^{*} The subfund Tocqueville-Falcon Global Equity Fund was liquidated on 17 May 2016.

Information to the shareholders

Financial period and reporting

The financial year starts on 1 January and ends on 31 December of each year.

The annual report, which contains all subfunds and assets of the company, is available at the registered office of the company no later than 15 days prior to the annual General Meeting. Unaudited semi-annual reports are published within two months after the corresponding date.

The company has the right to publish separate annual and semi-annual reports for individual subfunds, which must however also contain the consolidated annual or semi-annual financial statements of the company. Copies of all reports are available at the registered office of the company. Separate annual and semi-annual reports for corresponding subfunds are available from the distribution agents responsible for their sale.

Documents available for inspection

Copies of the following documents can be inspected during normal business hours (except for weekends and holidays) at the registered office of the company, the management company and the distribution and paying agents:

- (a) Statutes of the company
- (b) Statutes of the management company
- (c) Sales prospectus
- (d) Key investor information document (KIID), available on the website at www.falconpb.com for the individual subfunds of the company;
- (e) Annual and semi-annual reports of the company.

The above-mentioned documents can be modified by mutual agreement of the contracting parties.

Copies of the statutes can be obtained free of charge and on request from the Trade Registry, the District Court of Luxembourg and the distribution agents.

On request, a list of changes in the portfolio for the financial period from 1 January 2016 to 31 December 2016 can be obtained free of charge by shareholders from the registered office of the company and the paying and distribution agents.

Additional information for investors in the Federal Republic of Germany, Austria and Switzerland

The sales prospectus, key investor information document (KIID), the statutes, as well as the annual and the semi-annual reports, are available free of charge and on request from the registered office of the company, the German, Austrian and Swiss paying and information agents, and the official representative in Switzerland.

A list of the changes in the portfolio can be obtained free of charge by investors from the German, Austrian and Swiss paying and information agents and from the representative in Switzerland.

All information that is available to shareholders in the country in which the company is registered is also available from the German, Austrian, and Swiss paying and information agents, and from the representative in Switzerland.

If this annual report for the company and the subfunds is also available or prepared in other languages, the German version remains the authoritative version.

Report of the Board of Directors

Dear Shareholder,

Falcon Swiss Small & Mid Cap Equity Fund

As in previous years, the environment was characterised by political uncertainty, resulting in a corresponding volatility. However, 2016 was a positive year on the whole for Swiss small and mid-caps. The broad SPI Extra Index posted growth of 8.5%. Small-cap stocks recorded even more impressive performances, with the SPI Small Companies Index posting a gain of 14.7%. Cyclical stocks such as auto suppliers, capital goods manufacturers and construction companies were among the main winners. On the other hand, growth was muted for insurance stocks, pharmaceutical and biotech securities, and some real estate companies.

The Fund performed well in this environment. This resulted in a gain of 17.5% (class I), representing a clear outperformance of the benchmark index, SPI Extra. The positions contributing to this positive performance included those in ALSO Holding, Metall Zug and Cham Paper.

ALSO Holding benefited from continued solid growth in high-margin service and consultancy business. This stock was given a further boost by expectations of a significant increase in the free float upon a convertible bond reaching maturity in May 2017. At Cham Paper Holding, anticipation built up ahead of the vote on the new development plan for the real estate project in Cham in September. As expected, the plan was passed with a clear majority. The former industrial site of the Cham paper factory can now be gradually converted into an attractive residential and commercial area. The paper company's production also went back into profit following a process of restructuring and relocation.

Metall Zug reported a positive trend in its core business, whereas the restructuring process at Belimed was again a burden in the first half of the year. However, the measures implemented give hope that a successful turnaround can be achieved in the new year at the latest.

The losers in 2016 included ams, Santhera and Leonteq. The profit warning issued by ams in April was the first major disappointment of the year. The microchip production company published a market outlook that was considerably below market expectations, resulting in a sharp fall in the share price. The share price did subsequently recover, but the result was a performance of -12% over the year.

In July, Santhera announced that the FDA had rejected a request to trial the drug Raxone for marketing approval. As a result, the share price dropped in value by around 35%. The subsequent recovery should in particular be considered in the context of Raxone's potential approval in Europe.

The position in Leonteq caused a further setback. The profit warning in December also led to a drop in the share price of around 35%. The timing of the press release surprised many market participants, especially since a market outlook and the adapted strategy had been released at an investors' day only a few weeks before.

Against a backdrop of ongoing political uncertainty, the new year is likely to remain volatile and challenging. In terms of individual stocks, other events may stimulate prices, which is why we remain fundamentally optimistic.

Twelve-Falcon Insurance Linked Strategy Fund Twelve-Falcon Insurance Opportunities Fund

Review of 2016

The share classes in the Twelve-Falcon Insurance Linked Strategy Fund posted the following performances in 2016:

```
A-CHF +2.75%, I-CHF +3.21%, T-CHF +3.24%
A-EUR +3.09%, I-EUR +3.57%, T-EUR +3.60%
A-USD +4.47%, I-USD +4.99%, T-USD +4.99%
```

The share classes in the Twelve-Falcon Insurance Opportunities Fund posted the following performances in 2016:

```
I-CHF +6.86%,
I-EUR +7.16%,
I-USD +8.69%,
```

The market for catastrophe bonds saw a change in the supply/demand situation during the third quarter. Strong demand in the first half of the year ran into sluggish supply in the third quarter. Although this is traditionally the case, it gave rise to a relatively strong sellers' market. This resulted in a smaller increase in returns compared to the previous year, which in turn was reflected in a positive performance. The current outstanding bond volume reached a record level of USD 26.06 billion. This year, issues were again made mostly in the higher coupon segment ("more junior"). Overall, however, risk-adjusted returns have decreased slightly.

Outlook for 2017

We expect an active first half of the year for new cat bond issues. It is worth nothing that the new issues made in 2016 had higher risks and coupons. We do not believe that this will necessarily continue to the same extent, especially since the largest bond, Everglades 2014, will expire in April. This bond's rather high seniority alone could bring this trend to a halt. In general, however, we hope that the approx. USD 6.6 billion of bonds due to expire in 2017 will return to the market. Given the potentially rising interest rates, this may not be so simple.

Report of the Board of Directors (continued)

Falcon Gold Equity UCITS Fund

The Fund's net asset value per unit (class A) rose by 42.74% in 2016.

The price of gold closed in 2016 at USD 1,151.70 per troy ounce. This resulted in a price drop of 1.6% in December. After the US Federal Reserve (Fed) announced a rate hike in mid-December, gold prices plummeted. Goldmine stocks also suffered significant losses. However, they recovered towards the end of December as investors expected gold prices to rise in 2017. Investors primarily accumulated the shares of medium-sized mining companies. Several of these stocks recorded above-average performance after having undergone significant price corrections in the fourth quarter.

Donald Trump's election victory surprised the markets, which had been expecting gold to perform much better under the new administration. Investors are currently anticipating stronger economic growth as a result of less regulation, new trading policies, tax cuts and increased government expenditure. These expectations are fairly unlikely to be fulfilled. However, given the positive labour market situation and fixed oil prices, the markets have higher inflation expectations. We believe that the fundamental supply and demand situation will continue to support gold prices. At present, precious metal prices are still too low for mining companies to attract major investment; the supply of physical gold is therefore fairly unlikely to record a substantial increase. There is growing interest in gold as a commodity for exchange and for value retention, exemplified by international oil transactions and a new Sharia Gold Standard, which aims to make owning gold easier in Muslim countries. This opens up the gold market to around a quarter of the world's population.

The markets will adapt to political realities and increasing inflationary pressure. We therefore anticipate a continued positive trend in gold. Gold is one of the most notable alternatives to large financial asset classes. Adequate positioning in gold and goldmine stocks has generally paid off in the past. We expect this to be the case once more in 2017.

Tocqueville-Falcon North American Value Fund

The Fund's net asset value per unit (class A) rose by 6.06% in 2016.

At the start of the first quarter of 2016, investors were focused on various interdependent trends, including the Fed's rate hike, the strengthening of the US dollar, the weakness of the commodities sector and risks in emerging markets. In response to measures taken by some central banks, mid-February saw an abrupt reversal in trends. In contrast, the Fed offered no guidance, instead seeming to slowly move away from its original intention of raising interest rates. Finally, US markets began to rally and closed the quarter with a slight gain.

The rally most likely resulted from the recovery in the commodities sector and support from some central banks. The growth of corporate profits appears to have played a secondary role.

US stock markets rose slightly in the second quarter. They were able to overcome the negative effects of the surprising Brexit vote and weaker-than-expected US labour market data. The energy sector continued its strong recovery, while defensive sectors such as healthcare, utilities and daily consumer goods led the upturn in domestic markets. Gold prices also increased as a result of record low interest rates on US government bonds.

At the start of the third quarter, US stock markets continued to recover from the price slumps that followed the surprising outcome of the Brexit referendum. In the months that followed, however, stock exchanges moved sideways. The slightly dampened mood was caused by the impending US presidential election and growing signs of US rate hikes. Investors were concerned about an increasingly restrictive lending policy and structural deflation in most developed economies.

Following the US election in November, US stock markets and the US dollar began to rally. There were signs of stronger growth in China, Europe and Japan. There were still concerns around deflation in developed countries, but they were superseded by expectations of a reflation of the global economy, as well as the sharp rise in interest rates and commodity prices.

As a result of its underweighting in financials, the Fund underperformed the Russell 1000 Index in the fourth quarter. The industry, finance and energy sectors performed best in absolute terms. Materials, consumer goods and information technology were among the weakest market segments.

Investors seem to be confident that the new Trump administration will keep its promises of less regulation, lower taxes for companies and consumers and new infrastructure spending, and will focus on American workers and the trade deficit. We are cautious because we recognise that many of the demands on the new President will be difficult to fulfil. In general, US equities are trading close to record levels. The fund management is therefore tending to focus on companies with stocks that are out of favour with investors and that are trading with a significant discount on their intrinsic value.

Falcon Emerging Markets High Yield Bond Fund

The Fund primarily invests its money around the world in high yield emerging market bonds denominated in US dollars. It aims to achieve high risk-adjusted yields both in terms of income and capital growth.

The Fund's net asset value per share rose by 6.92% (class A and class T) over the past 12 months.

In general, 2016 was a very turbulent year for investments in emerging markets. Stabilising commodity prices led to an improvement in companies' fundamentals. Unfortunately, however, the political landscape partially neutralised this positive trend once again. The US presidential election in November had a particularly negative impact on sentiment in emerging markets. One small mercy came when the sharp price drops in emerging market bonds were somewhat neutralised in December. The J.P. Morgan Corporate EMBI Index rose by over 1% in December.

There was relatively little corporate news in December. New issues also stagnated (but we expect new investment opportunities to be available in the first quarter of 2017).

Report of the Board of Directors (continued)

Foreign capital flows are a major factor influencing emerging markets. We would therefore not be surprised by potential further sharp price adjustments. This is likely to depend primarily on how quickly interest rates are changed by the Fed. Nevertheless, there are corporate bonds to be found with attractive interest rate differentials against US government bonds. We remain committed to our strategy with high-yield, short-term bonds, which should protect us in the current volatile environment.

The Board of Directors Luxembourg, 23 February 2017

The information in this report refers to historical data and has no significance for the future development of the company.

Audit opinion

To the shareholders of **FALCON FUND SICAV**

In view of the task assigned to us in the ordinary General Meeting of Shareholders, we have audited the attached financial statements of FALCON FUND SICAV and its corresponding subfunds, which consist of a statement of net assets, the security portfolio as at 31 December 2016, the statement of operations and changes in net assets for the financial year ending on that date, and a summary of important accounting methods and other explanatory information.

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the compilation and correct overall presentation of the financial statements in accordance with the laws and statutory regulations in effect in Luxembourg for the preparation of financial statements and for internal controls that it considers necessary to ensure the preparation of financial statements that are free of substantial misstatements, irrespective of whether these result from errors or violations.

Responsibility of the "Réviseur d'entreprises agréé"

Our responsibility is to express an opinion on these financial statements based on our audit. We performed our audit of the financial statements in accordance with the International Standards on Auditing which have been adopted by the Luxembourg "Commission de Surveillance du Secteur Financier". These standards require that we comply with the professional code of conduct, and that audits are planned and carried out in such a way as to detect with sufficient certainty that the financial statements are free of substantial misstatements.

An audit of the annual accounts consists of carrying out auditing measures which will provide audit evidence for the valuations and information contained in the financial statements. The selection of the auditing measures is the responsibility of the "Réviseur d'entreprises agréé", as is an evaluation of the risk that the financial statements contain substantially incorrect information that is due to errors or violations. As part of this risk evaluation, the "Réviseur d'entreprises agréé" takes into account the internal controlling system that had been created for the preparation and proper presentation of the financial statements, so that they could define appropriate auditing measures under these circumstances; this evaluation is not intended as an assessment of the effectiveness of the internal controlling system. An audit of the annual accounts also includes an assessment of the appropriateness of the accounting principles and methods used, the tenability of the estimated values presented by the Board of Directors of the SICAV in the accounts, and an assessment of the overall presentation of the financial statements.

We are of the opinion that the obtained audit evidence is sufficient and suitable to serve as a basis for our audit opinion.

Audit opinion

On the basis of our assessment, the financial statements are in conformity with the laws and statutory regulations in effect in Luxembourg regarding the preparation of financial statements, and present a picture that reflects the actual circumstances of the assets and financial condition of FALCON FUND SICAV and its corresponding subfunds as at 31 December 2016, including the earnings position and changes in net assets for the financial year ending on that date.

Other information

The Board of Directors of the SICAV is responsible for other information. Other information includes the information contained in the annual report, but does not include the annual financial statements or our audit opinion on these annual financial statements.

Our audit opinion on the annual financial statements does not cover other information and we give no guarantees of any kind with regard to this information.

In connection with the audit of the annual financial statements, it is our responsibility to read other information and to assess whether there is a significant discrepancy between this and the annual financial statements or the results of our audit findings, or whether other information is otherwise presented falsely. If we conclude on the basis of the work we carry out that other information contains materially false statements, we are obliged to report this. We have nothing to report in this regard.

Notes to the financial statements as at 31 December 2016

Note 1 - Structure of, and legal information about, the company

FALCON FUND SICAV (the "Company") is a public limited company (société anonyme) that is organised according to the Law of 10 August 1915 of the Grand Duchy of Luxembourg. The Company is authorised in conformity with Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities, as amended, in the form of a "Société d'Investissement à Capital Variable" (SICAV). The Company was founded for an indefinite period of time at the initiative of Falcon Private Bank Ltd., Pelikanstrasse 37, P.O. Box 1376, CH-8021 Zurich (in this sense also referred to as the "Promoter"). AIG SICAV was renamed FALCON FUND SICAV, effective 27 August 2009.

The registered office of the Company is 24, avenue Victor Hugo, L-1750 Luxembourg (since 1 January 2017: Centre Etoile, 11–13, Boulevard de la Foire, L-1528 Luxembourg, Grand Duchy of Luxembourg). The Company was founded on 30 October 2001 for an indefinite period of time and with a starting capital of EUR 36,000 in the form of 360 no-par-value shares, and commenced operation on 16 December 2002.

According to the Law of 17 December 2010, the minimum capital of the Company must correspond to EUR 1,250,000, which must be reached within a period of six months after the date of the registration of the Company as an Undertaking for Collective Investment in the Grand Duchy of Luxembourg. The capital of the Company corresponds at all times to the net asset value of all subfunds or share classes of the Company and is expressed in Euro, namely the "consolidation currency".

The Company is entered under R.C.S. Luxembourg B-84227 in the Luxembourg Trade and Company Register, where copies of the statutes are available for inspection and can be requested. The statutes of the company were last amended on 27 August 2009, and notification that the amended statutes were filed with the Luxembourg Trade and Company Register was publicised on 16 October 2009 in Mémorial C, Récueil des Sociétés et Associations ("Mémorial"), the Official Journal of the Grand Duchy of Luxembourg.

The Company has an "umbrella structure", which makes it possible to establish separate subfunds that correspond to different security portfolios ("Subfunds"). Under the supervision and the responsibility of the Board of Directors (see Section 10 "Portfolio managers and investment consultants"), the Company is empowered to appoint expert financial advisers as investment consultants. Additional legal information about the Company is documented in Section 6 ("The Company") of the prospectus.

With regard to third parties, and in the relationship between the shareholders, each subfund is treated as an independent unit. In this sense, each subfund is liable exclusively for its own liabilities, which are assigned to it in the calculation of the net asset value.

The Company is administered under the supervision of the Board of Directors and in the interests of the shareholders. The Board of Directors of the Company is listed in the prospectus under the section "Management and administration". Information about the preparation and publication of the annual and semi-annual reports of the Company is documented in Section 23 "Financial year and reporting".

Currently, the following subfunds are being offered to investors:

a) Falcon Swiss Small & Mid Cap Equity Fund

Two separate share classes are issued within the framework of this subfund: share class T and share class I. Share class T focuses primarily on private investors, whereas share class I is focused exclusively on institutional investors. Both share classes only issue accumulating shares. Furthermore, both share classes are differentiated by their fee structure.

b) Twelve-Falcon Insurance Linked Strategy Fund

Separate share classes are issued within the framework of this subfund.

Share classes A and I are open to all investors, who are in each instance willing to make the required minimum investment. Share class I demands a higher minimum investment and has a lower administrative fee, and typically, but not necessarily, targets institutional investors.

T share classes are reserved exclusively for investors selected by the management company in each individual case. The decision to approve these share classes is taken solely by the management company.

Revenues of all share classes (share classes A, I and T) are distributed ("distributing classes").

For share classes that are not designated in USD, which is the reference currency of the subfund, foreign currency risks are hedged (under normal market conditions) on average at least 90% against the reference currency of the share class.

c) Falcon Gold Equity UCITS Fund

Separate share classes are issued within the framework of this subfund.

Share classes A and H are open to all investors, who are in each instance willing to make the required minimum investment.

Share class I is open exclusively to institutional investors.

Share classes B, T and W are reserved exclusively for investors selected by the Management Company in each individual case. The decision to approve these share classes is taken solely by the management company.

Revenues of all share classes (share classes A, B, H, I, T and W) are distributed ("distributing classes").

For share classes that are not designated in USD, which is the reference currency of the subfund, foreign currency risks are hedged (under normal market conditions) on average at least 90% against the reference currency of the share class.

d) Twelve-Falcon Insurance Opportunities Fund

Notes to the financial statements (continued) as at 31 December 2016

Note 1 - Structure of, and legal information about, the company (continued)

Separate share classes are issued within the framework of this subfund.

I share classes are open to all institutional investors and private investors through nominee banks who are in each instance willing to make the required minimum investment.

T share classes are reserved exclusively for investors selected by the management company in each individual case. The decision to approve these share classes is taken solely by the management company.

Revenues of all share classes (share classes I and T) are distributed ("distributing classes").

For share classes that are not designated in USD, which is the reference currency of the subfund, foreign currency risks are hedged (under normal market conditions) on average at least 90% against the reference currency of the share class.

e) Tocqueville-Falcon North American Value Fund

Separate share classes are issued within the framework of this subfund.

Share class A is open to all investors who are in each instance willing to make the required minimum investment.

Share class I is open exclusively to institutional investors.

Share class T is reserved exclusively for investors selected by the Management Company in each individual case. The decision to approve this share class is taken solely by the Management Company.

Revenues of all share classes (share classes A, I and T) are reinvested ("reinvestment classes").

f) Falcon Emerging Markets High Yield Bond Fund

Separate share classes are issued within the framework of this subfund.

Share classes A and T are open to all institutional investors and private investors through nominee banks who are in each instance willing to make the required minimum investment.

Revenues of A share classes are distributed ("distributing class"). T share classes are reinvested ("reinvestment class").

All share classes that are not designated in USD, namely the reference currency of the subfund, may be entirely or partially hedged against this reference currency at the discretion of the investment manager.

However, no obligation for currency hedging exists.

g) Tocqueville-Falcon Global Equity Fund

The subfund Tocqueville-Falcon Global Equity Fund was liquidated on 17 May 2016.

Separate share classes were issued within the framework of this subfund.

Share class A was open to all institutional and private investors via nominee banks that were in each instance willing to make the required minimum investment.

Share class I was open exclusively to institutional investors.

Share class T was reserved exclusively for investors selected by the Management Company in each individual case. The decision to approve this share class was taken solely by the Management Company.

Revenues of all share classes (share classes A, I and T) were distributed ("distributing classes").

Notes to the financial statements (continued) as at 31 December 2016

Note 1 - Structure of, and legal information about, the company (continued)

Pursuant to the contract for the appointment of a management company ("Management Company Services Agreement"), which became effective on 12 January 2007, Falcon Fund Management (Luxembourg) S.A. (the "Management Company"), has been appointed as Management Company for the Company. According to this contract, the Management Company assumes responsibility for investment administration, central administration and sales for the Company. The contract appointing a Management Company was concluded for an indefinite period of time, and it can be cancelled by either of the contracting parties in writing, under observation of a 3-month period of notice to the end of the month. The liability of the Company is not prejudiced by the transfer of the above-mentioned functions to the Management Company.

The Management Company is a public limited company (société anonyme), which has been organised according to the currently applicable version of the Law of 10 August 1915 and is authorised as a Management Company in accordance with Section 15 of the Law of 17 December 2010. The Management Company was founded under the laws of Luxembourg on 10 October 1988 as UBZ International Trust Management for an indefinite period and was renamed AIG International Trust Management S.A. on 26 July 1999 and Falcon Fund Management (Luxembourg) S.A. on 12 May 2009.

Note 2 - Calculation of the net asset value

The annual report was prepared according to Luxembourg regulations governing investment funds.

As defined in the appendices to the prospectus, the Board of Directors is responsible for calculating the net asset value per share of a subfund in the currency of the corresponding subfund ("reference currency") on each valuation day, with the exception of those cases where calculation may be suspended, which are documented in the section "Suspension of the calculation of the net asset value".

The latest net asset value of the subfund was calculated on 30 December 2016.

The Board of Directors is authorised to publish an additional net asset value per share in currencies other than the reference currency. In such a case, the last available average exchange rate on the corresponding day of valuation is used for the conversion.

The net asset value per share (also called the "share value") is calculated by dividing the entire net asset value of the subfund by the number of issued shares. The entire net asset value of the corresponding subfund in this case represents the market value of the contained asset values, after deduction of liabilities.

The assets are valued according to the principles that have been defined in the statutes, and by the valuation regulations and guidelines that may have been issued or amended by the Board of Directors from time to time.

The assets are valued according to the following rules:

- (1) Securities that are listed on an official stock market are valued at the last available share price. If a security is listed on several stock markets, then the last available share price from the stock market on which the security is mainly traded is definitive;
- (2) Securities that are not listed on an official stock market, but which are traded on another regulated market that is recognised, open for the public and that operates according to regulations ("regulated market"), are valued at the last available share price on that market;
- (3) Units in UCIs for joint investments are valued at the last available and publicised share price;
- (4) If these share prices should not be market conform, then these securities, and any other legally permissible assets, are valued at the current value, which is determined by the Company in good faith and on the basis of the probably realisable sales value;
- (5) Cash and cash equivalents are measured at their nominal value plus accrued interest. Term deposits with an initial term of more than 60 days can be valued at the corresponding yield rate, on condition that a corresponding contract, between the financial institution that safeguards the term deposits and the Company, provided that these term deposits can be called at any time, and that the realised value upon such termination conforms to the yield rate.

The Management Company is authorised to temporarily use other, adequate valuation principles for asset values and the assets of a subfund, in the event that exceptional events deem the above-mentioned criteria for valuation impossible or inappropriate.

Insurance-Linked Securities (ILS)

Various types of CAT bonds (insurance-linked securities) exist, which can differentiate from one another in a number of parameters. CAT bonds are bonds that the issuer – usually insurance companies or reinsurers – use to compensate for the financial damage that they face as a result of natural disaster. In addition to these traditional issuers, industrial companies that are particularly affected by natural disasters have previously acted as issuers of CAT bonds (railway companies in Japan, energy companies in France) in order to acquire loan capital.

The investor provides capital and, unless a predefined natural disaster occurs, receives the interest that is earned and the premium, which the issuer pays as compensation for the mitigation of risk. At the end of the term, provided that the defined natural disaster has not occurred, the capital is returned to the investor.

Notes to the financial statements (continued) as at 31 December 2016

Note 2 - Calculation of the net asset value (continued)

In the event that a defined natural disaster occurs, the issuer's responsibility to pay the interest and premium and to repay the capital is either deferred or repealed. Instead, the issuer of the transaction will receive compensation for the damage caused by the natural disaster. Unlike corporate or government bonds, the payment of interest and repayment of the bond does not therefore depend on the creditworthiness of the creditor, but on the occurrence or non-occurrence of one or more defined natural disasters. For CAT bonds, as a rule, a significant recovery rate cannot always be assumed following the occurrence of an event. For investors, the advantage of CAT bonds is the relatively high interest rate, as well as the ability to spread investment risk. The advantage for the issuer is the passing on of disaster risk to the capital market, which can be more favourable under certain circumstances than the traditional hedging against such risks on insurance or reinsurance.

It is important to know whether individual or multiple risks (single-peril or multi-peril) are covered and how a damage claim is defined for the investor. The damage claim is either based on the book value principle (indemnity-based), under which an actually occurring claim settlement obligation by the insurance company is defined as the damage event for the bond owner, or a parameter-based damage index (parametric index-based), where a damage event occurs as soon as a certain physical parameter exceeds a certain limit value. In the last case, for instance, the Richter scale strength of an earthquake or the wind speed of a tornado would be decisive. In a damage event, namely when a certain predefined natural catastrophe or triggering event occurs, the investor suffers a partial or complete loss of the invested amount. Non-occurrence on the other hand would mean that the investor receives the agreed premium (plus interest at the money market rate). The size of the premium and the damage probability are defined differently, depending on the provisions of the catastrophe bond, but they usually are based on historical statistics for the frequency and severity of natural catastrophes at a specific location.

The valuation method is based on the best money rate, insofar as the difference between the money rate and the average money rate remains within a range of 2%.

The percentage difference between the best money rate and the average rate is determined as follows:

(best money rate - average money rate) / average money rate

The average money rate is calculated based on the prices from a reasonable number of different brokers, it being ensured that no fewer than two different brokers provide prices.

If no broker information is available for a security, a check is carried out to determine whether a price is available and otherwise, in case of a new security, the buying price or the share price of a security held during a previous valuation will be used.

Revenues from CAT bonds/ILS are booked separately under "Interest received on bonds" and "Profits/losses on insurance premiums" and include the insurance premiums and the earned interest.

Conversion of foreign exchange

The market value of securities and other investments, which are listed in a different currency than the accounting currency of the subfund, is converted into the currency of the subfund on the basis of the last average exchange rate.

Realised net profit/loss from sales of securities

The profits or losses that are realised through the sale of securities are calculated on the basis of the average buying price of the sold securities.

Valuation of forward exchange transactions

Unrealised increases/decreases in the value of open forward exchange transactions are calculated on the valuation date at the forward exchange rate, and are reflected in the statement of income and expenditure and the change in net assets.

On 31 December 2016, the following exchange rates were used for the Falcon Swiss Small & Mid Cap Equity Fund subfund:

```
1 EUR = 1.071995 CHF
1 USD = 1.016350 CHF
```

On 31 December 2016, the following exchange rates were used for the Twelve-Falcon Insurance Linked Strategy Fund subfund:

```
1 USD =
             1.341051
                        CAD
1 \text{ USD} =
             1.016350
                        CHF
1 USD =
             7 049551
                        DKK
1 USD =
             0.948092

                        SEK
```

On 31 December 2016, the following exchange rates were used for the Falcon Gold Equity UCITS Fund subfund:

```
1 USD = 1.381025 AUD
1 USD = 1.341051 CAD
1 USD = 0.948092 EUR
1 USD = 0.809291 GBP
```

Notes to the financial statements (continued) as at 31 December 2016

Note 2 - Calculation of the net asset value (continued)

On 31 December 2016, the following exchange rates were used for the Twelve-Falcon Insurance Opportunities Fund subfund:

1.016350	CHF
7.049551	DKK
0.948092	EUR
0.809291	GBP
	7.049551 0.948092

On 31 December 2016, the following exchange rates were used for the Tocqueville-Falcon North American Value Fund subfund:

```
1 \text{ USD} = 0.948092 \quad \text{EUR}
```

On 31 December 2016, the following exchange rates were used for the Falcon Emerging Markets High Yield Bond Fund subfund:

```
1 \text{ USD} = 0.948092 \quad \text{EUR}
```

The following exchange rates were used to calculate the consolidated figures:

```
1 CHF = 0.932840 EUR
1 USD = 0.948092 EUR
```

Note 3 - Fees and costs

The Company pays the following fees and costs from the net assets of the subfund:

3.1 Management company fees (administration fees).

The Management Company fee, which amounts to a maximum of 0.30% p.a. of the net assets of the corresponding subfund, unless otherwise agreed for specific subfunds, for the services performed by the Management Company, and on the basis of the contract appointing the Management Company.

3.2 A portfolio manager fee of maximum 2.00% p.a. of the net assets of the corresponding subfund, as indicated in the appendices to the prospectus for each subfund, for services specified in the respective portfolio manager contract.

The compensation for portfolio management amounts to

- up to 1.50% p.a. of the net assets for share class T of the subfund Falcon Swiss Small & Mid Cap Equity Fund (actual fee: 1.00%)
- up to 0.80% p.a. of the net assets for share class I of the subfund Falcon Swiss Small & Mid Cap Equity Fund (actual fee: 0.70%)
- up to 1.50% p.a. of the net assets for share classes A and (T SEK) (actual fee: 1.50%) and up to 1.00% for the other share classes I and T of the subfund Twelve-Falcon Insurance Linked Strategy Fund (actual fee: 1.00%)
- up to 1.75% p.a. of the net assets for share class A of the subfund Falcon Gold Equity UCITS Fund (actual fee: 1.75%)
- up to 1.75% p.a. of the net assets for share class H of the subfund Falcon Gold Equity UCITS Fund (actual fee: 1.75%)
- up to 1.00% p.a. of the net assets for share class B of the subfund Falcon Gold Equity UCITS Fund (actual fee: 1.00%)
- up to 1.00% p.a. of the net assets for share class I of the subfund Falcon Gold Equity UCITS Fund (actual fee: 1.00%)
- up to 1.00% p.a. of the net assets for share class T of the subfund Falcon Gold Equity UCITS Fund (actual fee: 1.00%)
- \bullet up to 1.00% p.a. of the net assets for share class W of the subfund Falcon Gold Equity UCITS Fund (actual fee: 0.33%)
- up to 1.00% p.a. of the net assets for share class I of the subfund Twelve-Falcon Insurance Opportunities Fund (actual fee: 1.00%)
- up to 1.50% p.a. for share class A of the subfund Tocqueville-Falcon North American Value Fund (actual fee: 1.50%)
- up to 0.80% p.a. for share class T of the subfund Tocqueville-Falcon North American Value Fund (actual fee: 0.80%)
- up to 1.00% p.a. of the net assets for share class A of the subfund Falcon Emerging Markets High Yield Bond Fund (actual fee: 1.00%)
- up to 1.00% p.a. of the net assets for share class T of the subfund Falcon Emerging Markets High Yield Bond Fund (actual fee: 1.00%)
- up to 1.20% p.a. of the net assets for share class A of the subfund Tocqueville-Falcon Global Equity Fund (actual fee: 1,00%)

If a portfolio manager receives an additional annual operating or administration fee (which may not amount to more than 1.00% of the net assets of the corresponding subfund) and/or a "performance fee", then the amount and calculation method is documented in the appendices to the prospectus for the corresponding subfund.

Notes to the financial statements (continued) as at 31 December 2016

Note 3 - Fees and costs (continued)

- 3.3 The compensation to the custodian bank, central administrative agent and registration and transfer agency (the "service charges") amount collectively to an average of 0.3% p.a. of the net assets of the respective subfund. These service charges may be higher or lower than the amount indicated above based on the net assets of the subfund. These fees are payable monthly and do not include any transaction fees or the fees of sub-custodians or similar service providers. Any cash expenses incurred (including but not limited to the costs of electronic data transfer and postage), which are not included in these fees, will be repaid to the custodian bank, central administration and registration and transfer agency from the net fund assets.
- 3.4 Fees for services specified in the registry and transfer contract, as well as any other contracts for sales and sales support, which are payable monthly at the end of each month.
- 3.5 As of the day on which a subfund was issued, the foundation costs are written off against the net assets of the corresponding subfund over a period of not more than five years.
- 3.6 If the Board of Directors decides to liquidate a subfund, then the shareholders in the subfund have the right to request the redemption of their shares up to the date of liquidation. The liquidation costs are reflected in the net asset value per share.

3.7 Other expenses

All costs incurring in the course of the Company's activities are paid from the assets of the subfund.

Note 4 - Taxation

Dividends and/or accrued interest, which are received by the Company or on its capital investments, may be subject to non-recoverable withholding tax in the country of origin.

Potential investors and shareholders should ask their advisers about the legally prevailing consequences of purchasing, holding, exchanging, transferring and selling securities, including tax consequences and possible limitations on the export of foreign currencies.

The following summary is based on legal regulations, which are currently in effect or applicable in the Grand Duchy of Luxembourg and, which may be amended in the future.

Taxation of the Company

The Company pays annual tax of 0.05% on the net assets registered at the end of each quarter for each individual subfund ("Taxe d'abonnement"), which must be transferred on a quarterly basis. However, that part of the assets that are invested in another Luxembourg investment fund is excluded from this tax. To the extent that subscription by institutional investors in a subfund or a share class is subject to restrictions, the net assets of this subfund or the corresponding share class are taxed at a reduced "Taxe d'abonnement" rate of 0.01% per year. No stamp tax or other tax is levied in Luxembourg for the issue of securities, with the exception of a one-off tax, which must be paid by the Company on foundation and amounts to EUR 1,250. No taxes are payable in Luxembourg for realised or unrealised increases in the assets of the Company.

Taxation of shareholders

With effect from 1 January 2015, the agreement between EU Member States regarding the automatic exchange of information between national tax authorities, that all interest payments should be taxed according to the regulations of the country of residence, was implemented by the Grand Duchy of Luxembourg within the framework of Directive 2003/48/EC.

As such, the previous regime adopted by the Luxembourg government as an interim solution – withholding tax (35% of the interest payment) instead of the exchange of information – ceased to apply.

Since 1 January 2015, information on the amounts of interest paid by Luxembourg banks directly to individuals who are resident in another Member State of the European Union has been automatically forwarded to the Luxembourg tax authority. The Luxembourg tax authority then informs the tax authority of the country in which the beneficiary resides. The first exchange of information took place in 2016 in relation to interest payments during the 2015 tax year.

Consequently, the system of non-recoverable withholding tax of 35% on interest payments was abolished on 1 January 2015.

Notes to the financial statements (continued) as at 31 December 2016

Note 4 - Taxation (continued)

Investors who are not resident in the Grand Duchy of Luxembourg or who do not maintain a permanent establishment there, do not need to pay income tax, inheritance tax or wealth tax on their shares or income from units in the Grand Duchy of Luxembourg. The relevant national tax regulations are applicable for such investors.

Since 1 January 2006, with reference to the Luxembourg Law implementing the Directive on the therein specified interest income, natural persons who reside in the Grand Duchy of Luxembourg and who are not a tax resident of another state have had to pay compensatory withholding tax of 10%. This withholding tax may under certain conditions also affect the interest income of an investment fund. Wealth tax was abolished in the Grand Duchy of Luxembourg at the same time. It is recommended that unitholders inform themselves and seek advice regarding the laws and regulations that apply to the purchase, possession and redemption of units.

Note 5 - Admissibility of rebates and portfolio maintenance commissions

Portfolio maintenance commissions are paid out of the administration commission to distributors and sales partners. Out of the administration commission, rebates are paid to institutional investors that hold the securities for third parties.

Note 6 - Forward exchange transactions

The following forward exchange transactions were held as at 31 December 2016:

Twelve-Falcon Insurance Linked Strategy Fund

	Purchases		Sales	Due date	Unrealised profit/(loss)	Currency

Notes to the financial statements (continued) as at 31 December 2016

Note 6 - Forward exchange transactions (continued)

Information given in accordance with the "Guidelines on ETFs and other UCITS issues" by the European Securities and Markets Authority (ESMA "Guidelines")

No techniques for efficient portfolio management were used during the financial year. Only forward exchange contracts with the intention to hedge against currency risks were concluded. The underlying exposure achieved through derivatives in accordance with point 40 a) of the "Guidelines" for the subfunds on the reporting date based on a consideration of the nominal value was CHF 0.00 and USD 0.00.

The company invested in derivatives with the following counterparties during the reporting period: Falcon Private Bank, Zurich, Hauck & Aufhäuser Investment Gesellschaft S.A.

No securities that were offset against the company's counterparty risk were accepted.

Note 7 – Distribution

					Distribution per
Subfund	Share class	Ex date	Payment date	Currency	share
Falcon Emerging Markets High Yield					
Bond Fund	A	22/01/2016	29/01/2016	USD	20.00
Falcon Emerging Markets High Yield					
Bond Fund	A	24/06/2016	01/07/2016	USD	18.00

Note 8 - Transaction costs

The company incurred transaction costs (brokerage fees) in connection with the purchase or sale of transferable securities, money market instruments, derivatives and other permissible assets. The transaction costs for the financial year ending on 31 December 2016 totalled:

Falcon Swiss Small & Mid Cap Equity Fund	CHF 73,719.97
Twelve-Falcon Insurance Linked Strategy Fund	USD 58,239.71
Falcon Gold Equity UCITS Fund	USD 429,790.81
Twelve-Falcon Insurance Opportunities Fund	USD 36,882.42
Tocqueville-Falcon North American Value Fund	USD 58,572.20
Falcon Emerging Markets High Yield Bond Fund	USD 5,603.65
Tocqueville-Falcon Global Equity Fund*	- USD

^{*} The subfund Tocqueville-Falcon Global Equity Fund was liquidated on 17 May 2016.

The transaction costs, which are reported in "Statement of operations and changes in net assets" under the heading "Bank charges" and are linked to the brokerage fees incurred in connection with transactions with derivative instruments, are therefore not included in the above figures.

Note 9 - Risk management procedures

The Management Company uses a risk management procedure for the company in accordance with the Law of 17 December 2010 and other applicable regulations, in particular CSSF Circular 11/512. This risk management procedure provides for the measurement and control of the overall risk of all funds using the commitment approach.

The Management Company appointed Hauck & Aufhäuser Investment Gesellschaft S.A. to calculate the key figures used in the risk assessment process from 1 January 2017. Until 31 December 2016, these figures were calculated by RBC Investor Services Bank S.A.

Notes to the financial statements (continued) as at 31 December 2016

Note 10 - Events during the reporting period

Twelve-Falcon Insurance Linked Strategy Fund:

As a consequence of a double posting of a foreign exchange transaction on 29 January 2016, there was a miscalculation of the net asset value in the Twelve-Falcon Insurance Linked Strategy Fund subfund.

The initially published fund prices and the corrected fund prices are below:

			Corrected

Tocqueville-Falcon Global Equity Fund:

According to a circular resolution by the Board of Directors on 11 March 2016, a provision of EUR 30,000 was booked in the Tocqueville-Falcon Global Equity Fund subfund for the resolution to liquidate the subfund.

Note 11 - Events after the end of the reporting period

As of 1 January 2017, the functions of central administration, registration office and transfer agency are transferred to Hauck & Aufhäuser Investment Gesellschaft S.A., 1c, rue Gabriel Lippmann, L-5365 Munsbach. The new Custodian is Hauck & Aufhäuser Privatbankiers KGaA, Luxembourg branch, 1c, rue Gabriel Lippmann, L-5365 Munsbach.

Note 12 - Information on the remuneration policy

Since 18 March 2016, European Directive 2014/91/EU amending Directive 2009/65/EC on undertakings for collective investment in transferable securities, which applies to the Fund, has been in force. It was transposed into national law by the Luxembourg Law of 10 May 2016 implementing Directive 2014/91/EU. Based on these new legal regulations, the Fund is required to publish information regarding the remuneration of identified employees, as defined by the Law, in the annual report. The Management Company's remuneration policy is available online at https://www.falconpb.com.

The pro rata fixed remuneration paid to identified employees, measured by fund assets under management, was EUR 156,339. In addition, pro rata variable remuneration, measured by fund assets under management, was paid to identified employees in the amount of EUR 13,185.

Note 13 - Securities financing transactions

On 12 January 2016, Regulation (EU) 2015/2365 on the reporting and transparency of securities financing transactions ("SFTR Regulation") entered into force and introduced, inter alia, new reporting requirements affecting the Fund's annual and semi-annual reports, which will be published after 13 January 2017. No securities financing transactions were carried out during the reporting period.

Information for investors in Switzerland

Total Expense Ratio ("TER")

The TERs were calculated in accordance with the "Guidelines on the calculation and disclosure of total expense ratios" of the Swiss Funds and Asset Management Association (SFAMA) in the version dated 20 April 2015.

The commissions and costs incurred in the management of the Company must be disclosed in the form of a key indicator that is internationally known as the "Total Expense Ratio" (TER). This key ratio expresses retroactively the total sum of those commissions and costs which are continuously charged to net assets (operating expenses) and is presented as a percentage of net assets and must always be calculated according to the following formula:

TER% =
$$\frac{\text{Total operating expenses in AC*}}{\text{Average net assets in AC*}} \times 100$$

^{*} AC = units in the accounting currency

^{*} On 29 December 2016, a profit of approx. USD 90,000 was recorded in share class T (SEK). This profit resulted from a deviation from optimal currency hedging on 23 December 2016. The profit remains in share class T (SEK). Unit certificate redemptions caused an outflow of approx. 99.6% from share class T (SEK) on the closing date, 23 December 2016. This left only a very small net asset value of approx. USD 41,000 in share class T (SEK), allowing the approx. USD 90,000 profit on 29 December 2016 to generate a remarkably positive performance. ** Due to its relaunch during 2016, the performance for this share class was not calculated.
