THE BOARD OF DIRECTORS

Luxembourg, July 2021

The Board of Directors (continued)

THE BOARD

Chairman

Gregory E. Johnson

Gregory Johnson (59) was appointed to the Board on November 28, 2003. He is Executive Chairman of Franklin Resources, Inc. and serves on the Board of Directors. He serves as a Director for a number of subsidiaries of Franklin Resources, Inc. He is a member of a number of Franklin Templeton's International Fund Boards. Mr. Johnson joined Franklin in 1986 after working as a senior accountant for Coopers & Lybrand. He has served as President and Chairman of the Board for Franklin Templeton Distributors, Inc., President of Franklin Investment Advisory, LLC, President of FT Trust Company, Vice President of Franklin Advisers, Inc., co-portfolio manager of Franklin Income Fund and Franklin Utilities Fund and as an investment analyst.

Directors

Mark G. Holowesko

Mark Holowesko (61) was appointed to the Board on November 30, 1994. Mark Holowesko is the founding Partner and Chief Executive Officer of Holowesko Partners Ltd (HPL). Mark launched the firm in the fall of 2000, under the name of Templeton Capital Advisors, to serve the needs of institutional and high-net-worth investors. Subsequently renamed Holowesko Partners, under Mark's leadership HPL has enjoyed steady and consistent growth and now stands as one of the premier global equity hedge firms in the industry.

Mark's investment career began in 1985 when he joined Templeton Global Advisors as a research analyst. By 1987, he had assumed the day-to-day management of all portfolios previously managed by Sir John Templeton, including the Templeton Growth Fund and the Templeton Foreign Fund. In 1989, Mark became the Director of Research of the Templeton Global Equity Funds and later, in 1996, assumed the role of Chief Investment Officer.

Mark served as a member of the Executive Committee of Templeton, Galbraith & Hansberger from 1987 to 1992 and as a member of the Executive Committee of Franklin Resources from 1992 to 2000. Mark was Director, President & Head of Investments of Templeton Global Advisors Ltd. from 1992 to 2000.

James Hung (74) was appointed to the Board on November 29, 2002. He is the Chairman and Chief Executive Officer of Xinya Investment Group, China, a real estate development and investment group in Mainland China, Hong Kong and Taiwan. His previous experience includes working for Asia Securities Inc. (Taiwan) as the Chairman and CEO. He has also previously been the director of the Security Bank in Philippines, and the director of the Franklin Templeton Fund Management Co. in Shanghai, a joint venture of Franklin Templeton and the Sealand Securities Co., also director of Yi Min Fund Management Co., (China), H&Q Venture Capital Inc. (Taiwan), Taiwan Index Fund Inc. (Luxembourg), and Vietnam Fund Inc. (Guernsey).

Jed A. Plafker

Mr. Plafker (50) was appointed to the Board of Franklin Templeton Investment Funds on April 13, 2017.

Mr. Plafker is Executive Vice President of Global Alliances and New Business Strategies for Franklin Templeton. In this position, Mr. Plafker is responsible for the expansion of the company's digital wealth management and distribution-related financial technology, ensuring that the firm fully harnesses these capabilities for financial advisors and clients. In addition, he partners closely with the CEO to drive execution of the Legg Mason acquisition, working closely with the Specialist Investment Managers, to maximize coordination and operating connectivity across all aspects of the firm. Mr. Plafker is also responsible for the company's closed-end fund business, joint ventures, product governance, seed capital allocations, fund board management, and direct-to-consumer initiatives. He serves as a director of various Franklin Templeton corporate and investment entities and is a member of the Franklin Resources' Executive Committee, a small group of the company's top leaders responsible for shaping the firm's overall strategy.

Prior to assuming his current position in 2020, Mr. Plafker was Executive Vice President of Global Advisory Services, overseeing Franklin Templeton's global distribution efforts, including retail and institutional sales, marketing and product strategy. Prior to that, he was responsible for international distribution for the firm beginning in 2006. Mr. Plafker joined Franklin Templeton as a corporate attorney in 1994 and later served as chief legal counsel - Asia. In 2001, he moved to the distribution side of the business as Country Head of Hong Kong. Thereafter, he became a Managing Director in Europe.

Mr. Plafker earned a B.A. in economics and business from Lafayette College in Easton, Pennsylvania, and a Juris Doctorate from the University of Miami in Coral Gables, Florida.

The Board of Directors (continued)

William C. P. Lockwood

William Lockwood (65) was appointed to the Board of Franklin Templeton Investment Funds on December 1, 2014. He joined Franklin Templeton in 1992 and served as General Manager of the Franklin Templeton Luxembourg subsidiary and Franklin Templeton Investment Funds until December 2005. From December 2005 until January 2014, he was Conducting Officer of Franklin Templeton Investment Funds and of Franklin Templeton International Services S.à r.l. subsequently. The Conducting Officer role was a management, oversight and governance role under the EU UCITS legislation reporting directly to the Board of Franklin Templeton Investment Funds. Mr Lockwood has been working in the financial services industry in Luxembourg since 1982. He is a Scottish Chartered Accountant and a Member of the Chartered Institute for Securities & Investment, London. He has served as a director and international vice chairman of the Luxembourg Fund Industry Association (ALFI) and as a council member of the Institute of Chartered Accountants of Scotland.

Report of the Investment Managers

Year to June 30, 2021

Global stock markets were supported during much of 2020's summer by the accommodative stances of central banks, as well as hopes for more government stimulus and a potential coronavirus vaccine. September brought a selloff of US technology stocks on worries they were overvalued, which rattled markets around the world. Global equity markets then rebounded and saw exceptional gains in November following positive coronavirus vaccine trials and Joe Biden's win in the US presidential election. During the first quarter of 2021, investors weighed continued optimism around policy stimulus and economic reopening against concerns about higher bond yields and potential economic overheating. During the second quarter, supply chain disruptions and higher commodity prices combined with low base effects to drive up inflation around the globe. Investors weighed signals on whether the inflation jump would be temporary and if governments and central banks would begin tightening accommodative policies sooner than expected.

In Europe, economic data from the United States and China, along with hopes for more fiscal and monetary stimulus, supported financial markets early in the period. In December, the rollout of coronavirus vaccines and expected additional stimulus measures helped offset worries about continued rising COVID-19 cases and renewed stay-at-home orders. Hopes of further stimulus from the United States and optimism that a swift economic recovery would unfold supported sentiment for much of the first quarter of 2021. However, later in the period equity gains were restrained by the increase in global bond yields amidst mounting worries about a possible rise in inflation. New lockdown measures in several countries also dampened sentiment. In June, the European Central Bank (ECB) raised its economic forecast for the euro area but said it intends to continue its accommodative monetary stimulus. ECB President Christine Lagarde said that underlying price pressures are expected to increase somewhat this year due to temporary supply constraints and the recovery in domestic demand but are likely to remain subdued.

The US economy's resilience and adaptability provided support for its financial markets during the latter half of 2020. The US Federal Reserve (Fed) announced a new policy framework in August allowing for higher inflation. During most of 2021's first quarter, US equities rallied on diminishing COVID-19 risks and investor expectations for a lively consumer-led recovery. During the second quarter of 2021, investors recalibrated their expectations for inflation, interest rates and risks introduced by a firming economic reboot amidst the pandemic's erratic but less destructive path. While at first the market's recovery was led by so-called stay-at-home stocks companies that benefitted from millions of people adhering to COVID-19 mobility restrictions many investors spent the spring quarter shifting their focus to businesses poised for a rebound in a reopening economy.

The global commodities complex rallied steadily in July and August 2020 as key economies opened following the spring lockdowns. A late-summer coronavirus surge in certain regions nonetheless thwarted the rally and impacted major economies' near-term outlooks. In late 2020, with energy demand on the mend and select metals experiencing supply deficits, commodities investors appeared to embrace improving economic scenarios and expectations for eventual widespread COVID-19 vaccination. The global commodities complex began 2021 with continued gains as consumption boomed while supply remained constrained across a wide range of key commodities. As the reporting period came to a close, global progress with vaccinations underpinned a robust consumption recovery in the United States, China and Europe, boosting commodity prices as supplies for a wide range of products were set to remain tight through the summer. In particular, the economic recovery has been metals-intensive, with demand expectations being pushed higher throughout the period.

The remainder of 2021 will likely prove challenging, with potential key themes of guarding for inflation, searching for income, and seeking quality companies, as well as looking beyond stocks and bonds. Fixed income activity cannot avoid looking out for inflation and income. The opportunities across corporate credit markets will be selective and uneven, and we believe active management will be important. Investors should consider sector, duration and quality rotation. Equity discussions converge on "quality," with investors across styles and market capitalization ranges believing the "junk trade" is over and quality is the priority beyond structured definitions of growth and value. Different managers offer different definitions of quality companies, helping investors navigate the market while analyzing supply chain disruptions, economic cycles and growth.

Audit report

To the Shareholders of
Franklin Templeton Investment Funds

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Franklin Templeton Investment Funds (the “Fund”) and of each of its sub-funds as at 30 June 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the statement of net assets as at 30 June 2021;
- the schedule of investments as at 30 June 2021;
- the statement of operations and changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors for the financial statements

The Board of Directors is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors;

- conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for Franklin Templeton Investment Funds - Franklin Euro Short-Term Money Market Fund where a decision to liquidate exists) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The expected level of leverage percentage of the Templeton Global Income Fund increased from 100% to 120%.

Note 2 - Significant accounting policies**(a) General**

The financial statements are prepared in accordance with the regulations of the Grand Duchy of Luxembourg relating to investment funds under the going concern basis of accounting except for Franklin Euro Short Term Money Market Fund. As indicated in Note 35, this Fund was liquidated within 12 months following June 30, 2021. As such, the financial statements for this Fund have been prepared on a non-going concern basis. The application of the non-going concern basis of accounting has not lead to material adjustments to the Fund's published net asset value.

(b) Investment in securities

Securities which are listed on a stock exchange or traded on any other organised market are valued at the last available price on such exchange or market which is normally the principal market for each security, and those securities dealt in on an over-the-counter market are valued in a manner as near as possible to that for quoted securities.

Note 2 - Significant accounting policies (continued)

(b) Investment in securities (continued)

Securities not listed on any stock exchange nor traded on any organised market are valued at the last available price, or if such price is not representative of their fair value, they are valued prudently and in good faith on the basis of their reasonably foreseeable sales prices.

In accordance with the provisions of the current prospectus, Market Level Fair Valuation may be implemented to protect the interests of the Company's shareholders against market timing practices, as market timers may seek to exploit possible delays between the change in the value of a Fund's portfolio holdings and the Net Asset Value of the Fund's Shares in Funds that hold significant investments in foreign securities because certain foreign markets close several hours ahead of the US markets, and in Funds that hold significant investments in small-cap securities, high-yield (junk) bonds and other types of investments which may not be frequently traded.

The Company has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. In such circumstances, the price of such investment shall be adjusted in accordance with the procedures adopted, as determined by or under the direction of the Board of Directors.

During the accounting year under review, gains and losses on investment securities sold were computed on the average cost basis for all Funds with the exception of the Franklin High Yield Fund, the Franklin Income Fund, the Franklin U.S. Government Fund, the Templeton Asian Bond Fund and the Templeton BRIC Fund which were computed on the first-in, first-out basis.

During the accounting year under review, discounts and premiums were amortised to income over the year to maturity.

For mortgage-backed and other similar holdings with scheduled debt paydowns, the Funds record accruals, based on their historical experience, for anticipated paydowns. Such accruals are recorded as a reduction or increase to the related holdings as disclosed on the Schedule of Investments and are included in the related unrealised appreciation/depreciation on investments shown on the "Statement of Operations and Changes in Net Assets".

Money market instruments are valued at market value.

(c) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at the forward rate applicable at the "Statement of Net Assets" date for the remaining period, until maturity. Gains or losses resulting from forward foreign exchange contracts are recognised in the "Statement of Operations and Changes in Net Assets".

(d) Financial future contracts

The Company may enter into financial future contracts to gain exposure to market changes. A financial future contract is an agreement between two parties to buy or sell a security for a set price on a future date. Required initial margin deposits of cash or securities are maintained by a broker in a segregated account. Subsequent payments, known as variation margin, are made or received by the Company depending on the fluctuations in the value of the underlying securities. Such variation margin is accounted for as unrealised gains or losses until the contract is closed, at which time the gains or losses are reclassified to realised gains or losses. Realised and unrealised gains and losses are included in the "Statement of Operations and Changes in Net Assets".

(e) Interest rate swap contracts

Interest rate swap contracts are used to hedge the risk of changes in interest rates and are agreements between two parties to exchange cash flows based on a notional principal amount. The net interest received or paid on interest rate swap contract agreements is accrued daily as interest income/expense.

Interest rate swap contracts are marked to market daily based upon quotations from the market makers and the change, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

Note 2 - Significant accounting policies (continued)

(e) Interest rate swap contracts (continued)

The risks of interest rate swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement.

(f) Inflation swap contracts

An inflation swap contract is a bilateral agreement used to transfer inflation risk from one party to another through an exchange of cash flows.

Inflation swap contracts are marked to market daily based upon quotations from the market makers and the change, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of inflation swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement.

(g) Cross currency swap contracts

A cross currency swap is an agreement between two parties to exchange interest payments and principals denominated in two different currencies. Cross currency swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets".

When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of cross currency swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement.

(h) Total return swap contracts

A total return swap is an agreement in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains.

Total return swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets".

When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of total return swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement.

(i) Credit default swap contracts

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic payment for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual users.

Note 2 - Significant accounting policies (continued)

(i) Credit default swap contracts (continued)

Credit default swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". Any payment received or paid to initiate a contract is recorded as a liability or asset in the "Statement of Net Assets". When the swap contract is terminated early, the Fund records a realised gain or loss for any payments received or paid.

The risks of credit default swap contracts include unfavourable changes in interest rates, an illiquid secondary market and the possible inability of the counterparty to fulfil its obligations under the agreement, which may be in excess of the amount reflected in the "Statement of Net Assets".

(j) Option contracts

Options are contracts entitling the holder to purchase or sell a specified number of shares or units of a particular security at a specified price at any time until the contract-stated expiration date. Options purchased are recorded as investments; options written (sold) are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium (original option value) and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

The risks include price movements in the underlying securities, the possibility there may be an illiquid options market, or the inability of the counterparties to fulfil their obligations under the contract.

The Company writes options on securities, futures and interest rate swaps ("swaptions"). These options are settled in cash and subject the Company to unlimited risk of loss. The Company, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

The market values are recorded under "Option Contracts at Market Value" in the "Statement of Net Assets".

(k) Foreign exchange transactions

Transactions expressed in currencies other than each Fund's currency are translated into each Fund's currency at the exchange rates applicable on the transaction dates.

Assets and liabilities denominated in currencies other than each Fund's currency are translated into each Fund's currency at the appropriate exchange rates ruling at the period-end. Gains and losses on foreign exchange transactions are recognised in the "Statement of Operations and Changes in Net Assets" in determining the results for the accounting year.

The reference currency of the Company as reflected in the financial statements is U.S. dollar. The principal exchange rates applied as at June 30, 2021 are as follows:

AUD	1.3337	EUR	0.8433	NOK	8.6095
CAD	1.2398	GBP	0.7229	PLN	3.8126
CHF	0.9253	HKD	7.7644	SEK	8.5575
CNH	6.4680	HUF	296.3000	SGD	1.3448
CZK	21.5085	JPY	111.0850	ZAR	14.2872

The list of the currency abbreviations is available in note 32.

Note 2 - Significant accounting policies (continued)**(l) Mortgage dollar rolls**

In a mortgage dollar roll, a Fund sells mortgage-backed securities for delivery in the current month and simultaneously contracts to repurchase substantially similar (name, type, coupon, and maturity) securities on a specified future date. During the period between the sale and repurchase, the Fund foregoes principal and interest paid on the mortgage-backed securities. The Fund is compensated by the difference between the current sales price and the lower forward price for the future purchase, as well as by the interest earned on the cash proceeds of the initial sale.

Mortgage dollar rolls are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets".

The difference between the current sales price and the lower forward price is treated as realised gain.

The market values are recorded under "Investment in mortgage dollar rolls at market value" or under "Open Short Positions on mortgage dollar rolls" in the "Statement of Net Assets".

(m) Income

Dividends are credited to income on their ex-dividend date. Interest income is accrued on a daily basis and includes the amortisation of premiums and accretion of discounts, where applicable. The Interest on bonds (net of withholding taxes) disclosed on the Statement of Operations and Changes in Net Assets may be negative where the amortisation of premiums paid on acquisition of debt instruments exceeds the amount of coupon interest earned.

(n) Securities lending

Unless otherwise provided in the relevant Fund's investment policy, a Fund may utilise up to 50% of its assets for securities lending transactions. The volume of the securities lending transactions of each Fund shall be kept at an appropriate level or each Fund shall be entitled to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations and that these transactions do not jeopardise the management of each Fund's assets in accordance with its investment policy. The counterparties to securities lending transactions are selected following an initial analysis, and subsequent annual review thereafter, of financial statements, company announcements, credit ratings and other market information which includes general market movements. While there are no predetermined legal status, credit rating or geographical criteria applied in the selection of the counterparties, these elements are typically taken into account in the selection process. Loans will be secured continuously by collateral which must at least equal the value of the securities lent. Securities lending income is disclosed under the caption "Securities lending" in the "Statement of Operations and Changes in Net Assets". Any transaction expenses in connection with the loans are charged to the concerned Fund.

(o) Formation expenses

Formation expenses associated with the launch of the new Funds are expensed as incurred.

(p) Swing pricing

A Fund may suffer dilution of the net asset value per share due to investors buying or selling shares in a Fund at a price that does not reflect dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

To counter this dilution impact and to protect Shareholders' interests, a swing pricing mechanism may be adopted by the Company as part of its valuation policy.

The Fund operates a swing pricing mechanism which is applied when the total capital activity (aggregate of inflows and outflows) at a Fund level exceeds a pre-determined threshold, as determined as a percentage of the net assets of that Fund for the Valuation Day. Funds can operate a full swing pricing mechanism where the threshold is set to zero or a partial swing pricing mechanism where the threshold is greater than zero.

Note 2 - Significant accounting policies (continued)

(p) Swing pricing (continued)

Typically, such adjustment will increase the Net Asset Value per Share when there are net inflows into the Fund and decrease the Net Asset Value per Share when there are net outflows. The Net Asset Value per Share of each Share Class in a Fund will be calculated separately but any adjustment will, in percentage terms, affect the Net Asset Value per Share of each Share Class in a Fund identically. Swing pricing does not address the specific circumstances of each individual investor transaction.

The adjustments will seek to reflect the anticipated prices at which the Fund will be buying and selling assets as well as estimated transaction costs.

Investors are advised that the volatility of the Fund's Net Asset Value might not reflect the true portfolio performance as a consequence of the application of swing pricing.

The size of the adjustment impact is determined by factors such as the volume of transactions, the purchase or sale prices of the underlying investments and the valuation method adopted to calculate the value of such underlying investments of the Fund.

The swing pricing mechanism may be applied across all Funds of the Company. The extent of the price adjustment will be reset by the Company on a periodic basis to reflect an approximation of current dealing and other costs. Such adjustment may vary from Fund to Fund and under normal conditions will not exceed 2% of the original Net Asset Value per Share. The Board of Directors can approve an increase of this limit in case of exceptional circumstances, unusually large Shareholders trading activities, and if it is deemed to be in the best interest of Shareholders.

Franklin Templeton International Services S.à r.l. ("FTIS"), as UCITS licensed management company (the "Management Company") mandates authority to the Swing Pricing Oversight Committee to implement and on a periodic basis review, the operational decisions associated with swing pricing. This committee is responsible for decisions relating to swing pricing and the ongoing approval of swing factors which form the basis of pre-determined standing instructions.

The price adjustment is available on request from the Management Company at its registered office.

On certain share classes, the Management Company may be entitled to a performance fee, where applicable, this will be based on the unswung NAV.

During the year ended June 30, 2021, swing pricing adjustments affected the net asset value per share of the following Funds:

Note 16 - Investment management fees

The Management Company receives from the Company a monthly investment management fee equivalent to a certain percentage per annum (as detailed below) of each Fund's average daily net assets during the accounting period. When Funds invest in other Franklin Templeton funds, a management fee is not applied to the amounts invested. The following percentages apply in respect of the different Funds as at June 30, 2021.

The Investment Managers will be remunerated by the Management Company out of the investment management fee received from the Company.

No management fee is payable by an investor on the acquisition of Class X and Class Y shares, instead a fee is paid to the Investment Manager or affiliates under a separate agreement.

Note 17 - Performance fees

The Management Company may be entitled to receive from the net assets attributable to a share class an annual performance-based incentive fee (the "performance fee") which, if applicable, will be calculated and accrued daily and payable as of the end of each fiscal year.

The performance fee becomes due in the event of outperformance, that is, if the increase in the NAV during the relevant performance period (after deduction of any subscription and/or redemption fees levied) exceeds (i) the increase in the target benchmark over the same period and (ii) the applicable high water mark point as defined in the prospectus.

If shareholders redeem all or part of their shares before the end of a performance period, any accrued performance fee with respect to such shares will crystallise on that dealing day and will then become payable.

The following performance fees apply in respect of the PF shares as at June 30, 2021.

	Performance fees	Target benchmark

Note 18 - Soft commission

Consistent with obtaining best execution, brokerage commissions on portfolio transactions for the Company may be directed by the Investment Managers to broker-dealers in recognition of research services furnished by them as well as for services rendered in the execution of orders by such broker-dealers.

The receipt of investment research and information and related services permits the Investment Managers to supplement their own research and analysis and makes available to them the views and information of individuals and research staffs of other firms.

Note 18 - Soft commission (continued)

Such services do not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payment, which are paid for directly by the Investment Managers.

Note 19 - Connected party transactions

Certain Directors of the Company are or may also be Officers and/or Directors of one or more of the various Investment Managers of the Funds, among others, Franklin Templeton Investimentos (Brasil) Ltda., Franklin Templeton Investments (Asia) Limited, Templeton Investment Counsel, LLC and Franklin Templeton Institutional, LLC. All transactions with connected parties were entered into in the ordinary course of business and under normal commercial terms. The investment management fees that are accrued by the Company in respect of the Management Company are detailed in note 16 to the financial statements.

There are no connected brokers in Franklin Templeton, and no transactions were entered into with connected brokers during the year ended June 30, 2021.

During the year ended June 30, 2021, the Company accrued administration and transfer agency fees and shares' maintenance and service charges in respect of Franklin Templeton International Services S.à r.l. as Management Company and Principal Distributor of the Funds.

Any investment in Cross Funds as defined in Note 3 or products issued by Franklin Templeton are made at normal market condition.

Note 20 - Taxation

Under current tax laws and practice, the Company is not liable in the Grand Duchy of Luxembourg to any taxes on income or on realised or unrealised capital gains.

The Company is liable in the Grand Duchy of Luxembourg to a tax of 0.05% per annum, such tax being paid quarterly, and calculated on the net asset value of each Fund at the end of each relevant quarter (except the Franklin Euro Short-Term Money Market Fund and the Franklin U.S. Dollar Short-Term Money Market Fund for which the rate is 0.01%). This tax is not applicable for the portion of the assets of a Fund invested in other undertakings for collective investment that have already been subject to such tax. Class I shares, Class X shares and Class Y shares may benefit from a reduced rate of 0.01% per annum if all shareholders of these share classes are institutional investors.

Investment income received or capital gains realised by the Company may be subject to tax in the countries of origin. All liabilities in respect of taxes payable on unrealised capital gains on investments are provided for as soon as there is a reasonable certainty that a liability will crystallise.

No stamp duty or other tax is payable in the Grand Duchy of Luxembourg on the issue of shares in the Company.

The Company is registered for Value Added Tax in the Grand Duchy of Luxembourg and subject to account for Value Added Tax in accordance with current laws.

Note 21 - Share classes

Class A shares: are offered at the applicable net asset value, plus an entry charge of up to 5.75% of the total amount invested varying per asset class. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor. A contingent deferred sales charge of up to 1%, retained by the Principal Distributor, applies to certain redemptions on qualified investments of USD 1 million or more within 18 months after repurchase.

Class AS shares: are offered in Singapore to CPF Investors as more fully described in the current prospectus of the Company. Class AS shares are offered at the applicable net asset value and are not subject to an entry charge. In addition, a maintenance charge of up to 0.40% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor.

Note 21 - Share classes (continued)

Class AX shares: are offered at the applicable net asset value, plus an entry charge of up to 5.75% of the total amount invested varying per asset class. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor. A contingent deferred sales charge of up to 1% applies to certain redemptions on qualified investments of USD 1 million or more within 18 months after repurchase.

Class B shares: As from April 1, 2016, no additional Class B Shares are issued. Class B Shares purchased by an Investor prior to April 1, 2016 are subject to a contingent deferred sales charge up to 4% if such investor sells shares within 4 years of purchase. In addition, a maintenance charge of up to 0.75% per annum of the applicable average net asset value and a servicing charge of 1.06% per annum of the applicable average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Starting from 2011, shares will be automatically converted into Class A shares of the same Fund 7 years after their purchase as more fully disclosed in the prospectus.

Class C shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of 1.00% if an investor redeems shares within one year of purchase. In addition, a maintenance charge of 1.08% per annum of the applicable average net asset value is deducted. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other party.

Class F shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of up to 3% if an investor redeems shares within three years of purchase. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value and a servicing charge of 1.00% per annum of the applicable average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Class F shares will be automatically converted into Class A shares of the same Fund free of charge on the monthly scheduled conversion date fixed by the Management Company upon or following the expiry of 36 months after the date of their purchase.

Class G shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of up to 3% if an investor redeems shares within three years of purchase. In addition, a maintenance charge of 0.10% per annum of the applicable average net asset value and a servicing charge of 1.00% per annum of the applicable average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Class G shares will be automatically converted into Class A shares of the same Fund free of charge on the monthly scheduled conversion date fixed by the Management Company upon or following the expiry of 36 months after the date of their purchase.

Class I shares: are offered to institutional investors as more fully described in the current prospectus of the Company. Purchases of Class I shares are not subject to an entry sales charge, nor a contingent deferred sales charge or any maintenance or servicing charges.

Class N shares: are subject to an entry charge of up to 3.00% of the total amount invested. In addition, a maintenance charge of up to 1.25% per annum of the applicable average net asset value is accrued daily and is deducted and paid monthly to the Principal Distributor. Class N shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class S shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class S shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class W shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class W shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class X shares: are not subject to an entry charge and no management fees will be payable by an investor on the acquisition of Class X shares (instead a fee is paid to the Investment Manager or affiliates under an agreement between the Investment Manager and the investor). Class X shares are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company.

Note 21 - Share classes (continued)

Class Y shares: are not subject to an entry charge and no management, registrar, transfer, corporate, domiciliary or administration fees will be payable by an investor on the acquisition of Class Y shares (instead a fee is paid to the Investment Manager or affiliates under an agreement between the Investment Manager and the investor). Class Y shares are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company.

Class Z shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class Z shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Distributing shares: may have different frequencies. (Mdis) share classes distribute monthly, (Qdis) share classes distribute quarterly, (Bdis) share classes distribute bi-annually and (Ydis) share classes distribute annually.

Accumulating shares (acc): do not distribute any dividends but the income attributable is reflected in the increased value of the shares. All other terms and conditions are the same as those which apply to distributing share classes.

Class pc shares: are distribution share classes designed to offer, under normal market conditions, dividend distribution at a fixed percentage of the Net Asset Value per Share or a fixed amount respectively.

Performance fee classes: are classes that are subject to performance fees and are denoted by the inclusion of "PF" in their names.

Hedged share classes: In respect of hedged share classes, the Company offers the following alternatives:

- H1: in order to reduce exchange rate fluctuations and return fluctuations, the base currency exposure of the hedged share class is hedged into a specified alternative currency.
- H2: a hedging strategy is applied in order to reduce the risk of currency movements between the currency of the hedged share class and other material currencies of the securities held by the Fund.
- H4: where currency controls imposed by a country's monetary authority prevent free movement of currency ("Restricted Currency"), another hedging methodology is used. The share class is denominated in the base currency of the Fund but hedges the Fund's base currency into a specified Restricted Currency for investors in that Restricted Currency.

Note 22 - Sundry Income

Where Sundry income exceeds 10% of total income the detailed breakdown is as follows:

	(USD)
Foreign tax reclaims	43,444,560
Prior budget write offs	953,339
Miscellaneous income	96,991
	44,494,890

Note 23 - Expenses reimbursement

On a daily basis, for share classes where the expenses are capped, the level of expenses is calculated and compared to the cap and where the level of expenses is higher than the cap, this difference is booked as a decrease of expense (the “waiver fees”). The performance fees do not form part of the capped expenses. On a monthly basis the waiver fees are deducted from the fees received by Franklin Templeton International Services S.à r.l.

The amount of waiver fees is disclosed as “Expenses reimbursement” in the “Statement of Operations and Changes in Net Assets”.

Note 24 - Other Charges

Where other charges exceeds 10% of total expenses the detailed breakdown is as follows:

For debt securities and derivatives, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

Note 27 - Equalisation

The Funds use an accounting practice known as equalisation, by which a portion of the proceeds from issues and the costs of sale of shares, equivalent on a per share basis to the amount of undistributed net investment income on the date of the transaction, is credited or charged to undistributed income. As a result, undistributed net investment income per share is unaffected by issues or redemptions of shares. However, in respect of any Fund offering only accumulation shares, the Board of Directors reserves the right not to apply equalisation.

Note 28 - Portfolio Turnover Ratio

The portfolio turnover ratio, expressed as a percentage, is equal to the total of purchases and sales of securities netted against the total value of subscriptions and redemptions, over average net assets of the Fund for a year. It is effectively a measure of how frequently a Fund buys or sells securities.

The portfolio turnover ratio calculation is not applicable to Liquid Reserve and Money Market Funds, as such a ratio is not relevant to such Funds due to the short-term nature of the investments.

Note 29 - Total Expense Ratio

The Total Expense Ratio (“TER”), expressed as a percentage, represents how the total annualised expenses of each share class relate to the average net assets of each share class for the year ended June 30, 2021. The total expenses comprise the investment management fees, the administration and transfer agency fees, the custodian fees and other expenses as summarised in the “Statement of Operations and Changes in Net Assets”.

For share classes launched during the year, the TER is annualised.

Note 30 - Audited annual reports and unaudited semi-annual reports

The audited annual reports and unaudited semi-annual reports will be available on the local Franklin Templeton Investments website, www.franklintempleton.lu or may be obtained, free of charge, on request at the registered office of the Company; they are only distributed to registered shareholders in those countries where local regulation so requires. The complete audited annual reports and unaudited semi-annual reports are available at the registered office of the Company.

Note 31 - Global Credit facility

Effective February 5, 2021, the Company together with other European and U.S. registered investment funds managed by Franklin Templeton Investments (individually, "Borrower"; collectively, "Borrowers"), entered into a joint syndicated senior unsecured credit facility totalling USD 2,675 million (Global Credit Facility) to provide a source of funds to the Borrowers for temporary and emergency purposes, including the ability, to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Company will, in addition to interest charged on any borrowings made by the company and other costs incurred by the Company, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee based upon the unused portion of the Global Credit Facility.

During the financial year ended June 30, 2021, the Company did not use the Global Credit Facility.

Note 33 - Other Information

Beginning in January 2020, global financial markets have experienced and may continue to experience significant volatility resulting from the spread of a novel corona virus known as COVID-19. The outbreak of COVID-19 has resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. The effects of COVID-19 have and may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may negatively impact the Fund's performance.

Note 34 - Significant changes during the year

On October 24, 2020 Franklin Templeton International Services S.à r.l. appointed J.P. Morgan Bank Luxembourg S.A. as the Administrative Agent for the Franklin Templeton Investment Funds. The sub-funds launched between May 2020 and October 2020 have been directly administered at JP Morgan and the existing sub-funds have migrated from the 25th of September 2020 to the 23rd of October 2020 in three tranches.

Note 35 - Subsequent events

On July 14, 2021, the Franklin Euro Short Term Money Market Fund has been closed.

On September 13, 2021, the Franklin World Perspectives Fund has been renamed Franklin Global Growth Fund.

Distressed securities

In line with the prospectus definition, distressed securities are to be understood as including defaulted securities, and securities that are being rated CCC or below by at least 2 ratings agencies, or if unrated, their equivalent and have a credit spread above 1,000 bps. However, with respect to securities with a credit spread higher than 1000 bps (irrespective of their credit rating), the Investment Manager will proceed to additional analyses and verifications notably based on the evolution of the security's credit spread and the rating provided by other credit agencies in order to assess whether this security should be requalified as a distressed security. This procedure is further described in the Management Company's risk management process.

The exposure to distressed securities as at June 30, 2021 is as follows:

Remuneration

Franklin Templeton International Services S.à r.l. ("FTIS"), as UCITS licensed management company (the "Management Company") has a remuneration policy (the "Policy") in place which applies to all UCITS funds (each a "UCITS" and together the "UCITS") under its management. The Policy has been designed to discourage excessive risk taking, integrating in its performance management systems risk criteria specific to the business units it covers. The policy has a governance structure aimed at preventing internal conflicts of interest.

There are defined procedures in place for the creation, update, review and approval of the Policy as well as for communication and implementation of the Policy. Senior Management, Human Resources, Compliance and other functions are all involved in this process and the Policy is approved by Senior Management and the Board of Directors of the Management Company.

Fixed remuneration is defined as base salary plus other benefits which may include pension contributions, life assurance premiums or private medical insurance premiums. Levels of fixed remuneration are set with reference to job complexity, level of responsibility, performance and market benchmarking data. These levels are reviewed on a regular basis.

Variable remuneration is defined as annual bonuses, long term awards in the form of performance share grants or sales bonus payments. Levels of variable remuneration are set with reference to overall corporate and business unit performance as well as individual performance.

The full Policy is available at the registered office of the Management Company. Quantitative information relevant to the Franklin Templeton Investment Funds is outlined below.
