### 2. Summary of Significant Accounting Policies (*continued*)

#### b) Calculation of the Net Asset Value

The Net Asset Value of a Sub-fund and the Net Asset Value of the Share classes issued within that Sub-fund are determined in the relevant currency on every Dealing Day. The total Net Asset Value of a Sub-fund represents the market value of its assets less its liabilities. The Net Asset Value per Share in a Share class issued in a Sub-fund is determined by dividing the total Net Asset Value of all Shares in that class within the relevant Sub-fund by all outstanding Shares in the same class in the relevant Sub-fund. The Net Asset Values of the Sub-funds are calculated in accordance with the valuation regulations and guidelines set forth in the Articles and issued by the Board of Directors.

These Financial Statements are presented on the basis of the Net Asset Value ("NAV") calculated on December 30, 2016, the last business day of the year, except State Street Europe Enhanced Equity Fund, SSGA Emerging Asia Equity Fund and SSGA Emerging Latin America Equity Fund, which are based on NAV calculated on December 29, 2016.

#### c) Investment Valuation

The valuation of securities held by a Sub-fund and listed on a stock exchange or on another regulated market is based on the latest available price on the principal market on which the securities are traded, using a procedure for determining prices accepted by the Board of Directors.

Unless otherwise provided for in the management regulations of the Company, the valuation of the assets of the Company shall be based, in the case of securities admitted to official listing on a stock exchange, on the last known stock exchange quotation, unless such quotation is not representative. For securities not so admitted on such a stock exchange and for securities which are so admitted on such a stock exchange but for which the latest quotation is not representative, the valuation shall be based on the probable realisation value, estimated with care and in good faith.

#### d) Foreign Exchange Transactions

Combined Statements are presented in Euro. Financial statements of each Sub-fund that is not EUR denominated have been converted into EUR at the following exchange rates:

## Notes to the Financial Statements

for the year ended 31 December 2016 (*continued*)

### 2. Summary of Significant Accounting Policies (*continued*)

#### e) Options, Futures and Swaps Contracts

Valuation of the derivatives and structured products used is performed at each valuation date by use of the mark-to-market principle.

The value of futures contracts which are quoted or traded on any exchange is based on the last available price on that exchange on the applicable Valuation Day. The value of futures contracts traded on another market is based on the last available price on this market on the applicable Valuation Day.

In the event that any of these assets on the Valuation Day is not quoted or traded on any exchange or other market or if the price is not representative of the fair value, the value of such an asset is determined prudently and in good faith on the basis of the estimated settlement or sales price.

Futures contracts involve, to varying degrees, risk of loss in excess of the values reflected in the Sub-fund Statement of Net Assets. The underlying face amount at value of any open futures contracts at the period-end is shown in the Schedule of Investments of the relevant Sub-fund. This amount reflects each contract's exposure to the underlying instrument at the period-end. Losses may arise from changes in the value of the underlying instruments or if the counterparties do not perform under the contracts' terms. Gains (losses) are realised upon expiration or closing of the futures contracts.

Options are contracts entitling the holder to purchase or sell a specified number of shares or units of a particular security at a specified price at any time until the contract-stated expiration date. Options purchased are recorded as investments; options written (sold) are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium (original option value) and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain or loss for options written or as a realised loss for options purchased.

The risks include price movements in the underlying securities, the possibility there may be an illiquid options market, and/or the inability of the counterparties to fulfil their obligations under the contract.

#### i) Hedges against market risks and risks associated with stock market performance:

For the purpose of hedging against poor market performance, the Company may, for each Sub-fund, sell forward transactions and call options on share price indexes, bond market indexes or other indexes or financial instruments or buy put options on share price indexes, bond market indexes or other indexes or buy financial instruments or enter into swaps in which the payments between the Company and the counterparty depend on the development of certain share price indexes, bond market indexes or other indexes or financial instruments.

As these call and put transactions are for hedging purposes, there must be a sufficient correlation between the structure of the securities portfolio to be hedged and the composition of the stock index employed.

#### ii) Hedges against interest rate risks:

For the purpose of hedging against the risks associated with changes in interest rates the Company may sell interest rate futures and call options on interest rates, buy put options on interest rates and enter into interest rate swaps, forward rate agreements and options on interest rate swaps (swaptions) with highly rated financial institutions specialising in this kind of transactions as part of OTC transactions for each Sub-fund.

## Notes to the Financial Statements

for the year ended 31 December 2016 (*continued*)

### 2. Summary of Significant Accounting Policies (*continued*)

#### e) Options, Futures and Swaps Contracts (*continued*)

##### iii) Hedges against inflation risks:

For the purpose of hedging against risks resulting from an unexpected acceleration of inflation, the Company may conclude so-called inflation swaps with highly rated financial institutions specialising in this type of transaction as part of OTC transactions or make use of other instruments to hedge against inflation for each Sub-fund.

##### iv) Hedges against credit default risk and the risk of a deterioration in a borrower's credit standing:

For the purpose of hedging against credit default risk and the risk of losses owing to a deterioration in the borrower's credit standing, the Company may engage in credit options, credit spread swaps ("CSS"), credit default swaps ("CDS"), CDS (index) baskets, credit-linked total return swaps and similar credit derivatives with highly rated financial institutions specialising in this kind of transactions as part of OTC transactions for each Sub-fund.

As at December 31, 2016, the Company had outstanding futures contracts that are detailed in the Schedule of Investments. There are no swaps or OTC contracts open at the year end.

#### f) Repurchase Agreements (Repos)

The Company may as buyer or seller enter into repurchase agreements. A repurchase agreement is an agreement under which, on payment of the purchase price, the Company receives (purchases) securities from a seller who agrees to repurchase them at or within a specified time at a specified price. A repurchase agreement is similar in effect to a loan by the fund to the seller collateralised by the securities. The fund does not record the purchase of the securities received but does record the repurchase agreement as if it were a loan, and is disclosed in the Combined Statement of Net Assets under "Receivable for repurchase agreements", including any interest receivable on such transaction. Because a repurchase agreement between the two specific parties involved is generally for a relatively short time and is not transferable, it is not readily marketable. The fund carries repurchase agreements at cost, which, combined with accrued interest, approximates market value. The interest received is recorded in the Combined Statement of Operations and Changes in Net Assets under "Interest income". There was no outstanding repurchase agreement made by the Company as at December 31, 2016.

#### g) Forward Foreign Exchange Contracts

Each Sub-fund may buy and sell forward currency contracts, which are agreements between two parties to buy and sell currencies at a set price on a future date. These contracts are used to protect against a decline in value relative to the sub fund's currency as compared to the currencies in which its portfolio securities are denominated or for other investment purposes. The value of forward currency contracts is determined using current forward currency exchange rates supplied by a quotation service. The market value of the contract will fluctuate with changes in currency exchange rates. The contract is marked to market daily and the change in market value is recorded as an unrealised gain or loss. When the contract is closed, the fund records a realised gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The fund could be exposed to risk if the value of the currency changes unfavourably, if the counterparties to the contracts are unable to meet the terms of their contracts or if the fund is unable to enter into a closing position. Risks may exceed amounts recognised on the Combined Statement of Net Assets. Forward currency contracts outstanding at period end, if any, are listed in the Schedule of Investments of the relevant Sub-funds.

## Notes to the Financial Statements

for the year ended 31 December 2016 (*continued*)

### 2. Summary of Significant Accounting Policies (*continued*)

#### h) Security transactions and related investment income

Security transactions are recorded on the trade date (the date the order to buy or sell is executed). Gains or losses on securities are determined on the average cost basis. Interest income is recorded on the accrual basis. Dividend income, net of applicable withholding taxes, is recognised on the ex-dividend date or as soon as the fund is informed of the ex-dividend date. Non-cash dividends, if any, are recorded at the fair market value of the securities received. All premiums/discounts are amortised/accreted on a yield-to maturity basis.

#### i) Organisation Costs

The organisation costs and expenses of the Company or individual Sub-funds and the initial issue of its shares have been capitalised and are amortised on a straight-line basis over a period of five years from the date of commencement of individual Sub-funds.

#### j) To be announced securities

The Company may invest in mortgage-backed securities To Be Announced ("TBA") commitments. These commitments reflect future dated purchases and sales of agency Mortgage Backed Securities ("MBS").

#### k) Swing Pricing Adjustment

A Sub-fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a Swing Pricing Adjustment may be adopted to protect the interests of Shareholders of a Sub-fund. If on any Valuation Day, the aggregate net transactions in Shares of a Sub-fund exceed a pre-determined threshold, as determined and reviewed for each Sub-fund on a periodic basis by the Management Company, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively.

A net inflows and net outflows will be determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. A Swing Pricing Adjustment may be applied across all Sub-funds, as defined by the Prospectus. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Sub-fund to Sub-fund and will not exceed 3% of the original Net Asset Value per Share. The official Net Asset Value per Share as at year-end, disclosed in the Statistical Information section of this report may therefore include a Swing Pricing Adjustment, which would not be recognised in the Statement of Net Assets, in the Statement of Operations and in the Statement of Changes in Net assets.

As at year end, a Swing Pricing Adjustment had been applied to the following Sub-funds as follows:

| Sub-funds                                 | Currency | NAV before Swing Pricing Adjustment | Swing Pricing Adjustment | NAV after Swing Pricing Adjustment |

## Notes to the Financial Statements

for the year ended 31 December 2016 (continued)

### 3. Fees and Expenses

#### a) Custodian, Central Administrator, Registrar and Transfer Agent and Paying Agent Fees

The fees payable to the Custodian and to the Central Administrator, Registrar and Transfer Agent and Paying Agent are at such rates and/or amounts as may be agreed from time to time with the Company. The maximum fee payable to the Custodian is 0.50% per annum and to the Central Administrator, Registrar and Transfer Agent and Paying Agent is 0.025% per annum (excluding specific fees payable for the processing of multiple Share Classes), in each case based on the Net Asset Value of the relevant Sub-fund. In addition, the Custodian and the Central Administrator, Paying Agent, Registrar and Transfer Agent are entitled, as the case may be, to a charge per transaction, a flat fee for certain services or products, reimbursements by the Company for out-of-pocket expenses and disbursements and for charges of any correspondents.

#### b) Investment Management Fees

The Sub-funds listed in this report, funded as at December 31, 2016 paid the following Investment Management Fees:

\*Refer to Note 1.

These Investment Management Fees will be accrued daily based on the Net Asset Value of the Sub-funds as of the relevant Dealing Day and will be paid monthly in arrears.

The total expense ratios ("TER") attributable to the Share classes of the Sub-funds, as set out below, incorporate the fees and expenses of the Investment Manager, Central Administrator, Custodian, any distribution fee not covered by the Subscription Fee where appropriate, and certain other expenses of the relevant Sub-fund set forth in the Prospectus.

The Investment Manager has voluntarily agreed to reimburse such portions of its fees as is necessary to ensure that the total expense ratio attributable to all Shares shall currently not exceed the following rates set forth below. The Investment Manager reserves the right, at a future date, to cease any such reimbursements.

The below table discloses the applicable rates as at December 31, 2016.

#### Other expenses

Other expenses as reported on the Combined Statement of Operations include but are not limited to costs related to registration fees, translation fees and publication fees.

#### c) Director fees

The aggregate amount of Directors' remuneration in any one year is not expected to exceed EUR 70,000. All Directors who are also employees of the Investment Manager or one of its affiliates have waived their entitlement to Directors' fees.

### 4. Taxation

The Company is subject to the Luxembourg tax jurisdiction. Under Luxembourg law and the current practice, the Company is subject neither to income tax nor to any tax on capital gains in respect of realised or unrealised valuation profits. No taxes are payable in Luxembourg on the issue of Shares.

The Net Asset Value corresponding to the "P" and the "A" Shares (Shares for retail and institutional investors) is subject to the tax d'abonnement at the rate of 0.05% per annum of the Net Asset Value as valued at the end of each quarter, and payable quarterly by the Sub-fund. The "P" and the "A" Shares classes are available to retail and institutional investors. To the extent that parts of the Company's assets are invested in other Luxembourg UCITS which are subject to the tax d'abonnement, assets will not be subject to additional tax.

## Notes to the Financial Statements

for the year ended 31 December 2016 (continued)

### 4. Taxation (continued)

The Net Asset Value corresponding to the "I" and the "B" Shares (Shares for institutional investors) is subject to a reduced tax rate of 0.01% per annum payable quarterly by the Sub-fund, on the basis that the Company classifies the investors in this Share class as institutional investors as defined in Articles 174 to 176 of the 2010 Law. This classification is based on the Company's understanding of the current legal situation.

Capital gains and income from dividends, interest and interest payments originating in other countries may be subject to a non-recoverable withholding tax or capital gains tax in such countries. Tax effects are booked in accounting on a cash basis principle. However, a daily monitoring is performed on such balances to ensure that when material, appropriate provisions will be accordingly reflected.

In accordance with Article 175 of the 2010 Law, each share class subject to listing on a stock exchange and part of a Sub-fund which replicate the performance of an index is not subject to taxe d'abonnement.

As at December 31, 2016, the following Share Classes are not subject to taxe d'abonnement:

### 11. Securities Lending

The SICAV has appointed State Street Bank International GMBH and State Street Bank and Trust Company to act as Securities Lending Agents. Securities are lent to their approved Counterparties and collateral must be sufficiently liquid and valued at market value on a daily basis. Acceptable forms of collateral consist of Government Securities whose long term rating are at or above A- or equities listed on a stock exchange in a Member State of the EU or traded on a market which is regulated and operating regularly which is officially recognised and open to the public in a Member State of the EU.

The following table summarises the value of securities lent, analysed by borrowing counterparty as at December 31, 2016:

## Notes to the Financial Statements

for the year ended 31 December 2016 (continued)

### 11. Securities Lending (continued)

Income from securities lending transactions and costs and fees are recognised for each respective Sub-fund after deduction of the costs of the lending agent of the Fund.

As at December 31, 2016, the securities lending income generated by the SICAV is split as follows:

| Name of the Sub-fund                                   | Currency | Gross income of Securities Lending | Direct and indirect Costs and Fees of Securities Lending | Net income of Securities Lending |

### 12. Connected Parties Transactions

The ultimate holding company of the Management Company, the Principal Distributors, the Investment Manager, the Central Administration, the Custodian, the Principal Paying Agent, the Transfer Agent and the Domiciliary Agent is State Street Corporation.

When arranging transactions in securities for the Company, companies in the State Street Group may have provided securities brokerage, foreign exchange, banking and other services, or may have acted as principal, on their usual terms and may have benefited from it. Any such transactions would have been entered into in the ordinary course of business and on normal commercial terms. Fees have been paid to brokers and agents in accordance with the relevant market practice and the benefit of any bulk or other fee discounts or cash rebates provided by brokers or agents have been passed on to the Company.

The services of State Street Group companies could have been used by the Investment Managers where it was considered appropriate to do so provided that their fees and other terms of business are generally comparable with those available from dissociated brokers and agents in the market concerned.

During the period there have been no transactions which were outside of the ordinary course of business or which were not on normal commercial terms entered into between the Company, the Management Company, the Principal Distributors, the Investment Manager, the Central Administration, the Custodian, the Principal Paying Agent, the Transfer Agent, the Domiciliary Agent or the Directors of the Company.

Certain Directors of the Company are or may also be Officers and/or Directors of one or more entities of the State Street Group.

Merger of SSgA Sectoral Healthcare Equity Fund (“Merging Sub-fund”) into Variopartner SICAV – Sectoral Global Healthcare Fund (“Receiving Sub-fund”)

The Board of Directors has decided to merge the “Merging Sub-fund” into the “Receiving Sub-fund”. The merger shall become effective on 31 March 2017.

#### Background and rationale for the merger

In order to gain operational efficiencies and simplify the administration of the assets under its management, Sectoral Asset Management Inc., acting currently as the sub-investment manager of the Merging Sub-fund (“Sub-Investment Manager”), decided to consolidate the assets under its management within one vehicle. The Sub-Investment Manager identified Vontobel Group as its partner to effect such consolidation within Variopartner SICAV as its vehicle of choice. Vontobel Group already administers other Sub-funds managed by the Sub-Investment Manager within Variopartner SICAV. In order to implement proposed consolidation, the Sub-Investment Manager took an initiative to create the Receiving Sub-fund within Variopartner SICAV specifically for the purposes of the merger.

Following the decision above, the relevant investment strategy will no longer be available within SSgA Luxembourg SICAV. However, the Board of Directors would like to offer an option, to the shareholders of the Merging Sub-fund who wish to remain exposed to such investment strategy, a merger into Receiving Sub-fund. The Sub-Investment Manager shall be appointed as investment manager of the Receiving Sub-fund, thereby allowing a continuation of the investment management by Sectoral Asset Management Inc. in a focused and direct manner within the same type of vehicle. The Board of Directors invites the shareholders to consider the proposed merger in light of potential synergy effects that it may offer as a result of consolidation with regard to the tasks of Variopartner SICAV’s management company i.e. Vontobel Asset Management S.A..

Shareholders of the Merging Sub-fund not agreeing with the merger will be given the possibility to request the redemption of their shares of the Merging Sub-fund at the applicable net asset value, without any redemption charges (other than charges retained by the Merging Sub-fund to meet disinvestment costs) during the notice period.

### Portfolio Turnover Rate (PTR)

The "Portfolio Turnover Rate" indicates the relevance of ancillary costs accruing to the Sub-fund from the purchase and sale of investments. The PTR shall be determined for the same period as the TER. The manner of calculating the PTR of the Sub-funds in these documents corresponds to the method recommended by the Swiss Funds & Asset Management Association (SFAMA), and is then calculated using the following formula:

$$\text{PTR \%} = \frac{(\text{Total 1} - \text{Total 2}) * 100}{\text{Average fund assets in CU}^*}$$

\*CU = Currency units in the fund's accounting currency

Total 1 = Total securities transactions = X + Y

Securities purchases in CU = X

Securities sales in CU = Y

Total 2 in CU = Total transactions involving fund units = S + T

Issues of fund units in CU = S

Redemptions of fund units in CU = T

## Appendix III - Note for investors in Switzerland (Unaudited)

for the year ended 31 December 2016 (continued)

### Total Expense Ratio (TER)

In Switzerland the “total expense ratio” (TER) taking account of Swiss requirements is reported and explained in each of the annual and semi-annual reports as well as in the KIID. The way of calculating the TER and the performance of the Sub-fund in these documents corresponds to the method recommended by the Swiss Funds & Asset Management Association (SFAMA), and is then calculated using the following formula:

$$\text{TER \%} = \frac{\text{Total operating expenses in CU}^*}{\text{Average fund assets in CU}^*}$$

\*CU = Currency units in the fund’s accounting currency

\* Refer to Note 1.

The performance of each Share Class is defined as the total return of the class over a specified period, expressed in the Share Class' currency. As Share Classes pay no distribution, the performance data corresponds to the change in net asset value during the observation period.

Performance data is then calculated using the following formula:

$$\text{Performance in \%} = \frac{\text{NAV (end p)} - \text{NAV (start p)}}{\text{NAV (start p)}}$$

## **Appendix V - ALFI Code of Conduct (Unaudited)**

for the year ended 31 December 2016

The Board of Directors confirms that the Fund complied with the principles of the ALFI Code of Conduct for Luxembourg investment funds in all material respects during the accounting period from January 1, 2016 to December 31, 2016.

## Appendix VI – Remuneration Policy (Unaudited)

for the year ended 31 December 2016

State Street Global Advisors Luxembourg SICAV (“the Company”) adopted the Remuneration Policy of the State Street Global Advisors Luxembourg Management Sarl (“the Management Company”).

The Remuneration Policy is aimed at ensuring that any relevant conflicts of interest can be managed appropriately at all times and sets out practices for those categories of staff, including senior management, risk takers, control functions, and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profile of the Sub-funds, that are consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of those Sub-funds.

This Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company and the Funds and the investors in those Funds and includes measures to avoid conflicts of interest.

### Identified staff

The UCITS Directive requires the Management Company to identify the categories of staff whose professional activities have a material impact on the risk profile of the Sub-funds.

The Management Company is controlled and managed by the Board, but does not currently have any staff. Accordingly, the identified staff for the purpose of this Remuneration Policy are the Board.

### Variable remuneration

The managers who are also employees of the State Street Group do not receive any additional remuneration in respect of their services as managers of the Management Company. The other managers receive fixed remuneration in respect of their services which is set at a level determined by the Board as a whole and which is not performance related. None of the managers are currently in receipt of variable remuneration in respect of their services as managers of the Management Company or in respect of the UCITS under management. Accordingly, the detailed provisions of Article 14b of the UCITS Directive and the related ESMA Guidelines in relation to variable remuneration are not applicable to the Management Company. None of the managers are currently in receipt of a pension from the Management Company.

The Management Company has determined that the fixed remuneration payable to the managers who are not employees of the State Street Group is (a) consistent with sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile, rules or instrument of incorporation of the Funds and (b) in line with the business strategy, objectives, values and interests of the Management Company and the Funds and the investors in the Funds. The nature of the managers’ remuneration, being fixed and not including any variable component and being determined by the Board as a whole, ensures that the Management Company appropriately manages any conflicts of interest in respect of remuneration.
