

**Unaudited semi-annual report
as at 31 March 2018**

Allianz European Pension Investments

Investment fund under Luxembourg law
Société d'Investissement à Capital Variable
R.C.S. Luxembourg No. B117.986

Allianz Global Investors GmbH

General Information

Allianz European Pension Investments (the "Company") is incorporated under the laws of the Grand Duchy of Luxembourg as an open-ended investment company with variable share capital. The Company is authorised by the Commission de Surveillance du Secteur Financier as a "Société d'Investissement à Capital Variable" (SICAV) and falls within the scope of Part I of the Luxembourg amended Law of 17 December 2010 on Undertakings for Collective Investment. The Company was established on 21 July 2006.

The Company has launched different Subfunds (the "Subfunds") and each Subfund has issued shares in a number of classes. A separate pool of assets and separate accounting records are maintained for each Subfund.

The following Subfunds were available for subscription and redemption on 31 March 2018:

- Allianz Strategy 15
- Allianz Strategy 50
- Allianz Strategy 75
- Allianz Target Return Bond EM

The figures presented in this report relate to the reporting period from to 31 March 2018. They should not necessarily be taken as an indication of the future performance of the Subfunds.

This report does not constitute an offer or an invitation to purchase shares of the Subfunds. Subscriptions are only valid if made on the basis of the current Prospectus, the Articles of Incorporation, the Key Investor Information Document supplemented by the latest available audited Annual Report. If the latest annual report was published more than eight months ago, then the most recent semi-annual report must also be made available.

The Prospectus, the Articles of Incorporation, the Key Investor Information Document as well as the respective annual and semi-annual reports can be obtained at no charge at the registered office of the Company, distributors, paying agents and information agents.

Some transactions conducted in the reporting period do no longer appear in the Investment Portfolio. Statements of Changes in inventory are available free of charge on request at the registered office of the Company in Luxembourg.

Allianz Strategy 15

The Subfund invests to a variable extent in the international equity and euro bond markets. As part of a quantitative approach, fund management reduces the equity exposure in periods of high volatility and increases it when volatility is low. The overall aim is a result that is comparable with the return on a balanced portfolio comprising 15% international equities and 85% medium-term EUR bonds.

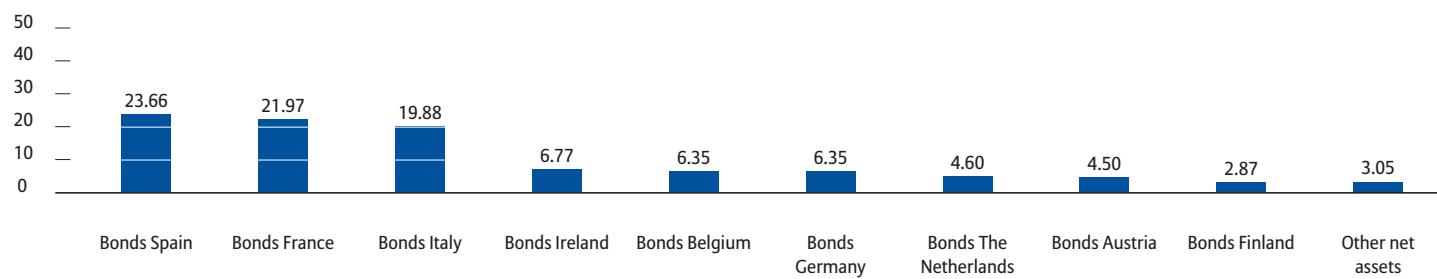

In the six months under review to the end of March 2018, equity markets at regional level performed with great variation. Despite an interim adjustment, the US stock exchange ended the six months under review with a clear positive performance (in dollars). The Japanese equity market also remained positive. Noticeable losses resulted in contrast in European stocks which suffered from troubled investor sentiment. Most stock exchanges in emerging markets achieved noticeable price gains. Likewise, no uniform trend developed on bond markets. Good economic prospects and increasing inflation potential contributed to the increase in long-term yields in the US. In the euro area, government bonds experienced a lateral trend in light of continued lower inflation and unchanged key interest rates.

The Subfund's security holdings were restricted to euro government bonds. Bonds issued by countries with high credit ratings like France, Belgium and Germany were held, as well as numerous positions in public-sector securities from the euro periphery countries of Italy, Spain and Ireland. The interest-bearing investments continued to have an average credit rating of A+ at the end of March. The duration (average maturity) of the bond positions including derivatives remained stable overall at approximately seven and a half years. The Subfund's equity exposure was realized through derivatives on stock market indices from developed countries. This allowed the equity ratio to be rapidly adjusted to volatility.

With its investment policy, the Subfund obtained a moderate gain.

The exact performance in the period under review is reported in the table "Performance of the Subfunds" on pages 2 and 3. Please refer to the Key Investor Information Document and sales prospectus for additional information on the Subfund.

Allianz Strategy 50

The Subfund invests to a variable extent in the international equity and euro bond markets. As part of a quantitative approach, fund management reduces the equity exposure in periods of high volatility and increases it when volatility is low. The overall aim is a result that is comparable with the return on a balanced portfolio comprising 50% international equities and 50% medium-term EUR bonds.

In the six months under review to the end of March 2018, equity markets at regional level performed with great variation. Despite an interim adjustment, the US stock exchange ended the six months under review with a clear positive performance (in dollars). The Japanese equity market also remained positive. Noticeable losses resulted in contrast in European stocks which suffered from troubled investor sentiment. Most stock exchanges in emerging markets achieved noticeable price gains. Likewise, no uniform trend developed on bond markets. Good economic prospects and increasing inflation potential contributed to the increase in long-term yields in the US. In the euro area, government bonds experienced a lateral trend in light of continued lower inflation and unchanged key interest rates.

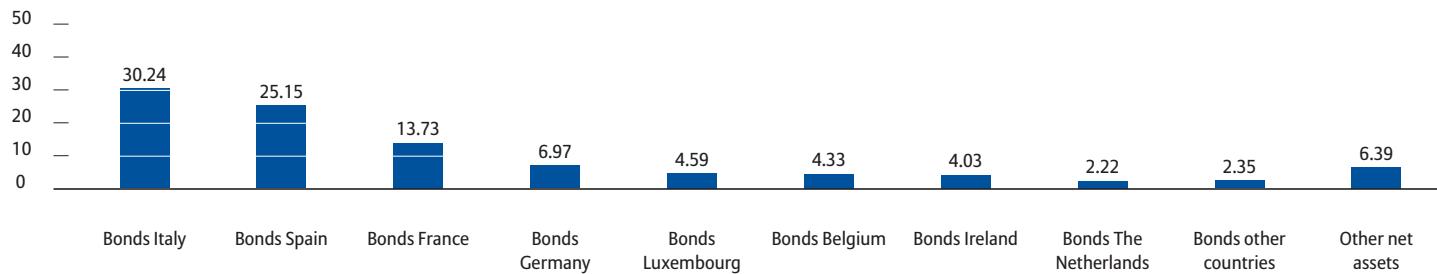

The Subfund's security holdings remained focused on euro government bonds. Bonds issued by countries with high credit ratings like Germany and France were held, as well as numerous positions in public-sector securities from the euro periphery countries of Italy, Spain and Ireland. We continued to include some selected bank bonds. The interest-bearing investments had an average credit rating of A at the end of March. The duration

(average maturity) of the bond positions including derivatives remained stable overall at approximately three and a half years. The Subfund's equity exposure was realized through derivatives on stock market indices from developed countries. This allowed the equity ratio to be rapidly adjusted to volatility.

With its investment policy, the Subfund obtained a slight gain.

The exact performance in the period under review is reported in the table "Performance of the Subfunds" on pages 2 and 3. Please refer to the Key Investor Information Document and sales prospectus for additional information on the Subfund.

Allianz Strategy 75

The Subfund invests to a variable extent in the international equity and euro bond markets. As part of a quantitative approach, fund management reduces the equity exposure in periods of high volatility and increases it when volatility is low. The overall aim is a result that is comparable with the return on a balanced portfolio comprising 75% international equities and 25% medium-term EUR bonds.

In the six months under review to the end of March 2018, equity markets at regional level performed with considerable variation. Despite an interim adjustment, the US stock exchange ended the six months under review with a clear positive performance (in dollars). The Japanese equity market also remained positive. Noticeable losses resulted in contrast in European stocks which suffered from troubled investor sentiment. Most stock exchanges in emerging markets achieved noticeable price gains. Likewise, no uniform trend developed on bond markets. Good economic prospects and increasing inflation potential contributed to the increase in long-term yields in the US. In the euro area, government bonds experienced a lateral trend in light of continued lower inflation and unchanged key interest rates.

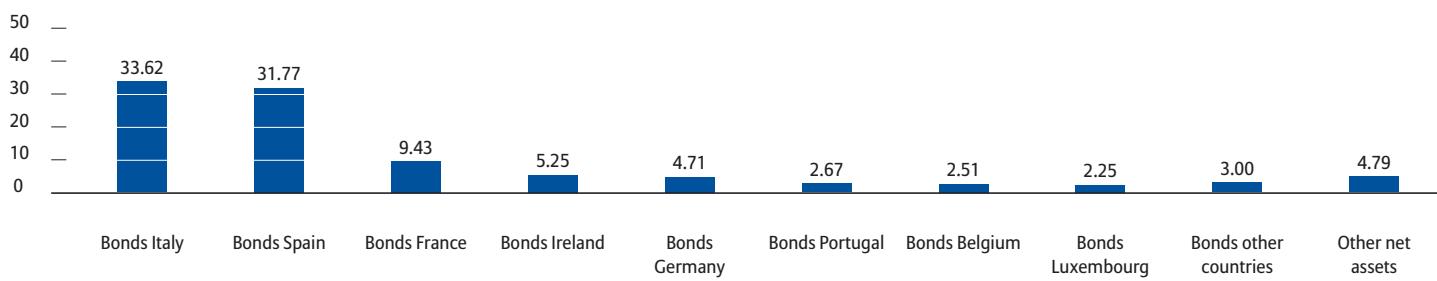

The Subfund's security holdings remained focused on euro government bonds. Bonds issued by countries with high credit ratings like Germany and France were held, as well as numerous positions in public-sector securities from the euro periphery countries of Italy, Spain and Ireland. We continued to include some selected bank bonds. The interest-bearing investments had

an average credit rating of A at the end of March. The duration (average maturity) of the bond positions including derivatives remained virtually stable overall at two good years. The Subfund's equity exposure was realized through derivatives on stock market indices from developed countries. This allowed the equity ratio to be rapidly adjusted to volatility.

With its investment policy, the Subfund obtained an almost balanced net result.

The exact performance in the period under review is reported in the table "Performance of the Subfunds" on pages 2 and 3. Please refer to the Key Investor Information Document and sales prospectus for additional information on the Subfund.

Allianz Target Return Bond EM

This Subfund is designed as a rolling maturities fund: from launch it has been invested in a bond portfolio, whose average maturity was initially five years and is oriented towards the Subfund's first target date (29 November 2019). After this date, the Subfund will be invested in money-market instruments for four months before its assets are reallocated to a portfolio with fixed maturities. The characteristics of this portfolio will correspond to those at the time of launch. This process will be repeated over an extended period of time. The bond portfolio focuses on securities from public and private issuers based in emerging markets, and from companies that generate most of their income in emerging markets. Up to 60% of the Subfund's assets may initially be invested in securities classified as high-yield bonds at the time of acquisition. Asset/mortgage-backed securities (ABS/MBS) are not permitted. Foreign currency positions comprising more than 10% of the Subfund's assets must be hedged against the euro. The investment objective is to obtain a return at the level of the market for government and corporate bonds from emerging markets, while maintaining the characteristics of a maturities fund.

In the half-year under review to the end of March 2018, emerging-market bonds saw quite varied performance. In Asia, the prices of Chinese and Indian bonds in particular declined, while some local currency bonds from the region posted significantly positive performance due to exchange rate effects. In Eastern Europe, Russian bonds made gains after Russia's S&P credit rating was upgraded back to investment-grade status. Turkish bonds suffered losses, with increased concerns about interest rates becoming apparent. In contrast, the prices of Brazilian bonds benefited from several interest rate cuts by the central bank.

The Subfund largely retained the scope of its investment focus on dollar-denominated bonds issued by private companies from emerging markets. These were primarily bonds from the financial and industrial segments as well as telecommunications and utilities. Public-sector bonds remained part of the mix. On the other hand, government bonds from emerging markets were only represented to a limited extent.

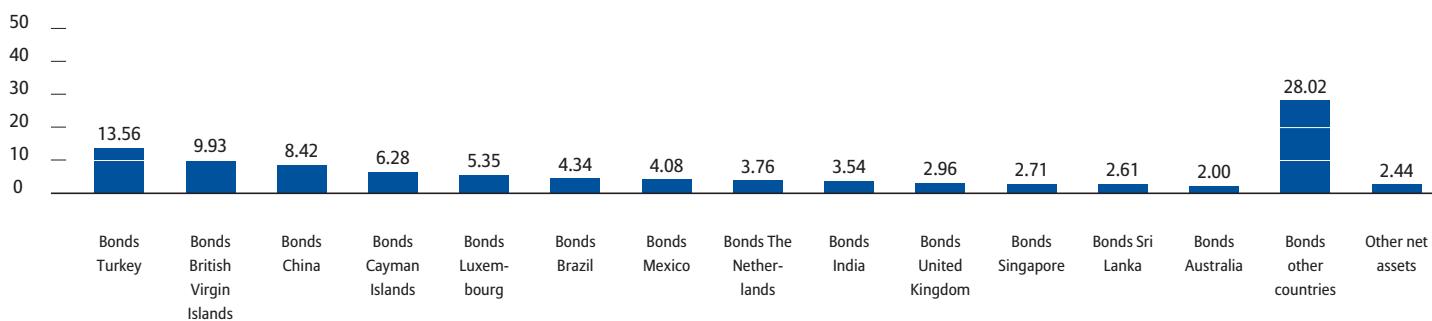

In terms of regions, the Subfund's preference remained on Asian issuers in the securities portfolio; the majority of investments were made in China. The Subfund also held Brazilian, Turkish and Russian bonds, which appeared favourable from a fundamental or valuation perspective.

With regard to credit ratings, investments remained focused on the upper non-investment-grade segment. The portfolio's average rating remained unchanged at BB+. In terms of maturities, the number of securities with maturities below one year increased at the expense of the one to three-year range. The duration (average maturity period) of the Subfund thus fell to somewhat more than one and a half years.

With its investment structure, the Fund posted a slight decline in value in an environment of very low short-term interest rates, after taking ongoing expenses into account.

The exact performance in the period under review is reported in the table "Performance of the Subfunds" on pages 2 and 3. Please refer to the Key Investor Information Document and sales prospectus for additional information on the Subfund.

Notes to the Annual Report

Accounting Policies

Basis of Accounting

The financial statements are prepared in accordance with the Luxembourg regulations relating to Undertakings for Collective Investment.

The accounting currency of the Allianz European Pension Investments is the Euro (EUR).

The base currencies of the Subfunds are listed below:

| | Base currency |
|-------------------------------|---------------|
| Allianz Strategy 15 | EUR |
| Allianz Strategy 50 | EUR |
| Allianz Strategy 75 | EUR |
| Allianz Target Return Bond EM | EUR |

Valuation of Assets

The value of the assets held by the Subfunds is determined as follows:

- a) Cash, term deposits and similar assets are valued at their face value plus interest. If there are significant changes in market conditions, the valuation may be made at realisation price if the Company can cancel the investment, the cash or similar assets at any time; the realisation price in this sense corresponds to the sales price or the value that must be paid upon cancellation to the Company.
- b) Investments that are listed or traded on an exchange are valued based on the latest available trade price on the stock exchange which constitutes in principle the principal market for this investment.
- c) Investments traded on another regulated market are valued at the latest available trade price.
- d) Securities and money-market instruments whose latest available trade prices do not correspond to appropriate market prices, as well as securities and money-market instruments not officially listed or traded on an exchange or on another regulated market, and all other assets, are valued on the basis of their probable sales price, determined prudently and in good faith.

e) Claims for reimbursement from securities lending are valued at the respective market value of the securities and money-market instruments lent.

f) The liquidation proceeds of futures, forward or options contracts not traded on exchanges or on other regulated markets means their net liquidating value determined, pursuant to the policies established by the Board of Directors, on the basis of calculations consistently applied for all types of contracts. The liquidation proceeds of futures, forward or options contracts, traded on exchanges or on other regulated markets, are based upon the latest available trade price of these contracts on exchanges and regulated markets on which the particular futures, forward or options contracts are traded by the Company. If futures, forward or options contracts cannot be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contracts will be such value as the Board of Directors deems fair and reasonable.

g) Interest-rate swaps are valued at their market value by reference to the applicable interest-rate curve.

h) Index and financial instrument-related swaps will be valued at their market value, established by reference to the applicable index or financial instrument. The valuation of the index or financial instrument-related swap agreement is based upon the market value of such swap transaction established in good faith pursuant to procedures established by the Board of Directors.

i) Target fund shares in undertakings for collective investment in transferable securities ("UCITS") or undertakings for collective investment ("UCI") are valued at the latest redemption price determined and obtainable.

Security Prices

In accordance with the Prospectus, the net asset values have been calculated by reference to the valuation day.

The financial statements presented in this report have been prepared on the basis of the latest calculated and published net asset values for the year.

Income recognition

Interest income is accrued daily. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the

ex-dividend date. This income is shown net of any withholding taxes.

Foreign Currencies

Assets and liabilities in foreign currencies have been converted at the exchange rates stated below:

| | | | |
|-------------------|-------|-------------|------------|
| Australian Dollar | (AUD) | 1 EUR = AUD | 1.603896 |
| British Pound | (GBP) | 1 EUR = GBP | 0.876603 |
| Canadian Dollar | (CAD) | 1 EUR = CAD | 1.589513 |
| Japan Yen | (JPY) | 1 EUR = JPY | 131.271746 |
| US-Dollar | (USD) | 1 EUR = USD | 1.230750 |

Taxation

The Company is subject to a "Taxe d'Abonnement" in the Grand Duchy of Luxembourg, calculated and payable on the total net assets of the Subfunds at the end of each quarter unless the assets are invested in Luxembourg funds which are themselves subject to a "Taxe d'Abonnement". The Company is liable in Luxembourg to a tax of 0.05 % p.a. of its net asset value for retail share classes and of 0.01 % p.a. for institutional share classes. This tax is payable quarterly based on the net asset value of the Subfunds at the end of the relevant quarter. The income of the Subfunds is not taxable in Luxembourg. Distribution and accumulation of income on shares is currently not subject to withholding tax in Luxembourg.

For further information concerning launch dates and liquidation dates, please refer to the Performance Table on pages 2 to 3.

Retrocession of Management Fees

The investment management fees of certain underlying funds, in which some Subfunds invest, are partially or totally rebated by the investment managers of such underlying funds which have entered into agreements with Allianz Global Investors GmbH. Those amounts have been classified under caption other Income.

If a Subfund acquires shares of a UCITS or UCI which is directly or indirectly managed by the same investment manager or by another investment manager with which the Company is linked by common management or control, or by a substantial direct or indirect participation according to Part I of the Luxembourg Law of

17 December 2010 on Undertakings for Collective Investment then neither the Company nor the associated investment manager may charge fees for the subscription or redemption of units. In the case of the previous sentence, the Company will also reduce its share of the All-in-Fee for the part of units in such linked UCITS or UCI by the respective actual calculated fixed management fee of the UCITS or UCI acquired. However, a decrease does not occur with respect to such linked UCITS or UCI as far as a reimbursement of this actually calculated fixed management fee is made in favour of the respective Subfund.

Note for investors in the Federal Republic of Germany

All payments to shareholders (redemption proceeds, any dividends and other payments) can be made through the German Paying Agent listed in the "Directory". Applications for redemption and conversion may be submitted through the German Paying Agent.

With respect to sales in the Federal Republic of Germany, the Subscription, the Redemption and, if applicable, Conversion prices are published on the website <https://de.allianzgi.com>. Any announcements to investors are published on the website <https://de.allianzgi.com>. For selected share classes (e.g. share classes exclusively for institutional investors or share classes whose bases of taxation are not published in the Federal Republic of Germany) publication can be performed on one of the websites <https://regulatory.allianzgi.com> or <https://lu.allianzgi.com>.

In addition, in accordance with § 298 paragraph 2 of the German Capital Investment Code a durable medium within the meaning of § 167 of the German Capital Investment Code is used to inform investors in the Federal Republic of Germany in the following cases:

- Suspension of the redemption of Shares in a Subfund,
- Termination of the management of the Company/a Subfund or liquidation of the Company/a Subfund,
- Changes to terms and conditions that are not compatible with the previous investment principles, that relate to material investor rights or that refer to fees and expense reimbursements payable from a Subfund, including the background to the changes and the rights of the investors,
- In the event of a merger of the Company or a subfund with another fund, the merger information required under Art. 43 of Council Directive 2009/65/EC,
- In the event of conversion of a subfund into a feeder fund or, if applicable, changes to a master fund in the form of information required under Art. 64 of Council Directive 2009/65/EC.

The sales prospectus, the Key Investor Information, the Articles of Incorporation, the current annual and semi-annual reports, the subscription, redemption and, if applicable, conversion prices as well as the additional documentation listed in the sales prospectus under "Available Documentation" may be obtained in hard copy without charge at the Information Agent listed in the "Directory" and without charge on the website <https://de.allianzgi.com>. For selected share classes (e.g. share classes exclusively for institutional investors or share classes whose bases of taxation are not published in the Federal Republic of Germany) publication can be performed on one of the websites <https://regulatory.allianzgi.com> or <https://lu.allianzgi.com>. The depositary agreement is available for inspection without charge at the offices of the Information Agent.

Note for investors in the Republic of Austria

The public sale of shares of the Subfund Allianz Strategy 50 in the Republic of Austria has been registered with the Finanzmarktaufsicht (Vienna) pursuant to section 140 InvFG. Allianz Investmentbank AG acts as Paying and Information Agent in Austria in accordance with section 141 paragraph 1 InvFG. Redemption applications for shares of the aforementioned Subfund can be submitted to the Austrian Paying and Information Agent.

All necessary information for investors is also available at the Austrian Paying and Information Agent free of charge, including: the Prospectus, the Articles of Incorporation, the Key Investor Information, the annual and semi-annual reports and the subscription and redemption prices.

It is recommended to the investors to check before the acquisition of shares of the Subfunds if for the respective share class the required fiscal data are published via Oesterreichische Kontrollbank AG.

Note for investors in Switzerland

1. Representative and Paying Agent in Switzerland

BNP Paribas Securities Services, Paris, Succursale de Zurich, Selnaustrasse 16, CH-8002 Zurich, is Representative and Paying Agent in Switzerland for the shares distributed in Switzerland.

2. Place where the Relevant Documents may be obtained

The prospectus, the Key Investor Information, the management regulations as well as the annual and semi-annual reports can be obtained without charge from the Representative in Switzerland.

3. Publications

Publications in Switzerland are made on www.fundinfo.com. In Switzerland, Subscription and Redemption Prices together and/or the Net Asset Value (with the indication "commissions excluded") of the Shares are published daily on www.fundinfo.com.

4. Payment of retrocessions and rebates

Retrocessions:

The Management Company and its agents may pay retrocessions as remuneration for distribution activity in respect of shares in or from Switzerland. This remuneration may be deemed payment for the following services in particular:

- setting up processes for subscribing, holding and safe custody of the shares;
- keeping a supply of marketing and legal documents, and issuing the said documents;
- forwarding or providing access to legally required publications and other publications;
- performing due diligence delegated by the Management Company in areas such as money laundering, ascertaining client needs and distribution restrictions;
- mandating an authorised auditor to check compliance with certain duties of the Distributor, in particular with the Guidelines on the Distribution of Collective Investment Schemes issued by the Swiss Funds & Asset Management Association SFAMA;

- operating and maintaining an electronic distribution and/or information platform;

- clarifying and answering specific questions from investors pertaining to the investment product or the Management Company or the Sub-Investment Manager;

- drawing up fund research material;

- central relationship management;

- subscribing for shares as a "nominee" for several clients as mandated by the Management Company;

- training client advisors in collective investment schemes;

- mandating and monitoring additional distributors.

Retrocessions are not deemed to be rebates even if they are ultimately passed on, in full or in part, to the investors.

The recipients of the retrocessions must ensure transparent disclosure and inform the investor, unsolicited and free of charge, about the amount of remuneration they may receive for distribution.

On request, the recipients of retrocessions must disclose the amounts they actually receive for distributing the collective investment schemes of the investors concerned.

Rebates:

In the case of distribution activity in or from Switzerland, the Management Company and its agents may, upon request, pay rebates directly to investors. The purpose of rebates is to reduce the fees or costs incurred by the investor in question.

Rebates are permitted provided that:

- they are paid from fees received by the Management Company and therefore do not represent an additional charge on the fund assets;
- they are granted on the basis of objective criteria;

- all investors who meet the objective criteria and demand rebates are also granted these within the same timeframe and to the same extent.

The objective criteria for the granting of rebates by the Management Company are:

- the volume subscribed by the investor or the total volume they hold in the collective investment scheme or, where applicable, in the product range of the promoter;
- the amount of the fees generated by the investor;
- the investment behaviour shown by the investor (e.g. expected investment period);
- the investor's willingness to provide support in the launch phase of a collective investment scheme.

At the request of the investor, the Management Company must disclose the amounts of such rebates free of charge.

5. Place of Performance and Jurisdiction

The place of performance and jurisdiction for shares distributed in Switzerland is at the registered office of the Representative in Switzerland.

The following Subfund is registered in Switzerland as at 30/09/2015: Allianz Strategy 50.

6. Ongoing charges

The Ongoing Charges are costs incurred by the Subfunds (or the respective Share Classes) during the preceding financial year (excluding transaction costs) and are expressed as a ratio of the average volume of the Subfunds (or of the average volume of the respective Share Classes) (“Ongoing Charges”). In addition to the All-in-Fee as well as the Taxe d’Abonnement, all other costs are considered except for the incurred transaction costs and any performance-related fees. Costs incurred will not be subject to cost compensation. If a Subfund invests more than 20 % of its assets in other UCITS or UCI that publish Ongoing Charges, the Ongoing Charges of these other UCITS or UCI are taken into consideration when calculating Ongoing Charges for the Subfund (synthetic); however, if these UCITS or UCI do not publish their own Ongoing Charges, then it is not possible to take the Ongoing Charges of the other UCITS or UCI into consideration when calculating Ongoing Charges. If a Subfund does not invest more than 20 % of its assets in other UCITS or UCI, any costs that may be incurred at the level of these UCITS or UCI are not taken into consideration.

| Name of the Subfund | Class | OC/ SOC ¹⁾ | (Synthetic) Ongoing Charges excluding performance-related fee in % | Performance-related fee in % | (Synthetic) Ongoing Charges including performance-related fee in % |
|---------------------|----------|--------------------------|---|------------------------------|---|
| Allianz Strategy 50 | A (EUR) | OC | 1.39 | - | 1.39 |
| | CT (EUR) | OC | 1.39 | - | 1.39 |
