What is this product?

Type

This product is a share in a sub-fund of the investment company with variable capital ECONOPOLIS FUNDS, an undertaking for collective investment in transferable securities (UCITS) under Luxembourg law.

Term

This sub-fund has no maturity date. However, the board of directors of the fund may decide to close the sub-fund under certain circumstances.

Objectives

The sub-fund's objective is to offer its shareholders long-term capital gains. This objective will be pursued by investing the sub-fund's assets primarily in equity instruments of issuers, which have their registered office, or carry out a significant part, or growing part of their business in emerging markets (i.e. countries included in the MSCI Emerging Markets Index). The sub-fund must hold at least 90% of its net assets in equities.

The sub-fund invests mainly in equity positions that have their principal place of business and/or are listed in emerging markets or have substantial business exposure to such emerging markets or equivalents of equity positions (e.g. P-Notes or other similar instruments that provide equity like exposure related to markets which are hard to access) and cash or cash equivalent instruments. There are no limits or restrictions regarding currencies, geographical regions or other specific economic or industrial sectors or niches.

The sub-fund may, subject to the limits defined by law, invest in financial derivative products, including, for example, futures, options, forward exchange contracts in order to achieve the investment objectives and for risk hedging purposes.

The sub-fund promotes environmental or social characteristics. For this sub-fund, a sustainable investment policy is in place, which can be consulted on <https://www.econopolis.be/en/sustainability>. Additional information on sustainability is available in the prospectus of the fund.

Benchmark: The portfolio is actively managed on a discretionary basis without reference to a benchmark.

Intended retail investor

This product is designed for investors who are willing to achieve income and capital growth and have a medium to long term horizon. The investor is able to bear losses up to the invested amount. This product is appropriate for investors with a comprehensive to advanced knowledge and experience of the product and the emerging equity markets. This product is reserved for institutional investors as defined in article 174 of the Law of 2010 on undertakings for collective investment.

Other information

Depository: Banque de Luxembourg

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in shares of one sub-fund into shares of the same sub-fund or another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the Management Company or on www.conventumtps.lu. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The Management Company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2017 and this share class in 2017.

The currency of the share class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Other risk factors might exist.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Recommended holding period: 5 years

Example investment: 10,000 EUR

		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	4,650 EUR	3,790 EUR
	Average return each year	-53.5%	-17.6%
Unfavourable	What you might get back after costs	7,210 EUR	7,950 EUR
	Average return each year	-27.9%	-4.5%
Moderate	What you might get back after costs	10,450 EUR	10,660 EUR
	Average return each year	4.5%	1.3%
Favourable	What you might get back after costs	14,740 EUR	17,280 EUR
	Average return each year	47.4%	11.6%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment be-

tween October 2017 and October 2022, by referring to a benchmark.

Moderate scenario: This type of scenario occurred for an investment between January 2020 and January 2025.

Favourable scenario: This type of scenario occurred for an investment between January 2016 and January 2021, by referring to a benchmark.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if BLI – Banque de Luxembourg Investments, acting under the commercial name Conventum Third Party Solutions is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Banque de Luxembourg. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	120 EUR	647 EUR
Annual cost impact (*)	1.2%	1.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.5% before costs and 1.3% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
