# Pioneer Funds - Euro Bond

A Sub-Fund of Pioneer Funds  
Management Company: Pioneer Asset Management S.A.

KEY INVESTOR INFORMATION

Class F EUR Non-Distributing - LU0133584945

## » Objectives and Investment Policy

**Objective** Seeks to increase the value of your investment and to provide income over the medium to long term.

**Portfolio securities** The Sub-Fund invests mainly in euro denominated bonds issued by European governments. The Sub-Fund may also invest up to 30% of its assets in European corporate bonds that are either denominated in euro or in other currencies, provided that these are principally hedged back to the euro. The Sub-Fund does not invest in equities or convertible securities. The Sub-Fund may use derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (either long or short) to various assets, markets or income streams. This may generate a high level of leverage. In particular, the Sub-Fund will invest in short and medium-term interest rate swaps.

**Investment process** The investment manager pursues two distinct strategies to separate pure return from market return. First, a core portfolio is constructed to match the return and volatility of the benchmark. Then additional investment strategies are pursued to generate excess return through the use of derivatives, and a disciplined risk management approach.

**Benchmark** The Sub-Fund is managed by reference to the JP Morgan GBI EMU index. However, the management of the Sub-Fund is discretionary and the investment manager is not constrained by the composition of the benchmark.

## » Risk and Reward Profile

### What does this risk indicator mean?

The above risk indicator ranks potential risk and reward and is based on medium-term volatility (how sharply the Sub-Fund's actual or estimated unit price has gone up and down over five years). Historical data, such as that used in calculating this synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund. The Sub-Fund's risk indicator is not guaranteed and may change over time.

The Sub-Fund's risk category reflects the fact that as an asset class, investment grade bonds tend to be less volatile than below-investment grade bonds.

For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the unit class.

## Terms to Understand

**Bonds** Securities that represent an obligation to repay a debt, with interest.

**Convertible securities** Securities that are structured like bonds but have the potential to increase in value if the issuer's stock price goes up.

**Derivatives** Financial instruments whose value is linked to one or more rates, indices, share prices or other values.

**Equities** Securities that represent partial ownership of a company.

**Long exposure** Owning a security, or otherwise taking a position that benefits when the security's value rises.

**Short exposure** An investment position whose value moves in the opposite direction of a security's price.

**Recommended for** investors who understand the risks of this Sub-Fund and plan to invest for the medium to long term.

*This is a non-distributing unit class. Investment income is re-invested. Investors may sell on demand on any business day in Luxembourg.*

## Additional key risks

The risk indicator reflects market conditions of recent years and may not adequately capture the following additional key risks of the Sub-Fund:

**Counterparty risk** Contract parties may default on their obligations under derivatives contracts entered into with the Sub-Fund.

**Credit risk** The issuers of bonds held by the Sub-Fund may fail to pay principal or interest due.

**Operational risk** Losses may occur due to human error or omission, process errors, system disruptions or external events.

**Derivatives risk** Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.
