*As part of the acquisition of Degroof Petercam by CA Indosuez Wealth Management, a subsidiary of Crédit Agricole S.A., a series of restructurings carried out within the group, including the merger of CA Indosuez Wealth (Asset Management) with Degroof Petercam Asset Services S.A. on 1 June 2025.

The merger was structured in such a way that Degroof Petercam Asset Services S.A. absorbed CA Indosuez Wealth (Asset Management) and, at the same time, changed its name to CA Indosuez Fund Solutions S.A..

Report of the Board of Directors

Macroeconomic report from 1 January 2025 to 30 June 2025

During the first half of 2025, global stock prices measured in US dollars rose by 8.6%. However, performance in euros was negative at 4.4% due to the fall in the dollar, which depreciated by around 12% against the euro in the first half of 2025. In common currency (euro), US equities fell by 7%, emerging market equities performed close to 0%, while European equities outperformed other regions, recording a performance of 6.4%.

The year got off to a good start for the markets, which were enthusiastic about the policies proposed by the new US administration (deregulation, tax cuts). From the end of January onwards, confusion and uncertainty surrounding US trade policy resurfaced and weighed more heavily on US indices. In early April, the markets experienced a period of turbulence when the US president announced reciprocal tariffs on US trading partners. Uncertainty surrounding international trade reached its peak when the US announced tariffs of 145% on China. Trade tensions then eased. A week after the announcement, the implementation of reciprocal tariffs was delayed by 90 days. Then, a trade agreement with China allowed stocks to continue to erase their losses. The Nasdaq and S&P 500 thus reached historic highs at the end of the period. The quarter was marked by investor mistrust of US assets. For the first time in modern history, the decline in equities in April was accompanied by both a decline in US government bond prices and a depreciation of the dollar. Geopolitical risks resurfaced in May in the Middle East. While oil prices initially rose, they fell when it became clear that the US strikes were targeted and that Iran was not seeking to escalate the conflict.

In Europe, the key event was the future coalition's relaxation of Germany's fiscal brake, which will enable the country to invest heavily in infrastructure and defense over the next few years. The yield on 10-year German government bonds rose from 2.36% at the end of 2024 to 2.6% at the end of the half-year. The yield on 10-year US government bonds rose from 4.57% at the beginning of the period to 4.2% at the end of June.

The euro appreciated against the dollar due to fears about US economic growth and the sharp rise in bond yields in the eurozone. Finally, the price of gold reached new records in response to uncertainty over tariffs. This was also supported by Donald Trump's relentless attacks on the Fed chairman, which also weighed on the dollar.

1 - General information

DPAM L (the "SICAV") was incorporated on 23 December 1987 as an Investment Company with Variable Capital (SICAV) with multiple Sub-Funds, governed by Luxembourg Law for an unlimited period. At the date of the report, the SICAV is subject to the law of 10 August 1915 and its amended laws related to commercial companies, to the Part I of the law of 17 December 2010 ("the Law of 2010") related to Undertakings for Collective Investment and to the Council Directive 2009/65/EC as amended.

The publications are made in "Recueil Electronique des Sociétés et Associations (RESA)" and accessible on the site "Registre de Commerce et des Sociétés de Luxembourg".

The Articles of Incorporation of the SICAV were published in the "Mémorial, Recueil des Sociétés et Associations" on 17 February 1988, and the Articles of Incorporation, amended for the last time by the Extraordinary General Meeting of Shareholders of 2 January 2017 were published in the "Registre Electronique des Sociétés et Associations".

The SICAV has appointed CA Indosuez Fund Solutions S.A. as management company to perform globally all the collective portfolio management functions referred to in Appendix II to the Law of 2010, namely the management of the portfolio and the administration and sale of the shares in the SICAV.

At the date of the report, the following Sub-funds are active:

The Board of Directors of the SICAV has decided to merge the DPAM L GLOBAL TARGET INCOME compartment (the "Absorbed Compartment") with the DPAM L BALANCED CONSERVATIVE SUSTAINABLE compartment (the "Absorbing Compartment") on 24 January 2025.

This merger is motivated by the low assets of the Absorbed Compartment and by a rationalization of the compartments of the SICAV and thus the range offered to investors.

1 - General information

Class W SEK shares	capitalisation shares which differ from class W shares in that they are denominated in Swedish krona.
Class W USD shares	capitalisation shares which differ from class W shares in that they are denominated in US dollars.
Class W BIS USD Hedged shares	capitalisation shares which differ from class W USD shares in that the subscription currency of the share class is hedged against the reference currency of the relevant sub-fund. However, the extent of hedging may fluctuate slightly around the full hedging level.
Class Z shares	capitalisation shares which differ from class F shares in that they are reserved (i) for investors initially subscribing the minimum amount of EUR 25,000,000 and in that (ii) they have a different management fee, it being understood that shareholders investing in this class may not request the redemption of their shares so as to reduce their level of investment to below the minimum initial subscription amount.
Class Z EUR Hedged shares	capitalisation shares which differ from class Z shares in that the exchange risk against the euro is hedged.

Dividends payable on any distribution class may, at the request of the shareholder, be paid in cash or in the form of new shares of the respective class.

The Net Asset Value of each Sub-Fund is calculated each bank business day in Luxembourg ("Valuation Day") that corresponds to a net asset value which will be dated that Valuation Day but calculated on the bank business day following that Valuation Day.

With regard to the valuation day of DPAM L EQUITIES EMERGING MARKETS SELECTION MSCI INDEX and only since 1 June 2022, if a market (including Shenzhen or Shanghai Hong Kong Stock Connect) representing 10% or more of the size of the Sub-fund is closed, the Valuation Day will be the following Business Day. The same applies when several markets representing together 10% or more of the size of the Sub-Fund are closed.

The Net Asset Value, issue price and redemption price (of each Sub-Fund) are available each business day at the registered office of the SICAV, and in Switzerland, available each business day in Geneva at the representative office ACOLIN Fund Services A.G., Zurich (for the relevant Sub-Funds).

The SICAV publishes, at the end of each year, an annual report audited by the Auditor and, at the end of each half year, an unaudited semi-annual report. These financial reports contain separate financial statements for each Sub-Fund. The consolidation currency is the Euro.

The following documents are available to the public at the Registered Office of the SICAV or from the <http://funds.degroofpetercam.com> :

- the articles of association of the SICAV ;
- the prospectus of the SICAV (including the fact sheets for the SICAV's sub-funds) ;
- the Key Information (for each sub-fund and each class of shares) ;
- the financial reports of the SICAV.

A copy of the agreement entered into with the Manager of the SICAV manager can be consulted free of charge at the registered office of the SICAV.

2 - Principal accounting policies

2.1 - Presentation of the financial statements

The financial statements of the SICAV are prepared on a going concern basis in accordance with the legal and regulatory requirements in force in Luxembourg relating to Undertakings for Collective Investment, on the basis of the official net asset values calculated at the end of the financial year, except for the sub-fund DPAM L GLOBAL TARGET INCOME (absorbed by DPAM L BALANCED CONSERVATIVE SUSTAINABLE on 24 January 2025).

2.2 - Portfolio valuation

- 1) The value of cash on hand or on deposit, bills and notes payable on sight and accounts receivable, prepaid expenses, dividends and interest declared or matured and not yet received shall be the nominal value of such assets, except where it is unlikely that such value can be received; in the latter case, the value shall be determined by deducting such amount as the SICAV considers appropriate to reflect the real value of such assets.
- 2) The value of all transferable securities, money market instruments and derivative financial instruments which are listed on an exchange or traded on any other regulated market, which operates on a regular basis, is recognised and open to the public shall be determined according to their last available price.
- 3) In cases where investments of the SICAV are listed on a stock exchange or traded on another regulated market, which operates on a regular basis, is recognised and open to the public and traded by market makers outside the stock exchange on which the investments are listed or the market on which they are traded, the Board of Directors may determine the principal market for the investments in question, which will then be valued at the last price available on that market.
- 4) Derivative financial instruments that are not listed on an official stock exchange or traded on any other regulated market, which operates on a regular basis and is recognised and open to the public, will be valued in accordance with market practice, as further described in the Prospectus.
- 5) The value of the representative securities of any open-ended Collective Investment Scheme shall be determined according to the last official Net Asset Value per unit or according to the last estimated Net Asset Value if the latter is more recent than the official Net Asset Value, provided that the SICAV is satisfied that the valuation method used for this estimate is consistent with that used to calculate the official Net Asset Value.

6) To the extent that:

- the transferable securities, money market instruments and/or derivative financial instruments in the portfolio on the Valuation Day are not listed or traded on a stock exchange or other regulated market that operates regularly, is recognised and open to the public or,
- for transferable securities, time deposits, money market instruments, derivative financial instruments and/or securities representing Collective Investment Schemes listed and traded on an exchange or other market but for which the price determined in accordance with paragraphs 1) and 2) is not, in the opinion of the Board of Directors, representative of the real value of such transferable securities, time deposits, money market instruments, derivative financial instruments and/or securities representing Collective Investment Schemes the Board of Directors assesses the value with prudence and good faith.

2.3 - Net realised profit or loss on sales of investments

The net gains or loss realised on sales of securities are calculated based on the average cost of the securities sold.

The amounts of net realised gains or loss attributable to changes in exchange rates are recognised in "Net realised exchange gains or losses" at the time of the sale.

2.4 - Foreign currency translation

The SICAV's accounts are kept in euro. Bank deposits, other net assets and the stock market value of securities in the portfolio in currencies other than the euro are converted into euro at the exchange rate valid on the closing date.

For securities denominated in currencies other than the sub-fund's currency, the acquisition cost is calculated on the basis of the exchange rate in force on the day of purchase.

Revenue and expenditure in currencies other than the euro are translated into euros at the exchange rate in force on the date of payment.

Here are the main exchange rates applied:

2.5 - Combined financial statements

The combined financial statements of the SICAV are drawn up in EUR and are equal to the sum of the corresponding headings in the financial statements of each sub-fund.

Cross-investments between the sub-funds of the SICAV have not been subtracted from the combined statement of net assets. As at 30 June 2025, the total amount of cross-investments is EUR 2,872,376.66 and therefore the combined net assets without cross-investments is EUR 12,613,827,475.03.

2.6 - Valuation of forward foreign exchange contracts

The market value of forward exchange contracts is based on the forward exchange rate of the underlying currency on the valuation day.

The net profit or loss realised, as well as the change in the unrealised net capital gains or losses, is included in the statement of transactions and changes in net assets.

For details on forward exchange contracts, please refer to the section "Notes to the financial statements - Statement of derivative instruments."

DPAM L

2 - Principal accounting policies

2.7 - Valuation of futures contracts

The value of derivative instruments (futures and options) that are traded or listed on a stock exchange or organized market is determined on the basis of their last known settlement price on 30 June 2025 on the stock exchange or organized market on which the said instruments are traded, it being understood that if one of the aforementioned derivative instruments cannot be settled on the day taken into account to determine the applicable values, the value of this derivative instrument or these derivative instruments will be determined in a prudent and reasonable manner by the Board of Directors.

The net profit or loss realised, as well as the change in the unrealised net capital gains or losses, is included in the statement of transactions and changes in net assets.

For details on futures contracts, please refer to the section "Notes to the financial statements - Statement of derivative instruments."

2.8 - Dividend and interest income

Interests on bonds and investments are recorded on a daily basis. Dividends are recorded on an ex-date basis. Interests and income are accounted net of non-recoverable withholding taxes.

When the SICAV incurs expenses relating to a particular sub-fund, these are allocated to that sub-fund. Expenses not attributable to a particular sub-fund are allocated among the various sub-funds on a pro rata basis of the net asset value of each sub-fund.

2.9 - Formation expenses

Formation expenses and reorganisation fees are amortized on a straight-line basis over a period of five years.

If a sub-fund is launched after the launch date of the SICAV, the formation expenses relating to the launch of the new sub-fund will be charged to that sub-fund alone and may be amortised over a maximum period of five years from the date of launch of that sub-fund.

3 - Issue, conversion, redemption of shares

Shares in all sub-funds are issued at a subscription price consisting of the net asset value of a share plus an entry fee representing a certain percentage of the net asset value of a share, as described below:

These entry fees may be refunded in whole or in part to authorized intermediaries.

No commission is charged on redemptions or conversions to another sub-fund.

5 - Performance fees

For the Sub-funds DPAM L BONDS EUR SHORT TERM and DPAM L PATRIMONIAL FUND, the Manager is entitled to receive, on the net assets of the relevant Class of Shares of the relevant sub-fund, a performance fee (the "Performance Fee") calculated by comparing the performance of the Net Asset Value per share (the "NAV") to that of the Benchmark Index (as defined below) over the same period of time, as well as to a High Water Mark ("HWM").

The Performance Fee is calculated and accrued for each Class of Shares within a sub-fund, on each Valuation Day, according to the methodology described below.

The Performance Fee is measured over a calculation period (hereinafter the "Calculation Period") corresponding to one financial year of the SICAV.

Each time a Calculation Period begins, the NAV and Benchmark Index to be taken into account in calculating the Performance for that Calculation Period are based on the NAV and Benchmark Index of the last Business Day of the SICAV's previous financial year.

The first year of the Calculation Period will begin (i) :

- the last Business Day of the SICAV's financial year, or
- on the launch date of each Class of Shares launched after the last Business Day of the SICAV's financial year.

The applicable Performance Fee rate is set at

DPAM L BONDS EUR SHORT TERM	20% for all classes and the benchmark index used to calculate the Performance Fee is the 20% €STR composite (ticker: OISESTR Index) + 80% IBOX Euro Corporate 1-3 years (ticker: QW5C Index) (the "Benchmark").
DPAM L PATRIMONIAL FUND	10% for all classes and the benchmark index used to calculate the Performance Fee is the Euribor 3M (ticker: EUR003M) (the "Benchmark").

For each Calculation Period and for the purpose of calculating the Performance Fee, each year shall commence on the last Business Day of each SICAV's financial year and end on the last Business Day of the following SICAV's financial year. For any Share Class launched during a Calculation Period, the first Calculation Period will last at least 12 months and will end on the last Business Day of the following financial year of the SICAV.

The performance reference period ("Performance Reference Period" or "PRP") is the period over which performance is measured and lasts a maximum of 5 years on a rolling basis. At the end of this period, the compensation mechanism for past underperformance (or negative performance) can be reset.

Only at the end of a five-year overall underperforming PRP can losses be partially compensated, on a rolling annual basis, by cancelling the first year of performance of the current PRP for the Class. Within the PRP in question, losses in the first year can be offset by gains in subsequent years in that PRP.

When a Performance Fee is crystallised at the end of a Calculation Period, a new PRP starts.

The Performance Fee is calculated on the basis of the outperformance of the NAV compared to the benchmark. It is calculated after deducting all expenses and fees (excluding any Performance Fee accrued but not yet paid) and including subscriptions, redemptions and dividend distributions during the relevant Calculation Period.

Notwithstanding the above, the Performance Fee is only payable if the performance of the NAV exceeds that of the Benchmark during the PRP. In this case, in order to determine the Performance Fee, the performance fee rate is applied to the difference between:

- (i) the last NAV per share calculated at the end of a Calculation Period, and
- (ii) the higher of the following two values:
 - (ii.a) the previous NAV on which a Performance Fee has been crystallised as at the last Business Day of the SICAV's financial year of the current PRP OR the initial NAV if no Performance Fee has ever been paid (only under the 1st PRP) (the "HWM"), or
 - (ii.b) that same NAV but adjusted by the change in the Benchmark Index over the same Calculation Period.

The Performance Fee is accrued and calculated on each Valuation Day. Unless otherwise stated above and subject to the provisions of the paragraph below, the accrued performance fee is payable annually in arrears at the end of the Calculation Period.

Other notes to the financial statements

5 - Performance fees

The outperformance of the NAV compared to the Benchmark Index is determined by the difference between the performance of the relevant NAV and the Benchmark Index over the same period. The NAV performance is the change in the NAV between the relevant Valuation Day and the NAV at the end of the previous Calculation Period (which will be reduced by dividends paid to shareholders). The performance of the Benchmark Index is the change in the Benchmark Index over the same period as the NAV performance Calculation Period.

The Manager will receive the Performance Fee at the end of the Calculation Period provided that the performance of the NAV of the relevant Share Class exceeds that of the Benchmark. The crystallisation frequency is annual and occurs on the last Business Day of the SICAV's financial year.

The Performance Fee Benchmark will be calculated in the currency of the Share Class for all Share Classes (regardless of the currency in which the relevant Share Class is denominated, and regardless of whether the relevant Share Class is hedged).

If a Shareholder redeems Shares prior to the end of a Calculation Period, any accrued but unpaid Performance Fee in respect of such redeemed Shares **will be definitively accrued and paid to the Manager after the end of the Calculation Period.**

In the event of a change in the Performance Fee Benchmark at any time during a Calculation Period, such change will be reflected and taken into account in the calculation of the Performance Fee by ensuring continuity in the calculation by linking the previous performance between the Benchmark and the new Benchmark.

If a Share Class is closed before the end of a Calculation Period (e.g. in the event of full redemption, merger, liquidation, transfer), **the Performance Fee** for that Calculation Period shall be calculated and, if applicable, paid on such closing date as if it marked the end of the relevant Calculation Period.

If the Delegated Management Agreement with the Manager entitled to a Performance Fee is **terminated prior to the end of a Calculation Period**, the Performance Fee for that Calculation Period **will be calculated and, where applicable, paid on that termination date** as if it were the end of the relevant Calculation Period.

Substantial changes and termination of a Benchmark

If the Performance Fee Benchmark is substantially changed or ceases to be provided, the Management Company, with the assistance of the Manager, will take appropriate action in accordance with its procedure established under REGULATION (EU) 2016/1011 of 8 June 2016 on indices used as benchmarks for financial instruments and contracts or to measure the performance of investment funds. Any new Benchmark chosen to replace the existing Benchmark which is no longer provided or which has undergone substantial changes shall be an appropriate alternative.

If a Class of Shares is closed before the end of a Calculation Period (e.g. in the event of total redemption, merger, liquidation, transfer), the Performance Fee relating to that Calculation Period will be calculated and, where applicable, paid on that closing date as if it marked the end of the relevant Calculation Period.

If the Management Delegation Agreement with the Investment Manager entitled to a Performance Fee is terminated before the end of a Calculation Period, the Performance Fee relating to that Calculation Period will be calculated and, where applicable, paid on that termination date as if it marked the end of the relevant Calculation Period.

As of 30 June 2025, a performance commission of EUR 29.46 has been provisioned for the DPAM L PATRIMONIAL FUND.

No performance fee has been calculated for the DPAM L BONDS EUR SHORT TERM sub-fund.

6 - Depositary fees

As compensation for its depositary services for the SICAV, the Depositary shall receive an annual flat-rate fee of at a minimum rate of 0.025% p.a. (+ VAT if applicable), chargeable to each Sub-Fund, excluding trading fees and corresponding charges.

This fee is payable on a quarterly basis and calculated based on average net assets in each of the sub-funds during the quarter under review.

7 - Administration fees and domiciliation

In return for its services as central agent and domiciliary agent for the SICAV, the Management Company will receive, at the expense of each sub-fund of the SICAV, an annual fee at a maximum rate of 0.045% p.a. (+ VAT if applicable).

Compensation is payable on a quarterly basis and calculated based on average net assets in each of the sub-funds during the quarter under review.

The Management Company will also receive an annual flat-rate fee of EUR 2,000 (+ VAT if applicable) per active share class in the Sub-Fund concerned chargeable to each SICAV sub-fund, distributed among all the active share classes of the Sub-Fund concerned in proportion to the assets of each share class concerned.

Other notes to the financial statements

8 - Transaction fees

In order to achieve its investment objective, a sub-fund will incur transaction costs related to the trading activity of its portfolio.

Transaction costs include commission fees, settlement fees, and brokerage fees. Not all transaction costs can be identified separately. For fixed income investments, forward exchange contracts, and other derivative contracts, transaction costs are included in the purchase and sale price of the investment. Although they cannot be identified separately, these transaction costs are taken into account in the performance of each sub-fund.

Transaction costs are shown in the statement of operations and changes in net assets.

9 - Subscription tax ("Taxe d'abonnement")

The SICAV is governed by Luxembourg law.

Pursuant to the legislation and regulations in force, the SICAV is subject to an annual subscription tax ("taxe d'abonnement") of 0.05% which is payable quarterly and calculated on the basis of the net assets of each Sub-fund on the last day of each quarter.

However, for the relevant Sub-funds, a reduced rate of 0.01% is applied to classes of shares reserved for institutional investors.

Pursuant to Article 175(a) of the law of 17 December 2010, the net assets invested in Undertakings for Collective Investment already subject to the "taxe d'abonnement" are exempt from this tax.

10 - Annual Belgian tax

A subscription tax is payable annually by foreign funds distributed in Belgium and the taxable base is the net amounts invested in Belgium. The rate of this tax is 0.0925%.

The SICAV is obliged to pay this tax by 31 March each year.

For many years, the SICAV has applied to the Belgian tax authorities for recovery of the tax in order to preserve the SICAV's rights, and therefore the interest of the shareholders, to benefit from a refund of the Belgian tax levied. A potential tax refund depends on the end of the legal proceedings and trials which are still ongoing.

No provision has been recorded due to insolvency.

12 - Swing pricing

Swing pricing is a mechanism that allows the various sub-funds of the SICAV to settle the transaction fees arising from the subscriptions and redemptions of entering and exiting investors. With swing pricing, existing investors should, in principle, no longer indirectly incur the transaction fees, which will now be directly integrated into calculation of the NAV and borne by the entering and exiting investors.

The mechanism is applied at sub-fund level to all share classes and is not intended to address the specific requirements of individual investors.

The sub-funds apply partial swing pricing, which means that the NAV will be adjusted only when a given threshold value is reached. The Board of Directors determines a threshold value as the trigger event for net subscriptions and redemptions. This threshold value is defined per sub-fund and expressed as a percentage of the total net assets of the sub-fund in question.

In swing pricing, the NAV is adjusted to reflect the net transaction fees on each NAV calculation if this threshold value is exceeded.

The direction of the swing depends on the net flow of capital applicable to a NAV. In the case of a net inflow of capital, the swing factor linked to subscriptions of shares in the sub-fund will be added to the NAV. For net redemptions, the swing factor linked to redemptions of shares in the sub-fund in question will be deducted from the NAV. In both cases, all entering/exiting investors on a given date will have the same NAV applied.

The swing factors with which the NAV is adjusted are calculated on the basis of external brokerage charges, taxes and duties and estimated variances between the buy and sell prices of the transactions that the sub-fund carries out following share subscriptions and redemptions.

A performance fee, if any, will be applied on the basis of the non-swing NAV.

The swing factor value will be determined by the Board of Directors and may vary from one sub-fund to the next without, however, exceeding 3% of the unadjusted NAV.

For the current financial period, swing pricing was applied to the net asset values of

13 - Collateral

Under OTC derivative contracts, the sub-funds maintained collateral with CACEIS Bank Luxembourg, Branch in favour of the counterparty at closing. This cash collateral is intended, in the absence of margin calls, to fully cover the counterparty's risk of a possible default by the sub-fund.

With regard to futures contracts, the sub-funds maintained a security deposit with Société Générale in favour of the counterparty at the close of trading. This cash security deposit is intended to cover market risks in the event of unfavourable daily movements in the prices of futures contracts purchased or sold.

Other notes to the financial statements

14 - Other expenses

Other expenses mainly include publication costs, PRIIPS, SFDR, consultants' fees, etc...

15 - Other income

Other income mainly comprises management fee retrocessions applied by the target funds in which the sub-fund invests.

16 - Credit Line Facility

Following a tax reform in India, the capital gains tax on shares in Indian companies and units in equity-oriented funds chargeable to STT has been extended to include a long-term capital gains tax on the disposal of Indian listed securities. Thus, from 1 April 2018, capital gains on the disposal of Indian listed shares held for more than 12 months are now taxable at 10% of net capital gains exceeding INR 100,000 (plus additional local taxes) and at 15% (plus additional local taxes) where the shares have been held for less than 12 months. For the purposes of calculating a provision, it is assumed that a short-term holding strategy will be applied and, consequently, the provision will be based solely on the short-term rate and methodology.

The following provisions have been recorded under capital gains tax liabilities in the financial statements:

Sub-funds	Currency	Provision for Capital Gain Tax on unrealized capital gains on investments INR
DPAM L BONDS EMERGING MARKETS SUSTAINABLE	EUR	33.572,68
DPAM L EQUITIES EMERGING MARKETS SELECTION MSCI INDEX	EUR	1.295.217,07

17 - Transactions with related parties

Certain sub-fund of the SICAV proceeded during the period to purchases/sales of securities with related parts, acting as counterparty or as intermediary in the transactions.

According to the article 46. (3) Of the law modified of December 2010 an UCITS which invests an important part of its assets in others UCITS and/or other OPC has to indicate in its annual report the maximal percentage of the management fees supported both at the level of the UCITS as in that of UCITS and/or other OPC in which it invests.

There is no performance fee on target funds.

18 - Changes in the composition of securities portfolio

The details of the sales and purchases of securities in the portfolio can be obtained from the head office of the SICAV.

19 - Significant events during the period

On 11 April 2025, through a business transfer, Banque Degroof Petercam Luxembourg S.A. transferred its custodian bank activities for most of its investment fund clients (including, but not limited to, SICAVs) to CACEIS Bank Luxembourg, Branch, by way of a universal transfer of all its assets and liabilities relating to this business line.

The Board of Directors of the SICAV has decided to merge the DPAM L GLOBAL TARGET INCOME compartment (the "Absorbed Compartment") with the DPAM L BALANCED CONSERVATIVE SUSTAINABLE compartment (the "Absorbing Compartment") on 24 January 2025.

This merger is motivated by the low assets of the Absorbed Compartment and by a rationalization of the compartments of the SICAV and thus the range offered to investors.

20 - Subsequent events

A new Prospectus was issued on 9 July 2025 to include, among other things, the following changes:

OPC administration fees, domiciliation and Depositary

In order to simplify the administration and payment process and to reflect the integration of the services provided by CAI FS and CACEIS Luxembourg in their respective functions as management company, processing agent and depositary bank, the Management Company receives a consolidated commission from the SICAV.

The Management Company is responsible for remunerating CACEIS Luxembourg for its services as custodian bank and processing agent for certain UCITS Administration functions, excluding transaction fees and correspondent fees which remain the direct responsibility of the SICAV.

The Management Company will therefore receive an annual fee from each sub-fund of the SICAV at a maximum rate of 0.070% p.a.

The fee is payable quarterly and calculated based on the average net assets of each sub-fund during the quarter under review.

The Management Company will also receive from each sub-fund of the SICAV a flat annual fee of EUR 2,000 per active share class within the relevant sub-fund, distributed across all active classes of the relevant sub-fund in proportion to the assets of each relevant share class.

+ VAT if applicable

The SICAV's Board of Directors has decided to launch the DPAM L EQUITIES EUROPE DEFENCE sub-fund on 30 June 2025. The first net asset value was calculated on 1 July 2025, with an initial subscription period from 25 June 2025 to 30 June 2025.

21 - Transparency of securities financing transactions and reuse

In accordance with Article 13 and Section A of the Annex to Regulation (EU) 2015/2365 (hereinafter the 'Regulation'), the SICAV must inform investors of its use of securities financing transactions and total return swaps in its annual and semi-annual reports.

The portfolio does not contain any lent assets as at the date of this report.
