

Key investor information for investors in Switzerland

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DWS Invest Euro High Yield Corporates, a sub-fund of the SICAV DWS Invest

Share class IC Security code: DWS1LM ISIN: LU1054331407

Management Company: Deutsche Asset Management S.A., a member of the Deutsche Bank Group.

Objectives and investment policy

The objective of the investment policy is to achieve sustained capital appreciation that exceeds the benchmark (ML Euro BB-B Non-Financial Fixed & FRN High Yield Constrained). In order to achieve this, the fund invests globally in corporate bonds. The focus here is on high-yield bonds. The selection of the individual investments is at the discretion of the fund management. The fund is oriented to the benchmark. It does not track it exactly but attempts to exceed its performance and can therefore deviate substantially - both positively and negatively - from the benchmark. The currency of the sub-fund is EUR, the currency of the share class is EUR. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares on each valuation day. The redemption may only be suspended in exceptional cases taking into account your interests as an investor.

Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 4 because its share price fluctuates and the likelihood of both losses and gains may therefore be relatively high. The following risks could be of particular significance for the fund. These risks can impair the performance of the fund and thus impact negatively on the net asset value per unit and on the capital invested by the investor. The unit value may at any time fall below the purchase price paid by the client.

The fund invests in bonds, the value of which depends on whether the issuer is able to afford its payments. The deterioration of credit quality (ability and willingness to repay) may have an adverse affect on the value of the bond. The fund invests a substantial portion of its assets in non-investment grade corporate bonds. Concentration on this type of corporate bonds poses the risk that the issuers are very probably subject to economic difficulties and are therefore likely to default. The value of these bonds may then fall to zero and thus directly impact negatively on the fund's net assets. A more detailed description of risks and other general information can be found under "Risk warnings" in the sales prospectus.

Charges

The costs and fees borne by you are used for the management, administration and custody of the fund, as well as for its distribution and marketing. These costs restrict the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	No initial sales charge
Exit charge	No redemption fee
Charges taken from the fund over a year	
Ongoing charge	0,53 %
Charges taken from the fund under certain specific conditions	
Performance fee	None
Fees from securities lending	0,04 %

The current costs shown here are a cost estimate. The current costs do not include the performance-based fee and the transaction costs. Additional information on costs can be found under "Costs" in the sales prospectus. The fund's shares may in many cases be exchanged for shares in another share class of the same or another DWS Invest SICAV sub-fund subject to various conditions. Details can be found in the "Exchange of shares" section of the sales prospectus.

Past performance

There is not yet sufficient data available to provide you with useful information regarding earlier performance. The IC share class of DWS Invest Euro High Yield Corporates was launched in 2017.
