Profile

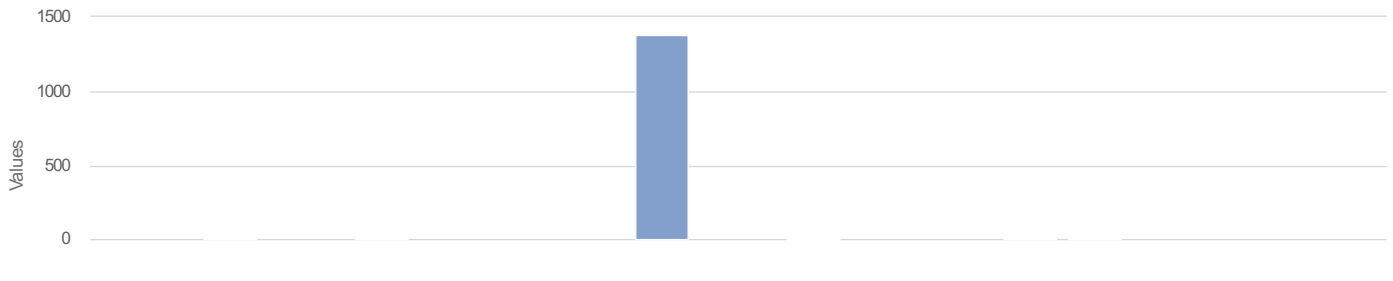

This sub-fund invests mainly in international bonds directly or indirectly through the UCITS that it holds, bearing in mind that investment in UCITS is limited to 10% of the sub-fund's net assets. The objective of the sub-fund is to outperform the JP Morgan Global Government Bond Index (JNUCGBIG), calculated with coupons reinvested, over a recommended minimum investment period of two years. The sub-fund is constructed on the basis of a reactive management strategy which evolves according to market trends and is based on specific strategic asset allocation. Within an international investment universe, the sub-fund offers active management on the international fixed income, credit and currency markets. The sub-fund's performance shall depend on the performance of the markets in relation to each other. In order to outperform the reference indicator, the management team establishes strategic positions and uses arbitrage on all international fixed income and currency markets,...
