

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of this fund. You are advised to read it so you can make an informed decision about whether to invest

MW Developed Europe TOPS Fund

Class A USD Shares

ISIN IE00B41LP825
Data as of 19 February 2013

MW Developed Europe TOPS Fund (the "Fund") is a sub-fund of an Irish UCITS Fund, Marshall Wace UCITS Funds plc (the "Company"). Marshall Wace LLP ("Marshall Wace") is the Investment Manager of the Fund

Objective & Investment Policy

- MW Developed Europe TOPS Fund seeks to provide investors with consistent positive performance primarily through investing in the equities of companies incorporated or active in Europe
- The Fund invests systematically on the basis of investment ideas contributed by brokers and other market professionals, selected and refined by Marshall Wace's Trade Optimised Portfolio System ("TOPS") investment process. Marshall Wace can also add its own investment ideas to the Fund's portfolio
- The Fund may use derivatives, including over-the-counter swap transactions, options, warrants, futures and forward contracts to achieve the investment objective
- The Fund will not focus on any specific country or sector within Europe
- Leverage will only be achieved through derivatives. The level of leverage used by the Fund (the market value of the assets underlying any derivatives) will not exceed 200% of the Net Asset Value of the Fund and will in any event operate within the limitations set out in the UCITS Regulations
- Any income earned by the Fund will be included in the value of investors' shares
- The Fund's net exposure to the markets will typically be between 50% long and 20% short. The Fund typically holds a diversified portfolio of approximately 500-800 investments and turns over the portfolio 1-3 times per month
- Portfolio transaction costs are paid out of the assets of the Fund. Marshall Wace will seek to minimise associated transaction costs and their impact on Fund performance

Risk & Reward Profile

- The lowest category does not mean 'risk free'
- The risk and reward profile is not a target or guarantee and may change over time
- Historical data may not be a reliable indication for the future
- The risk category for this Fund is set as 5; it is calculated in line with EU regulations and based on the risk limit of the Fund

The following risks may not be fully captured by the risk and reward indicator:

- The Fund could suffer losses if a counterparty fails to perform with respect to transactions, whether due to its own insolvency or that of others, bankruptcy, market illiquidity or disruption or other causes and whether resulting from systemic or other reasons
- The Fund may invest in securities in developing markets, which experience specific risks due to increased volatility, liquidity, political and economic instability,

market turmoil, settlement risk and relatively weak regulatory standards

- The use of derivatives involves additional risks. They may be highly sensitive to price movements of assets on which contracts are based. This may lead to significant losses, potentially not exhibited in the Fund's past performance
- Liquidity characteristics of non-exchange traded investments can be irregular, and may result in higher than anticipated costs to close positions
- The Fund may apply a 10% investor "gate", meaning that if redemption requests are received for redemption of Shares representing in aggregate more than 10% of the total number of Shares then in issue, redemption requests may be reduced pro rata and the redemption of Shares in excess of the 10% limit may be carried forward to the next following Dealing Day
- Shareholders of Shares denominated in a currency other than the base currency of the Fund will be subject to the risk that the value of their Shares will fluctuate against the base currency. Marshall Wace may attempt to reduce or minimise the effect of fluctuations in the exchange rate on the value of these Shares

A complete description of risk factors is set out in the Prospectus in the section entitled 'Certain Risk Factors'

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you may pay less. Please refer to your financial advisor or the distributor for the actual charges.

The ongoing charges figure is based on expenses for the calendar year 2012.

This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking

One-off charges taken before or after you invest.

Entry Charge

Up to 5%

Exit Charge

0%

This is the maximum that might be taken out of your money before it is invested. Marshall Wace is permitted to make a preliminary charge on the sale of Shares to an investor of up to 5% of the amount subscribed and has discretion to waive this charge in whole or in part.

Charges for this share class over a year

Ongoing Charges

2.41%*

* Based on six month period ended 31 December, which has been annualised. Includes 2% management fee

Key contingent charges for this share class

Performance fee

20%^

^ Per annum of outperformance of the class provided that this outperformance exceeds the levels reached in previous periods

For more information on charges, please see the 'Fees and Expenses' section of the prospectus, which is available at <http://ucitsfunds.mwam.com>.

Performance

■ MW Developed Europe TOPS Fund - Class A USD

*Performance from launch (6 May 2009) to 30 June 2009

- The Fund was launched on 1 March 2009. This Share class was launched on 6 May 2009
- Performance has been calculated in USD
- The annual returns in this table are net of all fees and expenses of the Fund and show percentage year-on-year changes in the value of the shares
- Past performance is not a reliable indicator or guide of future returns

Practical Information

Custodian

Further information

JP Morgan Bank (Ireland) plc

<http://ucitsfunds.mwam.com>

- The Fund's assets are held with JP Morgan Bank (Ireland) plc and its sub-custodians and are segregated from the assets and liabilities of other sub-funds of the Company. However, these provisions have not been tested in other jurisdictions
