## Other notes to the financial statements

### 2 - Principal accounting policies

#### 2.1 - Foreign currency translation

The market value of investments, other assets, and liabilities expressed in currencies other than the reporting currency of the related Sub-Fund, have been converted at the rates of exchange prevailing at the date of these financial statements.

Transactions occurring during the year in currencies other than the reporting currency of the related Sub-Fund have been converted at the rates of exchange prevailing at the date of the transaction.

Exchange profits and losses resulting from the sale of investments and other foreign currency exchange differences relating to monetary items, including cash, are included in the Statement of operations and changes in net assets in the account "Net realised profit / (loss) on foreign exchange".

The exchange rates used as at December 31, 2025 are as follows:

1 EUR =	0.93114	CHF	1 EUR =	0.8719	GBP	1 EUR =	3.7426	ILS
1 EUR =	10.8216	SEK	1 EUR =	1.1751	USD			

### 3 - Performance fees

#### Calculation Period

The Calculation Period for the Performance Fees (if any) of all Sub-Funds is the calendar year.

In case of a Share Class Launch during the calendar year, the initial Calculation Period in respect of such Share Class will commence on the Launch Date of the Class and end on the last Business Day of the calendar year in which such Launch Date occurs.

#### ALPHA UCITS SICAV - Amber Equity Fund

The Investment Manager is entitled to a Performance Fee from the Sub-Fund calculated on a Share-by-Share basis so that each Share is charged a Performance Fee which equates precisely with that Share's performance. This method of calculation ensures that (i) any Performance Fee paid to the Investment Manager is charged only to those Shares which have appreciated in value, (ii) all holders of Shares of the relevant class have the same amount of capital per Share at risk in the Sub-Fund, and (iii) all Shares of the relevant class have the same Net Asset Value per Share.

For each Calculation Period, the Performance Fee in respect of each Class is equal to 20% of any appreciation in the Net Asset Value per Share (prior to reduction of any accrued Performance Fee) of such Class during that Calculation Period above the High Water Mark of that Share, as measured at the end of the Calculation Period (the Net Profit). The Performance Fee in respect of each Calculation Period is calculated by reference to the Net Asset Value before deduction for any accrued Performance Fee.

The Performance Fee is normally payable to the Investment Manager in arrears at the end of each Calculation Period within seven Business Days after the end of such Calculation Period. However, in the case of Shares redeemed during a Calculation Period, the Performance Fee in respect of those Shares is calculated as if the date of redemption of such Shares were the end of the Calculation Period and will become payable immediately after the relevant Transaction Day.

If the Sub-Fund is terminated before the end of a Calculation Period, the Performance Fee in respect of the Calculation Period is calculated and paid as though the date of termination were the end of the relevant Calculation Period.

Transfers of Shares is treated as redemption and subscription for Performance Fee calculation purposes. Such treatment will result in the crystallization of any Performance Fee due to holding at such time, in relation to the transferred Shares.

For the class A shares, B shares and D shares, the Performance Fee is equal to 20% of the Net Profit above the High Water Mark out of the assets of the Sub-Fund. Class C shares are not subject to a performance fee.

The performance fees accrued as at December 31, 2025 amounts to EUR 1,596,815.35. Please see the table at page 63 (note n. 3)

#### ALPHA UCITS SICAV - Fair Oaks Dynamic Credit Fund

The Investment Manager is entitled to be paid a Performance Fee with respect to the Sub-Fund calculated on a Share-by-Share basis so that each Share is charged a Performance Fee which equates to that Share's performance.

For each Calculation Period, the Performance Fee in respect of each Class is equal to a percentage of the difference (only to the extent positive) between 1) any appreciation in the Net Asset Value per Share (prior to reduction of any accrued Performance Fee) of such Class during that Calculation Period above the High Water Mark of that Class, as measured at the end of the Calculation Period (the Net Profit) less 2) the performance of the Hurdle Rate during that Calculation Period. The Performance Fee in respect of each Calculation Period is calculated by reference to the Net Asset Value before deduction for any accrued Performance Fee.

The Performance Fee is normally payable to the Investment Manager in arrears at the end of each Calculation Period within seven Business Days after the end of such Calculation Period. However, in the case of Shares redeemed during a Calculation Period, the Performance Fee in respect of those Shares is calculated as if the date of redemption of such Shares were the end of the Calculation Period and will become payable immediately after the relevant Transaction Day.

If the Sub-Fund is terminated before the end of a Calculation Period, the Performance Fee in respect of the Calculation Period is calculated and paid as though the date of termination were the end of the relevant Calculation Period.

### 3 - Performance fees

#### ALPHA UCITS SICAV - Fair Oaks Dynamic Credit Fund (continued)

Transfers of Shares is treated as redemption and subscription for Performance Fee calculation purposes. Such treatment will result in the crystallization of any Performance Fee due to holding at such time, in relation to the transferred Shares.

There is no performance fee charged for the class C shares, class E shares, class K shares, class L shares, class M shares, class N shares, class O shares, class Q shares, class R shares and class S shares. For the class A shares and class D shares, the Performance Fee is equal to 10% of the Net Profit above the High Water Mark out of the assets of the Sub-Fund.

The performance fees accrued as at December 31, 2025 amounts to EUR 216,942.17.

#### ALPHA UCITS SICAV - Fair Oaks AAA CLO Fund

The Investment Manager is entitled to be paid a Performance Fee with respect to the Sub-Fund calculated on a Share-by-Share basis so that each Share is charged a Performance Fee which equates to that Share's performance.

For each Calculation Period, the Performance Fee in respect of each Class is equal to a percentage of the difference (only to the extent positive) between 1) any appreciation in the Net Asset Value per Share (prior to reduction of any accrued Performance Fee) of such Class during that Calculation Period above the High Water Mark of that Class, as measured at the end of the Calculation Period (the Net Profit) less 2) the performance of the Hurdle Rate during that Calculation Period. The Performance Fee in respect of each Calculation Period is calculated by reference to the Net Asset Value before deduction for any accrued Performance Fee.

The Performance Fee is normally payable to the Investment Manager in arrears at the end of each Calculation Period within seven Business Days after the end of such Calculation Period. However, in the case of Shares redeemed during a Calculation Period, the Performance Fee in respect of those Shares is calculated as if the date of redemption of such Shares were the end of the Calculation Period and will become payable immediately after the relevant Transaction Day.

If the Sub-Fund is terminated before the end of a Calculation Period, the Performance Fee in respect of the Calculation Period is calculated and paid as though the date of termination were the end of the relevant Calculation Period.

Transfers of Shares is treated as redemption and subscription for Performance Fee calculation purposes. Such treatment will result in the crystallization of any Performance Fee due to holding at such time, in relation to the transferred Shares.

No share classes with Performance Fees have been launched so far.

#### ALPHA UCITS SICAV - Fair Oaks CLO Mezzanine Opportunities Fund

The Investment Manager will also be entitled to be paid a Performance Fee with respect to the Sub-fund calculated on a Share-by-Share basis so that each Share is charged a Performance Fee which equates to that Share's performance.

For each Calculation Period (as defined below), the Performance Fee in respect of each Class will be equal to a percentage (as defined above in the Share Class table in "Performance Fee") of the difference (only to the extent positive) between 1) any appreciation in the Net Asset Value per Share (prior to reduction of any accrued Performance Fee) of such Class during that Calculation Period above the High Water Mark (as defined below) of that Class, as measured at the end of the Calculation Period (the **Net Profit**) less 2) the performance of the Hurdle Rate (as defined below) during that Calculation Period. The Performance Fee in respect of each Calculation Period will be calculated by reference to the Net Asset Value before deduction for any accrued Performance Fee.

The Performance Fee is normally payable to the Investment Manager in arrears at the end of each Calculation Period within seven Business Days after the end of such Calculation Period. However, in the case of Shares redeemed during a Calculation Period, the Performance Fee in respect of those Shares will be calculated as if the date of redemption of such Shares were the end of the Calculation Period and will become payable immediately after the relevant Transaction Day.

If the Fair Oaks Fund is terminated before the end of a Calculation Period, the Performance Fee in respect of the Calculation Period will be calculated and paid as though the date of termination were the end of the relevant Calculation Period.

Transfers of Shares will be treated as redemption and subscription for Performance Fee calculation purposes. Such treatment will result in the crystallisation of any Performance Fee due to holding at such time, in relation to the transferred Shares. The Performance Fee is calculated and accrued on every Transaction Day.

No share classes with Performance Fees have been launched so far.
