## WHAT IS THIS PRODUCT?

### TYPE

This Fund is a UCITS according to European Directive 2009/65/EC.

### TERM

The Fund has been set-up for an indefinite period of time. In accordance with the Fund's rules, the assets belonging to the Fund are owned jointly by the Fund's unitholders. The Management Company may terminate the Fund's management according to the Fund's rules. In this case, the Management Company / the Fund's appointed depository will either entrust its management to another management company or the depository will liquidate the Fund and distribute the proceeds to the Fund's unitholders.

### OBJECTIVES

The Fund is a standard money market fund with a variable net asset value. The Fund aims to achieve an ongoing market-based return in line with the money market, taking into account capital security, value stability and the liquidity of the Fund's assets by investing in assets that may have environmental and/or social characteristics.

Investments are made in accordance with the environmental and/or social characteristics advertised by the Fund. Up to 100% of the Fund's assets may be invested in money market instruments. The issuers of the money market instruments must be based in a member state of the European Union (EU), a member state of the Agreement on the European Economic Area (EEA), a member state of the Organization for Economic Cooperation and Development (OECD) or Switzerland. If the money market instruments are issued or guaranteed by a state, a federal state, a district or comparable domestic or foreign territorial authorities, an internal rating corresponding to the "investment grade" category is sufficient. In addition, we may acquire bank deposits and derivatives for hedging purposes. Other money market funds may be acquired up to 10% of the Fund's assets. It is possible to enter into repurchase agreements, but we do not intend to do so except to a limited extent. The weighted average fixed-interest period of all the fund's assets must not exceed six months, and the weighted average remaining term of all the Fund's assets must not exceed 12 months. There is no foreign currency risk vis-à-vis the euro.

The Fund promotes E/S characteristics while applying certain minimum exclusion criteria for direct investments. The Fund's pre-contractual information

describes all relevant information about the scope, details and requirements of the promoted E/S characteristics and the exclusion criteria applied.

At least 90% of the Fund's portfolio is rated using an internal score. The score ranges from 0 (lowest) to 4 (highest). The basis for calculating the 90% threshold is the net asset value of the fund, excluding instruments that, by their nature, are not valued, such as cash and deposits. The rating is based on environmental, social, governance and business behavior factors (whereby the business behavior factor does not apply to sovereign issuers) and represents an internal rating that we assign to a company or a sovereign issuer. At least 90% of the rated securities have an internal score of 2 or more, up to 10% of the rated securities have an internal score between 1.5 and 2. At least 3.00% of the Fund's assets are invested in sustainable investments. The minimum share of investments based on the EU taxonomy is 0.01% of the fund's assets.

We follow an active management approach with the aim to outperform the Benchmark. In selecting and weighting the Fund's assets we do not replicate or reproduce the Benchmark. Fund assets therefore deviate significantly from the Benchmark.

**Benchmark:** €STR (in EUR).

Due to its investment strategy we expect a high volume of transactions which results in higher transactions costs reducing the return of the fund.

You may redeem shares of the Fund usually on each business day. We usually distribute the income of the Fund on a yearly basis.

Derivatives may be used to offset exposure to price fluctuations (hedging), to take advantage of price differences between two or more markets (arbitrage) or to multiply gains although it may also multiply losses (leverage).

**Depository:** State Street Bank International GmbH - Luxembourg Branch

### INTENDED RETAIL INVESTOR

This Share Class is aimed at investors with basic knowledge and/or experience of financial products. Prospective investors should be capable of bearing a financial loss and should not attach any importance to capital protection.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### RISK INDICATOR

← Lower risk

Higher risk →

The risk indicator assumes you keep the Fund for 1 month. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Fund compared to other products. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you. We have classified this Fund as 1 out of 7, which is the lowest risk class on the basis of the PRIIPs regulation. This rates the potential losses from future

performance at very low level, and poor market conditions are very unlikely to impact our capacity to pay you. The categorisation of the Fund is not guaranteed and may change in the future. Even the lowest category 1 does not mean a risk-free investment.

**Be aware of currency risk. You could receive payments in a different currency from your currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.** This Fund does not include any protection from future market performance so you could lose some or all of your investment.

The following material risks are not fully captured by the SRI: Unusual market conditions or large unpredictable events can amplify this Fund's risks and trigger other risks such as counterparty, liquidity, and operational risks (a complete description of risks can be found in the Prospectus).

### PERFORMANCE SCENARIOS

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund and/or suitable benchmark over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between 2/2020 and 3/2020. The moderate scenario occurred for an investment between 12/2021 and 1/2022. The favourable scenario occurred for an investment between 12/2023 and 1/2024.

**Recommended holding period:** 1 MONTH

**Example Investment:** 10,000 EUR

### WHAT HAPPENS IF ALLIANZ GLOBAL INVESTORS GMBH IS UNABLE TO PAY OUT?

A default by the management company has no direct impact on your payouts, as the law stipulates that in the event of the insolvency of Allianz Global Investors GmbH, the Fund does not become part of the insolvency estate of Allianz Global Investors GmbH, but remains independent.

Therefore, neither an insolvency of the management company nor of the

Fund's appointed depository will result in an investor losing money in the Fund.

In case of insolvency of the management company, the Fund's depository will either liquidate the Fund and distribute the proceeds to Fund's investors or entrust its management to another management company.

### WHAT ARE THE COSTS?

The person advising on or selling you this Fund may charge you other costs. If so, this person will provide you with information about these costs and how

#### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

they affect your investment.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 month
<b>Total costs</b>	2 EUR
<b>Annual cost impact (*)</b>	0.0 %

(\*) This illustrates how costs reduce your return over the holding period. For example, it shows that if you exit at the recommended holding period your average return is projected to be 0.0 % before costs and -0.0 % after costs. We may share part of the costs with the person selling you the Fund to cover the services they provide to you. They will inform you of the amount.

### COMPOSITION OF COSTS

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

### Recommended holding period: 1 month

Due to its investment strategy, the Fund's value may vary considerably over the short time. You should therefore stay invested for at least 1 month to profit from gains on the longer term. If you disinvest earlier, there is a higher risk that you might get back only poor returns, or not even the sum you invested. The Fund is open-ended which means you can redeem money back at every NAV calculation and without having to pay penalties. If applicable to your Fund you will pay the exit fees only.

However, the Company may suspend the issue and redemption of units if exceptional circumstances make this appear necessary in the interests of investors, or extend the notice period for returning the fund units. The Company may transfer assets held by or on behalf of the fund to a professional investor in lieu of paying the redemption price in order to process redemptions of units. The Company may spin off illiquid investments in the fund portfolio in the interests of investors. The detailed redemption procedure for units of the Fund is described in the prospectus.
