Vanguard EUR Corporate Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard EUR Corporate Bond UCITS ETF seeks to track the performance of the Bloomberg Euro-Aggregate: Corporates Index, a widely recognised benchmark designed to reflect the total universe of publicly traded, fixed-coupon, euro-denominated, investment-grade corporate bonds with maturities greater than 1 year and a minimum issue size of €300 million.

Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the 12 months ended 30 June 2024, with stocks registering especially strong returns.
- Early in the period, many central banks, including the US Federal Reserve, the European Central Bank and the Bank of England, ended a streak of hiking short-term interest rates. Progress on inflation and the prospect that rates may have peaked helped buoy financial markets, with bonds posting strong gains in November and December.
- Although global stocks continued to rally into 2024, bonds gave back some ground. The Bank of Canada and the European Central Bank were among the central banks that began cutting rates towards the end of the period, but others including the Federal Reserve and the Bank of England waited for inflation to fall closer to their 2% target.
- Global bonds finished the period in positive territory.
- The ETF's benchmark index returned 6.45% for the 12 months.
- Among the largest constituents in the index, Sweden, Switzerland, Belgium and Italy outperformed. Among the laggards were the United States, France and Japan.
- By sector, bonds issued by financial institutions returned more than those issued by industrial companies and utilities.
- By credit quality, bonds on the bottom rung of the investment-grade ladder returned more than their higher-rated counterparts. By maturity, results were mixed.

Benchmark returns in the commentary above are in euros.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

Vanguard EUR Eurozone Government Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard EUR Eurozone Government Bond UCITS ETF seeks to track the performance of the Bloomberg Euro-Aggregate: Treasury Index, a widely recognised benchmark designed to reflect the total universe of publicly traded, fixed-coupon, euro-denominated euro zone treasury securities with maturities greater than 1 year and a minimum issue size of €300 million.

Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the 12 months ended 30 June 2024, with stocks registering especially strong returns.
- Early in the period, many central banks, including the US Federal Reserve, the European Central Bank and the Bank of England, ended a streak of hiking short-term interest rates. Progress on inflation and the prospect that rates may have peaked helped buoy financial markets, with bonds posting strong gains in November and December.
- Although global stocks continued to rally into 2024, bonds gave back some ground. The Bank of Canada and the European Central Bank were among the central banks that began cutting rates towards the end of the period, but others including the Federal Reserve and the Bank of England waited for inflation to fall closer to their 2% target.
- Global bonds finished the period in positive territory. In this environment, the ETF's benchmark index returned 2.44% for the fiscal year.
- Among the countries with relatively large weightings in the index, Italy and Spain outperformed the benchmark, while Germany and France underperformed.
- By maturity, shorter-dated bonds performed the best. From a credit-quality perspective, lower-rated bonds did the best.

Benchmark returns in the commentary above are in euros.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

Vanguard Global Aggregate Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard Global Aggregate Bond UCITS ETF seeks to track the performance of the Bloomberg Global Aggregate Float Adjusted and Scaled Index, a widely recognised benchmark designed to reflect the characteristics of the global aggregate bond universe.

Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the 12 months ended 30 June 2024, with stocks registering especially strong returns.
- Early in the period, many central banks, including the US Federal Reserve, the European Central Bank and the Bank of England, ended a streak of hiking short-term interest rates. Progress on inflation and the prospect that rates may have peaked helped buoy financial markets, with bonds posting strong gains in November and December.
- Although global stocks continued to rally into 2024, bonds gave back some ground. The Bank of Canada and the European Central Bank were among the central banks that began cutting rates towards the end of the period, but others including the Federal Reserve and the Bank of England waited for inflation to fall closer to their 2% target.
- Global bonds finished the period in positive territory. In this environment, the ETF's benchmark index returned 3.83% for the fiscal year.
- By country, the United States, the largest constituent in the index by far, underperformed the index, returning 2.80%. The UK, Italy, Germany, Canada and France all outperformed.
- By sector, corporate and non-corporate bonds fared better than government bonds and US mortgage-backed securities.
- By credit quality, bonds on the bottom rung of the investment-grade ladder tended to perform the best. By maturity, short-dated bonds outperformed.

Benchmark returns in the commentary above are in US dollars.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

Vanguard U.K. Gilt UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard U.K. Gilt UCITS ETF seeks to track the performance of the Bloomberg Sterling Gilt Float Adjusted Index, a market-weighted index of UK government fixed income securities denominated in pound sterling.

Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the 12 months ended 30 June 2024, with stocks registering especially strong returns.
- Early in the period, many central banks, including the US Federal Reserve, the European Central Bank and the Bank of England, ended a streak of hiking short-term interest rates. Progress on inflation and the prospect that rates may have peaked helped buoy financial markets, with bonds posting strong gains in November and December.
- Although global stocks continued to rally into 2024, bonds gave back some ground. The Bank of Canada and the European Central Bank were among the central banks that began cutting rates towards the end of the period, but others including the Federal Reserve and the Bank of England waited for inflation to fall closer to their 2% target.
- Global bonds finished the period in positive territory. In this environment, the ETF's benchmark index returned 4.47% for 12 months.
- To combat inflation, UK monetary policy remained restrictive throughout the period, with the Bank of England keeping its policy rate steady at 5.25%. The UK Consumer Price Index declined significantly, falling from nearly 8% in June 2023 on an annualised basis to 2% in May 2024.
- Short-dated gilts generally performed the best, with those maturing in less than 10 years returning more than 6% and those maturing in more than 30 years finishing in negative territory.
- As a whole, gilts underperformed the broad UK investment-grade bond market, which returned more than 6%, as measured by the Bloomberg Sterling Aggregate Index.

Benchmark returns in the commentary above are in British pounds.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

Vanguard U.S. Treasury 0–1 Year Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard U.S. Treasury 0–1 Year Bond UCITS ETF seeks to track the performance of the Bloomberg Short Treasury Index, a widely recognised benchmark designed to measure the performance of US dollar-denominated bonds paying a fixed rate of interest issued by the US government.

Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the 12 months ended 30 June 2024, with stocks registering especially strong returns.
- Early in the period, many central banks, including the US Federal Reserve, the European Central Bank and the Bank of England, ended a streak of hiking short-term interest rates. Progress on inflation and the prospect that rates may have peaked helped buoy financial markets, with bonds posting strong gains in November and December.
- Although global stocks continued to rally into 2024, bonds gave back some ground. The Bank of Canada and the European Central Bank were among the central banks that began cutting rates towards the end of the period, but others including the Federal Reserve and the Bank of England waited for inflation to fall closer to their 2% target.
- Global bonds returned 0.93% for the period, as measured by the Bloomberg Global Aggregate Bond Index in US dollars.
- The ETF's benchmark index returned 5.42% for the 12 months ended 30 June 2024, outperforming US Treasuries as a whole.
- Overall, however, US Treasuries underperformed the broad US investment-grade bond market, which returned 2.73% as measured by the Bloomberg U.S. Aggregate Float Adjusted Index.

Benchmark returns in the commentary above are in US dollars.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

Vanguard USD Corporate 1–3 Year Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard USD Corporate 1–3 Year Bond UCITS ETF seeks to track the performance of the Bloomberg Global Aggregate Corporate – United States Dollar Index 1–3 Year, a widely recognised benchmark designed to reflect the total universe of publicly traded, fixed-coupon, US dollar-denominated corporate debt securities with maturities of between 1 and 3 years.

Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the 12 months ended 30 June 2024, with stocks registering especially strong returns.
- Early in the period, many central banks, including the US Federal Reserve, the European Central Bank and the Bank of England, ended a streak of hiking short-term interest rates. Progress on inflation and the prospect that rates may have peaked helped buoy financial markets, with bonds posting strong gains in November and December.
- Although global stocks continued to rally into 2024, bonds gave back some ground. The Bank of Canada and the European Central Bank were among the central banks that began cutting rates towards the end of the period, but others including the US Federal Reserve and the Bank of England waited for inflation to fall closer to their 2% target.
- Global bonds returned 0.93% for the period, as measured by the Bloomberg Global Aggregate Bond Index in US dollars.
- The ETF's benchmark index posted a return of 6.01% for the 12 months ended 30 June 2024.
- US corporate bonds outperformed the broad US investment-grade bond market, which returned 2.73%, as measured by the Bloomberg U.S. Aggregate Float Adjusted Index.
- For the fund's index, bonds issued by financial institutions returned more than those issued by industrial companies and utilities.
- By credit quality, bonds on the bottom rung of the investment-grade ladder performed better than their higher-rated counterparts.

Benchmark returns in the commentary above are in US dollars.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

Vanguard USD Corporate Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard USD Corporate Bond UCITS ETF seeks to track the performance of the Bloomberg Global Aggregate Corporate – United States Dollar Index, a widely recognised benchmark designed to reflect the total universe of publicly traded, fixed-coupon, US dollar-denominated investment-grade corporate bonds with maturities greater than 1 year and a minimum issue size of \$250 million.

Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the 12 months ended 30 June 2024, with stocks registering especially strong returns.
- Early in the period, many central banks, including the US Federal Reserve, the European Central Bank and the Bank of England, ended a streak of hiking short-term interest rates. Progress on inflation and the prospect that rates may have peaked helped buoy financial markets, with bonds posting strong gains in November and December.
- Although global stocks continued to rally into 2024, bonds gave back some ground. The Bank of Canada and the European Central Bank were among the central banks that began cutting rates towards the end of the period, but others including the Federal Reserve and the Bank of England waited for inflation to fall closer to their 2% target.
- Global bonds returned 0.93% for the period, as measured by the Bloomberg Global Aggregate Bond Index in US dollars.
- The ETF's benchmark index returned 4.96% for the 12 months ended 30 June 2024.
- By sector, bonds issued by financial institutions returned more than those issued by industrial companies and utilities.
- By credit quality, bonds on the bottom rung of the investment-grade ladder returned more than their higher-rated counterparts. By maturity, shorter-dated bonds performed best.

Benchmark returns in the commentary above are in US dollars.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

Vanguard USD Emerging Markets Government Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard USD Emerging Markets Government Bond UCITS ETF seeks to track the performance of the Bloomberg EM USD Sovereign + Quasi-Sov Index, a widely recognised benchmark designed to reflect the total universe of US dollar-denominated publicly traded debt (with maturities greater than 1 year and a minimum issue size of \$500 million) issued by sovereign and quasi-sovereign emerging-market issuers. Quasi-sovereign issuers include entities that are government-guaranteed and/or government-sponsored, entities that are more than 50% government-owned and local authorities.

Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the 12 months ended 30 June 2024, with stocks registering especially strong returns.
- Early in the period, many central banks, including the US Federal Reserve, the European Central Bank and the Bank of England, ended a streak of hiking short-term interest rates. Progress on inflation and the prospect that rates may have peaked helped buoy financial markets, with bonds posting strong gains in November and December.
- Although global stocks continued to rally into 2024, bonds gave back some ground. The Bank of Canada and the European Central Bank were among the central banks that began cutting rates towards the end of the period, but others including the Federal Reserve and the Bank of England waited for inflation to fall closer to their 2% target.
- Global bonds finished the period in positive territory. In this environment, the ETF's benchmark index returned 8.04% for the fiscal year.
- More than half of the benchmark's assets at the end of the period consisted of sovereign debt, which returned 8.88%. Another large share of the assets was invested in securities issued by foreign agencies, which returned 6.46%.
- Among the markets with larger weightings in the index, Argentina, Turkey and Colombia outperformed the benchmark as a whole. China, Saudi Arabia and Mexico, among others, underperformed the benchmark as a whole.
- Results by maturity were mixed. Bonds due in 10 to 15 years performed the best, while the longest-dated bonds performed the worst. By credit quality, lower-quality bonds performed better than their higher-quality counterparts.

Benchmark returns in the commentary above are in US dollars.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

Vanguard USD Treasury Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard USD Treasury Bond UCITS ETF seeks to track the performance of the Bloomberg Global Aggregate U.S. Treasury Float Adjusted Index, a widely recognised benchmark designed to reflect the total universe of publicly traded, fixed-coupon, US dollar-denominated US Treasury securities with maturities greater than 1 year and a minimum issue size of \$300 million.

Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the 12 months ended 30 June 2024, with stocks registering especially strong returns.
- Early in the period, many central banks, including the US Federal Reserve, the European Central Bank and the Bank of England, ended a streak of hiking short-term interest rates. Progress on inflation and the prospect that rates may have peaked helped buoy financial markets, with bonds posting strong gains in November and December.
- Although global stocks continued to rally into 2024, bonds gave back some ground. The Bank of Canada and the European Central Bank were among the central banks that began cutting rates towards the end of the period, but others including the Federal Reserve and the Bank of England waited for inflation to fall closer to their 2% target.
- Global bonds returned 0.93% for the period, as measured by the Bloomberg Global Aggregate Bond Index in US dollars.
- The ETF's benchmark index returned 1.55% for the 12 months ended 30 June 2024. That was less than the broad US investment-grade bond market, which returned 2.73%, as measured by the Bloomberg U.S. Aggregate Float Adjusted Index.
- US Treasuries with maturities of less than 5 years gained more than 4%, while those maturing in 20 to 30 years fell by more than 7%.

Benchmark returns in the commentary above are in US dollars.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

Notes to the Financial Statements

1. General Information. Vanguard Funds plc, an open-ended investment company with variable capital, was incorporated in Ireland as a public limited company on 24 May 2011. The Company is authorised by the Central Bank of Ireland (the “Central Bank”) as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) and the Central Bank (Regulations and Enforcement Act 2013 (section 48(1)) (undertakings for Collective Investment in Transferable Securities) Regulations, 2019.

The Company issues shares as “ETF Shares” that are intended to be actively traded on a secondary market. Vanguard LifeStrategy 20% Equity UCITS ETF, Vanguard LifeStrategy 40% Equity UCITS ETF, Vanguard LifeStrategy 60% Equity UCITS ETF and Vanguard LifeStrategy 80% Equity UCITS ETF (the “Asset Allocation Funds”) primarily invest in underlying collective investment schemes. To achieve the targeted allocation of assets of their investment objectives, the Asset Allocation Funds substantially invest in other Funds of the Company.

The Company is organised as an umbrella fund with segregated liabilities between funds. During the year ended 30 June 2024 the Company had 34 constituent funds, 5 closed funds and 1 that has not yet commenced trading (each a “Fund”, collectively the “Funds”).

2. Basis of Presentation. The financial statements are prepared in accordance with accounting standards generally accepted in Ireland, including Financial Reporting Standard ("FRS") 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland issued by the Financial Reporting Council (the "FRC"), Irish statute comprising the Companies Act 2014, as amended, the UCITS Regulations, the CBI UCITS Regulations and the Listing Rules of the Euronext Dublin.

To more appropriately reflect the Company's business as an investment fund, the Company has determined that the headings and sub-headings of the financial statements require adaptation from the requirements in the Companies Act 2014 and certain wordings and format of the financial statements have been adapted from those contained in FRS 102, Section 3.

A Cash Flow Statement has not been presented due to the exemption contained in FRS 102, Section 7.1A.

The information required by FRS 102 to be included in a statement of comprehensive income is contained in the Statement of Operations of each Fund and the Company.

The financial statements have been prepared on a going concern basis, subject to the historical cost convention, as modified by the revaluation of financial assets and liabilities at fair value through profit or loss ("FVTPL").

Cross Investments. The Asset Allocation Funds invest in other Funds of the Company, which are disclosed in each Fund's Statement of Investments. These cross investments and any related movements in realised or unrealised gains and losses on these investments have been eliminated in the Company's financial statements (30 June 2023: same).

3. Significant Accounting Policies.

(a) Critical Accounting Estimates and Judgements. The preparation of these financial statements requires the use of certain accounting estimates and requires the Company to exercise judgement when applying the Funds' accounting policies. The estimates and associated judgements are based on historical experience and various other factors that are believed to be reasonable under the circumstances, which affect the classification of financial assets and liabilities, the carrying values of financial instruments, the fair value of certain financial instruments in instances where information is not readily apparent from other sources, as well as the functional currency of the Company and Funds. Refer to Note 3(d), Note 3 (e) and Note 3 (g) for further information.

(b) Income Recognition. Dividends, whether cash or stock, are recognised as income when the securities are quoted ex-dividend. Special dividends are treated as either capital or income depending on the facts of each particular case. Income arising from collective investment schemes is recognised when the securities are quoted ex-dividend or when sufficient relevant and reliable information that establishes a right to this income has been obtained. Where income from collective investment schemes is reported in lieu of a distribution, such as when the units are held in an accumulation form, the amount reported is recognised as income. Equalisation returned with the distribution is deducted from the cost of the investment and does not form part of the distributable income.

In the case of debt securities, any difference between acquisition cost and maturity value is recognised as interest income over the life of the security using the effective yield basis of calculating amortisation.

The treatment of returns from financial derivative instruments is dependent upon the nature of the transaction. Returns are treated as Net Gains/Losses on Financial Instruments or income, as appropriate.

Interest income on cash is recognised on an effective interest basis.

Securities-lending income is recognised on an accrual basis.

All income is recognised gross of any withholding taxes incurred.

(c) Taxation. Current tax is recognised as the amount of income tax paid or payable in respect of the taxable overseas net profit. Deferred taxation is provided on all timing differences that have originated but not reversed by the reporting date. Deferred tax is measured at the rates expected to apply for the year in which the timing differences will reverse. Deferred taxes are not discounted to reflect the time value of money and are only recognised to the extent they are expected to crystallise. Deferred tax asset is not recognised unless the future economic benefit is certain.

Withholding taxes on foreign dividends and capital gains have been provided for in accordance with the Funds' understanding of the applicable countries' tax rules and rates and are shown as a separate line item in the Statement of Operations.

(d) Financial Assets and Financial Liabilities. FRS 102 requires a reporting entity to apply either (a) the full requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments Issues; (b) the recognition and measurement provisions of International Accounting Standards ("IAS") 39, Financial Instruments: Recognition and Measurement, and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments; or (c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9, Financial Instruments, and the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments. The Company has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of FRS 102.

Classification and Measurement. Financial instruments, which includes investments in transferable securities and financial derivative investments, are held for trading and classified and measured at FVTPL from their initial recognition. Gains and losses arising from changes in the fair value of financial assets or financial liabilities at fair value through profit or loss are presented as part of the Net Gains/Losses on Financial Instruments in the Statement of Operations, in the period in which they arise. Redeemable participating shares are classified as financial liabilities at amortised cost and are measured at the present value of the redemption amounts, which approximates their fair value. All other financial assets and liabilities are measured at amortised cost using effective interest method, which approximates fair value.

Recognition and De-Recognition. Financial assets and financial liabilities are recognised when the Funds become a party to the contractual provision of the instruments. Purchases and sales of financial instruments are recognised on the trade date, being the date on which the Fund commits itself to the purchase or sale. Financial assets are de-recognised when the contractual rights to the cash flows from the instruments expire, or when substantially all the risks and rewards of ownership have been transferred. Financial liabilities are de-recognised when the Funds contractual obligation are discharged, cancelled or expired.

When financial instruments are de-recognised, the realised gains and losses identified are recognised as part of the Net Gains/Losses on Financial Instruments in the Statement of Operations.

(e) Fair Value Measurement. Financial instruments are measured at fair value using a three-level hierarchy. Instruments are categorised in their entirety based on the lowest level input that is significant to the fair value measurement. Assessing the significance and observability of a particular input requires significant judgement specific to an asset or liability. Inputs are considered to be observable when they are readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

Level 1 — Quoted prices in active markets for identical securities.

Level 2 — Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including the Fund's own assumptions used to determine the fair value of investments).

Equities. Equities (including warrants and rights) are valued at the latest available last traded value at year-end. Instruments traded on a recognised market are valued on the basis of valuations provided by a principal market maker or a pricing service. When applicable, unlisted and suspended instruments are based on the Investment Manager's assessment of their net realisable value or the last traded price from broker-dealers for non-exchange-trade purposes.

Collective Investment Schemes. Collective investment schemes ("CIS") are valued at their single price if a single price for buying and selling units or shares is quoted and the bid price if separate buying and selling prices are quoted. If, in the opinion of the Board of Directors or its appointed competent person, no reliable price exists at the relevant Fund's valuation point or the price has been affected by events occurring between the close of the collective investment scheme's primary market and the relevant Fund's valuation point, the Directors or its appointed competent person will apply a value that is fair and reasonable. When a fair value price is employed, the price may differ from quoted or published prices for the same collective investment scheme.

Fixed Income. Fixed income securities (including "TBA" (To Be Announced), if applicable) traded in recognised markets are valued using the latest bid prices on the securities exchange in which they are principally traded or using valuations based on a matrix system (which considers such factors as security prices, yields, maturities and ratings), both as furnished by independent pricing services.

Financial Derivative Instruments. Futures contracts are valued in an active market if quoted prices are readily and regularly available; this represents the amount that would be required to close the position. Forward currency contracts are valued based on quoted forward exchange rates as provided by a reliable pricing service, bank or dealer. Total returns swaps are valued using a pricing service; where no pricing service is available, contracts are marked-to-market daily based upon quotations received from counterparties or based upon calculations using valuation models.

(f) Transaction Costs and Commissions. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment. These costs include fees and commissions paid to agents, advisors, brokers and dealers and transfer taxes and duties. Transaction costs which are separately identifiable in the purchase and sale of financial instruments designated at FVTPL are disclosed in the Statement of Operations. For fixed income securities, certain ETFs and certain derivatives, transaction costs are not separately identifiable from the purchase or sale price and therefore cannot be disclosed separately.

(g) Foreign Currency. Functional currency is the currency of the primary economic environment in which the Funds operate. If indicators of the primary economic environment are mixed, then the Directors use their judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. All transactions in foreign currencies are translated into each Fund's functional currency at the exchange rates prevailing on the date of the transaction. At the reporting date, monetary assets and liabilities denominated in foreign currencies are translated at the prevailing exchange rates. Gains and losses arising on translation are included in total return and are reported on a net basis.

The presentation currency of the Company's financial statements is US dollars (US\$).

In preparing the aggregate Company Statement of Assets and Liabilities, all transactions have been translated into US\$. Funds which are not recorded in the Company's presentation currency are translated to US\$ using the prevailing exchange rates as at the reporting date. For the purpose of producing the Company Statement of Operations and the Company Statement of Changes in Net Assets from the accounts of the individual Funds, average exchange rates for the year are used.

The presentational and functional currency of each Fund is:

(h) Cash. Cash is composed of demand deposits with financial institutions.

Bank Overdrafts. Bank overdrafts, when applicable, are presented as current liabilities.

Cash Collateral. Cash pledged as collateral against OTC derivative instruments and TBAs, if applicable, are not included within Cash but are segregated and presented separately on the Statement of Assets and Liabilities as Cash Collateral.

Margin. Upon entering into centrally cleared derivative instruments, cash deposits are required (initial margin) in an amount equal to a certain percentage of the contract value. Subsequent payments (variation margin) are made or received by the Funds each day. Margin against these financial derivative instruments is not included within Cash or Bank Overdrafts but is segregated and presented separately as Margin Cash Due from Broker or Margin Cash Due to Broker, as applicable.

In respect to share issuances or redemptions, the Company operates an umbrella cash account. Monies received or proceeds due will be held and transmitted through this account and are included in Cash and Bank Overdrafts.

(i) Redeemable Participating Shares. Redeemable participating shares provide shareholders with the right to redeem their shares for cash. The shares do not meet the criteria set out in Section 22.4 of FRS 102 to be classified as equity therefore, the shares are classified as financial liabilities.

(j) Trade Date Reporting. Investment transactions for financial statement purposes are accounted for on the trade date. This is different from the basis used for the daily dealing net asset value, which is accounted for using the trade date plus one business day.

(k) Offsetting. Financial assets and liabilities are offset and the net amount reported when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

(l) Income Equalisation. In respect to distributing share classes, the Company intends to operate equalisation arrangements and make equalisation payments in respect of each such share to reflect the pro rata payment of dividends based on the period of time the share has been owned by an investor. If an investor acquires shares at a date when the Fund has accrued income which has not yet been declared as a dividend, the Directors may credit to the equalisation account part of the subscription price representing the accrued income which would be attributable to those shares, as the case may be. When the dividend is paid, the investor will receive the same amount of cash as the existing investors, but the amount in respect of income accrued before shares were acquired will be paid not as a dividend but out of the equalisation account, as capital, comprising the repayment of part of the subscription price. The amount of equalisation, reflecting the pro rata payment of distributions based on the time period over which shares have been owned by an investor. The distribution declared amount includes income equalisation.

4. Risk Management Policies.

The Funds' investments in financial instruments create a direct exposure to a variety of risks. The Funds may also make investments in other underlying funds. The financial instruments which constitute these other underlying funds generally expose the Funds to indirect risks resulting from other price risk, currency risk, interest rate risk, liquidity risk and credit risk.

The Funds may trade in financial derivative instruments such as exchange traded futures and options contracts (to manage cash flows on a short term basis and to achieve cost efficiencies), warrants, swap agreements and equity-linked notes (to gain market exposure or exposure to a particular asset class) and forward currency exchange contracts (to protect against currency fluctuations). The use of financial derivative instruments may expose the Funds to a higher degree of risk. Financial derivative instrument contracts can be highly volatile, and the initial investment is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on financial derivative instruments than on standard securities. Leveraged financial derivative instruments positions can therefore increase volatility. Global exposure is measured and monitored using the commitment approach. Leverage will not exceed 100% of the net asset value of the relevant Fund and will be done in accordance with regulations applicable to the Funds. Although the Investment Manager believes that taking exposure to underlying assets by using financial derivative instruments will benefit shareholders in certain circumstances,

by reducing operational costs and creating other efficiencies, there is risk that the performance of a Fund will be imperfectly correlated with the performance that would be generated by investing directly in the underlying assets.

Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism or other events, can adversely affect local and global markets and normal market operations. Any such disruptions could have an adverse impact on the value of the Funds' investments and Funds' performance.

The Manager seeks to minimise potential adverse effects of risk on the Funds' performance by employing professional, experienced portfolio managers; by daily monitoring of the Funds' positions and market events; by diversifying the investment portfolio within the constraints of the investment objectives; and by periodically using derivatives to economically hedge certain risk exposures.

Other Price Risk. Other price risk is the risk that the value of financial instruments will fluctuate because of changes in the market. The Investment Manager considers the asset allocation of the portfolio to minimise the risk associated with particular countries or industry sectors while continuing to follow the stated investment objective.

To the extent the Company's or each Fund's portfolio reflects concentration in a particular market, industry, group of industries, sector, country or asset class, the Company or each Fund may be adversely affected by the performance of these concentrations and may be subject to increased price volatility and other risks.

The investment objective for an index fund is to seek to track as closely as reasonably possible the performance of its benchmark. To achieve this objective, an index fund invests primarily in securities held in its relevant benchmark index. An index fund places limitations on the amount by which a holding may deviate from the proportion in the benchmark to limit the market risk from mismatched positions.

All investments present a risk of loss of capital. Market risk volatility is assessed to ensure the effect of using financial derivative instruments is not significant enough to cause disproportionate losses to overall value and is moderated through careful selection of financial instruments.

The table below summarises the estimate of the Company's and each Fund's net assets sensitivity to a +/-10% change in the prices of its investments, whether directly or indirectly, with all other variables held constant.

¹ The prior year comparatives have been updated to be in line with current year presentation.

Allocation Risk. The Asset Allocation Funds pursue an investment strategy whereby the Investment Manager has discretion over the composition of the Funds' portfolio holdings and is not managed with reference to a benchmark index. However, the investment manager manages the Funds through pre-determined asset allocations to equity and fixed income securities using a combination of underlying collective investment schemes. Asset allocation risk occurs when the Asset Allocation Funds are not able to invest according to the pre-determined allocations. The Investment Manager moderates this risk through careful selection of the underlying collective investment schemes chosen for the pre-determined allocation.

Currency Risk. Currency risk is the risk that the value of the Funds' investments denominated in foreign currencies will fluctuate due to changes in currency exchange rates. Local interest rates and monetary policy, as well as other government fiscal and labour policies, can also adversely impact currency values. The Funds may enter into foreign currency exchange contracts for hedging purposes, which can include the economic hedging of all or a portion of the currency exposure of an investment or group of investments. The Funds may also enter into these contracts for non-hedging purposes, which can include increasing the exposure to a foreign currency, or the shifting of exposure to foreign currency fluctuations from one country to another.

The tables below indicate the currencies to which the Company and certain Funds had exposure, either directly or indirectly, the notional value of foreign currency contracts and the Funds' sensitivity to a +/- 5% changes in currency exchange rate for its exposed currencies, with all other variables held constant:

Interest Rate Risk. The Funds may invest in fixed and floating rate securities either directly or through underlying collective investment schemes. Income may be affected by changes in interest rates relevant to interest bearing securities or as a result of the Investment Manager being unable to secure similar returns on the expiry of contracts or sale of securities. The value of fixed rate securities may be affected by interest rate movements or the expectation of such movements in the future. Equity securities are non-interest bearing and therefore not subject to interest rate risk. Certain financial derivative instruments (e.g. futures) and interest receivable on bank deposits or payable on bank overdrafts positions may be affected by the fluctuations of interest rates.

If the prevailing interest rates had been raised or lowered by 1%, assuming a parallel shift in the yield curve, with all other factors remaining constant, net assets could possibly have decreased or increased. Each Fund's interest rate sensitivity was determined based on the effective duration of the portfolio.

The tables below show the interest rate risk profile of the financial assets and liabilities for the Funds with significant interest rate risk as at 30 June 2024 and 30 June 2023.

Management of Market Risk (Including Other Price, Currency and Interest Rate Risks). Using risk models and quantitative tools, the Investment Manager performs daily reviews of exposure to: style, country, sector and currency related risk factors for equity portfolios and interest rate, credit spread and currency related risk factors for fixed income portfolios. For index funds, the Investment Manager employs a “passive” investment strategy aimed to minimise tracking-error and portfolio management related costs through the optimisation of the Funds’ relative exposure to the relevant risk factors of the benchmarks by either fully replicating a benchmark or by holding a representative sample of benchmark securities. In addition, the Investment Manager performs daily checks of performance against the respective benchmarks.

The Asset Allocation Funds use a blend of broad and well-diversified benchmarks the Investment Manager considers to be a fair representation of their respective risk profiles.

Efficient portfolio management techniques, as described in Note 10, may be used to minimise transaction costs or taxes. Currency is traded as closely as possible to the close of the markets, so as to obtain exchange rates that closely approximate the rates used in the daily valuation.

Liquidity Risk. Liquidity risk is the risk that sufficient cash cannot be raised to meet liabilities when due. One of the key liquidity factors influencing the Company and the Funds is exposure to cash redemptions of redeemable participating shares. Hence the Company, through the Funds, invests the large majority of its assets in investments that are traded in active markets and can ordinarily be readily disposed. However, liquidity risk will occur if an issuer becomes credit-impaired or if the relevant market becomes illiquid. In such a case, it may not be possible to initiate or liquidate a position at a price deemed by the Investment Manager to be demonstrating fair value. Liquidity risk may be temporary or may last for extended periods. The Company, through the Funds, invests in securities that form part of the benchmark indices. Benchmark indices are constructed from index rules requiring securities to have a specified minimum trading volume, which, although not guaranteeing liquidity, provides indication of the liquid nature of the securities underlying the Funds. The Funds are exposed to withdrawals and contributions that are invested to ensure that exposure to the benchmark indices is maintained to meet the investment objective of the Funds. All the Funds’ financial liabilities, based on contractual maturities, fall due within three months.

Additionally, the Funds may use index futures contracts to a limited extent, to maintain full exposure to the index, maintain liquidity and minimise transaction costs. Funds may purchase futures contracts to immediately invest incoming cash in the market, or sell futures in response to cash outflows, thereby simulating a fully invested position in the underlying index while maintaining a cash balance for liquidity.

No shareholder owns greater than 25% of the net assets of the Company. Shareholders owning greater than 25% of the net assets of a Fund may further expose the Fund to concentration risks that could impact liquidity should one or more of these shareholders submit redemption requests.

Management of Liquidity Risk. To meet redemption requests and raise cash from the portfolio, daily reports of share capital activity are provided by the Administrator to facilitate the daily cash forecast, cash monitoring and portfolio management process.

Subject to certain circumstances as detailed in the Prospectus, negative impacts to liquidity or transaction costs caused by significant shareholder redemptions may be mitigated through the available liquidity measures including, but not limited to, the use of (a) distribution of underlying investments rather than cash, subject to certain conditions, in which case the shareholder may bear the cost of charges incurred in connection with the sale of such underlying investments, (b) limiting the maximum amount of daily redemptions when total redemption requests for the day exceed 10% or (c) temporary suspension of dealing in shares. Should the Funds require, they also have access to a syndicated line of credit for temporary or emergency purposes (as disclosed in Note 9).

Credit Risk. Credit risk is the risk that a counterparty to a transaction or an issuer of a financial instrument will fail to pay interest and principal when due, or that perceptions of the issuer's ability to make such payments will cause the price of an investment to decline. Investment in debt securities or use of derivative contracts will generally create credit risk.

Credit risk exposure is also created through interactions with brokers and custodians. However, transactions in listed securities are settled and paid for upon delivery of securities using only approved brokers. The risk of default is therefore considered minimal because securities are delivered only when the broker has made payment and the broker is paid for purchases only once the securities have been received by the Company's Depositary.

The securities lending activity of the Funds creates exposure to the borrowing counterparties which is mitigated by the collateral arrangements in place.

Credit risk may also arise from assets of the Funds which are substantially all held by the Depositary. Bankruptcy or insolvency of the Depositary may cause certain rights with respect to securities and other positions held to be delayed or limited. As of 30 June 2024, the Depositary has a long-term credit rating of A+ from Fitch (30 June 2023: A+). Additionally, the Depositary ensures there is legal separation of non-cash assets held in custody, that such assets are held on a fiduciary basis and that appropriate internal control systems are maintained such that records clearly identify the nature and amount of all assets under custody. All securities held in custody by the Depositary are segregated from the Depositary's own assets, whether in a vault, in segregated accounts on the books of sub-custodians or in an account maintained at a central securities depositary. The Depositary maintains segregated accounts per client on its own books as well as on the books of sub-custodians in local markets, where possible.

In addition, the Funds hold cash with counterparties which is subject to credit risk. The banks and financial institutions, other than the Depositary, that held these cash are rated A to AA based on the median rating of Moody's, S&P and Fitch.

Credit risk is managed at the Fund level. For Funds invested in fixed income holdings the following is an analysis of the concentration of issuer credit ratings. Credit ratings reflect the median of Moody's, S&P and Fitch, where possible. When less than three ratings are available, the lowest rating is utilised.

Management of Credit Risk. Credit risk is managed by investment policies which restrict or place limits on acceptable portfolio and net asset concentrations as well as exposure to certain instruments, credit institutions and counterparties. The Investment Manager performs daily reviews of portfolio attributes, such as sector diversification and credit quality, and adjusts where necessary to ensure that the credit risk components closely match those of the respective benchmarks. Credit ratings of debt instruments and counterparties are monitored and evaluated periodically by the Investment Manager; an approved counterparty list is maintained, and trading with approved counterparties is enforced. The Funds also enter into master netting arrangements with their counterparties and require the transfer of collateral to secure performance. The value of cash and securities pledged or received as collateral against securities lending transactions and derivative contracts is disclosed in Notes 10 and 11, respectively. Cash and securities received as collateral from counterparties are not recognised as asset because the Funds do not have the right to sell or re-pledge the collateral, except in the event of default.

5. Taxation. Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a “chargeable event”. A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares or appropriation or cancellation of shares of a shareholder by the Company for the purposes of meeting the amount of tax payable on a gain arising on a transfer. Any tax arising on a chargeable event is a liability of the shareholders, albeit it is paid by the Company (although if the Company fails to deduct the correct amount of tax it becomes ultimately a liability of the Company).

No Irish tax will arise on the Company in respect of chargeable events:

(a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and

(b) certain exempted Irish tax resident shareholders who have provided the necessary signed statutory declarations.

Dividends, interest and capital gains received on investments may be subject to withholding or other taxes imposed by the country from which the investment income/gains are received, and such taxes may not be recoverable. Foreign withholding taxes on dividends and interest are recognised when such taxes are not recoverable and are included in Taxation. Funds may also be subject to tax on the realised and unrealised portion of their capital gains.

The Funds have filed tax reclaims for previously withheld taxes on dividends earned in certain European Union countries. These filings are subject to various administrative and judicial proceedings within these countries. Such tax reclaims recognised during the year, if any, are included in Taxation. No other amounts for these tax reclaims are reflected in the financial statements due to the uncertainty as to the ultimate resolution of proceedings, the likelihood of receipt of these reclaims and the potential timing of payment.

Below is an analysis of the tax charge for the year ended 30 June 2024 and 30 June 2023:

6. Distribution Policy. The Directors intend to distribute all, or substantially all, of the net income (interest and dividends, less expenses) to distributing share class holders. Should expenses exceed income, no distribution is made. Dividend distributions are payable to shareholders of record on the date on which the dividend is declared. Dividends on Asset Allocation funds, if any, are paid semi-annually. The Directors do not intend to declare dividends on accumulating shares.

The following table presents the payment frequency with respect to distributing share classes. If a dividend has not been declared, income and gains of such Fund will be reflected in the net asset value per share.

¹ The Fund launched during the prior year. See Note 1.

The Manager did not declare a dividend in respect of participating units in the U.S. Treasury 0–1 Year Bond UCITS ETF for the year ended 30 June 2024 (30 June 2023: Nil). Accordingly, income and gains of the Fund will be reflected in the net asset value per share.

7. Net Asset Value Per Share. The net asset value per share of each share class is calculated by dividing the total net assets of each share class by the number of shares in issue.

8. Share Capital. The Company has variable share capital consisting of 5,000,000,000,002 authorised shares divided into two Subscriber Shares (US\$1.00 par value) and 5,000,000,000,000 redeemable participating shares (no par value).

The Directors may issue shares of any class and create new classes of shares on such terms as the Directors may from time to time determine in relation to any Fund and in accordance with the requirements of the Central Bank. Shares may be divided into different classes to accommodate different subscription, redemption or fee arrangements, dividend provisions, or charges.

Subscriber Shares. There are two Subscriber Shares in issue, which are held by nominees for the Investment Manager. Subscriber Shares do not entitle the holders thereof to any dividend and on a winding-up entitle the holder to receive the amount paid up thereon but not otherwise to participate in the assets of the Company. The Subscriber Shares do not form part of the Shareholders' funds and are not included in the net asset value of the Company.

Redeemable Participating Shares. Members who are individuals may attend and vote at general meetings in person or by proxy. Members who are corporations may attend and vote at general meetings by appointing a representative or proxy. Subject to any special terms as to voting upon which any shares may be issued or may for the time being be held, at any general meeting on a show of hands every shareholder who (being an individual) is present in person or (being a corporation) is present by duly authorised representative shall have one vote. On a poll every such holder presents as aforesaid or by proxy shall have one vote for every share held.

If the Company shall be wound up, then the payment to the holders of the redeemable participating shares of each class, is a sum in the currency in which that class is designated, as nearly as possible equal to the Net Assets Attributable to Holders of Redeemable Participating Shares respectively. This payment is as at the date of commencement to wind up provided that there are sufficient assets available in the relevant Fund to enable such payment to be made. In the event that there are insufficient assets available in the relevant Fund to enable such payments to be made, the following recourse shall apply:

(1) the assets of the Company not comprised within any of the Funds; and

(2) the assets remaining in the Funds for the other classes of Shares after payment to the holders of the Shares of the class to which they relate of the amounts to which they are respectively entitled under this paragraph prorata to the total value of such assets remaining within each such Fund.

9. Credit Facility. The Funds and certain other funds managed by the Manager and its affiliates participate in an annually renewable US\$4.3 billion (2023: US\$4.3 billion) committed credit facility. Each participating Fund is individually liable for its borrowings under the credit facility. Borrowings may be utilised for temporary or emergency purposes and are subject to the participating Fund's regulatory and contractual borrowing restrictions. Participating Funds are allocated an annual commitment fee of 0.10% of the undrawn facility amount as well as certain administrative fees. Any fees allocated to the Funds are paid by the Manager. Interest and direct borrowing costs associated with draws on the credit facility are charged to the Funds and recorded in the Statement of Operations.

The rate charged for borrowings under this facility is linked to the currency borrowed. Borrowings in US dollars will bear interest at an agreed-upon spread plus the higher of the federal funds effective rate, the overnight bank funding rate or the Daily Simple Secured Overnight Financing Rate inclusive of an additional agreed-upon spread. Borrowings in currencies other than the US dollar will bear interest at an agreed-upon spread plus the Euro Interbank Offered Rate, the Daily Simple Euro Short Term Rate, the Swiss Average Rate Overnight, the Sterling Overnight Index Average or the Tokyo Interbank Offered Rate, as applicable.

The Funds had no borrowings outstanding at 30 June 2024 or at any time during the year then ended (30 June 2023: none).

10. Efficient Portfolio Management. Investment techniques and financial derivative instruments (FDIs) may be employed for efficient portfolio management purposes, including hedging against market movements, currency exchange or interest rate risks. Any investment technique or use of FDIs must be one which is reasonably believed by the Investment Manager to be economically appropriate in that it is realised in a cost-effective way. Realised and unrealised gains or losses arising from financial derivative instrument transactions are accounted for through the Statement of Operations as Net Gain/(Loss) on Financial Instruments.

Securities lending is also used for efficient portfolio management. The securities lending agent is Brown Brothers Harriman & Co. The Depositary is a wholly owned subsidiary of Brown Brothers Harriman & Co. All operational costs in support of the lending programme are borne by the lending agent and paid directly out of any lending agent fees. Securities lending income is net of any lending agent fees paid.

Securities on loan continue to be recognised by the Funds as financial assets because they substantially retain the risks and rewards of ownership. Similarly, security collateral received from the borrower is not recognised by the Funds as an asset because they do not have rights to sell or re-pledge the collateral, unless in the event of default. Collateral accepted by the Funds is limited to high quality sovereign debt (U.S. Treasuries, U.K. Gilts, etc.).

Securities on loan by the Funds and the value of collateral held in respect of the securities were:

11. Collateral. The Funds pledge and receive non-cash collateral against financial derivative instruments and TBA transactions. Such collateral cannot be sold, re-invested or re-pledged. As a result, pledged collateral remains an asset of the Fund and is included in the Statement of Investments. Securities received as collateral are not considered assets of the Fund and will not appear in the Statement of Investments. Under these collateral agreements, upon a counterparty default (including bankruptcy), the Funds may terminate all derivatives or TBA transactions with that counterparty, determine the net amount owed by either party and sell or retain any collateral held up to the net amount owed to the Funds, with an obligation to return excess collateral to the counterparty.

In certain cases, the Funds may be required to maintain cash collateral in margin accounts or pledge cash with certain counterparties. Cash collateral held in margin accounts for futures contracts and other centrally cleared derivatives is segregated on the Statement of Assets and Liabilities and presented separately as part of "Margin Cash Due to/from Broker". Cash pledged for OTC derivative instruments and TBAs is segregated on the Statement of Assets and Liabilities and presented separately as "Cash Collateral". Additionally, the Funds may receive cash collateral, which is segregated from the Funds' cash, and is subject to restrictions. The Funds do not earn any interest from the cash collateral received nor does it have any right for re-investment, therefore any cash collateral received is not recorded as part of the Funds' assets.

At 30 June 2024, the Funds did not have any collateral pledged or received in connection with TBA transactions (30 June 2023: Nil).

In addition, the Funds receive other non-cash collateral in relation to securities lending transactions which is separately disclosed in Note 10.

Counterparties to financial derivative transactions where collateral was required to be exchanged included Bank of America N.A., Bank of New York Mellon, BNP Paribas, Citibank NA, HSBC Bank, JPMorgan Chase Bank, Morgan Stanley, Royal Bank of Canada, Standard Chartered Bank, State Street Bank, Toronto Dominion Bank and UBS AG.

As of 30 June 2024 and 30 June 2023, the collateral pledged or received by the Funds for financial derivative instrument transactions was:

12. Related and Connected Parties Transactions. Parties are related if one can control or exercise significant influence over the other in making financial or operational decisions or is a member of a group which provides key management personnel services. The Company's directors and Manager are considered related parties. The Investment Manager or affiliates of the Manager, as well as any sub-investment manager or their delegate, and associated or group company of the Manager, are considered connected parties.

Manager. Vanguard Group (Ireland) Limited is the Funds' Manager and acts as a principal in respect of all transactions of shares in the Funds. For its services, the Manager receives a fixed single fee per share class (the "Management Fees") calculated on a daily basis and paid monthly. Out of the fees received, the Manager pays for any sub-advisers, as well as the costs of administration including audit, depositary, legal, registration and regulatory fees associated with the Funds. As a result, the Manager anticipates that the ongoing charges figure ("OCF") of each share class will closely track the Management Fees. In the event that the costs and expenses of any Fund exceed the OCF, the Manager will be responsible for discharging any excess out of its own assets. The Manager, in its sole discretion, may voluntarily waive all or part of its fee, and any such waiver could be discontinued at any time and without notice.

The Asset Allocation Funds invest in other Funds of the Company, and substantially all of the income from these collective investment schemes are derived from related party holdings. Each Asset Allocation Fund separately includes within this report a complete set of financial statements which details its holdings in related parties, significant portfolio changes, revenues and net gains or losses from these investments in related parties. Additionally with respect to the Asset Allocation Funds, the Manager will reduce its Management Fees in an amount equal to similar charges already incurred in the underlying affiliated collective investment schemes.

Any amounts due from or to the Manager at the end of the year are disclosed in the Statement of Assets and Liabilities. Amounts earned by the Manager in respect to fees for the year are disclosed in the Statement of Operations.

The Annual Management Fees for each share class for the year ended:

18. Operating Segments. Operating segments are the components of the Company whose results are regularly reviewed by the Company's chief operating decision maker ("CODM") when determining resources to be allocated and assessing performance. The Company's board of directors is the CODM. The board sets the investment objective and evaluates the performance, funding model and market and geographic focus of the Company's Funds individually. As returns are linked to unique investment objectives, each Fund is considered a reportable segment and separately includes within this report a complete set of financial statements which details its segment assets, liabilities, revenues and expenses.

The Asset Allocation Funds invest in other Funds of the Company, which are disclosed in each Fund's Statement of Investments. These cross investments and any related movements in realised or unrealised gains and losses on these investments have been eliminated in the Company financial statements.

Reconciliation of reportable segments to the Company total as at 30 June 2024:

	Segment Total ¹ US Dollars (\$)	Eliminations ¹ US Dollars (\$)	Company Total US Dollars (\$)

23. Approval of Financial Statements.

The Financial Statements were approved by the Directors on 29 October 2024.

Additional Information and Regulatory Disclosures (unaudited)

Remuneration Disclosure

Vanguard personnel providing services to the Manager are subject to the Vanguard European Remuneration Policy (the "Remuneration Policy"). The Remuneration Policy includes the remuneration requirements of the UCITS V Directive (2014/91/EU). Details of the Remuneration Policy are available through <https://www.ie.vanguard/content/dam/intl/europe/documents/ch/en/ucits-v-remuneration-policy.pdf>, which will be updated periodically to reflect changes to the policy.

The governance of remuneration within Vanguard Europe is undertaken through a tiered structure, including Vanguard's Global Remuneration Committee and the European Leadership Team. The Global Remuneration Committee also operates at The Vanguard Group level and oversees the overall compensation programmes of The Vanguard Group. The European Leadership Team is responsible for implementing the remuneration programmes in accordance with Vanguard's total rewards philosophy and global organisation, including overseeing the Remuneration Policy.

The Remuneration Policy provides for an appropriate balance of fixed salary; benefits, such as pension; and annual bonus and long-term incentive arrangements. Incentives are based on the overall business performance of The Vanguard Group, or individual, team, business unit and fund performance. The incentive plans are reviewed and approved by the European Leadership Team (and other applicable groups) in order to ensure that plans appropriately assess financial and non-financial performance and do not encourage conflicts of interest, and to ensure that risk or compliance issues are appropriately reflected.

The European Leadership Team also reviews and approves the list of UCITS code staff annually. Identified code staff are notified and understand the code staff responsibilities.

The table below presents the aggregate total remuneration paid to staff who provide services to the Funds and the aggregate total remuneration paid to all relevant UCITS code staff.

	Headcount ^{1,2}	Total Remuneration (€) ³
Funds, of which	80	9,859,895
Fixed Remuneration	80	6,567,656
Variable Remuneration	80	3,292,239
Performance Fees	n/a	n/a
UCITS Code Staff, of which	15	2,504,806
Senior Management	9	1,036,690
Other Code Staff	6	1,468,116

¹ This is the total number of employees who are fully or partly involved in the activities of the Funds. Includes both crew who have terminated during the year and part-year Code Staff.

² The staff in this table may provide services to other entities within The Vanguard Group.

³ The remuneration disclosed is the total remuneration awarded to employees for 2023.

Remuneration reflects fixed pay (salary) and performance-related pay (annual and long-term incentives). Individual incentive outcomes under the plans are based on performance assessed by reference to an appropriate balance of quantitative and qualitative measures, such as behaviour, including compliance with all applicable policies. The individual incentive outcome is fully discretionary and, if appropriate, outcomes based on financial performance can be overridden based on the qualitative measures.

Synthetic Ongoing Charges Figure

The Ongoing Charges Figure (OCF) is the ratio of a Fund's total disclosable costs (excluding overdraft interest) to the average net assets of the Fund. Because the Asset Allocation Funds invest a substantial proportion of assets in other UCITS or Collective Investment Undertakings (CIU), the Asset Allocation Funds are required to disclose a synthetic OCF that accounts for the ongoing charges incurred in the underlying CIUs.

Connected Persons Transactions

Transactions carried out with the Company by the Investment Manager, Manager, Depositary, Investment Adviser and/or associated or group companies of these ("Connected Persons") during the year ended 30 June 2024 were carried out as if negotiated at arm's length and were in the best interests of the Company's Shareholders. The Directors of the Company are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that all transactions entered into by the Company with Connected Persons are carried out as if negotiated at arm's length and in the best interests of the Company's Shareholders.

Securities Financing Transactions Regulation

Securities Financing Transaction Regulation ("SFTR") introduces reporting requirements for securities financing transactions ("SFTs") and total return swaps.

An SFT is defined as per Article 3(11) of the SFTR as:

- A repurchase/reverse repurchase agreement,
- Securities or commodities lending and securities or commodities borrowing,
- A buy-sell back transaction or sell-buy back transaction, or
- A margin lending transaction.

As at 30 June 2024, the Company had a securities lending programme and total return swaps as types of SFTs under the scope of the SFTR.

Report of the Depositary to the Shareholders (unaudited)

We have enquired into the conduct of the Vanguard Funds plc for the year ended 30 June 2024 in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the Shareholders in the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association, the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not complied we, as Depositary, must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Memorandum and Articles of Association and the appropriate regulations; and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations, and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

Independent Auditor's Report to the Members of Vanguard Funds plc

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Vanguard Funds plc ('the Company') for the year ended 30 June 2024 set out on pages 10 to 12, which comprise the Company Statement of Assets and Liabilities, Company Statement of Operations, Company Statement of Changes in Net Assets, related notes set out on pages 986 to 1042, including the summary of significant accounting policies set out in note 3 on pages 987 to 989, and the Statement of Investments of each fund.

The financial reporting framework that has been applied in their preparation is Irish Law and FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* issued in the United Kingdom by the Financial Reporting Council.

In our opinion:

- the financial statements give a true and fair view of the assets, liabilities and financial position of the Company as at 30 June 2024 and of its change in net assets for the year then ended;
- the financial statements have been properly prepared in accordance with FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*; and
- the financial statements have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities Regulations) 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities section of our report. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion. Our audit opinion is consistent with our report to the audit committee.

We were appointed as auditor by the Directors on 1 November 2021. The period of total uninterrupted engagement is the three years ended 30 June 2024. We have fulfilled our ethical responsibilities under, and we remained independent of the Company in accordance with, ethical requirements applicable in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA) as applied to listed public interest entities. No non-audit services prohibited by that standard were provided.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the director's assessment of the entity's ability to continue to adopt the going concern basis of accounting included considering the inherent risks to the Company's business model and analysis of how those risks might affect the Company's financial resources or ability to continue operations over the going concern period. The risks we considered most likely to adversely affect the Company's available financial resources over this period was the availability of capital to meet operating costs and other financial commitments (liquidity risk) and the valuation of investments at fair value as a result of market performance (price risk).

In the Directors' assessment it was noted that the Company held, and continues to hold, liquid portfolio of shares through different funds, and the composition of the funds' portfolios reduces the going concern risk resulting from market performance of the investments. The Director's assessment is consistent with our understanding of the Company.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Independent Auditor's Report to the Members of Vanguard Funds plc (continued)

Detecting irregularities including fraud

We identified the areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements and risks of material misstatement due to fraud, using our understanding of the entity's industry, regulatory environment and other external factors and inquiry with the directors. In addition, our risk assessment procedures included:

- Inquiring with the Directors and management as to the Company's policies and procedures regarding compliance with laws and regulations, identifying, evaluating and accounting for litigation and claims, as well as whether they have knowledge of non-compliance or instances of litigation or claims.
- Inquiring of directors, the audit committee and inspection of policy documentation as to the Company's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud.
- Inquiring of directors and the audit committee regarding their assessment of the risk that the financial statements may be materially misstated due to irregularities, including fraud.
- Inspecting the Company's regulatory and legal correspondence.
- Reading Board and audit committee minutes.
- Performing planning analytical procedures to identify any usual or unexpected relationships.

We discussed identified laws and regulations, fraud risk factors and the need to remain alert among the audit team.

Firstly, the Company is subject to laws and regulations that directly affect the financial statements including companies and financial reporting legislation. We assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items, including assessing the financial statement disclosures and agreeing them to supporting documentation when necessary.

Secondly, the Company is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: certain aspects of company legislation recognising the financial and regulated nature of the Company's activities and its legal form.

Auditing standards limit the required audit procedures to identify non-compliance with these non-direct laws and regulations to inquiry of the Directors and other management and inspection of regulatory and legal correspondence, if any. These limited procedures did not identify actual or suspected non-compliance.

We assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. As required by auditing standards, we performed procedures to address the risk of management override of controls. On this audit we do not believe there is a fraud risk related to revenue recognition. We did not identify any additional fraud risks.

In response to the fraud risks, we also performed procedures including:

- Identifying journal entries and other adjustments to test based on risk criteria and comparing the identified entries to supporting documentation.
- Assessing significant accounting estimates for bias.
- Assessing the disclosures in the financial statements.

As the Company is regulated, our assessment of risks involved obtaining an understanding of the legal and regulatory framework that the Company operates and gaining an understanding of the control environment including the entity's procedures for complying with regulatory requirements.

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations (irregularities) is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remains a higher risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

Independent Auditor's Report to the Members of Vanguard Funds plc (continued)

Key audit matters: our assessment of risks of material misstatement

Key audit matters are those matters that, in our professional judgement, were of most significance in the audit of the financial statements and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by us, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In arriving at our audit opinion above, the key audit matter was as follow (unchanged from 2023):

Ownership, Valuation and Accuracy of pricing of Financial Assets and Liabilities at fair value through profit or loss: Transferable Securities (Assets) USD 142,124,415,881 (2023: USD 102,428,550,748), Transferable Securities (Liabilities) USD Nil (2023: USD 327,702), Financial Derivative Instruments (Assets) USD 43,780,396 (2023: USD 174,760,786) and Financial Derivative Instruments (Liabilities) USD 240,564,633 (2023: USD 44,439,678), together being the "Company's Investments"

Refer to page 987 (Note 3d - Financial Assets and Financial Liabilities) and pages 1028 to 1041 (Note 17 - Fair Value Hierarchy)

The key audit matter	How the matter was addressed in our audit
The Company's investments make up 98.99% of the net asset value ("NAV") of the Company, and are considered to be the key driver for the Company's results. While the nature of the Company's investments do not require significant levels of judgement, investments are identified as a significant area of audit focus due to their significance in the context of the financial statements as a whole. Investments held by the Company include equities, investment funds, fixed income securities, futures contracts, FX forwards and total return swaps. The Company's investments have the greatest impact on our overall audit strategy and allocation of resources both at planning and completion of our audit. We determined this matter to be a Key Audit Matter for the reasons set out above.	Our audit procedures included: - We obtained an understanding of the process in place to record investment transactions and to price the portfolio of investments. - We obtained independent external confirmation of all transferable securities held by the Company as at 30 June 2024 directly from the Depositary. Confirmations obtained were reconciled to the Company's records. - We obtained independent external confirmation of, or performed alternative procedures on, the financial derivative instruments held by the Company. Confirmations and/ or broker statements obtained were reconciled to the Company's records. - A key judgement was made by the audit team to involve our valuations specialist to assist us to independently re-price and value accurately 99.99% of investments held by the Company as at 30 June 2024. - We performed substantive attribute sampling to verify the data inputs into the valuation of investments. - We assessed the adequacy of the disclosure of investments in accordance with the fair value level hierarchy as set out in FRS 102. Based on evidence obtained, no material misstatements were identified.

Our application of materiality and an overview of the scope of our audit

Materiality for the financial statements as a whole was set at USD 1,430m (2023: USD 1,030m), determined with reference to a benchmark of the Company's Net Asset Value (of which it represents 1%, (2023: 1%).

We applied our judgement in determining the most appropriate benchmark. The factors which had the most significant impact were:

- the elements of the financial statements (for example, total assets, net asset value, total investment income and increase in net assets);
- the items on which attention of the users of the Company's financial statements tends to be focused;
- the nature of the Company, where the Company is in its life cycle, and the industry and economic environment in which the Company operates; and
- the Company's ownership structure and the way it is financed.

Independent Auditor's Report to the Members of Vanguard Funds plc (continued)

Our application of materiality and an overview of the scope of our audit (*continued*)

In applying our judgement in determining the percentage to be applied to the benchmark, the following qualitative factors, which had the most significant impact, increasing our assessment of materiality were:

- the Company's ownership structure and the way in which the entity is financed;
- the limited amount of external debt on the Company's balance sheet; and
- the stability of the business environment in which it operates.

We applied Company materiality to assist us determine the overall audit strategy.

Performance materiality for the financial statements as a whole was set at USD 1,072.5m (2023: USD 772m), determined with reference to a benchmark of the Company's Net Asset Value of which it represents 0.75% (2023: 0.75%).

We applied our judgement in determining performance materiality. The following factors were considered to have the most significant impact on our assessment of performance materiality:

- entity level control deficiencies, such as in the control environment;
- the number and severity of deficiencies in control activities, including those that may be pervasive;
- turnover of senior management or key financial reporting personnel;
- the number and/or value of detected misstatements;
- the value of uncorrected misstatements, including the cumulative current period effect of immaterial prior period uncorrected misstatements; and
- management's attitude towards correcting misstatements.

We applied Company performance materiality to assist us in determining what risks were significant risks for the company.

We reported to the Audit Committee any corrected or uncorrected identified misstatements exceeding USD 71.5m (2023: USD 51m), in addition to other identified misstatements that warranted reporting on qualitative grounds. With specific regard to the valuation of the Company's financial assets and liabilities at fair value through profit or loss, we also reported to the Audit Committee all corrected and uncorrected misstatements we identified through our audit with a value in excess of 0.5% of each sub-fund's net asset value.

Our audit was undertaken to the materiality and performance materiality level specified above and was all performed by engagement teams in Dublin and Luxembourg.

Respective responsibilities and restrictions on use

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 5, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at <https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/>.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ **Yes**

☒ ☐ ☒ **No**

☐ It made **sustainable investments with an environmental objective**: __%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: __%

☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and social characteristics by excluding companies from its portfolio based on the impact of their conduct or products on society and / or the environment.

This Fund is passively managed. Its objective is to track the performance of the FTSE Developed Asia Pacific All Cap Choice Index (the "Index"). For this reason, the Index also serves as the designated reference benchmark for the purpose of attaining the environmental and / or social characteristics promoted by the Fund.

The Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, the following activities:

- (a) Vice Products (i.e., adult entertainment, alcohol, gambling, tobacco, cannabis);
- (b) Non-Renewable Energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)); and
- (c) Weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons).

The Index methodology also excluded companies that, as determined by the Index provider, are involved in severe controversies (i.e., companies which do not meet the labour, human rights, environmental, and anticorruption standards as defined by the United Nations Global Compact Principles).

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 0.00%
- Climate Change Adaptation = 0.00%

Due to the lack of reliable taxonomy-aligned data, our periodic reports do not reflect where the fund contributed to any of the following environmental objectives. We are currently working to resolve this,

and we aim to be in a position to report the full reporting period of the environmental objectives in subsequent periodic reports:

- Sustainable use and protection of water and marine resources
- Transition to a circular economy
- Pollution prevention and control
- Protection and restoration of biodiversity and ecosystems

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● ***How did the sustainability indicators perform?***

The Investment Manager measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the FTSE Developed Asia Pacific All Cap Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately. The exclusions were applied without issue and the appropriate controls were followed.

The proportion of the portfolio excluded from the Parent Index can be found in the table below. These figures are weighted average of the actual rate of exclusion by market value as at the end of September 2023, December 2023, March 2024 and June 2024.

*From year end June 2024 we have started to break out the exclusion categories. Constituents can be excluded under multiple categories and the below numbers are not mutually exclusive.

Exclusion Category*	Exclusion Rate (%)
Controversies	2.49%
Non-Renewable Energy	14.10%
Vice Products	2.77%
Weapons	2.66%
Overall Exclusions	18.57%

● ***...and compared to previous periods?***

Exclusion Category	2023
Overall	18.76%

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

While the Fund promoted environmental and social characteristics, it did not commit to making any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By avoiding investment in non-renewable energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By avoiding investment in weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

By avoiding investment in companies involved in severe controversies (i.e., companies which do not meet the labour, customers, human rights, environmental, governance and anticorruption standards as defined by the United Nations Global Compact Principles (UNGC) and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's PAI data vendor.

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Please see the information below in this respect.

What was the asset allocation?

The Fund invested 97.86% (compared to year end June 2023: 96.97%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 2.14% (compared to year end June 2023: 3.03%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

The following table details sectors and sub-sectors where investments of the Fund were made. These figures have used the breakdown for Energy and Utilities at level 1 and 4 (as defined by the Industry Benchmark Classification) with the other sectors at level 1 and 2.

These figures are percentages of net assets and are the weighted averages of the market value as at the end of September 2023, December 2023, March 2024 and June 2024.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the Taxonomy Regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the graph below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 0.00%
- Climate Change Adaptation = 0.00%

Due to the lack of reliable taxonomy-aligned data, our periodic reports do not reflect where the fund contributed to any of the following environmental objectives. We are currently working to resolve this, and we aim to be in a position to report the full reporting period of the environmental objectives in subsequent periodic reports:

- Sustainable use and protection of water and marine resources
- Transition to a circular economy
- Pollution prevention and control
- Protection and restoration of biodiversity and ecosystems

In each case the figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The Taxonomy-alignment data is based solely on disclosures by non-financial entities that have been captured by the data provider. When reporting guidelines are not exactly followed, for example where revenue is only provided for a subset of activities combined instead of per activity, then this is not captured.

greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The figures are not subject to an assurance provided by one or more auditors or a review by one or more third parties.

At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.00%
- Enabling Activities = 0.00%

The figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The figure reported for Climate Change Mitigation in the previous report was overstated and has been corrected as shown below:

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Environmental Objectives	2023
Climate Change Mitigation	0.00
Climate Change Adaptation	N/A

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining 2.14% (compared to year end June 2023: 3.03%) of the Fund’s net assets are in financial derivative instruments and other assets and liabilities (“#2 Other”) which are not aligned with environmental and/or social characteristics promoted by the Fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several ‘lines of defense’, including Vanguard’s portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider’s own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Please see the information below in this respect.

● ***How does the reference benchmark differ from a broad market index?***

The Index was constructed from the FTSE Developed Asia Pacific All Cap Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

● ***How did the sustainability indicators perform?***

The Investment Manager measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the FTSE Developed Europe All Cap Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately. The exclusions were applied without issue and the appropriate controls were followed.

The proportion of the portfolio excluded from the Parent Index can be found in the table below. These figures are weighted average of the actual rate of exclusion by market value as at the end of September 2023, December 2023, March 2024 and June 2024.

*From year end June 2024 we have started to break out the exclusion categories. Constituents can be excluded under multiple categories and the below numbers are not mutually exclusive.

Exclusion Category*	Exclusion Rate (%)
Controversies	2.35%
Non-Renewable Energy	19.96%
Vice Products	5.07%
Weapons	4.34%
Overall Exclusions	30.20%

● ***...and compared to previous periods?***

Exclusion Category	2023
Overall	30.53%

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

While the Fund promoted environmental and social characteristics, it did not commit to making any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By avoiding investment in non-renewable energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By avoiding investment in weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

By avoiding investment in companies involved in severe controversies (i.e., companies which do not meet the labour, customers, human rights, environmental, governance and anticorruption standards as defined by the United Nations Global Compact Principles (UNGC) and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's PAI data vendor.

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Please see the information below in this respect.

What was the asset allocation?

The Fund invested 98.71% (compared to year end June 2023: 99.72%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 1.29% (compared to year end June 2023: 0.28%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

The following table details sectors and sub-sectors where investments of the Fund were made. These figures have used the breakdown for Energy and Utilities at level 1 and 4 (as defined by the Industry Benchmark Classification) with the other sectors at level 1 and 2.

These figures are percentages of net assets and are the weighted averages of the market value as at the end of September 2023, December 2023, March 2024 and June 2024.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the Taxonomy Regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the graph below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 1.67%
- Climate Change Adaptation = 0.04%

Due to the lack of reliable taxonomy-aligned data, our periodic reports do not reflect where the fund contributed to any of the following environmental objectives. We are currently working to resolve this, and we aim to be in a position to report the full reporting period of the environmental objectives in subsequent periodic reports:

- Sustainable use and protection of water and marine resources
- Transition to a circular economy
- Pollution prevention and control
- Protection and restoration of biodiversity and ecosystems

In each case the figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The Taxonomy-alignment data is based solely on disclosures by non-financial entities that have been captured by the data provider. When reporting guidelines are not exactly followed, for example where revenue is only provided for a subset of activities combined instead of per activity, then this is not captured.

The figures are not subject to an assurance provided by one or more auditors or a review by one or more third parties.

levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue

from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.10%
- Enabling Activities = 1.00%

The figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The figure reported for Climate Change Mitigation in the previous report was overstated and has been corrected as shown below:

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Environmental Objectives	2023
Climate Change Mitigation	0.01
Climate Change Adaptation	N/A

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining 1.29% (compared to year end June 2023: 0.28%) of the Fund’s net assets are in financial derivative instruments and other assets and liabilities (“#2 Other”) which are not aligned with environmental and/or social characteristics promoted by the Fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several ‘lines of defense’, including Vanguard’s portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider’s own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Please see the information below in this respect.

● ***How does the reference benchmark differ from a broad market index?***

The Index was constructed from the FTSE Developed Europe All Cap Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

☒ X It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and social characteristics by excluding companies from its portfolio based on the impact of their conduct or products on society and / or the environment.

This Fund is passively managed. Its objective is to track the performance of the FTSE Emerging All Cap Choice Index (the "Index"). For this reason, the Index also serves as the designated reference benchmark for the purpose of attaining the environmental and / or social characteristics promoted by the Fund.

The Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, the following activities:

- (a) Vice Products (i.e., adult entertainment, alcohol, gambling, tobacco, cannabis);
- (b) Non-Renewable Energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)); and
- (c) Weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons).

The Index methodology also excluded companies that, as determined by the Index provider, are involved in severe controversies (i.e., companies which do not meet the labour, human rights, environmental, and anticorruption standards as defined by the United Nations Global Compact Principles).

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 0.02%
- Climate Change Adaptation = 0.00%

Due to the lack of reliable taxonomy-aligned data, our periodic reports do not reflect where the fund contributed to any of the following environmental objectives. Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Please see the information below in this respect.

What was the asset allocation?

The Fund invested 98.91% (compared to year end June 2023: 97.16%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 1.09% (compared to year end June 2023: 2.84%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

☐ Yes:

☐ In fossil gas

☐ In nuclear energy

☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.00%
- Enabling Activities = 0.00%

The figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The figure reported for Climate Change Mitigation in the previous report was overstated and has been corrected as shown below:

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining 1.09% (compared to year end June 2023: 2.84%) of the Fund’s net assets are in financial derivative instruments and other assets and liabilities (“#2 Other”) which are not aligned with environmental and/or social characteristics promoted by the Fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several ‘lines of defense’, including Vanguard’s portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider’s own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☒ ☐ ☒ No

☐ It made **sustainable investments with an environmental objective**: __%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: __%

☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and social characteristics by excluding companies from its portfolio based on the impact of their conduct or products on society and / or the environment.

This Fund is passively managed. Its objective is to track the performance of the FTSE Global All Cap Choice Index (the "Index"). For this reason, the Index also serves as the designated reference benchmark for the purpose of attaining the environmental and / or social characteristics promoted by the Fund.

The Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, the following activities:

- (a) Vice Products (i.e., adult entertainment, alcohol, gambling, tobacco, cannabis);
- (b) Non-Renewable Energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)); and
- (c) Weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons).

The Index methodology also excluded companies that, as determined by the Index provider, are involved in severe controversies (i.e., companies which do not meet the labour, human rights, environmental, and anticorruption standards as defined by the United Nations Global Compact Principles).

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 0.22%
- Climate Change Adaptation = 0.01%

Due to the lack of reliable taxonomy-aligned data, our periodic reports do not reflect where the fund contributed to any of the following environmental objectives. We are currently working to resolve this, and we aim to be in a position to report the full reporting period of the environmental objectives in

subsequent periodic reports:

- Sustainable use and protection of water and marine resources
- Transition to a circular economy
- Pollution prevention and control
- Protection and restoration of biodiversity and ecosystems

● ***How did the sustainability indicators perform?***

The Investment Manager measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the FTSE Global All Cap Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the Reference Benchmark appropriately. The exclusions were applied without issue and the appropriate controls were followed.

The proportion of the portfolio excluded from the Parent Index can be found in the table below. These figures are weighted average of the actual rate of exclusion by market value as at the end of September 2023, December 2023, March 2024 and June 2024.

*From year end June 2024 we have started to break out the exclusion categories. Constituents can be excluded under multiple categories and the below numbers are not mutually exclusive.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

While the Fund promoted environmental and social characteristics, it did not commit to making any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By avoiding investment in non-renewable energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By avoiding investment in weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

By avoiding investment in companies involved in severe controversies (i.e., companies which do not meet the labour, customers, human rights, environmental, governance and anticorruption standards as defined by the United Nations Global Compact Principles (UNGC) and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's PAI data vendor.

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Please see the information below in this respect.

What was the asset allocation?

The Fund invested 99.03% (compared to year end June 2023: 99.20%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 0.97% (compared to year end June 2023: 0.80%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the Taxonomy Regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the graph below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 0.22%
- Climate Change Adaptation = 0.01%

Due to the lack of reliable taxonomy-aligned data, our periodic reports do not reflect where the fund contributed to any of the following environmental objectives. We are currently working to resolve this, and we aim to be in a position to report the full reporting period of the environmental objectives in subsequent periodic reports:

- Sustainable use and protection of water and marine resources
- Transition to a circular economy
- Pollution prevention and control
- Protection and restoration of biodiversity and ecosystems

In each case the figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The Taxonomy-alignment data is based solely on disclosures by non-financial entities that have been captured by the data provider. When reporting guidelines are not exactly followed, for example where revenue is only provided for a subset of activities combined instead of per activity, then this is not captured.

The figures are not subject to an assurance provided by one or more auditors or a review by one

greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue

from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

While the Fund promoted environmental and social characteristics, it did not commit to making any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By avoiding investment in non-renewable energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By avoiding investment in weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

By avoiding investment in companies involved in severe controversies (i.e., companies which do not meet the labour, customers, human rights, environmental, governance and anticorruption standards as defined by the United Nations Global Compact Principles (UNGC) and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's PAI data vendor.

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Please see the information below in this respect.

What was the asset allocation?

The Fund invested 99.41% (compared to year end June 2023: 99.10%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 0.59% (compared to year end June 2023: 0.90%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

The following table details sectors and sub-sectors where investments of the Fund were made. These figures have used the breakdown for Energy and Utilities at level 1 and 4 (as defined by the Industry Benchmark Classification) with the other sectors at level 1 and 2.

These figures are percentages of net assets and are the weighted averages of the market value as at the end of September 2023, December 2023, March 2024 and June 2024.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the Taxonomy Regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the graph below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 0.00%
- Climate Change Adaptation = 0.00%

Due to the lack of reliable taxonomy-aligned data, our periodic reports do not reflect where the fund contributed to any of the following environmental objectives. We are currently working to resolve this, and we aim to be in a position to report the full reporting period of the environmental objectives in subsequent periodic reports:

- Sustainable use and protection of water and marine resources
- Transition to a circular economy
- Pollution prevention and control
- Protection and restoration of biodiversity and ecosystems

In each case the figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The Taxonomy-alignment data is based solely on disclosures by non-financial entities that have been captured by the data provider. When reporting guidelines are not exactly followed, for example where revenue is only provided for a subset of activities combined instead of per activity, then this is not captured.

The figures are not subject to an assurance provided by one or more auditors or a review by one or more third parties.

levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue

from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

At the end of the reference period the Fund had no sovereign exposure (i.e., exposure to governments, central banks or supranational issuers).

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?**

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.00%
- Enabling Activities = 0.00%

The figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The figure reported for Climate Change Mitigation in the previous report was overstated and has been corrected as shown below:

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Climate Change Mitigation	0.00
Climate Change Adaptation	N/A

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining 0.59% (compared to year end June 2023: 0.90%) of the Fund’s net assets are in financial derivative instruments and other assets and liabilities (“#2 Other”) which are not aligned with environmental and/or social characteristics promoted by the Fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded stocks of companies that the sponsor of the Index determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several ‘lines of defense’, including Vanguard’s portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider’s own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Please see the information below in this respect.

● ***How does the reference benchmark differ from a broad market index?***

The Index was constructed from the FTSE North America All Cap Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and social characteristics by excluding fixed income securities from its portfolio based on the impact of the issuer's conduct or products on society and / or the environment.

This Fund is passively managed. Its objective is to track the performance of the Bloomberg MSCI EUR Corporate Liquid Bond Screened Index (the "Index"). For this reason, the Index also serves as the designated reference benchmark for the purpose of attaining the environmental and / or social characteristics promoted by the Fund.

The Index excluded the bonds of issuers that MSCI determines engage in activities in, and/or derive revenue (above a threshold specified by the Index Provider) from, certain business segments of the following:

- (a) Vice Products (i.e., adult entertainment, alcohol, gambling, tobacco)
- (b) Weapons (i.e., nuclear weapons, controversial weapons, conventional weapons, civilian firearms)
- (c) Non-Renewable Energy (i.e., nuclear power, thermal coal and oil and gas)

The index methodology also excluded the bonds of issuers that, as determined by MSCI, have no controversy score or a controversy score of less than one as defined by MSCI's ESG controversies assessment framework.

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 1.74%
- Climate Change Adaptation = 0.06%

Due to the lack of reliable taxonomy-aligned data, our periodic reports do not reflect where the fund contributed to any of the following environmental objectives. We are currently working to resolve this, and we aim to be in a position to report the full reporting period of the environmental objectives in subsequent periodic reports:

● ***How did the sustainability indicators perform?***

The Investment Manager measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the Bloomberg Euro-Aggregate: Corporates Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the reference benchmark appropriately. The exclusions were applied without issue and the appropriate controls were followed.

The proportion of the portfolio excluded from the Parent Index as a result of the application of the exclusions described above can be found in the table below. These figures are the weighted average of actual rate of exclusion by market value as at the end of September 2023, December 2023, March 2024 and June 2024.

*From year end June 2024 we have started to break out the exclusion categories. Constituents can be excluded under multiple categories and the below numbers are not mutually exclusive.

The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By avoiding investment in non-renewable energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By avoiding investment in weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

By avoiding investment in companies involved in severe controversies (i.e., companies which do not meet the labour, customers, human rights, environmental, governance and anticorruption standards as defined by the United Nations Global Compact Principles (UNGC) and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are the weighted averages of actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's PAI data vendor.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.05%
- Enabling Activities = 1.15%

The figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The figure reported for Climate Change Mitigation in the previous report was overstated and has been corrected as shown below:

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining 1.11% (compared to year end June 2023: 1.19%) of the Fund’s net assets are in financial derivative instruments and other assets and liabilities (“#2 Other”) which are not aligned with environmental and/or social characteristics promoted by the Fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded the bonds of issuers that MSCI determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several ‘lines of defense’, including Vanguard’s portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider’s own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria. Further monitoring is in place surrounding new issues which may be eligible for inclusion in the Fund between rebalances.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ **Yes**

☒ ☐ ☒ **No**

☐ It made **sustainable investments with an environmental objective**: __%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: __%

☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and social characteristics by excluding fixed income securities from its portfolio based on the impact of the issuer's conduct or products on society and / or the environment.

This Fund is passively managed. Its objective is to track the performance of the Bloomberg MSCI Global Corporate Float-Adjusted Liquid Bond Screened Index (the "Index"). For this reason, the Index also serves as the designated reference benchmark for the purpose of attaining the environmental and / or social characteristics promoted by the Fund.

The Index excluded the bonds of issuers that MSCI determines engage in activities in, and/or derive revenue (above a threshold specified by the Index Provider) from, certain business segments of the following:

- (a) Vice Products (i.e., adult entertainment, alcohol, gambling, tobacco)
- (b) Weapons (i.e., nuclear weapons, controversial weapons, conventional weapons, civilian firearms)
- (c) Non-Renewable Energy (i.e., nuclear power, thermal coal and oil and gas)

The index methodology also excluded the bonds of issuers that, as determined by MSCI, have no controversy score or a controversy score of less than one as defined by MSCI's ESG controversies assessment framework.

Derivatives have not been used to meet the environmental or social characteristics of this Fund.

The investments of this Fund contributed to the following EU Taxonomy environmental objectives:

- Climate Change Mitigation = 0.56%
- Climate Change Adaptation = 0.03%

Due to the lack of reliable taxonomy-aligned data, our periodic reports do not reflect where the fund contributed to any of the following environmental objectives. We are currently working to resolve this, and we aim to be in a position to report the full reporting period of the environmental objectives in subsequent periodic reports:

- Sustainable use and protection of water and marine resources
- Transition to a circular economy
- Pollution prevention and control
- Protection and restoration of biodiversity and ecosystems

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● ***How did the sustainability indicators perform?***

The Investment Manager measured the attainment of the environmental and social characteristics by assessing the extent to which the exclusion criteria described above were applied and measuring the proportion of the portfolio excluded from the Parent Index (being the Bloomberg Global Aggregate Float Adjusted Corporate Index).

Regarding the extent to which the exclusions have been applied, the Fund tracked the reference benchmark appropriately. The exclusions were applied without issue and the appropriate controls were followed.

The proportion of the portfolio excluded from the Parent Index as a result of the application of the exclusions described above can be found in the table below. These figures are the weighted average of actual rate of exclusion by market value as at the end of September 2023, December 2023, March 2024 and June 2024.

*From year end June 2024 we have started to break out the exclusion categories. Constituents can be excluded under multiple categories and the below numbers are not mutually exclusive.

Exclusion Category*	Exclusion Rate (%)
Controversies	3.96%
Non-Renewable Energy	17.54%

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

While the Fund promoted environmental and social characteristics, it did not commit to making any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By avoiding investment in non-renewable energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By avoiding investment in weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

By avoiding investment in companies involved in severe controversies (i.e., companies which do not meet the labour, customers, human rights, environmental, governance and anticorruption standards as defined by the United Nations Global Compact Principles (UNGC) and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are the weighted averages of actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's PAI data vendor.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Please see the information below in this respect.

What was the asset allocation?

The Fund invested 98.73% (compared to year end June 2023: 98.31%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 1.27% (compared to year end June 2023: 1.69%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

The following table details sectors and sub-sectors where investments of the Fund were made. These figures have used the breakdown for Energy and Utilities at level 1 and 4 (as defined by the Global Industry Classification System) with the other sectors at level 1 and 2.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the Taxonomy Regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the graph below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 0.56%
- Climate Change Adaptation = 0.03%

Due to the lack of reliable taxonomy-aligned data, our periodic reports do not reflect where the fund contributed to any of the following environmental objectives. We are currently working to resolve this, and we aim to be in a position to report the full reporting period of the environmental objectives in subsequent periodic reports:

In each case the figures are the weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The Taxonomy-alignment data is based solely on disclosures by non-financial entities that have been captured by the data provider. When reporting guidelines are not exactly followed, for example where revenue is only provided for a subset of activities combined instead of per activity, then this is not captured.

are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

While the Fund promoted environmental and social characteristics, it did not commit to making any sustainable investments. This is separate to our EU Taxonomy-alignment disclosures.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors during the reference period.

By avoiding investment in non-renewable energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)), the Fund considered the following principal adverse impact indicator:

- Exposure to companies active in the fossil fuel sector

By avoiding investment in weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons), the Fund considered the following principal adverse impact indicator:

- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

By avoiding investment in companies involved in severe controversies (i.e., companies which do not meet the labour, customers, human rights, environmental, governance and anticorruption standards as defined by the United Nations Global Compact Principles (UNGC) and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises), the Fund considered the following principal adverse impact indicator:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

The values of these principal adverse impact indicators can be found in the table below. These figures are the weighted averages of actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The data relating to these principal adverse indicators may be greater than zero because of the data methodology differences between the Index provider and Vanguard's PAI data vendor.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Please see the information below in this respect.

What was the asset allocation?

The Fund invested 98.83% (compared to year end June 2023: 98.32%) of its net assets in line with the ESG requirements of the Index, which is consistent with the environmental and/or social characteristics promoted by the Fund. The Fund did not commit to making any sustainable investments. The Fund did not use indirect exposures (including derivatives) to attain the environmental or social characteristics promoted by the Fund.

The remaining 1.17% (compared to year end June 2023: 1.68%) of the Fund's net assets are in other investments ("#2 Other"), which are not aligned with environmental and/or social characteristics promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

The following table details sectors and sub-sectors where investments of the Fund were made. These figures have used the breakdown for Energy and Utilities at level 1 and 4 (as defined by the Global Industry Classification System) with the other sectors at level 1 and 2.

These figures are percentages of net assets and are the weighted averages of the market value as at the end of September 2023, December 2023, March 2024 and June 2024.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund does not commit to making environmentally sustainable investments within the meaning of the Taxonomy Regulation, the overall Taxonomy-alignment of the Fund, for the reference period, is set out in the graph below.

The proportion of the Fund's investments that contributed to each of the environmental objectives is as follows:

- Climate Change Mitigation = 0.01%
- Climate Change Adaptation = 0.00%

Due to the lack of reliable taxonomy-aligned data, our periodic reports do not reflect where the fund contributed to any of the following environmental objectives. We are currently working to resolve this, and we aim to be in a position to report the full reporting period of the environmental objectives in subsequent periodic reports:

- Sustainable use and protection of water and marine resources
- Transition to a circular economy
- Pollution prevention and control
- Protection and restoration of biodiversity and ecosystems

In each case the figures are the weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

The Taxonomy-alignment data is based solely on disclosures by non-financial entities that have been captured by the data provider. When reporting guidelines are not exactly followed, for example where revenue is only provided for a subset of activities combined instead of per activity, then this is not captured.

The figures are not subject to an assurance provided by one or more auditors or a review by one

greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?**

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of the Fund's investments made in transitional and enabling activities is as follows:

- Transitional Activities = 0.00%
- Enabling Activities = 0.01%

The figures are weighted averages of the actual values as at the end of September 2023, December 2023, March 2024 and June 2024.

For this section, data is provided by third parties which may use different approaches to assess ESG credentials, and therefore result in different outcomes in their determination of a company's involvement in certain business activities. We carry out an annual review of the data as the availability, and quality, of the ESG data evolves. Third parties assume no responsibility for errors or omissions in the data.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The figure reported for Climate Change Mitigation in the previous report was overstated and has been corrected as shown below:

Environmental Objectives	2023
Climate Change Mitigation	0.00
Climate Change Adaptation	N/A

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The remaining 1.17% (compared to year end June 2023: 1.68%) of the Fund’s net assets are in financial derivative instruments and other assets and liabilities (“#2 Other”) which are not aligned with environmental and/or social characteristics promoted by the Fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Index excluded the bonds of issuers that MSCI determined to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, certain activities in order to promote the environmental and social characteristics of the Fund. In order to ensure that the Fund promoted such characteristics on an ongoing basis, the Investment Manager monitored the Index and its exclusions on a regular basis to ensure the alignment of the investment strategy with the methodology of the Index.

Rebalancing activity in ESG index funds is reviewed and overseen by several ‘lines of defense’, including Vanguard’s portfolio management, risk management, investment data and product teams. Inputs from third-party data providers, consistent with the Index provider’s own ESG data, were used to analyse Index constituents as part of this review process. This helped mitigate the risk of the Fund holding Index constituents that were inconsistent with the specified ESG screening criteria. Further monitoring is in place surrounding new issues which may be eligible for inclusion in the Fund between rebalances.

There are additional internal trade compliance controls, that checked whether new instruments bought were Index constituents as well as checking for any Fund holdings that may no longer be part of the Index. These checks aimed to confirm that out of Index holdings were not added and were removed in a timely fashion. The Investment Manager monitored tracking error (difference between portfolio and Index) on a daily basis and followed up on any significant deviations.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Please see the information below in this respect.

● *How does the reference benchmark differ from a broad market index?*

The Index was constructed from the Bloomberg Global Aggregate Corporate – United States Dollar Index which was then screened for certain environmental, social, and corporate governance criteria by the sponsor of the Index, which is independent of Vanguard.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

See above.

● *How did this financial product perform compared with the reference benchmark?*

The figures in the table below show financial performance between July 1st 2023 and June 30th 2024.
