Share Class Naming Convention

As noted in the Prospectus, under the naming convention adopted by the Company in respect of the naming of Share Classes (the “Naming Convention”), the letters set out below have the following significance: Not all combinations of share class characteristics as listed in the table below will be available for subscription, for example “L” and “M” share classes are not available in every Portfolio:

<i>Categories of Investor</i>	
D	These Share Classes will generally have a higher management fee, performance fee and/or a lower minimum subscription amount than other Share Classes in the Company.
I	These Share Classes will generally have a lower management fee, performance fee and/or a higher minimum subscription amount than Share Classes with the “D” designation. “I” Shares Classes may only be acquired with the consent of the Manager in the case of investment through Distributors or Intermediaries that, according to regulatory requirements or based on individual fee arrangements with their clients, are not allowed to accept or retain trail commissions.
R	These Share Classes will generally have a higher initial management fee than other Share Classes in the Company. A portion of the initial management fee may be paid to distributors or intermediaries in respect of distributors’ costs and/or commissions. The initial management fee may be reduced, at the discretion of the Manager, upon the introduction of certain regulatory changes which prohibit the payment of distributor’s costs and/or commissions in the jurisdiction(s) in which the majority of the holders of Share Classes with the “R” designation are domiciled. Following any such reduction of the initial management fee, it is expected that no further payments will be made to distributors or intermediaries in respect of distributors’ costs and commissions.
<i>Hedging Policy</i>	
H	Hedged Share Classes. These Share Classes will be hedged against the Base Currency of a Portfolio where they are denominated in a currency other than the Base Currency.
C	These Share Classes will offer currency exposure, otherwise described as amended currency risk, as explained in the section of this Prospectus titled ‘Currency Exposure Share Classes’.
<i>Performance Fee methodology</i>	
E	Equalisation Share Classes. The performance fee in respect of such Classes shall be subject to the equalisation provisions set out in further detail in the “Fees and Expenses” section of the Prospectus.
L	LIBOR Benchmark Classes. The performance fee in respect of such Classes shall be based on outperformance of the relevant LIBOR rate in the relevant currency (ie USD LIBOR, GBP LIBOR, JPY LIBOR or EURIBOR) set out in the “Portfolio Specific Information – Investment Objectives and Policies” section of the relevant Supplement and the “Fees and Expenses” section of the Prospectus.
M	Market/Index Benchmark Classes. The performance fee in respect of such Classes shall be based on outperformance of the relevant market or index or fixed rate return set out in the “Portfolio Specific Information – Investment Objectives and Policies” section of the relevant Supplement and the “Fees and Expenses” section of the Prospectus.
N	Non-Benchmarked Classes. The performance fee in respect of such Classes shall be based on aggregate appreciation in the value of the relevant Classes, subject to the provisions in the “Fees and Expenses” section of the Prospectus regarding outperformance of the relevant Reference NAV.
<i>Fee Indicators</i>	
X	These Share Classes will generally have a lower management fee, performance fee and/or a higher minimum subscription amount than Share Classes with the “D” or “I” designation.
F	These Share Classes are intended for early and seed investors into the relevant Portfolio and further details of their availability is set out in the “Subscriptions” section of the Prospectus and the relevant Supplement, as required.
Y	These Share Classes may have a different fee structure as set out in the tables in respect of the relevant Portfolio in the sub-sections of the relevant Supplement headed “Portfolio Specific Information – Management and Performance Fees”, a portion of which may be paid to distributors.
U	These Share Classes may have a different fee structure as set out in the tables in respect of the relevant Portfolio in the sub-sections of the relevant Supplement headed “Portfolio Specific Information – Management and Performance Fees”. These Share Classes may be limited to certain investors, either by region or type, at the Investment Manager’s discretion.

Z	These Share Classes may have a different fee structure as set out in the table in the section of the relevant Supplement entitled "Portfolio Specific Information – Investment Objectives and Policies" and "Fees and Expenses" section of the Prospectus and relevant Supplement and will generally have a higher performance fee and a higher minimum subscription amount than other Share Classes. This Share Class category has the ability to create Share Classes with variable fee loads up to the maximum management and performance fee levels whereby higher performance fees will be aligned with a lower management fee. The specific Z Share Classes established will each be subject to the prior approval of the Central Bank. These Share Classes may be limited to certain investors, either by region or type, at the Investment Manager's discretion.

Please see the "Distribution Policy" section for more detail in this regard, including the specific naming convention applied to Net-Dist Share Classes.
G-Dist	The policy of these Dist Share Classes is to distribute from net income for the relevant accounting period before the deduction of fees, charges and expenses.
