NOTE 1

GENERAL

LONG TERM INVESTMENT FUND (SIA) (the "SICAV") is an open-ended investment company of the umbrella type organised as a "*société anonyme*" under the laws of the Grand Duchy of Luxembourg and qualifies as a *Société d'Investissement à Capital Variable* ("SICAV") under Part I of the Luxembourg amended law of December 17, 2010 (the "Law") regarding collective investment undertakings, whose object is to invest in transferable securities under the principle of risk spreading in accordance with, and as more fully described in, its Articles and the current Prospectus.

The SICAV was incorporated for an indefinite period on February 2, 2006, with an initial capital of EUR 31,000. Its articles of incorporation were last amended on July 26, 2006 and published in the "*Mémorial C, Recueil Spécial des Sociétés et Associations du Grand-Duché de Luxembourg*" on August 30, 2006.

A legal statement giving notice of the issue and sale of shares by the SICAV has been filed with the Trade and Companies Register of Luxembourg.

The SICAV is registered at the Trade and Companies Register of Luxembourg under the number B113981.

The SICAV is divided into several sub-funds. Each sub-fund is governed by a specific investment policy and is denominated in a specific currency.

FundPartner Solutions (Europe) S.A., a public limited company (*société anonyme*) with registered office at 15, avenue J.F. Kennedy, L-1855 Luxembourg, was appointed management company of the SICAV as of January 1, 2013. It is a management company within the meaning of Chapter 15 of the Law.

Pooling:

The SICAV makes use of pooling for the purpose of efficient management of assets.

The investment portfolio of the LONG TERM INVESTMENT FUND (SIA) - CLASSIC and LONG TERM INVESTMENT FUND (SIA) - STABILITY sub-funds are managed jointly in a single pool of investments.

However this pool is used exclusively for the purpose of internal management. It is not an individual legal entity and is not directly accessible to investors. Each co-managed sub-fund is allocated its own assets.

When the assets of a sub-fund are managed according to this technique, the assets initially attributable to each co-managed sub-fund are determined according to its initial contribution to the pool. Subsequently, the composition of these assets shall vary according to the contributions or withdrawals made by these sub-funds.

The allocation system described above applies to each holding in the pool. Henceforth, any additional investments made on behalf of the co-managed sub-funds are attributed to these sub-funds according to their respective rights, while any assets sold shall be deducted in the same way from the assets attributable to each of the co-managed sub-funds.

Dividends, interest and non-contractual fees are accounted for in the pool and prorated to each sub-fund on the date these operations are recorded (expense provisions, recording of expenses and/or income on bank accounts). Conversely, contractual fees (custody, administration, management fees, etc.) are recorded directly in the respective sub-funds.

The assets and liabilities attributable to each sub-fund are identifiable at any given moment.

The realised gain/loss and/or unrealised appreciation/depreciation on investments are recorded in the pool in the reference currency of the said pool. They are then recorded in each sub-fund on the basis of its participation in the pool.

The statement of net assets and the statement of investments and other net assets show the situation of the portfolio on the closing date of the period based on the sub-fund's participation in the pool as at closing date.

LONG TERM INVESTMENT FUND (SIA)

Notes to the financial statements as at June 30, 2018

The data recorded in the statement of operations and changes in net assets under "Net realised gain/loss on pool - pooling effect" represent:

- the currency effect due to differences between the exchange rates used as at the closing date and those used at each NAV calculation;
- the effect of the difference between the percentage participation in the pool(s) as at the closing date and the percentage participation applicable as at each NAV calculation.

The current version of the prospectus, the KIIDs, the Articles of Association and the annual report, including audited financial statements, and semi-annual reports can be obtained free of charge from the representative, the paying agent and at the registered office of the SICAV.

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Presentation of financial statements

The financial statements are prepared in accordance with generally accepted accounting principles and with the legal reporting requirements applicable in Luxembourg relating to undertakings for collective investment.

b) Formation expenses

Formation expenses have been fully amortised.

c) Conversion of foreign currencies for each sub-fund

Cash at banks, other net assets as well as the market value of the investment portfolio in currencies other than the currency of the sub-fund are converted into the base currency of the sub-fund at the exchange rate prevailing at the end of the period.

Income and expenses in currencies other than the currency of the sub-fund are converted into the currency of the sub-fund at the exchange rate applicable on the transaction date.

Resulting foreign exchange gains and losses are included in the statement of operations and changes in net assets.

d) Combined financial statements

The combined financial statements of the SICAV are expressed in EUR. Accounting items of the different sub-funds denominated in currencies other than EUR are converted into EUR at the exchange rates prevailing at the end of the period.

e) Valuation of assets

1) Securities and other assets listed or dealt in on a stock exchange or another regulated market are valued at the last available price; where such securities or other assets are listed or dealt in one or by more than one stock exchange or any other regulated market, the Board of Directors of the SICAV shall make regulations for the order of priority in which stock exchanges or other regulated markets are used for the provisions of prices of securities or assets.

LONG TERM INVESTMENT FUND (SIA)

Notes to the financial statements as at June 30, 2018

2) Securities not listed or dealt in on a stock exchange or another organised market and securities so listed or dealt in for which the last available price is not representative of a fair market value, are valued prudently and in good faith by the Board of Directors of the SICAV on the basis of their estimated sale prices.

3) Cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received are valued at their face value with interest accrued.

4) The units/shares of open-ended undertakings for collective investment are valued on the basis of the last known net asset value ("NAV") or, if the price so determined is not representative of their fair market value, are valued as the Board of Directors of the SICAV may deem fair and reasonable. Units/shares of closed-ended undertakings for collective investment are valued on the basis of their last available market value.

5) Liquid assets and money market instruments which are not listed or dealt in on a stock exchange or another regulated market with remaining maturity of less than twelve months are valued at their nominal value increased by any interest accrued thereon, if any, such global value being amortised pursuant to the amortised costs method.

6) Futures, forward and options contracts not dealt in on a stock exchange or another regulated market are valued at their liquidating value determined pursuant to the policies established in good faith by the Board of Directors of the SICAV, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, forward and options contracts dealt in on a stock exchange or another organised market is based on the last available settlement prices published by such stock exchange or other regulated market where these particular futures, forward or options contracts are traded. If a futures, forward or options contract could not be liquidated on the Valuation Day of the relevant assets, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors of the SICAV may deem fair and reasonable.

f) Valuation of forward exchange contracts

The net unrealised gains or losses resulting from outstanding forward exchange contracts, if any, are determined on the valuation day on the basis of the forward exchange rates applicable on this date and are included in the statement of net assets.

g) Valuation of Contracts For Difference ("CFD")

CFD are valued on the basis of the difference between the price of their underlying on the valuation date and on the acquisition date.

h) Net realised gains or losses on sales of investments

The net realised gains or losses on sales of investments are calculated on the basis of weighted average cost of the investment sold.

i) Acquisition cost of securities in the portfolio

The cost of securities denominated in currencies other than the base currency of the different sub-funds is calculated at the exchange rate prevailing on the acquisition date.

Notes to the financial statements as at June 30, 2018

j) Recognition of CFD

At the time of each NAV calculation, the margin call on CFD is recorded directly in the realised capital gains and losses accounts relating to forward contracts by the bank account counterparty.

k) Accounting of CFD

Unrealised appreciations and depreciations on CFD are settled daily through the reception/payment of a cash amount corresponding to the daily increase/decrease of the market value of each opened CFD. Such cash amount is recorded under the caption "Cash at banks" in the statement of net assets and the corresponding amount is recorded under the caption "net realised gain and loss on CFD" in the statement of operations and changes in net assets.

l) Income

Dividends are recorded at the ex-date. Interest is recorded on an accruals basis.

m) Dividend distribution

The Board of Directors of the SICAV reserves the right to introduce a distribution policy. No dividend distribution which may result in the SICAV's net assets being below EUR 1,250,000 can be made.

n) Transaction fees

The transaction fees represent the costs incurred by each sub-fund in connection with purchases and sales of investments. Transaction fees include brokerage fees, bank commissions, foreign tax, depositary fees and other fees. They are included in the statement of operations and changes in net assets.

NOTE 3

"TAXE D'ABONNEMENT"

The SICAV's net assets are subject to a subscription tax of 0.05% per annum payable at the end of each calendar quarter and calculated on the basis of the SICAV's total net assets at the end of the relevant quarter; such tax is reduced to 0.01% per annum in respect of Classes comprising institutional investors only (as per article 174 of the Law). This tax is not applicable for the portion of the assets of a sub-fund invested in other Luxembourg undertakings for collective investment already subject to "*taxe d'abonnement*".

NOTE 4

The Investment Manager is entitled to receive from the SICAV a management fee and a distribution fee, respectively, payable out of the assets of the relevant sub-fund on a quarterly basis at a total annual rate which could vary per sub-fund; both such fees do not exceed 1.50% in total of the average NAV of the relevant sub-fund as determined during the relevant quarter.
