

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Bantleon Yield, a sub-fund of BANTLEON ANLEIHENFONDS, class PA (ISIN: LU0261193329), EUR

This fund is managed by the BANTLEON AG (the »Management Company«), which belongs to the BANTLEON BANK Gruppe.

Objectives and investment policy

Bantleon Yield is a balanced bond fund that seeks to achieve high interest income and additional returns without incurring excessive debtor risk. Management of the fund is based on Bantleon's immunisation strategy, which combines a variety of return components. The fund's total return is comprised of the following components:

- Management of average bond maturities ranging from approx. 0 to 6 years
- Management of the yield curve
- Management of sector, industry and bond allocation based on a medium to good credit rating (investment grade rating)
- Inclusion of inflation-indexed bonds on an intermittent basis

The investment manager invests solely in investment grade bonds, especially global government bonds and also bonds from public authorities or companies from a member country of the OECD. Up to 50% of the fund assets may be invested in government bonds from the United States, the United Kingdom, Canada or Australia.

These investments may entail currency risks in USD, GBP, CAD and AUD, which are largely hedged. Unhedged foreign currency positions may make up no more than 10% of the fund assets.

Derivatives transactions may be made to hedge investments, to manage portfolio maturities and to hedge against currency risks.

Investors may demand to redeem their units every normal bank business day in Luxembourg.

The fund's earnings are distributed annually at the end of the fund's year.

Risk and reward profile

More about this rating

- The rating is based on price volatility over the last five years.
- Past data used in calculating the SRRI may not be a reliable indication of the future returns.
- The rating is not guaranteed to remain unchanged and the categorisation may shift over time.
- The lowest rating does not mean a risk-free investment. The differences between ratings are not based on a simple scale. 2 is not twice as risky as 1. The gap between 1 and 2 might not be the same as the gap between 2 and 3. The rating is not a target and the investment strategy is not managed to the rating. The rating is an absolute indicator of risk.

Why is this fund in Category 2?

The fund holds bonds ranging from high to medium quality and, as a result, is exposed to default risk in addition to interest rate risk. As the fund invests in a variety of maturities and debtor categories, it is subject to moderate to medium volatility.

Further material risks:

- Credit risks: The nature of its investment universe means that the fund is exposed to low to moderate default risk.
- Risks from the use of derivatives: The fund may use interest rate futures contracts for purposes consistent with its declared investment policy. This increases the opportunities while also increasing the risk of loss.
- Operational risks: The fund is subject to risks through operational or human error. The management company is monitored by independent internal and external auditors, as well as by the regulators.

Charges

The charges you pay are used to pay the costs of running the sub-fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	2.50%
Exit charge	0.00%
Conversion charge	2.50%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.75%
Charges taken from the fund under certain specific conditions	
Performance fee	none

The **entry charge** and **exit charge** shown are the maximum figures. In some cases you might pay less – the actual figure can be found out from your financial adviser.

The **ongoing costs** given here were incurred in the last twelve-month period. They may vary from year to year. They do not include:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, please see charges section of the fund's prospectus, which is available at **www.bantleon.com**

Past performance

Performance in the past is not a reliable indicator of future results

The chart shows the class's investment returns calculated as percentage year-end over year-end change of the class net asset value. In general any past performance takes account of all ongoing charges, but not the entry charge. If the sub-fund is managed against a benchmark, its return is also shown.

The class was launched on 15. January 2010.

The past performance is calculated in EUR.
