NOTE 1

GENERAL

Belfund SICAV (the "SICAV") is an open-ended investment company organised under the laws of Luxembourg as a société d'investissement à capital variable ("SICAV"), incorporated on March 14, 2016 under the form of a public limited liability company (*société anonyme*) under part I of the law of December 17, 2010 relating to undertakings for collective investment ("UCI"), as amended (the "Law").

The SICAV is registered with the Luxembourg trade and companies register under number B204739 and its deed of incorporation was published in the *Recueil électronique des sociétés et associations* ("RESA") on March 29, 2016.

There is no limit to the number of Shares which may be issued. Shares are issued to subscribers in registered form or dematerialised form.

FundPartner Solutions (Europe) S.A. with registered office at 15, avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg was appointed Management Company of the SICAV as of the incorporation date. It is a management company within the meaning of chapter 15 of the Law.

As at June 30, 2019, the SICAV includes one sub-fund in activity:

- Belfund SICAV - Belinvest Equity Fund

The detail of Share Classes issued is available in the Special Sections of the latest Prospectus.

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Preparation and presentation of financial statements

The financial statements are prepared in accordance with generally accepted accounting principles and presented in accordance with the legal reporting requirements applicable in Luxembourg relating to UCI.

The reference currency of the SICAV is the EUR.

b) Valuation of assets

The assets of the SICAV are valued in accordance with the following principles:

1) Transferable securities or money market instruments quoted or traded on an official stock exchange or any other regulated market, are valued on the basis of the last known price as of the relevant Valuation day, and, if the securities or money market instruments are listed on several stock exchanges or Regulated markets, the last known price of the stock exchange which is the principal market for the security or money market instrument in question, unless these prices are not representative.

2) For transferable securities or money market instruments not quoted or traded on an official stock exchange or any other Regulated market, and for quoted transferable securities or money market instruments, but for which the last known price as of the relevant Valuation day is not representative, valuation is based on the probable sales price estimated prudently and in good faith by the Board of Directors of the SICAV.

Notes to the financial statements as at June 30, 2019 (continued)

3) Units and shares issued by Undertakings for the Collective Investment of Transferable Securities ("UCITS") or other UCI are valued at their last available Net Asset Value ("NAV") as of the relevant Valuation day.

4) The liquidating value of futures, forward or options contracts that are not traded on exchanges or on other regulated markets is determined pursuant to the policies established in good faith by the Board of Directors of the SICAV, on a basis consistently applied. The liquidating value of futures, forward or options contracts traded on exchanges or on other Regulated markets is based upon the last available settlement prices as of the relevant Valuation day of these contracts on exchanges and Regulated markets on which the particular futures, forward or options contracts are traded; provided that if a futures, forward or options contract could not be liquidated on such Business day with respect to which a NAV is being determined, then the basis for determining the liquidating value of such contract is such value as the Board of directors of the SICAV may, in good faith and pursuant to verifiable valuation procedures, deem fair and reasonable.

5) Liquid assets and money market instruments with a maturity of less than 12 months may be valued at nominal value plus any accrued interest or using an amortised cost method (it being understood that the method which is more likely to represent the fair market value will be retained). This amortised cost method may result in periods during which the value deviates from the price the SICAV would receive if it sold the investment. The Board of Directors of the SICAV may, from time to time, assess this method of valuation and recommend changes, where necessary, to ensure that such assets will be valued at their fair value as determined in good faith pursuant to procedures established by the Board of Directors of the SICAV. If the Board of Directors of the SICAV believes that a deviation from the amortised cost may result in material dilution or other unfair results to Shareholders, the Board of Directors of the SICAV will take such corrective action, if any, as it deems appropriate, to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results.

6) The swap transactions are consistently valued based on a calculation of the net present value of their expected cash flows. For certain sub-funds using over the counter ("OTC") Derivatives as part of their main Investment Policy, the valuation method of the OTC Derivative is further specified in the relevant Special Section.

7) Accrued interest on securities is taken into account if it is not reflected in the share price.

8) Cash is valued at nominal value, plus accrued interest.

9) All assets denominated in a currency other than the reference currency of the respective sub-fund/class are converted at the mid-market conversion rate as of the relevant Valuation day between the Reference currency of the sub-fund and the currency of denomination.

10) All other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above paragraphs would not be possible or practicable, or would not be representative of their probable realisation value, will be valued at probable realisation value, as determined with care and in good faith pursuant to procedures established by the Board of Directors of the SICAV.

Notes to the financial statements as at June 30, 2019 (continued)

In the context of sub-funds which invest in other UCIs, valuation of their assets may be complex in some circumstances and the administrative agents of such UCIs may be late or delay communicating the relevant NAVs. Consequently, the Administrative Agent, under the responsibility of the Board, may estimate the assets of the relevant sub-funds as of the Valuation Day considering, among other things, the last valuation of these assets, market changes and any other information received from the relevant UCIs. In this case, the NAV estimated for the sub-funds concerned may be different from the value that would have been calculated on the said Valuation Day using the official NAVs calculated by the administrative agents of the UCIs in which the sub-fund invested. Nevertheless, the NAV calculated using this method is considered as final and applicable despite any future divergence.

c) Net realised gain/loss on sales of investments

The net realised gain/loss on sales of investments is calculated on the basis of the weighted average cost of the investments sold.

d) Cost of investment securities

The cost of investment securities in currencies other than the currency of the SICAV is translated into the currency of the sub-fund at the exchange rate applicable at purchase date.

e) Forward foreign exchange contracts

The unrealised gains or losses resulting from outstanding forward foreign exchange contracts, if any, are determined on the basis of the forward rates applicable at the end of the period and are recorded in the statement of net assets.

f) Income

Dividends are recorded net of withholding tax at the ex-date. Interest is recorded on an accrual basis.

g) Transaction fees

The transaction fees represent the costs incurred by the SICAV in connection with purchases and sales of investments. They include brokerage fees as well as bank commissions, tax, depositary fees and other transaction fees, and are included in the statement of operations and change in net assets.

h) Formation expenses

Formation expenses are amortised on a straight line basis over a period of 5 years.

Notes to the financial statements as at June 30, 2019 (continued)

NOTE 3

TAXATION OF THE SICAV

In accordance with the legislation in force in Luxembourg, the SICAV is not subject to any Luxembourg income tax or capital gains tax, withheld at source or otherwise. Income received by the SICAV may be subject to withholding taxes in the country of origin of the issuer of the security, in respect of which such income is paid. Nevertheless, the net assets of the SICAV are subject to a subscription tax ("*Taxe d'Abonnement*") at an annual rate of 0.05%, payable at the end of each quarter and calculated on the basis of the SICAV's net assets at the end of each quarter. This tax is reduced to 0.01% for assets relating to shares reserved for institutional investors and for the sub-funds whose sole objective is collective investment in money market instruments and deposits in credit institutions.

Are exempt from the *Taxe d'Abonnement* sub-fund:

- (i) whose securities are listed or traded on at least one stock market or another regulated market that operates regularly, is recognised and open to the public; and
- (ii) whose exclusive object is to replicate the performance of one or more indexes.

If there are several asset classes within the sub-fund, the exemption only applies to classes that comply with the condition set out in sub-point (i).

Furthermore, the portion of the net assets invested in units/shares of other Luxembourg UCI is exempt from the *Taxe d'Abonnement*, provided that such units/shares have already been subject to this tax.

NOTE 4
