This interim report and unaudited financial statements (the "Report and Financial Statements") may be translated into other languages. Any such translation shall only contain the same information and have the same meaning as the English language Report and Financial Statements. To the extent that there is any inconsistency between the English language Report and Financial Statements and the Report and Financial Statements in another language, the English language Report and Financial Statements will prevail, except to the extent (and only to the extent) that it is required by law of any jurisdiction where the shares are sold, that in an action based upon disclosure in a Report and Financial Statements in a language other than English, the language of the Report and Financial Statements on which such action is based shall prevail. Any disputes as to the terms of the Report and Financial Statements, regardless of the language of the Report and Financial Statements, shall be governed by and construed in accordance with the laws of Ireland.

# iSHARES IV PLC

## BACKGROUND

iShares IV public limited company (the "Entity") is an open-ended investment company with variable capital. The Entity was incorporated in Ireland on 3 July 2009 with limited liability and segregated liability between its funds and is organised under the laws of Ireland and is regulated by the Central Bank of Ireland ("CBI") as a public limited company pursuant to the Companies Act 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations").

The Entity is structured as an umbrella fund and comprises of separate funds ("Fund") of the Entity. The shares of each Fund may be grouped into different classes of shares (each a "share class"). Each Fund will represent a separate portfolio of assets and may consist of one or more share classes. Each share class may apply different subscription and redemption provisions, charges, fees or brokerage arrangements. The creation of an additional class of shares will be notified to the CBI in advance. The portfolio of assets maintained for each Fund will be invested in accordance with the investment objectives and policies applicable to each Fund as set out in the prospectus.

While assets and liabilities that are specific to a share class within a Fund would be attributable to (and should be borne by) only that share class, there is no segregation of liabilities between share classes as a matter of Irish law. Due to the lack of segregation of liabilities as a matter of law, there is a risk that the creditors of a share class may bring a claim against the assets of the Fund notionally allocated to other share classes.

The term "Fund" or "Financial Product" shall be deemed to mean either a Fund or Funds of the Entity, or if the context so requires, the Manager or its delegate acting for the accounts of the relevant Fund. The term "BlackRock" and "Investment Manager" are used to represent BlackRock Advisors (UK) Limited as appropriate. All references to "redeemable shares" shall be deemed to mean redeemable participating shares when Fund shares are classified as financial liabilities. The term "Directors" means the directors of the Entity.

Further details, including the investment objectives and minimum subscription requirements, are set out in the Entity's prospectus.

## Fund details

The Entity had 67 Funds approved in Switzerland for offer to non-qualified investors as at 30 November 2024.

These Funds are Exchange Traded Funds ("ETFs"), which provide the flexibility of a share with the diversification of a Fund. They can be bought and sold like any other share listed on a stock exchange, but provide instant exposure to many companies or various financial instruments relevant to the Fund and its benchmark index.

## Changes to the Entity during the financial period

On 24 June 2024, an updated prospectus was issued by the Entity to update benchmark index description for iShares Electric Vehicles and Driving Technology UCITS ETF.

On 30 August 2024, an updated prospectus was issued by the Entity.

On 30 September 2024, Peter Vivian resigned as a non-executive Director.

On 4 October 2024, an updated prospectus was issued by the Entity to reflect Fund name changes listed in the following table. Additionally, investment management approach and investment policy was updated for certain Funds.

On 22 November 2024, Manuela Sperandeo was appointed as a non-executive Director.

The following share classes were launched during the financial period:

| Fund name                                | Share class       | Launch date  |
|--|-------------------|--------------|
| iShares \$ Treasury Bond 20+yr UCITS ETF | AUD Hedged (Dist) | 25 June 2024 |

# iSHARES IV PLC

## BACKGROUND (continued)

### Changes to the Entity during the financial period (continued)

| Fund name                                     | Share class       | Launch date     |
|---|-------------------|-----------------|
| iShares MSCI Japan ESG Enhanced UCITS ETF     | EUR Hedged (Acc)  | 1 August 2024   |
| iShares MSCI World ESG Screened UCITS ETF     | GBP Hedged (Dist) | 24 October 2024 |
| iShares \$ Short Duration Corp Bond UCITS ETF | EUR Hedged (Dist) | 25 October 2024 |
| iShares € Ultrashort Bond UCITS ETF           | CHF Hedged (Acc)  | 25 October 2024 |

The total expense ratio ("TER") was reduced for the following Funds during the financial period:

| Fund/Share class   | Previous TER | Updated TER | Date of update   |

| iShares MSCI World SRI UCITS ETF                | MSCI World SRI Select Reduced Fossil Fuel Index           | Index tracking - replicating     |
| iShares NASDAQ US Biotechnology UCITS ETF       | NASDAQ Biotechnology Index                                | Index tracking - replicating     |
| iShares Smart City Infrastructure UCITS ETF     | STOXX Global Smart City Infrastructure Index              | Index tracking - non-replicating |
| iShares US Mortgage Backed Securities UCITS ETF | Bloomberg US Mortgage Backed Securities Index             | Index tracking - non-replicating |

Further information on the index investment strategies used is detailed below:

- For physically replicating funds, the investment management approach is to buy a portfolio of securities that as far as practicable consist of the securities that make up the benchmark index, in similar proportion to the weights represented in the benchmark index over a defined period of time.
- For non-replicating funds, the investment management approach aims to match the main risk characteristics of the benchmark index by investing in a portfolio that is primarily made up of securities that represent the benchmark index. The objective is to generate a return which is as close as practicable to the total return of the benchmark index net of transaction costs and gross of fees and other costs.

### Performance summary and tracking error

The following table compares the realised Fund performance against the relevant benchmark index for the 6 month period ended 30 November 2024. It also discloses the anticipated tracking error of the Fund (disclosed in the prospectus on an ex-ante basis) against the actual realised tracking error of the Funds as at 30 November 2024.

Further information on these performance measures and calculation methodologies used is detailed below:

- Fund returns disclosed are the performance returns for the primary share class for each Fund, net of fees and expenses charged directly within the relevant share class, which has been selected as a representative share class. The primary share class represents the class of share invested in by the majority of investors in the Fund and also takes into account other relevant factors such as the Fund's base currency. The returns disclosed for the comparative are in the same currency as the primary share class, unless otherwise stated. The return of the primary share class disclosed may differ to the aggregate Fund performance for all share classes as reported in the financial statements primarily due to the impact of foreign currency translation and share class specific expenses. Performance returns for any other share class can be made available on request.
- For Funds that commenced trading and/or fully redeemed during the financial period, returns are shown from the date the Fund commenced trading and/or to the date the Fund fully redeemed, and the TER is the effective TER from the date the Fund commenced trading and/or to the date the Fund fully redeemed.
- Fund returns are based on the net asset value ("NAV") calculated in accordance with the prospectus for the financial period under review with any dividends reinvested. Returns less than 0.005% are rounded down to zero. Where, due to a public holiday or market closure, a date relevant to determination of the fund returns would not be a dealing day (such that a NAV would not otherwise be calculated on that day), a NAV may nevertheless be determined and calculated in accordance with the prospectus for the purposes of these disclosures. Additionally, due to Financial Reporting Standard 104 Interim Financial Reporting ("FRS 104") requirements which apply to the financial statements, there may be differences between the NAV per share as recorded in the financial statements and the NAV per share calculated in accordance with the prospectus.

## INVESTMENT MANAGER'S REPORT (continued)

### Performance summary and tracking error (continued)

- Each Fund's TER is accrued on a daily basis throughout the financial year, which can impact the measurement of a tracking difference in a positive or negative manner depending on the performance in the market and the TER rate applied. The extent and magnitude of this effect on performance measurement is subject to the timing of the market performance relative to the performance period of the Fund and can be greater than the headline TER in a positive market and lower than the TER in a negative market. The TER expresses the sum of all fees, operating costs and expenses, with the exception of direct trading costs, charged to each Fund's assets as a percentage of the average Fund assets based on a twelve-month period ended 30 November 2024.
- Anticipated tracking error is based on the expected volatility of differences between the returns of a fund and the returns of its benchmark index.
- Realised tracking error is the annualised standard deviation of the difference in monthly returns between a fund and its benchmark index. Tracking error shows the consistency of the returns relative to the benchmark index over a defined period of time. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period. Where a Fund has not been trading for 36 months, the annualised tracking error since inception has been presented.

Net income difference and tax may also impact tracking error due to withholding tax suffered by the Fund on any income received from its investments. The level and quantum of tracking error arising due to withholding taxes depends on various factors such as any reclaims filed on behalf of the Fund with various tax authorities, any benefits obtained by the Fund under a tax treaty or any securities lending activities carried out by the Fund. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

| Fund name  | Fund return % | Benchmark index return % | TER % | Anticipated tracking error % | Realised tracking error % | Other tracking error drivers |

<sup>a</sup>The realised tracking error was driven by differences in valuation between the benchmark index and the Fund at December 2022 month end.

<sup>b</sup>The realised tracking error was driven by the difference in the treatment of the voluntary corporate action between the Fund and the benchmark index.

<sup>c</sup>The realised tracking error was driven by the fair valuation of Russian assets when they became suspended from trading.

<sup>d</sup>The realised tracking error was driven by the differences in valuation between the benchmark index and the Fund, given that the Fund was closed on 2024 Good Friday while certain markets are open.

<sup>e</sup>The realised tracking error was driven by sampling and corporate action event of a single issuer in November 2023.

<sup>f</sup>The realised tracking error was driven by the sharp rise in index rebalance turnover in India over the last two years due to which there were higher trade charges, FX differences and higher capital gains tax incurred by the Fund.

<sup>g</sup>The realised tracking error was driven by the difference in tax rate applied to dividends received in the Fund versus the tax rate assumed in the total return calculation of the benchmark index.

## INVESTMENT MANAGER'S REPORT (continued)

### Global economic overview

Global equities, as represented by the MSCI All Country World Index, returned 10.55% (in US Dollar terms) during the six months ended 30 November 2024. Equities gained amid milder inflation (the rate of increase in the prices of goods and services) and a shift in monetary policy from the world's largest central banks. However, heightened geopolitical tensions during the six-month period, including the war in the Middle East and the threat of protectionism in the US, raised the prospect of disruption to the global economy.

Having slowed somewhat at the start of 2024, economic growth in the US remained strong in the second and third quarters, as a result of resilient consumer spending. In Japan, gross domestic product ("GDP") continued its recovery from a period of contraction: the measure expanded by an annual rate of 0.9% in the third quarter, following 3.1% growth in the second quarter. The UK economy grew by 0.5% in the second quarter as services and production output accelerated, but the pace of expansion subsequently slowed. The Eurozone returned to growth, helped by the strong performance of several of the currency union's smaller nations, including Ireland, Spain and Portugal. Eurozone inflation remained moderate, as consumer spending was tepid and confidence remained below pre-pandemic levels.

Most emerging markets continued to expand, although geopolitical conflict and high interest rates presented significant economic challenges. Chinese GDP grew more slowly than expected amid concerns about the country's real estate sector and weak factory output. However, the announcement of a new round of stimulus measures in September 2024 was received positively by investors. India's economy continued to post strong growth, and industrial production grew on an annual basis throughout the period.

Central banks in the west started to loosen monetary policy. The US Federal Reserve ("the Fed") reduced interest rates for the first time in over four years in September 2024, while continuing to reduce some of the accumulated bond holdings on its balance sheet. The Fed made a further cut in November. The Bank of England ("BoE") began cutting interest rates in August 2024 after inflation in the UK had fallen to its 2.0% target. The European Central Bank ("ECB") reduced interest rates on three occasions between June and October. Having raised interest rates in March 2024, the Bank of Japan ("BoJ") did so again in July. These were the first increases in borrowing costs in Japan since 2007.

Global equity performance was positive overall: declining inflation made it increasingly likely that monetary policy would continue to loosen, although signs of slowing economic growth caused concern among investors in August. US stocks posted robust gains as the US economy performed better than most developed countries, with major technology stocks continuing to advance on hopes that developments in artificial intelligence would drive growth. Investors also reacted positively to Donald Trump's victory in the US presidential election in November 2024. Stocks in Asia also gained, with particularly sharp rises later in the six-month period following the announcement of a new stimulus package in China. Emerging market stocks posted solid returns, helped by the prospect of monetary policy loosening in developed economies. However, performance among European stocks was mixed due to political uncertainty and a deteriorating economic outlook.

Globally, bonds and equities that factor companies' environmental, social and governance ("ESG") characteristics faced regulatory concerns and shifting investor sentiment. Despite this, ESG funds experienced positive inflows overall. Although European investment held up, there were outflows in the US.

Global government bond yields (which move inversely to prices) declined over the summer in anticipation of interest rate cuts in the US. However, yields rose on US Treasuries in October and November due to uncertainty surrounding the outcome of the US presidential election and the potentially inflationary impact of the Donald Trump administration's economic policies.

Yields on UK gilts and European government bonds followed a similar trajectory: yields on French government bonds rose particularly sharply after the surprise announcement of national elections in June 2024 and then again in November as the new government struggled to pass its first budget. Japanese government bond yields fell back in August due to the strengthening yen before rising in October and November on expectations of further BoJ interest rate increases. Global corporate bond performance was broadly positive; increasing bond yields attracted investors, and continued resilience in the global economy alleviated credit concerns, particularly for high-yield bonds.

## INVESTMENT MANAGER'S REPORT (continued)

### Global economic overview (continued)

In commodities markets, Brent crude oil prices rose in July as continued instability in the Middle East perturbed investors but fell back following global production increases and news of a ceasefire between Israel and Hezbollah in Lebanon. Gold prices increased significantly amid rising geopolitical tensions, the likelihood of Fed interest rate reductions and demand from investors in Asia. Having peaked in May, copper prices declined due to concerns about falling industrial output in China and the potential impact of US tariffs in 2025.

In foreign exchange markets, the US Dollar's performance relative to other major global currencies was mixed. The US Dollar fell sharply against the Japanese Yen and declined slightly versus the Chinese Yuan. It was flat against Sterling, but rose against the Euro.

# iSHARES IV PLC

## NOTES TO THE FINANCIAL STATEMENTS

### 1. General information

The Entity is an open-ended investment company domiciled and incorporated under the laws of Ireland as a public limited company. The Entity is authorised by the CBI and is governed by the provisions of the UCITS Regulations with its registered office at J.P Morgan, 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

### 2. Significant accounting policies

#### 2.1 Basis of preparation

The financial statements of the Entity are prepared in accordance with Financial Reporting Standard 104 Interim Financial Reporting ("FRS 104") applicable in the United Kingdom and Republic of Ireland. The principal accounting policies and estimation techniques are consistent with those applied to the previous annual financial statements.

All amounts have been rounded to the nearest thousand, unless otherwise indicated.

### 3. Financial risks

Each Fund's investment activities expose it to the various types of risk which are associated with the financial instruments and markets in which it invests. The risks are substantially consistent with those disclosed in the previous annual financial statements.

#### 3.1 Market risk arising from price risk

Price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions, or other events could have a significant impact on each Fund and the market price of its investments.

### 4. Fair value hierarchy

Each Fund classifies financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly. This category includes instruments valued using: quoted prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability. This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation. This category also includes instruments that are valued based on quoted prices for similar instruments where significant Entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

Specific valuation techniques used to value financial instruments classified as level 2 and/or level 3 include:

- (i) for debt and equity instruments, the use of quoted market prices or dealer quotes for similar instruments;

# iSHARES IV PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 4. Fair value hierarchy (continued)

- (ii) for investments which are a share of participation in an investee collective investment scheme ("CIS") and investments in ETFs where the Fund typically trades the units held at the latest NAV for that ETF, are valued at the unaudited NAV, and where available the independently audited NAV, on the valuation date of such unit of participation as calculated by the administrator of the investee CIS and ETF and in accordance with the requirements of the scheme of which the relevant investment is a share of participation. The unaudited NAV of the underlying investee CIS and ETF is reflected gross of any redemption costs which may potentially arise upon redemption from the underlying CIS and ETF. The unaudited NAV of the underlying investee CIS and ETF may be subject to adjustments upon issuance of their respective independently audited financial statements and such adjustments may be material to the Fund's financial statements;
- (iii) for foreign equities, using independent fair value adjustment factors to reflect the difference between the last market close and the valuation point of each Fund;
- (iv) for defaulted debt instruments, the use of recent transactions and defaulted equity instruments for which market data is unavailable;
- (v) for total return swaps, the value of the estimated cash flows based on the market value of the underlying reference assets or index at the condensed balance sheet date; and
- (vi) for foreign currency forwards, present value of future cash flows based on the forward exchange rates at the condensed balance sheet date.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, a contingent consideration receivable and certain derivative contracts, where the fair values have been determined based on present values and the discount rates used were either not market observable or adjusted for counterparty or own credit risk, or certain CISs which have gates or redemption restrictions imposed or that can't be redeemed within 90 days, are included in level 3.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' inputs requires significant judgement. The Directors consider observable inputs to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 5. Operating expenses

The Entity employs an "all in one" fee structure for its Funds, with each Fund paying all of its fees, operating costs and expenses (and its due proportion of any costs and expenses allocated to it) as a single flat fee (the TER). Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by each Fund to that share class. The TER is calculated in accordance with the CESR/10-674 Committee of European Securities Regulators ("CESR") (European Securities and Markets Authority's ("ESMA") precursor) guidelines on the methodology for calculation of the ongoing charges figure in the KIID or the product page of the website at <https://www.ishares.com>.

The Manager is responsible for discharging all operational expenses, including but not limited to fees and expenses of the Directors, Investment Manager, Depositary, Administrator, Transfer Agent and Registrar from the amounts received by the Manager from the TER. Such operational expenses include regulatory and audit fees but exclude transaction costs and extraordinary legal costs. In the event a Fund's costs and expenses in connection with the operation of the Fund exceed the stated TER, the Manager will discharge any excess amount out of its own assets.

#### **Management fees (inclusive of investment management fees):**

The Manager is entitled to an annual fee at rates not exceeding those set out on the following table. These rates are the maximum fee rates as at 30 November 2024:

| Fund name <sup>1</sup>  | Share class       | TER (%)<br>Currency hedged<br>Fund/share classes | TER (%)<br>Unhedged<br>Fund/share classes |

<sup>1</sup>Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by the Fund to that share class.

<sup>2</sup>This charge can be up to 1.00%. Any increase in this charge will be subject to prior shareholder approval.

<sup>3</sup>As this Fund/share class launched during the financial period, the fees, operating costs and expenses used to calculate the TER have been annualised.

Whilst it is anticipated that the TER borne by a Fund or share class shall not exceed the amounts set out above during the life of each Fund or share class (respectively) such amounts may need to be increased. Any such increase will be subject to the prior shareholder approval of the relevant Fund or share class evidenced either by a majority vote at a meeting of shareholders or by a written resolution of all of the shareholders.

# iSHARES IV PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 5. Operating expenses (continued)

#### Management fees (inclusive of investment management fees) (continued):

As disclosed, no commissions, discounts, brokerages or other special terms have been granted or are payable by the Entity in connection with the issue or sale of any capital of the Entity.

# iSHARES IV PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 6. Distributions to redeemable shareholders

The Entity may declare and pay dividends on any distributing class of shares in the Entity. In accordance with the prospectus, any dividend which has remained unclaimed for twelve years from the date of its declaration shall be forfeited and cease to remain owing by the Entity to investors and become the property of the relevant Fund.

Distributions declared during the financial period were as follows:

# iSHARES IV PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 7. Taxation (continued)

#### Irish tax

Under current law and practice, the Entity qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Entity in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Entity; or the Entity has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the Entity with the necessary signed annual declarations; and
- c) Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners (such as CREST) will not constitute a chargeable event. It is the current intention of the Directors that all the shares in the Entity will be held in CREST or another recognised clearing system.

#### Overseas tax

Dividends, interest and capital gains (if any) received on investments made by the Entity may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Entity or its shareholders.

For financial reporting purposes, and in accordance with FRS 104, the Entity must recognise a provision for deferred tax payable arising from material timing differences between the taxation of unrealised gains in the financial statements and actual realisable taxable profits.

The Organisation for Economic Co-operation and Development ("OECD") issued model rules for a new global minimum tax framework ("Pillar Two") which is effective for accounting periods beginning on or after 31 December 2023. As at the period end, the Entity is still currently assessing whether the Funds are in the scope of Pillar Two as well as the potential exposure, if any, to Pillar Two income taxes.

### 8. Share capital

#### Authorised

The authorised share capital of the Entity is 2 subscriber shares of a par value of GBP1.00 each and 500,000,000,000 participating shares of no par value.

#### Subscriber shares

2 subscriber shares are currently in issue and are held by the Manager or by nominees of the Manager at 30 November 2024 and 31 May 2024. They do not form part of the NAV of the Entity. They are thus disclosed in the financial statements by way of this note only. In the opinion of the Directors this disclosure reflects the nature of the Entity's investment business.

#### Voting rights

The holders of the subscriber shares and redeemable shares shall, on a poll, be entitled to one vote per share.

The Investment Manager will arrange for the fees and expenses of the Sub-Investment Managers to be paid out of the Investment Manager's own fees.

The Directors as at 30 November 2024 are presented in the table below:

| Director          | Employee of the BlackRock Group | Director of BlackRock affiliates and/or other funds managed by BlackRock |
|-------------------|---------------------------------|--|
| William McKechnie | No                              | Yes  |
| Padraig Kenny     | No                              | Yes  |
| Ros O'Shea        | No                              | Yes  |
| Deirdre Somers    | No                              | Yes  |
| Manuela Sperandeo | Yes                             | Yes  |

Directors' fees are disclosed in the statutory information note to the financial statements. The aggregate emolument of the Directors relates to services provided as directors. The Directors who are also employees of the BlackRock Group are not entitled to receive Directors' fees.

### Holdings in other funds managed by BlackRock/BlackRock affiliates

Investments in funds managed by BlackRock, Inc. and investments that are BlackRock affiliates are listed below and marked on the relevant Funds' schedules of investments. For underlying funds which are subject to investment management fees, these have been rebated back to the Fund.

# iSHARES IV PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 11. Related party transactions (continued)

#### **Holdings in other funds managed by BlackRock/BlackRock affiliates (continued):**

The Entity invested in the following funds which are also managed by the Manager. For income earned on these related party funds please refer to the operating income on the condensed income statement. Further information on the fees charged from investing in these underlying funds is presented in the table below. These disclosed fees are the maximum charges capped as per the prospectus of the underlying funds and actual fees charged may be lower:

| Investments  | Fee paid by Fund                                   |
|--|--|
| <b>Investment Company – UCITS authorised in Ireland by CBI</b>   |  |
| BlackRock ICS Euro Liquid Environmentally Aware Fund   | Annual expense capped at 0.03% of NAV <sup>1</sup> |
| BlackRock ICS Euro Liquidity Fund  | Annual expense capped at 0.03% of NAV <sup>1</sup> |
| BlackRock ICS Sterling Liquid Environmentally Aware Fund   | Annual expense capped at 0.03% of NAV <sup>1</sup> |
| BlackRock ICS Sterling Liquidity Fund  | Annual expense capped at 0.03% of NAV <sup>1</sup> |
| BlackRock ICS US Dollar Liquid Environmentally Aware Fund  | Annual expense capped at 0.03% of NAV <sup>1</sup> |
| BlackRock ICS US Dollar Liquidity Fund   | Annual expense capped at 0.03% of NAV <sup>1</sup> |
| <b>Investment Company – UCITS authorised in Germany by Federal Agency for Financial Services Supervision (BaFin)</b> |  |
| iShares MSCI Brazil UCITS ETF (DE)   | Annual expense capped at 0.31% of NAV <sup>1</sup> |
| <b>Blackrock affiliates</b>  |  |
| BlackRock, Inc.  | N/A  |

<sup>1</sup>The Manager of these will be responsible for discharging from its fee the annual expenses of the Funds. Where actual fees and costs incurred exceed the amount paid to the Manager, the excess will be discharged by the Manager from its own assets.

All related party transactions were carried out at arm's length in the ordinary course of business. The terms and returns received by the related parties in making the investments were no more favourable than those received by other investors investing into the same share classes.

The previous table details the maximum fee charges capped as per the prospectus of the underlying funds. The table below discloses the amount of the management fee rebate received during the period on the Funds in the Entity that have invested into funds which are also managed by the Manager or an affiliate of the Manager:

| Fund name                          | Currency | Management fee rebate<br>for the period ended<br>30 November 2024 | Management fee rebate<br>for the period ended<br>30 November 2023 |
|------------------------------------|----------|---|---|
| iShares MSCI EM ex-China UCITS ETF | USD      | 128,008   | 20,503  |

#### **Significant investors**

As at 30 November 2024 and 31 May 2024, each Fund has a single shareholder which is a nominee of the common depositary for the International Central Securities Depositories (“ICSDs”) in which the shares of the Funds are cleared and settled. However, the beneficial ownership of such shares, and the voting rights in relation to such shares, are passed from the common depositary to the ICSDs and onwards to the participants of the ICSDs.
