

If you are in any doubt about the action to be taken or the contents of this document please consult your stockbroker, bank manager, lawyer, accountant or other independent professional adviser who, if such advice is taken in Ireland, is duly authorised or exempted under the Investment Intermediaries Act 1995 (as amended) or the Stock Exchange Act 1995 (as amended).

Investors should read this Prospectus in its entirety and should consider the risks described under “Risk Factors” in this Prospectus and in any relevant Fund Supplement before investing in the Company.

The Company and the Directors, whose names appear on page 11, are responsible for the information contained in this Prospectus and accept responsibility accordingly. To the best of the knowledge and belief of the Company and the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of the information.

Legal & General UCITS ETF PLC
*(an umbrella investment company with variable capital and
segregated liability between its Funds incorporated
with limited liability in Ireland under
registration number 459936)*

CONSOLIDATED PROSPECTUS FOR INVESTORS IN GERMANY

Manager

LGIM ETF Managers Limited

The date of this Prospectus is 24 May 2018.

The Company is both authorised and supervised by the Central Bank pursuant to the Irish Regulations. The authorisation of the Company is not an endorsement or guarantee of the Company by the Central Bank and the Central Bank is not responsible for the contents of this Prospectus. The authorisation of the Company by the Central Bank does not constitute a warranty by the Central Bank as to the performance of the Company and the Central Bank shall not be liable for the performance or default of the Company.

This document is a prospectus as required by Regulation 88(1) of the Irish Regulations.

This document does not constitute a “prospectus” for the purposes of the Prospectus Rules.

Statements made in this Prospectus are, except where otherwise stated, based on the law and practice currently in force in Ireland, which may be subject to change.

LEGAL & GENERAL UCITS ETF PLC

Offering of Shares

The distribution of this Prospectus and the offering and placing of Shares in certain jurisdictions may be restricted. No persons receiving a copy of this Prospectus in any such jurisdiction may treat this Prospectus as constituting an invitation to them to purchase or subscribe for Shares, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used. Accordingly, this Prospectus does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation.

It is the responsibility of any persons in possession of this Prospectus and any persons wishing to apply for Shares pursuant to this Prospectus to inform themselves of, and to observe, all applicable laws and regulations of any relevant jurisdiction. Prospective applicants for Shares should inform themselves as to the legal requirements of applying and subscribing, holding or disposing of such Shares and any applicable exchange control regulations and taxes in the countries of their respective citizenship, residence, incorporation or domicile, including any requisite government or other consents and the observing of any other formalities.

The Manager may make application to register and distribute the Shares in jurisdictions outside Ireland. The fees and expenses in connection with the registration and distribution of Shares in such jurisdictions will be borne by the Manager. In the event that such registrations take place, the Manager may appoint or be required to appoint paying agents, representatives, distributors or other agents in the relevant jurisdictions. Local regulations may require such agents to maintain accounts through which subscription and redemption monies may be paid. Investors who choose or are obliged under local regulations to pay/receive subscription/redemption monies via an intermediary agent rather than directly via the Administrator to/from the Depositary bear a credit risk in relation to that intermediate agent with respect to subscription monies prior to transmission of such monies to the Depositary for the account of the Company and with respect to redemption monies payable by such intermediate agent to the relevant investor.

United States

The Shares have not been, and will not be, registered under the 1933 Act or the securities laws of any of the states of the United States and the Shares may not be offered, sold or delivered directly or indirectly in the United States or to or for the account or benefit of any U.S. Person. In addition, the Shares may not be re-offered or resold in the United States or to U.S. Persons. Shares may not be acquired or owned by, or acquired with the assets of, an ERISA Plan. The Company has not been and will not be registered under the 1940 Act.

In order to ensure compliance with the restrictions referred to above, the Company is, accordingly, not open for investment by any U.S. Persons, or ERISA Plans except with the prior consent of the Directors. A prospective investor may be required at the time of acquiring Shares to represent that such investor is a Qualified Holder and, in particular, is not a U.S. Person or acquiring Shares for or on behalf of a U.S. Person or with the assets of an ERISA Plan. The granting of prior consent by the Directors to an investment does not confer on the investor a right to acquire Shares in respect of any future or subsequent application.

Redemption Fee

The maximum Redemption Fee is 3% of the Net Asset Value of the Shares being redeemed. Investors should be aware that the price of Shares may fall as well as rise. In the event that an investor subscribes or redeems Shares for cash rather than purchasing or selling Shares on the secondary market, the difference at any time between the subscription and the redemption price of Shares subscribed or redeemed for cash means that such an investment in the Company should be viewed as medium to long term.

DATA PROTECTION

Investors should note that the Company may handle their personal data within the meaning of the GDPR ("**Personal Data**") or Personal Data of individuals connected with an investor's directors, offices, employees and / or beneficial owners.

The Company's privacy policy sets out, amongst other things, the purposes for processing Personal Data, the legal basis for such processing, the period for which Personal Data may be retained as well as any other information that may be required to be provided under GDPR. Such Personal Data may be disclosed and/or transferred to third parties including, but not limited to, regulatory bodies, tax authorities, delegates, advisers and service providers of the Company and their or the Company's duly authorised agents and any of their respective related, associated or affiliated companies wherever located (including to countries outside the EEA which may not have the same data protection laws as in Ireland) for the purposes specified in the Company's privacy policy.

Authorised Participants who have subscribed for ETF Shares directly with the Company and investors who have subscribed for Non-ETF Shares directly with the Company have, among other rights, a right to obtain a copy of their Personal Data kept by the Company and the right to rectify any inaccuracies in Personal Data held by the Company.

Investors who have purchased ETF Shares on the secondary market and who appear as a Shareholder on the Company's electronic share register (CREST) have, among other rights, a right to obtain a copy of their Personal Data as recorded on the Company's electronic share register and the right to rectify any inaccuracies in their personal data as recorded on the Company's electronic share register. However, whilst the Company shall provide to a requesting Shareholder a copy of such Shareholder's Personal Data as recorded on the Company's electronic share register, the Personal Data recorded on the Company's electronic share register shall simply reflect such Shareholder's CREST account details as recorded in the CREST system of which they are a member (CREST ID, name, address, domicile and account designation). Accordingly, any Shareholder wishing to rectify any inaccuracies in such CREST account details (as recorded in the Company's electronic share register) would need to liaise directly with CREST in order to rectify such inaccuracies.

A copy of the privacy policy of the Company is available from <http://www.lgimetf.com> and/or upon request from the Company.

SUMMARY

This summary should be read as an introduction to this Prospectus and any decision to invest in the Shares should be based upon consideration of the Prospectus as a whole.

The Funds are exchange traded funds which means that at least one class of Share in each Fund is listed and actively traded on one or more stock exchanges (each such class of Share being described in this Prospectus as an ETF Share class). Only Authorised Participants are permitted to subscribe for and redeem ETF Shares of the Funds directly with the Company. Other investors may subscribe for and redeem Non-ETF Shares directly with the Company.

The ETF Shares of the Company have been admitted to the Official List of the United Kingdom Listing Authority pursuant to Chapter 16 of the UK Listing Rules and the ETF Shares of certain Funds have been admitted to trading on the main market of the London Stock Exchange. The ETF Shares of certain Funds have also been admitted to trading on the Borsa Italiana, Deutsche Börse, SIX Swiss Exchange, NYSE Euronext Amsterdam and/or NYSE Euronext Paris. Applications for the admission of ETF Shares of certain Funds and of new Funds to certain stock exchanges may be made from time to time.

Investment in the Shares involves a degree of risk. An investment in the Shares or any classes of Shares should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. Investment in the Shares is not for investors who cannot afford to lose all or a significant part of their investment in the Shares.

Introduction

The Company was incorporated in Ireland on 15 July 2008 as an open-ended investment company with variable capital having segregated liability between its Funds and is organised under the laws of Ireland as a public limited company. The Company was authorised by the Central Bank on 29 August 2008 as a UCITS pursuant to the Irish Regulations. The Company is a recognised scheme under section 264 of the Financial Services and Markets Act 2000 of the United Kingdom. The Company is structured as an umbrella fund in that the share capital of the Company may be divided into different classes of Shares with one or more classes representing a separate Fund of the Company. The Constitution enables the Company to establish an unlimited number of Funds, each comprising a distinct portfolio of investments. The Funds are operated separately and the assets of each Fund are managed in accordance with the investment objective and policy applicable to that Fund.

The management and administration of the Company is undertaken by the Manager.

This Prospectus relates to the Funds as set out in the Fund Schedule Supplement.

Summary of Funds' Investment Objectives

The specific investment objective of each Fund will be determined by the Directors at the time of creation of the Fund. Each Fund is categorised as a UCITS fund. The assets of each Fund will be invested with the aim of achieving the investment objective of that Fund, as further described in the "*Investment Objective*" section of the relevant Fund Supplement. Funds established by the Company may pursue either an active management strategy or a passive management strategy. A detailed description of the investment policy of each Fund is set out in the relevant Fund Supplement.

Summary of Funds' Investment Policies

Index tracking and replicating Funds

A Fund which seeks to track or replicate an Index employs a passive management strategy. Depending on the nature of the relevant Index tracked or replicated by each Fund, the Investment Manager may invest in or gain exposure to all or some of the component securities in the Index. It may also employ alternative techniques in order to gain exposure to the Index, including (but not limited to):

- (i) entering into FDIs (in particular, OTC Swaps) with one or more counterparties;

- (ii) investing directly in the portfolio of transferable securities or other relevant assets which comprise the constituents of the relevant Index; and/or
- (iii) investing in an optimised sample of the index constituents together with other eligible assets which are un-related to the index constituents.

Further information on the different methods by which a relevant Index might be tracked or replicated by a Fund is set out in the section of this Prospectus entitled “*Indices*” on page 23. The actual method used by a Fund to track or replicate its Index, where relevant, will be as set out in the relevant Fund Supplement.

Actively managed Funds

A Fund, the Investment Manager of which has discretion over the composition of its portfolio, subject to its stated investment objective and policies, employs an actively managed strategy. A more detailed description of the investment policy of a Fund pursuing an actively managed strategy is set out in the relevant Fund Supplement.

Investment and Borrowing Restrictions

The assets of each Fund will be invested with the aim of achieving the investment objective and policy of that Fund. They must also be invested in compliance with the investment restrictions set out in Schedule III of this Prospectus.

Shares

The Company may issue Shares of any class of any Fund on such terms as it may from time to time determine. Each Fund may issue different classes of Shares. Shares can be issued as ETF Shares or Non-ETF Shares. The Shares of each Fund will rank *pari passu* with each other and will be identical in all respects except as to all or any of, the currency of denomination of the Shares, the dividend policy, the level of fees and the expenses to be charged, the Minimum Subscription Amount, the Minimum Redemption Amount and / or hedging policy.

Subscriptions and Redemption of Shares

Only Authorised Participants may invest in ETF Shares in Funds directly with the Company. All other investors may acquire or purchase such Shares only through the secondary market. Alternatively, investors may subscribe for Non-ETF Shares directly with the Company.

ETF Shares

During any Initial Offer Period determined by the Directors in relation to each class of ETF Shares, such Shares will be offered at an Initial Offer Price, as set out in the relevant Fund Supplement. Following the Initial Offer Period, Authorised Participants may subscribe for and redeem ETF Shares directly with the Fund at the Net Asset Value per Share (and after taking account of any Duties and Charges, Subscription Fee and / or Redemption Fee) for any Dealing Day in accordance with the procedures set out in this Prospectus.

In addition, ETF Shares may also be acquired or purchased through the secondary market. Investors may pay more than the then current Net Asset Value per Share when buying ETF Shares on the secondary market and may receive less than the then current Net Asset Value per Share when selling ETF Shares on the secondary market. The price of any ETF Shares traded on the secondary market will depend, *inter alia*, on market supply and demand, movements in the value of the constituents of the relevant Index as well as other factors such as prevailing financial market, corporate, economic and political conditions.

Investors who buy and sell ETF Shares on the secondary market must do so with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. ETF Shares purchased on the secondary market cannot usually be sold directly back to the Company. However, there are limited circumstances where Shareholders other than Authorised Participants will be permitted to redeem their shareholding directly with the Company, further details of which can be found in the section entitled “*Dealing ETF Shares in the Secondary Market*” on page 62.

Non-ETF Shares

During any Initial Offer Period determined by the Directors in relation to each class of Non-ETF Shares, such Shares will be offered at an Initial Offer Price, as set out in the relevant Fund Supplement. Following the Initial Offer Period, applicants may subscribe for and redeem Non-ETF Shares directly with the Fund at the Net Asset Value per Share for the relevant Dealing Day (and after taking account of any Duties and Charges, Subscription Fee or Redemption Fee) in accordance with the procedures set out in this Prospectus.

Valuation Policy and Accounts

The subscription and redemption price of a Share is calculated by reference to the Net Asset Value of the Fund to which it relates. In summary, this is calculated by valuing the property of the Fund and dividing that value by the number of Shares of the Fund in issue, making such adjustments as necessary where there are many different classes of Shares in the Fund.

Directors

The Board of Directors is responsible for the determination of the Funds' investment objectives and policies and has overall responsibility for the activities of the Company. At the date of the Prospectus, the Directors are Adrian Waters, Eimear Cowhey, Mark Weeks, Jason Kennard and Siobhan Boylan.

Management of the Company

The Company has appointed BNY Mellon Trust Company (Ireland) Limited to act as its depositary.

The Company has entered into a management agreement with the Manager under which the Manager is responsible for the management of the Company's affairs together with the marketing and distribution of the Shares, subject to the overall supervision of the Directors.

The Manager reserves the right to appoint one or more Investment Managers each of which will be responsible for the investment and re-investment of the assets of specific Funds pursuant to an Investment Management Agreement.

The Manager has appointed GO ETF Solutions LLP to act as investment manager for each of the Funds with responsibility for the investment of the assets of the Company, subject always to the supervision and direction of the Directors and the Manager. GO ETF Solutions LLP is also the Promoter of the Company.

The Manager has appointed BNY Mellon Fund Services (Ireland) Designated Activity Company to act as administrator and transfer agent of the Company with responsibility for performing the day to day administration of the Company, including the calculation of the Net Asset Value and the Net Asset Value per Share of each Fund.

The Manager has appointed Computershare Investor Services (Ireland) Limited to act as registrar pursuant to the Registrar Agreement.

Conflicts of Interest

The Directors, the Manager, the Investment Manager, the Sponsor, the Distributor, the Administrator and the Depositary and their respective officers and delegates, provide services to the Company on a non-exclusive basis. They may be involved in other financial, investment or professional activities. These activities may on occasion give rise to potential or actual conflicts of interest involving the Company.

Meetings, Reports and Accounts

Shareholders in the Company are entitled to attend and vote at general meetings of the Company. The annual general meetings of the Company are held in Ireland and will normally be held within six months of the end of each financial year of the Company.

Summary of Risk Factors

The Investments of the Company are subject to normal market fluctuations and other risks inherent in investing in securities and other financial instruments. There can be no assurance that any appreciation in value of Investments will occur, and the capital value of an investor's original investment is not guaranteed. The value of Investments and the income from them may go down as well as up, and an investor may not get back the original amount invested. There is no assurance that the investment objective of each Fund will be achieved. For index tracking/replicating funds, all invested capital in a Fund may be lost if the performance of the relevant Index is negative.

The Company is structured as an umbrella fund with segregated liability between its Funds. As a matter of Irish law, the assets of one Fund will not be available to meet the liabilities of another (a provision which also applies in insolvency and is also generally binding upon creditors). This segregation may not, however, be recognised in non-Irish courts.

Trading in ETF Shares on a stock exchange may be halted or suspended due to market conditions or for the reason that, in the stock exchange's view, trading in the ETF Shares is inadvisable, or otherwise, pursuant to the stock exchange's rules. If trading on a stock exchange is halted, investors in ETF Shares may not be able to sell their ETF Shares until trading resumes.

Even though the ETF Shares are to be listed on one or more stock exchanges, there can be no certainty that there will be liquidity in the ETF Shares on any stock exchange or that the market price at which the ETF Shares may be traded on a stock exchange will be the same as or approximately equal to the Net Asset Value per Share. There can be no guarantee that once the ETF Shares are listed on a stock exchange they will remain listed or that the conditions of listing will not change.

Investors who invest in a Fund (or Share class thereof) which invests in assets denominated in currencies other than the Base Currency (or the currency in which the relevant Share class is denominated) should note that the return of such Fund (or Share class) will be affected by currency fluctuations. Where disclosed in the relevant Fund Supplement, the Investment Manager may engage in currency hedging activities to seek to reduce the impact of such currency fluctuations.

Funds investing in emerging markets around the world can be extremely volatile as the systems and standards of trading, settlement, registration and custody of securities in these markets may not be as high as those in the developed markets. In addition, lack of liquidity and inefficiency in certain emerging stock markets and foreign exchange markets may mean that securities are less marketable than in more developed markets, resulting in greater price fluctuation. Such markets can also experience significant currency volatility and, accordingly, the countries may have exchange controls. Accordingly, certain emerging markets may not afford the same level of investor protection as exists in more developed jurisdictions.

Although a Fund will generally invest in or seek exposure to listed securities, pursuant to the Irish Regulations a Fund has the right to invest up to 10% of its Net Asset Value in securities which are not traded on a regulated market. In such situations, a Fund may therefore be unable to readily sell such securities.

A Fund may enter into transactions in over-the-counter markets. This will expose a Fund to the credit of its counterparties and their ability to satisfy the terms of such transactions.

A Fund may enter into OTC Swaps and where it does so it will be clearly set out in the relevant Fund Supplement. Under the terms of an OTC Swap, a counterparty will seek to track or replicate the return of an Index or reference assets for the relevant Fund or provide exposure (or adjust exposure) to the relevant Index or reference assets for the relevant Fund. Due to certain factors, there is a risk that the return of the OTC Swaps will not be achieved and the return of the relevant Index or reference assets may therefore similarly not be achieved.

The nature of a Fund's Investments, the Index tracked or replicated by the Fund or the FDI used by a Fund to achieve tracking or replication of an Index may be complex. In certain circumstances, valuations of these complex instruments / Indices may only be available from a limited number of market participants who may

also act as counterparties to these transactions. Valuations received from such market participants may therefore be subjective and there may be substantial differences between any available valuations.

Investing in a Leveraged Long Fund or a Leveraged Inverse Fund is more risky than investing in a Fund which provides an unleveraged long return to a particular Index. Where a Fund utilises these strategies it will be clearly set out in the relevant Fund Supplement.

There can be no assurance that any Fund which seeks to track or replicate an Index will do so with any particular level of accuracy.

The prices of commodities are influenced by factors such as, but not limited to, changes in supply and demand for commodities, technological changes which can influence the level of production of commodities, trade protectionism or liberalisation, environmental changes, agricultural, fiscal, monetary, and exchange control programmes and policies of governments (including government intervention in certain markets).

Choice of Law and Jurisdiction

All disputes and claims as to (a) the terms of this Prospectus, regardless of the language in which they are translated, (b) the issue, holding, transfer or redemption of Shares, or (c) any other claim or dispute whatsoever howsoever arising out of or in connection with Shares shall be governed by and construed in accordance with the laws of Ireland. All such disputes and claims shall be submitted to the jurisdiction of the courts of Ireland.

DEFINITIONS

“Act”, the Companies Act 2014 (of Ireland), as may be amended.

“Administrator”, BNY Mellon Fund Services (Ireland) Designated Activity Company and/or such other person as may be appointed, in accordance with the requirements of the Central Bank, to provide administration services to the Funds, or any of them and to provide transfer agency services in respect of the Shares subscribed for in the Company.

“Administration Agreement”, the administration agreement made between the Manager and the Administrator as the same may be amended from time to time.

“ADR”, American Depositary Receipt.

“Auditors”, KPMG.

“Authorised Participant”, a person, generally an institutional investor, who acts as an authorised participant in relation to subscriptions and redemptions for Shares in the Company.

“Base Currency”, the base currency of a Fund, being the currency in which the Net Asset Value is calculated.

“Benchmark Regulation”, Regulation (EU) 2016/1011 of the European Parliament and of the Council.

“Business Day”, in relation to a Fund, means such day or days as the Directors may from time to time determine and as set out in the relevant Fund Supplement and / or such other day or days as the Directors may from time to time determine and notify in advance to Shareholders.

“Cash Component”, in relation to *in specie* subscriptions only, the amount of cash required to equalise any differences between the value of the securities set out in the Portfolio Composition File and the Net Asset Value for each Creation Unit. Ordinarily the Cash Component will be the same for subscriptions and redemptions.

“CEA”, the United States Commodity Exchange Act, as amended.

“Central Bank”, the Central Bank of Ireland or any successor thereof.

“Client Asset Account”, one or more accounts operated at umbrella level through which dividend monies and Fund liquidation proceeds are paid, such accounts which are opened by the Registrar for the benefit of the Company pursuant to the requirements of the Client Asset Regulations.

“Client Asset Regulations”, the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) Client Asset Regulations 2015 For Investment Firms and as may be amended or replaced.

“Collection Account”, a single subscription and redemption account in the name of the Company operated at umbrella level through which subscription, redemption and dividend monies and Fund liquidation proceeds are paid.

“Common Investment Pool”, a pool of assets comprising of all or a specified portion of a Funds’ Investments for the purpose of maximising the value of cash holdings of such Funds.

“CRS”, the Common Reporting Standards, a global standard on the Automatic Exchange of Information approved by the OECD, which took effect in Ireland from 1 January 2016.

“Company”, Legal & General UCITS ETF public limited company.

“Constitution”, the Constitution of the Company, comprising the memorandum and articles of association of the Company, as amended or newly adopted from time to time.

“Creation Unit”, in respect of a Fund, the predetermined number of ETF Shares which an investor must subscribe for or redeem when subscribing or redeeming *in specie* as agreed with the Manager as the same may be lowered by the Manager either generally or in any particular case. The Net Asset Value for a Creation Unit is the Net Asset Value per Share multiplied by the number of Shares in a Creation Unit.

“CREST”, the system for paperless settlement of trades in listed securities of which CRESTCo Limited is the operator.

“Dealing Currency”, the currency in which Shares in a Share class of a Fund are denominated.

“Dealing Day”, in respect of each Fund (and unless otherwise specified in respect of a specific Fund in the relevant Fund Supplement), means an Index Publication Day and a day on which no Significant Markets are closed for business or such Business Day(s) as the Directors may from time to time determine for dealings in a Fund (and notify in advance to Shareholders) provided always that there shall be at least one Dealing Day each fortnight. The Investment Manager maintains an online *“Dealing Day Calendar”* at: <http://www.lgimetf.com>, where advance notice of all expected Dealing Days for each Fund is published on an ongoing basis. The Dealing Day Calendar is also available on request from the Manager and from the Investment Manager.

“Dealing Deadline”, in respect of each Fund means the cut-off time in respect of any Dealing Day for receipt of applications for subscriptions and redemptions in a Fund as shall be set out on <http://www.lgimetf.com> (which information shall be kept up to date) or such earlier or later time prior to the Valuation Point as the Directors may, at their discretion, determine and notify in advance to Shareholders. The Dealing Deadline shall in any event occur prior to the Valuation Point for the relevant Dealing Day.

“Dematerialised Form”, Shares, title to which is recorded as being in uncertificated form and which may be transferred by means of a computer based settlement system in accordance with the Uncertificated Securities Regulations.

“Depository”, BNY Mellon Trust Company (Ireland) Limited, or such other person as may be appointed, with the prior approval of the Central Bank, to act as depository to the Company.

“Depository Agreement”, the depository agreement made between the Company, the Manager and the Depository as the same may be amended from time to time.

“Depository Receipt”, an equity-related security which evidences ownership of underlying securities. Depository Receipts may include American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”).

“Directors”, the directors of the Company or any duly authorised committee thereof and “Board of Directors” means the board of Directors constituted pursuant to the Constitution.

“Distributor”, Legal and General Investment Management Limited and/or such other person as may be appointed, in accordance with the requirements of the Central Bank to act as a distributor of the shares of a Fund or any of them.

“Distribution Agreement”, the marketing and promotion services agreement made between the Manager and the Distributor as the same may be amended from time to time.

“Dodd-Frank Act”, the Dodd–Frank Wall Street Reform and Consumer Protection Act of 2010, as amended.

“Duties and Charges”, all stamp duties and other duties, taxes, governmental charges, imposts, levies, exchange costs and commissions (including foreign exchange spreads), Depository and Sub-custodian charges, transfer fees and expenses, agents’ fees, brokerage fees, commissions, bank charges, registration fees and other duties and charges, including any provision for the spread or difference between the price at which any Investment was valued for the purpose of calculating the Net Asset Value per Share of any Fund and the estimated or actual price at which any such Investment is purchased or expected to be purchased, in the case of subscriptions to the relevant Fund, or sold or expected to be sold, in the case of redemptions from the relevant Fund (including, for the avoidance of doubt, any charges or costs arising from any adjustment to any FDI required as a result of a subscription or redemption) whether paid, payable or incurred

or expected to be paid, payable or incurred in respect of the constitution, increase or reduction of all of the cash and other assets of the Company or the creation, acquisition, issue, conversion, exchange, purchase, holding, repurchase, redemption, sale or transfer of Shares (including, if relevant, the issue or cancellation of certificates for Shares) or Investments by or on behalf of the Company.

“Euroclear”, Euroclear Bank S. A., as operator of the Euroclear clearing system, a Recognised Clearing and Settlement System.

“ERISA Plan”, (i) any employee benefit plan subject to part 4 of subtitle B of Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended (ERISA); (ii) any plan subject to Section 4975 of the U.S. Internal Revenue Code of 1986, as amended; or (iii) any entity the underlying assets of which constitute “plan assets” by reason of any such employee benefit plan or plan’s investment in such entity.

“EMIR”, the European Market Infrastructure Regulation (Regulation (EU) No 648/2012), as amended.

“ESMA”, the European Securities and Markets Authority.

“ETF Shares”, a class of Shares issued by the Company in respect of a Fund which are exchange-traded.

“Euro” and *“€”*, the single European currency unit referred to in Council Regulation (EC) No. 974/98 on 3 May 1998 on the introduction of the euro.

“FATCA”, the Foreign Account Tax Compliance Act provisions contained in sections 1471 to 1474 of the United States Internal Revenue Code and the US Treasury regulations promulgated thereunder that took effect from 28 January 2013, as amended from time to time.

“FCA”, the UK Financial Conduct Authority and any successor thereto.

“FDIs”, financial derivative instruments.

“FSMA”, the Financial Services and Markets Act 2000 of the United Kingdom (as may be amended).

“Fund”, a fund of assets established by the Company with the prior approval of the Central Bank which may comprise one or more classes of Shares which is invested in accordance with the investment objectives applicable to such Fund.

“Fund Schedule Supplement”, a supplement to the Prospectus which sets out the list of Funds established by the Company.

“Fund Supplement”, a supplement to the Prospectus prepared in connection with the creation of a new Fund and containing a description of the terms of such Fund.

“GDPR”, Regulation (EU) 2016/679 of the European Parliament and of the Council (General Data Protection Legislation).

“GDR”, Global Depositary Receipt.

“IFIA Code”, the “Corporate Governance Code for Collective Investment Schemes and Management Companies” published by the Irish Funds Industry Association which is available at: <http://www.irishfunds.ie/publications/>.

“iNAV”, the indicative Net Asset Value per Share provided in the manner set out herein.

“Index”, the index of securities which a Fund may aim to track or replicate, pursuant to its investment objective and in accordance with its investment policies.

“Index Publication Day”, a day on which an Index Provider publishes its Index.

“Index Provider”, the entity or person who by itself or through a designated agent compiles, calculates or publishes information on the relevant Index.

“Initial Offer Period”, the period set out by Directors in relation to any Fund or class of Shares as the period during which such Shares are initially on offer unless such period is shortened or extended and notified to the Central Bank.

“Initial Offer Price”, the subscription price per Share (or class of Shares) in a Fund during any Initial Offer Period.

“Inverse Index”, an Index which incorporates an inverse exposure as further set out in the investment policies of relevant Funds in this Prospectus.

“Inverse Return”, a return generated by a Fund which (before fees and expenses) corresponds to (i) the inverse performance of a long index on a periodic basis or (ii) the performance of an Inverse Index.

“Investment”, any investment authorised by the Constitution which is permitted by the Irish Regulations and the Constitution.

“Investment Manager”, GO ETF Solutions LLP, with an address at One Coleman Street, London, EC2R 5AA, United Kingdom, or any such person or persons as may be appointed, with the prior approval of the Central Bank, to provide investment management services to some or all of the Funds and who is identified in the Prospectus from time to time.

“Investment Management Agreement”, an agreement made between the Manager and an Investment Manager as the same may be amended from time to time.

“Irish Regulations”, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, (SI No. 352 of 2011) as amended by the European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016, (SI No. 143 of 2016) and as may be amended or replaced.

“Irish Resident”, any Irish Resident or Irish Ordinary Resident person (for further details see the heading “Taxation - Irish Taxation”).

“Leveraged Index”, an Index which incorporates a leveraged exposure as further set out in this Prospectus.

“Leveraged Inverse Fund”, a Fund which aims to provide an Inverse Return on a leveraged basis.

“Leveraged Long Fund”, a Fund which aims to provide a Leveraged Return.

“Leveraged Return”, a return generated by a Fund which (before fees and expenses) corresponds to (i) a multiple of the performance of a long index or an Inverse Index on a periodic basis or (ii) the performance of a Leveraged Index.

“Long Fund”, a Fund which tracks or replicates an unleveraged Index.

“Manager”, LGIM ETF Managers Limited, a limited liability company incorporated in Ireland or such other entity as may be appointed by the Company as manager of the Company with the prior approval of the Central Bank.

“Management Agreement”, the management agreement made between the Company and the Manager as the same may be amended from time to time.

“Market Makers”, financial institutions that are members of one or more of the Relevant Stock Exchanges and have signed a market making contract with the Company or that are registered as such with one or more of the Relevant Stock Exchanges.

“Member State”, a member state of the European Union.

“Minimum Redemption Amount”, the minimum amount which may be redeemed by Shareholders in a Fund, or Share class in a Fund at any one time, which amount may be reduced by the Manager in any case at its discretion.

“Minimum Subscription Amount”, the minimum amount which may be subscribed for in a Fund, or Share class in a Fund at any one time, which amount may be reduced by the Manager in any case at its discretion.

“Net Asset Value”, the net asset value of a Fund (or a particular Share class thereof) determined in accordance with the Constitution.

“Net Asset Value per Share”, the Net Asset Value of a Share class divided by the number of Shares of the relevant class.

“Non-ETF Shares”, a class of Shares issued by the Company in respect of a Fund which are not exchange-traded.

“OTC Swap”, over-the-counter derivative contracts, entered into by a Fund and a counterparty for the purpose of gaining economic exposure to an Index or other actual or notional portfolio of assets, as specified in the Prospectus.

“Portfolio Composition File”, the statement which will be prepared by and may be made available from the Administrator for each Fund, which identifies each of the securities and the quantities thereof which must be delivered to the Company when one Creation Unit is subscribed for, or delivered by it when one Creation Unit is redeemed and which will comprise Investments in which the relevant Fund may invest in accordance with its investment policy. In certain circumstances the Portfolio Composition File may be different for subscriptions and redemptions on a given day for one or more Funds.

“Portfolio Deposit”, the portfolio of Investments, plus or minus (as the case may be) the Cash Component, to be delivered to the Company in subscribing for one Creation Unit or to be delivered by the Company in redeeming one Creation Unit which may, from time to time differ from the Portfolio Composition File as a result of corporate actions or events affecting the securities detailed therein. The Company reserves the right to permit delivery of a previously agreed basket of Investments by way of a Portfolio Deposit which is different from the Portfolio Composition File.

“PRC” or “China”, the People’s Republic of China.

“Promoter”, the Investment Manager.

“Prospectus”, this document as it may be amended from time to time together with, where the context so requires, any Fund Schedule Supplement, any Fund Supplement or addendum to this document.

“Prospectus Rules”, the rules made for the purposes of Part VI of the FSMA in relation to offers of transferable securities to the public and admission of transferable securities to trading on a Regulated Market.

“Qualified Holder”, any person, corporation or entity other than a person, corporation or entity whose holding might result in regulatory, pecuniary, legal, taxation or material administrative disadvantage for the Company or its Shareholders as a whole specifically (i) a U.S. Person; (ii) an ERISA Plan; or (iii) a custodian, nominee, or trustee for any person, corporation or entity described in (i) and (ii) above.

“Recognised Clearing and Settlement System”, a “recognised clearing system” so designated by the Irish Revenue Commissioners.

“Redemption Dividend”, a dividend which may be paid in respect of Shares the subject of a valid redemption request.

“Redemption Fee”, the fee charged to a Shareholder (and deducted from the proceeds of the Shareholder’s redemption of Shares) and payable to the Manager or to its order on the Shareholder’s redemption for Shares directly with a Fund.

“Registrar”, Computershare Investor Services (Ireland) Limited and/or such other person as may be appointed, in accordance with the requirements of the Central Bank, to provide registrar and transfer and paying agency services to the Company.

“Registrar Agreement”, the agreement made between the Manager, the Administrator and the Registrar as the same may be amended from time to time.

“Regulated Markets”, the stock exchanges and/or regulated markets listed in Schedule I hereto.

“Relevant Stock Exchange(s)”, in respect of a Fund, the stock exchange(s) on which ETF Shares of such Fund will be listed.

“RMB”, Renminbi, the currency of the PRC.

“RMP”, a risk management process that has been approved in advance by the Central Bank.

“Share”, in respect of each Fund, a share of no par value in the Company which term shall include ETF Shares and Non-ETF Shares.

“Shareholder”, the registered holder of a Share.

“Significant Markets”, in respect of each Fund (and unless otherwise specified in respect of a specific Fund in the relevant Fund Supplement), (i) in relation to a Fund obtaining exposure to an Index principally through the use of FDIs, any market or combination of markets on which more than 20% of the constituents of that Index are regularly traded, or (ii) in relation to a Fund which principally invests directly in the constituents of an Index, any market or combination of markets where a Fund has invested 20% or more of its assets.

“Sponsor”, means J&E Davy or any other successor duly approved under Section 88 of the FSMA.

“Sterling” or “Stg£”, the lawful currency of the United Kingdom.

“Sub-custodian”, any person (including affiliates of the Depositary) to which safekeeping duties in relation to assets are delegated in accordance with the Depositary Agreement.

“Sub-Investment Manager”, means such person or persons as may be appointed by the Investment Manager, in accordance with the requirements of the Central Bank, to provide investment management services to some or all of the Funds from time to time.

“Subscriber Shares”, shares of US\$1 each in the capital of the Company designated as “Subscriber Shares” in the Constitution and subscribed for the purposes of incorporating the Company.

“Subscription Fee”, the fee charged to an investor (in addition to the amount payable in respect of the Shares being subscribed for) and payable to the Manager or to its order on the investor’s subscription for Shares directly with a Fund.

“Supplement”, any document issued by the Company and expressed to be a supplement to this Prospectus.

“Swap Arrangements”, transactions entered into in conjunction with OTC Swaps.

“Taxes Act”, the Taxes Consolidation Act, 1997 (of Ireland), as amended.

“UCITS”, an Undertaking for Collective Investment in Transferable Securities established pursuant to the UCITS Directive, as amended.

“UCITS Directive”, Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) as amended by Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 as may be amended or replaced.

“UK Corporate Governance Code”, the United Kingdom Corporate Governance Code issued by the United Kingdom Financial Reporting Council, as applicable and as may be amended.

“UK DTR”, the Disclosure Rules and Transparency Rules published by the FCA, as applicable and as may be amended.

“UK Listing Rules”, the listing rules issued by the United Kingdom Listing Authority, as applicable and as may be amended.

“Uncertificated Securities Regulations”, the Companies Act, 1990 (Uncertificated Securities) Regulations, 1996 (of Ireland) (as amended).

“United Kingdom”, the United Kingdom of Great Britain and Northern Ireland.

“United States” and “U.S.”, the United States of America, its territories, possessions, any State of the United States and the District of Columbia.

“U.S. Person”, as such term is defined in Regulation S under the 1933 Act or Regulation 4.7 under the CEA. The Directors may amend the definition of “U.S. Person” without notice to Shareholders as necessary in order best to reflect then-current applicable U.S. law and regulation. Contact your sales representative for a list of persons or entities that are deemed to be “U.S. Persons”.

“USD” or “US\$”, U.S. dollars, the lawful currency of the United States.

“Valuation Date”, each Dealing Day, or as otherwise specified for a Fund in the Prospectus, or such other day as the Directors may from time to time determine.

“Valuation Point”, in respect of each Fund (and unless otherwise specified in respect of a specific Fund in the relevant Fund Supplement), means the time at which the Index of the relevant Fund is determined (and / or such other time(s) as the Directors may from time to time determine in relation to the valuation of the assets and liabilities of a Fund and notify in advance to Shareholders). For the avoidance of doubt, the Valuation Point shall be after the Dealing Deadline for the relevant Dealing Day. The Investment Manager publishes (and updates from time to time) a document containing a list of all Valuation Points applicable to the Company’s Funds at: <http://www.lgimetf.com>. This document is also available on request from the Manager and from the Investment Manager.

“1933 Act”, the U.S. Securities Act of 1933, as amended.

“1940 Act”, the U.S. Investment Company Act of 1940, as amended.

INTRODUCTION

Legal & General UCITS ETF Plc is an open-ended investment company with variable capital organised under the laws of Ireland. The Company was authorised by the Central Bank as a UCITS within the meaning of the Irish Regulations on 29 August 2008 and is under the Central Bank's supervision. The Company is a recognised scheme under section 264 of the FSMA.

The Company is structured as an umbrella fund in that the share capital of the Company may be divided into different classes of Shares with one or more classes representing a separate Fund of the Company. The creation of any Fund will require the prior approval of the Central Bank (in which case the Company will issue a Fund Supplement describing such Fund). Investors should note that the assets of each Fund will be separate from one another and will be invested in accordance with the investment objective and policies applicable to each such Fund. Unless otherwise indicated in respect of a particular Fund in a Fund Supplement, Funds of the Company as at the date of the Prospectus each have one class of Shares and may be issued on different terms and conditions. The creation of any further classes of Shares must be effected in accordance with the requirements of the Central Bank. The Shares of each Fund rank *pari passu* with each other and will be identical in all respects except as to all or any of currency of denomination of the class, the dividend policy, the level of fees and the expenses to be charged, the Minimum Subscription Amount or the Minimum Redemption Amount and / or hedging policy. Where a Supplement is issued, it shall form part of and should be read in the context of and together with this Prospectus.

The Funds are exchange traded funds. At least one class of ETF Shares in each Fund will be listed on one or more stock exchanges. Application will be made for certain classes of ETF Shares to be admitted to trading on the London Stock Exchange's market for listed securities. Application will also be made for certain classes of ETF Shares to be admitted to trading on the Borsa Italiana, NYSE Euronext Paris and NYSE Euronext Amsterdam, the Frankfurt Stock Exchange and the SIX Swiss Exchange.

Applications for Shares will only be considered on the basis of this Prospectus and the latest published annual report and audited financial statements (if any) and, if published after such report, a copy of the latest semi-annual report and unaudited financial statements. These reports will form part of this Prospectus and will be available for inspection free of charge, at the offices of the Manager in Dublin and, for investors in the United Kingdom, at the office of the Investment Manager at any time during normal business hours on any day (excluding Saturdays, Sundays and public holidays in Ireland and the United Kingdom respectively).

No person has been authorised to give any information or to make any representation in connection with the offering or placing of Shares other than those contained in this Prospectus and the reports referred to above and, if given or made, such information or representation must not be relied upon as having been authorised by the Company. The delivery of this Prospectus (whether or not accompanied by the reports) or any issue of Shares shall not, under any circumstances, create any implication that the affairs of the Company have not changed since the date of this Prospectus. Any subscription for Shares is made on the basis of this Prospectus and investors should not rely on marketing materials issued by any third party.

Translations

This Prospectus may also be translated into other languages. Any such translation shall only contain the same information and have the same meaning as the English language Prospectus. To the extent that there is any inconsistency between the English language Prospectus and the Prospectus in another language, the English language Prospectus will prevail, except to the extent (but only to the extent) that it is required by law of any jurisdiction where the Shares are sold by the Company, that in an action based upon disclosure in a Prospectus in a language other than English, the language of the Prospectus on which such action is based shall prevail.

Qualified Holders

Shareholders are required to notify the Administrator immediately in the event that they cease to be a Qualified Holder.

Where the Company becomes aware that any Shares are directly or beneficially owned by any person in breach of the above restrictions, it may redeem the Shares so held compulsorily in accordance with the provisions contained in the section entitled “*Compulsory Redemption*” on page 34.

INVESTMENT OBJECTIVES AND POLICIES

1. General

The sole object for which the Company is established is the collective investment in transferable securities and other liquid financial assets of capital raised from the public. The Company will operate on the principle of spreading investment risk in accordance with the Irish Regulations. The specific investment objectives and policies for each Fund will be formulated by the Directors at the time of the creation of that Fund. Each Fund's investments will be limited to investments permitted by the Irish Regulations, which are described in more detail in Schedule III. The Regulated Markets in which a Fund may invest are listed in Schedule I.

Any alteration to the investment objectives or a material alteration to the investment policies of any Fund at any time will be subject to prior approval of the Shareholders of such Fund on the basis of a majority of votes cast by Shareholders. Shareholders will be given prior notice of the implementation of any alteration in the investment objectives or policies of a Fund to enable them to redeem their Shares prior to the implementation of such alteration.

2. Investment and Borrowing Restrictions

Investment of the assets of each Fund must comply with the Irish Regulations. A detailed statement of the general investment and borrowing restrictions applicable to all Funds is set out in Schedule III. The Directors may impose further restrictions in respect of any new Fund, details of which will be set out in this Prospectus.

The Directors may also from time to time impose further investment restrictions as may be compatible with or be in the interests of the Shareholders, in order to comply with the laws and regulations of the countries where Shareholders of the Company are located or the Shares are marketed or the Company is registered.

The Company has been authorised by the Central Bank with the flexibility to invest up to 100% of a Fund's assets in transferable securities and money market instruments issued by a Member State, its local authorities, a non-Member State, or public international bodies of which one or more Member States are members.

The Company may, subject to the prior approval of the Central Bank, have power to avail itself of any change in the investment restrictions laid down in the Irish Regulations which would permit investment by the Company in securities, FDIs or in any other assets which is currently restricted or prohibited under the Irish Regulations. The Company will give Shareholders reasonable notice of its intention to avail itself of any such change which is material in nature and the Prospectus will be updated accordingly.

3. Fund Investments

The Investments of each Fund are limited to investments permitted by the Irish Regulations. The Investments which a Fund may purchase will normally be listed or traded on Regulated Markets.

The Investment Manager may, on behalf of each Fund and where consistent with its investment policy, acquire unlisted Investments, invest in open-ended collective investment undertakings (whether listed or unlisted, including other Funds of the Company), equity and equity-related securities (such as shares of companies and Depositary Receipts), fixed income securities (such as government bonds and / or corporate bonds) and money market instruments (including certificates of deposit and commercial paper).

The Investment Manager may, on behalf of each Fund (subject to the provisions of Schedule II and the conditions and within the limits laid down by the Central Bank and where disclosed in the Fund's investment policy), invest in FDIs for efficient portfolio management purposes and for direct investment purposes to achieve the investment policy of the Fund. Investment in FDIs for direct investment purposes may involve the use of exchange-traded or over-the-counter Investments including, but not limited to, OTC Swaps which will enable a Fund to receive, from a counterparty, the return of a particular Index or basket of reference assets in return for periodic cash payments from the relevant Fund (a cash OTC Swap).

In order to achieve its investment policy, each Fund that seeks to track or replicate an Index may also

acquire Investments which are unrelated to the constituents of the relevant Index and enter into OTC Swaps which exchange the performance of such Investments for the performance of the Index (a non-cash OTC Swap). In either case, the return that a Shareholder will receive will be dependent on the performance of the Index, the performance of the OTC Swap used to track or replicate the performance of an Index, and the level of fees and expenses paid by the relevant Fund. Where a cash OTC Swap is used, the return will also be dependent on any earnings from investment in a Common Investment Pool or through the use of stock lending, repurchase and/or reverse repurchase agreements and/or other Swap Arrangements.

4. Efficient Portfolio Management Techniques

The Investment Manager may also, on behalf of each Fund and subject to the provisions of Schedule II and the conditions and limits laid down by the Central Bank, employ techniques and instruments relating to transferable securities, money market instruments and money market collective investment schemes for the purposes of efficient portfolio management. Such transactions may achieve a reduction in risk, a reduction in costs or an increase in capital or income returns to a Fund with a level of risk which is consistent with the risk profile of the Fund. These techniques and instruments may include investments in FDIs such as futures (which may be used to manage cash flows on a short term basis by holding the future to gain exposure to an asset class pending direct investment), options (which may be used to achieve cost efficiencies or to manage currency risk or interest rate risk), swaps and forward currency exchange contracts (both of which may be used to manage currency risk, interest rate risk or to achieve cost efficiencies). Where such techniques and instruments are used, they will be utilised in accordance with the requirements of the Central Bank. New techniques and instruments may be developed which may be suitable for use by a Fund and the Company (subject as aforesaid) may employ such techniques and instruments.

5. Common Investment

While each Fund will have separate investment objectives and policies, the investment policies of Funds of the Company may result in each Fund having a substantial holding in cash assets where a Fund has not entered into repurchase or reverse repurchase arrangements. To maximise the value of cash holdings, the Investment Manager may, in its discretion, pool all or a specified portion of the assets of a Fund with assets of other Funds of the Company. The Manager may therefore, in its discretion, establish Common Investment Pools. A Common Investment Pool is not a separate legal entity from the Company or any of the Funds. Rather it is a virtual pool designed to facilitate in an efficient manner the achievement of certain specified investment policies common to two or more Funds. The purpose of a Common Investment Pool is to achieve economies of scale in the management and administration of the assets being pooled. The use of Common Investment Pools enables the Investment Manager to aggregate assets, increase scalability and reduce tracking error. The Investment Manager will manage the assets of the Common Investment Pools in accordance with a set of cash management guidelines. These guidelines contain a number of objectives, including that the Common Investment Pools shall invest in short maturity securities from high quality issuers and that investments shall be made in accordance with conservative portfolio management practices and shall conform with all UCITS restrictions and requirements.

A Common Investment Pool will hold Investments in accordance with the investment policies relating to the Funds participating in it and may invest in a wide range of transferable securities and money market instruments including certificates of deposit, floating rate notes and commercial paper, with a diversified spread of high quality financial institutions, sovereign issuers and corporate issuers, asset and mortgage-backed securities, repurchase and/or reverse repurchase agreements, asset and fixed term deposits, loan participations and collective investment schemes.

A Common Investment Pool will initially consist of cash from each Fund participating in the Common Investment Pool. Thereafter, further transfers of cash may be made to a Common Investment Pool. The share of a Fund in a Common Investment Pool shall be measured by reference to notional units of equal value in the Common Investment Pool. On formation of a Common Investment Pool, the Directors shall, in their discretion, determine the initial value of notional units (which shall be expressed in such currency as the Directors consider appropriate) and shall allocate to each Fund units having an aggregate value equal to the amount of cash contributed. Thereafter, the value of the notional unit shall be determined by dividing the net asset value of the Common Investment Pool by the number of notional units subsisting.

When additional cash is contributed to or withdrawn from a Common Investment Pool, the allocation of units of the Fund concerned will be increased or reduced, as the case may be, by a number of units determined

by dividing the amount of cash or the value of assets in the Common Investment Pool by the current number of units. The net asset value of the Common Investment Pool will be calculated in accordance with the valuation provisions of the relevant Fund.

Dividends, interest and other distributions of an income nature received in respect of the assets in an asset pool will be credited to the Common Investment Pool. Upon the dissolution of a Fund, the assets in a Common Investment Pool will be allocated to such Fund in proportion to its participation in a Common Investment Pool.

The Administrator is responsible for administering the participation of a Fund in a Common Investment Pool in such a way so as to ensure that the relevant portion of the Common Investment Pool remains segregated and allocated to such Fund. Each Fund (on a separate and divided basis) will be entitled to the underlying assets and liabilities, which may be allocated to it arising out of Investments made through the conduit of a Common Investment Pool. The Depositary shall at all times ensure it is in a position to identify the assets of a Fund participating in a Common Investment Pool.

6. Currency Hedging Policy

Hedging at portfolio level

Where disclosed in a Fund Supplement, the relevant Investment Manager/Sub-Investment Manager may enter into transactions for the purposes of hedging the currency exposure of the Fund's Investments into the Base Currency where different. If undertaken, the aim of this hedging will be to reduce a Fund's level of risk or to hedge the currency exposure to the currency of denomination of some or all of a Fund's Investments. FDIs such as forward currency contracts, options on currencies, futures and OTC Swaps may be utilised if a Fund engages in such hedging. The currency exposure generated as a result of a Fund investing in Investments which are denominated in a currency other than its Base Currency will not be allocated to separate classes of Shares.

Hedging at Share class level

Where disclosed in a Fund Supplement, the Investment Manager may employ strategies aimed at hedging against currency risk at a Share class level. It may employ currency-related transactions such as forward currency contracts, options on currencies, futures and OTC Swaps, in order to hedge against certain currency risks, for example, where the currency of denomination of a Share class differs from the Base Currency or from the currencies in which assets of the Fund are denominated.

There can however be no assurance that currency hedging transactions will be effective. Although a Fund may utilise currency hedging transactions in respect of Share classes, it shall not be obliged to do so and to the extent that it does employ strategies aimed at hedging certain Share classes, there can be no assurance that such strategies will be effective. The costs and related liabilities/benefits arising from instruments entered into for the purposes of hedging the currency exposure for the benefit of any particular Share class of a Fund shall be attributable exclusively to the relevant Share class.

Exposure resulting from currency hedging transactions will not exceed 105% of the Net Asset Value of the relevant Share class. All transactions will be clearly attributable to the relevant Share class and currency exposures of different Share classes will not be combined or offset. The Company does not intend to have under-hedged or over-hedged positions, however, due to market movements and factors outside the control of the Company, under-hedged and over-hedged positions may arise from time to time. Hedged positions will be kept under review to seek to ensure that over-hedged positions do not exceed 105% of the Net Asset Value of the relevant Share class and that under-hedged positions do not fall short of 95% of the portion of the Net Asset Value of the relevant Share class which is to be hedged against currency risk, such reviews which will seek to ensure that under-hedged positions and hedged positions materially in excess of 100% of the Net Asset Value of the relevant Share class are not to be carried forward from month to month. In the event that the hedging in respect of a Share class exceeds 105% of the Net Asset Value of the relevant Share class or falls short of 95% of the portion of the Net Asset Value of the relevant Share class which is to be hedged against currency risk due to market movements or subscriptions/redemptions, the Investment Manager shall adjust such hedging appropriately as soon as possible thereafter.

7. Investment Policies

The investment policies utilised by a Fund will be disclosed in the relevant Fund Supplement. Funds may invest directly in or gain exposure through the use of FDIs to underlying assets or indices.

7.1. Passively-Managed Funds

Where a Fund's objective is to deliver a return based on the performance of an Index it may either "track" or "replicate" the Index in question.

In "tracking" the performance of an Index, the Investment Manager does not necessarily seek to replicate the *composition* of the Index (i.e. the full list of constituents in exactly the same proportions as they are weighted within the Index). Instead, the Investment Manager is simply aiming to track the *performance* of the Index. The Investment Manager may use one or more techniques (including a combination thereof) to track the performance of an Index including (i) optimisation/sampling techniques whereby direct investments are made in physical assets and (ii) the use of FDIs such as OTC Swaps whereby a financial counterparty is engaged contractually to provide the return of the relevant Index. Optimising techniques enable a Fund to invest in (or gain exposure to) either a representative sample of Index constituents and/or assets unrelated to the Index constituents in each case where the relevant Investments (when taken together) resemble the risk and return characteristics of constituents of the Index or of the Index as a whole. These techniques will also enable the Investment Manager to reflect anticipated changes in an Index in the Fund's portfolio (resulting in for example, Index constituents and corporate actions being reflected in the Fund's portfolio, Index constituents being sold or purchased in anticipation of those constituents being included or removed from the relevant Index, or weightings of Index constituents (vis-à-vis the actual Index composition) being varied).

In "replicating" the performance of an Index, the Investment Manager will seek to invest in (or gain exposure to) all Index constituents in the same weighting as those in the Index. Whilst this technique differs in terms of the assets which may be directly invested in by the Fund, the objective of tracking the *performance* of the relevant Index is the same as where the methods described in the paragraph above are utilised.

Unfunded OTC Swap Model

Where specified in the investment policy of the relevant Fund Supplement, a Fund may seek to gain exposure to the performance of an Index (or one or more constituents of an Index) by entering into "unfunded" total return OTC Swaps with one or more counterparties (each, a "**Long Index Swap**") (the "**Unfunded OTC Swap Model**"). Under the terms of the Long Index Swaps, the Fund will receive the return of the Index (or relevant constituents thereof) from the counterparties in return for periodic payments from the Fund to such counterparties.

As the Long Index Swaps are "unfunded", the cash received by the Fund from investor subscriptions is retained by the Fund (i.e. it is not transferred to the relevant counterparties as would be the case with a "funded" swap) and invested and managed in accordance with the arrangements described under the heading below entitled "*Portfolio management arrangements used in conjunction with the Unfunded OTC Swap Model*".

As the value of the Index (or relevant constituents thereof) increases or decreases on a daily basis, the Long Index Swaps entered into with a counterparty will record either a profit or loss for the Fund. The profit or loss arising on the Long Index Swaps is settled between the Fund and each counterparty on a periodic basis (which may be as frequently as daily but can also be monthly or quarterly). Where the Fund and a counterparty do not choose to settle the profit or loss arising on the Long Index Swaps on a daily basis, in order to keep counterparty exposure to a minimum and to comply with the daily margining requirements imposed by EMIR, the Fund and each relevant counterparty will transfer collateral (in the form of cash only) back and forth in amounts matching the relevant profit or loss on the Long Index Swaps to the extent that the relevant profit or loss exceeds an agreed de-minimis amount.

Any cash collateral transferred to the Fund by a counterparty pursuant to the Long Index Swap arrangements will be invested by the Fund in short-term money market collective investment schemes in accordance with the section entitled "*B. Efficient Portfolio Management*" in Schedule II of this Prospectus. Conversely, where the Fund is required to transfer cash collateral to a counterparty

pursuant to the Long Index Swap arrangements, it will liquidate a proportion of its investments in short-term money market collective investment schemes and, in some cases, reverse repurchase agreements or Basket Portfolio, to cover the relevant amount.

Portfolio management arrangements used in conjunction with the Unfunded OTC Swap Model

Under the Unfunded OTC Swap Model, cash received by a Fund from investor subscriptions and any cash paid to the Fund by one or more counterparties as profit on the Long Index Swaps is invested and managed in accordance with either the “*Reverse Repurchase Agreement*” model or the “*Short Basket Swap*” model, each of which is described below.

At any given time, the Fund may invest in a combination of the “*Reverse Repurchase Agreement*” and “*Short Basket Swap*” models or may be fully invested in only one of these models.

In either case, the performance of the Fund will be dependent on the performance of the Long Index Swaps and the TER and other expenses associated with operating the Fund as well as any ancillary income arising pursuant to the portfolio management arrangements described below.

Investments made by the Fund in units of short-term money market collective investment schemes pursuant to the “*Reverse Repurchase Agreement*” and “*Short Basket Swap*” models shall not exceed, in aggregate, 10% of the Fund’s Net Asset Value.

Under both the “*Reverse Repurchase Agreement*” model and the “*Short Basket Swap*” model, the Fund receives a low risk return (equivalent to an interest rate) which it uses to finance the Long Index Swaps.

A. “*Reverse Repurchase Agreement*” model

Under the “*Reverse Repurchase Agreement*” model, any cash received by the Fund from investor subscriptions and any cash paid to the Fund by one or more counterparties as profit on the Long Index Swaps is managed in accordance with the Fund’s efficient portfolio management policy, further details of which can be found in Schedule II of this Prospectus, and is accordingly invested as follows:

Reverse repurchase arrangements

The majority of the cash is invested into reverse repurchase agreements entered into with one or more counterparties in accordance with the section entitled “*B. Efficient Portfolio Management*” in Schedule II of this Prospectus. Under the terms of such arrangements, the Fund transfers its cash to one or more counterparties in exchange for collateral, in the form of securities, which are transferred to it by each relevant counterparty by way of full legal title transfer.

The collateral securities transferred to the Fund must satisfy certain eligibility criteria, including that they must be either equity securities or fixed rate or floating rate government and supranational bonds and are subject to haircuts of between 0% and 10%. Government and supranational bonds must have a minimum long-term credit rating of AA and AAA (Standard & Poor’s) respectively. The maturity of a government or supranational bond is not a criterion for selection, however, it is relevant to the determination of the applicable haircut. Further details can be found under the heading entitled “*B. Efficient Portfolio Management*” in Schedule II of this Prospectus.

On a daily basis, the collateral securities held by the Fund are valued and, to the extent that their value is less than the value of the cash held by the relevant counterparty, the counterparty is required to transfer additional collateral securities to the Fund to match the notional value of the reverse repurchase agreement. Conversely, to the extent that the value of the collateral securities held by the Fund is higher than the value of the cash held by the relevant counterparty, the Fund is required to transfer a proportion of the excess collateral back to the counterparty.

Under the terms of the reverse repurchase agreements, the Fund has no market exposure to the collateral securities transferred to it by the counterparty (i.e. the Fund’s Net Asset Value shall not be impacted by the performance of the collateral securities).

Short-term money market collective investment schemes

A small proportion of the Fund's cash is typically invested into short-term money market collective investment schemes in accordance with the section entitled "*B. Efficient Portfolio Management*" in Schedule II of the Prospectus.

B. "Short Basket Swap" model

Under the "*Short Basket Swap*" model, any cash received by the Fund from investor subscriptions and any cash paid to the Fund by one or more counterparties as profit on the Long Index Swaps is largely invested in a portfolio of Investments comprised of equity securities and fixed rate and floating rate government and supranational bonds which do not necessarily correspond with the constituents of the Index (the "**Basket Portfolio**"). A small proportion of such cash may be invested in short-term money market collective investment schemes in accordance with the section entitled "*B. Efficient Portfolio Management*" in Schedule II of this Prospectus.

The constituents of the Basket Portfolio shall generally be selected by reference to the "*liquidity*", "*valuation*", "*issuer credit quality*" and "*correlation*" criteria set out under the heading "*Collateral Management Policy*" in Schedule II of this Prospectus. To be eligible for investment, government and supranational bonds must have a minimum long-term credit rating of AA and AAA (Standard & Poor's) respectively. The maturity of a government or supranational bond is not a criterion for selection. The constituents of the Basket Portfolio shall also comply with the criteria described in Schedule III of this Prospectus.

In order to achieve its investment objective and remain fully exposed to the performance of the Index pursuant to the Long Index Swaps, the Fund will seek to neutralise its market exposure to the Basket Portfolio by entering into so-called "offsetting transactions" with one or more counterparties. Accordingly, the Fund enters into "unfunded" total return OTC Swaps with one or more counterparties pursuant to which the Fund receives a return from each counterparty equivalent to the inverse performance of the Basket Portfolio (each, a "**Short Basket Swap**") which effectively offsets any market exposure arising by way of the Basket Portfolio.

As the value of the Basket Portfolio increases or decreases on a daily basis, the Short Basket Swaps entered into with a swap counterparty will record either a profit or loss for the Fund. The profit or loss arising on the Short Basket Swaps is settled between the Fund and each counterparty on a periodic basis (which may be as frequently as daily but can also be monthly or quarterly). Where the Fund and a relevant counterparty do not choose to settle the profit or loss arising on the Short Basket Swaps on a daily basis, in order to keep counterparty exposure to a minimum and to comply with the daily margining requirements imposed by EMIR, the Fund and each relevant counterparty will transfer collateral (in the form of cash only) back and forth in amounts matching the relevant profit or loss on the Short Basket Swaps to the extent that the relevant profit or loss exceeds an agreed de-minimis amount.

Any cash collateral transferred to the Fund by a counterparty pursuant to the Short Basket Swap arrangements will be invested by the Fund in short-term money market collective investment schemes in accordance with the section entitled "*B. Efficient Portfolio Management*" in Schedule II of this Prospectus. Conversely, where the Fund is required to transfer cash collateral to a counterparty pursuant to the Short Basket Swap arrangements, it will liquidate a proportion of its investments in short-term money market collective investment schemes and, in some cases, the Basket Portfolio to cover the relevant amount.

As described above, the Fund will seek to neutralise its market exposure to the Basket Portfolio by entering into the Short Basket Swaps. Accordingly, the Fund shall not have any incremental market exposure as a result of the Short Basket Swap model (i.e. the Fund's Net Asset Value shall not be impacted by the performance of either the Basket Portfolio or the Short Basket Swap).

Where, as specified in the investment policy of the relevant Fund Supplement, the Fund seeks to be fully exposed to the performance of an Index using the Unfunded OTC Swap Model:

- both the expected and maximum proportion of the Fund's Net Asset Value that will be invested in the Long Index Swaps will, at the time of investment, be 100% of the Fund's Net Asset Value;
- where the Fund utilises the "*Reverse Repurchase Agreement*" model as the sole method of cash management, the proportion of the Fund's Net Asset Value that will be invested in reverse repurchase agreements will, at the time of investment, be between 90% and a maximum of 100% of the Fund's Net Asset Value; and
- where the Fund utilises the "*Short Basket Swap*" model as the sole method of cash management, the proportion of the Fund's Net Asset Value that will be invested in the Short Basket Swaps will, at the time of investment, be between 90% and a maximum of 100% of the Fund's Net Asset Value.

7.2. Actively-Managed Funds

Where a Fund's objective is other than to deliver an Index-based return it may be structured with an active management strategy. This may result in the Fund seeking to out-perform an index or a basket of reference assets or to engage in a discretionary asset management strategy (i.e. one not linked to the constituents of an index).

INDICES

General

Where a Fund seeks to track or replicate the performance of an Index, this will be stated in the relevant Fund Supplement.

Index Rebalancing, Reweighting and Associated Costs

Index Providers will periodically change the composition and/or weighting of the securities constituting an Index, depending on the relevant Index rules. This process is commonly referred to as “rebalancing”. Details of the rebalancing frequency for each Index are set out in the relevant Fund Supplement.

Where a Fund invests in FDIs in order to track or replicate an Index, changes to the composition and/or weighting of the securities constituting such Index will ordinarily be reflected through the exposure gained by the use of FDIs or OTC Swaps (i.e. the Fund will continue to receive the performance of the Index from the relevant counterparty regardless of the rebalancing of the constituents within the Index).

Where a Fund engages in the physical tracking or replication of an Index by investing directly in the constituents of the Index, any rebalancing of the Index by an Index Provider will ordinarily require that Fund to make corresponding adjustments or rebalancings to its holdings in order to preserve its ability to closely track the Index. In such cases, the Investment Manager will in a timely manner and as efficiently as possible, but subject to its overall discretion in accordance with the investment policies of the relevant Fund, seek to rebalance the composition and/or weighting of the Investments held by a Fund from time to time and, to the extent practicable and possible, seek to conform its exposure to the changes in the composition and/or weighting of securities constituting the Index. Other rebalancing measures may be taken from time to time to seek to maintain the correspondence between the performance of a Fund and the performance of the Index.

In order to realign the exposures or Investments of a physically investing Fund to its Index following a rebalancing, Investments must be bought and sold. The rebalancing will therefore incur costs that are not reflected in the theoretical calculation of the Index return and may impact on such a Fund's ability to provide returns consistent with those of the Index. Such costs will be borne by a Fund, can be direct or indirect and include (but are not limited to), transaction costs (such as brokerage fees), custody fees, exchange costs and commissions (including foreign exchange spreads) and stamp duty.

The Investment Manager will rely solely on each Index Provider for information as to the composition and/or weighting of the securities within each Index. If the Investment Manager is unable to obtain or process such information in relation to any Index on any Business Day, then the most recently published composition and/or weighting of that Index will be used for the purpose of all adjustments.

Where a Fund invests directly in the constituents of an Index, Shareholders should note that it may not be possible, practicable or even desirable for a Fund to purchase all of the securities comprising such Index in their proportionate weightings or to purchase them at all due to various factors, including costs and expenses involved and the concentration limits described in Schedule III to this Prospectus or the fact that the relevant Fund may employ a representative sampling/optimisation strategy (see also the section below entitled “*Circumstances where the weighting of an Index constituent exceeds the applicable concentration limits prescribed by the Irish Regulations*”).

Circumstances where the weighting of an Index constituent exceeds the applicable concentration limits prescribed by the Irish Regulations

Funds which track an Index by investing directly in the constituents of an Index

Where a Fund invests directly in the constituents of an Index and the weighting of an Index constituent exceeds the investment restrictions prescribed by the Irish Regulations as a result of market movements, the Investment Manager will seek to reduce the Fund's holdings of the relevant security so as to seek to ensure that the Fund at all times operates within the permitted limits. In these circumstances, the Investment Manager of a Fund may, in such circumstances, decide to hold a representative sample of the securities contained in an Index. To achieve this, the Investment Manager may, in respect of a Fund, utilise sampling

techniques. Sampling techniques result in the selection of Index constituents in order to obtain a representative sample of Index components. This is generally achieved through the use of quantitative analysis with the level of sampling techniques used by any Fund being determined by the nature of the Index components. Where the Investment Manager deems it to be appropriate, there may also be instances where the Fund holds securities which are not component securities in the Index. A Fund may also invest in FDIs, other collective investment undertakings and hold ancillary liquid assets, in each case subject to the restrictions set out in Schedule III to this Prospectus.

Funds which track an Index using total return OTC Swaps

Where a Fund tracks an Index by entering into OTC Swaps, changes to the composition and/or weightings of the constituents of the Index will ordinarily be reflected through the exposure gained by the use of the OTC Swaps (i.e. the Fund will continue to receive the performance of the Index from the relevant counterparties to the OTC Swaps which, following a rebalancing of the Index, will be reflective of the rebalanced composition and weightings of the constituents within the Index).

Where the weighting of an Index constituent exceeds the investment restrictions prescribed by the Irish Regulations as a result of market movements, a Fund will continue to receive the performance of the Index from the relevant counterparties to the OTC Swaps. The weightings of Index constituents will be brought within the limits prescribed by the Irish Regulations at the next Index rebalancing.

Substitution or Replacement of an Index

The Company maintains robust written plans setting out the actions that it would take in the event that an Index materially changes or ceases to be provided. The Directors reserve the right, if they consider it in the interests of the Company or any Index tracking/replicating Fund to do so, to substitute the Index used by a Fund with another Index (which new index will be in compliance with the requirements of the Central Bank) if:

- (i) the weightings of constituent securities of the particular Index would cause the Fund (if it were to follow the Index closely) to be in breach of the Irish Regulations and/or the rules regarding reporting status in the United Kingdom (see the heading “*Taxation - United Kingdom Taxation*” below);
- (ii) the particular Index (or Index series) ceases to be UCITS compliant (for reasons including those related to rebalancing);
- (iii) the particular Index (or Index series) requires to be capped in order to remain UCITS compliant;
- (iv) the particular Index (or Index series) ceases to exist or the methodology or constituents of the Index or Index series are materially changed;
- (v) a new index becomes available which supersedes the existing Index;
- (vi) a new index becomes available which is, in the opinion of the Directors, more cost effective for a Fund and/or is regarded as the market standard for investors in the particular market and/or would be regarded as of greater benefit to the Shareholders (for reasons including a reduction on transaction costs including OTC Swap costs) than the existing Index;
- (vii) it becomes difficult to invest in securities comprised within the particular Index or it becomes difficult or inefficient to enter into FDIs or OTC Swaps relating to the particular Index;
- (viii) the Index Provider increases its charges to a level which the Directors consider too high or if any Index licence provided by an Index Provider in connection with the use of the Index is terminated;
- (ix) the quality of a particular Index (including, but not limited to, the accuracy of published Index data, the availability of published index methodologies and other supporting materials and matters relating to the management and calculation of the Index by the Index Provider) has, in the opinion of the Directors, deteriorated; or

- (x) a liquid futures market in which a particular Fund is investing ceases to be available.

Where a change in a Fund's Index would result in a material difference between the constituents of the Index and the proposed index, advance Shareholder approval will be sought. In circumstances where immediate action is required and it is not possible to obtain Shareholder approval in advance of a change in a Fund's Index, Shareholder approval will be sought for either the change in the Index or the winding up of the Fund as soon as practicable and reasonable.

The Directors may change the name of a Fund, particularly if its Index is changed. Any change to the name of a Fund will need to be approved in advance by the Central Bank and documentation pertaining to the relevant Fund will be updated to reflect the new name.

Any change in an Index will be notified in advance to the Central Bank, will be reflected in the Prospectus within a reasonable period after the change in Index and will be noted in the annual and semi-annual reports of the relevant Fund issued after any such change takes place.

Tracking error

"Tracking error" can be defined as the volatility of the difference between the return of a Fund which tracks/replicates an Index versus the return of the relevant Index which it tracks or replicates, whereas "tracking difference" can be defined as the total return difference between such a Fund and the relevant Index which it tracks or replicates over a certain period of time. Unless otherwise stated, an Index tracking/replicating Fund is not expected to track the performance of its Index at all times with perfect accuracy and there can be no assurance that any Fund will achieve any particular level of accuracy in tracking or replicating an Index. Each Fund that seeks to track or replicate an Index is, however, expected to provide investment results that, before fees and expenses are applied, generally correspond to the price and yield performance of its Index.

While a relevant Fund will always seek to track or replicate its Index as closely as possible, an Index often does not reflect the operational complexities of buying and holding the components securities in a Fund. The factors that may adversely affect the tracking error and/or tracking difference of such a Fund versus its Index include (but are not limited to) the various tracking error and tracking difference related factors described in the section of this Prospectus entitled "*Risk Factors*", in addition to the following:

- (a) a relevant Fund will be required to pay various fees and expenses which are not reflected in the performance of the Index. Such fees and expenses may include the Manager's fee, the Investment Manager's fee and any portfolio transaction costs such as brokerage commissions, custody charges, stamp duty and any fees payable to counterparties under the terms of any FDI (including OTC Swaps) or other techniques or instruments used for direct investment or for efficient portfolio management purposes;
- (b) a relevant Fund may be required to comply with regulatory constraints that do not affect the performance of its Index;
- (c) a relevant Fund may not be able to obtain exposure to the constituent securities of its Index at particular times;
- (d) there may be a difference between the time when an Index reflects the event of any declared dividends and when the relevant Fund tracking or replicating that Index reflects the event of such dividends;
- (e) the composition of a relevant Fund's portfolio of Investments (which may include exposure under FDIs) may not be identical to the composition of the Index which it seeks to track/replicate (particularly, where a representative sampling/optimisation strategy is employed) including where the composition of a Fund's portfolio of Investments is underweighted or overweighted with regards to various securities by comparison to its Index; and/or
- (f) a Fund may be unable to enter into an FDI transaction which is, in the opinion of the Investment Manager, appropriate for the Fund.

It is intended that the return (if any) on the Common Investment Pool and/or on any repurchase or reverse repurchase agreement or Swap Arrangements entered into in respect of a Fund which tracks or replicates its Index primarily through the use of OTC Swaps shall be used to wholly or partially set-off the costs of entering into OTC Swaps. Accordingly, the tracking difference of such a Fund shall be decreased where the rate of return on the aforementioned Investments is equal to or close to the costs payable to counterparties under OTC Swaps. The tracking difference of a Fund shall increase as the difference between those rates increases.

An estimate of the anticipated level of tracking error that is anticipated by the Investment Manager in normal market conditions will be set out in each relevant Fund Supplement. In normal market conditions, the performance of an Index tracking/replicating Fund is intended to provide a total return corresponding with the performance of its Index less the TER and other expenses. The figures set out in each relevant Fund Supplement are based on the average actual tracking error for the relevant Fund during the specified observation period unless otherwise specified in respect of a particular Fund. Neither the Company, the Manager nor the Investment Manager shall be liable for any discrepancies between the anticipated level of tracking error, as estimated for a relevant Fund and disclosed in the Fund Supplement, and the actual realised tracking error for that Fund at any time.

Investigation and review of Indices

The Company, the Manager and / or the Investment Manager or their affiliates will investigate and / or review an Index for investment purposes and / or for the purpose of establishing and maintaining a Fund. Neither the Company, the Manager, the Investment Manager nor their affiliates have investigated or reviewed an Index on behalf of a potential investor in a Fund and potential investors may not rely on any such review or investigation for any purpose.

DIVIDEND POLICY

Each Fund has been approved (or, unless otherwise indicated, shall be approved within a reasonable period following its approval by the Central Bank) as a reporting fund under the United Kingdom offshore fund rules. As reporting Funds, the Company will not ordinarily, but may at the Directors' discretion, declare dividends. For each relevant accounting period, the Company will report to investors 100 per cent. of the net income attributable to the relevant Fund, as computed in its accounts, that report being made within six months of the end of the relevant accounting period. United Kingdom resident individual investors will be taxable on such reported income, whether or not the income is actually distributed and whether or not a gain arises or would, in the absence of reporting fund status, have arisen on redemption.

The Directors may establish Share classes with different distribution policies from time to time. In the event Directors resolve to change the dividend policy of a Share class, full details of the change in dividend policy will be reflected in Prospectus documentation relating to that Fund (including any relevant Fund Supplement) and all Shareholders will be notified in advance. Dividends, if paid, will (unless otherwise stated in a relevant Fund Supplement) be declared in the Base Currency of the applicable Fund and will normally be paid by telegraphic transfer.

Where a Shareholder requests that a dividend is paid in a major currency other than the Base Currency of a Fund, any necessary foreign exchange transactions will be arranged by the Administrator for the account of, and at the risk and expense of, the relevant Shareholder. Any dividend which has remained unclaimed for twelve years from the date of its declaration shall be forfeited and cease to remain owing by the Company and become the property of the relevant Fund.

STATUTORY AND GENERAL INFORMATION

Incorporation, Registered Office and Share Capital

The Company was incorporated in Ireland on 15 July 2008 as an investment company with variable capital with limited liability and having segregated liability between its Funds under registration number 459936, under the name of ETFS Fund Company plc. On incorporation the authorised and fully paid share capital of the Company was US\$2.00 divided into two Subscriber Shares of US\$1.00 each and 500,000,000,000,000,000,000,000 Shares of no par value. The name of the Company was changed to ETFX Fund Company plc on 15 December 2010 and subsequently to GO UCITS ETF Solutions Plc on 6 January 2014 and subsequently to Legal & General UCITS ETF Plc on 8 May 2018.

Rights of the Shareholders

Only persons entered in the Company's register of Shareholders (and who are thereby the registered holders of Shares or Subscriber Shares) are entitled to exercise entitlements as a Shareholder.

Save as set out in this Prospectus all Shares shall rank *pari passu* and none of the Shareholders will have any different voting rights to other Shareholders.

Voting Rights

Only persons entered in the Company's register of Shareholders (i.e. registered holders of Shares and Subscriber Shares) are entitled to vote at meetings of the Company. Where an investor holds an interest in Shares through a nominee arrangement (which is commonly the case with ETF Shares), that investor is typically not entered on the Company's register of Shareholders as the nominee is typically the registered Shareholder. In this instance the investor's entitlement to representation at a meeting of the Company is governed by the investor's relationship with its nominee.

The holders of the Subscriber Shares shall, on a poll be entitled to one vote per Subscriber Share, shall not be entitled to any dividends whatsoever in respect of their holding of Subscriber Shares, and shall, in the event of a winding up or dissolution of the Company, be entitled (after payment to the holders of the Shares of a sum equal to the Net Asset Value of the Shares as at the date of commencement to wind up) to payment in respect of the nominal amount paid up thereon out of the assets of the Company.

The Shareholders shall on a poll be entitled to one vote per Share, shall be entitled to such dividends as the Directors may from time to time declare and, in the event of a winding up or dissolution of the Company, be entitled, in priority to the holders of the Subscriber Shares, firstly to an amount equal to the Net Asset Value of the Shares of each class or series held at the date of winding up and, after payment to the holders of the Subscriber Shares of the nominal amount paid up thereon, to participate in surplus assets of the Company (if any).

Subject to the provisions of the Constitution and any special terms as to voting upon which any Shares may be issued or may for the time being be held, at any general meeting on a show of hands every Shareholder who (being an individual) is present in person or (being a corporation) is present by a duly authorised representative and every proxy shall have one vote. To be passed, resolutions of the Company in general meeting will require a simple majority of the votes cast by the Shareholders at the meeting at which the resolution is proposed. A majority of not less than 75% of the Shareholders present and (being entitled to vote) voting in general meetings is required in order to (i) amend the Constitution and (ii) wind up the Company.

The rights attached to any class of Shares may be varied or abrogated with the consent in writing of Shareholders holding 75% of the issued and outstanding Shares of that class, or with the sanction of a special resolution passed at a separate general meeting of the holders of the Shares of the class in accordance with the Constitution.

Constitution

Clause 3 of the memorandum of association contained within the Constitution provides that the Company's sole object is the collective investment in transferable securities and/or other liquid financial assets referred to in Regulation 68 of the Irish Regulations of capital raised from the public operating on the principle of spreading investment risk.

Issue of Shares

The Shares shall be at the disposal of the Directors and they may (subject to the provisions of the Act) allot, offer or otherwise deal with or dispose of them to such persons, at such times and on such terms as they may consider in the best interests of the Company and the Shareholders.

Depending on the settlement system used by a Fund, Shares in the Company may be issued either in Dematerialised Form or certificated form. If Shares are issued in Dematerialised Form, no certificates or temporary documents of title will be issued. If issued in certificated form, the Company will typically issue a global certificate registered in the name of the relevant settlement system or its designated nominee.

The subscription price at which Shares shall be issued shall be in accordance with the Net Asset Value as determined in accordance with articles 16 to 19 of the articles of association contained within the Constitution (as summarised below).

Segregated Liability between Funds

As the Company has segregated liability between its Funds, the records and accounts of each Fund shall be maintained separately in the Base Currency of the relevant Fund with the assets of each Fund belonging exclusively to that Fund. Assets shall be segregated in the records of the Depositary from the assets of other Funds, and shall not (save as provided in the Act), be used to discharge directly or indirectly the liabilities of or claims against any other Fund and shall not be available for any such purpose. In the case where an asset or a liability of the Company cannot be considered as being attributable to a particular Fund, the Directors shall have the discretion, subject to the approval of the Auditors, to determine the basis upon which such asset or liability shall be allocated between the Funds and the Directors shall have power at any time and from time to time subject to the approval of the Auditors to vary such basis, provided that the approval of the Auditors shall not be required in any case where the assets or liability is allocated between all Funds pro rata to their Net Asset Value.

Transfers of Shares

If Shares are held in certificated form, transfers of such Shares require the prior consent of the Directors or their delegate and may be effected by transfer in writing in any usual or common form or in any other form which the Directors may approve. The Directors may decline to register a transfer of Shares if, for example, as a result of such transfer the transferor's holding would drop below any specified minimum holding or if the Directors are aware or believe that such transfer would or might be likely to result in the beneficial ownership of such Shares by a person who is not a Qualified Holder or expose the Company to adverse tax or regulatory consequences.

Transfers of Shares held in a Recognised Clearing and Settlement System shall be made in accordance with and subject to the Uncertificated Securities Regulations and any conditions imposed thereunder from time to time which may affect the Company. The Uncertificated Securities Regulations provide that the transfer of title to securities held in a Recognised Clearing and Settlement System will occur upon the issue of an instruction by a Recognised Clearing and Settlement System to the Company to register a transfer of title of Shares.

Borrowing Powers

The Directors may exercise all borrowing powers on behalf of the Company and may mortgage or charge its undertaking, property and assets or any part thereof whether outright or as collateral security for any debts or obligations only in accordance with the provisions of the Irish Regulations or as permitted by the Central Bank. Such temporary borrowing may, at the discretion of the Directors, be used for short term liquidity

purposes in connection with the purchase of any Investments in connection with subscription applications and the making of any redemption payments in respect of a Fund up to a maximum of 10% of the Net Asset Value of the relevant Fund at any given time.

Restrictions on Shareholders

The Directors have power to impose such restrictions as they may think necessary for the purpose of ensuring that no Shares in the Company are acquired or held by any person who is not a Qualified Holder.

If it comes to the notice of the Directors that any Shares are so held by any such non-Qualified Holder as above the Directors may give notice to such person requiring the redemption or transfer of such Shares in accordance with the provisions of the Constitution. If any person upon whom such a notice has been served fails to comply with such requirements within 30 days, he shall be deemed to have given a request in writing for the repurchase of all his Shares which shall be redeemed the next following Dealing Day. A person who becomes aware that he is a non-Qualified Holder is required either to deliver to the Company a written request for redemption of his Shares in accordance with the Constitution or to transfer the same to a person who would not thereby be a non-Qualified Holder.

Directors

Appointments

A Director may only be appointed if the approval of the Central Bank to such appointment has first been obtained.

There must be at least two Directors and if the number of the Directors is reduced below the prescribed minimum, the remaining Director or Directors must appoint an additional Director or additional Directors to make up such minimum or convene a general meeting of the Company for the purpose of making such appointment. If there is no Director or Directors able or willing to act then any two Shareholders may summon a general meeting for the purpose of appointing Directors.

Subject as aforesaid, the Company by ordinary resolution may appoint a person to be a Director either to fill a vacancy or as an additional Director.

Any Director may appoint by writing under his hand any person (including another Director) to be his alternate.

Meetings

Subject to the provisions of the Constitution, the Directors may regulate their proceedings as they think fit. A Director may, and the secretary at the request of a Director shall, call a meeting of the Directors. Any Director may waive notice of any meeting and any such waiver may be retrospective.

Notice of a meeting of the Directors shall be deemed to be duly given to a Director if it is given to him personally or by word of mouth or sent by any other means specified in the Constitution to him at his last known address or any other address given by him to the Company for this purpose.

The quorum necessary for the transaction of the business of the Directors may be fixed by the Directors and unless so fixed at any other number shall be two. A person who holds office only as an alternate Director shall, if his appointor is not present, be counted in the quorum but notwithstanding that such person may act as alternate Director for more than one Director he shall not count as more than one for the purposes of determining whether a quorum is present.

Voting

Questions arising at any meeting of Directors shall be decided by a majority of votes. Where there is an equality of votes, the chairman of the meeting shall have a second or casting vote. A Director who is also an alternate Director for one or more Directors shall be entitled in the absence of any such appointor from a meeting to a separate vote at such meeting on behalf of each such appointor in addition to his own vote.

Each Director present and voting shall have one vote and in addition to his own vote shall be entitled to one vote in respect of each other Director not present at the meeting who shall have authorised him in respect of such meeting to vote for such other Director in his absence. Any such authority may relate generally to all meetings of the Directors or to any specified meeting or meetings and must be in writing bearing a printed or facsimile signature of the Director giving such authority.

Indemnities

The Directors, Secretary and other officers of the Company shall be indemnified by the Company against losses and expenses which any such person may become liable to by reason of any contract entered into or any act or thing done by him as such officer in discharge of his duties (other than in the case of negligence or wilful default).

The assets of the Company and the calculation of the Net Asset Value

- (a) The Net Asset Value of each Fund shall be the value of all the assets comprised in the Fund less all the liabilities attributable to the Fund, including accrued expenses and dividends payable, subject to the Irish Regulations.
- (b) The assets of the Company shall be deemed to include (i) all cash in hand, on deposit, or on call including any interest thereon and all accounts receivable, (ii) all bills, demand notes, certificates of deposit, and promissory notes, (iii) all bonds, forward currency transactions, time notes, shares, stocks, units of or participation in collective investment schemes/mutual funds, debenture stock, subscription rights, warrants, future contracts, options contracts, swap contracts, contracts for difference, fixed rate securities, floating rate securities, securities in respect of which the return and/or repurchase amount is calculated by reference to any Index, price, or rate, financial instruments and other investments and securities owned or contracted for in respect of the Company, other than rights and securities issued by it; (iv) all stock and cash dividends and cash distributions to be received in respect of the Fund and not yet received by the Company but declared to stockholders on record on a date on or before the day as of which the Net Asset Value is being determined, (v) all interest accrued on any interest-bearing securities owned by the Company except to the extent that the same is included or reflected in, the principal value of such security, (vi) all other assets of the Company, (vii) the establishment costs attributable to the Company and the cost of issuing and distributing Shares of the Company in so far as the same have not been written off, and (viii) all other assets of the Company of every kind and nature including prepaid expenses as valued and defined from time to time by the Directors.
- (c) The valuation principles to be used in valuing the Company's assets are as follows:
 - (i) where possible, the valuation methodology used in respect of a Fund which tracks or replicates an Index is expected to be consistent with the methodology used by the Index used by that Fund. The valuation methodology selected will be consistently applied for the same assets of the same class within the Fund;
 - (ii) the value of any Investment which is quoted, listed or normally dealt in on a Regulated Market shall (save in the specific cases set out in the relevant paragraphs below) be based on one of the (a) last traded price, (b) bid price (either closing bid price or last bid price), (c) closing mid-market price or (d) latest mid-market price at close of business on the relevant Regulated Market and as specified in the Prospectus in respect of a Fund provided that a particular or specific asset may be valued using an alternative method of valuation if the Directors deem it necessary and the alternative method has been approved by the Depositary and provided further that:
 - A. if an Investment is quoted, listed or normally dealt in on more than one Regulated Market, the market which in the opinion of the Directors constitutes the main market for the relevant Investment or which provides the fairest criteria for valuing such Investment) shall be used and once selected a market shall be used for future calculations of the value of that Investment unless the Directors otherwise determine;

- B. in the case of any Investment which is quoted, listed or normally dealt in on a Regulated Market but in respect of which, for any reason, prices on that market may not be available at any relevant time, or, in the opinion of the Directors, may not be representative, the value therefor shall be the probable realisation value thereof estimated with care and in good faith by a competent person, firm or association making a market in such Investment appointed by the Directors (and approved for the purpose by the Depositary) and/or any other competent person, appointed by the Directors (and approved for the purpose by the Depositary).
 - C. in the case of any Investment which is quoted, listed or normally dealt in or on a Regulated Market but acquired or traded at a premium or at a discount outside or off the Regulated Market, the Investment may be valued taking into account the level of premium or discount at the date of the valuation with the approval of the Depositary. The Depositary must ensure that the adoption of such a procedure is justifiable in the context of establishing the probable realisation value of the Investment;
- (iii) where Investments comprising bonds, notes, and similar non-money market debt assets are not constituents of the Index underlying a Fund, such assets shall be valued at the closing mid-market price on the main market on which these assets are traded or admitted for trading (i.e. the market which is the sole market or which is, in the opinion of the Directors the principal market on which the assets in question are quoted or dealt in) plus any interest accrued thereon from the date on which same were acquired;
 - (iv) where investments comprising money market instruments are not constituents of the Index underlying a Fund, the value of such assets shall be determined using reliable market quotations. In the absence of reliable market quotations they shall be valued using valuation models or matrix pricing (as compiled by the Directors), which incorporate yield and/or price with respect to such money market instruments that are considered comparable in characteristics such as rating, interest rate and maturity date and quotations from securities dealers to determined current value;
 - (v) the value of any Investment which is not quoted, listed, or normally dealt in on a Regulated Market shall be the probable realisable value estimated with care and in good faith by a competent person, firm, or association making a market in such Investment appointed by the Directors (and approved for the purpose by the Depositary) and/or any other competent person, in the opinion of the Directors (and approved for the purpose by the Depositary);
 - (vi) the value of any Investment which is a unit of or participation in an open-ended collective investment scheme/mutual fund shall be the latest available net asset value of such unit/participation;
 - (vii) the value of any cash in hand, prepaid expenses, cash dividends and interest declared or accrued and not yet received shall be deemed to be the full amount thereof unless in any case the Directors are of the opinion that the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Directors (with the approval of the Depositary) may consider appropriate in such case to reflect the true value thereof;
 - (viii) deposits shall be valued at their principal amount plus accrued interest from the date on which the same were acquired or made;
 - (ix) the value of exchange traded futures contracts, options and other derivative instruments which are dealt in on a Regulated Market shall be the settlement price as determined by the market in question, provided that if such settlement price is not available for any reason or is unrepresentative, same shall be valued at the probable realisation value estimated with care and in good faith by a competent person appointed by the Directors (and approved for the purpose by the Depositary);

- (x) The value of any over the counter derivatives contracts shall be:
 - A. a quotation from the counterparty; or
 - B. an alternative valuation calculated by the Company or an independent pricing vendor (which may be a party related to but independent of the counterparty which does not rely on the same pricing models employed by the counterparty) provided that:
 - (i) where a counterparty valuation is used, it must be provided on at least a daily basis and approved or verified at least weekly by a party independent of the counterparty (approved for the purpose by the Depositary);
 - (ii) where an alternative valuation is used (i.e. a valuation that is provided by a competent person appointed by the Manager or Directors and approved for that purpose by the Depositary (or a valuation by any other means provided that the value is approved by the Depositary)), it must be provided on a daily basis and the valuation principles employed must follow best international practice established by bodies such as IOSCO (International Organisation of Securities Commission) and AIMA (the Alternative Investment Management Association) and any such valuation shall be reconciled to that of the counterparty on a monthly basis. Where significant differences arise these must be promptly investigated and explained;
- (xi) notwithstanding the foregoing, OTC derivatives contracts may, alternatively be valued in accordance with the requirements of relevant regulations and / or the requirements of the Central Bank;
- (xii) forward foreign exchange and interest rate swaps contracts for which market quotations are freely available may be valued in accordance with paragraphs (xi) and (xii) above or by reference to market quotations (in which case there is no requirement to have such prices independently verified or reconciled to the counterparty valuation);
- (xiii) money market Investments of a Fund with a known residual maturity of less than three months and have no specific sensitivity to market parameters, including credit risk may be valued using the amortised cost method of valuation in accordance with the requirements of the Central Bank. The Directors or their delegates shall review or cause a review to take place of deviations between the amortised method of valuation and the market value of investments in accordance with the Central Bank's requirements;
- (xiv) notwithstanding any of the foregoing sub-paragraphs the Directors, with the approval of the Depositary, may adjust the value of any Investment if, after accounting for currency, applicable rate of interest, maturity, marketability and/or such other considerations as they may deem relevant, they consider that such adjustment is required to reflect the fair value thereof;
- (xv) if in any case a particular value is not ascertainable as above provided or if the Directors shall consider that some other method of valuation better reflects the fair value of the relevant Investment then in such case the method of valuation of the relevant Investment shall be such as the Directors shall decide and such method shall be approved by the Depositary;
- (xvi) notwithstanding the foregoing where, at any time of any valuation any asset of the Company has been realised or contracted to be realised, there shall be included in the assets of the Company in place of such asset the net amount receivable by the Company in respect thereof provided that, if such amount is not then known exactly, then its value shall be the net amount estimated by the Directors as receivable by the Company and provided that the method of valuation is approved by the Depositary;
- (xvii) any assets held in a particular Fund that are not denominated in the Base Currency will be converted into the Base Currency at the rate of exchange prevailing in a Regulated Market on the Valuation Date;

- (xviii) any certificate as to Net Asset Value of Shares given in good faith (and in the absence of negligence or manifest error) by or on behalf of the Directors shall be binding on all parties.

Compulsory Redemption

The Company may redeem Shares on notice in writing to a Shareholder in circumstances where:

- (i) it, either alone or in conjunction with any other person becomes aware that any Shares are or might be held by a person who is not a Qualified Holder; or
- (ii) an OTC Swap in respect of a relevant Fund is terminated earlier than its anticipated term for reasons such as modification or cancellation of the relevant Index or reference assets for the relevant Fund, illegality or material impediment or increased cost to the counterparty to maintain or effect its hedge.

The proceeds of the compulsory redemption (in the event that it arises as a result of circumstances outlined in (i) above) will be paid to the Shareholder less any costs or liability incurred by the Company (which costs or liability include any taxation liability or withholding tax arising as a result of such ownership including any penalties or interest payable).

Compulsory (Total) Redemption

If at any time the aggregate Net Asset Value of the Company is less than Stg£20 million (or equivalent), the Company may, by notice to all holders of Shares given within 4 weeks of such time, redeem on the Dealing Day next following the expiry of the notice all (but not some) of the Shares not redeemed. Additionally the Directors may, at any time after the first anniversary of the first issue of Shares of the Company, require redemption of all the Shares of a particular Fund or a particular Share class, if the Net Asset Value of such Fund or Share class is lower than Stg£20 million, for a period of 30 consecutive days.

The Constitution also permits the Directors to close a Fund (i) where they deem it appropriate because of changes in the economic or political situation affecting the Fund; (ii) where ETF Shares of a Fund are de-listed from a stock exchange and as a result are not listed or re-listed within three months on another recognised stock exchange in Europe; (iii) where it is no longer possible or practicable to use FDIs in respect of a Fund for reasons including but not limited to, a situation where it is not economical to do so; (iv) where the Manager resigns or is removed or the Management Agreement is terminated and no replacement manager is appointed within three months from the date of such resignation, removal or termination; (v) where the licence agreement relating to an Index relating to a Fund is terminated; (vi) where the Index Provider modifies or ceases to publish the Index relating to a Fund; (vii) where a service provider resigns or is removed, and no suitable successor is appointed; or (x) at the Directors' discretion on prior notice to Shareholders.

The Constitution also permits the Directors to close a particular Share class (i) where ETF Shares of a particular Share class are de-listed from a stock exchange and as a result are not listed or re-listed within three months on another recognised stock exchange in Europe; (ii) where it is no longer possible or practicable to use FDIs in respect of a particular Share class for reasons including but not limited to, a situation where it is not economical to do so; (iii) or at the Directors' discretion on prior notice to Shareholders.

Following the closure of a particular Share class, further Shares of that Share class may be issued at the discretion of Directors provided that the issue that led to the closure of the Share class no longer exists for that Share class and the Share class is not the last remaining Share class in a Fund.

Any such compulsory termination of a Fund or a particular Share class will require at least 30 days' prior written notice to holders of Shares of the relevant Fund or Share class. As an alternative, but subject to prior approval of the Central Bank and of the Shareholders of the Fund affected, the Directors may arrange for a Fund to be merged with another Fund of the Company or with another UCITS.

A Fund or a particular Share class may be closed in circumstances other than those mentioned above with the consent of a simple majority of the Shareholders present or represented at a meeting of Shareholders of

that Fund or Share class. Any closure determined on by the above provisions will be binding on all the holders of the Shares of the relevant Fund or Share class.

Where a Fund or a particular Share class is terminated, the redemption price payable on termination will be calculated on a basis reflecting the realisation and liquidation costs on closing the Fund or Share class.

The Directors have the power to suspend dealings in the Shares of any Fund or a particular Share class where it is to be terminated in accordance with the above provisions. Such suspension may take effect at any time after the notice has been given by the Directors as mentioned above or, where the termination requires the approval of Shareholders, after the passing of the relevant resolution. Where Shares of such Fund or Share class are not suspended, the prices of Shares may be adjusted to reflect the anticipated realisation and liquidation costs mentioned above.

Closure process for Funds and Share classes on Compulsory (Total) Redemption

Where a Fund or a particular Share class is to be totally redeemed and terminated in accordance with the above provisions, the Directors shall take the following steps taking into account any minimum notice periods prescribed by a Relevant Stock Exchange, the Central Bank or any relevant competent authority:

Procedure to be followed for ETF Shares

- (i) A notification shall be sent to each Shareholder of ETF Shares of the relevant Fund or Share class specifying the proposed timetable for the closure including (i) the final date on which the ETF Shares can be bought or sold on all Relevant Stock Exchanges, (ii) the final Dealing Day for subscriptions and redemptions of ETF Shares directly with the Company after which all such primary market dealing will be permanently suspended (the “**Final Dealing Day**”), (iii) where relevant, the final date on which the Fund or Share class will have exposure to the relevant Index which it seeks to track or replicate, (iv) the date by reference to which all ETF Shares of the Fund or Share class which remain in issue shall be compulsorily redeemed (the “**Compulsory Redemption Date**”) and (v) an indicative date on which the Directors propose to distribute the liquidated proceeds from the compulsory redemption of the Shares to the relevant Shareholders (the “**Indicative Settlement Date**”);
- (ii) Notice of the de-listing of the ETF Shares, the permanent suspension of dealing and the termination of the Fund or Share class shall be communicated to the Central Bank and all Relevant Stock Exchanges and, to the extent required by the law or practices of the country concerned, to any other competent authority in a Member State or other country in which the relevant ETF Shares are registered for marketing. Such notice shall also be published in such publication(s) as the Board of Directors may determine and, in any event, shall be communicated through the media by which Share prices are published;
- (iii) The ETF Shares of the relevant Fund or Share class shall subsequently be de-listed from all Relevant Stock Exchanges in accordance with the timetable notified to Shareholders;
- (iv) Dealing in the relevant Fund or Share class shall be permanently suspended with effect from the Business Day following the Final Dealing Day;
- (v) All ETF Shares of the relevant Fund or Share class which remain in issue following the Final Dealing Day shall be compulsorily redeemed on the Compulsory Redemption Date;
- (vi) Following the Compulsory Redemption Date, the Investment Manager and the Administrator shall take the necessary steps to liquidate the Investments attributable to the relevant Fund or Share class for the purposes of determining the final Net Asset Value per Share of the relevant Fund or Share class;
- (vii) Once the final Net Asset Value per Share of the relevant Fund or Share class has been determined by the Administrator, the proceeds of the compulsory redemption of Shares shall be distributed by the Administrator to the Registrar who will in turn distribute the proceeds to the Shareholders (in accordance with the remittance instructions attached to each Shareholder’s CREST account) on or around the Indicative Settlement Date.

The Fund or Share class will continue tracking or replicating its Index until (and including) the Final Dealing Day. Therefore, the Final Dealing Day will be the final day on which the Net Asset Value will be determined by reference to the relevant Index.

The Directors can give no assurance that the distribution of the proceeds from the compulsory redemption of the ETF Shares will take place on the Indicative Settlement Date. The Indicative Settlement Date will be notified to Shareholders of ETF Shares for indicative purposes only, as the liquidation of the Investments attributable to the Fund or Share class following the Compulsory Redemption Date can be affected by various factors including delays in the settlement of transactions and repatriation of the Fund's cash.

Secondary market investors: No distribution proceeds resulting from the Compulsory Redemption of the ETF Shares shall be payable by the Company directly to any person other than those persons listed in the Company's register of Shareholders as at the Compulsory Redemption Date. Please note that, investors buying and selling ETF Shares through a broker or market maker/Authorised Participant and/or investors who hold ETF Shares through a nominee and/or clearing agent, may not appear in the Company's register of Shareholders. Such investors should deal directly with the relevant broker, market maker/Authorised Participant, nominee or clearing agent (as relevant) in respect of their investment.

Authorised Participants only: An Authorised Participant who submits a valid application for redemption of ETF Shares (the "**Relevant Shares**") on or before the Final Dealing Date shall not be subject to the Compulsory Redemption process in respect of the Relevant Shares. However, in the event that any such application for redemption has not settled in advance of the Compulsory Redemption Date (as a result of the relevant Authorised Participant having failed to deliver the Relevant Shares by such date), the relevant redemption application shall be cancelled. In such circumstances, the number of ETF Shares that were the subject of the cancelled redemption application will be compulsorily redeemed along with all of the other outstanding ETF Shares in the Company on the Compulsory Redemption Date. The relevant Authorised Participant whose application was cancelled will be required to reimburse the Company to the extent that the redemption price per ETF Share determined in respect of the Compulsory Redemption exceeds the redemption price per ETF Share that would have been payable to the relevant Authorised Participant in respect of the cancelled redemption application had it not been cancelled, such amount representing the loss to the Fund or Share class incurred in connection with the cancellation of the redemption application.

The Manager will be responsible for all legal, procedural, stock exchange related and service provider costs incurred in respect of the de-listing, redemption process and termination of a Fund or Share class.

Procedure to be followed for Non-ETF Shares

- (i) A notification shall be sent to each Shareholder of Non-ETF Shares of the relevant Fund or Share class specifying the proposed timetable for the closure including (i) the final Dealing Day for subscriptions and redemptions of Non-ETF Shares directly with the Company after which all such dealing will be permanently suspended (the "**Final Dealing Day**"), (ii) where relevant, the final date on which the Fund or Share class will have exposure to the relevant Index which it seeks to track or replicate, (iii) the date by reference to which all Non-ETF Shares of the Fund or Share class which remain in issue shall be compulsorily redeemed (the "**Compulsory Redemption Date**") and (iv) an indicative date on which the Directors propose to distribute the liquidated proceeds from the compulsory redemption of the Non-ETF Shares to the relevant Shareholders (the "**Indicative Settlement Date**");
- (ii) Notice of the permanent suspension of dealing and the termination of the Fund or Share class shall be communicated to the Central Bank and, to the extent required by the law or practices of the country concerned, to any other competent authority in a Member State or other country in which the Non-ETF Shares are registered for marketing. Such notice shall also be published in such publication(s) as the Board of Directors may determine and, in any event, shall be communicated through the media by which Non-ETF Share prices are published;
- (iii) Dealing in the Fund or Share class shall be permanently suspended with effect from the Business Day following the Final Dealing Day;
- (iv) All Non-ETF Shares which remain in issue following the Final Dealing Day shall be compulsorily redeemed on the Compulsory Redemption Date;

- (v) Following the Compulsory Redemption Date, the Investment Manager and the Administrator shall take the necessary steps to liquidate the Investments attributable to the relevant Fund or Share class for the purposes of determining the final Net Asset Value per Share of the relevant Fund or Share class;
- (vi) Once the final Net Asset Value per Share of the relevant Fund or Share class has been determined by the Administrator, the proceeds of the compulsory redemption of Shares shall be distributed by the Administrator to the Registrar who will in turn distribute the proceeds to the Shareholders (in accordance with the remittance instructions on file for each holder of Non-ETF Shares).

The Fund or Share class will continue tracking or replicating its Index until (and including) the Final Dealing Day. Therefore, the Final Dealing Day will be the final day on which the Net Asset Value will be determined by reference to the relevant Index.

The Directors can give no assurance that the distribution of the proceeds from the compulsory redemption of the Non-ETF Shares will take place on the Indicative Settlement Date. The Indicative Settlement Date will be notified to Shareholders of Non-ETF Shares for indicative purposes only, as the liquidation of the Investments attributable to the Fund or Share class following the Compulsory Redemption Date can be affected by various factors including delays in the settlement of transactions and repatriation of cash.

The Manager will be responsible for all legal, procedural and service provider costs incurred in respect of the redemption process and termination of a Fund or Share class.

Circumstances of a Winding Up

The Company shall be wound up in the following circumstances:

- (a) by the passing of a special resolution for a winding-up;
- (b) where the Company does not commence business within a year of being incorporated or where it suspends its business for a year;
- (c) where the number of members falls below the statutory minimum of two;
- (d) where the Company is unable to pay its debts and a liquidator has been appointed;
- (e) where the appropriate court in Ireland is of the opinion that the Company's affairs and the powers of the Directors have been exercised in a manner oppressive to members; or
- (f) where the appropriate court in Ireland is of the opinion that it is just and equitable that the Company should be wound up.

Material Contracts

- (a) The following contracts, not being contracts entered into in the ordinary course of business, have been entered into by the Company and are, or may be, material. Save as set out below, the Company had not entered into any other contract (not being a contract entered into in the ordinary course of business) which contains any provision under which the Company has any obligations or entitlements which is material to the Company as at the date of this Prospectus:
 - (i) the Management Agreement dated 28 August 2008 between the Company and the Manager. The Management Agreement provides that the appointment of the Manager will continue in force unless and until terminated by either party giving to the other not less than 180 days' written notice although in certain circumstances, such as the insolvency of either party or an unremedied breach after notice, the Management Agreement may be terminated forthwith by notice in writing by either party to the other. The Management Agreement contains indemnities in favour of the Manager other than in respect of matters arising by reason of its fraud, bad faith,

wilful default, recklessness or negligence in the performance of its duties and obligations, in which cases the Manager shall be liable;

- (ii) the Depositary Agreement dated 15 September 2016 between the Company, the Manager and the Depositary. The Depositary Agreement provides that the appointment of the Depositary will continue in force unless and until terminated by either party giving to the other not less than ninety days' notice in writing although in certain circumstances, such as the insolvency of either party or an unremedied breach after notice, the Depositary Agreement may be terminated forthwith provided that in every instance the termination of the Depositary's appointment shall not take effect until such time as a successor depositary has been appointed and its appointment has been approved by the Central Bank. The Depositary Agreement contains indemnities in favour of the Depositary other than in respect of matters arising by reason of its negligent or intentional failure to perform its obligations pursuant to the UCITS Directive, in which cases the Depositary shall be liable;
- (b) The following contracts, not being entered into in the ordinary course of its business, have been entered into by the Manager in relation to the Company and are, or may be, material:
- (i) the Investment Management Agreement dated 18 February 2011 made between the Manager and the Investment Manager as the same may be amended from time to time, pursuant to which the Manager has appointed the Investment Manager as investment manager of the Funds. The Investment Management Agreement provides that the appointment of Investment Manager will continue in force unless and until terminated by either party giving to the other not less than ninety days' notice in writing although, in certain circumstances such as the insolvency of either party or an unremedied breach after notice, the Investment Management Agreement may be terminated forthwith by notice in writing by either party to the other. The Investment Management Agreement contains indemnities in favour of the Investment Manager other than in respect of matters arising by reason of its wilful default, fraud, bad faith, negligence or recklessness in the performance of its duties and obligations;
 - (ii) the Administration Agreement dated 28 August 2008 made between the Manager and the Administrator as the same may be amended from time to time, pursuant to which the Manager has delegated to the Administrator its administration and transfer agency functions. The Administration Agreement provides that the appointment of the Administrator will continue in force unless and until terminated by either party giving to the other not less than ninety days' notice in writing although in certain circumstances, such as the insolvency of either party or an unremedied breach after notice, the Administration Agreement may be terminated forthwith by notice in writing by either party to the other. The Administration Agreement contains indemnities in favour of the Administrator other than in respect of matters arising by reason of its negligence, wilful default or fraud in the performance of its duties under the Administration Agreement, in which cases the Administrator shall be liable;
 - (iii) the Registrar Agreement dated 28 August 2008 between the Manager, the Administrator and the Registrar. The Registrar Agreement provides that the appointment of the Registrar will continue in force for a fixed period of three years and thereafter until terminated by either party giving to the other not less than six months' notice in writing although in certain circumstances, such as the insolvency of either party or an unremedied breach after notice, the Registrar Agreement may be terminated forthwith. The Registrar Agreement contains indemnities in favour of the Registrar and provisions regarding the Registrar's legal responsibilities;
 - (iv) the Distribution Agreement dated 16 March 2018 between the Manager and the Distributor. The Distribution Agreement provides that the appointment of the Distributor will continue in force until terminated by either party giving to the other not less than three months' notice, although in certain circumstances, such as the insolvency of either party or an un-remedied breach after notice, the Distribution Agreement may be terminated with immediate effect by either party. The Distribution Agreement contains indemnities in favour of the Distributor other than in respect of matters arising by reason of its negligence, fraud or wilful default.

Litigation

The Company is not, nor has it been since its incorporation, involved in any governmental, legal or arbitration proceedings nor, so far as the Company is aware, are there any governmental, legal or arbitration proceedings, pending or threatened by or against, the Company which may have or have had since the Company's incorporation a significant effect on the Company's financial position or profitability.

City Code on Takeovers and Mergers (the "City Code")

The City Code does not apply to open-ended investment companies.

UK Facilities Agent

The UK Facilities Agent is GO ETF Solutions LLP whose registered office is located at One Coleman Street, London, EC2R 5AA. It will maintain facilities at its registered office so that: (i) any person may inspect and/or obtain (free of charge) a copy of the Prospectus, the Key Investor Information Documents and the Company's latest annual and semi-annual reports; (ii) any person may inspect and/or obtain (at no more than a reasonable charge) a copy of the Constitution; (ii) any person may obtain information on pricing and redemption of Shares; and (iii) any person may submit a complaint about the operation of the Company to be transmitted to the Manager by the UK Facilities Agent.

Inspection of Documents

Copies of the following documents will be available for inspection free of charge, at the offices of the Manager in Dublin and, for investors in the United Kingdom, at the office of the Investment Manager at any time during normal business hours on any day (excluding Saturdays, Sundays and public holidays in Ireland and the United Kingdom respectively):

- (i) the Constitution;
- (ii) the Prospectus and any Fund Supplement;
- (iii) the Key Investor Information Documents; and
- (iv) the latest annual and semi-annual reports of the Company.

MANAGEMENT AND ADMINISTRATION

The Directors control the affairs of the Company and are responsible for the overall investment policy, which will be determined by them and notified to the Manager. The Manager has delegated certain of its duties to the Investment Manager and the Administrator.

Corporate Governance

The Company is incorporated in Ireland and is therefore subject to the Act and is required to comply with the corporate governance requirements of the Act, the Irish Regulations and the requirements of the Central Bank from time to time in relation to UCITS. The Company voluntarily adheres to the IFIA Code. In addition to its voluntary adherence to the IFIA Code, the Company is subject to corporate governance practices imposed by the Constitution, the UK Corporate Governance Code, the UK Listing Rules (as they apply to overseas open-ended investment funds under Chapter 16 of the UK Listing Rules) and applicable chapters of the UK DTR (collectively, the “**Corporate Governance Requirements**”).

To accommodate the applicable provisions of the Corporate Governance Requirements, the Company has put in place a framework for corporate governance which it believes is appropriate for an open-ended collective investment company issuing exchange-traded funds. Certain Funds have a premium listing on the Main Market of the London Stock Exchange and therefore the UK Corporate Governance Code applies. Following the “comply or explain” approach prescribed by the UK Corporate Governance Code, the Company applies the main principles of the UK Corporate Governance Code in so far as the Directors deem them relevant and appropriate to an open-ended collective investment company issuing exchange-traded funds.

The Directors

The Company shall be managed and its affairs supervised by the Directors whose details are set out below. The Directors are all non-executive directors of the Company.

Adrian Waters (Irish, Irish resident). Mr. Adrian Waters (Irish Resident) is an independent, non-executive Director of the Manager and the Company. Mr. Adrian Waters is a Fellow of The Institute of Chartered Accountants in Ireland and of The Institute of Directors. He is a Chartered Director (UK Institute of Directors) and he specializes in risk management and governance. He has over 20 years’ experience in the funds industry. He is a director of several other investment funds. From 1993 to 2001, he held various executive positions within The BISYS Group, Inc. (now part of the Citi Group), including Chief Executive Officer of BISYS Fund Services (Ireland) Limited and finally as Senior Vice President – Europe for BISYS Investment Services out of London. From 1989 to 1993, he was employed by the Investment Services Group of PricewaterhouseCoopers in New York and prior to that by Oliver Freaney and Company, Chartered Accountants, in Dublin. Mr. Waters holds a Bachelor of Commerce degree and a Post Graduate Diploma in Corporate Governance both received from University College Dublin in 1985 and 2005, respectively. Additionally, in 2013, he has received a Master of Science degree in Risk Management from the Stern Business School at New York University.

Eimear Cowhey (Irish, Irish resident). Ms. Eimear Cowhey (Irish Resident) is an independent, non-executive Director of the Manager and the Company. Ms. Cowhey is an experienced investment management professional with over 25 years’ experience in financial services holding senior executive and board positions with Pioneer and Invesco Perpetual. Her executive roles were focused on mutual fund product development and management, international distribution, registration and listing of mutual funds and regulatory compliance. Since 2006 Eimear has served as a non-executive independent chairman, director and committee member of investment fund and management companies based in Dublin and Luxembourg of well-known global promoters and managers.

Ms. Cowhey is a qualified Irish solicitor and previously spent 7 years with Pioneer Global Investments Limited firstly as Head of Legal and Compliance and then as Head of Product Development. Prior to that she was Joint Managing Director, Global Fund Director (Int’l) and Head Legal Counsel for Invesco Dublin.

Ms. Cowhey is a former Chairman and Council member of IFIA the Irish funds industry association. She is also a former member of the IFSC Funds Group which is run under the auspices of the Department of An

Taoiseach and is a joint government/industry group to advise the government of investment fund related matters. She was a member of the Committee on Collective Investment Governance which was established by the Central Bank of Ireland in December 2013 and which issued its report in July 2014. She holds a Bachelor in Civil Law and Certificate in Financial Services Law (both from University College Dublin) and a Certified Diploma in Accounting & Finance (ACCA). She lectures and tutors on the subject of Investment Funds and Financial Services at the Law Society and speaks regularly at conferences.

Mark Weeks (British, UK resident). Mr. Weeks is a non-executive Director of the Manager and the Company. Mr. Weeks was previously the Chief Executive Officer of ETF Securities (UK) Limited. From 2006 to 2009 he was at UBS, where he ran the Securities Lending franchise in Zurich. Prior to this he spent 7 years at Goldman Sachs International where, as a Managing Director, he was responsible for running the European Securities Finance sales and trading desk, servicing major institutional and hedge fund clients. From 1993 to 1999 Mr. Weeks was at London Global Securities as Global Head of Securities Finance Sales. He also worked at IP Sharp selling securities finance systems and at Morgan Stanley, where he was responsible for the European Securities Finance sales and trading business.

Jason Kennard (British, UK resident). Mr. Kennard is a non-executive Director of the Manager and the Company. Mr. Kennard is Head of ETF Portfolio Management and Operations at Legal & General Investment Management. Since 2009, Mr. Kennard has been central to the development of all aspects of the "Canvas" UCITS ETF platform. From 1999 to 2009, Mr. Kennard was employed by Lionhart Investments Limited (a London based hedge fund where assets under management reached US\$1 Billion at its peak) where he handled all of the finance-related products including total return swaps, repo and securities financing. Prior to that, Mr. Kennard was employed by Bankers Trust International (Equity Finance Division) where he was a Director in charge of the London securities, borrowing and lending and swap desk for the Global Securities Lending Group. Prior to that, Mr. Kennard worked at UBS, where he was sent to Tokyo to set up the securities lending desk for Asian securities and to Zurich where he was in charge of Asia-based business globally. Mr. Kennard started his career with Morgan Stanley International in London.

Siobhan Boylan (British, UK resident). Ms. Boylan is a non-executive Director of the Manager and the Company. Ms. Boylan is the Chief Financial Officer at Legal & General Investment Management. Ms. Boylan joined LGIM in 2013 and is responsible for its finance and legal functions, and previously was responsible for the human resource function. Prior to this, Ms. Boylan served at Aviva North America as the Chief Finance Officer, and was responsible for the finance and actuarial activities, with a focus on financial performance and discipline, capital management, and internal controls. Previously, Ms. Boylan served as the Chief Financial Officer at Aviva Investors Global Services Limited from 2007 to 2011 and a Member of its Executive Board. She also served as the Group Financial Reporting and Planning Director at Aviva plc. Ms. Boylan worked at PricewaterhouseCoopers for 10 years in the insurance and investment management division. She holds the Chartered Accountant designation. Ms. Boylan graduated from York University with a degree in Economics and Politics.

As at the date of this Prospectus, no Director has:

- had any unspent convictions in relation to indictable offences;
- been declared bankrupt, or the subject of a voluntary arrangement or has had a receiver appointed to any asset of such Director;
- been a director of any company which, while he was a director with an executive function or within 12 months after he ceased to be a director with an executive function, had a receiver appointed or went into compulsory liquidation, creditors voluntary liquidation, administration or company voluntary arrangements, or made any composition or arrangements with its creditors generally or with any class of its creditors;
- been a partner in a partnership at the time of, or within 12 months preceding, any compulsory liquidation, administration or partnership voluntary arrangement of any such partnership;
- been a partner of any partnership, which while he was a partner or within 12 months after he ceased to be a partner, went into compulsory liquidation, administration or partnership voluntary arrangement, or had a receiver appointed to any partnership asset;

- or been subject to any public criticism, incrimination and/or sanctions by any statutory or regulatory authority (including any recognised professional body) or has ever been disqualified by a court from acting as a director of a company or from acting in the management or conduct of the affairs of any company.

As at the date of this Prospectus, none of the Directors have any beneficial or non-beneficial interests in the share capital of the Company. Save for the Management Agreement between the Company and the Management Company, which provides for fees to be paid by the Company to the Manager, there are no other contracts entered into by the Company in which any of the Directors are interested nor are any such contracts proposed.

The Manager

The Company has appointed LGIM ETF Managers Limited as its manager pursuant to the Management Agreement. Under the terms of the Management Agreement, the Manager has responsibility for the management and administration of the Company's affairs together with the marketing and distribution of the Shares, subject to the overall supervision and control of the Directors.

The Manager has delegated the investment management functions in respect of each Fund to the Investment Manager, the administrative and transfer agency functions to the Administrator, the registrar function to the Registrar, and the distribution function to the Distributor. The Manager may from time to time appoint other entities in relation to the distribution of Shares, which entities shall be paid out of the fee payable to the Manager.

The Manager is a private company limited by shares and was incorporated in Ireland on 29 February 2008 under company registration number 454170. It is a wholly-owned subsidiary of Legal & General Investment Management (Holdings) Limited. The Manager has an authorised share capital of STG£20,000,000 and will maintain an issued and fully paid up share capital of at least the Sterling equivalent of €125,000. The Manager's main business is the provision of fund management and administration services to collective investment schemes such as the Company. The directors of the Manager are the same as those of the Company.

The secretary of the Manager is Wilton Secretarial Limited.

Remuneration Policy

The Manager has designed and implements a remuneration policy which is consistent with and promotes sound and effective risk management by having a business model which by its nature does not promote excessive risk taking that is inconsistent with the risk profile of the Manager, the Company and/or the Funds and which does not impair the Manager's duty to act in the best interests of the Company. The Manager's remuneration policy is consistent with the business strategy, objectives, values and interests of the Manager, the Company and the Funds and includes measures to avoid conflicts of interest.

The Manager's remuneration policy applies to those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls into the remuneration bracket of senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Manager, the Company and the Funds.

In line with the provisions of the UCITS Directive and ESMA's "Guidelines on sound remuneration policies under the UCITS Directive" (ESMA/2016/575) (the "ESMA Remuneration Guidelines"), the Manager applies its remuneration policy and practices in a way and to the extent that is proportionate to its size, its internal organisation and the nature, scope and complexity of its activities.

Where the Manager delegates certain portfolio management and risk management functions in respect of the Funds, which it does to the Investment Manager, it will in accordance with the requirements of the ESMA Remuneration Guidelines ensure that;

- the entities to which investment management activities have been delegated are subject to regulatory requirements on remuneration that are equally as effective as those applicable under the ESMA Remuneration Guidelines; or
- appropriate contractual arrangements are put in place to ensure that there is no circumvention of the remuneration rules set out in the ESMA Remuneration Guidelines.

Details of the remuneration policy of the Manager including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits including the composition of the remuneration committee, where such a committee exists, will be available at <http://www.lgimetf.com> and a paper copy will be made available free of charge upon request.

The Investment Manager

The Manager reserves the right to appoint one or more Investment Managers each of which will be responsible for the investment and re-investment of the assets of specific Funds pursuant to an Investment Management Agreement. Any Investment Manager appointed by the Manager will be responsible for the management of the investment of the assets of specific Funds, subject always to the supervision and direction of the Directors and the Manager.

As at the date of this Prospectus, GO ETF Solutions LLP is the Investment Manager for each of the Funds. The Investment Manager is also the Promoter of the Company. The Investment Manager is regulated by the Financial Conduct Authority of the United Kingdom and is a wholly-owned subsidiary of Legal & General Investment Management (Holdings) Limited. The Investment Manager has its principal address at One Coleman Street, London, EC2R 5AA, United Kingdom.

The Investment Manager may delegate to sub-investment managers/advisers or other delegates and details of such entities, where appointed, will be provided to Shareholders on request and will be published in the Company's periodic reports. The fees and expenses of any sub-investment manager/adviser or other delegate appointed by the Investment Manager will be discharged by the Investment Manager out of the fee it receives from the Manager.

The Depositary

The Company has appointed BNY Mellon Trust Company (Ireland) Limited to act as the depositary of the Company's assets pursuant to the Depositary Agreement. The Depositary is a private limited liability company incorporated in Ireland on 13th October 1994. The principal activity of the Depositary is to act as the depositary of the assets of collective investment schemes. The Depositary is authorised by the Central Bank under the Investment Intermediaries Act, 1995 (as amended).

The Depositary is a wholly-owned indirect subsidiary of The Bank of New York Mellon Corporation. BNY Mellon is a global financial services company focused on helping clients manage and service their financial assets, operating in 35 countries and serving more than 100 markets. BNY Mellon is a leading provider of financial services for institutions, corporations and high-net-worth individuals, providing superior asset management and wealth management, asset servicing, issuer services, clearing services and treasury services through a worldwide client-focused team. As at 30 September 2015, it had US\$28.5 trillion in assets under custody and administration and US\$1.6 trillion in assets under management.

The duty of the Depositary is to provide safekeeping, oversight and asset verification services in respect of the assets of the Company and each Fund in accordance with the provisions of the Irish Regulations.

In addition, the Depositary has the following main duties, which may not be delegated:

- it must ensure that the sale, issue, repurchase, redemption and cancellation of Shares is carried out in accordance with the Irish Regulations and the Constitution;
- it must ensure that the value of the Shares is calculated in accordance with the Irish Regulations and the Constitution;

- it must carry out the instructions of the Manager and the Company unless such instructions conflict with the Irish Regulations or the Constitution;
- it must ensure that in transactions involving the Company's assets or the assets of any Fund that any payment in respect of same is remitted to the relevant Fund(s) within the usual time limits;
- it must ensure that the income of the Company or of any Fund(s) is applied in accordance with the Irish Regulations and the Constitution;
- it must enquire into the conduct of the Company and the Manager (acting on behalf of the Company) in each accounting period and report thereon to Shareholders; and
- it must ensure that the Company's cash flows are properly monitored in accordance with the Irish Regulations.

Pursuant to the Irish Regulations and the Depositary Agreement, the Depositary will be liable for loss of financial instruments held in custody or in the custody of any Sub-custodian, unless it can prove that loss has arisen as a result of an external event beyond its control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary. This standard of liability only applies to financial instruments (as referred to in the Irish Regulations) capable of being registered or held in a securities account in the name of the Depositary or a Sub-custodian and financial instruments (as referred to in the Irish Regulations) capable of being physically delivered to the Depositary or a Sub-custodian. The Depositary shall also be liable for all other losses suffered as a result of the Depositary's negligent or intentional failure to fulfil its obligations under the Irish Regulations.

The Depositary may delegate its safe-keeping duties in respect of financial instruments in custody to The Bank of New York Mellon SA/NV and/or The Bank of New York Mellon. The list of Sub-custodians appointed by The Bank of New York Mellon SA/NV or The Bank of New York Mellon is set out in Schedule IV hereto. The use of particular Sub-custodians will depend on the markets in which the Company invests. The Depositary has confirmed that no conflicts arise as a result of such delegation.

Up-to-date information regarding the duties of the Depositary, any conflicts of interest that may arise and the Depositary's delegation arrangements will be made available to investors on request at the offices of the Manager and, for investors in the United Kingdom, at the office of the Investment Manager.

The Administrator

The Manager has appointed BNY Mellon Fund Services (Ireland) Designated Activity Company to act as administrator and transfer agent of the Company with responsibility for performing the day to day administration of the Company, including the calculation of the Net Asset Value and the Net Asset Value per Share of each Fund. The Administrator is a private limited company incorporated in Ireland on 31 May 1994 and is engaged in the provision of fund administration, accounting, registration, transfer agency and related shareholders services to collective investment schemes and investment funds. The Administrator is authorised by the Central Bank under the Investment Intermediaries Act 1995.

The Depositary and the Administrator are wholly-owned indirect subsidiaries of The Bank of New York Mellon Corporation. The Bank of New York Mellon Corporation is a global financial services company focused on helping clients manage and service their financial assets, operating in 36 countries and serving more than 100 markets. The Bank of New York Mellon Corporation is a leading provider of financial services for institutions, corporations and high-net-worth individuals, providing asset management and wealth management, asset servicing, issuer services, clearing services and treasury services. At 31 December 2014, The Bank of New York Mellon Corporation had more than US\$28.5 trillion in assets under custody and administration, more than US\$1.7 trillion in assets under management.

The Registrar

The Manager has appointed Computershare Investor Services (Ireland) Limited to act as registrar pursuant to the Registrar Agreement.

The Distributor

Except where otherwise indicated in respect of a particular Fund in the relevant Fund Supplement, the Manager has appointed Legal & General Investment Management Limited as distributor of the Shares. The Distributor has the power under the Distribution Agreement to procure the provision of services from third parties where necessary in order to deliver the services pursuant thereto and may appoint sub-distributors or other delegates and details of such entities, where appointed, will be provided to Shareholders on request.

Index Providers

LGIM ETF Managers Limited will enter into licensing agreements with Index Providers in relation to relevant Fund(s) and, where the Company is not already included in the scope of any such licensing agreement and as may be required by any Index Provider, will grant to the Company a sub-licence in respect of each relevant Fund.

The Company is working with the benchmark administrators providing the Indices to obtain confirmation that they are either authorised or registered on the public register maintained by ESMA under the Benchmark Regulation or intend to apply for such authorisation or registration.

Conflicts of Interest

Due to the widespread operations which are or may be undertaken by the Directors, the Manager, the Depositary and the delegates or sub-delegates of the Manager or the Depositary (excluding any non-group company Sub-custodians appointed by the Depositary) and the associated group companies of the Manager, the Depositary or such delegates or sub-delegates (each an **"Interested Party"**), conflicts of interests may arise. Subject to the provisions below, the Interested Parties may effect transactions where those conflicts arise and shall not (subject as below) be liable to account for any profit, commission or other remuneration arising.

The following conflicts of interest may arise:

- (i) an Interested Party may acquire or dispose of any Investment notwithstanding that the same or similar investments may be owned by or for the account of or otherwise connected with the Company;
- (ii) an Interested Party may acquire, hold or dispose of Investments notwithstanding that such Investments had been acquired or disposed of by or on behalf of the Company by virtue of a transaction effected by the Company in which the Interested Party was concerned provided that the acquisition by an Interested Party of such Investments is conducted on an arm's length basis and such Investments held by the Company are acquired on the best terms reasonably obtainable having regard to the best interests of Shareholders;
- (iii) certain of the Directors are or may in the future be connected with the Investment Manager and its affiliates. However, in their capacity as Directors of the Company, they will function as persons with independent fiduciary duties and will not be subject to the control of the Investment Manager. For the avoidance of doubt, the Directors shall not be liable to account to the Company in respect of such conflict for example as a result of receiving remuneration as directors or employees of the Manager or Investment Manager;
- (iv) the Company may invest in other collective investment schemes (which may be operated and/or managed by an Interested Party). Where a commission is received by the Investment Manager by virtue of an investment by the Company in shares of any collective investment scheme, such commission will be paid into the property of the relevant Fund;

- (v) the Company may purchase or hold an investment the issuer of which is an Interested Party or where an Interested Party is its adviser or banker;
- (vi) an Interested Party may deal with the Company as principal or as agent, provided that any such dealings are in the best interests of Shareholders and are conducted at arm's length. Such transactions are subject to:
 - a. a certified valuation of the transaction by a person approved by the Depositary (or the Manager in the case of a transaction with the Depositary) as independent and competent; or
 - b. the transaction being executed on best terms on an organised investment exchange in accordance with the rules of such exchange; or
 - c. execution on terms which the Depositary (or the Manager in the case of a transaction with the Depositary) is satisfied conforms with the principle that such transactions are in the best interests of the Shareholders and are conducted at arm's length;

The Depositary, or the Manager in the case of transactions involving the Depositary, shall document how it complied with paragraphs (a), (b) or (c). Where transactions are conducted in accordance with paragraph (c), the Depositary, or the Manager in the case of transactions involving the Depositary, shall document its rationale for being satisfied that the transaction conformed to the principle of being in the best interests of the Shareholders and conducted at arm's length.

- (vii) the Investment Manager is part of the Legal & General group, as is the Manager. The Investment Manager's fee is payable out of the fee paid to the Manager out of the assets of each Fund. The Investment Manager may provide valuation services to the Administrator (to assist in the calculation of the Net Asset Value of a Fund) in relation to Investments which are not listed or traded on a Regulated Market;
- (viii) the Company may acquire or dispose of Investments by virtue of a transaction effected by, or on behalf of, the Company in which an Authorised Participant (or one of its affiliates) is concerned provided that the acquisition of Investments from or disposal of Investments to an Authorised Participant (or one of its affiliates) is effected on normal commercial terms negotiated on an arm's length basis and such Investments held by the Company are acquired on the best terms reasonably obtainable having regard to the best interests of Shareholders;
- (ix) investors in a Fund may also be counterparties with whom the Investment Manager, in respect of a Fund, may enter into OTC Swaps, repurchase transactions and/or reverse repurchase transactions; and
- (x) the Investment Manager on behalf of a Fund may acquire a basket of securities from a counterparty or a related entity of that counterparty (which entity may in either case also be an Authorised Participant) that it believes can form the subject of a Swap Arrangement or a repurchase agreement entered into with that counterparty or a related entity of that counterparty and may also, on behalf of a Fund, enter into OTC Swaps with the same counterparty or a related entity of that counterparty. Such transactions shall be subject to the conditions outlined at Schedule II.

Potential conflicts of interest affecting the Depositary and its Sub-custodians may arise from time to time, including, without limitation, where the Depositary or a Sub-custodian has an interest in the outcome of a service or an activity provided to the Company, or a transaction carried out on behalf of the Company, which is distinct from the Company's interest, or where the Depositary or a Sub-custodian has an interest in the outcome of a service or activity provided to another client or group of clients which is in conflict with the Company's interests. From time to time conflicts may also arise between the Depositary and its Sub-custodians or affiliates, such as where an appointed Sub-custodian is an affiliated group company and is providing a product or service to the Company and has a financial or business interest in such product or service. The Depositary maintains a conflict of interest policy to address such conflicts. Where a conflict or potential conflict of interest arises, the Depositary will have regard to its obligations to the Company, applicable law, and its conflicts of interest policy.

Meetings

Shareholders in the Company are entitled to attend and vote at general meetings of the Company. The annual general meeting of the Company is held in Ireland normally within six months of the end of each financial year of the Company. Notices convening each annual general meeting will be sent to Shareholders together with the annual report and audited financial statements not less than twenty-one days before the date fixed for the meeting. Such notice will indicate the time and place of the meeting and the conditions of admission thereto.

Accounts and Information

The Company's accounting period ends on 30 June in each year.

The Company will prepare an annual report and audited financial statements, a copy of which will be available to Shareholders four months after the end of the financial period to which it relates. Copies of the semi-annual reports and unaudited financial statements (made up to 31 December of each year), will also be available to Shareholders within two months of the end of the half year period to which it relates. Both of these reports will be sent to the Central Bank and any other relevant regulator and/or stock exchange (as required), such as the UK Listing Authority, within the same time periods as set out above and Shareholders will be notified of the relevant website where copies of the relevant documents can be downloaded.

The Prospectus will be available for inspection free of charge, at the offices of the Manager in Dublin and, for investors in the United Kingdom, at the office of the Investment Manager at any time during normal business hours on any day (excluding Saturdays, Sundays and public holidays in Ireland and the United Kingdom respectively).

Communications with Shareholders

Communications with Shareholders may be effected by electronic mail or by any other means of communication, provided that the Shareholder has consented to such method of communication. Copies of any documents sent to Shareholders will be published on <http://www.lgimetf.com> and made available for inspection at the offices of the Manager and, for investors in the United Kingdom, at the office of the Investment Manager. Communications with Shareholders will also be published in such other media as may be required.

Investors should regularly visit <http://www.lgimetf.com>, or request that their representatives do so on their behalf, to ensure that they obtain such information on a timely basis.

Any information or Company communications to Shareholders holding Shares in Recognised Clearing and Settlement Systems, including voting or proxy materials, annual reports etc., will be transmitted to those Recognised Clearing and Settlement Systems capable of receiving and processing such information for transmission to investors.

VALUATION

Calculation of Net Asset Value

Except when the determination of the Net Asset Value of any Fund has been suspended or postponed in the circumstances set out under the heading “*Temporary Suspensions*” below, the calculation of the Net Asset Value of each Fund, the Net Asset Value of each class and the Net Asset Value per Share will be prepared as at each Valuation Point and will be available to Shareholders on request.

The Net Asset Value of each Fund will be expressed in its Base Currency. The calculation of the Net Asset Value of each Fund and of each class of Shares within a Fund will be carried out by the Administrator in accordance with the requirements of the Constitution (details of which are set out under the heading “*The assets of the Company and the calculation of the Net Asset Value*” beginning on page 31. The Net Asset Value of any class of Shares within a Fund will be determined by deducting the share of liabilities attributable to that class from the share of the assets attributable to the class. The Net Asset Value attributable to each Share of each class will be determined by dividing the Net Asset Value of the class by the number of Shares of that class.

Investments of the Funds which are listed or traded on one Regulated Market (as applicable) for which quotations are readily available shall be valued as set out in the relevant Fund Supplement. Where Investments are quoted, listed or normally dealt in on more than one Regulated Market, the market which in the opinion of the Administrator, constitutes the main market for the relevant Investment or which provides the fairest criteria for valuing the relevant Investment shall be used.

Publication of the Price of Shares

The up-to-date Net Asset Value per Share of each class shall be made public at the offices of the Administrator during normal business hours on each Business Day, will be notified immediately upon calculation to the London Stock Exchange and any other exchanges on which the Shares of the Funds are listed from time to time (as necessary) by the Administrator, and will be published as required, through other media in the jurisdictions in which the Shares are marketed and on <http://www.lgimetc.com> and in such other media as may be required.

Portfolio Composition

The Investment Manager will, on request, provide to Shareholders a list of the portfolio of Investments held by each Fund.

iNAV

The Manager may at its discretion make available, or may designate other persons to make available on its behalf, on each Business Day, an iNAV or estimated Net Asset Value for one or more Funds. The Manager will typically make iNAVs available for certain Funds where required by a Relevant Stock Exchange. Where the Manager elects to make an iNAV available on any Business Day, the iNAV will be calculated based upon information available during the trading day or any portion of the trading day and will ordinarily be based upon the then-current value of the assets/exposures of the Fund on such Business Day.

Where the Manager elects to make available an iNAV for a particular Fund, the iNAV can be accessed on www.euronext.com. The relevant Bloomberg and Reuters codes for the iNAV will be made available on the relevant product page for such Fund at <http://www.lgimetc.com> or where otherwise indicated in respect of a particular Fund in the relevant Fund Supplement. The iNAVs can be accessed by searching for the foregoing Bloomberg and Reuters iNAV codes on www.euronext.com.

It will only be possible for the Company to provide iNAVs for Funds which track or replicate Indices that are comprised of constituents in respect of which intra-day prices are available. For Funds which track or replicate Indices comprised of dynamic strategies with variable allocations to underlying exposures which re-balance at the end of each Business Day, it is not possible to determine intra-day values for the Index as the

allocation ratio to the various underlying exposures is not known until the end of the day. Therefore, iNAV's for such Funds will not be available.

Any iNAV or estimated Net Asset Value is not, and should not be taken to be or relied on as being the value of a Share or the price at which Shares may be subscribed for or redeemed or purchased or sold on any Relevant Stock Exchange and may not reflect the true value of a Share, and may be misleading. The inability of the Manager or its designee to provide an iNAV or estimated Net Asset Value for any period of time, will not in itself result in Shares not being traded on a Relevant Stock Exchange, however, the continued eligibility of the Shares for listing on a Relevant Stock Exchange will be determined by the rules of the Relevant Stock Exchange in the circumstances. Investors interested in purchasing or selling Shares on a Relevant Stock Exchange should not rely solely on any iNAV or estimated Net Asset Value which is made available in making investment decisions but should consider other market information and relevant economic factors.

Neither the Company, the Directors, the Manager nor any other service providers to the Company shall be liable to any person who relies on the iNAV or estimated Net Asset Value.

DEALING

General

Funds of the Company are exchange traded funds which means that at least one class of Share in each Fund is listed and actively traded on one or more stock exchanges. The Company may issue Shares of any class of any Fund and on such terms as it may from time to time determine. Each Fund may issue different classes of Shares. Shares can be issued as ETF Shares or Non-ETF Shares. Shares will be in registered form and evidenced by entry on the Company's register of Shareholders and confirmations of ownership in writing will be issued to Shareholders. Save where the Directors determine in relation to Shares being settled through a Recognised Clearing and Settlement System, no certificates of ownership will typically be issued. **In order for an investor to be a Shareholder in a Fund and to exercise the rights associated with being a Shareholder, it must be registered in the Company's register of Shareholders.** All subscriptions and redemptions are dealt on a forward pricing basis (i.e. by reference to the Net Asset Value per Share calculated as at the Valuation Point for the relevant Dealing Day).

Any specific terms and conditions and/or procedures and settlement details applicable to the subscription and redemption of Shares of a particular Share class which supplement and/or vary the procedures described below will be set out in the relevant Fund Supplement.

Subscriptions

General

Under the Constitution, the Directors are given authority to effect the issue of Shares and have absolute discretion to accept or reject in whole or in part any application for Shares without assigning any reason therefor. The Company may impose such restrictions as it believes necessary to ensure that no Shares are acquired by persons who are not Qualified Holders. Additionally, the Directors may at any time require a prospective investor or a Shareholder to furnish them with such information as they may consider necessary for the purpose of determining whether or not the beneficial owner of such Shares is or may be a Qualified Holder. If an application is rejected, any consideration received will be returned to the applicant (minus any handling charge incurred in any such return) as soon as possible by telegraphic transfer (but without interest, costs or compensation).

Measures aimed at the prevention of money laundering may require an investor who is subscribing for Shares to provide verification of identity to the Administrator. The Administrator will notify applicants if proof of identity is required and the forms of proof that are acceptable. An application for Shares will not be accepted until anti-money laundering documentation is provided to the satisfaction of the Administrator.

No Shares of any Fund will be issued or allotted during a period when the determination of Net Asset Value of that Fund is suspended.

All applications for Shares must be accompanied by a completed application form which may be obtained from the Administrator. For initial subscriptions, an original, signed application form must be sent to the Administrator or, alternatively, the application form may be sent by facsimile at the risk of the applicant with the original to follow promptly. Subsequent subscriptions may be made by facsimile. Applications may also be effected by such other means, including electronically, as the Manager may prescribe from time to time where such means have the prior approval of the Central Bank.

Applications for subscriptions received by the Administrator for any Dealing Day before the applicable Dealing Deadline will be processed by the Administrator for that Dealing Day. Any applications received after the applicable Dealing Deadline will normally be held over until the next Dealing Day but may be accepted for dealing on the relevant Dealing Day (at the discretion of the Directors or their delegates) provided that such applications are received prior to the Valuation Point for such Dealing Day. An application for subscription, if received by the Administrator by the relevant Dealing Deadline, will be irrevocable by the applicant and, following acceptance of such application by the Company, will be binding on both the applicant and the Company.

The subscription price of Shares is based on the Net Asset Value per Share together with Duties and Charges and Subscription Fee, if any.

In circumstances where the exact provision for Duties and Charges cannot be ascertained in sufficient time in advance of the applicable settlement date for the issue of the relevant Shares as specified in the relevant Fund Supplement, the Duties and Charges paid in respect of the subscription may be estimated. Following the acquisition of Investments by the Company, the applicant shall reimburse the Company for any shortfall in the estimated sum for Duties and Charges received by the Company or, as the case may be, the Company shall reimburse the applicant for any excess in the estimated sum for Duties and Charges received by the Company in a timely manner and no interest shall accrue or be payable by the Company in respect of such excess. The applicant shall reimburse the Company for any shortfall in the estimated sum for Duties and Charges received by the Company in a timely manner and the Company may charge the applicant interest or for costs incurred if the applicant fails to reimburse the Company in a timely manner.

Where set out in the relevant Fund Supplement, a fixed amount may be charged in respect of Duties and Charges. The maximum level of such amount, which shall be expressed as a percentage of the Net Asset Value of Shares being applied for, shall be specified in the relevant Fund Supplement but shall not in any case exceed 5% of the Net Asset Value of Shares being applied for. Following the acquisition of Investments by the Fund, any shortfall in the amount charged in respect of Duties and Charges shall be borne by the Fund and any excess in the estimated sum for Duties and Charges shall be retained by the Fund.

In the context of each application for subscription for Shares, the Manager (or its appointed delegate) shall have sole discretion as to whether Duties and Charges are charged as a fixed amount or charged to match the exact cost to the Company of purchasing the relevant underlying Investments.

The Company may charge a Subscription Fee of up to 5% of the Net Asset Value of the amount of Shares subscribed for which may be waived in whole or in part at the discretion of the Company and/or the Manager (or its appointed delegates).

ETF Shares

Only Authorised Participants may subscribe for ETF Shares in Funds directly with the Company.

To subscribe for ETF Shares directly with the Company, an Authorised Participant must satisfy such requirements as may be imposed by the Manager on an ongoing basis (which may include requirements such as having satisfied all anti-money laundering checks, being creditworthy and having access to one or more Recognised Clearing and Settlement Systems). If the relevant requirements cease to be met by any such investor, the Manager may take such steps as it believes necessary to seek to ensure that the interests of the relevant Fund and Shareholders as a whole are protected (which may include rejecting any further subscriptions from such Authorised Participants). Prospective investors should contact the Administrator to ascertain the requirements for becoming an Authorised Participant. Investors who are not participants in Recognised Clearing and Settlement Systems will have indirect access to such Recognised Clearing and Settlement Systems through professional financial intermediaries, such as banks, custodians, brokers, dealers, and trust companies which clear through or maintain a custodial relationship with Authorised Participants.

Investors that are not Authorised Participants must purchase ETF Shares through a broker on the secondary market. As with any stock traded on an exchange through a broker, purchases and sales of ETF Shares on the secondary market will be subject to usual and customary brokerage commissions. The Company does not set the amount of the commissions and does not receive these payments.

ETF Shares may be issued or redeemed for cash or on an in specie basis at the discretion of the Manager and / or where stated in the relevant Fund Supplement.

ETF Shares - cash subscriptions

An application for subscription must be for the Minimum Subscription Amount as specified in the relevant Fund Supplement which shall be specified as either (i) a number of Shares or (ii) a cash amount in respect of which the applicable number of Shares shall at least equate in value to the cash amount specified.

Any requests for details regarding subscriptions should be made in advance of the Dealing Deadline in

accordance with any procedures prescribed by the Manager from time to time.

Subscription price

The subscription price of Shares subscribed for during an Initial Offer Period shall be set out in the Prospectus or any relevant Fund Supplement. The subscription price of Shares subscribed following an Initial Offer Period will be the aggregate of (a) the Net Asset Value per Share on the relevant Dealing Day of the Shares, (b) if applicable, any Duties and Charges and (c) if applicable, a Subscription Fee.

Settlement period

Settlement for Shares must be made through a Recognised Clearing and Settlement System and must be made by the settlement time specified in the relevant Fund Supplement.

Currency of subscriptions

Subscription monies are payable in the currency of denomination of the relevant Share class but may be accepted in a different currency where agreed in advance with the Manager (see section entitled “*Currency of Payment and Foreign Exchange Transactions*” on page 61).

Directed Transactions

In connection with cash subscriptions for ETF Shares, where agreed in advance with the Manager (or its appointed delegate), an Authorised Participant may request that the Company (on behalf of the relevant Fund) enter into a transaction for the purchase of the underlying relevant Investments with the Authorised Participant or one or more brokers designated by such Authorised Participant (each, an “**AP Designated Broker**”) and/or in one or more particular markets (each such transaction, a “**Directed Transaction**”). The ability to avail of the Directed Transaction facility shall at any time be at the sole discretion of the Manager (or its appointed delegate).

If any Authorised Participant wishes to avail of the Directed Transaction facility, the Authorised Participant must indicate its preference in the subscription application form. Additionally, Authorised Participants that wish to avail of the Directed Transaction facility are required, prior to the applicable Dealing Deadline (and in accordance with the procedures established by the Manager (or its appointed delegate)), to contact both the Investment Manager and the relevant portfolio trading desk of the AP Designated Broker to arrange the Directed Transaction.

If an application for a cash subscription for ETF Shares is accepted on the basis that a Directed Transaction will be permitted, as part of the Authorised Participant’s settlement obligations, the Authorised Participant shall be responsible for ensuring that the AP Designated Broker transfers to the Company (via the Depositary) the relevant underlying Investments. For the avoidance of doubt, Duties and Charges shall reflect the cost to the Company of purchasing the relevant underlying Investments in connection with a subscription for ETF Shares, whether the relevant underlying Investments in connection with the relevant subscription for ETF Shares are purchased solely from the AP Designated Broker or some of such Investments are purchased from other brokers selected by the Company (for example, where not all of the relevant underlying Investments are available for purchase from the AP Designated Broker).

The Company, the Manager and the Investment Manager (and their respective delegates) shall not be responsible, and shall have no liability, if the execution of a Directed Transaction with an AP Designated Broker and, by extension, an Authorised Participant’s subscription application, is not carried out due to an omission, error, failed or delayed trade or settlement on the part of the Authorised Participant or the AP Designated Broker.

Failure to settle

In the event that (i) in respect of a cash subscription, an Authorised Participant fails to deliver the required cash within the settlement time specified in the relevant Fund Supplement, or (ii) in respect of a cash subscription resulting in a Directed Transaction, an Authorised Participant fails to deliver the required cash within the settlement time specified in the relevant Fund Supplement or the AP Designated Broker fails to transfer to the Company (via the Depositary) the relevant underlying Investments (or part thereof) within the settlement time prescribed by the Manager (or its appointed delegate), the Company and/or the Manager (or its appointed delegate) reserves the right to cancel the relevant subscription application.

The Manager (or its appointed delegate) may, in its sole discretion where it believes it is in the best interest of the relevant Fund, decide not to cancel a subscription and provisional allotment of ETF Shares where an

Authorised Participant has failed to deliver the required cash within the settlement time specified in the relevant Fund Supplement. In such circumstances, the Company may temporarily borrow an amount equal to the subscription price and invest the amount borrowed in accordance with the investment objective and policies of the relevant Fund. The Company reserves the right to charge the relevant Authorised Participant for any interest or other costs incurred by the Company as a result of this borrowing.

In the context of a cash subscription resulting in a Directed Transaction, should an AP Designated Broker fail to transfer to the Company (via the Depositary) the relevant underlying Investments (or part thereof) within the settlement time prescribed by the Manager (or its appointed delegate), the Company and/or the Manager (or its appointed delegate) shall have the right to cancel the Directed Transaction (or relevant part thereof) and transact with one or more alternative brokers and to charge the relevant Authorised Participant for any interest or other costs incurred by the Company relating to the failed Directed Transaction (or relevant part thereof) and any new transactions entered into with alternative brokers.

The Authorised Participant shall indemnify the Company for any loss suffered by the Company as a result of (i) in the context of a cash subscription, any failure or delay by the Authorised Participant in delivering the required cash including, but not limited to, all costs of whatever nature incurred by a Fund in purchasing Investments - including adjusting or entering into OTC Swaps or Swap Arrangements - in anticipation of receipt, from the Authorised Participant of the required cash payable in respect of a cash subscription or (ii) in the context of a cash subscription resulting in a Directed Transaction, any failure by an AP Designated Broker to transfer to the Company (via the Depositary) the relevant underlying Investments (or part thereof) within the settlement time prescribed by the Manager (or its appointed delegate), including, but not limited to, any market exposure, interest charges and other costs of whatever nature suffered by the Company (including, but not limited to, the cost of borrowing and/or the costs associated with cancelling the Directed Transaction (or any relevant part thereof) and entering into new transactions with alternative brokers, each as referred to above). The Authorised Participant will be required to promptly reimburse the Company on demand. The Company will have the right to cancel the provisional allotment of ETF Shares and/or sell or redeem all or part of the Authorised Participant's holding of ETF Shares or Non-ETF Shares in the Fund (or in any other Fund) in order to meet some or all of these costs.

ETF Shares - *in specie* subscriptions

General

Authorised Participants may subscribe for ETF Shares *in specie* (i.e. by the transfer of Investments or predominantly Investments to the Company) only when agreed in advance with the Manager or where specified in the relevant Fund Supplement.

The minimum number of Shares that may be subscribed for *in specie* is equivalent to one Creation Unit. Applications for subscription of Shares *in specie* must be in integer multiples of the relevant Creation Unit.

Investments delivered in connection with *in specie* subscription requests shall be valued in accordance with the provisions of this Prospectus. Shares shall not be issued until the Portfolio Deposit, the *in specie* transaction fee and Duties and Charges (if applicable) have been received by the Depositary and, if applicable, the Subscription Fee has been received by the Administrator (or the relevant party specified in a relevant Fund Supplement). All securities contained within the Portfolio Deposit must comply with the investment objective, investment policy and restrictions of the relevant Fund.

Subscription price

The subscription price of Shares subscribed for on an *in specie* basis during an Initial Offer Period shall be set out in the relevant Fund Supplement. The subscription price of Shares subscribed for on an *in specie* basis following an Initial Offer Period will be the aggregate of (a) the Net Asset Value per Share on the relevant Dealing Day of the Shares comprising the Creation Unit, (b) in respect of each Creation Unit, the relevant *in specie* transaction fee which shall not exceed 5% of the Net Asset Value of Shares subscribed for on an *in specie* subscription (as the same may be waived or lowered by the Manager either generally or in any particular case), (c) if applicable, any Duties and Charges, and (d) if applicable, a Subscription Fee.

The subscription price per Creation Unit will be payable by transferring the Portfolio Deposit plus a cash amount equal to the relevant *in specie* transaction fee and any applicable Duties and Charges.

Notification of Cash Component, *in specie* transaction fee and Duties and Charges

On the Business Day following the Valuation Date corresponding to the Dealing Day for which receipt of an application for Creation Units is accepted, the Administrator will report to the Authorised Participant the amounts of the Cash Component, *in specie* transaction fee and Duties and Charges, if any, to be delivered by the Authorised Participant to the Depositary with the Portfolio Deposit.

Settlement period

Settlement for Shares comprising a Creation Unit must be made through a Recognised Clearing and Settlement System and must be made within two Business Days following the Dealing Day for which the application for subscription is accepted unless otherwise stated. The settlement period may vary depending upon the standard settlement periods of the different stock exchanges on which the Shares are traded and the nature of the securities comprised in the Portfolio Deposit but shall not in any event exceed ten Business Days from the relevant Dealing Day.

Failure to settle

In the event that an Authorised Participant fails to deliver to the Depositary one or more of the securities contained in the Portfolio Deposit by the designated time, the Company or its delegate may reject the application for subscription, or may require the Authorised Participant to pay a fee at least equal to the closing value of such undelivered securities on the Valuation Date for the relevant Dealing Day. On the payment of such amounts, the relevant Creation Unit will be issued. In the event that the actual cost to the Company of acquiring the securities (including any Duties and Charges) exceeds the aggregate of the value of such securities on the Valuation Date for the relevant Dealing Day, the *in specie* transaction fee and, if applicable, the Duties and Charges paid by the Authorised Participant, the Authorised Participant will be required to promptly reimburse the Company the difference on demand. The Company will have the right to sell or redeem all or part of the Authorised Participant's holding of ETF Shares or Non-ETF Shares in the Fund (or in any other Fund) in order to meet some or all of these charges.

Non-ETF Shares

Save in relation to Qualified Holders, there is no restriction on the type of investor who may subscribe for Non-ETF Shares.

Each Fund may offer Non-ETF Shares where specified in a relevant Fund Supplement. Dealings in these Shares will principally be in cash but in-kind dealings may be permitted only when agreed in advance with the Manager or where specified in a relevant Fund Supplement.

During an Initial Offer Period, Shares will be issued on terms as set out in a relevant Fund Supplement.

Non-ETF Shares - cash subscriptions

An application for subscription must be for the Minimum Subscription Amount as specified in the relevant Fund Supplement which shall be specified as either (i) a number of Shares or (ii) a cash amount in respect of which the applicable number of Shares shall at least equate in value to the cash amount specified.

Any requests for details regarding subscriptions should be made in advance of the Dealing Deadline in accordance with any procedures prescribed by the Manager from time to time.

Subscription price

The subscription price of Shares subscribed for during an Initial Offer Period shall be set out in the Prospectus or any relevant Fund Supplement. The subscription price of Shares subscribed following an Initial Offer Period will be the aggregate of (a) the Net Asset Value per Share on the relevant Dealing Day of the Shares, (b) if applicable, any Duties and Charges, and (c) if applicable, a Subscription Fee.

Settlement period

Subscription payments net of all bank charges should be paid to the Administrator by CHAPS, SWIFT or telegraphic transfer to the bank account specified at the time of dealing. Other methods of payment are subject to the prior approval of the Manager in consultation with the Administrator. No interest will be paid in respect of payments received in circumstances where the application is held until a subsequent Dealing Day.

Settlement for Non-ETF Shares must, unless otherwise agreed with the Manager, be made by the settlement time specified in the relevant Fund Supplement.

Currency of subscriptions

Subscription monies are payable in the currency of denomination of the relevant Share class but may be accepted in a different currencies where agreed in advance with the Manager (see section entitled “*Currency of Payment and Foreign Exchange Transactions*” on page 61).

Failure to settle

If payment in full in cleared funds in respect of a subscription has not been received by the relevant time, the Manager may cancel the allotment and the applicant for Non-ETF Shares shall indemnify the Company for any loss suffered by the Fund as a result of a failure by the applicant to pay the subscription monies by the relevant time. In addition, the Manager will have the right to sell all or part of the applicant's holding of Non-ETF Shares or ETF Shares in the Fund (or in any other Fund) in order to meet some or all of these charges.

Non-ETF Shares – *in specie* subscriptions

Investors may subscribe *in specie* in a Fund (i.e. by the transfer of Investments or predominantly Investments to the Fund) when agreed in advance with the Manager.

The Minimum Subscription Amount for *in specie* subscriptions is the cash equivalent of the Minimum Subscription Amount (net of Duties and Charges), which minimum may be reduced in any case by the Manager in its discretion. Investments delivered in connection with *in specie* subscription requests will be valued in accordance with the provisions of this Prospectus. Shares shall not be issued until the relevant securities, the *in specie* transaction fee and Duties and Charges (if applicable) have been received by the Depositary. All securities received by the Depositary must comply with the investment objective, investment policy and restrictions of the relevant Fund.

The Manager may issue Shares of any class of Fund by way of exchange for Investments provided that:

- (a) in the case of a person who is not an existing Shareholder, no Shares shall be issued until the person concerned has completed and delivered to the Administrator an application form and has satisfied all the requirements of the Manager and the Administrator as to such person's application;
- (b) the nature of the Investments transferred into the Fund are such as would qualify as Investments of such Fund in accordance with the investment objectives, policies and restrictions of such Fund;
- (c) no Shares shall be issued until the Investments shall have been vested in the Depositary or any Sub-custodian to the Depositary's satisfaction and the Depositary shall be satisfied that the terms of such settlement will not be such as are likely to result in any material prejudice to the existing Shareholders of the Fund; and
- (d) the Depositary are satisfied that the terms of any exchange would not be such as would be likely to result in any material prejudice to remaining Shareholders and provided that any such exchange shall be effected upon the terms (including provision for paying any expenses of exchange and any preliminary charge as would have been payable for Shares issued for cash) that the number of Shares issued shall not exceed the number which would have been issued for cash against payment of a sum equal to the value of the Investments concerned calculated in accordance with the procedures for the valuation of the assets of the Fund. Such sum may be increased by such amount as the Manager may consider represents an appropriate provision for Duties and Charges which would have been incurred by the Fund in the acquisition of the Investments by purchase for cash or decreased by such amount as the Manager may consider represents Duties and Charges to be paid to the Fund as a result of the direct acquisition by the Fund of the Investments.

Failure to settle

In the event that an applicant fails to deliver to the Depositary one or more of the Investments to be delivered in connection with the *in specie* subscription request by the designated time, the Company or its delegate may reject the application for subscription, or may require the applicant to pay a fee at least equal to the closing value of such undelivered Investments on the Valuation Date for the relevant Dealing Day. On the payment of such amounts, the relevant Non-ETF Shares will be issued. In the event that the actual cost to

the Company of acquiring the securities (including any Duties and Charges) exceeds the aggregate of the value of such securities on the Valuation Date for the relevant Dealing Day, the *in specie* transaction fee and, if applicable, the Duties and Charges paid by the applicant, the applicant will be required to promptly reimburse the Company the difference on demand. The Company will have the right to sell or redeem all or part of the applicant's holding of Non-ETF Shares or ETF Shares in the Fund (or any other Fund) in order to meet some or all of these charges.

Redemptions

General

Shares may be redeemed on every Dealing Day (save during any period when the calculation of the Net Asset Value is suspended) at the Net Asset Value per Share less any Duties and Charges and less any Redemption Dividend which is payable on the Shares to be redeemed (see the heading entitled "*Redemption Dividend*" below).

Applications for redemptions received by the Administrator for any Dealing Day before the relevant Dealing Deadline will be processed by the Administrator for that Dealing Day by reference to the next calculated Net Asset Value per Share. Any applications received after the Dealing Deadline will normally be held over until the next Dealing Day but may be accepted for dealing on the relevant Dealing Day (at the discretion of the Directors or their delegates) provided that such applications are received prior to the Valuation Point for such Dealing Day.

No redemption will be made until the Shareholder has completed and delivered to the Administrator a redemption request and satisfied all the requirements of the Directors and the Manager as to such Shareholder's redemption request. Redemption requests shall (save as determined by the Manager) be irrevocable and shall be sent by facsimile at the risk of the redeeming Shareholder, with the original to follow promptly. Redemption applications may also be effected by such other means, including electronically, as the Manager may prescribe from time to time where such means have the prior approval of the Central Bank. The Administrator will not make redemption payments to third parties and will not pay redemption proceeds until an original subscription form has been received from the redeeming Shareholder and all anti-money laundering procedures have been completed. Should the Shareholder wish for redemption payments to be made into an account other than that specified in the original subscription form, then the Shareholder must submit an original request in writing to the Administrator prior to, or at the time of, the redemption request. The proceeds of a faxed redemption request received by the Administrator will only be paid to the account of record of the redeeming Shareholder.

Typically, where an investor subscribes for Shares on an *in specie* basis, redemptions will be paid on an *in specie* basis, at the discretion of the Manager, and subject as set out in the next proceeding paragraph.

If a Shareholder (which has originally subscribed for Shares in cash) requests redemption of Shares representing 5% or more of the Net Asset Value of a Fund, the Fund may elect to satisfy that redemption request *in specie* and will, if requested by the redeeming Shareholder(s) (and at the risk and cost of that Shareholder(s)), sell assets at the redeeming Shareholder(s) request.

If total redemption requests for a particular Fund on any Dealing Day represent 10% or more of the Net Asset Value of a Fund, each redemption request in respect of Shares in such Fund may, at the discretion of the Manager, be reduced rateably so that the total number of Shares of such Fund for redemption on that Dealing Day shall not exceed 10% of the Net Asset Value of such Fund. Any part of a redemption request to which effect is not given by reason of the exercise of this power by the Manager shall be treated as if a request had been made in respect of the next Dealing Day and each succeeding Dealing Day (in relation to which the Manager shall have the same power) until the original requests have been satisfied in full.

The redemption price of Shares is based on the Net Asset Value per Share together with any Redemption Dividend, Duties and Charges and Redemption Fee, if any.

In circumstances where the exact provision for Duties and Charges cannot be ascertained in sufficient time in advance of the applicable settlement date for the redemption of the relevant Shares as specified in the relevant Fund Supplement, the Duties and Charges paid in respect of the redemption may be estimated. Following the disposal of Investments by the Company, the redeeming Shareholder shall reimburse the

Company for any shortfall in the estimated sum for Duties and Charges deducted by the Company from the redemption price or, as the case may be, the Company shall reimburse the redeeming Shareholder for any excess in the estimated sum for Duties and Charges deducted by the Company from the redemption price. The Company shall reimburse the redeeming Shareholder for any excess in the estimated sum for Duties and Charges deducted by the Company from the redemption price in a timely manner and no interest shall accrue or be payable by the Company in respect of such excess. The redeeming Shareholder shall reimburse the Company for any shortfall in the estimated sum for Duties and Charges deducted by the Company from the redemption price in a timely manner and the Company may charge the redeeming Shareholder interest or for costs incurred if the applicant fails to reimburse the Company in timely manner.

Where set out in the relevant Fund Supplement, a fixed amount may be charged in respect of Duties and Charges. The maximum level of such amount, which shall be expressed as a percentage of the Net Asset Value of Shares being redeemed, shall be specified in the relevant Fund Supplement but shall not in any case exceed 5% of the Net Asset Value of Shares being redeemed. Following the disposal of Investments by the Fund, any shortfall in the amount charged in respect of Duties and Charges shall be borne by the Fund and any excess in the estimated sum for Duties and Charges shall be retained by the Fund.

In the context of each application for redemption of Shares, the Manager (or its appointed delegate) shall have sole discretion as to whether Duties and Charges are charged as a fixed amount or charged to match the exact cost to the Company of selling the relevant underlying Investments.

The Company may charge a Redemption Fee of up to 3% of the Net Asset Value of the Shares being redeemed which may be waived in whole or in part at the discretion of the Company and/or the Manager (or its appointed delegates).

ETF Shares - cash redemptions

An application for redemption of Shares must be for the Minimum Redemption Amount as specified in the relevant Fund Supplement which shall be specified as either (i) a number of Shares or (ii) a cash amount in respect of which the applicable number of Shares shall at least equate in value to the cash amount specified.

In the event that that the Company has notified all Relevant Stock Exchanges that an affected Fund is open for direct redemptions with the Company by Shareholders other than Authorised Participants, then the Minimum Redemption Amounts listed in the relevant Fund Supplement will not apply.

Any requests for details regarding redemptions should be made in advance of the Dealing Deadline in accordance with any procedures prescribed by the Manager from time to time.

Redemption price

The redemption price of Shares will be the aggregate of (a) the Net Asset Value per Share on the relevant Dealing Day, and (b) if applicable, any Redemption Dividend, less the aggregate of (a) if applicable, any Duties and Charges, and (b) if applicable, a Redemption Fee.

Settlement period

Payment of redemptions will generally be effected by the settlement time specified in the relevant Fund Supplement and will be paid by telegraphic transfer to the appropriate bank account as notified to the Administrator in writing by the redeeming Shareholder.

Currency of redemption payments

Redemption proceeds are payable in the currency of denomination of the relevant Share class but may be made in a different currency where agreed in advance with the Manager see section entitled "*Currency of Payment and Foreign Exchange Transactions*" on page 61). The redeeming Shareholder will bear the cost of any transfer of proceeds by telegraphic transfer.

Directed Transactions

In connection with cash redemptions for ETF Shares, where agreed in advance with the Manager (or its appointed delegate), an Authorised Participant may request that the Company (on behalf of the relevant Fund) enter into a transaction for the sale of the underlying relevant Investments with the Authorised Participant or one or more brokers designated by such Authorised Participant (each, an "**AP Designated**

Broker") and/or in one or more particular markets (each such transaction, a "**Directed Transaction**"). The ability to avail of the Directed Transaction facility shall at any time be at the sole discretion of the Manager (or its appointed delegate).

If any Authorised Participant wishes to avail of the Directed Transaction facility, the Authorised Participant must indicate its preference in the redemption application form. Additionally, Authorised Participants that wish to avail of the Directed Transaction facility are required, prior to the applicable Dealing Deadline (and in accordance with the procedures established by the Manager (or its appointed delegate)), to contact both the Investment Manager and the relevant portfolio trading desk of the AP Designated Broker to arrange the Directed Transaction.

If an application for a cash redemption of ETF Shares is accepted on the basis that a Directed Transaction will be permitted, as part of the Authorised Participant's settlement obligations, the Authorised Participant shall be responsible for ensuring that the AP Designated Broker purchases the relevant underlying Investments from the Company. For the avoidance of doubt, Duties and Charges shall reflect the cost to the Company of disposing of the relevant underlying Investments in connection with a redemption of ETF Shares whether the relevant underlying Investments in connection with the relevant redemption for ETF Shares are sold solely to the AP Designated Broker or some of such Investments are sold to other brokers selected by the Company (for example, where not all of the relevant underlying Investments can be sold to the AP Designated Broker).

The Company, the Manager and the Investment Manager (and their respective delegates) shall not be responsible, and shall have no liability, if the execution of a Directed Transaction with an AP Designated Broker and, by extension, an Authorised Participant's redemption application, is not carried out due to an omission, error, failed or delayed trade or settlement on the part of the Authorised Participant or the AP Designated Broker.

Failure to settle

In the event that (i) in respect of a cash redemption, an Authorised Participant fails to deliver the required number of ETF Shares within the settlement time specified in the relevant Fund Supplement, or (ii) in respect of a cash redemption resulting in a Directed Transaction, an Authorised Participant fails to deliver the required number of ETF Shares within the settlement time specified in the relevant Fund Supplement or the AP Designated Broker fails to purchase from the Company the underlying Investments (or part thereof) within the settlement time prescribed by the Manager (or its appointed delegate), the Company and/or the Manager (or its appointed delegate) reserves the right to cancel the relevant redemption application or postpone the settlement of the relevant redemption application until after such time as (i) in the context of a cash redemption, the Company has received the required number of ETF Shares from the Authorised Participant, or (ii) in the context of a cash redemption resulting in a Directed Transaction, the AP Designated Broker has purchased from the Company the underlying Investments in their entirety.

In the context of a cash redemption resulting in a Directed Transaction, should an AP Designated Broker fail to purchase from the Company the relevant underlying Investments (or part thereof) within the settlement time prescribed by the Manager (or its appointed delegate), the Company and/or the Manager (or its appointed delegate) shall have the right to cancel the Directed Transaction (or relevant part thereof) and transact with one or more alternative brokers and to charge the relevant Authorised Participant for any interest or other costs incurred by the Company relating to the failed Directed Transaction (or relevant part thereof) and any new transactions entered into with alternative brokers.

The Authorised Participant shall indemnify the Company for any loss suffered by the Company as a result of (i) in the context of a cash redemption, any failure or delay by the Authorised Participant in delivering the required number of ETF Shares including, but not limited to, all costs of whatever nature incurred by a Fund in disposing of Investments - including adjusting or unwinding OTC Swaps or Swap Arrangements - in anticipation of receipt, from the Authorised Participant of the required ETF Shares payable in respect of a cash redemption or (ii) in the context of a cash redemption resulting in a Directed Transaction, any failure by an AP Designated Broker to purchase from the Company the relevant underlying Investments (or part thereof) within the settlement time prescribed by the Manager (or its appointed delegate), including, but not limited to, any market exposure, interest charges and other costs of whatever nature suffered by the Company (including, but not limited to, the cost of borrowing and/or the costs associated with cancelling the Directed Transaction (or any relevant part thereof) and entering into new transactions with alternative brokers, each as referred to above). The Authorised Participant will be required to promptly reimburse the

Company on demand. The Company will have the right to sell or redeem all or part of the Authorised Participant's holding of ETF Shares or Non-ETF Shares in the Fund (or in any other Fund) in order to meet some or all of these costs.

ETF Shares –*in specie* redemptions

The minimum number of Shares that may be redeemed *in specie* is equivalent to one Creation Unit. Applications for redemption of Shares *in specie* must be in integer multiples of the relevant Creation Unit.

In the event that the Company has notified all Relevant Stock Exchanges that an affected Fund is open for direct redemptions with the Company by Shareholders other than Authorised Participants, then the foregoing minimum not apply.

Applications for redemptions of Creation Units must be made to the Administrator before the Dealing Deadline in accordance with the specific procedures made available by the Administrator. All applications for redemptions of Creation Units *in specie* will (save as determined by the Manager) be binding and irrevocable. The Administrator must accept the request for redemption of Creation Units prior to any delivery instructions being issued to the Depositary in relation to the securities or cash in the Portfolio Deposit.

Notification of Cash Component, *in specie* transaction fee and Duties and Charges

On the Business Day following the Valuation Date corresponding to the Dealing Day for which receipt is accepted, the Administrator will report to the applicant the amount of the Cash Component to be delivered by the Depositary to the applicant with the Portfolio Deposit and the amounts of the *in specie* transaction fee and Duties and Charges, if any, to be deducted by the Depositary from the redemption proceeds. The Administrator will also identify the portion of such proceeds represented by any Redemption Dividend that is being paid to the redeeming Shareholder.

Redemption price

The redemption price will be the aggregate of (a) the Net Asset Value per Share on the relevant Dealing Day of the Shares comprising the Creation Unit, and (b) if applicable, any Redemption Dividend, less the aggregate of (a) in respect of each Creation Unit, the relevant *in specie* transaction fee which shall not exceed 5% of the Net Asset Value of Shares redeemed (as the same may be waived or lowered by the Manager either generally or in any particular case), (b) if applicable, any Duties and Charges, and (c) if applicable, a Redemption Fee.

The redemption price per Creation Unit will be payable by transferring to the order of the Company the Portfolio Deposit, less a cash amount equal to the relevant *in specie* transaction fee and any applicable Duties and Charges and any applicable Redemption Fee.

Settlement period

The standard settlement period for *in specie* redemptions is two Business Days following the Dealing Day on which the application for redemption is accepted but may vary depending upon the standard settlement periods of the different stock exchanges on which the Shares are traded and the securities in the Portfolio Deposit. Notwithstanding the foregoing the settlement period for payment of *in specie* redemption proceeds should not exceed ten Business Days. Any cash to be paid in respect of an *in specie* redemption will be for value on the same day as settlement of the securities.

Partial cash settlement

The Company may, in its absolute discretion, satisfy part of the application for *in specie* redemption in cash, for example in cases in which it believes that a security held by a Fund is unavailable for delivery or where it believes that an insufficient amount of that security is held for delivery to the applicant for redemption in specie.

Redemption Dividend

The Company may pay a Redemption Dividend on any Shares which are the subject of a valid redemption request. The Redemption Dividend will reflect accrued income in the Net Asset Value of the Shares concerned, will become due immediately prior to the redemption of the Shares and paid to the Shareholder on the same day as the redemption proceeds.

Failure to settle

In the event that an Authorised Participant fails to deliver to the Depositary such number of Shares that at least equates in value to the Minimum Redemption Amount by the designated time, the Manager may cancel the request for redemption and the Authorised Participant shall indemnify the Company for any loss suffered by the Fund as a result of a failure by the Authorised Participant to deliver the Shares by the relevant time. The Company will have the right to sell or redeem all or part of the Authorised Participant's holding of ETF Shares or Non-ETF Shares in the Fund (or in any other Fund) in order to meet some or all of these charges.

Non-ETF Shares - cash redemptions

An application for redemption of Shares must be for the Minimum Redemption Amount as specified in the relevant Fund Supplement which shall be specified as either (i) a number of Shares or (ii) a cash amount in respect of which the applicable number of Shares shall at least equate in value to the cash amount specified.

Any requests for details regarding redemptions should be made in advance of the Dealing Deadline in accordance with any procedures prescribed by the Manager from time to time.

Redemption price

The redemption price of Shares will be the aggregate of (a) the Net Asset Value per Share on the relevant Dealing Day, and (b) if applicable, any Redemption Dividend, less the aggregate of (a) if applicable, any Duties and Charges, and (b) if applicable, a Redemption Fee.

Settlement period

Payment of redemptions will generally be effected by the settlement time specified in the relevant Fund Supplement and will be paid by telegraphic transfer to the appropriate bank account as notified to the Administrator in writing by the redeeming Shareholder.

Currency of redemption

Redemption monies are payable in the currency of denomination of the relevant Share class but may be paid in a different currency where agreed in advance with the Manager (see section entitled "*Currency of Payment and Foreign Exchange Transactions*" on page 61).

Failure to settle

If such number of Shares that at least equates in value to the Minimum Redemption Amount has not been received by the relevant time, the Manager may cancel the request for redemption and the applicant for Non-ETF Shares shall indemnify the Company for any loss suffered by the Fund as a result of a failure by the applicant to deliver the Shares by the relevant time. In addition, the Manager will have the right to sell all or part of the applicant's holding of Non-ETF Shares or ETF Shares in the Fund (or in any other Fund) in order to meet some or all of these charges.

Non-ETF Shares – *in specie* redemptions

The Manager may, at its discretion, redeem Non-ETF Shares of any class of a Fund by way of exchange for Investments provided that:

- (a) the redemption request otherwise satisfies all the requirements of the Manager and the Administrator as to such request and the Shareholder seeking redemption of Non-ETF Shares agrees to such course of action; and
- (b) the Depositary and the Manager are satisfied that the terms of any exchange would not be such as would be likely to result in any prejudice to the remaining Shareholders, and elects that instead of the Non-ETF Shares being redeemed in cash, the redemption shall be satisfied in specie by the transfer to the Shareholder of Investments provided that the value thereof shall not exceed the amount which otherwise would have been payable on a cash redemption and provided that the transfer of Investments is approved by the Depositary. Such value may be reduced by such amount as the Manager may consider represents any Duties and Charges to be paid to the Fund as a result of the direct transfer by the Fund of the Investments or increased by such amount as the Manager may consider represents any appropriate provision for Duties and Charges which would have been incurred by the Fund in the disposition of the Investments to be transferred. The shortfall (if any) between the value of the Investments transferred on a redemption in specie and the redemption proceeds which

would have been payable on a cash redemption shall be satisfied in cash. Any decline in the value of the Investments to be transferred in settlement of a redemption between the relevant Dealing Day and the day on which Investments are delivered to the redeeming Shareholder shall be borne by the redeeming Shareholder.

If the discretion conferred upon the Manager above is exercised, the Manager shall notify the Depositary and shall supply to the Depositary particulars of the Investments to be transferred and any amount of cash to be paid to the Shareholder. All Duties and Charges in respect of such transfers shall be payable by the Shareholder. Any allocation of Investments pursuant to an in specie redemption is subject to the approval of the Depositary.

Failure to settle

If such number of Shares that at least equates in value to the Minimum Redemption Amount has not been received by the relevant time, the Manager may cancel the request for redemption and the applicant for Non-ETF Shares shall indemnify the Company for any loss suffered by the Fund as a result of a failure by the applicant to deliver the Shares by the relevant time. In addition, the Manager will have the right to sell all or part of the applicant's holding of Non-ETF Shares or ETF Shares in the Fund (or in any other Fund) in order to meet some or all of these charges.

Currency of Payment and Foreign Exchange Transactions

Where payments in respect of subscriptions or redemptions of Shares are tendered or requested in a major currency other than the currency of denomination of the relevant Share class of the relevant Fund, any necessary foreign exchange transactions may be arranged by the Manager (at its discretion) for the account of, and at the risk and expense of, the applicant, in the case of subscriptions at the time cleared funds are received and in the case of redemptions at the time the request for redemption is received and accepted. The Manager may arrange for such transactions to be carried out by an affiliate of the Administrator or Investment Manager.

Transfer of Shares

ETF Shares

ETF Shares are (save as hereinafter specified) freely transferable subject to and in accordance with the rules of the relevant Recognised Clearing and Settlement System. The Company may decline to register any transfer of an ETF Share to a person who is not a Qualified Holder. The Constitution permits the holding and transfer of Shares in Dematerialised Form and the Company will apply for the ETF Shares to be admitted as participating securities to relevant computer based Recognised Clearing and Settlement Systems. This will enable investors to hold ETF Shares in, and to settle transactions in ETF Shares through such Settlement Systems. Applicants dealing in Settlement Systems may be required by the Manager to provide a representation that they are Qualified Holders.

As further described in the section entitled "*Compulsory Redemption*", the Company may redeem Shares on notice in writing to a Shareholder in circumstances where it, either alone or in conjunction with any other person becomes aware that any Shares are or might be held by a person who is not a Qualified Holder.

Non-ETF Shares

Non-ETF Shares may not be transferred unless the proposed transferee has completed an application form and has provided such other information (e.g. as to identity) as the Manager may reasonably require. The Manager may decline to register any transfer of a Non-ETF Share where it appears that such transfer would be likely to result in the legal or beneficial ownership of such Share by a person who is not a Qualified Holder or expose the Company or Fund to adverse tax or regulatory consequences.

As further described in the section entitled "*Compulsory Redemption*", the Company may redeem Shares on notice in writing to a Shareholder in circumstances where it, either alone or in conjunction with any other person becomes aware that any Shares are or might be held by a person who is not a Qualified Holder.

Dealing ETF Shares in the Secondary Market

As the Directors intend that each Fund of the Company will be an exchange-traded fund, ETF Shares of Funds will be listed on one or more Relevant Stock Exchanges and this will facilitate the secondary market trading in the ETF Shares. Secondary market sales of ETF Shares or purchases of ETF Shares will be conducted in accordance with the normal rules and operating procedures of the Relevant Stock Exchange(s) and Recognised Clearing and Settlement Systems and will be settled using the normal procedures applicable to trading securities. The purpose of the listing of ETF Shares on the secondary market is to enable investors to buy ETF Shares in smaller quantities than would be possible through the primary market. Upon such listings there is an expectation that Market Makers will provide offer and bid prices at which the ETF Shares can be purchased or sold, respectively, by investors. The bid/offer spread is typically monitored by the Relevant Stock Exchange(s). Authorised Participants may act as Market Makers or may offer ETF Shares to retail customers as part of their broker/dealer business. Through this mechanism it is expected that a liquid and efficient secondary market will develop over time on one or more stock exchange(s) as they meet retail demand for such Shares.

Through the operation of such a secondary market, persons other than Authorised Participants will be able to buy/trade in Shares with other retail investors or Market Makers, broker/dealers, or other Authorised Participants at prices which should approximate, after currency conversion, the Net Asset Value of the ETF Shares. As the purchase and sale of ETF Shares on the secondary market takes place through a Relevant Stock Exchange via a member firm or stockbroker and is not a subscription of ETF Shares directly with the Company, investors should note that, whilst the Company does not charge any Subscription Fees for such purchases, such orders may incur costs (i.e. stockbroker fees and commissions) over which the Company has no control. The price of any ETF Shares traded on the secondary market will depend, *inter alia*, on market supply and demand, movements in the value of the constituents of the relevant Index as well as other factors such as prevailing financial market, corporate, economic and political conditions. In accordance with the requirements of the Relevant Stock Exchanges, Market Makers are expected to provide liquidity and two-way prices to facilitate the secondary market trading of the ETF Shares. Investors should be aware that on days other than Business Days or Dealing Days of a Fund when one or more Regulated Markets are trading ETF Shares but the underlying Regulated Market on which the securities comprising the Index are traded are closed, the spread between the quoted bid and offer prices in the ETF Shares may widen and the difference between the market price of an ETF Share and the last calculated Net Asset Value per Share may, after currency conversion, increase. The settlement of trades in ETF Shares on a stock exchange will be through the facilities of one or more Recognised Clearing and Settlement Systems following applicable procedures which are available from the stock exchange. Investors should also be aware that on such days the underlying Index value would not necessarily be calculated and available for investors in making their investment decisions because prices of certain securities in the underlying Regulated Market and which are comprised in the Index would not be available on such days. Nonetheless, one or more stock exchanges may provide a calculation of such Index based upon trading, if any, of such securities comprised in the Index on marketplaces other than the underlying Regulated Market.

Direct redemptions of ETF Shares by Shareholders other than Authorised Participants

ETF Shares purchased on the secondary market cannot usually be sold directly back to the Company. Investors must buy and sell ETF Shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. Investors may pay more than the then current Net Asset Value per Share when buying ETF Shares on the secondary market and may receive less than the then current Net Asset Value per Share when selling ETF Shares on the secondary market.

However, in circumstances where the stock exchange value of ETF Shares significantly varies from their Net Asset Value such as, for example, circumstances where (i) there are no market makers quoting bid/offer prices for an ETF Share class on a Relevant Stock Exchange; or (ii) where the bid/offer spreads quoted on a Relevant Stock Exchange are consistently wider than the limits set by such Relevant Stock Exchange, Shareholders (i.e. those investors in the affected ETF Share class who appear on the Company's register of Shareholders) who have acquired their ETF Shares on the secondary market will be permitted to redeem their shareholding in the relevant ETF Shares directly with the Company.

Where either of the above circumstances arises, the Company will arrange for an appropriate notification to be communicated to all Relevant Stock Exchanges (the "**Notification**") indicating that, in addition to Authorised Participants, ETF Shares in the affected Fund may be redeemed directly with the Company by

other Shareholders of the affected ETF Share class, provided that such other Shareholders appear on the Company's register of Shareholders as being holders of the ETF Shares in respect of which redemption is sought. The Notification will contain full details in respect of (i) the relevant redemption fee that will be payable (which will not be excessive), (ii) the relevant anti-money laundering requirements prescribed by the Administrator (iii) any account opening information that the Administrator will require in order to process the redemption, including details of the relevant Shareholder's participation in a Recognised Clearing and Settlement System, (iv) the relevant contact details for the Administrator through which Shareholders can request the relevant redemption form together with such other details as deemed necessary by the Manager in order to facilitate direct redemptions. Once the relevant circumstances affecting the ETF Share class are no longer continuing, the Company will arrange for a further notification to be communicated to all Relevant Stock Exchanges indicating that ETF Shares in the Fund can no longer be redeemed directly with the Company other than by Authorised Participants.

ETF Shares may be redeemed on every Dealing Day during any period in which ETF Shares in a Fund may be redeemed directly with the Company in the manner described above. Any ETF Shares so redeemed shall be redeemed at the Net Asset Value per Share next calculated after the daily deadline for receipt of redemption forms specified in the Notification, less any associated Duties and Charges (and any Redemption Dividend) which is (are) payable on the ETF Shares so redeemed as specified in this Prospectus and less the relevant redemption fee stated in the Notification. Redemption requests from Shareholders must be received by the daily deadline for receipt of redemption forms specified in the Notification. Any redemption requests received after this time will be held over until the next Dealing Day.

Only Shareholders listed on the Company's register of Shareholders as being holders of the ETF Shares to be redeemed may submit redemption requests to the Company. Beneficial owners of ETF Shares that are held through nominee/intermediary accounts will need to liaise with their nominee/intermediary (e.g. stockbroker) in order to request that a redemption of the ETF Shares attributable to their investment holding be effected directly with the Company on their behalf. Any such nominee/intermediary may charge fees and expenses for arranging such a redemption which are outside the control of the Company.

The Administrator will not pay redemption proceeds to any Shareholder until (i) a valid redemption form has been received in the form prescribed by the Administrator (ii) all anti-money laundering and client identification requirements prescribed by the Administrator have been satisfied by the Shareholder (iii) all account opening documentation and procedures have been validly completed, including the provision of details of the relevant Shareholder's participation in a Recognised Clearing and Settlement System and (iv) settlement of the delivery of the Shares by the relevant Shareholder has occurred in the relevant Recognised Clearing and Settlement System. The redeeming investor will rank as an unsecured creditor of the Company in respect of the redemption proceeds during the period between the redemption of Shares and payment of redemption proceeds. Please refer to the section entitled '*Collection Account Risk*' on page 85.

Temporary Suspensions

The Directors may, subject to the rules of any relevant Recognised Clearing and Settlement System, and/or the rules of a relevant exchange, declare a temporary suspension of the determination of the Net Asset Value of any particular class, and of the issue and redemption of any particular class, of Shares:

- i. during the whole or any part of any period when any of the principal markets on which any significant portion of the constituents of the Index relating to the relevant Fund or the Investments of the relevant Fund, as the case may be, from time to time are quoted, listed, traded or dealt in, or when the foreign exchange markets corresponding to the Base Currency of the Fund or the currency in which a considerable portion of the constituents of the Index relating to the relevant Fund or the Fund's Investments (as the case may be) are denominated, is closed (otherwise than for customary weekend or ordinary holidays) or during which dealings therein are restricted or suspended or trading on any relevant futures exchange or market is restricted or suspended;
- ii. during the whole or any part of any period when, as a result of political, economic, military or monetary events or any other circumstances outside the control, responsibility and power of the Directors, any disposal or valuation of Investments of the relevant Fund is not, in the opinion of the Directors, reasonably practicable without this being detrimental to the interests of owners of Shares in general or the owners of Shares of the relevant Fund or if, in the opinion of the Directors, the Net

Asset Value cannot fairly be calculated or such disposal would be materially prejudicial to the owners of Shares in general or the owners of Shares of the relevant Fund;

- iii. during the whole or any part of any period during which any breakdown occurs in the means of communication normally employed in determining the value of any of the Investments of the Company or when for any other reason the value of any of the Investments or other assets of the relevant Fund cannot reasonably or fairly be ascertained;
- iv. during the whole or any part of any period when the Company is unable to repatriate funds required for the purpose of making redemption payments or when such payments cannot, in the opinion of the Directors, be effected at normal prices or normal rates of exchange or during which there are difficulties or it is envisaged that there will be difficulties, in the transfer of monies or assets required for subscriptions, redemptions or trading;
- v. at the discretion of the Directors in circumstances where the Directors consider such a suspension to be in the best interest of the Company, or the Fund or the Shareholders of the Fund as a whole;
- vi. upon the publication of a notice convening a general meeting of Shareholders for the purpose of resolving to wind up the Company or terminate any Fund;
- vii. when dealings of the Shares on any Relevant Stock Exchange are listed are restricted or suspended;
- viii. when settlement or clearing of securities in a Recognised Clearing and Settlement System is disrupted;
- ix. any period when the dealing of Shares is suspended pursuant to any order or direction issued by a relevant regulatory authority; or
- x. any period when an Index is not compiled or published.

Notice of the beginning and end of any period of suspension will be communicated immediately (and in any event during the Business Days on which the suspension takes place/ends) to the Central Bank and Relevant Stock Exchanges and, to the extent required by the law or practices of the country concerned, to any other competent authority in a Member State or other country in which Shares are registered for marketing. Such notice shall also be published in such publication(s) as the Board of Directors may determine and, in any event, shall be communicated through the media by which Share prices are published.

Notice will likewise be given to any person applying to subscribe or redeem Shares in the Fund(s) concerned. Any applications for Shares received during any period of suspension will normally be held over until the next Dealing Day.

The Company, where possible, will take all necessary steps to bring any period of suspension to an end as soon as possible.

If total requests for redemption on any Dealing Day for any Fund represent 10% or more of the Net Asset Value of that Fund, each redemption request in respect of Shares in such Fund may, at the discretion of the Manager, be reduced rateably so that the total number of Shares of such Fund for redemption on that Dealing Day shall not exceed 10% of the Net Asset Value of such Fund. Any part of a redemption request to which effect is not given by reason of the exercise of this power by the Manager shall be treated as if a request had been made in respect of the next Dealing Day and each succeeding Dealing Day (in relation to which the Manager shall have the same power) until the original requests have been satisfied in full.

FEES AND EXPENSES

General

All fees and expenses relating to the establishment of any new Fund of the Company (including listing costs) and the fees of the advisers to the Company will be borne by the Manager.

The Company will pay out of the assets of each Fund a fixed total expense ratio (“**TER**”) (together with any applicable value added tax), which will be accrued daily and paid monthly in arrears. The Manager, the Auditors and the Directors will be paid out of the TER (which fees will be accrued daily and paid monthly in arrears). The Manager’s fee will be the difference between the TER and the fees and expenses payable to the Auditors and the Directors.

The TER of each of the current Funds is detailed in the relevant Fund Supplement.

The Manager will, out of the fee received by it from the Company, pay the following ongoing administrative costs of the Company:

- (i) the Manager’s out-of-pocket expenses;
- (ii) any fees (and, where agreed, out of pocket expenses) of the Investment Manager, Administrator, Depositary, Registrar, Sponsor, Distributor and other service providers of the Company;
- (iii) any fees in respect of circulating details of the Net Asset Value (including publishing prices) and Net Asset Value per Share;
- (iv) rating fees (if any);
- (v) licensing fees (including those for the use of an Index);
- (vi) fees and expenses of the tax, legal and other professional advisers of the Company;
- (vii) the Central Bank’s industry funding levy, any other Central Bank fees or charges, statutory fees and the Companies Registration Office filing fees;
- (viii) fees connected with listing of Shares on any stock exchange;
- (ix) costs of publication of the intra-day portfolio value (if any);
- (x) fees and expenses in connection with the provision of registrar and transfer agency services to the Company including, from or within CREST or any other system for the registration and transfer of dematerialised securities;
- (xi) fees and expenses in connection with the distribution of Shares and/or costs of registration of the Company in jurisdictions outside Ireland (including translation fees);
- (xii) costs of preparing, translating, printing and distributing the Prospectus, reports, accounts and any explanatory memoranda including expenses associated with the issue of such documents;
- (xiii) any costs incurred as a result of periodic updates of the Prospectus, or of a change in law or the introduction of any new law (including any costs incurred as a result of compliance with any applicable code, whether or not having the force of law);
- (xiv) any other fees and expenses relating to the management and administration of the Company or attributable to Investments (other than those expenses noted at (a), (b) and (c), below);
- (xv) expenses of Directors’ insurance premia and expenses of Shareholders’ meetings;
- (xvi) in respect of each financial year of the Company in which expenses are being determined, such proportion (if any) of the establishment and reconstruction expenses as are being amortised in that year; and
- (xvii) taxes and contingent liabilities as determined from time to time by the Directors.

The Company will also pay out of the assets of each Fund:

- (a) brokerage or other expenses of acquiring and disposing of Investments including any periodic fee payable to a counterparty under the terms of the relevant OTC Swap and any custodial transaction charges charged by the Depositary;
- (b) extraordinary expenses (i.e. those unforeseen expenses arising other than in the ordinary course of business of the Company and which fall outside of the general expenses noted at (i) – (xvii) above); and
- (c) Duties and Charges (if any) in respect of a subscription or a redemption may also be charged.

Subscription Fees and Redemption Fees

A Subscription Fee of up to 5% of the Net Asset Value of the amount of Shares subscribed for and a Redemption Fee of up to 3% of the Net Asset Value of the Shares being redeemed may be charged in respect of the Funds (subject to the discretion of the Manager to waive such fees in whole or in part).

Investors may apply for Shares through financial intermediaries who may impose transaction or administrative charges or other direct fees, which charges or fees would not be imposed if Shares were purchased directly from the Company. Such investors should contact their financial intermediaries for more information.

USE OF PROCEEDS

The proceeds of a subscription received from an investor into a Fund will be used, unless otherwise stated, in order to seek to achieve that Fund's investment objective.

RISK FACTORS

Potential investors should consider the following risk factors before investing in the Company.

An investment in the Shares involves a degree of risk. Accordingly, prospective investors should carefully consider the specific risk factors set out below in addition to the other information contained in this Prospectus or in the relevant Fund Supplement before investing in any Shares. The Directors currently consider the following risks to be material for potential investors in the Company. There may be additional risks of which the Directors are not currently aware and so the risks described in this Prospectus and/or in the relevant Fund Supplement should not be considered to be an exhaustive list of the risks which potential investors should consider before investing in a Fund.

There is no guarantee that any Fund's investment objective will be achieved.

Risk Factors relating to Shares

Limited operating history

Newly formed Funds have little or no operating history upon which investors can evaluate the anticipated performance. Past investment performance should not be construed as an indication of the future results of an investment in a Fund. The investment programme of a Fund should be evaluated on the basis that there can be no assurance that the Investment Manager's assessments of the short-term or long-term prospects of investments, will prove accurate or that the Fund will achieve its investment objective.

Segregated liability

The Company is structured as an umbrella fund with segregated liability between its Funds. As a matter of Irish law, the assets of one Fund will not be available to meet the liabilities of another (a provision which also applies in insolvency and is also generally binding upon creditors). Furthermore, and by operation of Irish law, any contract entered into by the Company in respect of a Fund (or Funds) shall include an implied term to the effect that recourse by the contract counterparty may not be had to assets of Funds other than the Fund or Funds in respect of which the contract was entered into. The index-based OTC Swaps which Funds will enter into from time to time will also contain express provisions entrenching such Irish law segregated liability principle. It is expected that English courts (where English law is the law governing such index-based OTC Swaps) will give effect to such principle and/or such express provisions.

The Company is a single legal entity that may operate or have assets held on its behalf or be subject to claims in other jurisdictions that may not necessarily recognise such segregation and so, in the event an action to enforce a debt or liability of a Fund was brought against the Company in a venue other than Ireland, there remains a risk that a creditor may seek to seize or attach assets of one Fund in satisfaction of a debt or liability owed by another Fund and the jurisdiction in which the claim is being heard may not recognise the principle of segregated liability between Funds.

Suspension risks

The Company may suspend calculation of the Net Asset Value and the subscription and redemption of Shares of one or more Funds under certain circumstances (see under the heading "*Temporary Suspensions*" in this Prospectus). During such suspension it may be difficult for Shareholders to buy or sell ETF Shares on the secondary market and the secondary market price may not reflect the Net Asset Value per Share. In the event that the Company has to suspend the subscription and/or redemption of Shares of a Fund, or if a stock exchange on which a Fund's underlying investments are traded is closed, it is expected that larger discounts or premiums could arise.

The Net Asset Value per Share will fluctuate with changes in the market value of the Fund's holdings, and with changes in the exchange rate between the currency in which the Fund's holdings are denominated and the Base Currency of the Fund. Shareholders are reminded that, even though the Net Asset Value per Share may be converted and reported in a currency denomination other than the Base Currency, there is no assurance that such converted amount can actually be achieved. Depending on a Shareholder's currency of reference, currency fluctuations may adversely affect the value of an investment in a Fund.

Loss or suspension of listing of ETF Shares

Trading in ETF Shares on a stock exchange may be halted or suspended due to market conditions or for the reason that, in the stock exchange's view, trading in the ETF Shares is inadvisable, or otherwise, pursuant to the stock exchange's rules. If trading on a stock exchange is halted, investors in ETF Shares may not be able to sell their ETF Shares until trading resumes.

Secondary market trading of ETF Shares

Even though the ETF Shares are listed on one or more stock exchanges, there can be no certainty that there will be liquidity in the ETF Shares on any stock exchange or that the market price at which the ETF Shares may be traded on a stock exchange will be the same as or approximately equal to the Net Asset Value per Share. There can be no guarantee that once the ETF Shares are listed on a stock exchange they will remain listed or that the conditions of listing will not change.

The following factors may result in a fluctuation of the secondary market price of ETF Shares: (a) changes in the Net Asset Value per Share, (b) changes in the exchange rate between the currency(ies) in which the Fund's holdings are denominated and the currency of the relevant ETF Share class or currency in which the ETF Shares are listed and traded, (c) supply and demand factors on the stock exchange on which the ETF Shares are traded and (d) the unavailability of Market Makers. The Company cannot predict whether the ETF Shares will trade below, at, or above their Net Asset Value per Share (when converted to the currency in which the ETF Shares are traded). Price differences may be due, in large part, to the fact that supply and demand forces in the secondary market for a Fund's ETF Shares may not be closely related to the same forces influencing the prices of the component securities of that Fund's Index trading individually or in the aggregate at any point in time.

The market price of the Shares of a Fund will fluctuate in accordance with changes in its Net Asset Value and supply and demand on the relevant stock exchange. There can be no assurance as to the depth of the secondary market (if any) in ETF Shares, which will affect their liquidity and market price. There is no guarantee that the ETF Shares of a Fund will trade at their Net Asset Value. As the ETF Shares of any class of a Fund may be dealt in by means of subscription and redemption, the Directors believe that large discounts or premiums to the Net Asset Value of a Fund should not be sustainable. While the creation/redemption feature is designed to make it likely that ETF Shares will trade closely to their Net Asset Value, disruptions to creations and redemptions may result in trading prices that differ significantly from the Net Asset Value.

The Net Asset Value per Share and the secondary market price of ETF Shares are expected to track each other through arbitrage. An Authorised Participant, Market Maker or other professional investor, in calculating the price at which it would be willing to sell the ETF Shares of a Fund on the secondary market (the offer price) or to buy such ETF Shares (the bid price), will take account of the notional price at which it could purchase (when selling Shares), or sell (when buying Shares), the requisite amounts of component securities of the Index in respect of one or more Creation Unit(s) including Duties and Charges (if applicable). Where a Fund tracks or replicates an Index through the purchase of component securities, rather than through OTC Swaps, the notional price of purchasing the component securities of the Index corresponding to a subscription for a Creation Unit may be less, or the notional price of selling component securities of the Index corresponding to a redemption of a Creation Unit may be more, than the secondary market price of ETF Shares in a Creation Unit. In such circumstances an Authorised Participant may choose to arbitrage the Fund by subscribing for or redeeming Creation Units. The Directors believe such arbitrage will help to ensure the price per ETF Share closely follows the Net Asset Value per Share.

Nominee arrangements for ETF Shares

Investors may purchase ETF Shares in a Fund through a broker, Market Maker / Authorised Participant or a nominee or may hold ETF Shares in a Fund through clearing agents. In such circumstances, the investor may not be entered as a Shareholder or appear on the Company's register of Shareholders. Where an investor does not appear on the Company's register of Shareholders, such investor will not have rights exercisable by Shareholders, such as voting rights or rights to participate at meetings of the Company or of a Fund.

Compliance with FATCA and the CRS

The Hiring Incentives to Restore Employment Act (the “**Hire Act**”) was signed into US law in March 2010. It includes provisions generally known as Foreign Account Tax Compliance Act (“**FATCA**”). The intention of these is that details of US investors holding assets outside the US will be reported by financial institutions to the US Internal Revenue Service (“**IRS**”), as a safeguard against US tax evasion. As a result of FATCA, and to discourage non-US financial institutions from staying outside this regime, all US securities held by a financial institution that does not enter and comply with the regime will be subject to a US tax withholding of 30% on gross sales proceeds as well as income (a “**FATCA Deduction**”). This regime is generally effective from 1 July 2014 although implementation of withholding on gross sales proceeds has been postponed to 1 January 2019. The basic terms of FATCA appear to include the Company as a ‘Financial Institution’, such that in order to comply, the Company may require all Shareholders to provide mandatory documentary evidence of their tax residence/citizenship.

Ireland has entered into an intergovernmental agreement (an “**IGA**”) with the United States (the “**Ireland IGA**”) (which seeks to implement the requirements of FATCA) and adopted legislation implementing the Ireland IGA which requires the Company to annually report the information to the Irish Revenue Commissioners rather than directly to the IRS. Under the relevant Irish legislation, the Company may be subject to financial penalties or other sanctions unless it complies with the requirements of the Ireland IGA and legislation enacted in Ireland to implement the Ireland IGA.

It should be noted that a number of other jurisdictions have entered into or are committed to entering into IGAs for the automatic cross-border exchange of tax information similar to the Ireland IGA, including, in particular, under a regime known as the Common Reporting Standard (“**CRS**”), developed by the Organisation for Economic Co-operation and Development (“**OECD**”). The CRS has been effective in Ireland from 1 January 2016.

Collection and exchange of information under the CRS

For the purposes of complying with its obligations under the CRS as implemented in Irish law and to avoid the imposition of financial penalties thereunder, the Company is required to collect certain information in respect of each non-Irish resident Shareholder (and the direct and indirect individual beneficial owners of the Shares (if any)) and, to the extent required pursuant to the CRS, to annually report such information to the Irish Revenue Commissioners. Such information includes the name, address, jurisdiction of residence, tax identification number (TIN), date and place of birth (as appropriate) of the non-Irish resident Shareholder and (if relevant) the direct or indirect beneficial owners of the Shares; the “account number” and the “account balance” or value at the end of each calendar year; and the gross amount paid or credited to the Shareholder during the calendar year (including aggregate redemption payments). Such information in relation to all non-Irish resident Shareholders will in turn be exchanged, in a secure manner, by the Irish Revenue Commissioners with the tax authorities of other relevant participating jurisdictions under the CRS in accordance with the requirements of (and solely for the purposes of compliance with) the CRS.

Any person who wishes to make a related complaint may submit such complaint to the UK Facilities Agent for transmission to the Manager. Further information in relation to the CRS can be found on the AEOI (Automatic Exchange of Information) webpage on <https://www.revenue.ie/en/companies-and-charities/international-tax/aeoi/what-is-aeoi.aspx>.

While the Company will seek to satisfy its obligations under FATCA, the Irish IGA, the CRS and the associated implementing legislation in Ireland to avoid the imposition of any FATCA Deduction, financial penalties and other sanctions, the ability of the Company to satisfy such obligations may depend on receiving relevant information and/or documentation about each Shareholder and the direct and indirect beneficial owners of the Shares (if any). There can be no assurance that the Company will be able to satisfy such obligations. There is therefore a risk that the Company may be subject to one or more FATCA Deductions, financial penalties and other sanctions, any of which may have a material adverse effect on the Net Asset Value and hence on the Net Asset Value per Share.

All prospective investors and Shareholders should consult with their respective tax advisers regarding the possible implications of FATCA, the Irish IGA and the CRS on their investments in the Company. For further information, please refer to the section entitled “**TAXATION – Irish Taxation - FATCA and the CRS**” below.

Taxation risks

The tax information provided in the "*Taxation*" section is based, to the best knowledge of the Company, upon tax law and practice as at the date of the Prospectus. Tax legislation, the tax status of the Funds, the taxation of investors and any tax reliefs, and the consequences of such tax status, taxation and tax reliefs, may change from time to time. Any change in the taxation legislation in Ireland or in any jurisdiction where a Fund is registered, cross-listed, marketed or invested could affect the tax status of the Fund, affect the value of the Fund's investments in the affected jurisdiction, affect the Fund's ability to achieve its investment objective, and/or alter the post-tax returns to investors. Where a Fund invests in FDIs, this may also be the case where there is a change in the taxation legislation of the jurisdiction the laws of which govern the FDI contract and/or the jurisdiction in which the FDI counterparty is based and/or of the market(s) comprising the underlying exposure(s) of the FDI.

The availability and value of any tax reliefs available to investors depends on the individual circumstances of the relevant investor.

Where a Fund invests in a jurisdiction where the tax regime is not fully developed or is not sufficiently certain - for example, jurisdictions in the Middle East and China - the Manager, the Company, the Investment Manager/Sub-Investment Manager, the Administrator and the Depositary shall not be liable to account to any investor for any payment made or suffered by such Fund in good faith to a fiscal authority for taxes or other charges of the Fund notwithstanding that it is later found that such payments need not or ought not have been made or suffered. Conversely, where through fundamental uncertainty as to the tax liability, adherence to best or common market practice that is subsequently challenged or lack of a developed mechanism for practical and timely payment of taxes, a Fund is required to pay taxes relating to prior years, any related interest or late filing penalties will be chargeable to the Fund. Such late paid taxes will normally be debited to the relevant Fund at the point the decision to accrue the liability in the Fund accounts is made. Investors should be aware that they may be required to pay income tax, withholding tax, capital gains tax, wealth tax, stamp duties or any other kind of tax on distributions or deemed distributions of the Fund(s) in which they are invested, capital gains within such Fund, whether or not realised, etc., and this will be according to the laws and practices of the country where the relevant Shares are purchased, sold, held or redeemed and in the country of residence or nationality or domicile of the investor.

Investors should be aware that they may also have to pay taxes on income or deemed income received by or accrued within a Fund. Taxes may be calculated based on income received and/or deemed to be received and/or accrued in a Fund in relation to the relevant Fund's Investments, whereas the performance of the Fund, and subsequently the return investors receive after redemption of the Shares, may partially or fully depend on the performance of the underlying Investments. This can have the effect that the investor has to pay taxes for income and/or a performance which he does not, or does not fully, receive or benefit from.

Investors and prospective investors are urged to consult their own tax advisors in determining the possible tax consequences to them under the laws of the jurisdictions in which they are citizens, residents or domiciliaries and in which they conduct business. In addition, investors should be aware that tax regulations and legislation and their application and interpretation by the relevant taxation authorities may change from time to time, retroactively as well as prospectively. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time. Other legislation could be enacted that would subject a Fund to additional taxes or subject investors to increased taxes. Any change in the Company's tax status or in taxation legislation could affect the value of the investments held by the Company and affect the Company's ability to provide the investor returns.

Investors and potential investors should note that the statements on taxation which are set out in this Prospectus and in any country supplement issued by the Company in the context of the foreign registration of a Fund are based on advice which has been received by the Directors regarding the law and practice in force in the relevant jurisdiction as at the date of the Prospectus and any relevant country supplement. As is the case with any investment, there can be no guarantee that the tax position or proposed tax position prevailing at the time an investment is made in the Company will endure indefinitely.

The foregoing does not purport to be a complete listing of all potential tax risks inherent in purchasing or holding Shares of a Fund.

The section of this Prospectus entitled "*Taxation*" is not a full description or analysis of the complex tax rules and considerations affecting the investors, each Fund, and each Fund's proposed operations and is based upon existing laws, judicial decisions and administrative regulations, rulings and practices as at the date of this Prospectus, all of which are subject to change. The information set out in the "*Taxation*" section of this Prospectus does not constitute and should not be considered as tax advice to investors or prospective investors.

Index tracking-related risks

General

No asset or financial instrument will allow automatic and continuous tracking of an Index. In addition, any re-weighting of an Index may result in transaction and/or other costs. Likewise, a Fund may not be able to effectively track the performance of an Index because of the temporary unavailability of certain constituents of the Index or because of exceptional circumstances triggering distortions in the weightings of the Index, especially if trading in certain constituents of the Index is suspended or interrupted temporarily.

An Index is generally constituted by an Index Provider pursuant to the Index Provider's own criteria or methodologies. The methodology of an Index may account for fees and may provide limited discretions to the Index Provider. Certain methodologies are designed to obtain an optimum return from an Index at a specific point in time and this may result in a limited increase in value of the Index. In addition, features designed by an Index Provider to provide protection in a depressed or falling market may result in an Index performing less strongly in a rising market.

Certain Funds will seek to track or replicate a particular Index and so the performance of such a Fund may be negatively affected by a general decline (or, in the case of Leveraged Inverse Funds, a general increase) in the performance of the securities or the market segment relating to the Index. Each such Fund may invest in securities and/or FDIs included in, or representative of, the Index regardless of their investment merit. The performance of a Fund may also be negatively affected by the Index Provider making any material change or modification to the formula for or method of calculating the Index and, in the event that the Index Provider fails to calculate and announce the Index or the Index is cancelled and no successor Index exists, then the Directors may choose to either substitute another Index for the Index used by the Fund or to wind up the Fund.

There can be no assurance that an Index will continue to be calculated and published on the basis described in this Prospectus or on the basis of the rules or methodology published by the Index Provider or that the Index will not otherwise be amended significantly. The past performance of an Index is not necessarily a guide to its future performance and no Index Provider has any obligation to take the needs of the Company or the Shareholders into consideration in determining, composing or calculating any Index. There is also a risk that an Index Provider may calculate or publish the value of an Index incorrectly (for example, by referencing an inaccurate price on one or more constituents of the Index) and the value of the relevant Shares may therefore not accurately reflect the true value of the underlying constituents of the Index during the period in which the Index was incorrectly calculated or published.

Investing in a Leveraged Long Fund or a Leveraged Inverse Fund is more risky than investing in a Fund which provides an unleveraged long return to a particular index. Further details in relation to this additional risk can be found in the section entitled "*Leveraged Return and Inverse Return*" on page 87.

A Fund whose Index is oriented to a specific economic sector, country or region will (subject to the diversification requirements set out in Schedule III) concentrate in the securities of issuers relating to that economic sector, country or region, and will be particularly subject to the risks of adverse political, industrial, social, regulatory, technological and economic events affecting such sector, country or region.

Optimisation / sampling strategies

Funds which primarily intend to pursue an optimised strategy when tracking an Index should not be expected to hold a full or perfect replication of the composition (constituent holdings and weights) of the relevant Index. Consequently, investors should not expect the performance of the Fund to perfectly match the performance of the Index. For liquidity purposes, a Fund may hold a proportion of its Net Asset Value in cash which

means that such relevant proportion of the Net Asset Value will not rise and fall in line with movements in Index and the Investments comprised in the Fund's portfolio.

Dividends

A Fund will only receive dividends declared in respect of the Investments which it actually holds, which Investments may not fully reflect the composition of the Index being tracked by the Fund. This may result in the Fund receiving from time to time a net amount which is either more or less than the amounts that would have been received as dividends if the Fund held all of the constituent securities of the Index within its portfolio in the same proportions as such securities are weighted within the Index. Additionally, there may be a difference between the time when the Index is adjusted to reflect the event of any dividend declared by a constituent company of the Index and the time when the Fund's Net Asset Value reflects the event of such dividend. Therefore, investors should not expect that such Fund's Investments will, on a like-for-like basis, reflect the accrual of dividends declared by the constituent companies of the Index being tracked.

Index rebalancing, reweighting and associated costs

Any reweighting or rebalancing of an Index being tracked by a Fund may mean that such Fund's Investments need to be adjusted in order to ensure that the Fund continues to closely track the performance of the Index. Unless otherwise stipulated in a relevant Fund Supplement, transaction costs are not reflected in the return of the Index tracked by a Fund. Accordingly, a Fund's ability to closely track its Index will be impacted by any such transaction costs.

Portfolio adjustments and associated costs

The Investment Manager may make, as part of its general replication strategy, periodic adjustments to a Fund's portfolio of Investments independently of any reweighting or rebalancing of the relevant Index. Any such periodic adjustments will also incur transaction costs that are not reflected in the performance of the Index and will impact upon the Fund's ability to closely track the Index.

Investment restrictions

A Fund may invest in securities in respect of which one or more jurisdictions imposes limitations or restrictions on foreign ownership or holdings. Such legal and regulatory restrictions or limitations may have adverse effects on the liquidity and performance of the Fund's Investments as compared to the performance of the relevant Index. This may increase the risk of tracking error and, at the worst, the Fund may not be able to achieve its investment objective and/or the Fund may have to be closed for further subscriptions.

License to use the Index may be terminated

The Company has been granted the benefit of various licensees by Index Providers for the purpose of creating exchange traded funds each of which tracks an Index and makes use of certain intellectual property relating to the Index. A Fund may not be able to fulfil its investment objective and may be terminated, subject to the section of the Prospectus entitled "*Substitution or Replacement of an Index*", if a relevant licence agreement is terminated. A Fund may also be terminated if its corresponding Index ceases to be compiled or published and there is no replacement index using the same or substantially similar formula for the method of calculation as used in calculating the Index, subject to the section of the Prospectus entitled "*Substitution or Replacement of an Index*".

Market risk

An investment in a Fund exposes an investor to the market risks associated with fluctuations in an Index and the value of securities and / or derivatives contracts (where relevant) comprised in the Index. Economic forces and conditions, competitive pressures, world events, interest rates, currency exchange rates and governmental policies and regulations are some of the factors which could have a significant effect on the financial condition of those companies and other issuers which comprise the Index. A Fund's financial situation, profitability and ultimately the value of an investment in the Fund may be adversely affected as a result of these factors. The value of an Index can increase as well as decrease and the value of an investment in the Fund will fluctuate accordingly. Investors can lose all of the capital invested in a Fund. Investors can lose all of the capital invested in a Fund.

Concentration risk

If the relevant Index tracked/replicated by a Fund is concentrated in securities within a particular country, region, industry, sector or group of countries, regions, industries or sectors, that Fund may be more susceptible to price volatility and any technological, economic, market, social, regulatory, political or regulatory events affecting those countries, regions, industries or sectors. This could lead to a greater risk of loss to the value of your investment.

The Funds that are replicating an index per the Regulations may invest more than 10% and up to 20% of their Net Asset Value in shares issued by the same body in order to replicate their respective Indices. Subject to clearance by the Central Bank on a case by case basis, this limit may be raised to 35% for a single issuer, where this is justified by exceptional market conditions, for example, market dominance. Market dominance exists where a particular constituent of an Index has a dominant position in the particular market sector in which it operates and as such accounts for a large proportion of the Index. This means that such a Fund may have a high concentration of investment in one constituent, or a relatively small number of constituents, and may therefore be more susceptible to any single economic, market, political or regulatory occurrence affecting that constituent or those constituents.

Risk Factors relating to a Fund's Investments

General

A prospective investor should be aware that Investments are subject to normal market fluctuations and other risks inherent in investing in securities and other instruments. There is no assurance that any appreciation in the value of Investments will occur or that the investment objectives of any Fund will actually be achieved. The value of Investments and the income derived therefrom may fall as well as rise and investors may not recoup the original amount invested in a Fund. Past performance is not a guide to future performance.

An investment in the Company is not in the nature of a deposit in a bank account and is not protected by any government, government agency or other guarantee scheme that may be available to protect the holder of a bank deposit account.

Investing in fixed income securities

General

Debt securities are subject to both actual and perceived measures of creditworthiness. The amount of credit risk may be assessed using the issuer's credit rating which is assigned by one or more independent rating agencies. This does not amount to a guarantee of the issuer's creditworthiness but provides an indicator of the likelihood of default. Securities which have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated securities. Companies often issue securities which are ranked in order of seniority which in the event of default would be reflected in the priority in which investors might be paid back. The "downgrading" of an investment grade rated debt security or adverse publicity and investor perception, which may not be based on fundamental analysis, could decrease the value and liquidity of the security, particularly in a thinly traded market.

A Fund may be affected by changes in prevailing interest rates and by credit quality considerations. Changes in market rates of interest will generally affect the Fund's asset values as the prices of fixed rate securities generally increase when interest rates decline and decrease when interest rates rise. Prices of shorter-term securities generally fluctuate less in response to interest rate changes than do longer-term securities. An economic recession may adversely affect an issuer's financial condition and the market value of high yield debt securities issued by such entity. The issuer's ability to service its debt obligations may be adversely affected by specific issuer developments, or the issuer's inability to meet specific projected business forecasts, or the unavailability of additional financing. In the event of bankruptcy of an issuer, a Fund may experience losses and incur costs.

Market Risk

Market risk refers to the possibility that the market values of Investments that a Fund holds will rise or fall, sometimes rapidly or unpredictably. Security values may fall because of factors affecting individual issuers, companies, industries or sectors, or the markets as a whole, reducing the value of an investment in a Fund. Accordingly, an investment in a Fund could lose money over the short or even long term. The market values of the Investments a Fund holds also can be affected by changes or perceived changes in U.S. or foreign economies and financial markets, and the liquidity of these securities, among other factors. In general, longer term or lower quality debt securities tend to have greater price volatility than the short term, high quality debt securities held by a Fund.

Financial Services Industry Risk

Certain Funds may invest in securities issued and/or backed or enhanced by companies in the financial services industry, such as banks, insurance companies and other companies principally engaged in financial services activities. The financial services industry is particularly vulnerable to certain factors, such as the availability and cost of borrowing and raising additional capital, changes in interest rates, the rate of corporate and consumer debt defaults, and price competition. Financial services companies are subject to increasingly extensive government regulation, which can limit the types and amounts of loans and other commitments they make and the interest rates and fees they charge. Their profitability can, as a result, be significantly impacted. In addition, changes in the credit quality of a financial services company or such company's failure to fulfil its obligations could cause a Fund's Investments that are backed by guarantees, letters of credit, insurance or other credit or liquidity enhancements issued or provided by such company to decline in value. Credit and liquidity enhancements are designed to help assure timely payment of a security and do not protect a Fund or its Shareholders from losses caused by declines in a security's market value due to changes in market conditions. In addition, having multiple portfolio securities' credit or liquidity enhanced by the same financial services company increases the potential adverse effects on a Fund that can result from a downgrading of, or a default by, such financial services company.

Interest Rate Risk

Debt securities (including money market instruments) are subject to interest rate risk. In general, if prevailing interest rates rise, the values of debt securities will tend to fall, and if interest rates fall, the values of debt securities will tend to rise. Changes in the value of a debt security usually will not affect the amount of income a Fund receives from it or the ability of a Fund to realise the par value of the security upon its maturity but may affect the value of a Fund's Shares prior to the maturity of those securities owned by a Fund and issued in a lower prevailing interest rate environment. Interest rate risk is generally greater for debt securities with longer maturities or durations.

Credit Risk

Credit risk is the possibility that an issuer will default on a security by failing to pay interest or principal when due. If an issuer defaults, a Fund will lose money. Credit risk includes the possibility that a party to a transaction involving a Fund will fail to meet its obligations. This could cause a Fund to lose the benefit of the transaction or prevent a Fund from selling or buying other securities to implement its investment policy.

Dividends Risk

The amount of income from Investments could affect a Fund's ability to pay periodic dividends to Shareholders. It is possible that, during periods of low prevailing interest rates or otherwise, the income from Investments may be less than the amount needed to pay ongoing Fund operating expenses. In such cases, the Fund may reduce or eliminate the payment of such dividends.

Credit Ratings

Credit ratings are assigned by rating agencies such as Standard & Poor's (S&P). It is important to understand the nature of credit ratings in order to understand the nature of the securities comprising a Fund's Investments. The level of a credit rating is an indication of the probability that (in the opinion of the rating agency) payments will be made on the relevant bond(s) or other obligation(s) to which the credit rating relates. Bonds with a rating of AAA, AA, A or BBB by S&P are called "investment grade" bonds and this indicates that the risk of a failure to repay amounts is limited. While credit ratings can be a useful tool for financial analysis, they are not a guarantee of quality or a guarantee of future performance in relation to the relevant obligations. Ratings assigned to securities by rating agencies may not fully reflect the true risks of an Investment. Ratings may also be withdrawn at any time.

Corporate Debt Securities Risk

A Fund may invest in corporate debt securities from companies with a range of credit worthiness. A default by the issuer of a debt security may result in a reduction in the value of that Fund.

Although certain Funds may invest in debt securities that invest and trade in the secondary market, the secondary market for corporate debt securities can often be illiquid and therefore it may be difficult to achieve fair value on purchase and sale transactions.

The market values of corporate debt securities are sensitive to individual corporate developments and changes in economic conditions.

Emerging markets issuers of corporate debt may be highly leveraged and may not have more traditional methods of financing available to them. Therefore, their ability to service their debt obligations during an economic downturn or during sustained periods of rising interest rates may be impaired, resulting in a higher risk of default.

Government Debt Securities Risk

Certain Funds may invest in government bonds which pay a fixed rate of interest (also known as the 'coupon') and which behave similarly to a loan. Such bonds are exposed to changes in interest rates which will affect their value. In addition, periods of low inflation will mean the positive growth of a Fund that invests in government bonds may be limited.

Investments in government bonds may be subject to liquidity constraints and periods of significantly lower liquidity in difficult market conditions. Therefore, it may be more difficult to achieve a fair value on purchase and sale transactions which may cause the Investment Manager, or the relevant Sub-Investment Manager, not to proceed with such transactions. As a result, changes in the value of the Fund's investments may be unpredictable.

Lower Rated Securities Risk

Funds that invest in lower rated securities, such as bonds that are rated sub-investment grade, or bonds which are unrated but judged to be of comparable quality with sub-investment grade bonds at the time of purchase, may be more volatile than Funds which invest in higher-rated bonds of similar maturity.

High yield bonds may also be subject to greater levels of credit or default risk than high-rated bonds. Such bonds are more likely to react to developments affecting market and credit risk than more highly rated securities. The value of high yield bonds can be adversely affected by overall economic conditions, such as an economic downturn or a period of rising interest rates, and high yield bonds may be less liquid and more difficult to sell at an advantageous time or price or to value than higher-rated bonds. In particular, high yield bonds are often issued by smaller, less creditworthy companies or by highly leveraged (indebted) firms, which are generally less able than more financially stable firms to make scheduled payments of interest and principal.

Investors should carefully consider the relative risks of investing in high yield or lower-rated securities and understand that such securities generally are not meant for short-term investing. Funds which invest in these securities, may find it more difficult to sell such securities or may be able to sell the securities only at prices lower than if such securities were widely traded. Furthermore, such Funds may experience difficulty in valuing certain securities at certain times. Prices realised upon the sale of such lower or unrated rated securities, under these circumstances, may be less than the prices used in calculating the Net Asset Value per Share. In addition, prices for high yield securities may be affected by legislative and regulatory developments which could adversely affect the Net Asset Value per Share insofar as they could adversely affect the secondary market for high yield securities, the financial condition of issuers of these securities and the value of outstanding high yield securities. For example, federal legislation in the United States requiring the divestiture by federally insured savings and loan associations of their investments in high yield bonds and limiting the deductibility of interest by certain corporate issuers of high yield bonds adversely affected the market in recent years.

Lower rated or unrated (i.e. high yield) securities are more likely to react to developments affecting market and credit risk than are more highly rated securities, which primarily react to movements in the general level of interest rates. Lower rated or unrated fixed income obligations also present risks based on payment expectations. If an issuer calls the obligations for redemption, a Fund which invests in these securities may

have to replace the security with a lower yielding security, resulting in a decreased return for investors. If the Fund experiences unexpected net redemptions, it may be forced to sell its higher rated securities, resulting in a decline in the overall credit quality of that Fund's investment portfolio and increasing the exposure of the Fund to the risks of high yield securities.

U.S. Government Obligations Risk

U.S. Treasury obligations are backed by the "full faith and credit" of the U.S. government. Securities issued or guaranteed by federal agencies or authorities and U.S. government-sponsored instrumentalities or enterprises may or may not be backed by the full faith and credit of the U.S. government. For example, securities issued by the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association and the Federal Home Loan Banks are neither insured nor guaranteed by the U.S. government. These securities may be supported by the ability to borrow from the U.S. Treasury or only by the credit of the issuing agency, authority, instrumentality or enterprise and, as a result, are subject to greater credit risk than securities issued or guaranteed by the U.S. Treasury.

Emerging Market Sovereign Debt

Investing in sovereign debt securities issued by emerging market countries will expose the relevant Fund to the direct or indirect consequences of political, social or economic changes in those countries. The ability and willingness of sovereign obligors in emerging market countries; or the governmental authorities that control repayment of their debt to pay principal and interest on such debt when due may depend on general economic and political conditions within the relevant country. Countries in which a Fund intends to invest have historically experienced, and may continue to experience, high rates of inflation, high interest rates, exchange rate fluctuations, trade difficulties and extreme poverty and unemployment. Many of these countries are also characterised by political uncertainty or instability.

As a result of the foregoing, a governmental obligor may default on its obligations. If such a default occurs, the relevant Fund may have limited legal recourse against the issuer and/or guarantor. Remedies may, in some cases, be pursued in the courts of the defaulting party itself, and the ability of the holder of foreign sovereign debt securities to obtain recourse may be subject to the political climate in the relevant country.

Sovereign obligors in emerging market countries have been among the world's largest debtors to commercial banks, other governments, international financial organisations and other financial institutions. These obligors have in the past experienced substantial difficulties in servicing their external debt obligations, which have led to defaults on certain obligations and the restructuring of certain indebtedness. Holders of certain foreign sovereign debt securities may be requested to participate in the restructuring of such obligations and to extend further loans to their issuers.

Asset-Backed Securities Risk

The value of a Fund's asset-backed securities may be affected by, among other things, changes in: interest rates, factors concerning the interests in and structure of the issuer or the originator of the receivables, the creditworthiness of the entities that provide any supporting letters of credit, surety bonds or other credit or liquidity enhancements, or the market's assessment of the quality of underlying assets. Asset-backed securities represent interests in, or are backed by, pools of receivables such as credit card, auto, student and home equity loans. They may also be backed, in turn, by securities backed by these types of loans and others, such as mortgage loans. Asset-backed securities can have a fixed or an adjustable rate of interest. Most asset-backed securities are subject to prepayment risk, which is the possibility that the underlying debt may be refinanced or prepaid prior to maturity during periods of declining or low interest rates, causing a Fund to have to reinvest the money received in securities that have lower yields. In addition, the impact of prepayments on the value of asset-backed securities may be difficult to predict and may result in greater volatility. Rising or high interest rates tend to extend the duration of asset-backed securities, making them more volatile and more sensitive to changes in interest rates.

Investing in FDIs

General

Each Fund may utilise FDIs for efficient portfolio management and investment purposes from time to time when the Fund's Investment Manager, or the relevant Sub-Investment Manager believes this to be economically appropriate. There is, however, no assurance that the objective sought to be obtained from the use of FDIs will be achieved. While the prudent use of FDIs can be beneficial, FDIs also involve risks different from and, in certain cases, greater than the risks presented by more traditional investments.

Except where otherwise stated, a risk management technique known as value-at-risk will be used by the Investment Manager to assess a Fund's market risk so as to ensure that its use of FDIs is within regulatory limits.

Other risks in using FDIs include lack of liquidity, dependence on the ability to predict movements in the prices of securities on which the FDIs are based, the risk of mispricing or improper valuation of FDIs and imperfect correlation between the price of FDIs and the prices of the securities or currencies being hedged. Improper valuations can result in increased cash payment requirements to counterparties or a loss of value to a Fund. Consequently, a Fund's use of FDIs may not always be an effective means of, and sometimes could be counterproductive to, furthering a Fund's investment objective. To the extent that a Fund invests in FDIs, that Fund may take a credit risk with regard to parties with whom it trades and may bear the risk of settlement default.

OTC Swaps, other over the counter ("**OTC**") FDIs and the sale and repurchase agreements referred to in the following paragraph are all bilateral transactions where market prices may be less transparent, and terms are individually negotiated and may be less standardised than would be the case for an on-exchange contract. A Fund may not always be able to find a counterparty that is prepared to contract on the Fund's preferred terms, and may have to accept less favourable pricing or other terms. The ability to unwind such a transaction, and the price for so doing, may be subject to similar factors. The use of such instruments may also expose the relevant Fund to the risk that the legal documentation of the contract may not accurately reflect the intention of the parties. Legal risk is the risk of loss due to the unexpected application of a law or regulation or because contracts are not legally enforceable or documented correctly.

State intervention at the European, international and national level, including any new legislation affecting the relevant products and markets, which may include, but shall not be limited to, EMIR and the Dodd-Frank Act, may also affect the future ability to enter into or continue such transactions and the costs of doing such business.

OTC Swaps

As described under section "*Investment Objectives and Policies*", the Company intends to enter into OTC Swaps in respect of each Fund that seeks to track or replicate an Index unless otherwise stated. There is, however, no assurance that such a Fund will achieve its investment objective through the use of OTC Swaps. Under the relevant OTC Swaps, the relevant counterparty will seek to track or replicate the return of an Index. A Fund may not receive the desired return from an Index from a counterparty for a number of reasons which may include (but are not limited to):

- a material increase in the counterparty's costs of hedging its exposure to the Company under the OTC Swap or a material change or impediment to maintaining such hedging resulting in an amendment to the terms of the OTC Swap, an increase in the fees payable to the counterparty by a Fund, a postponed or reduced payment of return under the OTC Swaps, the payment of return under the OTC Swaps in the currency of the hedge or physical settlement (where operationally permissible) or termination of the OTC Swaps;
- an increase or decrease in a Fund's exposure to an Index through the OTC Swap as a result of the issue or redemption of Shares in a Fund. The cost and method of doing this with the counterparty may mean that the price at which the Fund issues or redeems Shares will not correspond exactly to the price of such Shares if the Fund had invested directly in the Index constituents;
- the valuation of an Index may be impaired or delayed as a result of market disruption events specified in the relevant OTC Swap;

- the termination of an OTC Swap earlier than its anticipated term, for reasons such as modification or cancellation of the relevant Index or reference assets for the relevant Fund, illegality, material impediment to the counterparty to maintain or effect its hedge, default or market disruption. Where an OTC Swap terminates early, a termination payment may be payable to the counterparty by the relevant Fund and this would reduce both the exposure of the Fund to the relevant Index and the return to Shareholders in the Fund;
- at the end of the term of an OTC Swap, the Company will need to enter into another OTC Swap. It may not be possible to enter into an OTC Swap with similar arrangements and terms to the original OTC Swap;
- the delivery to the Fund of a return at the end of the anticipated term of the OTC Swap is based on the performance of an Index at a particular point in time as determined by the counterparty. The method of determining that value can involve delays and may mean that the price at which Shares are redeemed at the end of an OTC Swap may not correspond exactly to the value of the Index;
- the insolvency or inability of a counterparty to an OTC Swap to meet its obligations under the OTC Swap, resulting in a loss to a Fund and a potentially significant impact on the investment performance of the Fund;
- changes in the rates of exchange between the Base Currency of a Fund and the currency of denomination may cause the value of the OTC Swap to rise or fall due to the impact of currency exchange rates on the constituents of the Index; and/or
- the charging structure of the Fund which may mean that there may be variations used in the formulae which are used to calculate returns to a Fund under the relevant OTC Swap causing changes (including possible reductions) to the anticipated returns to Shareholders.

Where a Fund seeks to track the performance of an Index by entering into Long Index Swaps rather than through the direct acquisition of the components of the Index, cash received by the Fund from investor subscriptions and any cash paid to the Fund by one or more counterparties as profit on the Long Index Swaps is invested and managed in accordance with the arrangements described in the section entitled *"Unfunded OTC Swap Model"*. In either case, the performance of the Fund will be dependent on the performance of the Long Index Swaps. However, where a counterparty defaults on its obligations under the Long Index Swaps and/or under any of the portfolio management arrangements used in conjunction with the Long Index Swaps, the performance of the Fund may cease to be determined by reference to the Index and may instead be subject to the performance of any assets held by the Fund pursuant to such portfolio management arrangements (the **"Resulting Assets"**). The performance of the Resulting Assets may vastly differ from the performance of the Index over any given period of time. This performance will continue to be reflected in the Fund until alternative counterparty arrangements are put in place. If a Fund is unable to enter into Long Index Swaps with alternative counterparties, all Shares of the Fund may be compulsorily redeemed and the Fund wound up. Please refer to the sections entitled *"Compulsory Redemption"*, *"Compulsory (Total) Redemption"* and *"Fund closure process on Compulsory (Total) Redemption"*.

Futures

Futures exchanges may limit the amount of fluctuation permitted in certain futures contract prices during a single trading day. The daily limit establishes the maximum amount that the price of a futures contract may vary either up or down from the previous day's settlement price at the end of the current trading session. Once the daily limit has been reached in a futures contract subject to such a limit, no more trades may be made on that day at a price beyond that limit. The daily limit governs only price movements during a particular trading day and therefore does not limit potential losses because the limit may work to prevent a liquidation of unfavourable positions. In addition, the ability to establish and close out a position in options on futures contracts will be subject to the development and maintenance of a liquid market in the options. There can be no assurance that a liquid market on an exchange would exist for any particular option or for any particular time.

When a Fund invests in futures instruments, the Fund may be required to segregate cash and other high-grade liquid assets or certain portfolio securities as collateral due to its positions in futures instruments. There can be no disposal of such segregated assets, so long as the Fund maintains the positions requiring

collateral. Segregating assets could diminish the Fund's return, due to the opportunity losses of foregoing other potential investments with the assets transferred or pledged as collateral.

Forwards

Use of forward currency contracts as a method of protecting the value of a Fund's assets against a decline in a value of a currency, establishes a rate of exchange which can be achieved at some future point in time, but does not eliminate fluctuations in the underlying prices of securities. Use of forward currency contracts may also reduce any potential gain which may have otherwise occurred had the currency value increased more above the settlement price of the contract. Successful use of forward contracts depends on the Investment Manager's / relevant Sub-Investment Manager's skill in analysing and predicting relevant currency values. Forward contracts alter a Fund's exposure to currency exchange varied activity and could result in losses to the Fund in the event that the currencies do not perform in the manner anticipated. The Fund may also incur significant cost from converting assets from one currency to another.

Forward contracts and options thereon, unlike futures contracts, are not traded on exchanges and are not standardized; rather, banks and dealers act as principals in these markets, negotiating each transaction on an individual basis. Forward and "cash" trading is substantially unregulated; there is no limitation on daily price movements and speculative position limits are not applicable. The principals who deal in the forward markets are not required to continue to make markets in the currencies they trade and these markets are not required to continue to make markets in the currencies they trade and these markets can experience periods of illiquidity, sometimes of significant duration. There have been periods during which certain participants in these markets have refused to quote prices for certain currencies or have quoted prices with an unusually wide spread between the price at which they were prepared to buy and that at which they were prepared to sell. Disruptions can occur in any market traded due to unusually high trading volume, political intervention or other factors. The imposition of controls by governmental authorities might also limit such forward (and futures) trading to less than that which the Investment Manager would otherwise recommend, to the possible detriment of a Fund. Such risks could result in substantial losses to a Fund.

Leverage

Some or all of the Funds may employ leverage. While the use of leverage may increase the returns of the relevant Fund, it may also involve a high degree of risk. Leverage will create an opportunity for greater yield and total return but it will also increase the relevant Fund's exposure to capital risk and interest costs. Any investment income and gains earned on investments made through the use of leverage that are in excess of the interest costs of a Fund's borrowings will cause the Net Asset Value of the Fund to increase more rapidly than would otherwise be the case. However, if the interest costs associated with such borrowing are greater than investment income and gains, the Net Asset Value may decrease more rapidly than would otherwise be the case.

Investing in repurchase and reverse repurchase agreements

Each Fund may utilise sale and repurchase agreements and reverse repurchase agreements. Under a sale and repurchase agreement, a Fund sells securities to a counterparty with an agreement to repurchase them at a later date. Under a reverse repurchase agreement, a counterparty sells securities to a Fund with an agreement to repurchase them at a later date. Reverse repurchase agreements may be utilised by a Fund to obtain a return on cash held by a Fund whereas collateral is obtained in the form of the securities bought.

There is a risk that a Fund's counterparty may default in the performance of its obligation either to sell the securities back to a Fund or to repurchase the securities from a Fund which may result in a reduction in the value of a Fund. There is a risk that a counterparty may default on its obligation to provide additional securities of an acceptable quality following a reduction in the value of the securities held by the Fund.

Investing in collective investment schemes

The Company and any Fund may invest in other collective investment schemes, which may be operated and/or managed by an Interested Party (as defined below under the heading "*Conflicts of Interest*"). As an investor in such other collective investment schemes, in addition to the fees, costs and expenses payable by a Shareholder in the Funds, each Shareholder may also indirectly bear a portion of the fees, costs and expenses of the underlying collective investment schemes, including management, investment management, administration and other expenses.

Money Market Risk

The Company and any Fund, with a view to earning a return on cash equivalent to interest and / or mitigating credit exposure to depositaries, may arrange for cash holdings of the Company (including pending dividend payments) to be placed into money market collective investment schemes. A money market collective investment scheme which invests a significant amount of its assets in money market instruments may be considered as an alternative to investing in a regular deposit account. However, a holding in such a scheme is subject to the risks associated with investing in a collective investment scheme and, while a money market collective investment scheme is designed to be a relatively low risk investment, it is not entirely free of risk. Despite the short maturities and high credit quality of investments of such schemes, increases in interest rates and deteriorations in the credit quality can reduce the scheme's yield and the scheme is still subject to the risk that the value of such scheme's investment can be eroded and the principal sum invested will not be returned in full.

Securities lending risk

Where securities lending is permitted by the relevant investment policy of a Fund (as set out in a relevant Fund Supplement), a Fund will have credit risk to any counterparty to a securities-lending contract. As with any extensions of credit, there are risks of delay and recovery. The risks associated with lending a Fund's Investments include the possible loss of rights against the Investments should the borrower fail financially. Should the borrower of Investments fail financially or default on any of its obligations under any securities lending transaction, the collateral provided in connection with such transaction will be called upon. Collateral is obtained from the counterparties to minimise this risk. The value of the collateral will be maintained to exceed the value of the Investments transferred. Collateral is marked-to-market daily, and is immediately available (without recourse) to purchase securities in the event of counterparty default. There is a risk that the value of the collateral may fall below the value of the Investments transferred. A Fund could thus lose money in the event of a decline in the value of the collateral provided for the loaned Investments or of the investments made with cash collateral. A Fund may invest cash collateral received, subject to the conditions and within the limits laid down by the Central Bank. A Fund investing collateral will be exposed to the risk associated with such Investments, such as failure or default of the issuers of the relevant Investments. For example, a Fund may invest cash collateral received in certain money market funds, and it will therefore be exposed to the risk associated with investing in a money market fund such as financial services industry risk.

Currency

Currency fluctuations between an investor's currency of reference and the Dealing Currency of the relevant Share class will mean that the performance of such investor's investment (when expressed in the investor's currency of reference) will not match the performance of the relevant Share class (which is expressed in the relevant Dealing Currency of that Share class).

A Fund's Investments may be denominated in currencies other than the Base Currency (and/or the Dealing Currency of a relevant Share class) and changes in the exchange rates between the currencies of denomination of a Fund's Investments and the Base Currency (and/or the Dealing Currency of a relevant Share class) may lead to a depreciation of the value of the relevant Fund's Investments as expressed in the Base Currency (and/or the Dealing Currency of a relevant Share class).

A Fund may from time to time enter into currency exchange transactions such as currency exchange forward contracts. Currency exchange forward contracts do not eliminate fluctuations in the prices of a Fund's Investments or in foreign exchange rates or prevent loss if the prices of these assets should decline. Performance of a Fund may be strongly influenced by movements in foreign exchange rates because currency positions held by a Fund may not correspond with the assets held.

The Investment Manager, on behalf of a Fund, may employ strategies aimed at hedging against currency risk at portfolio level and/or Share class level as further described under the heading "*Currency Hedging Policy*" on page 21. There can, however, be no assurance that currency hedging transactions will be effective. However, to the extent that hedging is successful, investors in a hedged Share class will not benefit if the Share class currency falls against the Base Currency and/or the currency in which the assets of the Fund are denominated.

Interest rate risk

Interest rates are determined by factors of supply and demand in the international money markets which are influenced by macro-economic factors, speculation and central bank and government intervention. Fluctuations in short term and/or long term interest rates may affect the value of the Shares. Fluctuations in interest rates of the currency in which the Shares are denominated and/or fluctuations in interest rates of the currency or currencies in which a Fund's Investments are denominated may affect the value of the Shares.

Credit

Each Fund will be exposed to a credit risk on parties with whom it trades and may also bear the risk of settlement default. This risk also extends to securities lending, repurchase/reverse repurchase agreements, Swap Arrangements and Investments made through a Common Investment Pool. The means by which the Company shall seek to reduce such credit and settlement default risk are as follows.

Where a Fund enters an OTC Swap with a counterparty, the Company will seek to reduce the credit risk to that counterparty by ensuring the value of such OTC Swaps are marked to market on a daily basis and, where a Fund has an exposure to the counterparty, seeking cash collateral or other eligible collateral from the counterparty where such exposure exceeds the limits prescribed by the Central Bank under the Irish Regulations.

The Company will seek to reduce a Fund's risk of settlement default by ensuring that direct subscriptions for or redemptions of Shares are only made by Authorised Participants and that all such subscriptions and redemptions are settled through CREST on a delivery versus payment basis.

Where the Company enters into repurchase or reverse repurchase agreements and other Swap Arrangements on behalf of a Fund for the purpose of holding securities uncorrelated to those comprised within the Index the Fund aims to track or replicate, the Company will seek to reduce the credit risk in respect of such transactions by stipulating that the Fund may only receive collateral of a quality determined to be acceptable for UCITS funds by the Central Bank and by ensuring such securities are marked to market on a regular basis and, where relevant, collateralised in accordance with the relevant UCITS requirements.

The Investment Manager will, where necessary, manage the assets of the Common Investment Pool in accordance with a set of cash management guidelines. These guidelines seek to reduce the credit risk in relation to such Common Investment Pools by including objectives that the Common Investment Pools shall invest in short maturity securities from very high quality issuers and that investments shall be made in accordance with conservative portfolio management practices and shall conform with all UCITS restrictions and requirements.

Counterparty risk (general)

Where a Fund enters into transactions in over-the counter derivative markets (including OTC Swaps) or engages in efficient portfolio management techniques (such as repurchase/reverse repurchase agreements and securities lending), this will expose a Fund to the credit of its counterparties and their ability to satisfy the terms of such contracts. In the event of a bankruptcy or other default of a counterparty, a Fund could experience both delays in liquidating the underlying securities and losses including a possible decline in value of the underlying securities during the period when the Fund seeks to enforce its rights thereto. This could have the effect of reducing levels of capital and income in the Fund and could result in lack of access to income during this period as well as the Fund being obliged to incur a degree of expense to enforce its rights.

In addition, a Fund may have to transact with counterparties on standard terms which it may not be able to negotiate and may bear the risk of loss because a counterparty does not have the legal capacity to enter into a transaction or if the transaction becomes unenforceable due to relevant legislation and regulation or because the contract with the counterparty does not accurately reflect the intention of the parties, is otherwise not documented correctly or is legally unenforceable.

Counterparty risk to the Depositary and its Sub-custodians

The Depositary shall be liable to the Company and its Shareholders for the loss by the Depositary or a Sub-custodian of financial instruments held in custody. In the case of such a loss, the Depositary is required,

pursuant to the Irish Regulations, to return the financial instrument of an identical type or the corresponding amount to the Company without undue delay, unless the Depositary can prove that the loss arose as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary. This standard of liability only applies to assets capable of being registered or held in a securities account in the name of the Depositary or a Sub-custodian and assets capable of being physically delivered to the Depositary.

The Depositary shall also be liable to the Company and its shareholders for all other losses suffered by the Company and/or its shareholders as a result of the Depositary's negligent or intentional failure to fully fulfil its obligations pursuant to the Irish Regulations. In the absence of the Depositary's negligent or intentional failure to properly fulfil its obligations pursuant to the Irish Regulations, the Depositary may not be liable to the Company or its shareholders for the loss of an asset of a Fund which is not capable of being registered or held in a securities account in the name of the Depositary or a Sub-custodian or being physically delivered to the Depositary.

The liability of the Depositary is not affected by the fact that it has entrusted the custody of the Company's assets to a third party. In the event that custody is delegated to local entities that are not subject to effective prudential regulation, including minimum capital requirements, and supervision in the jurisdiction concerned, prior Shareholder notice will be provided advising of the risks involved in such delegation. As noted above, in the absence of the Depositary's negligent or intentional failure to properly fulfil its obligations pursuant to the Irish Regulations, the Depositary may not be liable to the Company or its shareholders for the loss of a financial instrument (as defined in the Irish Regulations) belonging to a Fund which is not capable of being registered or held in a securities account in the name of the Depositary or a Sub-custodian or being physically delivered to the Depositary. Accordingly, while the liability of the Depositary is not affected by the fact that it has entrusted the custody of the Company's assets to a third party, in markets where custodial and/or settlement systems may not be fully developed, a Fund may be exposed to sub-custodial risk in respect of the loss of such assets in circumstances whereby the Depositary will have no liability.

Counterparty risk to the Registrar and other depositaries - Dividend and Fund liquidation monies

In respect of ETF Shares, the Registrar is responsible for arranging payments to Shareholders relating to dividend monies (as further described under the heading "Dividend Policy" on page 27) and the proceeds of any compulsory redemption of ETF Shares (as further described under the heading "*Fund closure process on Compulsory (Total) Redemption*" on page 34) on the relevant payment dates via the relevant Recognised Clearing and Settlement System.

Prior to the relevant payment date, monies for distribution to Shareholders as dividends or Fund liquidation proceeds will be transferred by the Administrator from the Collection Account to the Client Asset Account opened and administered by the Registrar. During the period when such monies are held in the Client Asset Account, the Company will have credit risk exposure, in respect of such cash, to the Registrar and any depositary bank with which the Registrar maintains such Client Asset Account for the benefit of the Company.

Broker Selection

In selecting brokers to make purchases and sales for the Company, the relevant Investment Manager/Sub-Investment Manager will choose those brokers who provide best execution to the Company. In determining what constitutes best execution, the Investment Manager/Sub-Investment Manager will consider the overall economic result to the Company (price of commission plus other costs), the efficiency of the transaction, the broker's ability to effect the transaction if a large block is involved, the availability of the broker for difficult transactions in the future, other services provided by the broker such as research and the provision of statistical and other information, and the financial strength and stability of the broker. In managing the assets of the Company, the Investment Manager/Sub-Investment Manager may receive certain research and statistical and other information and assistance from brokers. The Investment Manager may allocate brokerage business to brokers who have provided such research and assistance to the Company and/or other accounts for which the Investment Manager exercises investment discretion.

Equities

The value of an investment by a Fund in shares or other equities or equity-related products or the value of

Indices comprised in whole or in part of shares, equities or equity-related products will be dependent on a number of factors which may include political events, geographic or regional events and economic conditions.

Unlisted securities

Although a Fund will generally invest in listed securities, pursuant to the Irish Regulations, a Fund has the right to invest up to 10% of its Net Asset Value in certain securities which are not traded on a Regulated Market. In such situations, a Fund may therefore be unable to readily sell such securities.

Valuation

The nature of a Fund's Investments, the Index tracked or replicated by the Fund or, where relevant, the FDI used by a Fund to achieve tracking or replication of an Index may be complex. In certain circumstances, valuations of these complex instruments and/or Indices may only be available from a limited number of market participants who may also act as counterparties to these transactions. The valuation or close out position of an OTC Swap used to track or replicate an Index may be calculated by reference to an adjusted value of the Index or to the hedging positions entered into by the counterparty to the OTC Swaps to track or replicate such Index, rather than by reference to the actual value of the Index, and there could be a material difference between such values. Valuations received from such market participants may therefore be subjective and there may be substantial differences between any available valuations.

One or more counterparties may enter into OTC Swaps with the same Fund in order to achieve such Fund's investment objective. There can be no assurance that a counterparty will enter into such OTC Swaps on the same terms as another counterparty (including, without limitation, pricing). In addition, in the event a particular Fund enters into OTC Swaps with more than one counterparty to track or replicate an Index, there is a risk that, over time, the performance of such FDIs shall be significantly different across different counterparties and thus may affect the performance of the Fund.

The Company may (but is not obliged to) seek to reduce such valuation risks by making one counterparty to that Fund responsible for designating the valuation days, for determining market disruption and other extraordinary events or for determining other provisions in respect of all OTC Swaps relating to that Fund. In the event a counterparty disagrees with any such determinations, the Company or its delegate shall be entitled to terminate all OTC Swaps provided by the counterparty in respect of the relevant Fund and to write OTC Swaps of an equivalent notional amount with one or more counterparties to cover such terminated positions. Termination of an OTC Swap in respect of a particular Fund could result in the compulsory redemption of all shares of that Fund. Any delay in writing equivalent OTC Swap positions may increase the tracking or replicating error of the Fund. In any case, any costs incurred in terminating or writing equivalent OTC Swap positions shall be borne by the relevant Fund.

Listed companies and other issuers are generally subject to different accounting, auditing, and financial reporting standards in different countries throughout the world. The volume of trading, the volatility of prices, and the liquidity of securities may vary in the markets of different countries. In addition, the level of government supervision and regulation of securities exchanges, securities dealers and listed and unlisted companies is different throughout the world. The laws of some countries may limit the ability of the Investment Manager to invest in securities of certain issuers located in those countries.

Potential conflicts relating to determination of probable realisation value

There is no prohibition on the Depositary, the Administrator, the Investment Manager or any other party related to the Company acting as a "competent person" for the purposes of determining the probable realisation value of an asset of a Fund in accordance with the valuation provisions outlined in the section of this Prospectus entitled "*The assets of the Company and the calculation of the Net Asset Value*". Investors should note however, that in circumstances where fees payable by the Company to such parties are calculated based on the Net Asset Value of the relevant Fund, a conflict of interest may arise as such fees will increase if the Net Asset Value of the Fund increases. Any such party will endeavour to ensure that such conflicts are resolved fairly and in the best interests of the Shareholders.

Effect of substantial redemptions

Substantial redemptions by Shareholders could require a Fund to liquidate securities positions or other Investments more rapidly than would otherwise be desirable, possibly reducing the value of the relevant Fund's Investments and/or, where relevant, its Index tracking strategy. In particular, substantial redemptions typically require that a representative proportion of a Fund's Investments are liquidated to finance any redemption payments. In circumstances where any of the Funds' Investments are subject to a prolonged limit or other restriction in trading, a suspension or other form of disruption and the relevant Fund is unable to liquidate such Investments, and/or the Fund is unable to liquidate such Investments at prices which the Directors (or their delegates) deem to be their then-current fair or probable realisation value, in order to finance any redemption application that has been accepted, the Fund in question may need to liquidate a higher proportion of its other Investments, pay redemption proceeds out of its cash assets or borrow cash on a temporary basis. In such circumstances, there is a risk that the fair or probable realisation value determined by the Directors (or their delegates) for a particular illiquid Investment at the point at which any redemption price for Shares in the Fund is determined may subsequently be determined to be less than originally valued, and may in certain circumstances, including but not limited to circumstances where the relevant Investment remains illiquid on a more permanent basis than originally anticipated by the Directors, be determined to have a zero value. Where a Fund has made redemption payments based on a fair or probable realisation value determined for an Investment and the subsequent market value is later determined to be less, the Fund will incur losses. Such losses may be substantial where the aggregate value of redemption requests accepted for the relevant Dealing Day are significant.

Reduction in the size of a Fund could make it more difficult to generate a positive return or to recoup losses due to, among other things, reductions in the Fund's ability to take advantage of particular investment opportunities or decreases in the ratio of its income to its expenses.

In addition, there is a risk that the level of redemptions in a Fund may become such that the remaining Investments of the Fund are not at a level that makes proper management of the Fund viable. In these circumstances, the relevant Investment Manager/Sub-Investment Manager may, acting in the best interests of remaining Shareholders, sell underlying positions and manage the Fund on a cash basis in anticipation of a decision by the Directors or the Shareholders to terminate the Fund.

Collection Account risk

The Company operates Collection Accounts at umbrella level. Subscription and redemption accounts will not be established at Fund level. A number of Collection Accounts are established in respect of different currencies. All subscription monies, redemption proceeds, dividend payments and Fund liquidation payments in respect of ETF Shares and non-ETF Shares will be paid through a Collection Account.

In the event of the insolvency of a Fund, recovery of any amounts to which other Funds are entitled, but which may have transferred to the insolvent Fund as a result of the operation of the Collection Account, will be subject to the principles of Irish insolvency and trust law and the terms of the operational procedures for the Collection Account. There may be delays in effecting and / or disputes as to the recovery of such amounts, and the insolvent Fund may have insufficient funds to repay amounts due to other Funds.

ETF Shares

Subscription monies: Subscriptions for ETF Shares by Authorised Participants are normally settled on a delivery versus payment basis (i.e., Shares are issued upon receipt of subscription monies) in a Recognised Clearing and Settlement System and accordingly do not give rise to counterparty risk for the Authorised Participant. Where specified in the "Dealing Information" section of a relevant Fund Supplement, certain Funds may receive subscription monies from Authorised Participants in advance of the issue of Shares. Such monies will be held in the Collection Account and the relevant Authorised Participants will be unsecured creditors of the Company with respect to any cash amount subscribed and held in the Collection Account until such time as the Shares subscribed for are issued to them through the relevant Recognised Clearing and Settlement System and such Authorised Participants will not benefit from any shareholder rights until such time as the relevant Shares are issued to them. In the event of the insolvency of the relevant Fund or the Company, there is no guarantee that the relevant Fund or the Company will have sufficient funds to pay unsecured creditors in full.

As further described under the heading "*Subscriptions*" on page 50, in circumstances where the exact provision for Duties and Charges cannot be ascertained in sufficient time in advance of the applicable

settlement date for the issue of the relevant Shares as specified in the relevant Fund Supplement, the Duties and Charges paid in respect of the subscription may be estimated. Following the acquisition of Investments by the Company, the Company shall reimburse the relevant Authorised Participants for any excess in the estimated sum for Duties and Charges received by the Company in a timely manner and no interest shall accrue or be payable by the Company in respect of such excess. Such excess cash will be held in the Collection Account on a temporary basis and the relevant Authorised Participants will be unsecured creditors of the Company with respect to any such excess cash held in the Collection Account until such time as such cash is paid to them. In the event of the insolvency of that Fund or the Company, there is no guarantee that the relevant Fund or the Company will have sufficient funds to pay unsecured creditors in full.

Redemption monies: Subject to receipt by the Administrator of original subscription documents and compliance by the redeeming Authorised Participant with such anti-money laundering procedures as may be prescribed by the Company from time to time, payment by a Fund of redemption proceeds is settled on a delivery versus payment basis (i.e. redemption proceeds are paid upon receipt of Shares to be redeemed) in a Recognised Clearing and Settlement System and accordingly do not give rise to counterparty risk for the Authorised Participant. Payment of redemption proceeds to the Authorised Participants entitled to such amounts may be blocked pending compliance with the foregoing requirements to the satisfaction of the Company or the Administrator. Redemption amounts, including blocked redemption amounts, will, pending payment to the relevant Authorised Participant, be held in the Collection Account. For as long as such amounts are held in the Collection Account, the Authorised Participants entitled to such payments from a Fund will be unsecured creditors of the Company with respect to those amounts and, with respect to and to the extent of their interest in such amounts, will not benefit from any appreciation in the Net Asset Value of the relevant Fund after the Dealing Day in respect of which their redemption application was made or any other shareholder rights. Redeeming Authorised Participants will cease to be beneficially entitled to the relevant number of Shares as and from the relevant Dealing Day in respect of which their redemption application was made. In the event of the insolvency of that Fund or the Company, there is no guarantee that the relevant Fund or the Company will have sufficient funds to pay unsecured creditors in full. Redeeming Authorised Participants and Authorised Participants entitled to distributions should therefore ensure that any outstanding documentation and/or information required in order for them to receive such payments to their own account is provided to the Administrator, promptly. Failure to do so is at such Authorised Participant's own risk.

As further described under the heading "Redemptions" on page 56, in circumstances where the exact provision for Duties and Charges cannot be ascertained in sufficient time in advance of the applicable settlement date for the redemption of the relevant Shares as specified in the relevant Fund Supplement, the Duties and Charges paid in respect of the redemption may be estimated. Following the disposal of Investments by the Company, the Company shall reimburse the relevant Authorised Participants for any excess in the estimated sum for Duties and Charges deducted by the Company from the redemption price in a timely manner and no interest shall accrue or be payable by the Company in respect of such excess. Such excess cash will be held in the Collection Account on a temporary basis and the relevant Authorised Participants will be unsecured creditors of the Company with respect to any such excess cash held in the Collection Account until such time as such cash is paid to them. In the event of the insolvency of that Fund or the Company, there is no guarantee that the relevant Fund or the Company will have sufficient funds to pay unsecured creditors in full.

Dividend and liquidation monies: Monies relating to dividends (as further described under the heading "Dividend Policy" on page 27) and the proceeds of any compulsory redemption of ETF Shares (as further described under the heading "*Fund closure process on Compulsory (Total) Redemption*" on page 34) shall be held in the Collection Account until such time as they are paid to the Client Asset Account for onward payment to Shareholders via the relevant Recognised Clearing and Settlement System. For as long as such monies are held in the Collection Account, the Shareholders entitled to such payments from a Fund will be unsecured creditors of the Company with respect to those amounts. In the event of the insolvency of that Fund or the Company, there is no guarantee that the relevant Fund or the Company will have sufficient funds to pay unsecured creditors in full.

Please refer to the heading "*Counterparty risk to Registrar and other depositaries - Dividend and Fund liquidation monies*" on page 83 for details of the counterparty risk relating to the holding of monies relating to dividends and the proceeds of any compulsory redemption of ETF Shares in the Client Asset Accounts.

Non-ETF Shares

Subscription monies: Subscription monies received in respect of a Fund in advance of the issue of Shares will be held in the Collection Account. Investors will be unsecured creditors of the Company with respect to any cash amount subscribed and held in the Collection Account until such time as the Shares subscribed for are issued to them and will not benefit from any shareholder rights until such time as the relevant Shares are issued. In the event of the insolvency of the relevant Fund or the Company, there is no guarantee that the relevant Fund or the Company will have sufficient funds to pay unsecured creditors in full.

Redemption monies: Payment by a Fund of redemption proceeds is subject to receipt by the Administrator of such original subscription documents and compliance by the redeeming Shareholder with such anti-money laundering procedures as may be prescribed by the Company from time to time. Payment of redemption proceeds to the Shareholders entitled to such amounts may accordingly be blocked pending compliance with the foregoing requirements to the satisfaction of the Company or the Administrator. Redemption amounts, including blocked redemption amounts, will, pending payment to the relevant Shareholder, be held in the Collection Account. For as long as such amounts are held in the Collection Account, the Shareholders entitled to such payments from a Fund will be unsecured creditors of the Company with respect to those amounts and, with respect to and to the extent of their interest in such amounts, will not benefit from any appreciation in the Net Asset Value of the relevant Fund after the Dealing Day in respect of which their redemption application was made or any other shareholder rights. Redeeming Shareholders will cease to be beneficially entitled to the relevant number of Shares as and from the relevant Dealing Day in respect of which their redemption application was made. In the event of the insolvency of that Fund or the Company, there is no guarantee that the relevant Fund or the Company will have sufficient funds to pay unsecured creditors in full. Redeeming Shareholders and Shareholders entitled to distributions should therefore ensure that any outstanding documentation and/or information required in order for them to receive such payments to their own account is provided to the Administrator, promptly. Failure to do so is at such Shareholder's own risk.

Dividend and liquidation monies: Payments relating to dividend monies (as further described under the heading "Dividend Policy" on page 27) and the proceeds of any compulsory redemption of Non-ETF Shares (as further described under the heading "*Fund closure process on Compulsory (Total) Redemption*" on page 34) shall be held in the Collection Account until such time as they are paid to Shareholders. For as long as such monies are held in the Collection Account, the Shareholders entitled to such payments from a Fund will be unsecured creditors of the Company with respect to those amounts. In the event of the insolvency of that Fund or the Company, there is no guarantee that the relevant Fund or the Company will have sufficient funds to pay unsecured creditors in full.

Transaction costs

A Fund's investment approach may involve a high level of trading and turnover of the relevant Fund's Investments which may generate substantial transaction costs which will be borne by the relevant Fund.

Charging of Duties and Charges as a Fixed Amount

Where, pursuant to the provisions of the Prospectus and the relevant Fund Supplement, Duties and Charges are levied in the form of a fixed amount, as the case may be, any excess in the estimated sum for Duties and Charges is retained by the Fund. However, any shortfall in the sum charged in respect of Duties and Charges will be paid out of the assets of the Fund which will result in the reduction in value of the holding for all Shareholders.

Market disruptions

The trading price of fixed income securities, equity securities, commodities and other instruments fluctuate in response to a variety of factors. These factors include events impacting the entire market or specific market segments, such as political, market and economic developments, as well as events that impact specific issuers. The Net Asset Value of a Fund, like security and commodity prices generally, will fluctuate within a wide range in response to these and other factors. Events since 2008 have resulted in a prolonged and significant degree of market volatility. This may have an adverse effect on Fund performance. A Fund may incur major losses in the event of continuing market turbulence and other extraordinary events which may affect markets in a way that is not consistent with historical pricing relationships. The risk of loss from a disconnect with historical prices is compounded by the fact that in disrupted markets many positions become

illiquid, making it difficult or impossible to close out positions against which the markets are moving. The financing available to the relevant Fund from its banks, dealers and other counterparties will typically be reduced in disrupted markets. Such a reduction may result in substantial losses to the relevant Fund. A sudden restriction of credit by the dealer community has resulted in forced liquidations and major losses for a number of investment funds and other vehicles. As market disruptions and losses in one sector can cause ripple effects in other sectors, many investment funds and other vehicles have suffered heavy losses, even though they were not necessarily heavily invested in credit related investments. In addition, market disruptions caused by unexpected political, military and terrorist events, may from time to time, cause dramatic losses for the Funds and such events can result in otherwise historically low-risk strategies performing with unprecedented volatility and risk. A financial exchange may from time to time suspend or limit trading. Such a suspension could render it difficult or impossible for the Funds to liquidate affected positions and thereby expose the Funds to losses. There is also no assurance that off-exchange markets will remain liquid enough for the Funds to close out positions.

Systems Risks

All Funds depend on the relevant Investment Manager/Sub-Investment Manager to develop and implement appropriate systems for the Fund's activities. A Fund may rely extensively on computer programs and systems (and may rely on new systems and technology in the future) for various purposes including, without limitation, trading, clearing and settling transactions, evaluating certain financial instruments, monitoring its portfolio and net capital, and generating risk management and other reports that are critical to oversight of the Fund's activities. Certain of the Funds' and the relevant Investment Manager/Sub-Investment Manager's operations interface will be dependent upon systems operated by third parties, including the Administrator, market counterparties and their sub-custodians and other service providers, and the Investment Manager/Sub-Investment Manager may not be in a position to verify the risks or reliability of such third-party systems. These programs or systems may be subject to certain limitations, including, but not limited to, those caused by computer "worms", viruses and power failures. A Fund's operations may be highly dependent on each of these systems and the successful operation of such systems is often out of the Company's or the relevant Investment Manager/Sub-Investment Manager's control. The failure of one or more systems or the inability of such systems to satisfy the Company's growing businesses could have a material adverse effect on the Funds. For example, systems failures could cause settlement of trades to fail, lead to inaccurate accounting, recording or processing of trades, and cause inaccurate reports, which may affect the ability of a Fund to monitor its investment portfolio and risks.

Leveraged Return and Inverse Return

Leveraged Return strategies

A Leveraged Long Fund may seek to achieve a Leveraged Return either (i) by providing a leveraged exposure equal to a multiple of the performance of an index on a periodic basis or (ii) by tracking a Leveraged Index.

The Leveraged Return is calculated by reference to the performance of an underlying index on a periodic basis. Where a Leveraged Long Fund provides a leveraged exposure equal to a multiple of the performance of an index on a periodic basis, this may result in the periodic rebalancing of a Leveraged Long Fund's portfolio. Where a Leveraged Long Fund tracks a Leveraged Index, this may result in the periodic rebalancing of the relevant Leveraged Index. Where a Fund utilises these strategies, the terms of the Leveraged Return will be set out in the relevant Fund Supplement.

Investing in a Leveraged Long Fund is more risky than investing in a Fund which provides an unleveraged long return to a particular index. For example, the value of an underlying index could fall by more than 25% on a particular day and this will result in a Leveraged Long Fund with a leverage factor of two (which does not incorporate an intraday adjustment mechanism in the relevant Leveraged Index to protect it from market movements in the underlying index of 25% or more) losing half of its value. In addition, the value of an underlying index could fall by more than 50% on a particular day. This will result in a Leveraged Long Fund with a leverage factor of two (which does not incorporate an intraday adjustment mechanism in the relevant Leveraged Index to protect it from extreme market movements in the underlying index of 50% or more) losing all of its value and will result in the total loss of a Shareholder's investment. Furthermore, the risk of investing in a Leveraged Index increases with any increase in the leverage factor of the Leveraged Index and the Leveraged Index would, as a result, be more susceptible to market movements. For example, the

value of an underlying index could fall by more than 25% on a particular day and this will result in a Leveraged Long Fund with a leverage factor of four (which does not incorporate an intraday adjustment mechanism in the relevant Leveraged Index to protect it from market movements in the underlying index of 25% or more) losing all of its value and will result in the total loss of a Shareholder's investment. As such, a total loss of investment could occur in a relatively short period of time if there is a material market movement.

The methodology of the Leveraged Indices used by the Leveraged Long Funds incorporate an intraday adjustment mechanism whereby if the value of the relevant underlying index falls by more than 25% on a single day, the Leveraged Index is automatically rebalanced during the same day giving an intraday reset price ("**Intraday Reset Price**"). Such intraday adjustment seeks to protect the Leveraged Index in the event of extreme market movements on a single day by crystallising the losses incurred up to that point. This results in (i) the Leveraged Index being able to reset its leverage against the relevant underlying index based on the Intraday Reset Price of the Leveraged Index and (ii) the Leveraged Index being able to chart the movements of the underlying index against such Intraday Reset Price for the remainder of the day. However, over time an investor can still lose the value of all of its investment in a Leveraged Long Fund but such loss is limited to the value of the investor's holding of Shares of the Leveraged Long Funds.

The performance of a Leveraged Index is related to its relevant underlying index such that a decrease in value of the underlying index will generally result in a decrease in value of the Leveraged Index equivalent to twice the percentage change in the underlying index (and vice versa) before deduction of the implied financing costs and liquidity spread which are applied in the leveraged methodology. Accordingly, investing in a Leveraged Long Fund is substantially more risky than investing in a fund which tracks an underlying index and is suitable only for investors who understand the risks and inherent costs associated with an investment in a leveraged strategy.

Investment in a Leveraged Long Fund may not be suitable for investment over extended periods of time. Prospective investors should be aware that holding Shares in a Leveraged Long Fund for periods longer than the relevant rebalancing period when investing in Leveraged Long Funds with a leverage factor of two, for example, is not the same as being double-long on index futures contracts. A double-long position in index futures contracts would match dollar for dollar a long position in the same index futures contracts such that, if the long position increased in value by one dollar, then a double-long position would increase in value by two. By contrast, due to the daily rebalancing of a Leveraged Index, the actual change in the value of a Leveraged Long Fund may differ significantly from the change in the return of its underlying index multiplied by a leverage factor of two (an "**Unbalanced Leveraged Long Return**"). Price volatility may result in long-term returns of a Leveraged Long Fund being significantly different from the Unbalanced Leveraged Long Return. The daily rebalancing of a Leveraged Index may result in the Leveraged Index being under-leveraged or over-leveraged relative to the Unbalanced Leveraged Long Return on the day following such rebalancing. Accordingly, this may result in the underperformance of the Leveraged Long Fund compared to the performance arising from the Unbalanced Leveraged Long Return. Even after taking into account the deduction of (i) financing costs and liquidity spread which are applied in the Leveraged Index methodology and (ii) fees and expenses applied at Fund-level, investors should not expect the actual percentage return for Shares in a Leveraged Long Fund to be equal to the percentage change in the Unbalanced Leveraged Long Return for periods of longer than one day.

An investment in a Leveraged Long Fund exposes an investor to the market risks associated with fluctuations in the relevant underlying index and the value of securities comprised in the underlying index. Due to the leverage inherent in the methodology of a Leveraged Index, this effect will be greater than that for the underlying index.

Inverse Return strategies

A Leveraged Inverse Fund may seek to achieve an Inverse Return either (i) by providing an inverse exposure against the performance of an index on a periodic basis or (ii) by tracking an Inverse Index. A Leveraged Inverse Fund may also incorporate a leverage factor and prospective investors should carefully consider the risk factors set out in the paragraphs above under "*Leveraged Return Strategies*" accordingly.

The Inverse Return is calculated by reference to the performance of an underlying index on a periodic basis. Where an Inverse Return Fund provides an inverse exposure against the performance of an index on a periodic basis, this may result in the periodic rebalancing of an Inverse Return Fund's portfolio. Where an Inverse Return Fund tracks an Inverse Index, this may result in the periodic rebalancing of the relevant

Inverse Index. Investing in an Inverse Return Fund is more risky than investing in a Fund which provides a long return to a particular index. For example, the value of an underlying index could increase by more than 50% on a particular day and this will result in an Inverse Return Fund losing half of its value. In addition, the value of an underlying index could increase by more than 100% on a particular day. This will result in an Inverse Return Fund losing all of its value and will result in the total loss of a Shareholder's investment. Such total loss of investment could occur in a relatively short period of time if there is a material market movement.

Prospective investors should be aware that holding Shares in a Leveraged Inverse Fund for periods longer than the relevant rebalancing period or investing in Leveraged Inverse Funds is not the same as being short index futures contracts. A short position in index futures contracts would match dollar for dollar a long position in the same index futures contracts such that, if the long position increased in value by one dollar, then the short position would decrease in value by one dollar. By contrast, Leveraged Inverse Funds are designed to provide a return that matches the movement in the relevant underlying index as rebalanced periodically (as described above), on an inverse basis. Such periodic rebalancing may result in the Leveraged Inverse Fund's portfolio or Inverse Index (as appropriate) having a higher or lower return than the return on a short position in similar index futures contracts. Accordingly, the return from holding Shares in Leveraged Inverse Funds is not the same as the return from selling the amount of index futures contracts.

Prospective investors should not expect the actual percentage return for Shares in Leveraged Inverse Funds for periods longer than the relevant rebalancing period to be equal to the relevant percentage change in the relevant underlying index on an inverse basis.

The methodology of a Leveraged Inverse Index incorporates an intraday adjustment mechanism whereby if the value of the relevant underlying index increases by more than 25% on a single day, the Leveraged Inverse Index is automatically rebalanced during the same day giving an intraday reset price ("**Intraday Reset Price**"). Such intraday adjustment seeks to protect the Leveraged Inverse Index in the event of extreme market movements on a single day by crystallising the losses incurred up to that point by the Leveraged Inverse Index. This results in (i) the Leveraged Inverse Index being able to reset its leverage against the Underlying Index based on the Intraday Reset Price of the Leveraged Inverse Index and (ii) the Leveraged Inverse Index being able to chart the movements of the underlying index against such Intraday Reset Price for the remainder of the day. However, over time an investor can still lose the value of all of its investment in a Leveraged Inverse Fund but such loss is limited to the value of the investor's holding of Shares of the Leveraged Inverse Fund.

The performance of a Leveraged Inverse Fund is inversely related to a relevant underlying index such that an increase in value of the underlying index will generally result in a decrease in value of the Leveraged Inverse Fund equivalent to twice the percentage change in the underlying index (and vice versa) before addition of the implied interest income and deduction of the implied stock borrowing costs which are applied in the leveraged inverse methodology. Accordingly, investing in a Leveraged Inverse Fund is substantially more risky than investing in a fund which tracks an underlying index and is suitable only for investors who understand the risks and inherent costs associated with an investment in a short and leveraged strategy.

A Leveraged Inverse Fund may not be suitable for investment over extended periods of time. Due to the daily rebalancing of a Leveraged Inverse Index, the actual change in the value of a Leveraged Inverse Fund may differ significantly from the change in the inverse return of the underlying index multiplied by a leverage factor of two (the "**Unbalanced Inverse Leveraged Return**"). Price volatility may also result in long-term returns of a Leveraged Inverse Fund being significantly different from the Unbalanced Inverse Leveraged Return. The daily rebalancing of the Leveraged Inverse Index may result in the Leveraged Inverse Index being under-leveraged or over-leveraged relative to the Unbalanced Inverse Leveraged Return on the day following such rebalancing. Accordingly, this may result in the underperformance of the Leveraged Inverse Fund compared to the performance arising from the Unbalanced Inverse Leveraged Return. Even after taking into account (i) the addition of the interest income and deduction of the stock borrowing costs which are applied in the leveraged inverse methodology and (ii) any fees and expenses applied at Fund-level, investors should not expect the actual percentage return for Shares in a Leveraged Inverse Fund to be equal to the percentage change in the Unbalanced Inverse Leveraged Return for periods of longer than one day.

An investment in a Leveraged Inverse Fund exposes an investor to the market risks associated with fluctuations in the relevant underlying index and the value of securities comprised in that underlying index.

Due to the leverage inherent in the methodology of a Leveraged Inverse Index, this effect will be greater than that for the underlying index.

Cost of Leverage

Other than the periodic fees payable to counterparties under the terms of the relevant OTC Swaps (which are payable out of the assets of all Funds which use OTC Swaps to gain exposure to the relevant Index), Funds which primarily utilise OTC Swaps to generate returns (as indicated in the relevant investment policy of each Fund) will not incur any additional cost at Fund-level in respect of the leverage factor.

Whilst no additional costs relating to leverage are applied at Fund-level, the methodologies of certain Indices tracked by the Funds may include an additional cost element reflecting the implied cost of financing the leveraged strategy (including, for example, the cost of borrowing additional cash or stock to finance the leveraged position). Where an additional cost associated with financing the leveraged strategy is incorporated into the methodology of an Index, this will be specifically described in the investment policy and index description of the corresponding Fund (as applicable). Please refer to the relevant Fund Supplement for further details of the cost of leverage that may be reflected in the methodology of an Index tracked by a particular Fund.

Government intervention

Government or regulatory intervention in the financial markets could result in a Leveraged Long Fund, an Inverse Return Fund or a Leveraged Inverse Return Fund being unable to pursue its investment objective and/or investment policy for reasons which might include the inability of the Investment Manager to enter into an OTC Swap on terms which are of commercial benefit to a Leveraged Long Fund or a Leveraged Inverse Fund or the early termination of an OTC Swap that may already be in place. This, in turn, could lead to suspension and/or winding up of the Fund.

Emerging markets

Funds which invest in, or which seek to track Indices comprised in whole or in part of emerging market securities may be subject to the following additional risk factors:

Political and economic factors

There is in some emerging market countries a higher than usual risk of nationalisation, expropriation or confiscatory taxation, any of which might have an adverse effect on the value of investments in those countries. Emerging market countries may also be subject to higher than usual risks of political changes, government regulation, social instability or diplomatic developments (including war) which could adversely affect the economies of the relevant countries and thus the value of investments in those countries.

The economies of many emerging market countries can be heavily dependent on international trade and accordingly have been and may continue to be adversely affected by trade barriers, managed adjustments in relative currency values, other protectionist measures imposed or negotiated by the countries with which they trade and international economic developments generally.

Counterparty risk and liquidity factors

There can be no assurance that there will be any market for any investments acquired by the Fund or, if there is such a market, that there will exist a secure method of delivery against payment which would, in the event of a sale by or on behalf of the Fund, avoid exposure to counterparty risk on the buyer. It is possible that, even if a market exists for such investment, that market may be highly illiquid. Such lack of liquidity may adversely affect the value or ease of disposal of such investments. There is a risk that counterparties may not perform their obligations and that settlement of transactions may not occur.

Legal factors

The legislative framework in emerging market countries for the purchase and sale of investments and in relation to beneficial interests in those investments may be relatively new and untested and there can be no

assurance regarding how the courts or agencies of emerging market countries will react to questions arising from the Fund's investment in such countries and arrangements contemplated in relation thereto.

There is no guarantee that any arrangements made, or agreement entered into, between the Depositary and any correspondent (i.e. an agent or Sub-custodian) will be upheld by a court of any emerging market country, or that any judgement obtained by the Depositary or the Company against any such correspondent in a court of any jurisdiction will be enforced by a court of any emerging market country.

Reporting and valuation factors

There can be no guarantee of the accuracy of information available in emerging market countries in relation to investments which may adversely affect the accuracy of the value of Shares in the Fund. Accounting practices are in many respects less rigorous than those applicable in more developed markets. Similarly, the amount and quality of information required for reporting by companies in emerging market countries is generally of a relatively lower degree than in more developed markets.

Exchange control and repatriation factors

It may not be possible for a Fund to repatriate capital, dividends, interest and other income from emerging market countries or it may require government consents to do so. A Fund could be adversely affected by the introduction of, or delays in, or refusal to grant any such consent for the repatriation of funds or by any official intervention affecting the process of settlement of transactions. Economic or political conditions could lead to the revocation or variation of consent granted prior to investment being made in any particular country or to the imposition of new restrictions.

Settlement factors

There can be no guarantee of the operation or performance of settlement, clearing and registration of transactions in emerging market countries nor can there be any guarantee of the solvency of any securities system or that such securities system will properly maintain the registration of the Depositary, any relevant Sub-custodian or the Company as the holder of securities. Where organised securities markets and banking and telecommunications systems are underdeveloped, concerns inevitably arise in relation to settlement, clearing and registration of transactions in securities where these are acquired other than as direct investments. Furthermore, due to the local postal and banking systems in many emerging market countries, no guarantee can be given that all entitlements attaching to quoted and over-the-counter traded securities acquired by a Fund, including those related to dividends, can be realised.

Some emerging markets currently dictate that monies for settlement be received by a local broker a number of days in advance of settlement, and that assets are not transferred until a number of days after settlement. This exposes the assets in question to risks arising from acts, omissions and solvency of the broker and to counterparty risk for that period of time.

Custody factors

Local custody services remain underdeveloped in many emerging market countries and there is a transaction and custody risk involved in dealing in such markets. In certain circumstances, the Fund may not be able to recover some of its assets. Such circumstances may include any acts or omissions or the liquidation, bankruptcy or insolvency of a Sub-custodian, retroactive application of legislation and fraud or improper registration of title. In addition, the absence of the Depositary's negligent or intentional failure to properly fulfil its obligations pursuant to the Irish Regulations, the Depositary may not be liable to the Company or its Shareholders for the loss of a financial instrument (as referred to in the Irish Regulations) belonging to a Fund which is not capable of being registered or held in a securities account in the name of the Depositary or a Sub-custodian or being physically delivered to the Depositary. Accordingly, while the liability of the Depositary is not affected by the fact that it has entrusted the custody of the Company's assets to a third party, in markets where custodial and/or settlement systems may not be fully developed, a Fund may be exposed to sub-custodial risk in respect of the loss of such assets in circumstances whereby the Depositary will have no liability. In the event that custody is delegated to local entities that are not subject to effective prudential regulation, including minimum capital requirements and supervision in the jurisdiction concerned, prior Shareholder notice will be provided advising of the risks involved in such delegation.

The costs borne by the Fund in investing and holding investments in such markets will generally be higher than in organised securities markets.

Risks associated with investment in Russia

Where a Fund invests in Russia, investors should be aware that the laws relating to securities investment and regulation in Russia have been created on an ad-hoc basis and do not tend to keep pace with market developments. This may lead to ambiguities in interpretation and inconsistent and arbitrary application of such regulation. In addition, investors should note that the process of monitoring and enforcement of applicable regulations is rudimentary.

Equity securities in Russia are dematerialised and the only legal evidence of ownership is entry of the shareholder's name on the share register of the issuer. The concept of fiduciary duty is not well established and so shareholders may suffer dilution or loss of investment due to the actions of management without satisfactory legal remedy.

Rules regulating corporate governance either do not exist or are undeveloped and offer little protection to minority shareholders.

Risks associated with investment in China

China is one of the world's largest global emerging markets. As with investing in any emerging market country, a Fund investing in China may be subject to greater risk of loss than investments in a developed market. This is due to, among other things, greater market volatility, lower trading volume, greater risk of market shut down, and more governmental limitations on foreign investment policy. The companies in which any such Fund invests may be held to lower disclosure, corporate governance, accounting and reporting standards. In addition, some of the securities held by the relevant Fund may be subject to higher transaction and other costs, foreign ownership limits, the imposition of taxes, or may have liquidity issues which make such securities more difficult to sell at reasonable prices. These factors may increase the volatility and hence the risk of an investment in such a Fund.

Commodities

The prices of commodities are influenced by factors such as, but not limited to, changes in supply and demand for commodities, technological changes which can influence the level of production of commodities, trade protectionism or liberalisation, environmental changes, agricultural, fiscal, monetary, and exchange control programmes and policies of governments (including government intervention in certain markets).

Cyber Security Risk

With the increased use of technologies such as the Internet and the dependence on computer systems to perform business and operational functions, investment companies (such as the Company) and their service providers (including the Investment Manager, any Sub-Investment Managers, Administrator, Depositary and Registrar) may be prone to operational and information security risks resulting from cyber-attacks and/or technological malfunctions. In general, cyber-attacks are deliberate, but unintentional events may have similar effects.

Cyber-attacks include, among others, gaining unauthorised access to digital systems for the purposes of misappropriating assets or sensitive information, stealing or corrupting data maintained online or digitally, preventing legitimate users from accessing information or services on a website, releasing confidential information without authorisation and causing operational disruption or various other forms of cyber security breaches. Successful cyber-attacks against, or security breakdowns of, the Company or the Company's third party service providers including, but not limited to the Investment Manager, a Sub-Investment Manager, the Depositary, the Administrator, the Registrar or other affiliated or third-party service providers (each a "**Service Provider**" and collectively the "**Service Providers**"), may adversely affect the Company or its Shareholders.

For instance, cyber-attacks may interfere with the processing of Shareholder transactions, affect the Company's ability to calculate the Net Asset Value of one or more Funds, cause the release of private

Shareholder information or confidential information relating to the Company or any one or more Funds, impede trading, cause reputational damage, cause disruptions and impact business operations, potentially resulting in financial losses, cause violations of applicable data protection and other laws, and subject the Company to regulatory fines, penalties or financial losses, reimbursement or other compensation costs, and additional compliance costs. Cyber-attacks may render records of assets and transactions of a Fund, Shareholder ownership of Shares, and other data integral to the functioning of the Company inaccessible, inaccurate or incomplete.

The Company may also incur substantial costs for cyber security risk management in order to prevent cyber incidents in the future. While each Service Provider has established business continuity plans and systems designed to minimise the risk of cyber-attacks through the use of technology, processes and controls, there are inherent limitations in such plans and systems, including the possibility that certain risks have not been identified given the evolving nature of the threat of cyber-attacks.

The Company relies on its third-party Service Providers for many of its day-to-day operations, and will be subject to the risk that the protections and protocols implemented by those Service Providers will be ineffective to protect the Company from cyber-attack. Similar types of cyber security risks also are present for issuers of securities in which each Fund invests and for the markets and exchanges on which those securities may be listed or traded which could result in material adverse consequences for such issuers, markets and exchanges and which may cause a Fund's investment in such securities to lose value. The Company cannot control the cyber security plans and systems put in place by issuers in which a Fund invests or by such markets and exchanges.

TAXATION

General

The information given is not exhaustive and does not constitute legal or tax advice. Prospective investors should consult their own professional advisers as to the implications of their subscribing for, purchasing, holding or disposing of Shares under the laws of the jurisdictions in which they may be subject to tax.

The following is a brief summary of certain aspects of Irish taxation law and practice relevant to the transactions contemplated in this Prospectus. It is based on the current law and practice relevant to the transactions contemplated in this Prospectus. As is the case with any investment, there can be no guarantee that the tax position prevailing at the time an investment in the Company is made will endure indefinitely as the basis for, and rates of, taxation are subject to change. Prospective investors should familiarise themselves with and, where appropriate, take advice on the laws and regulations (such as those relating to taxation and exchange controls) applicable to the subscription for, and the holding and repurchase of, Shares in the places of their citizenship, residence and domicile.

Dividends, interest and capital gains (if any) which the Company may receive with respect to its Investments (other than securities of Irish issuers) may be subject to taxes, including withholding taxes, in the countries in which the issuers of Investments are located. The Company may not be able to benefit from reduced rates of withholding tax in double taxation agreements between Ireland and such countries. If this position changes in the future and the application of a lower rate results in a repayment to the Company, the Net Asset Value will not be re-stated and the benefit will be allocated to the existing Shareholders rateably at the time of the repayment.

Irish Taxation

Definitions

“Exempt Irish Investor”

The list below summarises the categories of persons Resident or Ordinarily Resident in Ireland that are exempt from tax on the occurrence of a chargeable event where a Relevant Declaration has been provided to the Company. However, it is important to note that full details and conditions for each type of Exempt Irish Investor can be found in Sections 739B and 739D of the Taxes Act. In all cases where an investor considers they may be an “Exempt Irish Investor” they should contact their own taxation advisors to ensure that they meet all necessary requirements.

- (i) an Intermediary;
- (ii) a Pension Scheme which is an exempt approved scheme within the meaning of Section 774 of the Taxes Act or a retirement annuity contract or a trust scheme to which Section 784 or Section 785 of the Taxes Act applies;
- (iii) a company carrying on a life assurance business within the meaning of Section 706 of the taxes Act;
- (iv) an Investment Undertaking within the meaning of Section 739B(1) of the Taxes Act;
- (v) a Special Investment Scheme within the meaning of Section 737 of the Taxes Act;
- (vi) a Unit Trust, to which Section 731(5)(a) of the Taxes Act applies;
- (vii) a Charity being a person referred to in Section 739D(6)(f)(i) of the Taxes Act;
- (viii) a Qualifying Management Company within the meaning of Section 734(1) of the Taxes Act;
- (ix) a Specified Company within the meaning of Section 734(1) of the Taxes Act;
- (x) certain persons exempt from income tax and capital gains tax by virtue of Section 784A(2) of the Taxes Act where the Shares held are assets of an approved retirement fund or an approved minimum retirement fund or by virtue of Section 848E of the Taxes Act;
- (xi) an investment limited partnership within the meaning of Section 739J of the Taxes Act;
- (xii) a person who is entitled to exemption from income tax and capital gains tax by virtue of Section 787I of the Taxes Act and the Shares are assets of a PRSA;
- (xiii) a credit union within the meaning of Section 2 of the Credit Union Act, 1997;
- (xiv) an Irish Resident company investing in a money market fund being a person referred to in Section 739D(6)(k)(l) of the Taxes Act;

- (xv) the National Pensions Reserve Fund Commission or a Commission investment vehicle;
- (xvi) an Irish Resident company being a person referred to in Section 739D(6)(m) of the Taxes Act;
- (xvii) the National Asset Management Agency (NAMA) being a person referred to in Section 739D(6)(ka) of the Taxes Act;
- (xviii) the National Treasury Management Agency or a Fund investment vehicle (within the meaning of section 37 of the National Treasury Management Agency (Amendment) Act 2014) of which the Minister for Finance is the sole beneficial owner, or the State acting through the National Treasury Management Agency; or
- (xix) any other Irish Resident or Irish Ordinary Resident who may be permitted to own Shares under taxation legislation or by written practice or concession of the Revenue Commissioners without giving rise to a charge to tax in the Company or jeopardising tax exemptions associated with the Company.

“Foreign person”

A person who is neither Resident nor Ordinarily Resident in Ireland for tax purposes who has provided the Company with the Relevant Declaration under Schedule 2B of the Taxes Act and in respect of whom the Company is not in possession of any information that would reasonably suggest that the Relevant Declaration is incorrect or has at any time been incorrect.

“Intermediary”

A person who:-

- carries on a business which consists of, or includes, the receipt of payments from an investment undertaking on behalf of other persons; or
- holds shares in an investment undertaking on behalf of other persons

“Ireland”

The Republic of Ireland.

“Personal Portfolio Investment Undertaking” or “PPIU”

An investment undertaking, under the terms of which some or all of the property of the undertaking may be, or was, selected by, or the selection of some or all of the property may be, or was, influenced by –

- (i) the investor,
- (ii) a person acting on behalf of the investor,
- (iii) a person connected with the investor,
- (iv) a person connected with a person acting on behalf of the investor,
- (v) the investor and a person connected with the investor, or
- (vi) a person acting on behalf of both the investor and a person connected with the investor.

“Resident in Ireland”/ “Ordinarily Resident in Ireland”

“Resident in Ireland” means any person resident in Ireland for tax purposes. “Ordinarily Resident in Ireland” means any person ordinarily resident in Ireland for tax purposes. “Irish Resident” shall be construed accordingly.

“Residence – Individual”

An individual will be regarded as being resident in Ireland for a tax year if s/he:

1. spends 183 days or more in Ireland in that tax year; or
2. has a combined presence of 280 days in Ireland, taking into account the number of days spent in Ireland in that tax year together with the number of days spent in Ireland in the preceding year.

Presence in a tax year by an individual of not more than 30 days in Ireland will not be reckoned for the purpose of applying the two-year test. Presence in Ireland for a day means the personal presence of an individual at any time during that day.

“Ordinary Residence –Individual”

An individual who has been resident in Ireland for three consecutive tax years becomes ordinarily resident with effect from the commencement of the fourth tax year.

For example, an individual who is resident in Ireland for the tax years:

- 1 January 2012 to 31 December 2012,
- 1 January 2013 to 31 December 2013, and
- 1 January 2014 to 31 December 2014

will become ordinarily resident with effect from 1 January 2015.

An individual who has been ordinarily resident in Ireland ceases to be ordinarily resident at the end of the third consecutive tax year in which s/he is not resident.

“Residence – Company”

Irish tax legislation provides that a company incorporated in Ireland will be regarded for all tax purposes as being resident in Ireland. Irrespective of where a company is incorporated a company which has its central management and control in Ireland is resident in Ireland irrespective of where it is incorporated. A company which does not have its central management and control in Ireland but which is incorporated in Ireland is resident in Ireland except where: -

1. the company or a related company carries on a trade in Ireland, and either the company is ultimately controlled by persons resident in EU Member States or countries with which Ireland has a double taxation treaty, or the company or a related company are quoted companies on a recognised Stock Exchange in the EU or in a tax treaty country, or
2. the company is regarded as not resident in Ireland under a double taxation treaty between Ireland and another country.

Where an Irish incorporated company is managed and controlled in another Relevant Territory, it must be regarded as tax resident in that Relevant Territory in order to avail of the exceptions to the incorporation test. If an Irish incorporated company is not regarded as tax resident in that Relevant Territory, the Irish incorporated company will remain an Irish tax resident company.

Finance Act 2014 introduced changes to the above residency rules. From 1 January 2015, a company incorporated in Ireland will be automatically considered resident in Ireland for tax purposes, unless it is considered resident in a jurisdiction with which Ireland has a double tax agreement. A company incorporated in a foreign jurisdiction that is centrally managed and controlled in Ireland will continue to be treated as resident in Ireland for tax purposes.

Companies incorporated prior to 1 January 2015 have until 1 January 2021 before the new corporate residency provisions take effect.

It should be noted that the determination of a company's residence for tax purposes can be complex in certain cases and investors are referred to the specific legislative provisions which are contained in section 23A of the Taxes Act.

“Relevant Period”

An eight year period beginning with the acquisition of the Shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

“Relevant Declaration”

A completed and signed declaration as set out in Schedule 2B of the Taxes Act. A declaration by a non-Irish resident investor or an Intermediary is only a Relevant Declaration where the Investment Undertaking has no reason to believe the information contained in the Relevant Declaration is not, or is no longer materially correct.

“Relevant Territory” means:

- a Member State of the European Community; or

- a territory (not being such a Member State) with the government of which arrangements have been made.

“Taxable Irish Person”

Any person other than:

- a Foreign Person, or
- an Exempt Irish Investor.

“Taxes Act”, the Taxes Consolidation Act 1997 (of Ireland) as amended.

The Company

The Company is an Investment Undertaking as defined in Section 739B of the Taxes Act and therefore, under Irish law and practice, will not be subject to Irish tax on its income or gains other than gains arising on chargeable events.

Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of Shares or on the ending of a Relevant Period.

Where Shares are held in a Recognised Clearing and Settlement System

Any transaction in relation to or in respect of Shares in the Company which are held in a Recognised Clearing and Settlement System as designated by the Irish Revenue Commissioners is not considered a chargeable event, irrespective of the tax status of the Shareholder holding the Shares. Therefore, the Company will not be liable to operate tax where Shares are held in a Recognised Clearing and Settlement System. However, a Shareholder may have an obligation to self-account for Irish tax.

In the case of an individual, tax currently at the rate of 41% should be accounted for by the Shareholder in respect of any distributions and gains arising to the individual Shareholder on an encashment, redemption or transfer of Shares by a Shareholder. Where the investment constitutes a personal portfolio investment undertaking (“**PPIU**”), tax at a rate of 60% should be accounted for by the Shareholder. This rate applies where the individual Shareholder has correctly included details of the income in a timely tax return.

Where the Shareholder is a company, any payment will be treated as income tax chargeable to tax under Case IV of Schedule D of the Taxes Act.

Where Shares are not held in a Recognised Clearing and Settlement System

Where the Shares are not held in a Recognised Clearing and Settlement System, the Company will not be subject to Irish tax on chargeable events for certain types of investors including, *inter alia*, non-resident investors (see definitions section on residence for further information) and particular types of Irish investors including charities, pension schemes and life assurance companies which are known as “Exempt Irish Investors”, if the Relevant Declaration has been provided to the Company. Other circumstances where the Company will not be subject to Irish tax on a potentially chargeable event are set out in the Taxes Act. Such circumstances include fund reorganisations and amalgamations.

Where the Company is liable to account for Irish tax on gains arising on chargeable events the rate of tax for Shareholders (other than Shareholders which are companies that have provided the required declaration) is 41% for regular distributions (where payments are made annually or at more frequent intervals). The rate of tax for Shareholders (other than Shareholders which are companies that have provided the required declaration) is 41% for all other chargeable events, including a disposal of Shares. Tax at a rate of 25% will be deducted on distributions and other chargeable events for Shareholders that are companies provided the required declaration is in place.

The ending of a Relevant Period is also considered a chargeable event. Similar to other forms of chargeable event a gain may arise unless the Shareholder giving rise to the chargeable event is 1) neither Resident in Ireland nor Ordinarily Resident in Ireland or 2) an Exempt Irish Investor (provided in either case the investor has provided a Relevant Declaration).

Where less than 10% of the net asset value of Shares in the Company is held by Taxable Irish Persons the Company will elect not to apply a withholding tax to a deemed disposal of Shares in the Company and will advise the Irish Revenue Commissioners of this election. Shareholders who are Taxable Irish Persons will therefore be required to return any gain and account for appropriate tax on the deemed disposal directly to the Irish Revenue Commissioners. Shareholders should contact the Company/ Administrator to ascertain whether the Company has made such an election in order to establish their responsibility to account to the Irish Revenue Commissioners for any relevant tax.

There are provisions to ensure double taxation does not arise where an actual disposal follows a deemed disposal. Should the tax arising on an actual disposal of Shares exceed the tax paid on a deemed disposal, a refund of excess tax may be available.

However where less than 15% of the net asset value of Shares in the Company is held by Taxable Irish Persons the Company will elect not to repay Shareholders any overpaid tax and as such Shareholders must seek repayment of any overpaid tax directly from the Irish Revenue Commissioners. Shareholders should contact the Company/Administrator to ascertain whether the Company has made such an election in order to establish whether they must seek repayment of any overpaid tax directly from the Irish Revenue Commissioners.

Recovery of tax by the Company

The Company is entitled to deduct any tax arising from payments to the Shareholder or where no payment is involved to cancel or appropriate sufficient Shares of the Shareholder to meet the tax liability.

Other relevant Irish taxes

As an Investment Undertaking, distributions paid by the Company should not be subject to Irish dividend withholding tax in most circumstances.

Dividends received by the Company from investment in Irish equities may be subject to Irish dividend withholding tax (currently 20%). However, where the Company makes an appropriate declaration it will be entitled to receive such dividends on Irish equities without deduction of tax.

Yearly interest received by the Company from other Irish tax resident companies is generally not subject to Irish withholding tax.

Generally no stamp duty or other tax is payable in Ireland on the issue, redemption or transfer of Shares in the Company.

Distributions and interest receipts on securities issued in countries other than Ireland may be subject to taxes including withholding taxes imposed by such countries. The Company may not be able to benefit from a reduction in the rate of withholding tax under any double taxation agreement in operation between Ireland and other countries.

Foreign interest, dividends and other annual payments entrusted to any person in Ireland for payment to the Company are exempt from Irish encashment tax.

Taxation of Shareholders

Interpretation

For the purpose of determining the Irish tax liability of any Shareholder, payments made by the Company to a Shareholder who holds Shares which are held in a Recognised Clearing and Settlement System, will be deemed to be payments from which tax has not been deducted. A Shareholder must therefore self-account for Irish tax, if required.

Where Shares are denominated in currency other than in Euro, certain Irish Resident Shareholders will be liable to tax on chargeable gains at 33% on the foreign exchange difference between the foreign currency and Euro for the duration of the Shareholding period. Persons who are neither Resident nor Ordinarily

Resident in Ireland would normally only be liable to this charge if the Shares are held for the purpose of a trade carried on through a branch or agency in Ireland.

Where a Taxable Irish Investor realises a loss on a disposal of Shares, that loss cannot be utilised unless a gain from the Shares would be considered trading income.

Taxation

Provided the Company is in possession of a Relevant Declaration, Exempt Irish Investors and Shareholders who are neither Resident nor Ordinarily Resident in Ireland will not be subject to Irish tax on income from their Shares or gains made on the disposal of their Shares unless they are held in connection with a trade or business carried on in Ireland through a branch or agency. Where a Shareholder does not meet the conditions to make a Relevant Declaration or a Relevant Declaration has not been correctly made gains arising on chargeable events are taxed as follows:

1. Non-Corporate Shareholders

Non-corporate Taxable Irish Investors will not be subject to further Irish tax on income from their Shares or gains made on the disposal of their Shares where tax has been correctly deducted by the Company on payments received by the Shareholder. They may however be liable to tax on foreign currency gains as outlined in the interpretation section above.

Any non-corporate Taxable Irish Investors who receive a payment from the Company from which tax has not been deducted will be taxable on that payment. However, where the payment is in respect of the cancellation, redemption, repurchase or transfer of Shares or the ending of a Relevant Period, such income shall be reduced by the amount of the consideration in money or money's worth given by the Shareholder for the acquisition of the Shares. The rate of tax will depend on whether the payment is correctly included in a return made by that person. Where the payment is correctly included in a return the payment is subject to tax at 41% for distributions and for all other payments. Where the payment is not correctly included in a tax return higher rates will apply. Such Shareholders may also be liable to tax on foreign currency gains as outlined in the interpretation section above.

Specific anti avoidance provisions apply to Irish tax resident individuals who hold units in investment undertakings which are PPIUs. Depending on individuals' circumstances, an investment undertaking may be considered a PPIU in relation to some, none or all individual investors i.e. it will be a PPIU only in respect of those individuals who can "influence" selection. Any gain arising on a chargeable event in relation to an investment undertaking which is a PPIU in respect of an individual, will be taxed at a rate of 60%. This rate can be increased in certain circumstances where the Irish investor in a PPIU does not include details in their tax return. Specific exemptions apply where the property invested in has been widely marketed and made available to the public. As a result, it is unlikely the provisions in respect of PPIUs will apply in respect of this investment undertaking.

2. Corporate Shareholders

Corporate Taxable Irish Investors who receive distributions (where such payments are made annually or at more frequent intervals) from which tax has been deducted will be treated as having received an annual payment chargeable to tax under Case IV of Schedule D from which tax at the 25% rate had been deducted. Such Shareholders may also be liable to tax on foreign currency gains as outlined above.

Corporate Taxable Irish Investors who receive payments (other than distributions which are made annually or at more frequent intervals) from which tax has been deducted will not be subject to further Irish tax on the payments received, (this is subject to the proviso in the following paragraph in respect of Shares held in connection with a trade).

Corporate Taxable Irish Investors whose Shares are held on trading account in connection with a trade will be taxable on any income or gains (grossed up for any tax deducted) as part of that trade with a set off against corporation tax payable for any tax deducted by the Company.

Any Corporate Shareholders who are Resident in Ireland and receive a payment from the Company from which tax has not been deducted will be fully taxable on that payment under Case IV of Schedule D (except where the Shares are held on a trading account in which case they are taxable under Case I of Schedule D). However, where the payment is in respect of the cancellation, redemption, repurchase or transfer of Shares or the ending of a Relevant Period, such income shall be reduced by the amount of the consideration in money or money's worth given by the Shareholders for the acquisition of the Shares. Such Shareholders may also be liable to tax on foreign currency gains as outlined in the interpretation section above.

Capital Acquisitions Tax

The disposal of Shares in the Company by the Shareholders will not generally be subject to Irish gift or inheritance tax (Capital Acquisition Tax) at 33% provided that the Company falls within the definition of investment undertaking (within the meaning of Section 739B of the Taxes Act) and that: (a) at the date of the gift or inheritance, the donee or successor is neither domiciled nor ordinarily resident in Ireland; (b) at the date of the disposition, the Shareholder disposing of the Shares is neither domiciled nor ordinarily resident in Ireland; and (c) the Shares are comprised in the gift or inheritance at the date of such gift or inheritance and at the "valuation date" (as defined for Irish Capital Acquisitions Tax purposes).

Stamp Duty

Generally, no stamp duty is payable in Ireland on the issue, transfer, repurchase or redemption of Shares in the Company. Where any subscription for or redemption of Shares is satisfied by the in specie transfer of Irish securities or other Irish property, Irish stamp duty may arise on the transfer of such securities or property.

No Irish stamp duty will be payable by the Company on the conveyance or transfer of stock or marketable securities provided that the stock or marketable securities in question have not been issued by a company registered in Ireland and provided that the conveyance or transfer does not relate to any immovable property situated in Ireland or any right over or interest in such property or to any stocks or marketable securities of a company (other than a company which is an investment undertaking within the meaning of Section 739B of the Taxes Act) which is registered in Ireland.

No stamp duty will arise on reconstructions or amalgamations of Investment Undertakings under Section 739H of the Taxes Act, provided the reconstructions or amalgamations are undertaken for bona fide commercial purposes and not for the avoidance of tax.

Refunds

Where tax is withheld by the Company on the basis that no Relevant Declaration has been filed with the Company by the Shareholders, Irish legislation does not provide for a refund of tax to non-corporate Shareholders or to corporate Shareholders who are not Resident in Ireland and who are not within the charge to Irish corporation tax other than in the following circumstances:

1. the appropriate tax has been correctly returned by the Company and within one year of the making of the return the Company can prove to the satisfaction of the Revenue Commissioners that it is just and reasonable for such tax which has been paid, to be repaid to the Company; or
2. where a claim is made for a refund of Irish tax under Sections 189, 189A and 192 (relieving provisions relating to certain incapacitated persons).

Reporting to the Irish Revenue Commissioners in relation to Irish investors

There is an obligation on Irish investment undertakings such as the Company to make an annual return to the Irish Revenue Commissioners in relation to Irish investors and the value of their holdings. However, Shares held in a Recognised Clearing and Settlement System are not subject to these reporting obligations.

FATCA and the CRS

The Hiring Incentives to Restore Employment Act was signed into US law on 18 March 2010 and includes foreign account tax compliance provisions generally known as the Foreign Account Tax Compliance Act ("**FATCA**"). Under FATCA, the Company is required to report certain information about "Specified United States persons" (as defined under FATCA) that own, directly or indirectly, an interest in the Company pursuant to the Intergovernmental Agreement (an "**IGA**") between the United States and Ireland (the "**Ireland IGA**") and any applicable Irish legislation or regulations implementing the Ireland IGA. Such information will be reported on an annual basis directly to the Irish Revenue Commissioners, who will then automatically exchange such information with the US Internal Revenue Service. If the Company does not comply with these obligations, it will be subject to a 30 per cent withholding tax on certain payments to it of U.S. source income (including interest and dividends) (from 1 July 2014) and proceeds from the sale of property that could give rise to U.S. source interest or dividends (from 1 January 2019) (each, a "**FATCA Deduction**"), and may be subject to financial penalties or other sanctions under the relevant Irish legislation.

It should be noted that a number of other jurisdictions have entered into or are committed to entering into IGAs for the automatic cross-border exchange of tax information similar to the Ireland IGA, including, in particular, under a regime known as the Common Reporting Standard ("**CRS**"), developed by the Organisation for Economic Co-operation and Development ("**OECD**"). The CRS is a new, single global standard on Automatic Exchange of Information ("**AEOI**"). It should be noted that the CRS replaces the EU Directive on taxation of savings income in the form of interest payments (Council Directive 2003/48/EC), which was repealed with effect from 1 January 2016 subject to transitional arrangements. The CRS draws on earlier work of the OECD and the EU, global anti-money laundering standards and, in particular, the Model FATCA Intergovernmental Agreement. Under the CRS, participating jurisdictions will be required to exchange certain information held by financial institutions regarding their non-resident investors. The CRS has been effective in Ireland since 1 January 2016.

Collection and exchange of information under the CRS

For the purposes of complying with its obligations under the CRS as implemented in Irish law and to avoid the imposition of financial penalties thereunder, the Company is required to collect certain information in respect of each non-Irish resident Shareholder (and the direct or indirect individual beneficial owners of the Shares (if any)) and, to the extent required pursuant to the CRS, to annually report such information to the Irish Revenue Commissioners. Such information includes the name, address, jurisdiction of residence, tax identification number (TIN), date and place of birth (as appropriate) of the non-Irish resident Shareholder and (if relevant) direct or indirect beneficial owners of the Shares; the "account number" and the "account balance" or value at the end of each calendar year; and the gross amount paid or credited to the Shareholder during the calendar year (including aggregate redemption payments). Such information in relation to all non-Irish resident Shareholders will in turn be exchanged, in a secure manner, by the Irish Revenue Commissioners with the tax authorities of other relevant participating jurisdictions under the CRS in accordance with the requirements of (and solely for the purposes of compliance with) the CRS.

Any person who wishes to make a related complaint may submit such complaint to the UK Facilities Agent for transmission to the Manager. Further information in relation to the CRS can be found on the AEOI (Automatic Exchange of Information) webpage on <https://www.revenue.ie/en/companies-and-charities/international-tax/aeoi/what-is-aeoi.aspx>.

Each investor agrees to provide the Company with information and documentation prescribed by applicable law and such additional documentation reasonably requested by the Company as may be necessary or desirable for the Company to comply with its obligations under FATCA, the Irish IGA and the CRS.

While the Company will seek to satisfy its obligations under FATCA, the Irish IGA, the CRS and the associated implementing legislation in Ireland to avoid the imposition of any FATCA Deduction, financial penalties and other sanctions, the ability of the Company to satisfy such obligations may depend on receiving relevant information and/or documentation about each Shareholder and the direct and indirect beneficial owners of the Shares (if any). There can be no assurance that the Company will be able to satisfy such obligations. If a Shareholder causes the Company to suffer a FATCA Deduction, financial penalty, or other cost, expense or liability, or the Company is required to make a FATCA Deduction from such Shareholder, the Company may compulsorily redeem any Shares of such Shareholder and take any action required to ensure that the FATCA Deduction or other financial penalty and associated costs and expenses are economically borne by such Shareholder.

All prospective investors and Shareholders should consult with their respective tax advisers regarding the possible implications of FATCA, the Irish IGA and the CRS on their investments in the Company.

United Kingdom Taxation

General

The statements on taxation below are intended to be a general summary of certain United Kingdom tax consequences that may arise on the Company and its Shareholders. This is not a comprehensive summary of all technical aspects of the structure and is not intended to constitute legal or tax advice to investors. Prospective investors should familiarise themselves with and, where appropriate, should consult their own professional advisers on the overall tax consequences of investing in the Company. The statements relate to investors entering into the Company for investment purposes. It does not deal with the position of certain classes of Shareholders, such as dealers in securities and insurance companies, trusts and persons who have acquired their Shares by reason of their or another's employment. As is the case with any investment, there can be no guarantee that the tax position or proposed tax position prevailing at the time an investment in the Company is made will endure indefinitely. The tax consequences for each investor of investing in the Company may depend upon the investor's own tax position and upon the relevant laws of any jurisdiction to which the investor is subject. The statements below relate to the United Kingdom tax implications of a United Kingdom resident and domiciled individual, or United Kingdom resident company, investing in the Company. The tax consequences may differ for investors who are not resident in the United Kingdom or are not domiciled in the United Kingdom for tax purposes. Investors and prospective investors should seek their own professional tax advice. The statements are based on current tax legislation and HM Revenue and Customs practice, both of which are subject to change at any time, possibly with retrospective effect.

The Company

The Directors intend that the affairs of the Company should be managed and conducted so that it does not become resident in the United Kingdom for United Kingdom taxation purposes. Accordingly, and provided that the Company does not carry on a trade in the United Kingdom through a fixed place of business or agent situated therein that constitutes a permanent establishment for United Kingdom tax purposes, the Company will not be subject to United Kingdom corporation tax or income tax on its profits, save as noted below in relation to possible tax on certain United Kingdom source income or other amounts. The Directors intend that the affairs of the Company are conducted so that no such permanent establishment will arise insofar as this is within their control, but it cannot be guaranteed that the conditions necessary to prevent any such permanent establishment coming into being will at all times be satisfied.

Certain interest and other amounts received by the Company which have a United Kingdom source may be subject to withholding or other taxes in the United Kingdom.

Shareholders

Subject to their personal circumstances, individual Shareholders resident in the United Kingdom for taxation purposes will be liable to United Kingdom income tax in respect of any dividends or other distributions of income by the Company, whether or not such distributions are reinvested, together with their share of income retained by a reporting fund (as to which see below). The nature of the charge to tax and any entitlement to a tax credit in respect of such dividends or distributions will depend on a number of factors which may include the composition of the relevant assets of the Company and the extent of a Shareholder's interest in the Company.

Each of the Funds will be deemed to constitute an "offshore fund" for the purposes of the offshore fund legislation in Part 8 of the Taxation (International and Other Provisions) Act 2010 ("**TIOPA 2010**"). Under this legislation, any gain arising on the sale, redemption or other disposal of shares in an offshore fund (which may include an in specie redemption by the Company) held by persons who are resident in the United Kingdom for tax purposes will be taxed at the time of such sale, disposal or redemption as income and not as a capital gain. This does not apply, however, where a Fund is accepted by HM Revenue & Customs as a "reporting" fund throughout the period during which shares in the Company have been held.

The Directors have obtained approval from HM Revenue & Customs for each Fund to be a reporting fund with effect from 1 July 2010 or, if later, first issue. For each accounting period, the Company must report to investors 100 percent of the net income attributable to each Fund, as computed in its accounts, that report being made within six months of the end of the relevant accounting period. United Kingdom resident individual investors will be taxable on such reported income, whether or not the income is actually distributed and whether or not a gain arises or would, in the absence of reporting fund status, have arisen on redemption. Income for these purposes is computed by reference to income for accounting purposes as adjusted for certain expenditure, capital and other items. In particular, Shareholders should note that any profit derived from trading activities will be regarded as reportable income. If the Fund's activities prove to be trading in whole or part the annual reportable income of Shareholders and their corresponding tax liability is likely to be significantly greater than would otherwise be the case. Although the Directors will endeavour to ensure that approval of each Fund as a reporting fund is maintained, this cannot be guaranteed.

Provided each Fund is approved as a reporting fund throughout a Shareholder's period of ownership, gains realised on the disposal of Shares in such Funds by United Kingdom taxpayers will be subject to taxation as capital and not as income unless the investor is a dealer in securities. Any such gains may accordingly be reduced by any general or specific United Kingdom exemption available to a Shareholder and may result in certain investors incurring a proportionately lower United Kingdom taxation charge.

Shareholders should note that as the Company does not intend to declare dividends in respect of any Funds for accounting periods for which reporting fund status is obtained, reportable income under the reporting fund rules will be attributed only to those Shareholders who remain as Shareholders at the end of the relevant accounting period. Regulations enable (but do not oblige) a reporting fund to elect to operate income equalisation or to make income adjustments, which should minimise this effect. The Directors reserve the right to make such an election in respect of any Fund.

Chapter 6 of Part 3 of the Offshore Funds (Tax) Regulations 2009 ("**the Regulations**") provides that specified transactions carried out by a UCITS fund, such as the Company, will not generally be treated as trading transactions for the purposes of calculating the reportable income of reporting funds that meet a genuine diversity of ownership condition. In this regard, the Directors confirm that all Funds are primarily intended for and marketed to the categories of professional and institutional investors although subscriptions may also be accepted from all other classes of investor. For the purposes of the Regulations, the Directors undertake that these interests in the Company will be widely available and will be marketed and made available sufficiently widely to reach the intended categories of investors and in a manner appropriate to attract those kinds of investors.

Chapter 3 of Part 6 of CTA 2009 provides that, if at any time in an accounting period a corporate investor within the charge to United Kingdom corporation tax holds an interest in an offshore fund and there is a time in that period when that fund fails to satisfy the "non-qualifying investments test", the interest held by such corporate investor will be treated for the accounting period as if it were rights under a creditor relationship for the purposes of the rules relating to the taxation of most corporate debt contained in CTA 2009 (the "**Corporate Debt Regime**"). Acquisitions of Shares will (as explained above) constitute interests in an offshore fund. In circumstances where the test is not so satisfied (for example where the relevant Fund invests in debt instruments, securities or cash and the market value of such investments exceeds 60 percent of the market value of all its investments) Shares will be treated for corporation tax purposes as within the Corporate Debt Regime. As a consequence, where the test is not met all returns on the Shares in respect of each corporate investor's accounting period during which the test is not met (including gains, profits and deficits and exchange gains and losses) will be taxed or relieved as an income receipt or expense on a fair value accounting basis. Accordingly, a corporate investor in the Company may, depending on its own circumstances, incur a charge to corporation tax on an unrealised increase in the value of its holding of Shares (and, likewise, obtain relief against corporation tax for an unrealised reduction in the value of its holding of Shares). The effect of the provisions relating to holdings in controlled foreign companies (outlined below) would then be substantially mitigated. In 2013, the United Kingdom Government consulted on the future of the Corporate Debt Regime, including proposals potentially to reform this aspect of the regime.

Shareholders resident in the United Kingdom for taxation purposes should note that Chapter 2 of Part 13 of the Income Tax Act 2007 contains anti-avoidance provisions dealing with the transfer of assets to overseas persons, under which income accruing to the Company may be attributed to such a Shareholder and may render them liable to taxation in respect of undistributed income and profits of the Company. This legislation will, however, not apply if such a Shareholder can satisfy HM Revenue & Customs that either:

- (i) it would not be reasonable to draw the conclusion from all the circumstances of the case, that the purpose of avoiding liability to taxation was the purpose, or one of the purposes, for which the relevant transactions or any of them were effected;
- (ii) all the relevant transactions are genuine commercial transactions and it would not be reasonable to draw the conclusion, from all the circumstances of the case, that any one or more of the transactions was more than incidentally designed for the purpose of avoiding liability to taxation; or
- (iii) in respect of a transaction on or after 6 April 2012, all the relevant transactions were genuine, arm's length transactions and if the Shareholder were liable to tax under Chapter 2 of Part 13 in respect of such transactions such liability would constitute an unjustified and disproportionate restriction on a freedom protected by Title II or IV of Part Three of the Treaty on the Functioning of the European Union or Part II or III of the EEA Agreement.

Part 9A of TIOPA 2010 subjects United Kingdom resident companies to tax on the profits of certain companies not so resident in which they have an interest. The provisions, broadly, affect United Kingdom resident companies which hold, alone or together with certain other associated persons, shares which confer a right to at least 25 percent of the profits of a non-resident company ("a 25% Interest"), in particular, where that non-resident company is controlled by persons who are resident in the United Kingdom and is subject to a lower level of taxation in its territory of residence. The legislation is not directed towards the taxation of capital gains. In addition, these provisions should generally not apply if the Shareholder reasonably believes that it does not hold a 25% Interest in the Company throughout the relevant accounting period.

The attention of persons resident in the United Kingdom for taxation purposes is drawn to the provisions of section 13 of the Taxation of Chargeable Gains Act 1992 ("section 13"). Section 13 applies to a "participator" for United Kingdom taxation purposes (which term includes a shareholder) if at any time when a gain accrues to the Company which constitutes a chargeable gain for those purposes, at the same time, the Company is itself controlled by a sufficiently small number of persons so as to render the Company a body corporate that would, were it to have been resident in the United Kingdom for taxation purposes, be a "close" company for those purposes. The provisions of section 13 could, if applied, result in any such person who is a "participator" in the Company being treated for the purposes of United Kingdom taxation of chargeable gains as if a part of any chargeable gain accruing to the Company had accrued to that person directly, that part being equal to the proportion of the gain that corresponds on a just and reasonable basis to that person's proportionate interest in the Company as a "participator". No liability under section 13 could be incurred by such a person where such proportion that could be attributed to that person and any persons connected with him for United Kingdom tax purposes does not exceed one quarter of the gain and, in addition, exemptions also apply where none of the acquisition, holding or disposal of the assets had a tax avoidance main purpose or where the relevant gains arise on the disposal of assets used only for the purposes of genuine, economically significant business activities carried on outside the United Kingdom. In the case of United Kingdom resident individuals domiciled outside the United Kingdom, section 13 applies subject to the remittance basis in particular circumstances.

Stamp duty reserve tax should not apply to agreements to transfer the Shares in the Company since the Company is not incorporated in the United Kingdom, the Shares will not be registered on any register kept in the United Kingdom and they will not be paired with shares issued by a body corporate incorporated in the United Kingdom. Legal instruments transferring Shares in the Company should not be within the scope of United Kingdom Stamp Duty provided that such instruments are executed outside the United Kingdom.

United Kingdom resident investors are also referred to the disclosure headed "*TAXATION - Irish Taxation - FATCA and the CRS*" on page 100.

United States Federal Income Taxation

Investors' Reliance on U.S. Federal Tax Advice in this Prospectus

As with any investment, the tax consequences of an investment in Shares may be material to an analysis of an investment in the Company. This Prospectus discusses certain U.S. federal income tax consequences only generally and does not purport to deal with all of the U.S. federal income tax consequences applicable to the Company or to all categories of investors, some of whom may be subject to special rules. In particular, because U.S. persons, as defined for U.S. federal income tax purposes, generally will not be permitted to invest in the Company, the discussion does not address the U.S. federal income tax consequences to such persons of an investment in Shares. The following discussion assumes that no such U.S. person owns or will own directly or indirectly, or will be considered as owning by reason of certain tax law rules of constructive ownership, any Shares of the Company or any Fund. The Company does not, however, guarantee that will always be the case. Furthermore, the discussion assumes that neither the Company nor any Fund will hold any interests (other than as a creditor) in any "United States real property holding corporations" as defined in the U.S. Internal Revenue Code of 1986, as amended (the "Code"). Each prospective investor is urged to consult such investor's tax advisor regarding the specific consequences of an investment in the Company under applicable U.S. federal, state, local and foreign income tax laws as well as with respect to any specific gift, estate and inheritance tax issues.

As used herein, a "U.S. person," as defined for U.S. federal income tax purposes, includes a U.S. citizen or resident alien of the United States (as defined for U.S. federal income tax purposes); any entity treated as a corporation for U.S. tax purposes that is created or organized in, or under the laws of, the United States or any state thereof (including the District of Columbia); any estate, the income of which is subject to U.S. income taxation regardless of source; and any trust over whose administration a court within the United States has primary supervision and all substantial decisions of which are under the control of one or more U.S. fiduciaries. Persons who have lost their U.S. citizenship and who live outside the United States may nonetheless, in some circumstances, be treated as U.S. persons for U.S. federal income tax purposes. Persons who are aliens as to the United States but who have spent 183 days or more in the United States in any of the last two years should check with their tax advisors as to whether they may be considered residents of the United States.

If a partnership holds Shares, the U.S. federal income tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. Partners in a partnership holding Shares are encouraged to consult their tax advisors.

The following discussion assumes for the sake of convenience that the Company, including each Fund thereof, will be treated as a single entity for U.S. federal income tax purposes. The law in this area is uncertain. Thus, it is possible that the Company may adopt an alternative position, treating each Fund of the Company as a separate entity for U.S. federal income tax purposes. There can be no assurance that the U.S. Internal Revenue Service will not take a contrary view to that taken by the Company.

Taxation of the Company

The Company generally intends to conduct its affairs so that it will not be deemed to be engaged in trade or business in the United States and, therefore, none of its income will be treated as "effectively connected" with a U.S. trade or business carried on by the Company. If none of the Company's income is effectively connected with a U.S. trade or business carried on by the Company, certain categories of income (including dividends (and certain substitute dividends and other dividend equivalent payments from equity-linked swaps and other FDIs) and certain types of interest income), if any, derived by the Company from U.S. sources will be subject to a U.S. tax of 30 percent (unless eligible for a reduced treaty rate), which tax is generally withheld from such income. Certain other categories of income, generally including most forms of U.S. source interest income (e.g. interest and original issue discount on portfolio debt obligations (which may include United States Government securities, original issue discount obligations having an original maturity of 183 days or less, and certificates of deposit), and capital gains (including those derived from options transactions), will not be subject to this 30 percent withholding tax. If, on the other hand, the Company derives income which is effectively connected with a U.S. trade or business carried on by the Company, such income will be subject to U.S. federal income tax at the graduated rates applicable to U.S. domestic corporations, and the Company would also be subject to a branch profits tax on earnings removed, or

deemed removed, from the United States.

As stated above, the Company generally intends to conduct its activities so as to avoid being treated as engaged in a trade or business in the United States for U.S. federal income tax purposes. Specifically, the Company intends to qualify for safe harbors in the Code, pursuant to which the Company will not be treated as engaged in such a business if its activities are limited to trading in stocks and securities or commodities for its own account. These safe harbors apply regardless of whether the trading is done by the Company or a resident broker, commission agent, custodian or other agent, or whether such agent has discretionary authority to make decisions in effecting the transactions. The safe harbors do not apply to a dealer in stocks or securities or commodities; the Company does not intend to be such a dealer. In addition, the commodities trading safe harbor applies only if the commodities are of a kind customarily dealt in on an organized commodity exchange, and if the transaction is of a kind customarily consummated at such place.

It should be noted, however, that only limited guidance, including proposed regulations that have yet to be finalized, exists with respect to the tax treatment of non-U.S. persons who effect transactions in securities and commodities derivative positions (including currency derivatives) for their own account within the United States. For example, as currently proposed, the regulations provide a safe harbour with respect to trading interests in currencies and currency derivatives only if the currencies are of a kind customarily dealt in on an organized commodity exchange. Future guidance may cause the Company to alter the manner in which it engages in any such activity within the United States.

The Company will have due diligence and reporting obligations pursuant to FATCA. Prospective investors should refer to the disclosure entitled “TAXATION – Irish Taxation – FATCA and the CRS” on page 100 for further information regarding the Company’s obligations under FATCA and the Ireland IGA.

Taxation of Shareholders

The U.S. tax consequences to Shareholders of distributions from the Company and of dispositions of Shares generally depends on the Shareholder’s particular circumstances, including whether the Shareholder conducts a trade or business within the United States or is otherwise taxable as a U.S. person.

Shareholders will be required to furnish appropriate documentation certifying as to their non-U.S. tax status, together with such additional tax information as the Directors may from time to time request. Failure to provide requested information may subject a Shareholder to liability for any resulting withholding tax, U.S. tax information reporting and/or mandatory redemption, transfer or other termination of the Shareholder’s interest in its Shares.

SCHEDULE I

Stock Exchanges and Regulated Markets

With the exception of permitted investment in unlisted securities or in units of open-ended collective investment schemes, investment in securities will be restricted to those stock exchanges and markets in this Prospectus (as may be updated from time to time), as set out below:

- (a) all stock exchanges of the Member States of the European Union, Australia, Canada, Hong Kong, Iceland, Japan, Lichtenstein, New Zealand, Norway, Switzerland and the United States; and
- (b) the following stock exchanges:

Country	Stock Exchange
Abu Dhabi	Abu Dhabi Securities Exchange
Argentina	Bolsa de Comercio de Buenos Aires
Bermuda	Bermuda Stock Exchange
Brazil	BM&F Bovespa
Chile	Santiago Stock Exchange
China	Shanghai Stock Exchange Schenzhen Stock Exchange
Colombia	Bolsa de Valores de Colombia
Dubai	Dubai Financial Market
Egypt	Egyptian Exchange
Indonesia	Indonesia Stock Exchange
India	National Stock Exchange of India
Israel	Tel-Aviv Stock Exchange
Malaysia	Bursa Malaysia
Mexico	Mexican Stock Exchange
Nigeria	Nigerian Stock Exchange
Oman	Muscat Securities Market
Peru	Bolsa de Valores de Lima
Philippines	Philippine Dealing and Exchange
Qatar	Qatar Stock Exchange
Russia	Moscow Exchange
Singapore	Singapore Exchange

Country	Stock Exchange
South Africa	Johannesburg Stock Exchange
South Korea	Korea Exchange
Taiwan	Taiwan Stock Exchange
Thailand	The Stock Exchange of Thailand
Turkey	Istanbul Stock Exchange
Vietnam	Ho Chi Minh City SE

(c) The following regulated markets:

- (i) derivatives markets approved in a Member State of the EEA;
- (ii) the market organised by the International Securities Markets Association;
- (iii) NASDAQ in the United States;
- (iv) the market in US Government Securities conducted by primary dealers regulated by the Federal Reserve Bank of New York;
- (v) the over-the-counter market in the United States conducted by primary and secondary dealers regulated by the Securities and Exchanges Commission and by the National Association of Securities Dealers (and by banking institutions regulated by the US Controller of the Currency, the Federal Reserve System or Federal Deposit Insurance Corporation);
- (vi) AIM - the Alternative Investment Market in the United Kingdom, regulated and operated by the London Stock Exchange;
- (vii) the over-the-counter market in Japan regulated by the Securities Dealers Association of Japan;
- (viii) the French market for "Titre de Creance Negotiable (over-the-counter market in negotiable debt instruments);
- (ix) the over-the-counter market in Canadian Government Bonds, regulated by the Investment Dealers Association of Canada;
- (x) the Market conducted by the "listed money market institutions" as described in the Bank of England publication "The Regulation of the Wholesale Case and OTC Derivatives Market" (in Sterling, foreign currency and bullion);
- (xi) EASDAQ (European Association of Securities Dealers Automated Quotation. EASDAQ is a recently formed market and the general level of liquidity may not compare favourably to that found on more established exchanges;
- (xii) HI-MTF (Multilateral Trading Facility);
- (xiii) NYSE Bond match (Multilateral Trading Facility);
- (xiv) EUOTLX (Multilateral Trading Facility);
- (xv) EURO MTF (Multilateral Trading Facility);

- (xvi) MTS Belgium (Multilateral Trading Facility);
- (xvii) MTS France (Multilateral Trading Facility); and
- (xviii) MTS Ireland (Multilateral Trading Facility).

For the purposes of investment in FDIs, a Fund will only invest in FDIs dealt in Regulated Markets in the European Economic Area (“EEA”) or in any of the other non-EEA Regulated Markets referred to above.

The above markets and exchanges are listed in accordance with the requirements of the Central Bank, it being noted the Central Bank does not issue a list of approved markets or stock exchanges.

SCHEDULE II

Investment and Efficient Portfolio Management

A. Investments in FDIs

The following provisions apply whenever a Fund proposes to engage in transactions in FDIs where the transactions are for the purposes of efficient portfolio management or, where disclosed in the Fund's investment policy, for direct investment purposes. FDIs may be used subject to the conditions of, and within the limits laid down by the Central Bank and will only be used in conjunction with an RMP which enables a Fund to measure, monitor and manage the risks associated with FDIs for direct investment and/or efficient portfolio management purposes. The Company will, on request, provide supplemental information to Shareholders relating to the risk management methods employed including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of Investment. The Investment Manager may utilise new techniques and instruments developed from time to time which may be suitable for use provided that they are in accordance with the requirements of the Central Bank and used in conjunction with an RMP that has been approved by the Central Bank. In addition to the foregoing, transactions in FDIs may be used for such other reasons as the Directors deem of benefit to the relevant Fund. While it is not the Investment Manager's intention to leverage a Fund, any leverage resulting from the use of FDIs will be in accordance with the Irish Regulations. See also the section of this Prospectus entitled "*Risk Management*".

The conditions and limits for the use of FDI's in relation to each Fund are as follows:

- a Fund's exposure relating to FDIs must not exceed its total Net Asset Value and therefore leverage will be limited to 100% of the Net Asset Value of a Fund.
- position exposure to the underlying assets of FDIs, including embedded FDIs in transferable securities or money market instruments, when combined where relevant with positions resulting from direct investments, may not exceed regulatory investment limits. (This provision does not apply in the case of index based FDIs provided the underlying Index is one which meets relevant regulatory criteria).
- a Fund may invest in FDIs dealt in over-the-counter provided that the counterparties to such over-the-counter FDIs are institutions subject to prudential supervision and belonging to categories approved by the Central Bank.
- investment in FDIs are subject to the conditions and limits laid down by the Central Bank.

B. Efficient Portfolio Management

General Provisions

The Company may employ techniques and instruments relating to transferable securities and money market instruments for efficient portfolio management purposes subject to the conditions imposed by the Central Bank. Techniques and instruments which relate to transferable securities and money market instruments and which are used for the purpose of efficient portfolio management, including FDI which are not used for direct investment purposes, shall be understood as a reference to techniques and instruments which fulfil the following criteria:

- (a) they are economically appropriate in that they are realised in a cost-effective way;
- (b) they are entered into for one or more of the following specific aims:
 - (i) reduction of risk;
 - (ii) reduction of cost;

- (iii) generation of additional capital or income for the Fund with a level of risk which is consistent with the risk profile of the Fund and relevant regulatory risk diversification rules;
- (c) their risks are adequately captured by the risk management process of the Fund; and
- (d) they cannot result in a change to the Fund's declared investment objectives or add supplementary risks in comparison to the general risk policy as described in the sales documents.

The efficient portfolio management techniques that the Company may utilise include:

- investments in FDIs;
- investments in repurchase/reverse repurchase agreements;
- investments in short-term money market collective investment schemes; and
- entering into securities lending arrangements (where specified in the relevant Fund Supplement).

Efficient portfolio management techniques may only be effected in accordance with normal market practice and subject to the Irish Regulations and the conditions and limits set by the Central Bank from time to time.

Policy on Revenue, Fees and Costs related to Efficient Portfolio Management Techniques

Where a Fund receives revenue as a result of the techniques employed for efficient portfolio management, such revenue will be returned to the UCITS net of any direct and indirect operational costs/fees incurred in respect thereof (which cost/fees shall not include hidden revenue). The identity of the entity or entities to which such direct and indirect operational costs/fees are paid, together with confirmation as to whether or not the entities in question are related parties to the Manager or to the Depositary shall be disclosed in the Company's audited annual accounts.

Collateral Management Policy

The Investment Manager's use of FDIs (including OTC Swaps) and various techniques for efficient portfolio management (including securities lending and repurchase and/or reverse repurchase agreements) may result in a Fund receiving collateral from counterparties from time to time in the form of cash and/or other eligible assets. The risks linked to the management of collateral, including operational and legal risks are captured in the Company's RMP.

All assets received by the Company in connection with techniques employed by the Funds for efficient portfolio management must be considered as collateral.

All collateral received by a Fund from counterparties either in connection with its use of over-the-counter FDIs (including OTC Swaps) or in connection with techniques employed by the Funds for efficient portfolio management shall satisfy the following criteria prescribed by the Central Bank:

- (i) **Liquidity:** Collateral received, other than cash, should be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to its pre-sale valuation. Collateral that is received should also comply with the provisions of Regulation 74 of the Irish Regulations.
- (ii) **Valuation:** Collateral received should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place.

- (iii) **Issuer credit quality:** Collateral received should be of high quality. The Manager shall ensure that:
 - a. where the issuer was subject to a credit rating by an agency registered and supervised by ESMA, that rating shall be taken into account by the Manager in the credit assessment process; and
 - b. where an issuer is downgraded below the two highest short-term credit ratings by the credit rating agency referred to in (a), this shall result in a new credit assessment being conducted of the issuer by the Manager without delay.
- (iv) **Correlation:** Collateral received should be issued by an entity that is independent from the counterparty. There should be a reasonable ground for the Manager to expect that such collateral would not display a high correlation with the performance of the counterparty.
- (v) **Diversification (asset concentration):**
 - a. Subject to (b) below, collateral should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure to a given issuer of 20% of the Fund's Net Asset Value or such other limit as may be specified by the Central Bank from time to time. When a Fund is exposed to different counterparties, the different baskets of collateral shall be aggregated to calculate the foregoing limit of exposure to a single issuer.
 - b. A Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State, its local authorities, as well as non-Member States and public international bodies set out in Schedule III, paragraph 2.12. Such a Fund should receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the Fund's Net Asset Value. Where it is the intention that a Fund will be fully collateralised in securities issued or guaranteed by a Member State, this intention shall be disclosed in the relevant Fund Supplement. Fund Supplements shall also identify the Member States, local authorities, or public international bodies or guaranteeing securities which they are able to accept as collateral for more than 20 per cent of their net asset value.
- (vi) **Immediately available:** Collateral received should be capable of being fully enforced by the Company at any time without reference to or approval from the counterparty.

Collateral received on a title transfer basis shall be held by the Depositary. For other types of collateral, the collateral can be held by a third party custodian which is subject to prudential supervision and which is unrelated to the provider of the collateral.

Stress Testing Policy

In the event that a Fund receives collateral for at least 30% of its net assets, it will implement a stress testing policy to ensure that regular stress tests are carried out under normal and exceptional liquidity conditions in order to allow it to assess the liquidity risk attached to collateral.

Haircut Policy

Non-cash collateral received by a Fund will be subject to a haircut of between 0% to 10% of the value of such collateral in accordance with market standards and depending on the credit quality of the issuer. The exact level of the haircut applied will also take account of the price volatility of the collateral and, where relevant, the results of any stress tests which may be performed.

Level of Collateral Required

The value of any collateral received by the Company, adjusted in light of the haircut policy, must be marked to market daily and must, in the case of financial instruments held in custody exceed, or, in the case of other assets, equal or exceed, in value, at all times, the value of the amount invested or securities loaned.

Non-cash Collateral

Non-cash collateral cannot be sold, re-invested or pledged.

Cash Collateral

The Company employs the following cash management policy in respect of all cash collateral. Cash collateral may be invested in a variety of assets which must be diversified in accordance with the diversification requirements applicable to non-cash collateral as set out above. Invested cash collateral may not be placed on deposit with the counterparty or a related entity. In addition, cash collateral may only be invested in the following:

- (i) deposits with credit institutions which satisfy the requirements of the Central Bank and the UCITS Directive;
- (ii) high-quality government bonds;
- (iii) reverse repurchase agreements provided the transactions are with credit institutions subject to prudential supervision and the Fund is able to recall at any time the full amount of cash on an accrued basis; and
- (iv) short-term money market funds as defined in the ESMA's *Guidelines on a Common Definition of European Money Market Funds* (ref CESR/10-049).

Where a Fund reinvests cash collateral such re-investment will generate market exposure and the value of the assets in which the collateral has been invested may fall in value. The Fund will nonetheless be obliged to return to the counterparty the full value of the cash collateral originally invested.

Eligible Collateral Schedule

In order to ensure compliance with the relevant criteria, the Company employs an Eligible Collateral Schedule which forms part of the risk management policy in relation to collateral management set out in the Company's RMP. The Eligible Collateral Schedule specifies the types of collateral that the Company will accept from counterparties along with the relevant concentration limits and the specific haircuts applied to each class of asset accepted as collateral. The securities posted as collateral are monitored on an on-going basis by the Depositary for compliance with the Eligible Collateral Schedule.

C. Counterparty Eligibility

Counterparties to FDIs entered into by a Fund are selected by the Investment Manager based on an assessment of suitability and credit risk. In particular, a Fund may invest in FDIs dealt in the over-the-counter market provided that:

- (i) the counterparty is a credit institution authorised in the EEA or a credit institution authorised within a signatory state, other than a Member State of the European Economic Area, to the Basle Capital Convergence Agreement of July 1988 or a credit institution authorised in Jersey, Guernsey, the Isle of Man, Australia or New Zealand or an investment firm, authorised in accordance with the Markets in Financial Instruments Directive in an EEA Member State, or is an entity subject to regulation as a Consolidated Supervised Entity ("CSE") by the US Securities and Exchange Commission;
- (ii) in the case of a counterparty which is not a credit institution, the counterparty has a minimum

credit rating of A-2 or equivalent, or is deemed by the Company to have an implied rating of A-2 or equivalent. Alternatively, an unrated counterparty will be acceptable where the Company is indemnified or guaranteed against losses suffered as a result of a failure by the counterparty, by an entity which has and maintains a rating of A-2 or equivalent;

- (iii) in the case of subsequent novation of an OTC derivative contract, the counterparty is one of:
 - (a) the entities set out in paragraph (i) above; or
 - (b) a central counterparty (CCP) authorised, or recognised by ESMA under EMIR or, pending recognition by ESMA under Article 25 of EMIR, an entity classified as a derivatives clearing organisation by the Commodity Futures Trading Commission or a clearing agency by the SEC (both CCP).
- (iv) the Investment Manager must be satisfied that the counterparty will value the transactions with reasonable accuracy and on a reliable basis and will close out any outstanding transactions at any time at the request of the Investment Manager.

SCHEDULE III

Investment and Borrowing Restrictions

Investment of the assets of the relevant Fund must comply with the Irish Regulations. The Irish Regulations provide:

1	Permitted Investments
	Investments of each Fund are confined to:
1.1	Transferable securities and money market instruments which are either admitted to official listing on a stock exchange in a Member State or non-Member State or which are dealt on a market which is regulated, operates regularly, is recognised and open to the public in a Member State or non-Member State.
1.2	Recently issued transferable securities which will be admitted to official listing on a stock exchange or other market (as described above) within a year.
1.3	Money market instruments other than those dealt on a regulated market.
1.4	Units of UCITS.
1.5	Units of alternative investment funds (AIFs), i.e. non-UCITS, as set out in the Central Bank's guidance entitled "UCITS Acceptable Investment in other Investment Funds".
1.6	Deposits with credit institutions.
1.7	FDIs.
2	Investment Restrictions
2.1	Each Fund may invest no more than 10% of net assets in transferable securities and money market instruments other than those referred to in paragraph 1 as accords with the requirements of the Central Bank.
2.2	Each Fund may invest no more than 10% of net assets in recently issued transferable securities which will be admitted to official listing on a stock exchange or other market (as described in paragraph 1.1) within a year. This restriction will not apply in relation to investment by a Fund in certain US securities known as Rule 144A securities provided that: - the securities are issued with an undertaking to register with the US Securities and Exchanges Commission within one year of issue; and - the securities are not illiquid securities i.e. they may be realised by the Fund within seven days at the price, or approximately at the price, at which they are valued by the Fund.
2.3	Subject to paragraph 4, each Fund may invest no more than 10% of net assets in transferable securities or money market instruments issued by the same body provided that the total value of transferable securities and money market instruments held in the issuing bodies in each of which it invests more than 5% is less than 40%.
2.4	The limit of 10% (in 2.3) is raised to 25% in the case of bonds that are issued by a credit institution which has its registered office in a Member State and is subject by law to special public supervision designed to protect bond-holders. If a Fund invests more than 5% of its net assets in these bonds issued by one issuer, the total value of these investments may not exceed 80% of the net asset value of the Fund. To avail of this provision prior approval must be obtained from the Central Bank.
2.5	The limit of 10% (in 2.3) is raised to 35% if the transferable securities or money market instruments are issued or guaranteed by a Member State or its local authorities or by a non-

	Member State or public international body of which one or more Member States are members.
2.6	The transferable securities and money market instruments referred to in 2.4 and 2.5 shall not be taken into account for the purpose of applying the limit of 40% referred to in 2.3.
2.7	Each Fund may not invest more than 20% of net assets in deposits made with the same credit institution. Deposits with any one credit institution, other than credit institutions authorised in the EEA (European Union Member States, Norway, Iceland, Liechtenstein), credit institutions authorised within a signatory state (other than an EEA Member State) to the Basle Capital Convergence Agreement of July 1988 (Switzerland, Canada, Japan, the United States) or credit institutions authorised in Jersey, Guernsey, the Isle of Man, Australia or New Zealand, held as ancillary liquidity, must not exceed 10% of net assets. This limit may be raised to 20% in the case of deposits made with the Depositary.
2.8	The risk exposure of a Fund to a counterparty to an over-the-counter derivatives transactions may not exceed 5% of net assets. This limit is raised to 10% in the case of credit institutions authorised in the EEA, credit institutions authorised within a signatory state (other than an EEA Member State) to the Basle Capital Convergence Agreement of July 1988 or credit institutions authorised in Jersey, Guernsey, the Isle of Man, Australia or New Zealand.
2.9	Notwithstanding paragraphs 2.3, 2.7 and 2.8 above, a combination of two or more of the following issued by, or made or undertaken with, the same body may not exceed 20% of net assets: <ul style="list-style-type: none"> - investments in transferable securities or money market instruments; - deposits, and/or - counterparty risk exposures arising from over-the-counter derivatives transactions.
2.10	The limits referred to in 2.3, 2.4, 2.5, 2.7, 2.8 and 2.9 above may not be combined, so that exposure to a single body shall not exceed 35% of net assets.
2.11	Group companies are regarded as a single issuer for the purposes of 2.3, 2.4, 2.5, 2.7, 2.8 and 2.9. However, a limit of 20% of net assets may be applied to investment in transferable securities and money market instruments within the same group.
2.12	Each Fund may invest up to 100% of net assets in different transferable securities and money market instruments issued or guaranteed by any Member State, its local authorities, non-Member States or public international body of which one or more Member States are members. The individual issuers must be listed in the Prospectus and may be drawn from the following list: OECD Governments (provided the issues are investment grade), Government of China (provided the issues are of investment grade), Government of Brazil (provided the issues are of investment grade), Government of India (provided the issues are of investment grade), Government of Singapore, European Investment Bank, European Bank for Reconstruction and Development, International Finance Corporation, International Monetary Fund, Euratom, The Asian Development Bank, European Central Bank, Council of Europe, Eurofima, African Development Bank, International Bank for Reconstruction and Development (The World Bank), The Inter American Development Bank, European Union, Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac), Government National Mortgage Association (Ginnie Mae), Student Loan Marketing Association (Sallie Mae), Federal Home Loan Bank, Federal Farm Credit Bank, Tennessee Valley Authority and Straight-A Funding LLC. Each Fund must hold securities from at least 6 different issues, with securities from any one issue not exceeding 30% of net assets
3	Investment in open-ended Collective Investment Schemes ("CIS")
3.1	Subject to section 3.2, investments made by a Fund in units of a UCITS or other CIS may not exceed, in aggregate, 10% of the assets of the Fund.

3.2	<p>Notwithstanding the provisions of section 3.1, where the Supplement of a Fund states that it may invest more than 10% of its assets in UCITS or other CIS, the following restrictions shall apply instead of the restrictions set out at section 3.1 above:</p> <p>(a) a Fund may not invest more than 20% of its Net Asset Value in any one UCITS or other CIS;</p> <p>(b) a Fund's Investments in non-UCITS CIS may not, in aggregate, exceed 30% of a Fund's Net Asset Value;</p>
3.3	A Fund may not invest in a UCITS or other CIS which is not itself prohibited from investing more than 10% of its Net Asset Value in other CIS.
3.4	When a Fund invests in units of other CIS the Manager may not levy any Subscription Fee, conversion fee or Redemption Fees, nor may any management fee be charged by it in respect of other CIS which (i) it manages itself either directly or indirectly; or (ii) are managed by a company with which the management company is related by virtue of (a) common management, or (b) common control, or (c) a direct or indirect holding of more than 10 % of the capital or the votes.
3.5	Where a commission (including a rebated commission) is received by the Fund's investment manager/investment adviser by virtue of an investment in the units of another CIS, this commission must be paid into the property of the Fund.
4	Index Tracking UCITS
4.1	A Fund may invest up to 20% of net assets in shares and/or debt securities issued by the same body where the investment policy of the Fund is to replicate an index which satisfies relevant regulatory criteria and is recognised by the Central Bank.
4.2	The limit in 4.1 may be raised to 35%, and applied to a single issuer, where this is justified by exceptional market conditions.
5	General Provisions
5.1	An investment company, or management company acting in connection with all of the CIS it manages, may not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing body.
5.2	<p>A Fund may acquire no more than:</p> <p>(i) 10% of the non-voting shares of any single issuing body;</p> <p>(ii) 10% of the debt securities of any single issuing body;</p> <p>(iii) 25% of the units of any single CIS;</p> <p>(iv) 10% of the money market instruments of any single issuing body.</p> <p>NOTE: The limits laid down in (ii), (iii) and (iv) above may be disregarded at the time of acquisition if at that time the gross amount of the debt securities or of the money market instruments, or the net amount of the securities in issue cannot be calculated.</p>
5.3	<p>5.1 and 5.2 shall not be applicable to:</p> <p>(i) transferable securities and money market instruments issued or guaranteed by a Member State or its local authorities;</p> <p>(ii) transferable securities and money market instruments issued or guaranteed by a non-Member State;</p> <p>(iii) transferable securities and money market instruments issued by public international bodies of which one or more Member States are members;</p> <p>(iv) shares held by a Fund in the capital of a company incorporated in a non-member State which invests its assets mainly in the securities of issuing bodies having their registered offices in that State, where under the legislation of that State such a holding represents the only way in which the Fund can invest in the securities of issuing bodies of that State. This waiver is applicable only if in its investment policies the company from the non-Member State complies with the limits laid down in 2.3 to 2.11, 3.1, 3.2, 5.1, 5.2, 5.4, 5.5 and 5.6, and provided that where these limits are exceeded, paragraphs 5.5 and 5.6 below are observed.</p>

	(v) Shares held by an investment company or investment companies in the capital of subsidiary companies carrying on only the business of management, advice or marketing in the country where the subsidiary is located, in regard to the repurchase of units at unit-holders' request exclusively on their behalf.
5.4	A Fund need not comply with the investment restrictions herein when exercising subscription rights attaching to transferable securities or money market instruments which form part of their assets.
5.5	The Central Bank may allow recently authorised Funds to derogate from the provisions of 2.3 to 2.12, 3.1, 3.2, 4.1 and 4.2 for six months following the date of their authorisation, provided they observe the principle of risk spreading.
5.6	If the limits laid down herein are exceeded for reasons beyond the control of a Fund, or as a result of the exercise of subscription rights, the Fund must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of its Shareholders.
5.7	Neither an investment company, nor a management company or a trustee acting on behalf of a unit trust or a management company of a common contractual fund, may carry out uncovered sales of: <ul style="list-style-type: none"> - transferable securities; - money market instruments*; - units of CIS; or - FDI.
5.8	A Fund may hold ancillary liquid assets.
6	Financial Derivative Instruments ('FDIs')
6.1	The UCITS global exposure relating to FDI must not exceed its total net asset value.
6.2	Position exposure to the underlying assets of FDI, including embedded FDI in transferable securities or money market instruments, when combined where relevant with positions resulting from direct investments, may not exceed relevant regulatory investment limits. (This provision does not apply in the case of index based FDI provided the underlying index is one which meets with relevant regulatory criteria.)
6.3	UCITS may invest in FDIs dealt in over-the-counter (OTC) provided that the counterparties to over-the-counter transactions (OTCs) are institutions subject to prudential supervision and belonging to categories approved by the Central Bank.
6.4	Investment in FDIs are subject to the conditions and limits laid down by the Central Bank.

* Any short selling of money market instruments by a Fund is prohibited.

Borrowing Restrictions

The Irish Regulations provide that the Company in respect of each Fund:

- (a) may not borrow, other than borrowings which in the aggregate do not exceed 10% of the Net Asset Value of the Fund and provided that this borrowing is on a temporary basis. The Depositary may give a charge on the assets of the Fund in order to secure borrowings. Credit balances (e.g. cash) may not be offset against borrowings when determining the percentage of borrowings outstanding;
- (b) may acquire foreign currency by means of a back-to-back loan. Foreign currency obtained in this manner is not classed as borrowings for the purpose of the borrowing restriction in paragraph (a), provided that the offsetting deposit: (i) is denominated in the base currency of the Fund and (ii) equals or exceeds the value of the foreign currency loan outstanding. However, where foreign currency

borrowings exceed the value of the back-to-back deposit, any excess is regarded as borrowing for the purposes of paragraph (a) above and in Regulation 103.

Restrictions relating to a Fund's investments in other Funds of the Company

Where a Fund invests in other Funds of the Company the following conditions shall apply: -

- the Fund will not invest in a Fund of the Company which itself holds Shares in other Funds within the Company;
- the Fund will not be subject to Subscription Fees or Redemption Fees; and
- the Manager will not charge a management fee to the Fund in respect of that portion of the Fund's assets invested in another Fund of the Company.

SCHEDULE IV

The Depositary may delegate its safe-keeping duties in respect of financial instruments in custody to The Bank of New York Mellon SA/NV and/or The Bank of New York Mellon. The following delegates have been appointed by The Bank of New York Mellon SA/NV and/or The Bank of New York Mellon in referenced markets as Sub-custodians. The list of markets below represents the global custody network of Bank of New York Mellon whereas the assets of the Company will normally be listed or traded on Stock Exchanges and Regulated Markets set out in Schedule I.

Country / Market	Sub-delegate	Address
Argentina	Citibank N.A., Argentina * * On March 27, 2015, the Comisión Nacional de Valores (CNV: National Securities Commission) has appointed the central securities depository Caja de Valores S.A. to replace the branch of Citibank N.A. Argentina for those activities performed within the capital markets and in its role as Sub-custodian.	Bartolome Mitre 502/30 (C1036AAJ) Buenos Aires, Argentina

**Legal & General UCITS ETF Plc
(THE “COMPANY”)**

COUNTRY SUPPLEMENT

ADDITIONAL INFORMATION FOR INVESTORS IN THE FEDERAL

REPUBLIC OF GERMANY

This Country Supplement dated 3 September 2019, forms part of, and should be read in conjunction with the latest published version of the Company’s prospectus dated 24 May 2018, as may be supplemented and amended from time to time (the “Prospectus”). Investors should also refer to the Company’s latest published annual report and audited financial statements and a copy of the latest semi-annual report and unaudited financial statements.

The offering of the Shares in the Funds of the Company has been notified to the German Financial Services Supervisory Authority in accordance with section 310 of the Investment Code (*Kapitalanlagegesetzbuch*).

Information and Paying Agent

HSBC Trinkaus & Burkhardt AG, Königsallee 21-23, 40212 Düsseldorf (“**HSBC**”) has undertaken the role as the Company’s information and paying agent in Germany in accordance with section 309 of the Investment Code.

Redemption requests

Requests from German resident investors directly with the Company relating to redemptions of Shares can be addressed to HSBC for processing in accordance with the provisions of the Prospectus. German resident investors can request that the proceeds of such redemption, possible dividends and other payments due to them be paid through HSBC.

Inspection of documents

The Prospectus dated 24 May 2018, Fund Supplements to the Prospectus in respect of the Funds specified below and the Fund Schedule Supplement dated 06 August 2019, the key investor information documents, copies of the constitution of the Company and the annual and the semi-annual reports are available in paper form free-of-charge at the offices of HSBC.

The following material contracts and other relevant documents concerning the Company are available to view free-of-charge at the offices of HSBC:

1. the Management Agreement dated 28 August 2008 between the Company and the Manager;
2. the Depositary Agreement dated 15 September 2016 between the Company, the Manager and the Depositary;
3. the Investment Management Agreement dated 18 February 2011 made between the Manager and the Investment Manager;
4. the Administration Agreement dated 28 August 2008 made between the Manager and the Administrator;
5. the Registrar Agreement dated 28 August 2008 between the Manager, the Administrator and the Registrar; and
6. the Global Distribution Agreement dated 16 March 2018 between the Manager and the Distributor;

Net Asset Value, Subscription and Redemption Prices

The latest subscription and redemption prices and the Net Asset Value as well as possible information to the investors are available free of charge upon request at the offices of HSBC.

The subscription and redemption prices will be published at www.lgimettf.com. Possible information to investors is published in the Federal Gazette ("**Bundesanzeiger**").

The investors in Germany will be informed additionally through a durable medium in the meaning of section 167 of the Investment Code about:

- the suspension of the redemption of the Shares in any Fund;
- the termination of the management or liquidation of the Company or a Fund;
- changes to the Articles of Association of the Company that are incompatible with the existing investment policies, that affect material investor rights or that affect the fees and reimbursement of expenses that can be paid out of the assets of a Fund;
- the merger of Funds in the form of the information on the merger that is required to be prepared according to article 43 of the Directive 2009/65/EC;
- the conversion of a Fund into a feeder fund or changes to a master fund in the form of the information that are required to be prepared according to article 64 of the Directive 2009/65/EC.

Taxation in Germany

It is strongly recommended that investors seek professional advice concerning the tax consequences of the purchase of the Company's Shares prior to making an investment decision.

Paying and Information Agent Agreement

The Manager has appointed HSBC as the Company's paying and information agent pursuant to a Paying and Information Agent Agreement dated 8 October 2008 as supplemented or amended from time to time (the "**Agreement**"). The Agreement provides that HSBC will process redemption requests from

Shareholders (as disclosed above) and will make certain information available to German resident investors. Fees payable to HSBC under the Agreement will be discharged by the Manager. The Agreement contains indemnities in favour of both the Manager and HSBC provided that neither party acts negligently, recklessly, fraudulently or with wilful default in the performance of their obligations.

Sub-funds not publicly marketed in Germany

No authorisation for distribution in the Federal Republic of Germany pursuant to Article 310 of the Investment Code was requested for the following Funds of the Company:

- **L&G LOIM Global Government Bond Fundamental UCITS ETF;**
- **L&G LOIM Global Corporate Bond Fundamental UCITS ETF;**
- **L&G LOIM Euro Corporate Bond Fundamental UCITS ETF;**
