers that comply with international treaties on controversial weapons (norms-based exclusions on direct investments)
 - not to invest into issuers that derive more than 20% of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (values-based exclusions on direct investments)
 - adherence to, and conducting business activities in accordance with conduct-based exclusions of SVVK ASIR (business-conduct exclusions on direct investments)
- to invest according to the ESG methodology of the index provider (ESG Integration)
- contribution to sustainable practices through the inclusion of the Subfund's investments into centralized engagement approach, in line with UBS AM's fiduciary duty (Active Ownership).

The extent to which the environmental and/or social characteristics were met is measured by the sustainability indicators shown below.

Derivatives were not used to attain the environmental or social characteristics.

Please find further information on ESG Integration, ESG Exclusions and Active Ownership below in the question "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and online at www.credit-suisse.com/esg.

● *How did the sustainability indicators perform?*

The table below shows the output of the Sustainability Indicators applicable to this Subfund as of 31.12.2024. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 40.75%, AA: 54.70%, A: 4.11%, BBB: 0.00%, BB: 0.00%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.45%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	6.18	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)
Social pillar score	5.43	Portfolio aggregate social pillar score: 1 (lowest) – 10 (highest)
Governance pillar score	6.95	Portfolio aggregate governance pillar score: 1 (lowest) – 10 (highest)
ESG controversy flag	Green: 33.90%, Yellow: 23.10%, Orange: 42.55%, Red: 0.00%, Not ratable**: 0.45%, No data coverage**: 0.00%	Investment exposure by ESG controversy flag: Green: 0–100% Yellow: 0–100% Orange: 0–100% Red: 0–100%
CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

*** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● ...and compared to previous periods?

The table below presents data from the previous reference period (as of 31.12.2023). The data may differ compared to the previously published report as the most recently available data was taken into account, as the data provider(s) may have retroactively updated some figures. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 40.79%, AA: 56.79%, A: 1.72%, BBB: 0.00%, BB: 0.00%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.70%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	6.61	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)
Social pillar score	5.21	Portfolio aggregate social pillar score: 1 (lowest) – 10 (highest)
Governance pillar score	6.74	Portfolio aggregate governance pillar score: 1 (lowest) – 10 (highest)
ESG controversy flag	Green: 38.47%, Yellow: 26.11%, Orange: 34.71%, Red: 0.00%, Not ratable**: 0.70%, No data coverage**: 0.00%	Investment exposure by ESG controversy flag: Green: 0–100% Yellow: 0–100% Orange: 0–100% Red: 0–100%
CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

** None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.*

*** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

**** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.*

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

At the end of the reference period, the sustainable investments contributed to the Environmental and Social objectives below:

- Investments that generated at least 50% of their revenues from products and services that contributed to an environmental objective (e.g. alternative energy, carbon & energy efficiency, green building, sustainable water, pollution prevention, sustainable agriculture etc.)
- Investments that generated at least 50% of their revenues from products and services that contribute to a social objective (e.g. nutrition, disease treatments, sanitation, affordable real estate, SME finance, education, connectivity etc.)
- Investments that have an approved commitment to science-based emission targets and an average reduction in carbon emissions intensity of 7% over the last three years

The above criteria were assessed using a quantitative methodology. If there had not been an output from the quantitative assessment (e.g. in the case of missing quantitative ESG data), investments were submitted for confirmation in a case-by-case approach based on a proprietary assessment of the criteria. A central Credit Suisse committee approved such submissions.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

CSAM considered various indicators linked to principal adverse impacts on sustainability factors (PAI Indicators) and further indicators from its exclusion framework to assess whether sustainable investments caused significant harm to any environmental or social investment objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

During the reference period, the PAI Indicators applied by CSAM to identify investments which qualify as SFDR Sustainable Investments in line with CS SFDR Sustainable Investment Methodology included a set of criteria and thresholds to determine if an investment passed the DNSH condition as follows:

Investments must not:

1. have a significant negative contribution to climate change. This criterion makes use of an indicator that flags the biggest emitters of greenhouse gas globally and relates to PAI 1, 2, 3 and 15.
2. be subject to norms, values and business conduct exclusions and other investment restrictions which address PAI 4, 10, 14 and 16.
3. be subject to severe ESG controversies which address PAI 7 and 10 where applicable.
4. be strongly lagging its industry peers in overall ESG performance. This criterion has been applied to cover the remainder of the PAI to the extent possible.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Sustainable Investments were aligned with the 'OECD Guidelines for Multinational Enterprises' and the 'UN Guiding Principles on Business and Human Rights'. The alignment was assessed as part of the CS ESG Exclusion framework. Companies that exhibit severe weaknesses in business conduct, particularly with regard to breaches of the 'United Nations Global Compact Principles' (UNGC) and companies placed on the watchlist, but with no immediate exclusion, were flagged not to be considered SFDR Sustainable Investments due to DNSH.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides the exposure to all mandatory PAI from the Commission Delegated Regulation (EU) 2022/1288. The Adverse Sustainability Indicator/Metric values are calculated as an asset weighted average based on quarterly data representing the reference period from 01.01.2024–31.12.2024.

Please note that CSAM may choose or may not be able to consider and/or mitigate all of the herein reported PAI given the Subfund's investment strategy, asset class or the availability of reliable data. Consideration of PAI may be subject to change given evolving data availability and quality. Please refer to the EET for the most recent overview of which PAI are considered at Subfund level.

Please find further information on CSAM PAI Framework online at www.credit-suisse.com/esg.

* Impact: The value represents non-normalized portfolio level exposure to a given PAI indicator. This means that the PAI values use the actual weights of portfolio exposures.

** Eligible Assets: Percentage of AUM of the entire portfolio (including cash) for which the PAI is applicable. As an example, government bonds held by the Subfund cannot be measured against PAI indicators applicable to an investee company.

*** Data coverage: Percentage of AUM of the entire portfolio for which PAI indicator data is available.

**** Flags the companies with exposure to fossil fuels related activities, including extraction, processing, storage and transportation of fossil fuels.

***** The coverage of the PAI 6 are limited to the 9 high impact climate sectors defined by SFDR.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:
31.12.2024

What were the top investments of this financial product?

Largest investments *	NACE Sector code	% Assets	Country
ASTRAZENECA PLC	C. Manufacturing	16.96	United Kingdom
HSBC HOLDINGS PLC	K. Financial and insurance activities	14.94	United Kingdom
UNILEVER PLC	C. Manufacturing	11.80	United Kingdom
RELX PLC	J. Information and communication	7.08	United Kingdom

** Look-through enabled where possible, excl. cash and derivatives. Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.*

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The proportion of investments used to meet the environmental or social characteristics promoted by this Subfund (category #1 above) was 99.55% of its total net assets.

Within this category the Subfund held a proportion of 52.69% of its total net assets in sustainable investments (category #1A above) and a proportion of 46.86% of its total net assets in other E/S characteristics (category #1B above).

The proportion of investments held by the Subfund in “Other” (category #2 above) was 0.45% of its total net assets.

The data is valid as of 31.12.2024. It does not represent an average for the reference period.

In which economic sectors were the investments made?

Subfund Sectoral Exposure

NACE Sector Code *	Portfolio Exposure **
B. Mining and quarrying	4.06%
C. Manufacturing	35.02%
D. Electricity, gas, steam and air conditioning supply	4.84%
F. Construction	1.49%
G. Wholesale and retail trade; repair of motor vehicles and motorcycles	6.00%
I. Accommodation and food service activities	0.55%
J. Information and communication	12.80%
K. Financial and insurance activities	28.41%
L. Real estate activities	1.37%

M. Professional, scientific and technical activities	1.72%
N. Administrative and support service activities	3.32%
Others	0.43%

** Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.*

*** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period. The "Others" category can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.*

Subfund Exposure to Fossil Fuels Sub-Sectors

NACE Sector Code *	NACE name	Portfolio Exposure **
B5.1.0	Mining of hard coal	0.00%
B5.2.0	Mining of lignite	0.00%
B6.1.0	Extraction of crude petroleum	0.03%
B6.2.0	Extraction of natural gas	0.00%
B9.1.0	Support activities for petroleum and natural gas extraction	0.00%
C19.2.0	Manufacture of refined petroleum products	0.01%
D35.2.1	Manufacture of gas	0.00%
D35.2.2	Distribution of gaseous fuels through mains	0.00%
D35.2.3	Trade of gas through mains	0.00%
G46.7.1	Wholesale of solid, liquid and gaseous fuels and related products	0.53%

** Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only. For example, the Subfund's investment strategy makes use of company's revenue exposure in accordance with CSAM's ESG Exclusion framework and does not exclude companies based on their NACE sector allocation.*

*** Portfolio Exposure as of 31.12.2024. It does not represent an average for the reference period.*

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of 31.12.2024, the Subfund reports 0.00% exposure to sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environ-mental
objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have green-house gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g., for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

The Subfund's reported EU Taxonomy alignment was not subject to assurance or review by a third party.

● **What was the share of investments made in transitional and enabling activities?**

Of the 0.00% of sustainable investments with an environmental objective aligned with the EU Taxonomy as of 31.12.2024, 0.00% were made in transitional activities and 0.00% in enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reference period the percentage of investments that were aligned with the EU Taxonomy were 0.00% as of 31.12.2023.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As of 31.12.2024, 44.51% of the Subfund's investments were made into sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

As of 31.12.2024, 8.18% of the Subfund's investments were made into socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.2024, 0.45% of the Subfund's investments were made into "other".

Investments such as cash, derivatives and structured products may have fallen under "other" since such instruments did not contribute to the E/S characteristics of this Subfund. More information about the portfolio exposure to such investments can be found in the financial section of this annual report. Such investments did not have minimum environmental or social safeguards. They may have been used as efficient portfolio management tools, for cash management, for hedging purposes, or as an additional source of return.

Additionally, investments may have fallen under "other" if insufficient ESG-related information was available. This applied in particular to asset classes for which ESG Factors were insufficiently defined or insufficient ESG related information was available. Where possible, minimum environmental or social safeguards have been applied to these underlying securities by ensuring that CSAM ESG exclusions were adhered to.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental or social characteristics promoted by this Subfund, this Subfund applied ESG Exclusions, ESG Integration and Active Ownership.

This Subfund applied the exclusions used by the provider of the benchmark index in the index methodology. In addition, provided the Subfund stayed within the anticipated tracking error as determined in the Prospectus, CSAM applied the following exclusions:

- Norms-based Exclusions

This Subfund excluded companies that failed to comply with international treaties on controversial weapons such as the Convention on Cluster Munitions, the Chemical Weapons Convention, the Biological Weapons Convention, the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). In addition, it excluded companies that are recommended for exclusions by the Swiss Association for Responsible Investments (SVVK-ASIR) in respect to APM (anti-personnel mines), cluster munitions and nuclear weapons (outside of NPT).

- Values-based Exclusions

This Subfund excluded companies that derived a significant portion of their revenue from the production of thermal coal and/or the production of electricity from thermal coal (with a revenues threshold of 20%).

- Business-conduct Exclusions

This Subfund applied conduct-based exclusions of SVVK-ASIR.

- Restrictions related to the Guidelines for Responsible Investing of the Bundesverband Investment and Asset Management's (BVI)

To comply with the BVI guidelines, this Subfund excluded additionally the following companies, countries, and sectors from the investment universe:

- Military hardware: companies that derive more than 10% of their revenue from manufacturing conventional weapons, components, and support systems and services
- Sovereign issuers: serious violations of democratic and human rights based on the assessment as "not free" according to the Freedom House's index (freedomhouse.org/countries/freedom-world/scores)

ESG Factors were integrated into the investment process by tracking an ESG index.

- Proxy Voting

Voting rights have been exercised for investee companies which have met the criteria for Proxy Voting as explained at www.credit-suisse.com/esg

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The fund is using MSCI UK ESG Leaders (NR) in GBP as reference benchmark for attaining the environmental and/or social characteristics.

The reference benchmark applies ESG Integration by following a best-in-class approach based on its parent index. The index selects companies with the highest ESG ratings in each sector of the parent index. Additionally, companies in the parent index which are involved in severe controversies are excluded. The reference benchmark is periodically rebalanced as described in the index methodology. The methodology of the reference benchmark is explained online at www.msci.com/indexes.

How does the reference benchmark differ from a broad market index?

The reference benchmark is based on the MSCI UK (NR) as its parent index. It differs from this broad market index by a higher exposure to companies with highest ESG ratings and by avoiding exposure to companies involved in severe controversies.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 40.75%, AA: 54.70%, A: 4.11%, BBB: 0.00%, BB: 0.00%, B: 0.00%, CCC: 0.00%, Not ratable**: 0.45%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%

ESG Notes

The figures contained in this section are not audited. Where Environmental, Social and Governance ("ESG") related information, statements and scorings are made in this report, we may have, partially or entirely, relied on publicly available information, internally developed data and/or information obtained from other third-party sources which we believe to be reliable. Our ability to verify such objectives may be limited by the reliability of the data available in respect of the underlying assets and the status of the regulations in relation to tracking and providing such data. We have not independently verified any information obtained from these public and third-party sources and cannot make any representations or warranties as to its accuracy, completeness, or reliability. It is possible that the data from ESG data providers may be incorrect, unavailable, or not fully updated. This is especially true where we have limited access to data from external parties regarding the underlying elements of an investment, for example due to a lack of look-through data. Such data gaps could result in an incorrect assessment of a sustainability practice and/or related sustainability risks and opportunities. We cannot make any guarantee about the content or completeness of such ESG disclosures, which remain subject to change and cannot be relied upon. In particular, we shall not be liable for any errors or omissions in connection with any ESG data herein, or for any direct, indirect, special, punitive, consequential or any other damages (including lost profits). In the absence of a standardized, industry wide ESG classification system, we have developed our own ESG framework (the "CS Sustainable Investment Framework"). Therefore, investors should note that the ESG classification of the Subfunds reflect our opinion and is based on the CS Sustainable Investment Framework which classification may vary from the classification made by third parties. The fact that a Subfund follows the CS Sustainable Investment Framework does not necessarily mean that it meets the investors overall investment objectives, nor their sustainability preferences. Given that sustainability regulation and guidelines are still developing, we may need to review certain ESG classifications/descriptions as industry practices change and as more regulatory guidance becomes available. The ESG-performance of a portfolio might also differ from its financial performance and we cannot make any representation as to the correlation between financial and ESG performance. Sustainability-related practices also differ by region, industry and ESG issue and are continually evolving. Consequently, sustainability-related practices may change over time. Similarly, new local sustainability requirements may result in additional compliance costs, disclosure obligations or other restrictions on the Subfunds. Our view on the appropriate classification may also evolve over time, including in response to regulatory guidance or changes in industry approach to classification. A change to the relevant classification may require further actions to be taken, e.g., further disclosures or new processes to capture data which may lead to additional costs.
