

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. This information is required by law to help you to understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

CSOB CZK Medium

Sub-fund of KBC Multi Interest

Classic Shares: BE0940482673 (ISIN-code for Capitalisation shares), BE0940476618 (ISIN-code for Distribution shares)

managed by KBC Asset Management NV

OBJECTIVES AND INVESTMENT POLICY

KBC Multi Interest CSOB CZK Medium aims to generate a return by investing chiefly in bonds, money market instruments* and/or deposits, denominated in Czech koruna and/or in other currencies where the exchange rate risk* is in principle hedged.

All regions and sectors may be taken into consideration.

The portfolio has an interest rate sensitivity* of up to 4 years.

The corporate or government bonds in which the fund invests have an investment grade* credit rating*, i.e. at least BBB- from Standard & Poor's or an equivalent rating from Moody's or Fitch.

The bonds and money market instruments can have different life spans.

The fund can invest up to 100% of its assets in securities or money market instruments issued or guaranteed by the Czech Republic.

KBC Multi Interest CSOB CZK Medium may make limited use of derivatives*. This means that derivatives can be used either to help achieve the investment objectives (for instance, to increase or decrease the exposure to one or more market segments in line with the investment strategy), or to neutralise the portfolio's sensitivity to market factors (by hedging an exchange rate risk, for example).

The fund is denominated in Czech koruna.

You can opt for capitalisation units or distribution units. If you opt for capitalisation units, the fund will reinvest any income received in the manner set out in the prospectus. If you opt for distribution units, the fund can pay out part or all of any income received at the intervals specified in the prospectus (for more details, see section 'Types of shares and fees and charges' of the information for this sub-fund in the prospectus).

Orders for fund units are executed daily (for more details, see the 'Information concerning the trading of shares' section of the information for this sub-fund in the prospectus).

RISK AND REWARD PROFILE

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This figure is based on data from the past, which is not always a reliable indication of risk and return in the future.

The risk and reward indicator is assessed regularly and can therefore go up or down.

The lowest figure does not mean that the investment is entirely free of risk. However, it does indicate that, compared with the higher figures, this product will generally provide a lower, but more predictable return. While the figure gives an indication of the return the fund might generate, it also indicates the risk involved. The higher the figure, the greater the potential return, but also the more difficult it is to predict this return. You might even sustain a loss.

The figure has been calculated from the viewpoint of an investor in Czech koruna.

Why does this fund have a risk and reward indicator of 2?

2 indicates that this fund involves less risk than the average bond fund, which tend to have an indicator 3 or 4. Bond funds are generally less sensitive to the markets than equity funds, which tend to have an indicator of 6 or even 7 in some cases. The value of bond funds is especially sensitive to changes in interest rates, since the interest on these bonds is fixed in advance and does not go up when market rates increase.

Moreover, an investment in this fund involves:

- A high level of concentration risk: there is a concentration of the investments in financial instruments subject to interest rate risk of no more than 4 years and denominated in Czech koruna.

There is no capital protection.

CHARGES

These charges are used to cover, among other things, the management costs of the fund, including marketing and distribution expenses. They reduce the investment's ability to grow. You can find additional information on the charges in the 'Types of shares and fees and charges' section in the information concerning this sub-fund in the prospectus.

One-off charges taken before or after you invest

Entry charge	1%	This is the <i>maximum</i> that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you will pay less. For more information on the actual entry and exit charges, please contact your financial adviser or distributor.
Exit charge	5% on sale of units within one month of purchase	
Switching from one sub-fund to another		If you would like to exchange your units in this sub-fund* for units in another sub-fund, you will be charged a fee comprising the Exit Charge for the old sub-fund and the Entry Charge for the new sub-fund (for more information, see the 'Types of shares and fees and charges' section in the information concerning this sub-fund in the prospectus).

Charges taken from the fund over a year

Ongoing charge	0.71%	The figure for the ongoing charge is based on the charges for the year ending on 30 April 2014. This figure does not include transaction charges, except if the fund pays entry or exit charges when units in other funds are bought or sold, and may change from year to year.
----------------	-------	---

Charges taken from the fund under certain specific conditions

Performance fee	None
